2022-2023 Undergraduate Bulletin

This bulletin is current as of September 2022. The State University of New York College at Geneseo reserves the right to make changes in policies, requirements, and regulations as conditions change and such revisions are necessary subsequent to the bulletin's publication.

All students are expected to have knowledge of the information contained in this publication and others, including the Student Handbook and the academic advisement materials explaining individual programs.

This bulletin describes all current undergraduate programs of the College. For graduate program information, see the most recent Guide to Graduate Studies. This is the official undergraduate bulletin of record.

Accreditation

The College is accredited by the Commission on Higher Education of the Middle States Association of Colleges and Schools. Our academic programs have been approved and registered by the New York State Education Department. Other accreditations or certifications include those from the American Chemical Society, the Association to Advance Collegiate Schools of Business, and the Council for the Accreditation of Educator Preparation.

This edition of the Undergraduate Bulletin covers undergraduate programs for the 2022-23 academic year. Information in it is accurate as of September 2022. To maintain the integrity of the SUNY Geneseo Undergraduate Bulletin, links to program updates will be documented separately, between catalog publications. SUNY Geneseo reserves the right to make changes in policy and regulations, and its faculty reserves the right to change course content, course availability, and program requirements, as circumstances dictate. The final authority on such matters is the Provost & Vice President for Academic Affairs, whose designee shall serve as resource person should questions arise about changes. The Assistant Provost for Curriculum and Assessment, the Provost's designee, is located on the second floor of Erwin Hall, 585-245-5531.

Geneseo's Mission and Values Statements

Mission, Vision, & Values

Mission Statement

We are a distinctive public liberal arts college that welcomes and inspires students to develop their knowledge and skills to build a better world. Our supportive, inclusive community is exceptional in cultivating creativity, engagement, and discovery. We find strength in diversity, joy in growth, and fulfillment in lifelong learning.

Vision

Geneseo will be recognized widely for demonstrating the enduring power of a public liberal arts education.

Values

The Geneseo campus community is guided by our beliefs in and commitments to the following values:

- **Learning:** Embracing high expectations for intellectual inquiry, critical thinking, scholarly exploration, and personal growth.
- **Creativity:** Empowering a spirit of innovation that inspires intellectual curiosity, self-expression, and problem-solving.
- **Belonging:** Welcoming a diverse campus community that supports and celebrates different identities, promotes equity and inclusion, and respects the ideas and contributions of each individual.
- **Civic Engagement:** Encouraging active participation grounded in self-reflection, empathy, and an ethical commitment to the common good of our local and global communities.
- **Sustainability:** Building a culture of well-being that integrates and applies principles of environmental, social, and economic stewardship informed by an understanding of the past and our obligations to the future.

Geneseo's Statement on Diversity and Community

Community Commitment to Diversity, Equity, and Inclusion

At SUNY Geneseo, we are a community of students, staff, faculty, and administrators living and working together in a spirit of inquiry so that, individually and collectively, we may achieve our full potential.

Our community extends to the many graduates, retirees, and others who remain actively engaged in advancing our mission and values as a public liberal arts college.

Located in the historic homelands of the Seneca Nation of Indians and Tonawanda Seneca Nation, we at SUNY Geneseo have an obligation to recognize all who, through history or identity, have been marginalized or oppressed, made invisible or silenced.

We recognize that our own identities are many and varied, forged by culture, circumstance, and choice. Some of us inhabit multiple identities where histories of exclusion or injustice intersect.

We are here to listen, to learn, to teach, to debate, to change, to grow. We should all be safe to pursue these goals at SUNY Geneseo while being who we are. Together, we commit ourselves to pluralism, cultivation a community that respects difference and promotes a sense of inclusion and belonging.

Our differences, including those of opinion or perspective, make us stronger. Together, we commit ourselves to sustaining and expanding the diversity of our community and to making equity for all members of our diverse community a measure of our success.

We share responsibility for achieving these goals, and for making Geneseo a place where each of us may contribute to and realize the promise of public liberal education: to broaden understanding, heighten awareness, awaken empathy, and foster empowerment.

Endorsed by the College Senate and approved by the President of SUNY Geneseo, October 2018.

Questions, comments, and concerns about this Community Commitment to Diversity, Equity, and Inclusion can be directed to the Chief Diversity Officer (ode@geneseo.edu).

Geneseo's Statement on Sustainability

SUNY Geneseo calls upon all members of our community to embrace sustainability as a core value, including a commitment to its constitutive principles of ecological, social, and economic justice. We recognize the critical role of higher education in creating a sustainable society. Through teaching, research, service, and institutional conduct we strive to nurture the values, skills and knowledge necessary to sustain and enhance human and non-human life on the planet.

The college understands that sustainability is a process of building support for societal and intergenerational equity and a shared sense of responsibility for the ethical stewardship of our social and natural environment. We endorse the broad scientific consensus that human demands on the planet threaten the ecological, social and economic resources upon which our global society depends.

As a public liberal arts college, we seek solutions to these increasingly complex, interdisciplinary problems that are consistent with our shared values and ideals. Recognizing that the promotion of sustainability is central to the mission of the college, SUNY Geneseo calls upon its faculty, students and staff to foster a culture of sustainable and responsible citizenship on campus. By minimizing the environmental impact of our institutional operations and integrating the principles of sustainability throughout our academic disciplines and co-curricular life we can begin to realize a more profound and enduring form of prosperity for current and future generations.

Approved by the college Senate May 2013

SUNY Geneseo @ A Glance

Historical Background

SUNY Geneseo, one of thirteen university colleges within the State University of New York system, was established by an act of the New York State Legislature in 1867 as the Geneseo Normal and Training School and opened September 13, 1871. Curricular offerings included elementary English, advanced English, and classical studies.

In the early 1900s, the curriculum was reorganized to require two years of professional study, and admission was restricted to high school graduates. In 1922, the programs were extended to three years, and in 1938, to four years. In 1942, the College was granted authority to confer baccalaureate degrees in all its curricula. Basic teacher training programs were expanded to include preparations for teacher-librarians, teachers of children with special needs, and speech pathologists. Teacher education continues to be a strong component of the College's programs.

Geneseo became an original campus of the new State University of New York system at SUNY's inception in 1948. During the next three decades the College developed strong liberal arts and sciences programs and added several professional curricula to its offerings. The first master's degrees were awarded in 1951. In 1962, the teachers colleges of the State University became Colleges of Arts and Sciences. Geneseo's four-year degree programs in arts and sciences were implemented in 1964. Since then, the School of Business was established and majors have been added in such areas as biochemistry, and international relations. The College now offers more than 50 degree programs in a wide variety of disciplines. Cooperative programs have been developed in several fields with other institutions, including 3-2 engineering, 3-4 dental, and 3-2 and 4-1 MBA programs. The College's commitment to providing a broad-based liberal arts education was confirmed in 1980 with the establishment of a required core curriculum in natural sciences and mathematics, social sciences, humanities, and fine arts. Further revision in 1999 added critical writing, a quantitative requirement and foreign language. The College continues to improve and upgrade its curriculum through regular review and assessment. The strength of the liberal arts program was recognized in 2003 with approval for the installation of a Phi Beta Kappa chapter on campus. The chapter inducted its first class in Spring, 2004.

Since 1994, SUNY Geneseo has been a member of The Council of Public Liberal Arts Colleges (COPLAC), an alliance of high quality, public liberal arts institutions. Founded in 1987, COPLAC serves to promote excellent undergraduate education in the liberal arts tradition; the development of effective teaching and learning communities; and the expansion of access to public undergraduate liberal arts education of the highest caliber. COPLAC's membership currently consists of twenty-five public liberal arts colleges and universities who are committed to providing and advocating for the superlative, life-enhancing undergraduate education normally associated with small independent colleges. COPLAC also provides leadership in defining and modeling "best practice" in undergraduate education and promoting the qualities cultivated by outstanding student-centered liberal arts colleges.

The State University of New York at Geneseo has evolved dramatically over its 150 year history into a highly selective public liberal arts college, which is nationally recognized for the quality of education it offers.

Locale

Geneseo is located in the heart of the Genesee Valley, noted for its scenic beauty. Rich in Native American history and legend, and the former site of many Native American villages, the Genesee Valley was the western limit of the territory of the Senecas.

Geneseo is an ideal college town, with long-established traditions of friendship and culture. Both the village - one of 24 communities nationwide to be recognized as a National Historic Landmark - and the campus's ivy-covered brick buildings reflect a traditional college atmosphere.

The College is readily accessible. Rochester, which is 30 miles to the north, is served by Amtrak and several airlines. Bus service connects Geneseo with Rochester and with many towns and cities in surrounding counties. LATS (Livingston Area Transportation Service) provides regular daily shuttle service around College and to local commercial areas, as well as weekend service to Rochester designed for Geneseo students.

Geneseo's 220-acre campus is located just a few minutes off Interstate Route 390, which connects with the New York State Thruway (Exit 46) in Rochester. US Route 20A, and NYS Routes 63 and 39, all pass through the village of Geneseo near the campus.

Roemer Arboretum

The Roemer Arboretum was founded in 1990 through an endowed gift to the Geneseo Foundation by Spencer J. Roemer, College benefactor and former director of admissions. It consists of 20 acres, located on the south campus of the College, south of the residence hall and between Routes 20A/39 and Route 63. Visitors enter from Routes 20A/39 through the South Campus parking lot J.

Mr. Roemer expressed the wish that the area be used as a living outdoor classroom by College faculty and students to preserve and enhance the beauty of the Genesee Valley. The arboretum is open, free of charge, from dawn to dusk. Visitors are encouraged to walk along the paths, admire the beauty of the Genesee Valley, inspect the variety of trees and plants, relax and enjoy the view from the gazebo and benches. Future plans include additional plantings indigenous to the northeastern area of the United States.

Galleries

The Bertha V.B. Lederer Gallery in William A. Brodie Hall presents both contemporary and historic rotating exhibitions including works by local, regional and national artists. The Bridge Gallery, a unique space bridging two wings of Brodie Hall exhibits art work by Geneseo students and the Kinetic Gallery in the Robert W. MacVittie College Union exhibits work by students and local artists.

The Lockhart Gallery is in the McClellan House, an historic home at 26 Main Street built in 1825, and named to honor the late Robert and Jeanette McClellan and their family. The renovation of McClellan house, in 2001, was made possible through the collaborative efforts of the College and the Geneseo community. Campus Auxiliary Services are the current managers of McClellan House. More information on the galleries may be found at <http://geneseo.edu/galleries>

Buildings and Facilities

The Geneseo campus is characterized by its picturesque setting overlooking the meandering Genesee River and by its attractive buildings combining brick and limestone in collegiate Gothic and functional styles. State-of-the-art computer network connects all academic and administrative buildings, and residence halls. Wireless network is available in all academic buildings and surrounding outdoor areas.

James B. Welles Hall, which houses several academic departments and college classrooms was originally a "demonstration school" and, later, the elementary school for the Geneseo Central School District. Lockers and some fixtures remain as charming reminders of that history.

Bertha P. Fraser Hall connects Wads Aud., South Hall and Sturges Hall and houses faculty offices and classrooms. Austin W. Erwin Hall is one of four buildings fronting the College Green on the upper quadrangle. The new Integrated Science Center also fronts the College Green and was opened Fall, 2006. This 176,000-square-foot building is designed for interdisciplinary collaboration and to support Geneseo's strong undergraduate research program. The departmental offices for Biology, Chemistry, Geology and Physics are housed in the Integrated Science Center as well as cutting-edge facilities and equipment for science education, research, and connections with community biotechnical and chemical analysis companies. Connected to the Integrated Science Center is Newton Hall, containing classrooms.

Guy A. Bailey Hall honors a nationally known biologist who served as chair of the sciences at Geneseo. Bailey Hall now houses the departments of Anthropology, Geography, Psychology and Sociology.

The William J. and John M. Milne Library, just off the College Green and overlooking the valley, is widely recognized for its innovative use of space and service orientation to students and faculty. In addition to traditional stacks, reference desk, and an award-winning interlibrary loan department, it includes space for group work, high tech classrooms, computing facilities, the Teaching and Learning Center, the ESOL (English for Speakers of Other Languages) Center, the Center for Academic Excellence, and Books & Bytes Café.

William A. Brodie Hall, designed by distinguished architect and former apprentice to Frank Lloyd Wright, Edgar Tafel, houses three departments of fine and performing arts, and includes the Austin and Sinclair theaters, music rooms, dance studios, and the Lederer and Bridge art galleries.

South Hall, which opened in 1995, houses the Schools of Business and Education, and the department of Mathematics, as well as the College's main computing facilities (including a two-level general access computer laboratory). The three-story structure contains state-of-the-art teaching facilities, including specialized classrooms developed to meet the programmatic needs of the four academic departments.

Doty Hall, which served as Geneseo High School (1932-1974) and then housed the Office for People with Developmental Disabilities (OPWDD), was fully renovated and re-opened in 2013. OPWDD continues to occupy the ground level and several College offices occupy the top floors, including the President's Office, and the vice presidents for Enrollment Management, Student & Campus Life, Administration & Finance, and College Advancement. The Admissions office, the Center for Inquiry, Discovery and Development and the Office for National Fellowships and Scholarships are also in Doty, as well as an acoustically-exceptional recital hall that hosts dozens of concerts throughout the year.

Residence halls are grouped into the South Village, the Central Village, and the North Village to encourage a sense of community and interconnections among residents. The South Village consists of Nassau, Niagara, Onondaga, Suffolk, and Wayne halls, along with Red Jacket Dining Hall. Many of these halls are corridor-style, popular with first-year students. Saratoga Terrace, townhouse style campus housing for two hundred upper-level students, links the South Village with central campus. The complex includes a Commons building with laundry facilities and group meeting space. The Central Village is comprised of Jones, Livingston, Monroe, and Steuben halls and is close to Mary Jemison Dining Hall. Monroe hall's 2013 renovation is certified to gold LEED standards and it boasts geo-thermal heating and rain-water harvesting. The North Village, where Letchworth Dining Hall reopened in Fall 2014, includes Allegany, Erie, Genesee, Ontario, Putnam, Seneca, and Wyoming halls. The suite-style halls in the North Village provide flexible group-living spaces, popular with upper-level students. Putnam Hall, connecting Allegany and Wyoming halls, won a regional award for excellence of design when it opened in Fall 2004. Seneca hall, new in 2009, is an architectural complement to Putnam; this 84-bed residence connects Genesee and Ontario halls.

Residence halls provide service and reception areas as well as student lounges and study spaces. Each room has one cable TV connection in addition to two hard-wired internet ports and wireless internet access. Student rooms do not include private phones, but shared telephones are provided in each hallway. Every residence hall room is equipped with fire sprinklers and smoke alarms. Carbon Monoxide (CO) detectors are installed in bedrooms and common spaces on

any level in residence halls where there is gas-fired equipment. Every residence hall building includes laundry facilities and kitchenettes. All residence hall exterior doors are locked 24 hours a day with a card-access security system; residential students enter their halls with their Geneseo ID cards.

The campus meal plan offers many dining options. Centrally located Mary Jemison Dining Hall is a state-of-the-art dining food court offering a wide variety of choices. In addition, the Red Jacket and Letchworth dining halls offer all-you-can-eat value meals seven days a week for lunch and dinner. Other options include a ChowHound food truck, Southside Café and Uncle Vito's Pizza Delivery. The MacVittie College Union features a Starbucks Cafe and a Fusion Market, which blends Mediterranean and Southeast Asian cuisine, as well as fresh fruits and vegetables. Milne Library hosts Books & Bytes cafe. The student meal plan may also be used at the Big Tree Inn, a landmark fine dining establishment and inn located on Main Street in the village of Geneseo.

Student Health and Counseling Services are located in the Lauderdale Health Center. This building houses medical equipment and supplies necessary for the health and counseling needs of students and is staffed by full-time College medical personnel.

The Carl L. Schrader Health and Physical Education Building is one of the facilities designed to provide for the health, physical education, and recreational needs of the College community. This building has a gymnasium, racquetball courts, dance studio, individual exercise areas, and other facilities for instructional and extracurricular programs. It also houses the offices of University Police and Facilities Planning.

The Myrtle Merritt Athletic Center is connected to Schrader Building, and contains Kuhl Gymnasium, Wilson Ice Arena, a swimming and diving pool, a complete fitness center with workout equipment, a wrestling room, four squash courts, and coaches' offices.

College Stadium is a 2,000-seat, fully-lighted facility with two synthetic turf fields that accommodate soccer, field hockey, men's lacrosse and women's lacrosse, as well as intramural and casual recreation. Amenities include individual work rooms, four team rooms, a full athletic training facility, as well as two press boxes and a full-service concession area.

A large proportion of the campus adjacent to the health and physical education complex has been developed, according to a comprehensive plan, as an outdoor athletic and recreational area. Raschi Field for softball, and space for archery, golf, lacrosse, soccer, field hockey, and tennis are located in this area. Moench Field serves the needs of the track and field programs.

The Robert W. MacVittie College Union is the hub of recreational and cultural student activities on the campus. It includes: student organization and staff offices; lounges, meeting rooms, recreation, study areas; Starbucks and Fusion Market; campus bookstore; ballroom; student art gallery; computer and project area with photocopiers; the campus mail facility; ATM machine, the Geneseo Federal Credit Union; MOSAIC (Multicultural Organization Space for Activities, Inclusion, and Collaboration); GOLD leadership center. Student organization mailboxes, package claim, and meeting room key sign-outs are provided. The Ticket Office sells tickets for all performing arts events on campus. Further information is available at <http://union.geneseo.edu>.

Academic Programs

SUNY Geneseo

Additional Information on Academic Programs

Explanation of Listings

The department (or content) designation which precedes each course is abbreviated to four letters. The same method of course identification is used in other college publications (e.g., class schedules), reports, and forms (e.g., grade reports, class lists). Figures after the description of each course signify (1) the credits which are earned by successful completion of the course, (2) the number of 50-minute-equivalent lecture style class periods per week (i.e., lecture, discussion, and recitation), and (3) the number of 50-minute-equivalent non-lecture style class periods per week (e.g., activity, laboratory, and studio). Thus, the entry 3(2-2) indicates that (1) the course carries three credits, (2) 100 minutes per week occur in lecture style, and (3) 100 minutes per week are spent in non-lecture style class periods. Unless indicated otherwise following the descriptions, courses are normally offered every semester. The College, however, reserves the right to make changes if circumstances require.

Prerequisites

Many courses carry prerequisites, which are published in course descriptions of the Undergraduate Bulletin for 100-, 200-, 300-, and 400-level courses and the Graduate Guide for 500- and 600-level courses. (Prerequisites for experimental courses are published in KnightWeb) The term "co-requisite" means that students must be enrolled concurrently in both courses so designated. Students are responsible for knowing and fulfilling all prerequisites prior to registration. A student who enrolls in a course without completing all prerequisites or receiving permission from the instructor to waive prerequisites may be subject to removal from the course

Experimental Courses

Experimental courses, so designated because they are innovative or unique in content, method of presentation, or staffing, may be offered at the College during any instructional period (i.e., fall and spring semesters, intersession, summer sessions) on departmental and interdisciplinary bases. If offered within a single department, as defined by content and instructional staff, these courses carry the regular departmental designation (e.g., ANTH for Anthropology, MATH for Mathematics, PLSC for Political Science). If interdepartmental or interdisciplinary in nature, because of content or instructional staff, the courses carry an INTD designation. Regardless of level, all such courses are assigned a temporary course number (i.e., -88); they do not appear in the course listings in this bulletin. However, they are listed in the online Course Schedule in KnightWeb. Experimental courses are proposed by departments and approved for first offering by the Assistant Provost for Curriculum and Assessment. Departments may offer experimental courses only once without Senate approval. Students may not be able to repeat courses that are offered on a one-time basis.

Slot Courses

Slot courses are those sufficiently general in nature that they may encompass a variety of specific topics. They are easily identified by the format of the titles; after the general title, which is followed by a colon, the subtitle is printed (e.g., ENGL 203 Reader & Text: subtitle).

Directed Study Courses

In order to allow the pursuit of special interests or specialized areas in which the College does not offer regular courses, policy provides an opportunity for students to arrange independent or individualized instruction with faculty who share their interests. Instruction offered under such an arrangement is called a directed study course and is at the discretion of the instructor.

Directed Study courses meet according to schedules agreed upon mutually by instructors and students. Students complete work independently under the guidance and supervision of members of the faculty. In directed study courses, students engage in academic pursuits such as conducting research and reporting results, investigating problems and presenting conclusions, reading intensively in a discipline, and/or studying advanced subject matter relating to a selected subject, special topic, or specific area. Opportunities for directed study are available in most of the content areas and departments listed on the following pages at the discretion of individual instructors. The online Directed Study submission form should include the subject matter of the course, the work required of the student, and the system for evaluation of the student's work. The levels (i.e., introductory, intermediate, and advanced) at which such study can be undertaken vary, but the numbers of such courses usually end in "99." The permanent records of students who enroll in these courses are noted with "DS," followed by a brief, specific title.

American Studies

Caroline Woidat, Coordinator
(Welles 228A)

Faculty: Interdepartmental faculty representing various departments.

HEGIS Code: 0313.00

Bachelor of Arts

American Studies, B.A.

American Studies is an interdisciplinary program offering a wide range of courses that develop the analytical, research, and communication skills necessary for success in a variety of fields. The major integrates materials, themes, and approaches from diverse areas of study including history, literature, political science, sociology, communication, film and media, gender and sexuality, African American studies, and Native American studies. The program allows students to explore transnational, cross-cultural, and comparative perspectives of the United States. A degree in American Studies can help prepare students for career paths in academia, social activism, non-profit work, media, law, government, museum management, librarianship, and teaching. The program provides a broad grounding in the study of the United States while also allowing students the flexibility to pursue their own intellectual interests and goals.

Program Learning Outcomes

1. Demonstrate knowledge of competing histories, stories, and interpretations of American experience and identity.
2. Identify and evaluate the complexities in perspectives and representations of American history and experience due to differences in gender, race, and regional identity.
3. Recognize different disciplinary approaches to the study of American cultures.
4. Be able to analyze and compare different kinds of texts and artifacts-e.g. historical documents, literary texts, films, museum exhibits, monuments, visual art, electronic media, etc.
5. Be able to produce analytical essays that adhere to the conventions of critical writing.

6. Be able to orally communicate, discuss, and debate critical ideas in ways that respect the diversity of the community.

Elective hours: (18 Credits)

Elective hours in courses emphasizing American Studies selected under advisement (e.g., in American Studies**, anthropology, art history, communication, economics, geography, history, literature, music, philosophy, political science, sociology, and theatre arts). (from a list of approved courses)

Guidelines for course selection:

1. Students may take AMST 201: (subtitle) for credit toward the major twice, as long as the subtitle is different in each case.
2. Electives must be selected from at least three different departments.
3. Majors must earn a minimum of 18 credit hours in courses at the 300-level or higher.
4. A maximum of 9 credits may be taken at the 100-level of the 40 credits required for the major.

Writing Requirement

American Studies, English, and History courses all require significant amounts of writing. The interdisciplinary American Studies major provides students with an intensive and cumulative writing experience by requiring a minimum of 5 courses in these three subject areas and 5 courses at the 300 level or higher. Writing courses will be selected under advisement; qualified students will be allowed to research and write about topics of their choice in directed studies over one or two semesters (see bulletin listings for AMST 393, AMST 396, AMST 399).

Minimum Competence Requirement:

A grade of C- or better is required in all courses submitted in fulfillment of the 40-hour requirement for the American Studies major.

Anthropology

Paul Pacheco, Chair

(BaileyHall 153)

anthropology.geneseo.edu

HEGIS Code: 2202.00

Bachelor of Arts

Anthropology, B.A.

Program Learning Outcomes

- 1) Students will demonstrate mastery over content pertaining to human cultural and biological diversity using appropriate evidence, conventions, and critical terminology.
- 2) Students will demonstrate competency using the research methods pertaining to at least one of the four fields of anthropology in the collection and analysis of anthropological data.
- 3) Students will demonstrate competency in their ability to search and evaluate scholarly anthropological research materials.
- 4) Students will demonstrate competency in the written presentation of original ideas and supporting materials evaluating anthropological evidence.
- 5) Students will demonstrate competency in their ability to orally organize, express and present anthropological research.
- 6) Students will demonstrate competency using diverse theoretical perspectives to analyze and interpret anthropological evidence.

General Education Requirements (30-46 Credits)

Prerequisite coursework may be required to satisfy certain General Education courses and will count as elective credit.

Total credits required to complete major: 36

Basic Requirements (15 Credits)

- ANTH 100 - S/M/Introduction to Cultural Anthropology **Credit(s): 3 ***
- ANTH 105 - S/Introduction to Biological Anthropology **Credit(s): 3**
- ANTH 316 - Human Ecology **Credit(s): 3**

Choose one course from:

- ANTH 110 - Introduction to Archaeology **Credit(s): 3**
- ANTH 120 - S/Language and Culture **Credit(s): 3**

Choose one course from:

- ANTH 208 - M/Classics of Ethnography **Credit(s): 3**
- ANTH 229 - S/M/Ethnography and Film **Credit(s): 3**

Exploratory Learning: (12 Credits)

In consultation with your advisor, choose any combination of four electives at the 200-level or above, at least two of which must be at or above 300-level. Any ANTH course, 200-level or above, including ANTH 299, may be used to fulfill this requirement, but only if it has not been used to fulfill a different requirement for the major. No double counting allowed.

Transformational Learning: (3 Credits)

Choose one of these options:

- ANTH 305 - Linguistic Methods **Credit(s): 3**
- ANTH 317 - Human Osteology **Credit(s): 3**
- ANTH 320 - Archaeological Field School **Credit(s): 3**
- ANTH 323 - Primate Field School **Credit(s): 3**
- ANTH 325 - International Fieldwork:(region) **Credit(s): 1-6**
- ANTH 336 - Forensic Anthropology **Credit(s): 3**
- ANTH 382 - Ethnographic Field Methods **Credit(s): 3**
- ANTH 383 - Archaeological Method and Theory **Credit(s): 3**
- ANTH 395 - Internship in Anthropology **Credit(s): 3-15 as arranged ****
- ANTH 399 - Directed Study and Research **Credit(s): 1-3 ****
- ANTH 402 - Sociomedical Sciences Capstone **Credit(s): 4**
- ANTH 493 - Honors Research/Writing **Credit(s): 3** (Please note that this is a two semester - 6 credit sequence, as approved by the department, which fulfills the transformational learning requirement and one exploratory learning elective if taken for both semesters.)
- ANTH 499 **Credit(s): 3 ****

Seminars in Critical Thinking: (6 Credits)

- ANTH 410 - Classical Theory in Anthropology **Credit(s): 3**
- ANTH 421 - Contemporary Theory in Anthropology **Credit(s): 3**

Footnotes

*Students may petition the department to substitute ANTH 101 for ANTH 100, but only if ANTH 101 is taken before or in the semester the student declares an Anthropology major.

** A maximum of 6 credits allowed for the major from: ANTH 399 and/or ANTH 499

*A grade of C- or better is required for all Anthropology courses used in fulfillment of the major.

Department Writing Requirement

Students will meet the department writing requirement by successfully passing ANTH 410 and ANTH 421.

- 8) Demonstrate Knowledge of Theory

General Education Requirements (30-46 Credits)

Prerequisite coursework may be required to satisfy certain General Education courses and will count as elective credit.

Total credits required to complete major: 39

Basic Requirements:

- ARTH 200 - Art and Religion in the West: Classical, Jewish, Christian, Muslim, Asatru (400-1100) **Credit(s): 3 or**
- ARTH 171 - F/History of Western Art: Prehistoric through Gothic **Credit(s): 3**

- Two 200-level ARTH elective **Credit(s): 6**
- ARTH 387 - Research Methods in Art History **Credit(s): 3**
- Two 300-level ARTH elective **Credit(s): 6**

Two courses from:

- ARTH 160 - African American Art History Survey **Credit(s): 3**
- ARTH 172 - F/History of Western Art: Renaissance through Rococo **Credit(s): 3**
- ARTH 173 - F/History of Western Art: Neoclassicism to Contemporary **Credit(s): 3**
- ARTH 174 - F/Visual Culture Today **Credit(s): 3**

One course in Renaissance

- ARTH 203 - F/Renaissance Europe: Rebirth of Classical Culture **Credit(s): 3**
- ARTH 213 - F/High Renaissance and Mannerism In Europe (1480-1600) **Credit(s): 3**

One course in 19th Century-Contemporary

- ARTH 278 - F/19th Century European Art from the French Revolution to the Post Impressionists **Credit(s): 3**
- ARTH 287 - F/Avant-Garde Modernism (1900-1950) **Credit(s): 3**

One course must be from Other Cultures/Other Civilizations

- ARTH 302 - Latin American Art From Late Colonial to Contemporary **Credit(s): 3**
- ARTH 384 - Baroque Art in Italy, Spain, France, and The Netherlands **Credit(s): 3**

Two of the following courses

- ARTH 300 - Major Artists and Issues: (subtitle) **Credit(s): 3**
- ARTH 310 - Women Gender and Art **Credit(s): 3**
- ARTH 378 - Museum Studies **Credit(s): 3**
- ARTH 384 - Baroque Art in Italy, Spain, France, and The Netherlands **Credit(s): 3**
- ARTH 399 - Directed Study **Credit(s): 1-3**

Optional - Honors Thesis:

Year-long project in consultation with an Advisor for 3 credits of ARTH 399 and 3 credits of ARTH 393. No more than 3 credits of ARTH 399 may be used towards the major requirements.

Departmental Notes:

Students who plan to go to graduate school in Art History are advised to take courses that develop writing and research skills, and to acquire German, French and area of specialization languages (e.g. Spanish, Italian, Latin, Asian languages, etc.) Study abroad is highly recommended for Art History majors. Students with an interest in Arts Management (Galleries, Arts Administration, Museology) are advised to add a Business Minor. Students with an interest in Conservation and Restoration are advised to take Chemistry I and II.

Minimum Competence Requirement

A grade of C- or better is required for all Art History and cognate area courses used to fulfill major requirements.

Department Writing Requirement

The department writing requirement is fulfilled through the successful completion of ARTH 387, which requires a 20-25 page research paper.

Concentration in Art History

A liberal arts concentration in Art History, available to majors in Early Childhood and Childhood, Childhood and Childhood with Special Education.

Biochemistry

Travis Bailey, Coordinator
(Integrated Science Center 350)
biochem.geneseo.edu

HEGIS Code: 0414.00

The interdepartmental degree in Biochemistry stresses basic science and analytical skills. Extensive laboratory experience is acquired making use of the modern instrumentation in both the Biology and Chemistry departments. Graduates of this program are well prepared for employment in the fields of Biochemistry, Biotechnology, Cell Biology, and Molecular Biology. The program also provides excellent preparation for the pursuit of advanced academic or professional degrees.

Biology and Biochemistry Proficiency: Students must have a C+ or better average in their first two REQUIRED Biology lecture courses at SUNY Geneseo to remain as Biology or Biochemistry majors. For most this is Biol 117 and Biol 119 but for those accepting AP credits or transfer students it could be other combinations.

Not available to students majoring in Neuroscience.

Bachelor of Science

Biochemistry, B.S.

Program Learning Outcomes

- 1) Demonstrate a broad-based knowledge and comprehension of the salient properties and functions of the main classes of biomolecules required to sustain life, as well as the central metabolic, regulatory and bioenergetic pathways required for the viability of biological cells.
- 2) Demonstrate a basic understanding of the laboratory techniques used in biochemistry and related areas.
- 3) Display an ability to effectively communicate (both written and orally) important biochemical concepts and methods.
- 4) Be able to understand and interpret key biochemical research data from the primary literature.

General Education Requirements (30-46 Credits)

Prerequisite coursework may be required to satisfy certain General Education courses and will count as elective credit.

Total Credits Required to Complete Major: 72

Basic Requirements: (53 Credits)

- BIOL 116 - N/General Biology Laboratory **Credit(s): 2**

- BIOL 327 - Molecular Ecology **Credit(s): 3**
- BIOL 330 - Immunology **Credit(s): 4**
- BIOL 334 - Biology of Cancer **Credit(s): 3**
- BIOL 340 - Modeling Biological Systems **Credit(s): 3**
- BIOL 342 - Parasitology **Credit(s): 4**
- BIOL 346 - Biology of Invertebrates **Credit(s): 4**
- BIOL 347 - Biology of Vertebrates **Credit(s): 4**
- BIOL 348 - Plant Diversity **Credit(s): 4**
- BIOL 349 - Principles of Microbiology **Credit(s): 4**
- BIOL 350 - Foundations of Biostatistics **Credit(s): 3** (cannot be used as an elective if it is selected as a Related Requirement option)
- BIOL 354 - Developmental Biology **Credit(s): 4**
- BIOL 361 - Plant Physiology **Credit(s): 4**
- BIOL 364 - Animal Physiology **Credit(s): 4**
- BIOL 378 - Microscope Techniques **Credit(s): 1**
- BIOL 391 - Electron Microscopy **Credit(s): 2**
- BIOL 392 - Genome Analysis **Credit(s): 2**
- BIOL 393 - Honors Thesis **Credit(s): 3**
- BIOL 394 - Neurobiology Techniques **Credit(s): 2**
- BIOL 399 - Directed Study **Credit(s): 1-3**
- CHEM 301 - Biochemistry Laboratory **Credit(s): 2** (if not used to fill the lab requirement)
- CHEM 305 - Topics in Anticancer Therapeutic Biochemistry **Credit(s): 3**
- CHEM 313 - Laboratory Techniques in Organic Chemistry I **Credit(s): 2**
- CHEM 315 - Bioorganic Chemistry **Credit(s): 3**
- CHEM 318 - Advanced Organic Chemistry **Credit(s): 3**
- CHEM 322 - Physical Chemistry II **Credit(s): 3** (cannot be used as an elective if it is selected as a Basic Requirement option)
- CHEM 329 - Topics in Physical Chemistry **Credit(s): 3**
- CHEM 330 - Inorganic Chemistry I **Credit(s): 3**
- CHEM 331 - Laboratory Techniques in Inorganic Chemistry **Credit(s): 2**
- CHEM 334 - Bioinorganic Chemistry **Credit(s): 3**
- CHEM 340 - Modern Analytical Chemistry **Credit(s): 3**
- CHEM 341 - Modern Analytical Methods **Credit(s): 3**
- CHEM 342 - Modern Analytical Chemistry Laboratory **Credit(s): 2**
- CHEM 361 - Modern Physical Chemistry Laboratory **Credit(s): 2**
- CHEM 393 - Honors Research **Credit(s): 4**
- CHEM 399 - Directed Study **Credit(s): 1-3**

Other courses from BCHM 393, Physics, Math, or new or experimental courses may be used to meet this requirement, with prior approval from the Biochemistry Coordinator. No more than three elective credits shall be from 200-level electives without approval from the Biochemistry Coordinator. No more than three elective credits shall be from research or directed study without approval from the Biochemistry Coordinator.

Related Requirements: (19 Credits)

- MATH 221 - R/Calculus I **Credit(s): 4**
- MATH 222 - Calculus II **Credit(s): 4** or
- MATH 228 - Calculus II for Biologists **Credit(s): 4**
- PHYS 123 - Analytical Physics I **Credit(s): 3**
- PHYS 114 - N/Physics I Lab **Credit(s): 1**
- PHYS 125 - N/Analytical Physics II **Credit(s): 3**
- PHYS 116 - N/Physics II Lab **Credit(s): 1**

One of the following: Tool Skill Courses

- BIOL 350 - Foundations of Biostatistics **Credit(s): 3**
- MATH 262 - R/Applied Statistics **Credit(s): 3**
- PSYC 250 - R/Introduction to Behavioral Statistics **Credit(s): 3**

Minimum Competence Requirement

Students must attain a grade of C- or better in all required Chemistry and Biology courses before those courses can be used as prerequisites for another course:

Department Writing Requirement

The biochemistry writing requirement will be met by successful completion (grade of C- or better) in the Senior Biochemistry Seminar of which an integral part is the successful writing of a formal biochemistry review paper of 8-12 pages. The paper is retained by the department in which the student is advised.

The biochemistry major can lead to a variety of professional and vocational pursuits, and career goals should be considered when selecting electives. Students should discuss choices with their advisors, who can suggest electives for a variety of options. A few examples follow.

Bioorganic Chemistry

- CHEM 315 - Bioorganic Chemistry **Credit(s): 3**
- CHEM 318 - Advanced Organic Chemistry **Credit(s): 3**

Bioinorganic Chemistry

- CHEM 330 - Inorganic Chemistry I **Credit(s): 3**
- CHEM 331 - Laboratory Techniques in Inorganic Chemistry **Credit(s): 2**
- CHEM 334 - Bioinorganic Chemistry **Credit(s): 3**
- CHEM 338 - Inorganic Chemistry II **Credit(s): 3**

Cell and Molecular Biology

- BIOL 223 - Genetics Laboratory **Credit(s): 1**
- BIOL 301 - Laboratory in Cell Biology **Credit(s): 1**
- BIOL 330 - Immunology **Credit(s): 4**
- BIOL 354 - Developmental Biology **Credit(s): 4**
- BIOL 392 - Genome Analysis **Credit(s): 2**
- CHEM 322 - Physical Chemistry II **Credit(s): 3**

Environmental Biochemistry

- BIOL 203 - Principles of Ecology **Credit(s): 3**
- BIOL 349 - Principles of Microbiology **Credit(s): 4**
- CHEM 322 - Physical Chemistry II **Credit(s): 3**

Neurobiology

HEGIS Code: 0401.00 (Biology, B.A.), 0401.01 (Biology, Adolescence Education: Biology & General Science, B.A.), 0401.00 (Biology, B.S.)

Students may not double major in both Biology and Neuroscience.

Specialization Areas

Pre-Professional

Requirements for various biologically related professional programs (e.g. medical, veterinary, dental, optometry, etc.) vary. Students are urged to familiarize themselves with the specific requirements of the schools of their choice.

Students planning to apply to professional schools need not major in biology or the sciences. Minimal requirements of most professional schools include one year of biology, one year each of general chemistry and organic chemistry, one year of general physics, and two courses in English.

Early Assurance Program with SUNY-Buffalo, School of Dental Medicine

SUNY-Geneseo and the SUNY-Buffalo, School of Dental Medicine offer a cooperative program to qualified students designed to assure an undergraduate student acceptance into dental school at the end of two years of study. This allows the student to complete a four year undergraduate curriculum without further concern about admission to a D.D.S. program. While there is no major course of study required, the applicant must have completed most of the required pre-dental courses for admission to the SUNY at Buffalo, School of Dental Medicine and must demonstrate both maturity and a high level of motivation for a career in dentistry. You are invited to contact the Director of Admissions at SUNY Geneseo, (admissions@geneseo.edu) or the Office of Student Admissions at SUNY-Buffalo, School of Dental Medicine at (716) 828-2836 for more details.

Ecology

Students interested in the field of environmental science or ecology should pursue a BS degree and select courses from the following: BIOL 204, BIOL 305, BIOL 306, BIOL 311, BIOL 312, BIOL 327, and BIOL 340. We also recommend students take a course in statistics, preferably BIOL 350. Students also should consider independent research with faculty using laboratory resources including the greenhouse, animal care facility, and field sites such as Conesus Lake, the Roemer Arboretum, or our 400-acre Research Reserve.

3/3 Program in Physical Therapy with SUNY Upstate Medical University

SUNY-Geneseo and SUNY-Upstate Medical University offer a cooperative program to qualified students where they can receive a B.A. in Biology and a Doctor of Physical Therapy in six years. Upon completion of three years of study at Geneseo and the first year at Upstate, SUNY-Geneseo students will be awarded a Bachelor's degree from Geneseo. Upon successful completion of three years at Upstate in the entry level DPT program, students will be awarded a DPT degree from SUNY-Upstate. Qualified high school seniors must apply for admission to the program by applying and being accepted by both SUNY-Upstate and SUNY-Geneseo during their senior year of high school. You are invited to contact the Director of Admissions at SUNY Geneseo, (admissions@geneseo.edu) or the Admissions Office at SUNY-Upstate Medical University (315) 464-4570 for further information.

3/4 Program with New York Institute of Technology College of Osteopathic Medicine

SUNY-Geneseo and New York Institute of Technology College of Osteopathic Medicine (NYIT-COM) offer an affiliation program to qualified students where they can receive a B.S. in Biology and a Doctor of Osteopathic Medicine degree in seven years instead of the usual eight. The student attends SUNY at Geneseo for 3 years and then attends the professional program at NYIT-COM. After the first year at NYIT-COM, the student receives her, his, or their baccalaureate degree in biology from SUNY-Geneseo. The D.O. degree is awarded after completing the four years at NYIT-COM. You are invited to contact the Director of Admissions at SUNY Geneseo, (admissions@geneseo.edu) or the Director of Admissions at NYIT-COM at (516) 686-3747.

3/4 Program with SUNY-Optometry

SUNY-Geneseo and SUNY College of Optometry offer an affiliation program to qualified students where they can receive a B.S. in Biology and a Doctor of Optometry degree in seven years instead of the usual eight. The student attends SUNY at Geneseo for 3 years and then attends the professional program at SUNY College of Optometry. After the first year at SUNY College of Optometry, the student receives her, his, or their baccalaureate degree in biology from SUNY-Geneseo. The O.D. degree is awarded after completing the four years at SUNY College of Optometry. You are invited to contact the Director of Admissions at SUNY Geneseo, (admissions@geneseo.edu) or the Office of Student Affairs at SUNY College of Optometry at (212) 780-5100 or (800) 291-3937 for more details.

Bachelor of Arts

Biology, B.A.

The Bachelor of Arts Degree in Biology provides flexibility in the study of biology and is recommended for students preparing for secondary certification, dual majors, physician assistant or nursing programs or those planning to pursue graduate work outside of life sciences (e.g., law, M.B.A., psychology, public policy, or some areas of environmental studies). The flexibility of this program is also suitable for students transferring from other colleges who wish to pursue a degree in Biology. Graduates from our Bachelor of Arts program also pursue professional degrees in medicine, dentistry or optometry.

Program Learning Outcomes

1. Students will have the knowledge base and intellectual (conceptual) framework to use reasoning and problem-solving skills to; (1) read critically, (2) evaluate support for competing hypotheses, and (3) critique experimental design.
2. Students will have the laboratory and inquiry skills and technical ability to formulate hypotheses, design and run experiments using instruments to test their hypotheses, and analyze and interpret the results. They will be able to build on earlier work to design further experiments.
3. Students will be able to communicate biological ideas from literature or their own laboratory investigations to audiences of biologists and non-biologists in a variety of formats including written reports, poster and oral presentations.
4. Students will recognize the importance of scientific integrity and ethical research and applications of biology to science policy. They will be able to work independently and in teams for life-long learning.
5. Students will be able to demonstrate a broad and diverse background in biology and related sciences and a strong foundation for graduate and professional programs of study or employment.
6. Students will recognize evolution as the central tenet of biology, which explains the unity and diversity of life and interrelatedness of levels of biological organization.

General Education Requirements (30-46 Credits)

Prerequisite coursework may be required to satisfy certain General Education courses and will count as elective credit.

Total Credits Required to Complete Major: 59-61

A grade of C- or better is required for each of the courses in your major, excluding electives.

Basic Requirements: (33 Credits)

Biology Other Requirements:

Minimum Competence Requirement

To graduate with a biology major, students must attain a grade of C- or better in all required biology courses, excluding electives. A grade of C- must be achieved in any course before it can be used as a prerequisite for another course. A student may only repeat a required biology course or related requirement once for major credit *and the course must be taken at the next offering of the class*. If a student does not earn at least a "C-" on the second taking of the class, she, he, or they will not be able to complete the major.

Department Writing Requirement

Students must demonstrate writing skills to the satisfaction of the Biology department. These skills will be evaluated in laboratory reports and in written assignments in 200- and 300-level biology courses.

Program notes: CHEM 119 and BIOL 116 are both 2-credit labs; generally students take one in the fall and one in the spring, in either order. Students typically take their mathematics courses in their first year, but this is not required. Several biology electives have BIOL 222 or BIOL 335 as a prerequisite. Consequently, putting off either of these courses beyond the above recommendations can limit the choice of electives later. Although not required in the sophomore year, we recommend taking the BIOL 204, BIOL 216, or BIOL 223 laboratory course in the second year to fulfill a requirement of graduation. An alternative chemistry lecture sequence for chemistry majors that might be appropriate for students with strong chemistry backgrounds can be substituted for the courses listed here.

Electives in Biology: Fifteen credits must include (1) two additional biology laboratory courses (of which only one can be at the 200-level) (2) a minimum of 15 credits at the 300-level or above.

Note: Where no prerequisites apply, some variation in the order or semester in which courses are taken is possible. Students should consult their academic advisors for additional information.

Bachelor of Arts - Adolescence Education

Biology, Adolescence Education: Biology & General Science, B.A.

Students who intend to become secondary school biology teachers qualify for New York State initial certification by completing the requirements of the Bachelor of Arts degree and the requisite courses in education (see School of Education program description). These students may use INTD 302 in place of one 3-credit 300-level Biology elective. Certification in adolescence education is not available with the Bachelor of Science in Biology.

NSTA Adolescence Science Program Learning Outcomes

1. **Content Knowledge:** Effective teachers of science understand and articulate the knowledge and practices of contemporary science. They interrelate and interpret important concepts, ideas, and applications in their fields of licensure.
2. **Content Pedagogy:** Effective teachers of science understand how students learn and develop scientific knowledge. Preservice teachers use scientific inquiry to develop this knowledge for all students.
3. **Learning Environments:** Effective teachers of science are able to plan for engaging all students in science learning by setting appropriate goals that are consistent with knowledge of how students learn science and are aligned with state and national standards. The plans reflect the nature and social context of science, inquiry, and appropriate safety considerations. Candidates design and select learning activities, instructional settings, and resources--including science-specific technology, to achieve those goals; and they plan fair and equitable assessment strategies to evaluate if the learning goals are met.
4. **Safety:** Effective teachers of science can, in a P-12 classroom setting, demonstrate and maintain chemical safety, safety procedures, and the ethical treatment of living organisms needed in the P-12 science classroom appropriate to their area of licensure.
5. **Impact on Student Learning:** Effective teachers of science provide evidence to show that P-12 students' understanding of major science concepts, principles, theories, and laws have changed as a result of instruction

by the candidate and that student knowledge is at a level of understanding beyond memorization. Candidates provide evidence for the diversity of students they teach.

6. **Professional Knowledge and Skills:** Effective teachers of science strive continuously to improve their knowledge and understanding of the ever changing knowledge base of both content, and science pedagogy, including approaches for addressing inequities and inclusion for all students in science. They identify with and conduct themselves as part of the science education community.

Bachelor of Science

Biology, B.S.

The Bachelor of Science program emphasizes mathematics and science courses that prepare students for careers in biological research, laboratory work or master's and doctoral programs in the biological sciences. It can lead to careers in organismal biology like botany or zoology, environmental management, health care, technical writing and pharmaceutical sales. Graduates from our Bachelor of Science program also pursue professional degrees in medicine, dentistry or pharmacy.

Program Learning Outcomes

1. Students will have the knowledge base and intellectual (conceptual) framework to use reasoning and problem-solving skills to; (1) read critically, (2) evaluate support for competing hypotheses, and (3) critique experimental design.
2. Students will have the laboratory and inquiry skills and technical ability to formulate hypotheses, design and run experiments using instruments to test their hypotheses, and analyze and interpret the results. They will be able to build on earlier work to design further experiments.
3. Students will be able to communicate biological ideas from literature or their own laboratory investigations to audiences of biologists and non-biologists in a variety of formats including written reports, poster and oral presentations.
4. Students will recognize the importance of scientific integrity and ethical research and applications of biology to science policy. They will be able to work independently and in teams for life-long learning.
5. Students will be able to demonstrate a broad and diverse background in biology and related sciences and a strong foundation for graduate and professional programs of study or employment.
6. Students will recognize evolution as the central tenet of biology, which explains the unity and diversity of life and interrelatedness of levels of biological organization.

General Education Requirements (30-46 Credits)

Prerequisite coursework may be required to satisfy certain General Education courses and will count as elective credit.

Total Credits Required to Complete Major: 71-72

Students must attain a grade of C- or better in all required biology courses, excluding electives.

Basic Requirements: (36-37 Credits)

- BIOL 116 - N/General Biology Laboratory **Credit(s): 2**
- BIOL 117 - General Biology: Cells, Genetics, Evolution **Credit(s): 3**
- BIOL 119 - N/General Biology: Diversity, Physiology, Ecology **Credit(s): 3**
- BIOL 203 - Principles of Ecology **Credit(s): 3**
- BIOL 222 - Genetics **Credit(s): 3**
- BIOL 335 - Foundations of Biochemistry **Credit(s): 3**

One of the following:

- BIOL 204 - Ecology Laboratory **Credit(s): 1**
- BIOL 216 - Biology Second Year Laboratory **Credit(s): 1**
- BIOL 223 - Genetics Laboratory **Credit(s): 1**

Electives in Biology including the following:

1. Three additional laboratory courses (of which only one can be at the 200-level).
2. A minimum of 18 credits at the 300-level or above.
3. No more than 4 credits from the following may count for elective credit: BIOL 395, BIOL 396, BIOL 397, BIOL 398, BIOL 399.

Related Requirements: (31-32 Credits)

- CHEM 116 - Chemistry I **Credit(s): 3**
- CHEM 118 - Chemistry II **Credit(s): 3**
- CHEM 119 - N/Introductory Chemistry Lab **Credit(s): 2**

PHYS 116 - N/Physics II Lab **Credit(s): 1**

Biology Other Requirements:

Minimum Competence Requirement

To graduate with a biology major, students must attain a grade of C- or better in all required biology courses, excluding electives. A grade of C- must be achieved in any course before it can be used as a prerequisite for another course. A student may only repeat a required biology course or related requirement once for major credit *and the course must be*

taken at the next offering of the class. If a student does not earn at least a "C-" on the second taking of the class, she, he, or they will not be able to complete the major.

Department Writing Requirement

Students must demonstrate writing skills to the satisfaction of the Biology department. These skills will be evaluated in laboratory reports and in written assignments in 200- and 300-level biology courses.

Total Credit Hours: 120

Program notes: CHEM 119 and BIOL 116 are both 2-credit labs; generally students take one in the fall and one in the spring, in either order. Students typically take their mathematics courses in their first year, but this is not required. Several biology electives have BIOL 222 or BIOL 335 as a prerequisite. Consequently, putting off either of these courses beyond the above recommendations can limit the choice of electives. Although not required, we recommend taking the BIOL 204, BIOL 216 or BIOL 223, laboratory course in the second year to fulfill a requirement of graduation. An alternative chemistry lecture sequence that might be appropriate for students with strong chemistry backgrounds and can be substituted with a waiver.

Electives in Biology: Eighteen credits must include (1) three additional biology laboratory courses (of which only one can be at the 200-level) (2) a minimum of 18 credits at the 300-level or above.

Note: Where no prerequisites apply, some variation in the order or semester in which courses are taken is possible. Students should consult their academic advisors for additional information.

Minor

Biology Minor

Total Credits Required to Complete Minor: 20

*There are two possible chemistry lecture sequences: CHEM 116/118 (Chemistry I/II) and CHEM 211/213 (Organic Chemistry I/II) requires 4 semesters. An alternative accelerated chemistry lecture sequence (CHEM 203, 204, 223, 224) completes general and organic chemistry in 3 semesters (204 and 223 are each half semester courses), and might be appropriate for students with strong chemistry backgrounds. Note that either CHEM 213 or CHEM 223 is required as a prerequisite for CHEM 324. (CHEM 224 is not required for the major.)

Note: Where no prerequisites apply, some variation in the order or semester in which courses are taken is possible. Students should consult their academic advisors for additional information.

Black Studies

Cathy Adams and Maria Lima, Coordinators

geneseo.edu/~abs/

Faculty: Interdepartmental Committee representing various departments.

HEGIS Code: 2211.00

Bachelor of Arts

Black Studies, B.A.

This interdisciplinary major requires 39 credits with at least two classes each from departments of History and English; at least one class from the department of Anthropology; at least one class with an additional prefix (other than ENGL, HIST or ANTH); at least three classes at the 300 or 400-level; and a six-credit (two semester) directed study capstone. We strongly encourage students to participate in a Black Studies related internship or study abroad program. See also the listing for an Africana Studies minor.

Courses should be chosen in consultation with a Black Studies program advisor from the following list. (Under advisement, new and one time courses may also be considered for Black Studies credit.)

Program Learning Outcomes

1. Demonstrate an understanding of the rich complexities of social, political, economic, environmental, and cultural life among African and a variety of African diaspora peoples, past and present
2. Demonstrate the ability to identify and critically assess different disciplinary, methodological, and interpretive approaches to the study of Africans, African Americans, and other people of the African diaspora
3. Be able to analyze and compare different kinds of texts and artifacts-e.g. historical documents, literary texts, films, museum exhibits, monuments, visual art, electronic media, etc.
4. Communicate ideas well in written and oral form, appropriate for an academic setting, including proper citation and revision skills

General Education Requirements (30-46 Credits)

Prerequisite coursework may be required to satisfy certain General Education courses and will count as elective credit.

Total Credits Required to Complete Major: 39

Basic Requirements: (39 Credits)

A. Courses whose primary focus is consistent with Black Studies:

- ANTH 216 - S/M/Race, Racism and the Black Experience in the Americas **Credit(s): 3**
- BLKS 200 - Introduction to Black Studies **Credit(s): 3**
- BLKS 220 - Black Lives Matter: (subtitle) **Credit(s): 3**

School of Business

Mary Ellen Zuckerman, Dean
(South Hall 113)
business.geneseo.edu

HEGIS Code: 0502.00 (Accounting, B.S.), 2204.00 (Economics, B.A.), 0506.00 (Business Administration, B.S.)

Proficiency Requirements

- After attempting 24 credits at Geneseo a student must meet the following proficiency requirements to continue in the School of Business.
- 1. Meet the following cumulative GPA requirements for the selected major:
Accounting Proficiency Requirements
A cumulative GPA of 2.85 or higher.

Economics Proficiency Requirements
A cumulative GPA of 2.75 or higher

All other School of Business majors Proficiency Requirements
A cumulative GPA of 2.50 or higher.

2. Attend the School of Business Orientation.

- Students admitted into the School of Business may not double-major within the school, with two exceptions:
 1. Students in the Economics B.A. program may double-major in one, and only one, B.S. degree within the School of Business.
 2. Students in a B.S. program in the School of Business may double-major in the Economics B.A. degree.

Students electing to pursue a second major in one of these scenarios must abide by all standard college guidelines for second majors.

- Students who are admitted to one School of Business major may not change their major to another one within the School of Business without meeting the proficiency requirements for that new major.
- A Student may not take 300 or 400 level courses until they meet proficiency.
- Transfer students transferring more than 60 credits are accepted based on their transfer GPA.

Internships

Where applicable, only three credits of internship credit may be used towards any School of Business minor. The internship should be in the subject area of the minor for the credit to apply.

Minimum Competence Requirement

A minimum grade of C- is required in ALL courses submitted in fulfillment of any School of Business program, including minors and required related courses (such as MATH 213 or MATH 221; PHIL 237; and INTD 205). Courses with D grades must be repeated and cannot be used to meet prerequisite requirements.

Professional Development Requirement:

Students are required to participate in and complete the School of Business Professional Development Program. Events will be selected from a variety of professional and/or career development activities, which will be categorized by class level and sanctioned by the School of Business. School of Business students should consult the department for details on fulfilling this graduation requirement.

Department Writing Requirement

The writing requirement for Business Administration and Accounting majors is fulfilled by completion of MGMT 300 and MKTG 331. The writing requirement for Economics majors is fulfilled by the completion of two of the 300- or 400-level ECON electives (ECON 395, 396, and ECON 399 not included). For further information, please contact your advisor or the Dean of the School of Business.

Taking Courses Away from Geneseo

Students who wish to take courses at another institution or abroad should be aware of the various policies below.

- A minimum of 50% of all required and elective ACCT, ECON, MGMT, MKTG, and FNCE courses for the Accounting, Economics, or Business Administration majors must be taken at Geneseo. There are no exceptions to this policy

- The School of Business accepts no courses for transfer at the 300-level or 400-level without prior approval. Students are required to submit a syllabus along with the appropriate form to the School of Business before enrolling in courses at other institutions. All study abroad forms must be approved prior to departure.

Preparation for the Master of Business Administration Degree (4 + 1 Program)

School of Business majors completing a prescribed program at Geneseo and achieving a sufficient score on the GMAT examination are able to complete the M.B.A. program at SUNY Binghamton, Rochester Institute of Technology, Clarkson University, Alfred University or Union College in one additional year of study, following a four-year degree at Geneseo. Details relating to this program may be obtained from the School of Business, Dr. Avan Jassawalla, South Hall 116B, SUNY Geneseo, 1 College Circle, Geneseo, New York 14454.

Finance, B.S.

This major is based on an integrated core that provides all students with a deep foundation in markets, investments and operational corporate finance. Through the core and an extensive menu of approved electives, students acquire a combination of theoretical insights and practical modeling abilities that prepare them for entry-level positions in banking, investment services, personal financial planning and corporate financial management. This program relies on the guidance of professors and SUNY Geneseo graduates working in Finance to ensure that course content is timely, relevant and effective.

Program Learning Outcomes

Learning Goal 1: Our students will have strong analytical skills.

Learning Goal 2: Our students will have strong quantitative skills.

Learning Goal 3: Our students will have effective communications skills.

Learning Goal 4: Our students will have a thorough understanding of various functional areas of business.

- ECON 210 - Intermediate Microeconomic Theory **Credit(s): 3**
- ECON 212 - Intermediate Macroeconomic Theory **Credit(s): 3**
- MATH 221 - R/Calculus I **Credit(s): 4**

Elective Requirement: (6 credits)

Economics courses at the 300 or 400 level (not including required courses, internships, or directed studies)

The Economics minor elective courses cannot share with the Business Administration and Accounting majors courses.

Note

Enrollment in 300-level School of Business courses is restricted to junior and senior majors and minors in School of Business programs.

Entrepreneurship Minor

This minor will provide courses in entrepreneurial management, innovation and creativity, along with traditional business functions such as marketing and sales, general management and accounting. The program will provide a solid foundation for students aspiring to start a new business, acquire an existing business, running a family enterprise or developing new products and services.

Total Credits Required to Complete Minor: 18

Basic Requirements: (12 Credits)

- ENTR 100 - Introduction to Entrepreneurship **Credit(s): 3**
- ENTR 200 - Entrepreneurial Leadership **Credit(s): 3**
- ENTR 325 - Entrepreneurship:Comm Ideation **Credit(s): 3**
- ENTR 425 - Entrepreneurship: Idea2Venture **Credit(s): 3**

- MKTG 331 - Marketing **Credit(s): 3**
- MKTG 338 - Digital Marketing **Credit(s): 3**
- ACCT 102 - Introduction to Financial Accounting **Credit(s): 3**

Finance Minor

The Finance minor is designed to prepare students for careers in investment services, banking, and corporate finance. The curriculum in the minor, when combined with a degree in Business Administration, Accounting, or Economics

provides most of the content needed for the CFA Level One exam. In addition to the Finance coursework, students can get involved with the Student Managed Investment Fund and obtain invaluable hands-on experience guided by professionals and the opportunity to earn additional academic credit.

Open to Business Administration, Accounting, and Economics majors only. Students applying for the Finance minor must have been admitted to the School of Business.

Total Credits Required to Complete Minor: 21

Basic Requirements: (15 Credits)

- FNCE 311 - Managerial Finance **Credit(s): 3**
- FNCE 313 - Investments **Credit(s): 3**

- ACCT 301 - Intermediate Financial Accounting I **Credit(s): 3 or**
- ECON 210 - Intermediate Microeconomic Theory **Credit(s): 3**

- ACCT 302 - Intermediate Financial Accounting II **Credit(s): 3 or**
- ECON 212 - Intermediate Macroeconomic Theory **Credit(s): 3**

- ECON 307 - Econometrics **Credit(s): 3 or**
- FNCE 315 - Financial Statement Analysis **Credit(s): 3**

Elective Requirement: (6 credits)

Finance courses at the 300 or 400 level (not including required courses or directed studies)

The Finance minor elective courses cannot share with the Business Administration major elective courses.

Notes

Finance electives cannot be used to fulfill any major requirement (including major electives).

Internship Notes:

Students who choose FNCE 395, Internship, for one of the Finance minor elective courses may only use a maximum of 3 credits towards the elective requirement of 6 credits. The learning activities and experience must be approved prior to starting the internship. No student will be permitted to get credit for a past internship (after the fact) in fulfillment of the Finance minor.

Students should note of all related MATH, ACCT, ECON, FNCE and MGMT pre-requisites for the Finance minor requirements.

Human Resources Management Minor

This minor provides students with knowledge and skills that can help them be an effective people manager as well as understand how it provides support for business planning and decision making. Students with a major and career interest in other areas (e.g. accounting, marketing, finance, economics, psychology, communication) should view this minor as an opportunity to grow their understanding for and appreciation of the value that HR brings to organizations - which will give students the edge they may need to do well in their job search after college. Students interested in a

career in the HRM field should view this minor as an opportunity to be well prepared for entry-level HR jobs and are strongly encouraged to get involved in the Geneseo student chapter of SHRM (Society for Human Resource Management - affiliated with the national professional SHRM chapter headquartered in Alexandria, VA). This minor is open to Geneseo students in both the School of Business and across campus, i.e. non-business majors are welcome. All students in this minor must complete 18 credit hours by meeting the following requirements:

Total Credits Required to Complete Minor: 18

Basic Requirements: (12 Credits)

- PHIL 237 - Ethical Issues in Business **Credit(s): 3**
- MGMT 263 - Business Law I **Credit(s): 3**

- COMN 346 - Conflict and Relational Communication **Credit(s): 4**
- COMN 379 - Communication in Career Preparation **Credit(s): 4**
- PSYC 452 - Advanced Research in Psychology: (subtitle) **Credit(s): 3** (only available to psychology majors)

Management Minor

The Management minor is designed to prepare students for careers in management and human resources. In-depth study and application provide the knowledge and skills needed to plan, organize, monitor and lead in organizational settings large and small.

Open to Business Administration, Accounting, and Economics majors only. Students applying to the Management minor must have been admitted to the School of Business. Students majoring in Business Administration may not count any of the courses taken for the Management minor toward the Business Administration major electives.

Total Credits Required to Complete Minor: 18

Basic Requirements: (12 Credits)

- MGMT 263 - Business Law I **Credit(s): 3**

- MGMT 300 - Organizational Behavior **Credit(s): 3**

HEGIS Code: 1905.00 (Chemistry, B.A.), 1905.00 (Chemistry, American Chemical Society Certified, B.S.), 1905.01 (Chemistry, Adolescence Education: Chemistry and General Science, B.A.)

Not available to students majoring in Neuroscience.

Secondary School Preparation

It is suggested that students proposing to major in chemistry have the following high school preparation: one year of chemistry (preferably with laboratory work), one year of physics, and 3 1/2 years of mathematics (including elementary algebra, plane geometry, intermediate algebra, and trigonometry).

Department Writing Requirement

Students meet the department writing requirement by passing Chemistry 352, Chemistry Senior Seminar.

Minimum Competency Requirement

A grade of C- must be achieved in any required chemistry course before it can be used as a prerequisite for another course. Students who fail a course or fail to obtain the minimum grade in a pre-requisite course will be permitted to repeat the course once. D grades in courses that are not used as prerequisites require waiver approval from the department.

Students may petition the department to see if a waiver can be signed for other courses to count. Students with grades less than C+ will be unlikely to have the waiver signed.

Bachelor of Arts

Chemistry, B.A.

The Bachelor of Arts in Chemistry is recommended for students pursuing adolescence teaching certification or for students who do not intend to pursue graduate work in chemistry.

Program Learning Outcomes

- 1) Students will demonstrate knowledge of fundamental concepts in chemistry and its subdisciplines, including physical, organic, inorganic, biochemistry, and analytical chemistry.
- 2) Students will demonstrate the ability to design, carry out, and interpret the results of an experiment in two subdisciplines of chemistry, including the determination and reporting of experimental uncertainties.
- 3) Students will demonstrate the ability to design and carry out a synthetic scheme including the full structural characterization of the products.
- 4) Students will demonstrate the ability to clearly communicate (both orally and written) the results of an experiment

including the use modern library searching and retrieval methods to obtain information about a topic, chemical, chemical technique, or an issue relating to chemistry.

5) Students will demonstrate that they know and can follow the proper procedures and regulations for safe handling, use, and disposal of chemicals.

Total Credit Hours: 120

*Students meet the Physical Chemistry requirement by taking either CHEM 320 and CHEM 322 (Physical Chemistry I and II) or CHEM 324 (Principles of Physical Chemistry). An additional 3 credit 300-level chemistry course must be taken if the CHEM 320/CHEM 322 option is used. Two additional 3 credit 300-level chemistry courses must be taken if the CHEM 324 option is used. Two 300-level chemistry laboratory courses are required. One of these laboratories must be either CHEM 313 or CHEM 331. The second laboratory course must be either CHEM 342 or CHEM 361.

**Students working toward Adolescence Certification in Chemistry and General Science may substitute INTD 300 Topics in Secondary Education: Science for CHEM 351.

Note: Where no prerequisites apply, some variation in the order or semester in which courses are taken is possible. Students should consult their academic advisors for additional information.

Chemistry, Chemical Engineering Five-Year [3-2], B.A.

This program, described in the advising guide at the end of this section, allows students to earn either a Bachelor of Arts or a Bachelor of Science degree (in chemistry) from Geneseo and a Bachelor of Science in Chemical Engineering degree from the State University of New York at Buffalo, Clarkson College, or Columbia University.

Outline/Advising Guide

For Students who Matriculated prior to Fall 2022:

First Year

Fall (16 Credit Hours)

- CHEM 203 - N/Principles of Chemistry I **Credit(s): 3**
- CHEM 119 - N/Introductory Chemistry Lab **Credit(s): 2**
- MATH 221 - R/Calculus I **Credit(s): 4**

- INTD 121 - R/Programming: (subtitle) **Credit(s): 3 or**
- MATH 230 - Programming and Mathematical Problem Solving **Credit(s): 3**

Foreign Language **Credit(s): 3**

Spring (16 Credit Hours)

- CHEM 204 - Principles of Chemistry II **Credit(s): 3**
- CHEM 223 - Principles of Organic Chemistry I **Credit(s): 3**
- CHEM 209 - Intermediate Chemistry Laboratory **Credit(s): 2**

F/ **Credit(s): 3**

Total Credit Hours: 91

Students who select the B.S. degree in Chemistry with A.C.S. Certification, usually take CHEM 331 although this requirement may be waived if an appropriate course is taken at engineering school.

Note: Where no prerequisites apply, some variation in the order or semester in which courses are taken is possible. Students should consult their advisors for additional information.

Bachelor of Arts - Adolescence Education

Chemistry, Adolescence Education: Chemistry and General Science, B.A.

Students seeking Initial Certification in Adolescence Education must complete the requirements for a BA in addition to the requirements set forth in the School of Education program description. Those students may use INTD 300 in place of CHEM 351. Certification in adolescence education is not available with the Bachelor of Science in Chemistry.

NSTA Adolescence Science Program Learning Outcomes

1. **Content Knowledge:** Effective teachers of science understand and articulate the knowledge and practices of contemporary science. They interrelate and interpret important concepts, ideas, and applications in their fields of licensure.
2. **Content Pedagogy:** Effective teachers of science understand how students learn and develop scientific knowledge. Preservice teachers use scientific inquiry to develop this knowledge for all students.
3. **Learning Environments:** Effective teachers of science are able to plan for engaging all students in science learning by setting appropriate goals that are consistent with knowledge of how students learn science and are aligned with state and national standards. The plans reflect the nature and social context of science, inquiry, and appropriate safety considerations. Candidates design and select learning activities, instructional settings, and resources--including science-specific technology, to achieve those goals; and they plan fair and equitable assessment strategies to evaluate if the learning goals are met.
4. **Safety:** Effective teachers of science can, in a P-12 classroom setting, demonstrate and maintain chemical safety, safety procedures, and the ethical treatment of living organisms needed in the P-12 science classroom appropriate to their area of licensure.
5. **Impact on Student Learning:** Effective teachers of science provide evidence to show that P-12 students' understanding of major science concepts, principles, theories, and laws have changed as a result of instruction by the candidate and that student knowledge is at a level of understanding beyond memorization. Candidates provide evidence for the diversity of students they teach.
6. **Professional Knowledge and Skills:** Effective teachers of science strive continuously to improve their knowledge and understanding of the ever changing knowledge base of both content, and science pedagogy, including approaches for addressing inequities and inclusion for all students in science. They identify with and conduct themselves as part of the science education community.

Bachelor of Science

Chemistry, American Chemical Society Certified, B.S.

The ACS certified BS in Chemistry is recommended for those intending to pursue graduate work in chemistry or those who wish to pursue interdisciplinary study and obtain a degree certified by a professional organization (e.g., environmental chemistry, biochemistry or chemical physics).

Program Learning Outcomes

- 1) Students will demonstrate knowledge of fundamental concepts in chemistry and its subdisciplines, including physical, organic, inorganic, biochemistry, and analytical chemistry.
- 2) Students will demonstrate the ability to design, carry out, and interpret the results of an experiment in two subdisciplines of chemistry, including the determination and reporting of experimental uncertainties.
- 3) Students will demonstrate the ability to design and carry out a synthetic scheme including the full structural characterization of the products.
- 4) Students will demonstrate the ability to clearly communicate (both orally and written) the results of an experiment including the use modern library searching and retrieval methods to obtain information about a topic, chemical, chemical technique, or an issue relating to chemistry.
- 5) Students will demonstrate that they know and can follow the proper procedures and regulations for safe handling, use, and disposal of chemicals.

General Education Requirements (30-46 Credits)

Prerequisite coursework may be required to satisfy certain General Education courses and will count as elective credit.

Total Credits Required to Complete Major: 55-68

Basic Requirements: (49-52 Credits)

- CHEM 116 - Chemistry I **Credit(s): 3** or
- CHEM 203 - N/Principles of Chemistry I **Credit(s): 3**

- CHEM 118 - Chemistry II **Credit(s): 3** or

The Academic Program in Communication

Grounded in both the humanistic tradition and contemporary social science, communication courses strive to combine theoretical knowledge with skill development. Advanced coursework provides opportunities to study human communication across numerous contemporary contexts.

Program Learning Outcomes

Students will:

- 1) Describe theories, principles, practices, findings, and historical trends of the communication discipline.
- 2) Apply the acquired knowledge of the discipline to real-world applications and practical contexts of human communication.
- 3) Demonstrate mastery of writing for unique audiences, purposes, channels, and contexts, using standards for the course of study.
- 4) Demonstrate mastery of creation and delivery of oral messages, using established standards of effective communication across targeted contexts.
- 5) Research and analyze findings for the course of study, using critical thinking skills.
- 6) Apply ethical standards in communication situations.
- 7) Demonstrate communication competence across various contexts and diverse communities.

General Education Requirements (30-46 Credits)

Prerequisite coursework may be required to satisfy certain General Education courses and will count as elective credit.

Total Credits Required to Complete Major: 40

Basic Requirements: (16 Credits)

- COMN 100 - Introduction to Communication **Credit(s): 4**

COMN 102 - Principles of Public Speaking **Credit(s): 4** OR
COMN 230 - Public Speaking and Rhetoric I: Identity **Credit(s): 4** OR
COMN 231 - Public Speaking and Rhetoric II: Power **Credit(s): 4**

COMN 210 - Interpersonal Communication **Credit(s): 4** OR
COMN 260 - Introduction to Mass Communication **Credit(s): 4**
- COMN 498 - Capstone Experience **Credit(s): 4**

Elective Courses (24 Credits)

Complete 24 credits within Department of Communication

Department Notes

- A maximum of 20 credits is allowed at the 100 and 200 levels.
- A minimum of 20 credits must be at the 300 and 400 levels.
- Students must achieve minimum competency of C- for a communication course to count toward the major.
 - A student is allowed two chances to complete this requirement with COMN 100.

- Except for slot courses with different course subtitles, courses count only once for credit toward the major.
- No more than 4 internship credits (COMN 495) may be applied to the communication major.
 - These credits can be split across two or more internships.
 - COMN 395 internship credits are S/U graded and will only be applied toward the 120 credit hour requirement of the College.
 - A maximum of 15 credits of internship can be used toward your degree.

Department Writing Requirement

Successful completion of all major courses will fulfill the department writing requirement.

Career Opportunities

Graduates in communication often attend excellent graduate programs or pursue careers in the media and corporate settings. Graduates can be found as sales representatives, in the legal profession, as television newsmen, in management settings, on the radio, practicing public relations, conducting market research, or in academics. Ethical and skillful communication is important to success in all organizational settings; hence, communication graduates find diverse opportunities available to them after graduation.

Minor

Communication Minor

This minor is open to any student in the College.

This minor is intended for students who desire to supplement their current major with an emphasis on the ways communication influences our daily lives. The minor requires the core course COMN 100 - Introduction to Communication. In addition to this, students must also complete 16 credits; 8 of which must come from 300-level or above courses.

A minimum of 20 credits will be required, distributed among two categories below.

Total Required Hours: 20 Credits

Minor Requirements

- COMN 100 - Introduction to Communication **Credit(s): 4**
Electives **Credit(s): 16***

Minor

Edgar Fellows Program

The Edgar Fellows (EF) Program is designed to enhance the education of a special group of curious, able and motivated students who have a broad range of interests. Application to the program is by invitation from the Edgar Fellows Advisory Committee only.

Students in the EF Program take courses selected from a set of specially designed EF Seminars that cover a wide range of topics, from art to science and more. These classes are small and emphasize discussion and participation. The program culminates with a six credit Capstone Experience, usually undertaken during the senior year.

Edgar Fellows must maintain an overall cumulative grade point average (gpa) of at least 3.40. Each semester, Edgar Fellows students must complete at least 12 credits and earn a gpa no lower than 3.00. Additionally, students must complete HONR 202 in their first year in the program and take at least one EF course in each subsequent year, until the course requirements are completed. (With prior notification, exceptions are made for Study Abroad or similar circumstances.)

Incoming first-year students accepted into the Edgar Fellows program will take HONR 101 and four additional courses; HONR 101 will count as the equivalent of INTD 105.

The Geneseo Edgar Fellows Program foster habits of critical thought and expression, skills equally necessary to success in career, in private life, and in the public life of a citizen.

Total Credits Required to Complete Minor: 19-22

HEGIS Code: 0802.00 (Early Childhood/Childhood), 0808.00 (Childhood with Special Education)

The Ella Cline Shear School of Education is committed to the preparation of outstanding teachers through the combination of a rigorous liberal arts foundation, a content-area specialty, and a series of courses on research-based pedagogical theory and practice. Geneseo works through a network of partnership schools to ensure that students have many opportunities to observe and work within P-12 programs as they develop as teachers. The program fosters appreciation and understanding of diversity and works with students in developing technological competence.

The School of Education offers certification programs in Early Childhood and Childhood Education (Birth-Grade 6), Childhood with Special Education (Grades 1-6), and Adolescence Education (Grades 7-12). Students in the elementary-level programs can major in Education with a concentration in an approved liberal arts discipline or they may choose to do a double major in Education and a liberal arts discipline. Students planning to double major should consult with their advisor to be sure that the second major is approved to replace the concentration. Students seeking certification in Adolescence Education will major in a liberal arts discipline and earn an accompanying certification.

All programs in the School of Education lead to New York State certification. SUNY Geneseo is accredited by the National Council for the Accreditation of Teacher Education (NCATE), and all programs and degree options will be held accountable to national standards. Undergraduate programs are reviewed each semester to check compliance with state certification and national accreditation requirements, and teacher candidates are evaluated at regular intervals in their programs to ensure that they are meeting the academic, clinical and dispositional standards outlined in the School's Conceptual Framework. Candidates should meet regularly with faculty advisors and attend all advisement sessions in order to keep track of developments in the certification process.

Admission to School of Education degree programs

All undergraduate programs require the submission of an application form and meeting several academic standards to qualify for admission. We recommend that students admitted to Geneseo as freshmen apply for admission into the School of Education during their first semester at Geneseo. Students who add/change to education certification after starting at SUNY Geneseo should apply for admission to the School of Education during the same semester they change their major. Transfer students should apply for admission into the School of Education at the same time they apply to the college. Admission criteria are:

- a. High School GPA of 3.0 OR HS rank in top 30% for students admitted as freshmen.
- b. College GPA of 3.0 for all students admitted after their freshman year
- c. ACT or SAT scores
- d. Admissions Essay

Applicants (all classifications) who do not satisfy the GPA requirements or Freshmen who do not rank in the top 30% of their HS class may apply for a waiver.

For information/application contact the School of Education (245-5560) or go to the School's webpage (www.geneseo.edu/education/admissions).

The first step, before applying to the School of Education, is declaring certification. Students sometimes have declared certification when applying to Geneseo or during orientation. To check to see if certification has been declared:

- Log in to KnightWeb.
- Click **Student Menu: Student Records: Student Information:** Select current term Scroll Down to **Curriculum Information: Current Program.**
Under Program and **Major** categories the major should include the word Childhood or something that indicates Adolescence Education, for example: English, Adol Educ: English
- If under **Program** and **Major**, Childhood or Adolescence Education is not listed, please go to the School of Education Office (South 200) where someone will assist in completion of the change of major form to declare certification.
- After certification has been declared, students must apply and be admitted to the School of Education.

General requirements for all degree programs leading to teacher certification:

1. Foreign Language Competency

All certification programs require the foreign language requirement completion of college-level work in a foreign language through the first intermediate (201) level with minimum grade of C- or better requirement. For certification candidates, American Sign Language through the 201 level can be used to fulfill this requirement.

3. Department Writing Requirement

Candidates in Education Degree Programs Early Childhood and Childhood, Childhood with Special Education will meet the Department writing requirement by completing successfully EDUC 354 - Family and Community and the key assignment. For further information, please contact your advisor, the School of Education Director of Student Success, or the Dean of the School of Education.

4. TaskStream

All students enrolled in blocks I-VI must have an active Taskstream subscription. To purchase or renew a Taskstream account please visit: login.taskstream.com/signon/. Students may choose to purchase one

semester or multiple years when signing up or renewing an account.

Students in blocks I-VI must submit key assignments for their education classes through TaskStream. Successful completion of the key assignment (target or acceptable rating in TaskStream) is a requirement for successful completion of each education class. Please refer to course syllabi for specific directions for the key assignment and submission deadline.

New York State Requirements for certification

Students applying for certification after Feb. 2004 must have a cumulative college grade point average of at least 2.5. (Note that Geneseo requires a GPA of at least 2.75 to be eligible for block progression and student teaching). Some school districts require a 3.00 GPA for student teaching placement and most masters programs in NY have this as an admission requirement.

Identification of Child Abuse and Maltreatment

Candidates who apply for certification on or after January 1, 1991 are required to complete a minimum of two contact hours of course work or training in the identification and reporting of child abuse and maltreatment. This requirement can be met by satisfactory completion of the workshop within H&PE 350 or by completing a state-approved training workshop. Current information is available through the New York State Department of Education.

Dignity for All Students Act

Effective December 31, 2013, all applicants for Certification are required to complete six clock hours of coursework or training in accordance with Article 2 Sections 10-18 of the Education Law. This training is available only from a provider approved by the New York State Education Department. This requirement can be met by satisfactory completion of the workshop within H&PE 350 or by completing a state-approved training workshop. Current information is available through the New York State Department of Education.

School Violence Intervention and Prevention

Candidates who apply for certification on or after February 2, 2001 are required to complete a minimum of two contact hours of course work or training in the warning signs related to violence and policies related to safe climates, and effective classroom management. Current information is available at:
<http://www.highered.nysed.gov/tcert/certificate/save.htm> This requirement can be met by satisfactory completion of the workshop within H&PE 350 or by completing a state-approved training workshop. Current information is available through the New York State Department of Education.

Fingerprinting and Criminal Background

All candidates for initial certification and all new school employees must be cleared through FBI fingerprinting and criminal background check. The costs for the fingerprinting and the background check are incurred by the candidate. Current forms and regulations are available at: <http://www.highered.nysed.gov/tcert/ospra/index.html>. All students are urged to complete this requirement prior to student teaching.

New York State Certification Examinations (NYSTCE)

Effective May 1, 2014 candidates for initial certification must achieve qualifying scores in the New York State Certification Examination Program: Educating All Students Test (EAS), all required Content Speciality Tests for certification program, and the Education Teacher Performance Assessment (edTPA). The edTPA is completed during the student teaching semester.

Information on dates and test sites is available at www.nystce.nesinc.com and through the Career Development Office in Erwin Hall 116. For professional certification, NY State requires completion of a Master's degree and three years of employment as a teacher.

Candidates seeking Childhood Certification (Childhood with Special Education and Early Childhood with Childhood Education majors) must successfully complete all three parts of each required Content Specialty Test - Multisubjects. A Pearson testing center is available on campus in Erwin Hall. To take certification tests on campus select SUNY Geneseo as the testing location when registering for the certification tests at www.nystce.nesinc.com.

(Current forms and regulations are also available at: <http://www.highered.nysed.gov/tcert/certificate/>)

Student Teaching

Each program of the School of Education requires a one-semester student teaching experience. It is the student's responsibility to become familiar with all requirements for the particular program. Information regarding program requirements can be obtained from this bulletin, the offices of the School of Education, and faculty advisors.

Students should file an application to student teach in the semester that is one year prior to the semester in which they plan to student teach. This must be done through the Office of Field Experiences. Usually, a representative of the Office of Field Experiences will hold meetings to explain the application process. Students are responsible for attending one of the Student Teaching orientation meetings. Applications for student teaching should be submitted the previous February for Spring placements and in the previous October for Fall semester placements.

The Office of Field Experiences initiates all contacts and makes all arrangements for placements. Student placements are based upon state requirements and availability of sites. Placements are made only in regional schools with which we have established working relationships or in one of the College's satellite programs.

The policy of the College emphasizes that the student teaching experience takes precedence over all other activities during the student teaching semester. Additional academic or other work during the internship is not permitted except with the written permission of the Director of Field Experiences. Students wishing to participate in varsity athletics during student teaching must file the appropriate form with the Office of Field Experiences.

Students are required to enroll in student teaching internship courses offered by the College (i.e., EDUC 332, EDUC 340 or EDUC 350; ECED 331, ECED 333; SPED 391) which are appropriate to their objectives. They must complete such course(s) under the supervision of a member of the College faculty in collaboration with teaching and administrative staff members of area schools.

Before being admitted to a student teaching placement, each student must have:

1. A minimum cumulative grade point average of 2.75 in all course work undertaken, including a 2.75 in the major and area of concentration.
2. A minimum grade point average of 2.0 in the semester prior to student teaching.
3. Achieved minimum competence (grade of C- or better) in the required courses for the given major (see Minimum Competency listing at the beginning of the School of Education section of this Bulletin).
4. No grade of E in any required course.
5. Completed all appropriate prerequisites in professional courses in education. No incomplete grades are allowed in any areas.
6. Demonstrated readiness for the internship experience by successful performance in closely related activities, areas, and courses as determined by faculty.
7. Either A or B:
 - A. Early Childhood and Childhood, Childhood, and Childhood/Special Education majors must have senior standing.
 - B. Adolescence Education majors must have senior standing and must have completed two-thirds of the requirements of the academic area in which they are majoring with a minimum grade point average of 2.75.

In addition to these requirements, students are advised to have completed the following:

1. Early Childhood and Childhood, Childhood, Childhood with Special Education majors - twenty-one credits in their concentration, MATH 140 and MATH 141, PSYC 215, H&PE 350, and the foreign language requirement.
2. Adolescence Education majors and those seeking a double major in a Liberal Arts or Science major and Early Childhood and Childhood or Childhood Education - two-thirds of the requirements of the academic area with a minimum GPA of 2.75, PSYC 216, H&PE 350, and the foreign language requirement.

Students planning to enroll in student teaching are advised that they must either find housing in the area of their assignment or provide transportation to the site. The Office of Field Experiences cannot make transportation arrangements, nor can transportation needs be a factor in making placements. Moreover, the College assumes no responsibility for transportation or expenses incurred during transportation to the site.

Bachelor of Arts

Education, Initial Certification in Adolescence Education (7-12), B.A.

New York State initial certification for teaching an academic subject matter area in grades 7-12 must be earned by completing a Bachelor of Arts degree in a liberal arts discipline. Students who wish to obtain adolescence initial certification will normally enroll in Block I of this program during the Spring semester of the Sophomore year.

Programs offered:

1. Biology, Adolescence Education: Biology & General Science, B.A.
2. Chemistry, Adolescence Education: Chemistry and General Science, B.A.
3. English, Adolescence Education: English, B.A.
4. French, Adolescence Education: French, B.A.

Note: Where no prerequisites apply, some variation in the order or semester in which courses are taken is possible. Students should consult their academic advisors for additional information.

Teacher candidates must satisfy the 2.75 cumulative GPA requirement to continue in a certification program. For admission to student teaching, teacher candidates must have a 2.75 in their major, concentration, and overall.

Education, Childhood Education with Special Education (Grades 1-6), B.S.

This program fulfills requirements for the New York State Initial Certificate in Childhood Education with Special Education certification. Students who complete this program option are eligible for certifications to (1) teach general education elementary school students, and (2) teach exceptional students (except those with visual and/or hearing impairments). Each block of courses has related practicum requirements. Placement for practica is facilitated by the Ella Chine Shear School of Education staff.

"Commissioner's Regulations CR 52.21, General Requirements (ii)(a) require all teacher candidates to study "a language other than English." By meeting Geneseo's requirement for such language study, all teacher candidates meet the NY certification requirement."

Candidates must check with their Block professors to be sure all information needed for field experience is submitted prior to the end of the preceding semester. Candidates are responsible for their own transportation for all field experiences and student teaching.

Program Learning Outcomes, Childhood with Special Education Standards (CEC)

- 1) Candidates understand how exceptionalities may interact with development and learning and use this knowledge to provide meaningful and challenging learning experiences for individuals with exceptionalities.
- 2) Candidates create safe, inclusive, culturally responsive learning environments so that individuals with exceptionalities become active and effective learners and develop emotional well being, positive social interactions, and self-determination.
- 3) Candidates use knowledge of general and specialized curricula to individualize learning for individuals with exceptionalities.
- 4) Candidates use multiple methods of assessment and data sources in making educational decisions.
- 5) Candidates select, adapt, and use a repertoire of evidence-based instructional strategies to advance learning of individuals with exceptionalities.
- 6) Candidates use foundational knowledge of the field and their professional ethical principles and practice standards to inform special education practice, to engage in lifelong learning, and to advance the profession.
- 7) Candidates collaborate with families, other educators, related service providers, individuals with exceptionalities, and personnel from community agencies in culturally responsive ways to address the needs of individuals with exceptionalities across a range of learning experiences.

Note: Where no prerequisites apply, some variation in the order or semester in which courses are taken is possible. Students should consult their academic advisors for additional information.

Teacher candidates must satisfy the 2.75 cumulative GPA requirement to continue in a certification program. For admission to student teaching, teacher candidates must have a 2.75 in their major, concentration, and overall.

Education, Early Childhood and Childhood Education (Birth-Grade 6), B.S.

The School offers a four-year program leading to the degree, Bachelor of Science in Education Early Childhood and Childhood Education (birth-grade 6), with a liberal arts concentration. Students who wish to obtain New York State initial certification in both Early Childhood Education and Childhood Education (birth-grade 6) and to major in education must complete the field experience requirements. The program outline below is designed primarily for entering freshmen. Transfer students may have to spend one extra semester or more to fulfill program requirements. Each block of courses has related practicum requirements. Placement for practica is facilitated by the Ella Chine Shear School of Education staff.

"Commissioner's Regulations CR 52.21, General Requirements (ii)(a) require all teacher candidates to study "a language other than English." By meeting Geneseo's requirement for such language study, all teacher candidates meet the NY certification requirement."

Candidate Information and resume maybe required the semester prior to practicum placements. Candidates are responsible for their own transportation for all field experiences and student teaching.

Program Learning Outcomes, Early Childhood (NAEYC)

1) Candidates are grounded in a child development knowledge base. They use their understanding of young children's characteristics and needs, and of multiple interacting influences on children's development and learning, to create environments that are healthy, respectful, supportive, and challenging for each child.

2) Candidates know about, understand and value the importance and complex characteristics of children's families and communities. They use this understanding to create respectful, reciprocal relationships that support and empower families, and to involve all families in their children's development and learning.

3) Candidates know about and understand the goals, benefits and uses of assessment. They know about and use systematic observations, documentation, and other effective assessment strategies in a responsible way, in partnership with families and other professionals, to positively influence the development of every child.

4) Candidates understand and use positive relationships and supportive interactions as the foundation of their work with young children and families. Candidates know, understand, and use a wide array of developmentally appropriate approaches, instructional strategies, and tools to connect with children and families and positively influence each child's development and learning.

5) Candidates know the essential concepts, inquiry tools and structure of content areas, including academic subjects, and can identify resources to deepen their understanding. Candidates use their own knowledge and other resources to design, implement, and evaluate meaningful, challenging curriculum that promotes comprehensive developmental and learning outcomes for every young child.

6) Candidates identify and conduct themselves as members of the early childhood profession. They know and use ethical guidelines and other professional standards related to early childhood practice. They are continuous, collaborative learners who demonstrate knowledgeable, reflective and critical perspectives on their work, making informed decisions that integrate knowledge from a variety of sources. They are informed advocates for sound educational practices and policies.

7) Field experiences are planned and sequenced so that candidates develop the knowledge, skills and dispositions necessary to promote the development and learning of young children across the entire developmental period of early childhood - in at least two of the three early childhood age groups (birth - age 3, 3 through 5, 5 through 8 years) and in

the variety of settings that offer early education (early school grades, child care centers and homes, Head Start programs).

Education with Second Major in a Liberal Arts Discipline, B.S.

Students may elect to complete the requirements for two majors as they earn teaching certification in elementary-level programs. Students who choose this option must complete all the requirements in both majors. Courses applied to the liberal arts major may be used toward fulfillment of the education concentration through the online Waiver/Substitutions system. Students who choose a second major that has no corresponding concentration in Education will need to complete a concentration in addition to the second major. (See specific requirements for liberal arts majors in individual Bulletin sections.) Students planning to double major should consult with their advisor.

Bachelor of Arts

Comparative Literature, B.A.

The flexibility to combine courses from several national literatures and to study literature along with other disciplines is the hallmark of the Comparative Literature major.

Students may also count courses which read literature in translation; however, a minimum of eight credits must come from upper-level (300 or 400 level) literature courses in a language other than English.

Program Learning Outcomes

Students will demonstrate:

1. The ability to write analytically about texts in accordance with the conventions of comparative criticism
2. The ability to develop clear and effective arguments about literature following the conventions of standard English
3. The ability to evaluate the nature, function and value of literature from a global perspective
4. The ability to read texts closely to demonstrate familiarity with a variety of world literatures as well as methods of studying genres and literatures across national and linguistic boundaries
5. The ability to read texts in relation to history and culture
6. An understanding of how texts are related to social and cultural categories (e.g., race, ethnicity, gender, sexuality, class, ability), ideologies and belief systems (e.g. philosophy, science, politics, religion, education)
7. The ability to "join the conversation" that is always ongoing among critics and scholars regarding texts, authors, contexts, and topics by engaging with secondary sources
8. An in-depth understanding of a single author, a small group of authors, or a narrowly-defined topic, theme, period, or issue

Requirements of the Bachelor of Arts degree and the Teacher Education program must be completed for the New York State initial certification. Students are urged to study a foreign language through the intermediate collegiate level (course 202 at the College) and to take ENGL 361.

Program Learning Outcomes, Adolescence Education (NCTE)

- 1) Candidates demonstrate knowledge of ELA subject matter content that specifically includes literature and multimedia texts as well as knowledge of the nature of adolescents as readers.
- 2) Candidates demonstrate knowledge of ELA subject matter content that specifically includes language and writing as well as knowledge of adolescents as language users.
- 3) Candidates plan instruction and design assessments for reading and the study of literature to promote learning for all students.
- 4) Candidates plan instruction and design assessments for composing texts to promote learning for all students.
- 5) Candidates plan, implement, assess and reflect on research-based instruction that increases motivation and active student engagement, builds sustained learning of ELA and responds to diverse students' context-based needs.
- 6) Candidates demonstrate knowledge of how theories and research about social justice, diversity, equity, student identities and schools as institutions can enhance students' opportunities to learn in ELA.
- 7) Candidates are prepared to interact knowledgeably with students, families and colleagues based on social needs and institutional roles, engage in leadership and/or collaborative roles in ELA professional learning communities and actively develop as professional educators.

Faculty of the Departments of Geological Sciences and Chemistry.

This program provides a background in Geological Sciences and Chemistry as well as related areas such as Physics and Mathematics. The synthesis of these interrelated disciplines will prepare the student for graduate-level study and a professional career in geochemistry or related fields.

Bachelor of Arts

Geochemistry, B.A.

This program provides a background in Geological Sciences and Chemistry as well as related areas such as Physics and Mathematics. The synthesis of these interrelated disciplines will prepare the student for graduate-level study and a professional career in geochemistry or related fields.

Program Learning Outcomes

1. Identify, describe, and interpret Earth materials, and evaluate the physical, geometric, and temporal relationships.
2. Students will demonstrate basic knowledge of fundamental concepts in Chemistry
3. Students will demonstrate the ability to make quantitative measurements utilizing the appropriate instrument and report the result with appropriate uncertainty.
4. Students will demonstrate the ability to design, carry out, and interpret the results of an experiment according to established principles of chemistry.
5. Students will demonstrate that they understand the application of chemistry in geology, including the role it plays in rock-forming processes, by making geological interpretations of geochemical data sets.
6. Critically evaluate data and interpretations, and succinctly communicate data and observations using spreadsheets, graphical and/or spatial analysis tools.
7. Access and utilize the geologic literature.
8. Communicate effectively in both oral and written formats as well as be comfortable with the language of geology.

General Education Requirements (30-46 Credits)

Prerequisite coursework may be required to satisfy certain General Education courses and will count as elective credit.

Total Credits Required to Complete Major: 73-75

- PSYC 250 - R/Introduction to Behavioral Statistics **Credit(s): 3**
- SOCL 211 - R/Statistics for Social Research **Credit(s): 3**

Minimum Competence Requirement

A grade of C- or better is required for each of the following courses: GSCI 160, GSCI 161, GSCI 170, GSCI 210, GSCI 220, GSCI 315/GSCI 320, GSCI 391 and GSCI 392; CHEM 116 or CHEM 203, CHEM 119, CHEM 118 or CHEM 204, CHEM 211 or CHEM 223, CHEM 216, CHEM 213 or CHEM 224, CHEM 340 and CHEM 320 or CHEM 324.

Department Writing Requirement

A portfolio of student writing will be established which will contain papers and other written assignments from courses in the Geological Sciences. Prior to the student's final semester, the faculty within the department of Geological Sciences will review the portfolio. If the faculty agrees that the majority of written work is satisfactory, the student will have successfully completed the writing requirement. Should review of the papers indicate that the student's writing

skills are not acceptable, the student will be required to enroll in a course that emphasizes writing skills (this could be an elective course or a directed study).

HEGIS Code: 2206.00

Bachelor of Arts

Geography, B.A.

Program Learning Outcomes

- 1) Juniors and seniors will apply geographic concepts, methods, and/or skills in professional or out-of-classroom experiences. This includes participating in professional meetings, formal workshops, internships, study abroad programs, field courses, directed studies, and/or holding related leadership roles.
- 2) Graduates will demonstrate the depth and breadth of their learning experience through their post-graduate educational achievements, career paths, and other geographically-related life experiences. Assessment of their undergraduate education will show that geography provided good preparation for work, further study, and life since graduation.
- 3) Students will demonstrate an ability to conduct research: locate, evaluate, synthesize, and convey geographical information from a variety of sources.
- 4) Students will demonstrate knowledge and use of methodological approaches to geographic analysis, including cartography, geographic information systems, and quantitative, qualitative, and field methods.
- 5) Students will be aware of the major developments in the field, have an understanding of the evolution of the discipline, and demonstrate knowledge of the central debates in the discipline of Geography.

- SUST 366 - Sustainability & Environmental Stewardship **Credit(s): 3**

Senior Seminar Course (3 Credits)

Choose from:

- GEOG 474 - Geographic Thought Senior Seminar **Credit(s): 3**
- GEOG 487 - Urban Issues Senior Seminar **Credit(s): 3**

Footnotes

*Students who have taken ECON 205, MATH 242, MATH 262, PLSC 251, PSYC 250, or SOCL 211 will have fulfilled the GEOG 278 requirement but must take an additional 3 credit GEOG course to satisfy the 20 credits of GEOG courses needed for the Core Geography Requirements category.

**A total of 3 credits in any of the following courses may be applied to the Advanced Geography Elective requirement from GEOG 395, GEOG 397, GEOG 399

***A maximum of 3 credits of GEOG 386 may be applied to the Advanced Geography Elective requirement.

Minimum Competence Requirement

A grade of C- or better is required for all courses used in fulfillment of the major.

Department Writing Requirement

The department's writing requirement is incorporated into Senior Seminar courses, required of all Geography Major seniors (chosen from GEOG 474 or GEOG 487). Majors must meet the writing requirement criteria in order to pass the course, so completion of a Senior Seminar course fulfills the Department Writing Requirement.

Study Abroad

The Department offers a semester long study abroad program in The Netherlands. The program, offered at the University of Groningen, is open to junior and senior geography majors. Students receive 12-15 credits. Instruction is in English. Other study abroad opportunities are available. For additional information contact the Department of Geography and Sustainability Studies.

Sustainability Studies, B.A.

This program immerses students in the three pillars of sustainability: society, economy, and environment. Through interdisciplinary coursework, the major focuses on the connections that exist between social equity, economy, and

environmental problems, and it builds student understanding of sustainable solutions that will meet the present and future needs of people and the biosphere. The major provides students with skills needed to pursue graduate studies or employment in a range of sustainability fields. Students are encouraged to incorporate internships and directed studies into their program with the approval of the Sustainability Studies Coordinator.

Program Learning Outcomes

1. Demonstrate an understanding of the concept and practice of sustainability at personal, community, national, and global scales.
2. Analyze complex systems in the context of social, economic, and environmental dimensions.
3. Engage in sustainability research and/or outreach that applies and integrates knowledge and methods from multiple disciplines.
4. Demonstrate critical thinking, writing, and oral communication skills to address the challenges and opportunities of sustainability.

Total Credits Required to Complete Major: 44-54

An additional course (3-4 credits) from any one of the three dimensions.

Integrative and Applied Learning Experience: (3-4 credits)

Course selected must be at the 300-level or above:

- SUST 366 - Sustainability & Environmental Stewardship **Credit(s): 3**
- SUST 395 - Sustainability Internship **Credit(s): 3**
- SUST 399 - Sustainability Directed Study **Credit(s): 3**
or other internship, directed study, capstone, or study abroad course, pre-approved by the Sustainability Studies Coordinator.

Related Requirements (3-4 Credits)

One of the following:

- BIOL 340 - Modeling Biological Systems **Credit(s): 3**
- BIOL 350 - Foundations of Biostatistics **Credit(s): 3**
- ECON 205 - Business and Economic Statistics **Credit(s): 3**

- SOCL 211 - R/Statistics for Social Research **Credit(s): 3**

Minimum Competence Requirement

A grade of C- or better is required for all courses used in fulfillment of the Sustainability Studies major.

Department Writing Requirement

Students will meet the department writing requirement for Sustainability Studies majors by writing a reflective essay in consultation with the Sustainability Studies Coordinator after completion of the Integrative and Applied Learning requirement.

Footnotes:

1. A three-credit lecture taken with its one-credit co-requisite lab constitutes one course.
2. Three to four internship credits may be used to satisfy one sustainability dimension course or the integrative and applied learning requirement with the approval of the Sustainability Studies Coordinator.
3. Three to four credits of directed study may be used to satisfy one sustainability dimension course or the integrative and applied learning requirement with the approval of the Sustainability Studies Coordinator.
4. SUST 366 - Sustainability & Environmental Stewardship or SUST 399 - Sustainability Directed Study may be used to satisfy one sustainability dimension course or the integrative and applied learning requirement with the approval of the Sustainability Studies Coordinator.

Minor

Geography Minor

Total Credits Required to Complete Minor: 19-20

Basic Requirements (10-11 Credits)

- GEOG 102 - S/Human Geography **Credit(s): 3**

- GEOG 111 - N/Physical Geography **Credit(s): 3**
- GEOG 112 - N/Physical Geography Laboratory **Credit(s): 1**
- GEOG 286 - Introduction to Geographic Information Systems **Credit(s): 4**

Electives: (9 Credits)

Of the remaining 9 credits required in Geography, two courses or 6 credits must be at the 300- or 400- level.

A maximum of three credits of GEOG 395, GEOG 397, or GEOG 399 may be applied to the minor.

Sustainability Studies Minor

James Kernan, Coordinator (Bailey Hall 234)

This minor introduces students to the three pillars of sustainability: society, economy, and environment. Through interdisciplinary coursework, the minor focuses on the connections that exist between social equity, economy, and environmental problems, and it builds student understanding of sustainable solutions that will meet the present and future needs of people and the biosphere. Students are encouraged to incorporate internships and directed studies into their program with the approval of the Sustainability Studies Coordinator.

Total Credits Required to Complete Minor: 25-29

Basic Requirements: four courses (13 Credits)

- SUST 124 - Sustainability & Environmental Issues **Credit(s): 3**
- ECON 110 - Introductory Microeconomics **Credit(s): 3**
- GEOG 123 - S/M/The Developing World **Credit(s): 3**

HEGIS Code: 1914.00 (Geological Sciences, B.A.), 1917.01 (Geological Sciences, Geological Sciences, Adolescence Education: Earth Science and General Science, B.A.)

B.A. in Geological Sciences Program Learning Outcomes

1. Identify, describe, and interpret Earth materials, and evaluate the physical, geometric, and temporal relationships.
2. Recognize and interpret the origin and evolution of erosional or constructional landscapes (e.g., fluvial, glacial, arid, coastal, volcanic, deformational) within the context of modern tectonics and climatic concepts.
3. Recognize and utilize the laws of superposition and faunal succession in deciphering Earth history.
4. Use appropriate field and analytical tools for the purpose of data collection and analysis.
5. Critically evaluate data and interpretations, and succinctly communicate data and observations using spreadsheets, graphical and/or spatial analysis tools.
6. Access and utilize the geologic literature.
7. Communicate effectively in both oral and written formats as well as be comfortable with the language of geology.
8. Create, read, and interpret topographic maps, geologic maps, and cross-sections.

ECON 205, GEOG 278, MATH 242, MATH 262, PLSC 251, PSYC 250, SOCL 211.)

Footnotes

*Three credits of GSCI 393 or GSCI 399 can substitute for one 300-level elective class. Adolescence Certification majors can substitute GSCI 200 for a 300-level elective.

**Students seeking Certification in Adolescence Education (7-12): Earth Science and General Education may satisfy this requirement with approved classes in meteorology and astronomy

Minimum Competence Requirement

A grade of C- or better is required for each of the following courses: GSCI 160, GSCI 161, GSCI 170, GSCI 210, GSCI 220, GSCI 331, GSCI 341, GSCI 351, GSCI 361, and GSCI 391.

Department Writing Requirement

A portfolio of student term papers will be established. It will contain papers submitted as partial fulfillment of requirements in the following courses: GSCI 220, GSCI 341, GSCI 351, GSCI 361 (required courses) or GSCI 310, GSCI 332, GSCI 335, GSCI 343, GSCI 345, GSCI 347 (electives). Prior to the student's final semester, the Department will, as a group, review at least three papers in the portfolio. If the faculty agree the work is satisfactory, the student will have successfully completed the writing requirement. Should review of the papers indicate that the student's writing skills are not acceptable, she, he, or they will be required to enroll in a course that emphasizes writing skills. [It could be a regularly scheduled course or a directed study course.]

For further information, please contact your advisor or the Department Chair.

Bachelor of Arts - Adolescence Education

Geological Sciences, Adolescence Education: Earth Science and General Science, B.A.

The Bachelor of Arts program can be planned so that the requirements for New York State initial certification can be met.

NSTA Adolescence Science Program Learning Outcomes

1. **Content Knowledge:** Effective teachers of science understand and articulate the knowledge and practices of contemporary science. They interrelate and interpret important concepts, ideas, and applications in their fields of licensure.
2. **Content Pedagogy:** Effective teachers of science understand how students learn and develop scientific knowledge. Preservice teachers use scientific inquiry to develop this knowledge for all students.
3. **Learning Environments:** Effective teachers of science are able to plan for engaging all students in science learning by setting appropriate goals that are consistent with knowledge of how students learn science and are aligned with state and national standards. The plans reflect the nature and social context of science, inquiry, and appropriate safety considerations. Candidates design and select learning activities, instructional settings, and resources--including science-specific technology, to achieve those goals; and they plan fair and equitable assessment strategies to evaluate if the learning goals are met.
4. **Safety:** Effective teachers of science can, in a P-12 classroom setting, demonstrate and maintain chemical safety, safety procedures, and the ethical treatment of living organisms needed in the P-12 science classroom appropriate to their area of licensure.
5. **Impact on Student Learning:** Effective teachers of science provide evidence to show that P-12 students' understanding of major science concepts, principles, theories, and laws have changed as a result of instruction by the candidate and that student knowledge is at a level of understanding beyond memorization. Candidates provide evidence for the diversity of students they teach.
6. **Professional Knowledge and Skills:** Effective teachers of science strive continuously to improve their knowledge and understanding of the ever changing knowledge base of both content, and science pedagogy, including approaches for addressing inequities and inclusion for all students in science. They identify with and conduct themselves as part of the science education community.

Minor

Geological Sciences Minor

Total Credits Required to Complete Minor: 18

Basic Requirements: (18 Credits)

Eighteen credits in Geological Sciences.

A minimum of 12 hours at or above the 200-level.

(GSCI 130, GSCI 131 may be accepted as a substitute for one upper-level course for students in some programs, i.e., anthropology and biology, only upon approval by the Geological Sciences Department.)

Faculty of the Departments of Geological Sciences and Physics.

HEGIS Code: 1916.00

The primary objective of this interdisciplinary program is to prepare students for both immediate careers and graduate-level study in geophysics. The program differs from the Bachelor of Arts degree programs in Geological Sciences and Physics since it provides the background in both mathematics and physics that is required for solution of problems in the field of solid earth geophysics.

Bachelor of Arts

Geophysics, B.A.

The primary objective of this interdisciplinary program is to prepare students for both immediate careers and graduate-level study in geophysics. The program differs from the Bachelor of Arts degree programs in Geological Sciences and Physics since it provides the background in both mathematics and physics that is required for solution of problems in the field of solid earth geophysics.

Program Learning Outcomes

1. Identify, describe, and interpret Earth materials, and evaluate the physical, geometric, and temporal relationships in a geophysical context.
2. Use advanced mathematics to solve physics problems of increasing complexity
3. Use scientific instrumentation to make measurements
4. Design experiments to solve scientific questions
5. Use appropriate field and analytical tools for the purpose of data collection and analysis.
6. Critically evaluate data and interpretations, and succinctly communicate data and observations using spreadsheets, graphical and/or spatial analysis tools.
7. Access and utilize the geologic literature.
8. Communicate effectively in both oral and written formats as well as be comfortable with the language of geology.
9. Create, read, and interpret topographic maps, geologic maps, and cross-sections.

General Education Requirements (30-46 Credits)

Prerequisite coursework may be required to satisfy certain General Education courses and will count as elective credit.

Program Learning Outcomes

- 1) Demonstrate mastery of the syntax, morphology, and semantics of the target language in both written and spoken form.
- 2) Demonstrate knowledge of the organization of the target language's sound system and the production of said sounds.
- 3) Demonstrate an understanding of the core concepts of the basic branches of linguistics, such as syntax, morphology, phonology and sociolinguistics as it pertains to the target language.
- 4) Demonstrate recognition of social and regional variation.
- 5) Demonstrate knowledge of distinctive features of the history, institutions, economy, society, culture, etc. of the country or countries where the target language is spoken.
- 6) Demonstrate a critical understanding of the patterns of social interactions, as well as the meanings, attitudes, values, and ideas of the target cultures.
- 7) Demonstrate knowledge of the main authors, literary trends, and styles connected with a given course's focus and time period.
- 8) Demonstrate mastery of the technique of analyzing literature through close reading and the application of literary theory appropriate to the undergraduate level.
- 9) Be able to conduct research and write a research paper of an appropriate length for the undergraduate level, in conformity with the Modern Language Association (MLA) or American Psychological Association (APA) guidelines and format (as required by area of study).

General Education Requirements (30-46 Credits)

Prerequisite coursework may be required to satisfy certain General Education courses and will count as elective credit.

Total Credits Required to Complete Major: 32-36

Basic Requirements: (32-36 Credits)

Footnotes

NOTES: A minimum of 32 credits of FREN at the 300 and/or 400 level is required for the major. A minimum of 16 credits (including FREN 301 and FREN 302) must be taken at Geneseo.

Recommended: Study of a Second language and/or Study Abroad

Minimum Competence Requirement

A grade of C- or better is required for each of the following courses: all 300 and 400-level courses in fulfillment of the 30-hour requirement for the major.

Department Writing Requirement

During their Junior year, students will write a 500- to 600-word essay in the target language under examination conditions. Students will have 2 hours to write on a topic provided at the time of the examination. Students may use bilingual dictionaries and/or dictionaries of the target language. Written proficiency must be at or above the Advanced Low Level of Proficiency as described in the Proficiency Guidelines of the American Council on the Teaching of Foreign Languages. To take the exam, students must contact the Department's secretary at (585)245-5247. NOTE: the exam can only be attempted once per semester. For further information, please contact your advisor or visit the Department's website.

One experiential learning opportunity

In order to fully embrace the Geneseo Learning Outcomes for Baccalaureate Education (Broad and Specialized Knowledge, Intellectual and Practical Skills, Integrative and Applied Learning), all students must complete one of the following experiential learning opportunities. The experience must have a Spanish language component to it and be pre-approved by the Spanish faculty. Recommended opportunities: Study Abroad, classroom assistant, volunteering, tutoring, internship, undergraduate research, portfolio.

Notes:

A minimum of 32 credits of foreign language at the 300 and/or 400-level is required for the major. A minimum of 20 credits (including 213*, 301, 302, and 401) must be taken at Geneseo.

*Students who place at the advanced level via exam do not need to take SPAN 213.

Recommended: Study Abroad or LANG 150.

Bachelor of Arts - Adolescence Education

French, Adolescence Education: French, B.A.

Requirements of the Bachelor of Arts degree, the Workshop course includes FREN 320, and specified professional preparation courses must be completed for New York State initial certification (see School of Education program description). All student teachers are required to take the Oral Proficiency Interview (OPI) and pass at the Advanced Low or above level of the American Council on the Teaching of Foreign Languages (ACTFL) in order to be eligible to student teach. Those students who are planning on student teaching in Fall are encouraged to take the OPI at the end of their first semester junior year, so students who do not score Advanced Low will be able to develop a plan of remediation and have another opportunity before student teaching to take the OPI and achieve the required level. To schedule either of these exams, please read the instructions on the Department's website or contact the department secretary.

Program Learning Outcomes, Adolescence Foreign Language (ACTFL)

1) Language Proficiency: Interpersonal, Interpretive, and Presentational: Candidates possess a high level of proficiency in the target languages they will teach...They speak in the interpersonal mode of communication at a minimum level of "Advanced Low" on the ACTFL Oral Proficiency Interview...They interpret oral, printed and video texts by demonstrating both literal and figurative or symbolic comprehension...They present oral and written

information to audiences of listeners or readers, using language at a minimum level of "Advanced Low" or "Intermediate High" according to the target language being used....

2) Cultures, Linguistics, Literatures and Concepts from Other Disciplines: Candidates demonstrate understanding of the multiple content areas that comprise the field of foreign language studies. They demonstrate understanding of the interrelatedness of perspectives, products, and practices in the target cultures. Candidates know the linguistic elements of the target language system, and they recognize the changing nature of language. Candidates identify distinctive viewpoints in the literary texts, films, art works, and documents from a range of disciplines accessible to them only through the target language.

3) Language Acquisition Theories and Knowledge of Students and Their Needs: Candidates demonstrate an understanding of the principles of language acquisition and use this knowledge to create linguistically and culturally rich learning environment. They demonstrate an understanding of child and adolescent development, the context of instruction and their students' backgrounds, skills and learning profiles in order to create a supportive learning environment that meets individual students' needs.

4) Integration of Standards in Planning, Classroom Practice and Use of Instructional Resources: Candidates understand and use the national Standards for Foreign Language Learning in the 21st Century, and their state standards to make instructional decisions. Candidates demonstrate an understanding of the standards and integrate them into their curricular planning. They design instructional practices and classroom experiences that address these standards. Candidates use the principles embedded in the standards to select and integrate authentic materials and technology, as well as to adapt and create materials, to support communication in their classrooms.

5) Assessment of Languages and Cultures - Impact on Student Learning: Candidates design ongoing assessments using a variety of assessment models to show evidence of P-12 students' ability to communicate in the instructed language in interpretive, interpersonal, and presentational modes; and to express understanding of cultural and literary products, practices, and perspectives of the instructed language. Candidates reflect on results of assessments, adjust instruction, and communicate results to stakeholders.

6) Professional Development, Advocacy and Ethics: Candidates engage in ongoing professional development opportunities that strengthen their own linguistic, cultural and pedagogical competence and promote reflection on practice. Candidates articulate the role and value of languages and cultures in preparing all students to interact successfully in the global community of the 21st century. They understand the importance of collaboration to advocate for the learning of languages and cultures. Candidates understand and explain the opportunities and responsibilities inherent in being a professional language educator and are committed to equitable and ethical interactions with all stakeholders.

Department Notes

In general, French and Spanish language courses 101, 102, and 213 are offered every semester. Chinese, German, Italian, Japanese and Latin (from 101 to 213) are generally offered on a 3- or 4- semester rotation (Note: Italian is currently on hiatus due to staffing issues.) Arabic and Russian (from 101 to 213) are offered on a 3- or 4- semester rotation.

All incoming freshmen wishing to enroll in 301 must have earned a score of 4 or 5 on the Advanced Placement Educational Testing Service Examination or have placed at the 300 level on the departmental Foreign Language Placement Examination.

Placement Exam

The Department's Placement Examination is offered in Chinese, French, German, Italian, Japanese, Latin, Russian and Spanish. A placement exam may demonstrate a student's competency in a foreign language in order to partially or fully meet SUNY Geneseo's General Education Requirement, which is the equivalent of three college-level courses in a

single language (proficiency up to and including the 213 level). A student may take this exam only once in any one language. Online placement examinations take about 30 minutes to complete, are available in French, German, Russian and Spanish, and are offered during Summer Orientation. To take the exam, students must contact the department's secretary at (585)-245-5247. Please visit the Department's website for a schedule of dates and times. All students should take the exam before registering in classes.

Prerequisite Guidelines

Generally, no student with previous study in a language will be allowed to enroll in the 101 course for that language. Failure to enroll in the proper course could result in loss of earned credits. Students are encouraged to take the Placement Examination in the Department to determine their proper placement.

Internships

Consult the section on internships in this bulletin for additional information.

Study Abroad Programs

Spanish, Adolescence Education: Spanish, B.A.

Requirements of the Bachelor of Arts in Spanish degree, SPAN 320 with INTD 302, and specified professional preparation courses must be completed for New York State initial certification (see School of Education program description). All student teachers are required to take the Oral Proficiency Interview (OPI) and pass at the Advanced Low or above level of the American Council on the Teaching of Foreign Languages (ACTFL) in order to be eligible to student teach. Those students who are planning on student teaching in Fall are encouraged to take the OPI at the end of their first semester junior year, so students who do not score Advanced Low will be able to develop a plan of remediation and have another opportunity before student teaching to take the OPI and achieve the required level. To take the exams, students must enroll in SPAN 401.

Program Learning Outcomes, Adolescence Foreign Language (ACTFL)

1) Language Proficiency: Interpersonal, Interpretive, and Presentational: Candidates possess a high level of proficiency in the target languages they will teach...They speak in the interpersonal mode of communication at a minimum level of "Advanced Low" on the ACTFL Oral Proficiency Interview...They interpret oral, printed and video texts by demonstrating both literal and figurative or symbolic comprehension...They present oral and written information to audiences of listeners or readers, using language at a minimum level of "Advanced Low" or "Intermediate High" according to the target language being used....

2) Cultures, Linguistics, Literatures and Concepts from Other Disciplines: Candidates demonstrate understanding of the multiple content areas that comprise the field of foreign language studies. Minimum Competence Requirement

A grade of C- or better is required for all courses taken for the major.

Department Writing Requirement

The entire History curriculum emphasizes a variety of writing skills and forms. To demonstrate writing proficiency, all history majors will complete a significant writing assignment in their 400 level courses. The student will produce a finished written work of substantial length, which reflects the application of diverse writing skills (including planning, pre-writing, revision, etc.).

Honors in History

*Students who enroll in the Departmental Honors program will complete 40 credits in history.

Available for history majors who meet Department eligibility criteria (see course description for HIST 493). Senior history majors who accept a Departmental invitation will complete research and writing of an undergraduate Honors Thesis over the course of two semesters. Special arrangements may be made for students seeking secondary education certification

Four credits of the thesis can be applied towards the 400-level credit requirement.

Bachelor of Arts - Adolescence Education

History, Adolescence Education: Social Studies, B.A.

The Bachelor of Arts program can be planned so that New York State initial certification requirements are met (see School of Education).

Program Learning Outcomes, Adolescence Social Studies (NCSS)

1. Content Knowledge

Candidates demonstrate knowledge of Social Studies disciplines. Candidates are knowledgeable of disciplinary concepts facts and tools; structures of inquiry; and forms of representation.

2. Application of Content Through Planning

Candidates plan learning sequences that leverage social studies knowledge and literacies, technology and theory and research to support the civic competence of learners.

3. Design and Implementation of Instruction and Assessment

Candidates design and implement instruction and authentic assessments, informed by data literacy and learner self-assessment, that promote civic competence.

4. Social Studies Learners and Learning

Candidates use knowledge of learners to plan and implement relevant and responsive pedagogy, create collaborative and interdisciplinary learning environments and prepare learners to be informed advocates for an inclusive and equitable society.

5. Professional Responsibility and Informed Action

Candidates reflect and expand upon their social studies knowledge, inquiry skills and civic dispositions to advance social justice and promote human rights through informed action in schools and/or communities.

Humanities

Bill Harrison, Chair of the HUMN Committee

The Humanities curriculum is designed to be the center of the College's General Education program and of liberal education in this College. The courses which fulfill the Humanities requirement approach the subject of moral and political values using the methods of the three Humanities disciplines: literature, history, and philosophy. The goal of these courses is to acquaint our students with the major Western value systems by examining the basic readings from philosophical and literary points of view, and in a historical context. Although the courses are taught primarily by faculty of the Humanities Academic Area, other faculty members teach in this interdisciplinary program as their schedules permit.

What is an Individualized Studies Major?

An interdisciplinary, student-designed program of study, resulting in a B.A. or B.S. degree and devised in consultation with faculty members and approved by relevant Department Chairs, supported by the Director of the Center for Integrative Learning. It includes courses from two or more disciplines with a central focus on a subject, topic, or theme that is not covered in existing majors or combinations of academic programs.

What are the Requirements for an Individualized Studies Major?

- A concise, specific unifying focus that markedly differs from existing majors and minors.
- Minimum of 36 credits, including a student-designed, 3-credit integrative learning Capstone (linked to a 1-credit course bringing different individualized studies major students together).
- Courses in two or more disciplines, with one discipline as the "home" discipline
- 18 credits or more from the "home" discipline (typically from a single prefix e.g ANTH, GSCI).
- 9 credits or more from the "second" discipline (a different prefix).
- 24 credits at the upper division level, at least 9 from the "home" discipline.
- A maximum of 7 credits of Directed Study/Internships, including the 3-credit Capstone.
- All courses must demonstrably connect to the Individualized Studies Major's interdisciplinary focus.

Who can Undertake an Individualized Studies Major?

- Any student who has accumulated 30 credit hours, at least 21 at SUNY Geneseo
- AND who has completed at least 9 credit hours in their "home" major
- N.B. a transfer student admitted with 60 credits or more may file an Individualized Plan before completing a year of study at Geneseo.
- Limits on application: a student cannot apply if they have met both 85% of their degree requirements and 105 credits have been completed or if they have already met more than 30 of the ISM credits. A student must have a 2.0 GPA overall and a 2.7 GPA in the home major to apply.

Who can Undertake an Individualized Studies Major?

1. Student meets with Director for Center of Integrative Learning to understand the requirements and process and to ensure no existing program of study meets the student's needs.
2. Student writes an Individualized Plan that consists of 36 credits and that reflectively explains the major's focus and rationale; identifies specific courses (including multiple courses that would fulfil

requirements); potential faculty advisor(s); potential post-graduate pathways; concrete plans for navigating pre-requisites or other enrollment requirements.

3. Student approaches one or two faculty advisors, one from the "home" discipline and one from the second discipline indicated in the draft Individualized Plan.

4. Student submits the Individualized Plan for review and approval signature to:

the (two) Faculty Advisor(s) plus Department Chairs of the home and second departments and any Department Chair necessarily involved in prerequisite waiver discussions;

Director of the Center for Integrative Learning, who consults with the Dean of Academic Planning and Advising, Assistant Provost for Curriculum and Assessment, and the Registrar, as well as informing the student of approval, revisions required, or rejection.

Revisions to the Individualized Studies Major must be done through a Revision of Individualized Plan Form signed by the Faculty Advisor(s), Dept. Chairs, and the Director of the Center for Integrative Learning.

Individualized Studies Major Capstone: Students must complete a Capstone Proposal no later than the midpoint of the third-to-last semester of their study (Oct 15th, March 15th) and submit to their Faculty Advisors and the Director of the Center for Integrative Learning. The capstone must exemplify the Individualized Studies Major's focus, involve the home and secondary disciplines, and include applied learning.

Bachelor of Arts

Individualized Studies, B.A.

An interdisciplinary, student-designed program of study, resulting in a B.A. degree and devised in consultation with faculty members and approved by relevant Department Chairs, supported by the Director of the Center for Integrative Learning. It includes courses from two or more disciplines with a central focus on a subject, topic, or theme that is not covered in existing majors or combinations of academic programs.

Faculty: Interdepartmental advisory committee representing the departments of Anthropology, Communications, Economics, Languages & Literatures, Geography and Sustainability Studies, History, Management, Political Science and International Relations, and Sociology.

Program Learning Outcomes

- 1) Students in International Relations should possess an understanding of the principles, the actors (state and non-state), structures and processes
in the international system.
- 2) Students should demonstrate a familiarity with the key political, economic, social, and cultural-religious features of various political systems
(western and non-western), particularly as they inform the roles and policies of international actors.
- 3) Students will acquire a basic understanding of economics, particularly as it affects issues in international relations, and an acquaintance with the
historical development and key themes in US foreign policy are also essential.
- 4) Students are expected to develop expertise in one of the major subfields of international relations: political economy, security studies, development,
and regional processes.
- 5) Upon completion of the major, students should be able to critically analyze contemporary international relations, applying theoretical perspectives to
substantive policy issues.

Thematic Cluster Track (15-20 Credits)

Five courses from one of the tracks listed below. Distribution of course-levels in the thematic cluster track must meet the following conditions: 1) at least 1 course at the 400 level; 2) an additional 3 courses at the 300 or 400 level; 3) the remaining course at any level; and 4) students must select track courses with a minimum of three different departmental prefixes. New, experimental, study abroad, and transfer courses may also be considered for various tracks if content relevant and contingent upon advance approval by the IR Coordinator.

Note that many 300/400 level courses listed in the tracks have prerequisites that are not listed among the basic requirements. Students should plan their electives carefully to ensure they have met these pre-requisites in order to enroll in the course.

Footnotes

Students must complete an approved study abroad or an approved internship with an organization engaged in activities relevant to international relations. Information can be obtained from faculty advisors in the International Relations program. If appropriate in content, study abroad courses or internship approved for academic credit may be applied to the major requirements with advance approval of the IR Program Coordinator.

Related requirements: (0-16 Credits)

Foreign language through the first intermediate level or its equivalent is required.*

The foreign language requirement may be satisfied by one of the following:

1. Satisfactory completion of course work in a single language through the 213-level (including meeting this requirement through high school years or placement testing)** or
2. Satisfactory completion of coursework in one foreign language through the 102 level (including meeting this requirement through high school years or placement testing) AND completion of coursework in a second foreign language through the 102 level.

Footnotes

*Geneseo regularly offers Spanish, French, and German through the 213 level each year. Other languages are offered through the 213 level when demand is sufficient. Consult Department of Languages and Literatures listings. Additional advanced foreign language study, whether at Geneseo or overseas, is strongly encouraged for International Relations majors.

** Students who place into a 300 level language through a placement exam have met the requirement.

Minimum Competence Requirement

A grade of C- or better is required for all courses used in fulfillment of the major including required related courses.

Note: The Departmental writing requirement is satisfied through satisfactory completion of the major research paper for any 300 level PLSC course (grade of C or higher), including those in the tracks and the IR Capstones. The paperwork on this requirement is taken care of automatically by the department.

Minor

International Relations Minor: Development and Sustainability Studies, Track

This minor provides the interested student the opportunity to gain a substantive and analytical background in foreign affairs. The program affords the student the opportunity to study the significant domestic and international factors affecting relations among countries with particular emphasis on the political and economic dimensions of these relations and their implications for American policy in the world. The program provides both the fundamental background in international relations and the chance for students to specialize in an area. Opportunities for participation in Model United Nations, study abroad, and Washington internships in the area of international relations may be available to qualified students.

Successful completion of the program prepares students for career possibilities in the Federal foreign affairs and defense community, international business, or related areas. The program would also prepare students for graduate study in international relations, business, or area studies.

Footnotes

Note that many upper division track courses have prerequisites other than the basic requirements. Students should plan their schedules accordingly to ensure that they meet any relevant prerequisites.

It is strongly recommended that students do not register for this track unless they are a double major in Management, Economics, or Accounting. Please meet with your advisor to carefully discuss whether you will be able to complete the track.

International Relations Minor: Regional and Comparative Studies, Track

This minor provides the interested student the opportunity to gain a substantive and analytical background in foreign affairs. The program affords the student the opportunity to study the significant domestic and international factors affecting relations among countries with particular emphasis on the political and economic dimensions of these relations and their implications for American policy in the world. The program provides both the fundamental background in international relations and the chance for students to specialize in an area. Opportunities for participation in Model United Nations, study abroad, and Washington internships in the area of international relations may be available to qualified students.

Successful completion of the program prepares students for career possibilities in the Federal foreign affairs and defense community, international business, or related areas. The program would also prepare students for graduate study in international relations, business, or area studies.

Total Credits Required to Complete Minor: 21-41

Basic Requirements: (9 Credits)

- PLSC 120 - S/Comparative Politics **Credit(s): 3**
 - PLSC 140 - S/International Politics **Credit(s): 3**
 - PLSC 382 - U.S. Foreign Policy **Credit(s): 3**
- Four courses chosen from any one International Relations Track* **

* No more than two courses from any academic department; at least two at the 300-level.

** Political Science majors must choose their electives outside Political Science; Economics and Management majors must choose two of their electives outside the School of Business.

Related Requirements: (0-16 Credits)

Foreign language through the first intermediate level or its equivalent is required.

The foreign language requirement may be satisfied by one of the following:

1. satisfactory completion of course work in a single language through the 213-level;* (including meeting this requirement through high school years or placement testing)** or
2. satisfactory completion of course work in one foreign language through the 102 level (including meeting this requirement through high school years or placement testing) AND completion of coursework in a second foreign language through the 102 level.

* Geneseo regularly offers Spanish, French, and German through the 213 level each year. Other languages are offered through the 213 level when demand is sufficient. Consult Department of Languages and Literatures listings. Additional advanced foreign language study, whether at Geneseo or overseas, is strongly encouraged for International Relations majors.

** Students who place into a 300 level language through a placement exam have met the requirement.

HEGIS Code: 1701.00 (Mathematics, B.A.), 1701.00 (Mathematics, B.S.), 1703.00 (Applied Mathematics, B.S.), 1701.01 (Mathematics, Adolescence Education: Mathematics, B.A.)

The mathematics department offers four degrees: a Bachelor of Arts, a Bachelor of Arts in Adolescence Education, a Bachelor of Science, and a Bachelor of Science in Applied Mathematics.

First Year Students

During the first semester at the College, incoming first year mathematics majors are advised to register in MATH 101.

Minimum Competence Requirement

A grade of C- or better is required for ALL courses submitted in fulfillment of the major in Mathematics. Students may not enroll in any course having prerequisites unless the minimum grade of C- has been earned in the prerequisites or unless special permission has been granted in writing by the course instructor. Prerequisite courses may not be taken after successful completion of any subsequent course.

Department Writing Requirement

MATH 239 and MATH 324 are two required courses in which mathematical writing is emphasized and taught. Writing opportunities (homework, quizzes, exams) will be graded for clear, precise exposition as well as for mathematical content. The department's writing requirement is satisfied by successfully completing both of these courses.

Bachelor of Arts

Mathematics, B.A.

Program Learning Outcomes

- 1) Students will be able to analyze problems and formulate appropriate mathematical models in a variety of areas of Mathematics.
- 2) Students will be able to select and utilize appropriate mathematical technology with which to analyze mathematical problems in a wide variety of areas.
- 3) Students will be able to make rigorous mathematical arguments including how to both prove and disprove conjectures.
- 4) Students will critically read mathematics.
- 5) Students will be able to use the concepts of Analysis in solving problems. The fundamental concepts include sets, numbers, functions, and convergence.
- 6) Students will be able to use the concepts of Algebra in solving problems. The fundamental concepts include equations, numbers, and algebraic structures.
- 7) Students will be able to express themselves in writing in an articulate, sound, and well-organized fashion.
- 8) Students will be able to express themselves orally in an articulate, sound, and well-organized fashion.

General Education Requirements (30-46 Credits)

Prerequisite coursework may be required to satisfy certain General Education courses and will count as elective credit.

First Year Math Students

During the first semester at the College, incoming first year mathematics majors are advised to register in MATH 101.

Total Credits Required to Complete Major: 36-40

Basic Requirements (24 Credits)

Each of the following six courses:

- MATH 221 - R/Calculus I **Credit(s): 4**
- MATH 222 - Calculus II **Credit(s): 4**
- MATH 223 - Calculus III **Credit(s): 4**
- MATH 233 - Linear Algebra I **Credit(s): 3**
- MATH 239 - Introduction to Mathematical Proof **Credit(s): 3**
- MATH 324 - Real Analysis I **Credit(s): 3**
- *One of the following courses:*
- MATH 230 - Programming and Mathematical Problem Solving **Credit(s): 3**
- MATH 345 - Numerical Analysis I **Credit(s): 3**
- MATH 382 - Discrete Wavelets and Applications **Credit(s): 3**
- MATH 384 - Computational Graphics **Credit(s): 3**
- MATH 385 - Mathematical Reasoning and Advanced Programming Techniques **Credit(s): 3**

Required Options (9 Credits)

Three courses from the following:

- MATH 326 - Differential Equations **Credit(s): 3**
- MATH 330 - Abstract Algebra **Credit(s): 3**
- MATH 333 - Linear Algebra II **Credit(s): 3**
- MATH 335 - Geometry **Credit(s): 3**
- MATH 345 - Numerical Analysis I **Credit(s): 3**
- MATH 341 - Probability and Applied Statistics **Credit(s): 3 or**
- MATH 360 - Probability **Credit(s): 3**
- MATH 371 - Complex Analysis **Credit(s): 3**

Research and Presentation Requirement (0-1 Credits)

- MATH 348 - Oral Presentation and Research Seminar **Credit(s): 1 ***

Note:

*The MATH 348 requirement may be waived if a student has:

1. Made an oral presentation on a 300-level mathematical topic that has been assessed with the mathematics department rubric and found satisfactory;

And

2. Produced a researched paper that has been assessed with the mathematics department rubric and found satisfactory;

And

3. Evaluated a public mathematical talk using the mathematics department rubric. Forms and permission for such a waiver are available from the mathematics department chair.

Elective Requirements: (6 Credits)

Two additional 3 credit courses at the 300-level.

Math Minimum Competence Requirement

A grade of C- or better is required for ALL courses submitted in fulfillment of all major in Mathematics. Students may not enroll in any course having prerequisites unless the minimum grade of C- has been earned in the prerequisites or unless special permission has been granted in writing by the course instructor. Prerequisite courses may not be taken after successful completion of any subsequent course.

A student may repeat MATH 223, MATH 230, MATH 233, or MATH 239 only once for major credit, and it is recommended that the course be taken at the next offering of the class. After the repeat, there may be one appeal to the Chair of the Mathematics Department to take the course once more. If a student does not earn at least a "C-" on the second taking of the class (or third taking if the appeal is approved), then they will not be able to complete the major.

Math Mandatory Advisement

In addition to any Mandatory advisement required by the college, during their second year at Geneseo all math majors are required to attend one of the sophomore advisement sessions offered each semester by the Mathematics Department prior to registration. If for some reason, a student has not attended one by the second semester of their sophomore year, then they will have to meet with their advisors in order to have the mandatory hold removed.

Math Department Writing Requirement

MATH 239 and MATH 324 are two required courses in which mathematical writing is emphasized and taught. Writing opportunities (homework, quizzes, exams) will be graded for clear, precise exposition as well as for mathematical content. The department's writing requirement is satisfied by successfully completing both of these courses.

Bachelor of Science

Applied Mathematics, B.S.

Program Learning Outcomes

- 1) Students will be able to analyze problems and formulate appropriate mathematical models in a variety of areas of Mathematics.
- 2) Students will be able to select and utilize appropriate mathematical technology with which to analyze mathematical problems in a wide variety of areas.
- 3) Students will be able to make rigorous mathematical arguments including how to both prove and disprove conjectures.
- 4) Students will critically read mathematics.
- 5) Students will be able to use the concepts of Analysis in solving problems. The fundamental concepts include sets, numbers, functions, and convergence.
- 6) Students will be able to use the concepts of Algebra in solving problems. The fundamental concepts include equations, numbers, and algebraic structures.
- 7) Students will be able to express themselves in writing in an articulate, sound, and well-organized fashion.
- 8) Students will be able to express themselves orally in an articulate, sound, and well-organized fashion.

General Education Requirements (30-46 Credits)

Prerequisite coursework may be required to satisfy certain General Education courses and will count as elective credit.

First Year Math Students

During the first semester at the College, incoming first year mathematics majors are advised to register in MATH 101.

Total Credits Required to Complete Major: 49-52

Basic Requirements: (34 Credits)

Each of the following eleven courses:

- MATH 221 - R/Calculus I **Credit(s): 4**
- MATH 222 - Calculus II **Credit(s): 4**
- MATH 223 - Calculus III **Credit(s): 4**

- MATH 230 - Programming and Mathematical Problem Solving **Credit(s): 3 or**
- MATH 345 - Numerical Analysis I **Credit(s): 3 or**
- MATH 382 - Discrete Wavelets and Applications **Credit(s): 3 or**
- MATH 384 - Computational Graphics **Credit(s): 3 or**
- MATH 385 - Mathematical Reasoning and Advanced Programming Techniques **Credit(s): 3**

- MATH 233 - Linear Algebra I **Credit(s): 3**
- MATH 239 - Introduction to Mathematical Proof **Credit(s): 3**
- MATH 324 - Real Analysis I **Credit(s): 3**
- MATH 326 - Differential Equations **Credit(s): 3**
- MATH 333 - Linear Algebra II **Credit(s): 3**
- MATH 348 - Oral Presentation and Research Seminar **Credit(s): 1 ***

Note:

*The MATH 348 requirement may be waived if a student has:

1. Made an oral presentation on a 300-level mathematical topic that has been assessed with the mathematics department rubric and found satisfactory;

And

2. Produced a researched paper that has been assessed with the mathematics department rubric and found satisfactory;

And

3. Evaluated a public mathematical talk using the mathematics department rubric. Forms and permission for such a waiver are available from the mathematics department chair.

Additional Requirements: (18 Credits)

Six courses from the 300-level mathematics course offerings, chosen in consultation with the faculty advisor. Four of these must be chosen from two of the areas below, i.e., for two selected areas, take two of the courses listed for the area.*

1. Probability and Statistics

- MATH 360 - Probability **Credit(s): 3**
- MATH 361 - Statistics **Credit(s): 3**

2. Analysis

- MATH 325 - Real Analysis II **Credit(s): 3**
- MATH 346 - Numerical Analysis II **Credit(s): 3**
- MATH 350 - Vector Analysis **Credit(s): 3**
- MATH 371 - Complex Analysis **Credit(s): 3**

3. Applied Mathematics

- MATH 332 - Linear Programming and Operations Research **Credit(s): 3**
- MATH 340 - Modeling Biological Systems **Credit(s): 3**
- MATH 382 - Discrete Wavelets and Applications **Credit(s): 3**

4. Differential Equations

- MATH 328 - Theory of Ordinary Differential Equations **Credit(s): 3**
- MATH 372 - Partial Differential Equations **Credit(s): 3**

5. Discrete Mathematics

- MATH 310 - Graph Theory **Credit(s): 3**
- MATH 315 - Combinatorics **Credit(s): 3**
- MATH 319 - Number Theory **Credit(s): 3**
- MATH 330 - Abstract Algebra **Credit(s): 3**

6. Computing

- MATH 384 - Computational Graphics **Credit(s): 3**
- MATH 385 - Mathematical Reasoning and Advanced Programming Techniques **Credit(s): 3**
- At Most One of:**
- MATH 303 - Theory of Computational Complexity **Credit(s): 3**
- MATH 304 - Theory of Computability **Credit(s): 3**

Footnotes

*A course within the additional requirements may be replaced by a chair approved offering of MATH 380 with the appropriate content.

Math Minimum Competence Requirement

A grade of C- or better is required for ALL courses submitted in fulfillment of all major in Mathematics. Students may not enroll in any course having prerequisites unless the minimum grade of C- has been earned in the prerequisites or unless special permission has been granted in writing by the course instructor. Prerequisite courses may not be taken after successful completion of any subsequent course.

A student may repeat MATH 223, MATH 230, MATH 233, or MATH 239 only once for major credit, and it is recommended that the course be taken at the next offering of the class. After the repeat, there may be one appeal to the Chair of the Mathematics Department to take the course once more. If a student does not earn at least a "C-" on the second taking of the class (or third taking if the appeal is approved), then they will not be able to complete the major.

Math Mandatory Advisement

In addition to any Mandatory advisement required by the college, during their second year at Geneseo all math majors are required to attend one of the sophomore advisement sessions offered each semester by the Mathematics Department prior to registration. If for some reason, a student has not attended one by the second semester of their sophomore year, then they will have to meet with their advisors in order to have the mandatory hold removed.

Math Department Writing Requirement

MATH 239 and MATH 324 are two required courses in which mathematical writing is emphasized and taught. Writing opportunities (homework, quizzes, exams) will be graded for clear, precise exposition as well as for mathematical content. The department's writing requirement is satisfied by successfully completing both of these courses.

Music & Musical Theatre

Gerard Floriano, Chair
(Brodie Hall 101A)

HEGIS Code: 1005.00 (Music) 1004.00 (Musical Theatre, B.A., Musical Theatre, B.P.S.)

The BA in Music offers students the opportunity to study music performance, history, theory, criticism, ethnomusicology, composition, and conducting. Students declaring a major in music must select one of four options: Music Performance; Musicology/HiTEC (History, Theory, Ethnomusicology, and Composition); Jazz and American Music; or Music Business, Production, and Recording.

Bachelor of Arts

Music, Jazz and American Music Studies Option, B.A.

Program Learning Outcomes

Students will demonstrate:

1. a familiarity with the styles, genres, and forms of Western art music, and the most influential composers and compositions therein.
2. the ability to accomplish a stylistic analysis of music from different eras in music history.

3. an awareness of and skill in researching current issues in music history.
4. the ability to describe musical styles, structures, and techniques precisely and articulately in writing and in speaking (oral discourse).
5. aural comprehension-through dictation-of melody, harmony, rhythm, and form in various musical styles.
6. skills in sight-singing of music from the Baroque through 21st-Century.
7. skills in playing functional keyboard harmony.
8. knowledge of the most pertinent concepts of tonal music: proper voice leading, harmonic motion within the circle of fifths, tonicization and modulation, sequences, chromaticism, and aspects of traditional small and large scale forms.
9. knowledge of the most pertinent concepts of post-tonal music: modal scales and harmonies, twelve-tone serialism, quartal/quintal harmonies, polyrhythm, metric modulation, minimalist techniques, chance music, graphic music, and non-traditional forms.
10. Every year, students in the Performance Option will demonstrate a level of mastery in an instrument or voice as defined by the departmental standards (and recommended by the National Association of Schools of Music (NASM) for the instrumental areas or National Association of Teachers of singing-NATS-for vocal studies).
11. At the end of their required piano studies, students in the History/Ethnomusicology Option, Theory/Composition Option, and Piano Pedagogy Minor Option will be able to demonstrate proficiency in piano skills, as recommended by NASM.
12. At the completion of their studies, students in the Music Minor will demonstrate a proficiency, as defined by departmental standards and NASM or NATS, in the performance of either an instrument or in voice.

Notes

Upper-level requirement: at least 9 elective credits either in MUSC and/or in the related requirements must be at the 300 or 400 level.

*a maximum of 3 credits of MUSC 165 may be applied to the elective total.

Departmental Writing Requirement

Each of the following courses includes a writing assignment in formal prose of about ten pages in length, following one of three approaches - analytical, historical, or a combination of these: MUSC 311, MUSC 315, MUSC 331, MUSC 333, MUSC 334, MUSC 335, MUSC 336, MUSC 337, MUSC 338, and MUSC 339. The organization of each paper should be clear, the writing appropriately literary, and grammatically and syntactically correct. The ideas should present a logical argument, as suggested by an earlier outline. The paper should be typed and doubled-spaced, with page numbers and one-inch margins. All sources consulted should be cited in a consistent manner in footnotes and a complete bibliography, following the standard format described in *The Chicago Manual of Style* or *Kate Turabian's Manual for Writers*. It is the music historian's responsibility to oversee the implementation of the writing requirement and to enforce a fair and equal standard for all papers submitted.

Students who plan to attend graduate school are strongly advised to complete two years of foreign language study.

Program Learning Outcomes

Students will demonstrate:

1. a familiarity with the styles, genres, and forms of Western art music, and the most influential composers and compositions therein.
2. the ability to accomplish a stylistic analysis of music from different eras in music history.
3. an awareness of and skill in researching current issues in music history.
4. the ability to describe musical styles, structures, and techniques precisely and articulately in writing and in speaking (oral discourse).
5. aural comprehension-through dictation-of melody, harmony, rhythm, and form in various musical styles.
6. skills in sight-singing of music from the Baroque through 21st-Century.
7. skills in playing functional keyboard harmony.
8. knowledge of the most pertinent concepts of tonal music: proper voice leading, harmonic motion within the circle of fifths, tonicization and modulation, sequences, chromaticism, and aspects of traditional small and large scale forms.

9. knowledge of the most pertinent concepts of post-tonal music: modal scales and harmonies, twelve-tone serialism, quartal/quintal harmonies, polyrhythm, metric modulation, minimalist techniques, chance music, graphic music, and non-traditional forms.
10. Every year, students in the Performance Option will demonstrate a level of mastery in an instrument or voice as defined by the departmental standards (and recommended by the National Association of Schools of Music (NASM) for the instrumental areas or National Association of Teachers of singing-NATS-for vocal studies).
11. At the end of their required piano studies, students in the History/Ethnomusicology Option, Theory/Composition Option, and Piano Pedagogy Minor Option will be able to demonstrate proficiency in piano skills, as recommended by NASM.
12. At the completion of their studies, students in the Music Minor will demonstrate a proficiency, as defined by departmental standards and NASM or NATS, in the performance of either an instrument or in voice.

Departmental Writing Requirement

Each of the following courses includes a writing assignment in formal prose of about ten pages in length, following one of three approaches - analytical, historical, or a combination of these: MUSC 311, MUSC 315, MUSC 331, MUSC 333, MUSC 334, MUSC 335, MUSC 336, MUSC 337, MUSC 338, and MUSC 339. The organization of each paper should be clear, the writing appropriately literary, and grammatically and syntactically correct. The ideas should present a logical argument, as suggested by an earlier outline. The paper should be typed and doubled-spaced, with page numbers and one-inch margins. All sources consulted should be cited in a consistent manner in footnotes and a complete bibliography, following the standard format described in *The Chicago Manual of Style* or *Kate Turabian's Manual for Writers*. It is the music historian's responsibility to oversee the implementation of the writing requirement and to enforce a fair and equal standard for all papers submitted.

Students who plan to attend graduate school are strongly advised to complete two years of foreign language study.

- Music Performance Option-Voice: a MUSC 160 organization (placement by audition and participation in weekly Voice Seminar);
- Music Performance Option-Woodwind, Brass, or Percussion: MUSC 165 Chamber Symphony, Wind Ensemble, or Jazz Ensemble (placement by audition) and participation in weekly Instrumental Seminar;
- Music Performance Option-String: MUSC 165 Symphony Orchestra and participation in weekly Instrumental Seminar. maximum of eight credits may be applied to the degree.

Juries and Recital Requirement

- Jury examination each semester in the Music Performance Option;
- Performance in a Friday afternoon recital each semester in the Music Performance Option or in some other public, faculty-sponsored event approved by the principal instructor;
- Solo performance of approximately one-half hour in a shared Junior Recital.

Minimum Competency Requirement

A grade of C- or better is required for all major requirements, including all required coursework and electives. For the Music Performance Option, a grade of C- or better is required for all major requirements, including all general and performance option coursework; all performance organization requirements; all juries and the junior recital.

Departmental Writing Requirement

Each of the following courses includes a writing assignment in formal prose of about ten pages in length, following one of three approaches - analytical, historical, or a combination of these: MUSC 311, MUSC 315, MUSC 331, MUSC 333, MUSC 334, MUSC 335, MUSC 336, MUSC 337, MUSC 338, and MUSC 339. The organization of each paper should be clear, the writing appropriately literary, and grammatically and syntactically correct. The ideas should present a logical argument, as suggested by an earlier outline. The paper should be typed and doubled-spaced, with page numbers and one-inch margins. All sources consulted should be cited in a consistent manner in footnotes and a complete bibliography, following the standard format described in *The Chicago Manual of Style* or *Kate Turabian's Manual for Writers*. It is the music historian's responsibility to oversee the implementation of the writing requirement and to enforce a fair and equal standard for all papers submitted.

Students who plan to attend graduate school are strongly advised to complete two years of foreign language study.

Musical Theatre, B.A.

An audition is required for admission to the interdisciplinary Major in Musical Theatre.

Applicants will audition in the three performance areas of voice, dance, and acting. Musical theatre applicants will also complete music theory and sight-singing placement exams.

Voice: Students must prepare three 32-bar musical theatre songs that demonstrate their ability to sing in tune with good vocal quality and musical intelligence. The songs should be memorized and one should be written before 1965. One of the songs should be a ballad. If a student has significant classical training, an art song or aria may be substituted as one of the three prepared songs. Please bring your sheet music, in the correct key, in a hard-back, three-ring binder (for easiest page-turning.) A pianist will be provided.

Acting: Student must prepare two contrasting monologues, traditionally a comedic and a dramatic monologue. Each piece should be less than one-and-a-half minutes long and memorized. Select audition monologues that contain characters within five years of your current age. There is no period requirement.

Dance: Students will participate in a warm-up, a short technique class, and learn a brief dance combination from a musical. There will be time to change into dance attire. Students should dress in appropriately fitted dance or athletic clothes.

An interview follows the audition. Musical theatre students must submit a resume that includes personal goals as a theatre artist, relevant theatre experience, special skills and hobbies, and other performance or athletic experience. Your resume will be collected on the date you are scheduled to audition.

Program Outcomes

Students will demonstrate:

1. a familiarity with the styles, genres, and forms of Western art music, and the most influential composers and compositions therein.
2. the ability to accomplish a stylistic analysis of music from different eras in music history.
3. an awareness of and skill in researching current issues in music history/musical theatre/theatre.
4. the ability to describe musical styles, structures, and techniques precisely and articulately in writing and in speaking (oral discourse).
5. an understanding of Theatre and Musical Theatre literature, the historical settings, and criticisms through written analysis and/or oral presentations.
6. aural comprehension - through dictation - of melody, harmony, rhythm, and form in various musical styles.
7. skills in sight-singing of music from the Baroque through 21st-Century.
8. skills in playing functional keyboard harmony.
9. knowledge of the most pertinent concepts of tonal music: proper voice leading, harmonic motion within the circle of fifths, tonicization and modulation, sequences, chromaticism, and aspects of traditional small and large scale forms.
10. knowledge of the most pertinent concepts of post-tonal music: modal scales and harmonies, twelve-tone serialism, quartal/quintal harmonies, polyrhythm, metric modulation, minimalist techniques, chance music, graphic music, and non-traditional forms.

11. a level of mastery in their instrument (voice) as defined by the departmental standards (as recommended by the National Association of Schools of Music (NASM) and by the National Association of Teachers of Singing (NATS).
12. the ability to perform in, collaborate, and/or facilitate musical theatre and/or theatre productions at an artistic level comparable to professional expectations.

Bachelor of Professional Studies

Musical Theatre, B.P.S.

The Bachelor of Professional Studies in Musical Theatre is a pre-professional degree in music, theatre, and dance, with an emphasis on the essential integration of these elements. Our faculty creates an environment where aspiring musical theatre artists can begin a career and where powerful transformational experiences occur.

While we intend to generate young artists who can sing, dance, and act with technical ease and facility, a liberal arts-based education becomes a necessary tool for a performer. Critical, analytical, and independent thinking are essential qualities as they serve as the foundation of creative work. Also, a small class size is crucial so the individual attention from the faculty can be maintained as well as the monitoring of our students' growth vocally, physically, and intellectually.

At Geneseo, students learn to work in ways that contribute positively to our art form, collaborating with fellow artists, and fostering a lasting appreciation for, and life in, the performing arts.

Neuroscience

Allison Bechard, Coordinator
(Bailey Hall 146)

HEGIS Code: 0425.00 (Neuroscience, B.S.)

Faculty of the departments of Biology, Chemistry and Psychology.

Bachelor of Science

Neuroscience, B.S.

The Neuroscience Program is an interdisciplinary program designed to prepare students for graduate study, medical school, and careers focused on Neuroscience research. This program emphasizes basic research methods and the practical application of those methods to the process of scientific discovery.

Cannot be used as a second major with Biology, Chemistry, Biochemistry, Biophysics, or Psychology.

Program Learning Outcomes

- 1) Students will develop an understanding of general principles from the field of Neuroscience including, but not limited to: neuroanatomy, neurophysiology, neurochemistry, neuropharmacology and brain anatomy.
- 2) Students will develop an understanding of, and appreciation for, how behavioral and cognitive neuroscience research is applied to both normal and abnormal human behavior and cognition.
- 3) Students will demonstrate capabilities in research design and statistical analysis as they relate to the field of Neuroscience.
- 4) Students will demonstrate proficiency in both written and oral scientific presentations.
- 5) Students will demonstrate the ability to share their knowledge of Neuroscience with others in the broader, nonacademic, community.
- 6) Students will develop an understanding of, and appreciation for, ethics as they apply to both human and animal research.

HEGIS Code: 1509.00 (Philosophy, B.A.)

Bachelor of Arts

Philosophy, B.A.

David Levy, Chair (Welles Hall 107B) - philosophy.geneseo.edu

Program Learning Outcomes

Students will:

1. Demonstrate knowledge of the history and development of significant philosophical views.
2. Demonstrate understanding of concepts and theories central to philosophy including specifically
 - a. questions of value
 - b. questions of knowledge and existence
3. Demonstrate critical thinking, reading, writing and discussion skills including:
 - a. the ability to extract arguments in classic and contemporary philosophical texts and relate them to appropriate philosophical context
 - b. construction of sound deductive arguments and strong inductive arguments to evaluate philosophical concepts, positions, and arguments
 - c. engagement in dialectical discussion: to participate in sustained and coherent discussion of arguments including articulation of clarifications, objections, and responses
 - d. the ability to present viewpoints/arguments that differ from or oppose one's own fairly and charitably, and to respond to such viewpoints/arguments
 - e. proficiency in oral discourse: to orally present philosophical arguments (whether one's own or those derived

from reading) clearly and to encourage other students to engage with those arguments
f. reflecting upon the ways in which philosophical reasoning, argumentation, concepts, texts, etc. apply to everyday life, including personally, locally, socially, politically, nationally, globally, etc.

4. Engage proficiently in philosophical research and writing including:
- locating, evaluating, and interpreting scholarly philosophical sources
 - producing one's own philosophical research question(s) and pursuing primary and/or secondary source research, while properly crediting sources
 - constructing original arguments in written form in a manner consistent with disciplinary norms concerning argumentative writing

Electives in Philosophy (12 Credits)

4 additional PHIL courses, no more than 1 of which is at the 100 level and at least 2 of which must be at the 300/400 level

Footnotes

Students must complete at least 18 credits in PHIL courses at or above the 300-level. PHIL 493 and PHIL 399 require department approval for use in the major.

At least one of Value/Core must be at 400-level. Students who satisfy the "alternative voices" category with PHIL 315 will need only one elective above 300-level.

Experimental courses at the 200- or 300-level may be used toward the major only with Department approval.

Minimum Competence Requirement

A grade of C- or better is required for all courses taken for the major.

Department Writing Requirement

To demonstrate writing proficiency, including research skills specific to Philosophy, all Philosophy majors will complete a significant writing assignment in each of their 400-level courses. The student will produce a finished written work of substantial length, which reflects the application of discipline-specific research skills.

Double Major

Students have found that by electing philosophy as a second major they can develop skills that will be invaluable throughout their careers. They learn to think, read, and write clearly, coherently, and critically. They learn to analyze and evaluate arguments. They learn the art of questioning, that is, how to inquire. Finally, they practice stepping out of a given framework when viewing a problem. Many seemingly unsolvable problems are unsolvable only because the solver is uncritically committed to certain assumptions.

Minor

Ethics and Values in Society Minor

Program Learning Outcomes:

- Demonstrate knowledge of and ability to critically evaluate historical and contemporary normative ethical theory
- Demonstrate knowledge of and ability to critically evaluate contemporary issues in applied philosophical ethics, social/political philosophy, and/or philosophy of law
- Apply philosophical-based frameworks to questions of moral, social, and political values raised in interdisciplinary contexts
- Integrate learning and understanding from multiple disciplines in a Capstone Experience involving an individualized high impact learning experience (research, internship, service-learning, etc.)

Total Credits Required to Complete Minor: 19-24

Basic Requirements: (7-9 Credits)

- PHIL 130 - Ethics **Credit(s): 3**

Choose one:

- PHIL 359 - Social and Political Philosophy **Credit(s): 3**
- PHIL 377 - Philosophy of Law **Credit(s): 3**

Notes

*Courses marked with an asterisk have prerequisites and/or program restrictions in the corresponding department. Consult the Undergraduate Bulletin for details.

[^]No more than one of PHIL 359, PHIL 377, PHIL 420, PHIL 430 may be taken as an elective.

Additional Requirements:

- At least 2 electives must be taken outside PHIL
- At least 1 elective must be taken in PHIL
- At least 1 elective must be at the 300 level or above

Philosophy Minor

Total Credits Required to Complete Minor: 18

Basic Requirements: (18 Credits)

- PHIL 100 - Introduction to Philosophy **Credit(s): 3**
Research Intensive Course: Any course at or above PHIL 450 **Credit(s): 3**
Electives in philosophy (4 courses, at least two at or above the 300 level, no more than one at the 100-level) **Credit(s): 12**

HEGIS Code: 1902.00 (Physics, B.A.), 1902.00 (Applied Physics, B.S.), 1902.01 (Physics, Adolescence Education: Physics and General Science, B.A.)

Preparation

Students planning to pursue a program in physics should have a better than average, well-rounded background in high school mathematics up to and including precalculus with an average of 85 or better. They should register for MATH 221 and PHYS 123/PHYS 124 in the first semester of the freshman year.

Bachelor of Arts

Physics, B.A.

Program Outcomes

1. Students will be able to use advanced mathematics to solve physics problems of increasing complexity.
2. Students will be able to use scientific instrumentation to make measurements.
3. Students will be able to analyze and make conclusions based on scientific data.

4. Students will be able to design experiments to solve scientific questions.
5. Students will be able to communicate scientific results in writing and orally.
6. Students will be able to use computers to solve scientific problems.
7. Students will demonstrate understanding of concepts of increasing complexity in physics.

General Education Requirements (30-46 Credits)

Prerequisite coursework may be required to satisfy certain General Education courses and will count as elective credit.

Total Credits Required to Complete Major: 64

Basic Requirements: (41 Credits)

- PHYS 123 - Analytical Physics I **Credit(s): 3**
- PHYS 124 - N/Analytical Physics I Laboratory **Credit(s): 1**

- PHYS 363 - Instrumentation and Interfacing **Credit(s): 2**
- PHYS 372 - Undergraduate Research **Credit(s): 2**
- PHYS 384 - Astrophysical Techniques **Credit(s): 2**
- EDUC 350 - Student Teaching - High School Education **Credit(s): 7.5** Students seeking Adolescence Education may substitute 2 credits of student teaching for this requirement

300-level PHYS electives including at least one of the following: (12 Credits)

- PHYS 311 - Classical Mechanics **Credit(s): 3**
- PHYS 344 - Statistical Thermodynamics **Credit(s): 3**
- PHYS 335 - Intermediate Electricity and Magnetism I **Credit(s): 3**

Notes:

- (i) BA students may not receive degree credit for both PHYS 313 and PHYS 332 .
- (ii) Directed Studies cannot count towards the elective credits in physics.
- (iii) Students may count only one of the following courses towards the major: PHYS 363, PHYS 372, and PHYS 384.

Footnotes

Because there is flexibility within the basic Bachelor of Arts degree requirements some options available are

1. Interdisciplinary study (e.g., biophysics and geophysics);
2. Preparation for graduate study in physics and engineering;
3. Qualification for commercial and/or industrial employment (e.g., for positions in physics research laboratories and as technical sales and/or service representatives).

Physics Other Requirements:

Minimum Competence Requirement

A grade of C- or better is required for each of the following courses: PHYS 123/PHYS 124, PHYS 125/PHYS 126, PHYS 223, PHYS 224, PHYS 362; MATH 221, MATH 222, MATH 223.

Department Writing Requirement

The Department requires writing in lab classes throughout the program building up to PHYS 362 Intermediate Laboratory. Intermediate Laboratory require full reports that are evaluated with attention to style and technique as well as content. Students submit rewrites as necessary. A portfolio of reports from this course is maintained for each student. The writing requirement is satisfied by successful completion of PHYS 362 .

Footnotes

Students must complete the College General Education requirements.

Students completing this five-year program receive the Bachelor of Arts degree (in physics) from Geneseo and the

Bachelor of Science in Engineering degree from an engineering school. Please contact Dr. Ed Pogozeleski for a list of engineering schools with which SUNY Geneseo has a 3/2 articulation agreement. Those pursuing this program must satisfy Geneseo's requirements for four-year programs. Appropriate courses completed at the other institutions can be used to fulfill some of these requirements. Students must complete 90 credits at Geneseo before transferring to the engineering school.

6 additional PHYS 300-level elective credits are required.

With departmental permission, physics or engineering courses may be taken at the Engineering School to fulfill this requirement.

NOTE: Students should consult with their academic advisor for appropriate electives and fourth and fifth year programs at the Engineering School. Several engineering fields require certain physics courses to be taken at Geneseo prior to the Engineering School

Bachelor of Arts - Adolescence Education

Physics, Adolescence Education: Physics and General Science, B.A.

Students whose objective is to become secondary school physics teachers qualify for New York State initial certification by completing the Bachelor of Arts degree program in the department and the courses required in the

Teacher Education program (see School of Education program description). Certification in adolescence education is not available with the Bachelor of Science in Applied Physics.

NSTA Adolescence Science Program Learning Outcomes

1. **Content Knowledge:** Effective teachers of science understand and articulate the knowledge and practices of contemporary science. They interrelate and interpret important concepts, ideas, and applications in their fields of licensure.
2. **Content Pedagogy:** Effective teachers of science understand how students learn and develop scientific knowledge. Preservice teachers use scientific inquiry to develop this knowledge for all students.
3. **Learning Environments:** Effective teachers of science are able to plan for engaging all students in science learning by setting appropriate goals that are consistent with knowledge of how students learn science and are aligned with state and national standards. The plans reflect the nature and social context of science, inquiry, and appropriate safety considerations. Candidates design and select learning activities, instructional settings, and resources--including science-specific technology, to achieve those goals; and they plan fair and equitable assessment strategies to evaluate if the learning goals are met.
4. **Safety:** Effective teachers of science can, in a P-12 classroom setting, demonstrate and maintain chemical safety, safety procedures, and the ethical treatment of living organisms needed in the P-12 science classroom appropriate to their area of licensure.
5. **Impact on Student Learning:** Effective teachers of science provide evidence to show that P-12 students' understanding of major science concepts, principles, theories, and laws have changed as a result of instruction by the candidate and that student knowledge is at a level of understanding beyond memorization. Candidates provide evidence for the diversity of students they teach.
6. **Professional Knowledge and Skills:** Effective teachers of science strive continuously to improve their knowledge and understanding of the ever changing knowledge base of both content, and science pedagogy, including approaches for addressing inequities and inclusion for all students in science. They identify with and conduct themselves as part of the science education community.

A minor

A minor in chemistry, biology, geology, mathematics, or an internship (upon a recommendation of the department) during the summer and fall semester following the third year

Physics Other Requirements:

Minimum Competence Requirement

A grade of C- or better is required for each of the following courses: PHYS 123/PHYS 124, PHYS 125/PHYS 126, PHYS 223, PHYS 224, PHYS 362; MATH 221, MATH 222, MATH 223.

Department Writing Requirement

The Department requires writing in lab classes throughout the program building up to PHYS 362 Intermediate Laboratory. Intermediate Laboratory require full reports that are evaluated with attention to style and technique as well as content. Students submit rewrites as necessary. A portfolio of reports from this course is maintained for each student. The writing requirement is satisfied by successful completion of PHYS 362 .

Internships

Political Affairs, Legal Affairs, or other specially designed internships are available for qualified majors and other students for Political Science or Interdepartmental credit. Additional information may be obtained from the Department Chair, and for information on the Albany Semester, State Legislative, or Washington Programs, see the section on Political and Legal Affairs Internships in this bulletin.

Preparation for Public Service

Information can be obtained from the department.

Bachelor of Arts

Political Science, B.A.

Program Learning Outcomes

- 1) Students will demonstrate knowledge of political institutions and processes in the United States.
- 2) Students will demonstrate knowledge of political institutions and processes in at least one non-U.S. region.
- 3) Students will be able to compare and contrast political institutions and processes among different regions and cultures.
- 4) Students will understand the principles, actors, structures and processes related to conflict and cooperation in the international system.
- 5) Students will be able to apply classic and contemporary political theory to contemporary political events.
- 6) Students will demonstrate basic descriptive statistics, multivariate analysis, probability issues, inferential statistics, and use of statistical computer software related to the study of political science.
- 7) Students will demonstrate an understanding the benefits and limitations of different data collection strategies.
- 8) Students will demonstrate competency in the effective written presentation of original ideas and supporting material.

- 9) Students will be able to critically assess published political science research.
- 10) Students will demonstrate competency in the effective oral presentation of original ideas and supporting material.
- 11) Students will develop skills necessary for active participation in political life.

Any 100-level SOCL course **Credit(s): 3**

Notes on the Psychology Major

1. A minimum of 21 credits in Psychology courses must be completed at Geneseo.
2. Note that: (a) PSYC 100 is a prerequisite for all other Psychology courses; (b) Proficiency in Basic Requirements is the prerequisite for most 300-level Psychology courses; (c) All prerequisites must be completed with a minimum C- grade before taking 200-, or 300-, or 400-level Psychology courses.
3. PSYC 250 satisfies the college requirement for Numeric/Symbolic Reasoning.
4. A student who has received credit (and a grade of at least C-) for ECON 205, GEOG 278, MATH 242, MATH 262, PLSC 251, or SOCL 211 may use this course in place of PSYC 250 to fulfill the statistics requirement for the major. The student must then complete an additional psychology elective in order to reach the 45 psychology credits required for the major.
5. The related requirement in Biology is a pre- or co-requisite for Biopsychology. The related requirements in Biology and Sociology can be used to satisfy the College general education requirement in natural sciences (N/) and social sciences (S/). Pre-medical students are advised to take BIOL 117, BIOL 119, BIOL 116, AND SOCL 100. NOTE: BIOL 100 and BIOL 105/BIOL 106 do not fill the Biology related requirement
6. Students must complete PSYC 452 at Geneseo. The prerequisites for PSYC 452 include proficiency in Basic Requirements and three 300-level PSYC courses. These 300-level courses should be courses with specific academic content. Experiential courses (PSYC 391, PSYC 395, PSYC 396, PSYC 397) do not count as prerequisites. All prerequisites must be completed with a minimum grade of C - before taking PSYC 452.
7. A maximum of two courses can be transferred to meet Content Area requirements.
8. No more than 3 credits from PSYC 294, PSYC 299, PSYC 391, PSYC 395, PSYC 396, PSYC 397, or 399 may be used to satisfy elective requirements of the major.
9. The College requires a 1.67 grade point average in the related requirements for all majors as well as a 2.00 grade point average across the courses counted toward the major requirements.
10. A maximum of 51 credits in psychology may be included within the 120 credits required for the degree. At least 69 credits must be completed outside of the Psychology department.
11. Any student who renders psychological services or implies to the public that they, she, or he is licensed to practice as a psychologist is acting in contravention of the laws of the State of New York Education Law, Article 153, Sections 7601-7614.
12. Majors who contemplate graduate study in psychology are encouraged to develop proficiency in computer use and/or a foreign language, and to take courses in biology.

Minimum Competence Requirement

ALL PSYCHOLOGY COURSES COUNTED FOR THE PSYCHOLOGY MAJOR REQUIREMENTS MUST RECEIVE A GRADE OF C- or better. Psychology majors must achieve a C average (2.0) across the courses counted for the major requirements.

Proficiency in Basic Requirements: Students must complete all Basic Requirements (PSYC 100, PSYC 250, PSYC 251, PSYC 225, and PSYC 233) with a minimum grade of C- in each class, and a GPA of C (2.0) across these five courses prior to taking most 300- or 400-level PSYC classes (as noted in course descriptions). Students should consult the department webpage for details about how to demonstrate the minimum competence requirements. Students with AP or transfer credits for any Basic Requirements must consult with the department about their eligibility for upper-level classes. If a D or E is earned in any Psychology course, majors may repeat each course one time to achieve the required minimum grade. Students may not go on to upper-division Psychology courses until a C- or better is earned in all prerequisites for that course. (See "Repeated Courses: D and E Grade Policy" in this bulletin.)

Department Writing Requirement

All majors must successfully complete PSYC 452 with a grade of C- or higher. One prerequisite of this course is PSYC 251 - Introduction to Behavioral Research Methods, which introduces students to writing research reports in psychology. PSYC 452 - Advanced Research in Psychology: (subtitle) extends the training students receive in PSYC 251 by having them apply what they have learned to the task of producing written reports of laboratory research. PSYC 452 is a writing-intensive course.

Effective Fall 2018, admission of new students to the Psychology minor is being temporarily suspended. Students who entered Geneseo before Fall 2018 may apply as long as they meet the following criteria:

A minimum of 9 credits counted toward the minor must be completed at Geneseo.

Total Credits Required to Complete Minor: 21

Basic Requirements: (21 Credits)

- PSYC 100 - Introductory Psychology **Credit(s): 3**
- PSYC 250 - R/Introduction to Behavioral Statistics **Credit(s): 3 ***
- PSYC 251 - Introduction to Behavioral Research Methods **Credit(s): 3**
Electives in Psychology (At least 3 credits at the 300-level) **Credit(s): 12**

Footnotes

*A student who has received credit (and a grade of at least C-) for ECON 205, GEOG 278, MATH 242, MATH 262, PLSC 251, or SOCL 211 may use this course in place of PSYC 250 to fulfill the statistics requirement for the minor. The student must then complete an additional psychology elective in order to reach the 21 credits required for the minor.

General Education Requirements (30-46 Credits)

Prerequisite coursework may be required to satisfy certain General Education courses and will count as elective credit.

Total Credits Required to Complete Major: 36

Basic Requirements: (18 Credits)

- SOCL 100 - S/Introduction to Sociology **Credit(s): 3**
- SOCL 211 - R/Statistics for Social Research **Credit(s): 3 ***
- SOCL 302 - Sociological Research **Credit(s): 3**
- SOCL 303 - Classical Sociological Theory **Credit(s): 3**
- SOCL 365 - Contemporary Sociological Theory **Credit(s): 3**

Senior Seminar: subtitle (choose one)

- SOCL 476 - Senior Capstone: Selected Topic **Credit(s): 3**
- SOCL 477 - Senior Capstone: Internship Experience **Credit(s): 3**

- SOCL 478 - Senior Capstone: Study Abroad **Credit(s): 3**
- SOCL 479 - Senior Capstone: Senior Thesis **Credit(s): 3**

Electives in sociology: (18 Credits)

Six electives in Sociology must be chosen. At least 6 credits must be at the 300-level. Students are encouraged to take classes across a broad range of topics in consultation with their advisors.

Footnotes

*Students who have taken ECON 205, GEOG 278, MATH 242, MATH 262, PLSC 251 or PSYC 250 will have fulfilled the SOCL 211 requirement but must take an additional 3 credit SOCL course to satisfy the 18 credits of SOCL courses needed for the Basic Requirements category.

Minimum Competence Requirement

Sociology majors are required to earn a minimum of a C- in each of the following courses - SOCL 100 , SOCL 211, SOCL 302, SOCL 303, SOCL 365, and the course used to fulfill the senior capstone requirement (SOCL 476, SOCL 477, SOCL 478, or SOCL 479). If a C- is not earned in these classes (100, 211, 302, 303, 365, and senior capstone), students may **ONLY** repeat a class once to achieve the required minimum grade.

Department Writing Requirement

All majors shall successfully complete the existing program requirements. Program requirements involve extensive writing in at least 83 percent of the course offerings. To complete program requirements, students are required to write a variety of papers and essays. Students successfully completing two 300- or 400-level electives (with a minimum grade of C-) shall have completed the department

NOTE:

1. For students who have received credit for a statistics course in another department, the Department Chair will waive this portion of the Major/Minor under the condition students will be responsible for adding another Sociology elective at or above the 200-level to complete the required elective credits for the Major/Minor. (Credit will not be granted for more than one 200-level statistic course.)
2. No more than 3 of the 18 total elective credits may be earned through Internships and Directed Study. Internships may not be counted toward the required six credits of 300- or 400-level electives.
3. No more than 6 credits at the 100-level may be applied to the major writing requirement.

Sociomedical Sciences

Melanie Medeiros, Coordinator (Bailey 149)

The Sociomedical Sciences major offers students the opportunity to acquire interdisciplinary knowledge on topics and issues related to health, disease, illness and medicine, as well as analytical and practical skills that will benefit them in post-graduate education and careers in medicine, public health and other health services. Sociomedical Sciences focus on the social determinants of disease and health and examine the correlation between trends in health and its social causes, including social inequality and structural inequity.

Program Learning Outcomes

In completing the Sociomedical Sciences program, the successful student will be able to:

1. Demonstrate understanding of concepts and theoretical principles central to the sociomedical sciences, including but not limited to:
 - a. social, economic, political, environmental, cultural and biological determinants of health
 - b. intersectionality
 - c. structural and social inequality
 - d. health disparities, inequality and inequity
 - e. cross-cultural conceptions of and practices associated with illness, health, and healing
 - f. complementary and alternative medicine and integrative medicine
 - g. cultural and structural competence
 - h. biopower and biopolitics.
2. Demonstrate the following critical thinking, writing and oral communication skills:
 - a. Reading and understanding published scholarship in allied subfields of sociomedical sciences, including medical anthropology, medical sociology, public health, epidemiology, biology, geography, psychology, and political science.

- b. Synthesizing scholarship in both writing and speech
 - c. Arguing a thesis in writing both persuasively and effectively, following accepted usage rules
 - d. Sharing the results of a scholarly project in an oral presentation
3. Engage in effective field research methods and data analysis:
- a. Design and implement an independent research project
 - b. Employ interdisciplinary research and data analysis methods to examine an issue or topic related to health and medicine
 - c. Understand and observe ethical guidelines for research with human subjects
 - d. Gather and analyze participant observation and qualitative interviews

Minimum Competence Requirement

A grade of C- or better is required for each of the following courses: all required courses, whether basic, elective, or focus.

Department Writing Requirement

All theatre majors write in all theatre courses, but the style and content of the writing varies widely based upon the course topic. Examples include journals, concept statements, dramatic fiction, production analyses, character analyses, and traditional research papers, such as one might find in any other course in the humanities. In the required theatre history sequence of four courses (THEA 202, THEA 203, THEA 204, THEA 305), students write traditional research papers combining theatrical history with the study of dramatic literature and criticism. In the process, students learn to read primary and secondary sources closely, to conduct academic research, and to write essays with a well-argued thesis and properly documented sources.

Women's and Gender Studies

Amanda Roth, Coordinator
(Welles 107 A)

geneseo.edu/wgst

HEGIS Code: 4903.00

The Women's and Gender Studies major at SUNY Geneseo is a multi-disciplinary and interdisciplinary program designed to be flexible to accommodate multiple focuses. It includes feminist analyses of the construction and enforcement of gender differences and gender inequalities in various contexts, with an emphasis on the intersection of gender with race, class, sexuality, and nationality in the lives of women. Students are encouraged to apply what they learn in Women's and Gender Studies classrooms to other areas of their lives. All students take a core set of Women's and Gender Studies courses plus at least one course in five content areas in which the study of women and gender provide significant insights, using feminist methodologies and pedagogy. Additionally, each student completes a three course sequence in one of the clusters and completes a capstone experience designed to apply concepts from the Women's Studies Program toward their future career goals.

Bachelor of Arts

Women's and Gender Studies, B.A.

Program Learning Outcomes

1. Demonstrate understanding of concepts central to Women's and Gender Studies, including

- a. the social construction of gender
- b. systems of privilege and oppression
- c. intersectionality and difference
- d. feminist and queer theories
- e. feminist and LGBTQ activism
- f. major feminist issues, in historical contexts and in contemporary US and global contexts. Examples of such issues include domestic violence, pornography, job equity, issues of representation, and reproductive rights.

2. Demonstrate critical reading, writing and oral presentation skills

- a. close reading skills to texts from multiple disciplines, historical eras and global cultures
- b. Argue a thesis persuasively in writing, employing correct grammar and mechanics
- c. Share the results of research or a project in an oral presentation

3. Engage in interdisciplinary research

- a. locate, evaluate, and interpret scholarly sources from several disciplines
- b. apply methodologies derived from multiple disciplines to problems in women's and gender studies

- c. conduct primary and secondary source research, incorporate others' work into original arguments, and properly credit sources
- d. design and implement a project, creatively employing interdisciplinary research towards an original analytical, creative or activist problem

Minor

Women's and Gender Studies Minor

The Women's and Gender Studies minor at SUNY Geneseo focuses on women and gender using multi-disciplinary and interdisciplinary approaches. It includes feminist analyses of the construction and enforcement of gender differences and gender inequalities in various contexts, with an emphasis on the intersection of gender with race, class, sexuality, and nationality in the lives of women. Students are encouraged to apply what they learn in Women's and Gender Studies classrooms to other areas of their lives. All students take a core program of Women's and Gender Studies courses plus elective courses offered by other departments that study women and gender issues, using feminist methodologies and pedagogy. Additionally, each student completes a capstone experience designed to apply concepts from the Women's and Gender Studies Program. The Advisory Committee is willing to work closely with students to design feasible, individualized study, especially when students' study abroad or other academic requirements make it impossible for them to take one of these courses.

Footnotes

Departmental slot or topics courses with appropriate subtitles can be submitted to the Women's and Gender Studies Advisory Group for inclusion on an individual basis.

Guidelines for choosing electives:

1. No more than two courses with the same prefix (e.g., ENGL or HIST or SOCL).
2. No more than one at the 100-level.

Athletics and Recreation

Michael Mooney, Director
(Merritt Athletic Center 213)
 geneseoknights.com

The Department of Intercollegiate Athletics and Recreation offers courses designed to address both individual interest and career aspirations of our students. The courses are grouped into specific categories based on the nature of the activity. Each course in the category has similar attributes necessary for success and enjoyment. The intent is to encourage students to find meaningful activities that will lead to life-long leisure pursuits.

The 100-level courses are introductory in nature and require no previous experience in the activity. The 200-level courses are advanced activity courses that require a general knowledge about the sport and a degree of proficiency in executing the skill required in the activity. The 300-level courses are theory courses that lead to Red Cross certification in first aid or the coaching requirements for the public schools in New York State.

All 100- and 200-level activity courses are graded on a Satisfactory-Unsatisfactory scale. A grade of "S" is equal to a "C-" or better on the college letter grading policy. Following is a list of courses offered by the Intercollegiate Athletics and Recreation Department. A course outline for each course is available in the department office.

Requirements for Coaching in the Public Schools of New York State

The New York State Education Department has approved the college's offering, per Section 135.4 of the "Regulations of the Commissioner of Education," a program of courses in coaching for teachers who do not have New York State certification in physical education. The program for which the college has received approval consists of a minimum of the following 9 credits:

1. H&PE 352 - Responding to Emergencies	2 credits
2. H&PE 353 - Care and Prevention of Athletic Injuries (Prerequisite: H&PE 352)	3 credits
3. H&PE 354 - Philosophy and Principles of Athletics in Education (Prerequisite: H&PE 352)	3 credits
4. H&PE 355 - Coaching: (subtitle) (Prerequisite: H&PE 352)	1 credits

In addition to the above, the State Education Department requires that all persons applying for certificates must complete a workshop on the identification and reporting of suspected child abuse or maltreatment. It is the student's responsibility to make arrangements for and to complete this workshop, and to submit to the college documentation indicating completion of the workshop.

Graduate credit for the coaching certification may be approved by the Dean of the Curriculum and Academic Services.

Upon satisfactory completion of the above sequence of courses and the workshop required by the state, the college will issue a Certificate of Achievement. In order to receive the Certificate, the applicant should present name, G00#, and permanent address to the Director of Intercollegiate Athletics and Recreation. Upon verification that the applicant received a grade of "C" or better in each of the courses, a certificate will be forwarded to the individual.

Intramurals and Recreation

The purpose of the intramural and recreation program is to provide opportunities for participation in a wide variety of sports activities consistent with the goals to educate the whole person.

A variety of team and individual sports are offered in league and tournament play. The Intramural and Recreation Office also assists groups in planning special events and off campus outings.

Participation is open to all faculty, staff, and full-time students. In addition to the regularly scheduled intramural programs, the athletic and recreation facilities are available evenings and weekends, making it possible for students and faculty to engage in a wide variety of recreational activities. It is hoped that through involvement in the intramural and recreation programs students will develop regular patterns of physical activity, maintain good physical health, enhance their mental health, and learn skills that will be utilized throughout their lives.

Persons other than students, faculty and staff must pay for the use of athletic facilities with the exception of the workout center. For further information concerning the user fee policy, contact the Intramural and Recreation Office.

Intercollegiate Athletic Program

The Intercollegiate Athletic Program provides an opportunity for full-time students to compete in a wide variety of varsity sports. The following sports are available for men: basketball, cross country, hockey, lacrosse, soccer, swimming, indoor track, and outdoor track. The sports available for women include basketball, cross country, equestrian, field hockey, lacrosse, soccer, softball, swimming, indoor track, outdoor track, tennis and volleyball. All student athletes should enroll in the college's insurance program or provide the Director of Intercollegiate Athletics with evidence of personal health and accident insurance coverage. The college holds membership in the following associations:

National

College Sports Information Directores Association]
National Collegiate Athletic Association, Division III
United States Intercollegiate Lacrosse Association
National Athletic Trainers Association
National Intramural - Recreation Sports Association

Statewide

State University of New York Athletic Conference

Interdisciplinary Minors

An academic minor is a structured sequence of courses totaling a minimum of 18 credits. A departmental minor may require a maximum of 24 credits; an interdisciplinary minor carries a maximum of 29 credits. A student must complete all courses required for the minor with a grade point average of at least 2.00, although a higher standard will apply when it is specifically stated in the requirements of a minor. Unless otherwise noted, each department or program that offers a major may offer one minor.

To declare a minor, a student must complete a form available in the Office of the Dean of Academic Planning and Advising Erwin 106, and obtain approval from the department chair (for a departmental minor) or from the coordinator (for an interdisciplinary minor). Completion of up to two academic minors is noted on a student's transcript, provided that all other requirements for a baccalaureate degree have been successfully completed.

Asian Studies Minor

Becky Leathersich, Coordinator (Fraser Hall 203 A)

With a broad definition of Asia extending from the Pacific Rim to the Arabian Sea, this minor gives students an opportunity to study Asia as an integral part of human civilization. By including a broad range of disciplines (anthropology, art history, business, geography, history, Arabic, Chinese, Japanese, Asian American literature and film, performing arts, philosophy, political science, and sociology), this minor is especially designed to serve students who

are interested in learning about the diversity of Asian cultures, religions, languages, and socio-political contexts, and how they coexist and intermingle - both within Asia and between Asia and the West. As the world has become increasingly interdependent and multicultural, this minor trains students to meet the challenges they are going to face as qualified and humane citizens of the twenty-first century.

Total Credits Required to Complete Minor: 21

Completion of 21 credits from the courses listed below. Courses must be chosen in such a way that the following requirements are met:

- i. Four courses must be above the 100-level.
- ii. Three Asian language courses (through the 201 level) can be counted toward meeting the requirement.
- iii. The courses chosen should be from at least 3 different departments. Advisement will be required for all students pursuing the program.

Cognitive Science Minor

Jason Ozubko, Coordinator (Bailey Hall 133)

Cognitive Science is a rapidly growing interdisciplinary field aimed at developing an understanding of the human mind. The minor in Cognitive Science is designed to provide students with a foundation of knowledge from disciplines primarily involved with investigating the nature of mental activity. The minor is excellent preparation for students planning to attend graduate school in Artificial Intelligence, Cognitive Psychology, Computer Science, Linguistics, or Philosophy. The minor can also be used to prepare for advanced training or a career in Human Factors.

*Students need to complete prerequisites for courses marked with asterisks.

- HUMN 220 or HUMN 221 for General Education cannot count toward the minor. The student must choose an additional HUMN course or INTD 217.
- No more than one elective course from any prefix can be applied to this minor.
- Directed Study, Slot, Experimental, Internships, Courses with appropriate Subtitle, or New Courses concerning Europe may be applied to the minor with prior approval from the Coordinator.
- At least ONE elective course must be at the 300-400 level.
- Students testing into a 300-400 level language course may use that course instead of (LANG) 213 and for the 300-400 level elective requirement.

Film Studies Minor

Alice Rutkowski, Coordinator (Welles Hall 222A)

The Film Studies minor provides students with substantial interdisciplinary study of the history, aesthetics, and cultures of film. Students will acquire a critical vocabulary for analyzing the art of film and a technical vocabulary for discussing the craft of filmmaking. They will also learn about the history and development of film's many genres and movements. Courses are mostly designated under English or Film Studies, but may be taken with appropriate subtitles from other departments. The interdisciplinary approach brings diverse perspectives to the analysis of film and its role in our culture. Although the film studies minor is intended only to support a chosen major field of study, students may elect to explore possible graduate study in film studies or careers in filmmaking and its related fields.

Total Credits Required to Complete Minor: 20

Latin American and Caribbean Studies Minor

Wesley Moraes (Welles Hall 3E), Coordinator

The Latin American and Caribbean Studies minor offers students the opportunity to acquire a broad, interdisciplinary understanding of Latin America and the Caribbean: a vast, diverse, and fascinating region. Moreover, in an increasingly interdependent, globalized world, knowledge of the unique historical, economic, social, political, and cultural dynamics of Latin America and the Caribbean is crucially important for our students, particularly given the region's complex relationship to the United States. Students planning careers involving international politics, development, business, public service and diplomacy, foreign language education, history, law, anthropology, and/or the social sciences and humanities more broadly will find this minor a thrilling and useful addition to their studies. In addition, aligned with SUNY Geneseo's Learning Outcomes for Baccalaureate Education (GLOBE), the LACS minor will improve students' multicultural competencies by broadening their knowledge of world cultures and societies.

Topics courses from the following list should be chosen in consultation with a Latin American and Caribbean Studies program coordinator. Students may seek waivers for the program and/or departmental course pre-requisites listed below with the approval of a Latin American and Caribbean Studies program coordinator.

Medieval Studies Minor

Graham Drake Coordinator (Welles Hall 217 A)

The Medieval Studies minor draws from numerous humanities disciplines to investigate the histories and cultures of the Middle Ages, globally defined: not only European cultures and immediate contacts, but also worldwide cultural production of the period. The minor can provide a focus for exploration for all students interested in learning about the Middle Ages and a springboard for students who wish to pursue specialized graduate work.

As noted below, some courses require pre-requisite courses that are not required for the major, although in some cases these pre-requisites are elective options for the major. ENGL 300- and 400- level courses normally require ENGL 203 as a pre- or co-requisite; non-English majors/minors/concentrators may seek a waiver for ENGL 203 at the discretion of the English Department Chair. HIST 400-level courses require HIST 302 as a prerequisite; non-History majors/minor/concentrators may seek a waiver for this prerequisite at the discretion of History Department Chair.

Footnotes

*If offered with a topic consistent with Medieval Studies (must be chosen under advisement)

**Students may apply up to two courses in Latin at the 201 level or above to the minor.

*** Students need to complete pre-requisites for these courses.

Other courses may be substituted for those listed above with permission of the Medieval Studies Coordinator. Students may also enroll in up to six credits of directed study coursework with permission of the Coordinator. Credit earned in genre, period, and slot courses may be counted toward the minor when they contain appropriate subject matter.

Students contemplating graduate study are strongly advised to complete Latin through level 201 and/or to become proficient in Arabic, French, German, or Italian through the intermediate level.

Multidisciplinary Creative Practice Minor

Lynette Bosch, Coordinator

This minor is primarily intended for students whose course of study is not within Fine Arts but who are interested in engaging with their personal creativity. The Minor is intended to foster creative thinking and practice, critical thinking, problem-solving and the integration of theory and practice in a transformational manner by bringing together research, intellectual development and practical application in different disciplines and areas of creative expression, which are inherently self-reflective. The goal of the Minor is to have students explore their expressive potential in the generation of original projects, works of art, scientific experiments and created texts. As creative expression is performative and intellectual, combining theory and practice, the courses in this Minor enable students to explore a variety of aspects of creative engagement. The Minor is multidisciplinary and it includes courses in which cultural diversity and aesthetic diversity are a central part. As designed, the Minor includes all of the categories found in Geneseo's GLOBE framework. Included courses have content that is either directly creative or which have significant content specifically

designed to focus on the process of creativity, the outcome of creativity or the generation of situations that foster creativity.

Students can choose to emphasize one area of creative practice or they can sample from across the curriculum. 9 credits of MCP minor coursework must be separate and distinct from courses being used to satisfy General Education, a Major Program, or another Minor. One course in the Minor must be selected from the Practica courses.

Museum Studies Minor

Alla Myzelev, Coordinator (Brodie Hall 224)

The new Museum Studies Minor has been formed in response to student demand for a Museum Studies program. Museums today are rapidly changing into independent business units that employ a range of professionals who come into museums from the worlds of business, design, insurance, computer, communications, law, education, community activities, administrative, budget management, fundraising, marketing, advertising, communication and food services and event planning. Museums come from a range of disciplines, such as art, anthropology, history, geography, science, theatre, music and politics, all areas that are represented in Geneseo's curriculum. For students interested in pursuing a career in the multi-faceted world of museums, it is necessary that they understand what a museum is and does so that they can see how their own area of professional interest fits within the business structure of museums. Hence, this Minor was developed to assist all students interested in moving into this area for future careers.

Native American Studies Minor

Caroline Woidat - English Department (Welles Hall 228A)

The minor in Native American Studies will provide Geneseo students with a means for studying some of the pressing public policy issues affecting New York as a state with a sizable Native American population. New York is at the heart of some of the most critical debates in Native America: taxation of reservation land by state and local entities, gambling and its consequences, land rights and remedies, and, in general, the practice of Native American tribal sovereignty. The minor allows students to approach these issues from an interdisciplinary approach, examining them within the larger frameworks of American history, literature, and anthropological studies.

Total Credits Required to Complete Minor: 18

Basic Requirements: (3 Credits)

- HIST 262 - S/M/American Indian Law and Public Policy **Credit(s): 4**

Electives: (15-16 Credits)

Chosen from among the following. Electives courses must be taken from at least 3 different disciplines.

- AMST 201 - U/Topics in American Studies: (subtitle) **Credit(s): 4** (or other NA subtitle)
- ANTH 207 - S/M/Ancient Civilizations of North America **Credit(s): 3**
- ANTH 209 - M/Ethnography of the Iroquois **Credit(s): 3**
- ANTH 211 - M/Ethnography of North American Indians **Credit(s): 3**

Religious Studies Minor

Carlo Filice, Coordinator (Welles Hall 102D)

The Religious Studies minor provides the opportunity for students to gain a critical understanding of the role of religion in the development of human perspectives and in society. The program involves the study of religious texts, modes of

thought, socio-political behavior, and Western and non-Western experiences. This interdisciplinary Religious Studies minor assumes that religious phenomena can be examined according to the canons of scholarly discourse at a college supported by public funds.

Total Credits Required to Complete Minor: 24

Basic Requirements: (3 Credits)

- PHIL 202 - M/World Religions & Contemporary Issues **Credit(s): 3**

One course in Study of Texts from:

One course in Critical Analysis of Religious Perspectives from:

- PHIL 218 - Philosophy of Religion **Credit(s): 3**

One course in Social and Political Approaches to Religion from:

- SOCL 240 - S/Sociology of Religion **Credit(s): 3 or**

One course in Non-Western Religious Experience from:

- ANTH 301 - M/Religion, Society, and Culture **Credit(s): 3**
- HIST 291 - M/The Islamic World: 600-1800 **Credit(s): 4**
- HIST 292 - M/The Modern Islamic World: 1800 to the Present **Credit(s): 4**
- PHIL 215 - M/Eastern Philosophy **Credit(s): 3**

Three additional courses selected from those above: (9 Credits)

Urban Studies Minor

Jennifer Rogalsky, Geography & Sustainability Studies Department (Bailey Hall 227)

This minor offers students a concentration in social sciences applied to urban issues. It can be used for preparation for employment in social service administration, service planning, policy development, or local government administration. It can also be used for preparation for graduate studies in planning, urban studies, urban geography, urban politics, or urban sociology.

Total Credits Required to Complete Minor: 21-24

Basic Requirements: (6 Credits)

- GEOG 201 - Introduction to Urban and Regional Planning **Credit(s): 3**
- GEOG 377 - Urban Geography **Credit(s): 3**

One course chosen from the following: (3 Credits)

- SOCL 217 - S/U/Urban Sociology **Credit(s): 3**
- SOCL 220 - U/Inequality, Class, and Poverty **Credit(s): 3**
- SOCL 230 - S/U/Race and Ethnicity **Credit(s): 3**
- SOCL 241 - S/The Individual and Society **Credit(s): 3**

One course chosen from the following: (3 Credits)

- PLSC 372 - Community, State, and Regional Politics **Credit(s): 3**
- PLSC 374 - Public Administration **Credit(s): 3**
- PLSC 416 - Political Power in American Cities **Credit(s): 3**

At least three electives chosen from the following, from at least two different prefixes (9-12 Credits)

* Includes PLSC and SOCL courses listed above

- ANTH 216 - S/M/Race, Racism and the Black Experience in the Americas **Credit(s): 3**
- COMN 317 - Culture and Communication **Credit(s): 4**
- ECON 376 - Labor Economics **Credit(s): 3**
- ENGL 432 - Metropolis **Credit(s): 4**
- ENVR 350 - Urban Environmental Issues in Latin America **Credit(s): 3**
- GEOG 286 - Introduction to Geographic Information Systems **Credit(s): 4**
- GEOG 350 - Urban Historical Geography **Credit(s): 3**
- GEOG 487 - Urban Issues Senior Seminar **Credit(s): 3**
- HIST 250 - S/U/Work and Workers in America **Credit(s): 4**
- HIST 264 - S/U/United States Immigration History **Credit(s): 4**
- HIST 410 - The Gilded Age and Progressive Era, 1877-1918 **Credit(s): 4**
- HIST 413 - Black Power and Structural Inequality in Post-1945 **Credit(s): 4**
- PLSC 412 - American Social Welfare Policy **Credit(s): 3**
- PLSC 414 - American Public Policy **Credit(s): 3**
- PSYC 275 - S/Environmental Psychology **Credit(s): 3**
- SOCL 347 - Criminology and Juvenile Delinquency **Credit(s): 3**
- WGST 310 - Race, Class, and Gender **Credit(s): 3**

Note:

Urban Studies Internships may be used to satisfy the requirements of one elective course (up to 3 credits). For more information on this internship, contact the Coordinator of the Urban Studies minor.

Integrative Curricular Microcredentials

Integrative Curricular Microcredentials (ICMs) at SUNY Geneseo recognize and document students' work in applying their academic skills. Geneseo encourages students to see learning as something that is integrated and makes connections to experiences beyond the classroom. Microcredentials increase the visibility of skills for employers and

graduate schools by giving students a platform for curating examples of their work, articulating connections between different types of experiences, and demonstrating the application of skills in new contexts.

An ICM contains: a minimum of 6 and a maximum of 12 credits of academic course work; at least one high impact, applied learning, or integrative learning experience; and a culminating experience with a self-reflective component that serves as evidence of the application of learning. The high impact, applied learning, or integrative learning component may be achieved through a program-defined curricular or co-curricular experience and may overlap with the required culminating experience. To declare an ICM, a student must obtain approval from the relevant ICM coordinator. Completion of ICMs are noted on a student's transcript.

Integrative Curricular Microcredentials

Applied Helping Skills Microcredential

This microcredential provides an opportunity for students interested in theory, research, and practice related to the process of helping people seeking support. In PSYC 365 - Clinical Psychology, students will explore theoretical perspectives on the process of helping, different theoretical approaches to helping, practice and the ethics of helping relationships, and research evaluating different helping practices. In preparing for PSYC 294 - Peer Advocacy, students will participate as trainees in a co-curricular ten week training program in which they learn the nuts and bolts of applied helping skills. They will meet in small practice groups to complete readings, writings, and role play activities including active listening, solution based questioning, and crisis management. Trainee performance is evaluated via oral, written, and practical exams; those who demonstrate skill mastery are eligible to enroll as peer advocates the following semester. Only students who successfully complete the entire training will be invited to enroll in PSYC 294 - Peer Advocacy for 3 credits. Peer advocates and trainees participate in a mandatory weekly seminar to discuss ethical, organizational, and practical issues and for ongoing training and supervision. Peer advocates complete brief weekly writing assignments in which they reflect on both practice and actual helping conversations with peers; weekly assignments ask students to write about primary and secondary concerns that were described, challenges they faced in helping challenges, what they feel went well and how they might improve. At the midterm and end of the semester, peer advocates will complete writing assignments integrating theories of practice with their experiences in a helping role, e.g., *Please write about what you've learned about the helping process this semester by serving as a peer advocate, linking this learning with theories about the helping process*"

Integrative Curricular Microcredential in Applied Helping Skills, 6 Credits

Required elements:

1. Successful completion of a co-curricular 10 week training program (not for credit)
- 2. PSYC 294 - Peer Advocacy **Credit(s): 3**
- 3. PSYC 365 - Clinical Psychology **Credit(s): 3**

Aquatic Biology Microcredential

Integrative Curricular Microcredential in Aquatic Biology, 9 Credits

This microcredential will allow students to develop expertise and experience in aquatic ecosystems, from rivers and lakes to coastal oceans and the deep sea.

Students will complete at least 9 credits of academic coursework:

1. BIOL 312 - Aquatic Community Ecology
2. BIOL 317 - Marine Biology
3. one skills-based course in methods applicable to marine research, including BIOL 314 - Biodiversity: (subtitle), BIOL 340 - Modeling Biological Systems, BIOL 384 - Communicating Science, GEOG 286 - Introduction to Geographic Information Systems. Additional courses could satisfy the skills requirement after consultation with the microcredential coordinator.

In addition to coursework, students will develop and carry out an integrative, high-impact project in aquatic research via either a Directed Study or an internship. Research projects in related fields of biology will be considered at the discretion of the coordinator. The high-impact project will involve active research experience and sharing of scientific findings, such as through a publication, presentation, poster, podcast, etc. During the microcredential, students will consider the relationship between freshwater and marine ecosystems and society, including through communication with local communities on lake health and developing posters on human impacts and complete a written self-reflection on their experiences in aquatic biology.

Archaeology Microcredential

This microcredential provides students with a methodological and theoretical background in the sub-discipline of archaeology, capped off by a transformational and reflective field or laboratory experience.

Integrative Curricular Microcredential in Archaeology, 9 Credits

Basic Requirement:

- ANTH 110 - Introduction to Archaeology **Credit(s): 3**

Choose one Ancient Civilizations course:

- ANTH 207 - S/M/Ancient Civilizations of North America **Credit(s): 3**
- ANTH 215 - S/M/Ancient Civilizations of the Old World **Credit(s): 3**
- ANTH 235 - S/M/Ancient Civilizations of Mesoamerica and the Andes **Credit(s): 3**

Choose one Transformational Learning course:

- ANTH 320 - Archaeological Field School **Credit(s): 3**
- ANTH 383 - Archaeological Method and Theory **Credit(s): 3**
- ANTH 395 - Internship in Anthropology **Credit(s): 3-15 as arranged ***
- ANTH 399 - Directed Study and Research **Credit(s): 1-3 ***

Notes

* Directed study or internship experiences, such as lab projects or museum experiences, must be supervised or approved by archaeology faculty members or the chair of the department.

Enthusiasm for Physics and Astronomy Microcredential

At least one high impact, applied learning, or integrative learning experience (curricular or co-curricular)

Possible examples: Active leadership of astronomy or physics club or equivalent; Design and implementation of a public outreach event in physics or astronomy; History of science directed study

A culminating experience with a self-reflective component (may overlap with the high impact etc. learning experience)

1. Presentation on the high impact experience for a public audience
2. Written reflection submitted in response to two prompts. 300-600 word responses with draft and revision
 - Describe the ways that your project integrated skills and concepts you studied in your college courses. Provide specific examples and link to specific course numbers.
 - Describe one challenge that you encountered while working on your project and how you responded to this challenge.

Integrative Curricular Microcredential in Enthusiasm for Physics and Astronomy

7 credits from the following:

(a 3-cr course could be taken without lab, with department permission)

- PHYS 102 - N/Science of Sound **Credit(s): 3**
- PHYS 103 - N/Science of Sound Laboratory **Credit(s): 1**
- PHYS 106 - N/The Nature of Light and Color **Credit(s): 3**
- PHYS 107 - N/The Nature of Light and Color Laboratory **Credit(s): 1**
- ASTR 105 - The Solar System **Credit(s): 3**
- ASTR 106 - N/The Solar System Laboratory **Credit(s): 1**
- ASTR 110 - N/Stars and Galaxies **Credit(s): 3**
- ASTR 111 - N/Stars and Galaxies Laboratory **Credit(s): 1**

Geographic Information Systems Microcredential

A geographic information system (GIS) is a computer-based system for collecting, mapping, and analyzing geospatial data. Knowledge of GIS and related software is useful to students across many disciplines and can boost future opportunities for research, internships, jobs, graduate school, and beyond. Through coursework in the Microcredential in GIS, students will gain proficiency in GIS software and related technologies. Specifically, students will be able to use GIS software to collect, manage, and display geographic data, as well as to perform geospatial analysis and create high-quality maps.

Total credits required: 10

- GEOG 286 - Introduction to Geographic Information Systems **Credit(s): 4**

One of the following courses:

- GEOG 385 - Advanced Geographic Information Systems: GIS **Credit(s): 3**
- GSCI 333 - Geologic Applications of Remote Sensing Imagery **Credit(s): 3**

One of the following courses:

- GEOG 386 - Applications in Geographic Information Science (GIScience): (subtitle) **Credit(s): 1-3**
- GEOG 391 - Cartography **Credit(s): 3**
- GSCI 331 - Geomorphology **Credit(s): 3**
- GSCI 334 - Planetary Geology **Credit(s): 3**

High impact experience & culminating experience: one of the following high impact/integrative experiences (must be pre-approved by the program coordinator), accompanied by a self-reflective paper that summarizes coursework and the culminating experience (paper will be evaluated by the faculty supervising the experience):

- Internship related to GIS

- Formal paper or poster presentation at GREAT Day (or another approved academic or professional conference) of research that utilizes GIS
- A high impact and/or applied project or paper related to GIS

Intergroup Dialogue and Social Change Microcredential

In this microcredential, students will develop skills and experience in facilitating constructive dialogue on issues related to social identity and belonging, including categories such as race, ethnicity, gender, sexuality, religion, and social class. The microcredential includes three required academic experiences.

Integrative Curricular Microcredential in Intergroup Dialogue and Social Change, 9 Credits

- 1. XLRN 350 - Dialogue Facilitation Training **Credit(s): 3**
- 2. Select one:
 - XLRN 250 - Intergroup Dialogue **Credit(s): 3**
 - XLRN 399: DS: Intergroup Dialogue Facilitation Practicum **Credit(s): 3**
- 3. Select one:
 - XLRN 150 - Foundations in Social Identity **Credit(s): 3**
 - INTD 251 - Leadership, Values, and Inclusion **Credit(s): 3**

Upon completion of the three course sequence, students will demonstrate their skills by serving as student facilitator of a coordinator-approved integrative learning experience, including but not limited to service as student facilitator in:

- the XLRN 250 Intergroup Dialogue course
- Geneseo Cultivating Community program
- DICE workshops

Integrative learning experiences will be approved by the microcredential coordinator and will include a required self-reflective component that explores the process of developing dialogue facilitation skills, experiences in applying these skills to the work of facilitation, and connections between this work and the students' other academic and personal experiences.

Learning outcomes for the microcredential include:

- Students will demonstrate an understanding of the diversity of identities, beliefs, and backgrounds, and how these connect to theoretical frameworks and contemporary and historical systems of power. (GLOBE Diversity and Pluralism; GLOBE Global Awareness and Engagement)
- Students will demonstrate the ability to contribute to and facilitate inclusive conversations with diverse participants around complex issues relating to identity, belonging, privilege, and power (GLOBE Diversity and Pluralism)
- Students will demonstrate written, oral, and listening skills that reflect perspective-taking, critical thinking, and empathy (GLOBE Communication)
- Students will demonstrate the ability to successfully engage in dialogue as a participant (including making contributions to critical discussions, engaging with diverse viewpoints and experiences, and examining individual preconceptions and assumptions) and as a facilitator (including framing inclusive conversations and providing a supportive and empathetic space for discussion) (GLOBE Leadership and Collaboration)
- Students will demonstrate the ability to articulate their understandings of their position vis-a-vis wider structures of contemporary and historical system of power, analyze their personal growth in engaging with

and facilitating conversations about identity and privilege, and trace the effect of the microcredential experiences on their individual growth (GLOBE Integrative and Applied Learning, Reflection).

Music Business, Recording, and Production Microcredential

Integrative Curricular Microcredential in Music Business, Recording, and Production, 9 Credits

- 1. MUSC 102 - Introduction to Music Technology **Credit(s): 3**
- 2. MUSC 202 - Introduction to Music Business and Entrepreneurship **Credit(s): 3**
- 3. Select one:
- MUSC 302 - Music Recording and Production **Credit(s): 3** OR
- MUSC 303 - Film and Game Scoring **Credit(s): 3**

Applied Learning Experience: All students completing the microcredential will complete an applied composition or production project which will include a reflective writing component. The project will be proposed and administered as part of MUSC 302 or MUSC 303 and will be supervised by the instructor.

Performance as Social Change Microcredential

This is an academic microcredential for students interested in understanding the critical role arts-based performances play in facilitating and advancing social change through interdisciplinary coursework. The microcredential includes the creation of a Capstone experimental performance. Students will design their learning experiences around the concept of social change through performance. The microcredential is designed with an expressed commitment to diversity, equity, inclusion and racial justice. Students gain active mentorship by faculty of color and guest artists through curricular and co-curricular activities and self-reflection upon them. Students will exit the microcredential program with a broad array of transferable skills and competencies related to social change, leadership, multiculturalism, civic engagement, research, communication and performance.

The Capstone (PASC 341) will result in the creation of an experimental performance that brings together in a critical way the social change themes and concepts identified and developed through the gateway course and the elective coursework. A performance is presented on campus each spring semester.

An ePortfolio assignment will enable the students in the Microcredential to record and reflect on the intellectual, personal, social and civic development that occurs throughout participation in the Microcredential.

Integrative Curricular Microcredential in Performance as Social Change

- 1. PASC 105 - F/ Performance as Social Change I **Credit(s): 4**
- 2. PASC 106 - Introduction to Performance as Social Change I **Credit(s): 1**
- 3. PASC 205 - Performance as Social Change II **Credit(s): 4**
- *or*
- THEA 221 - Acting I **Credit(s): 3**
- *or*
- Two of the following: DANC 101, DANC 102, DANC 103, DANC 104, DANC 201, DANC 202, DANC 203, or DANC 204, DANC 250, DANC 301, DANC 302, DANC 303 **Credit(s): 4**

or

ANTH 100, ANTH 120; BIOL 105; BLKS 188, INTD 105, 288; COMN 102, COMN 103 - S/Introduction to Interpersonal Communication, COMN 160 - S/Introduction to Mass Communication, COMN 251, 355; ENGL 101, ENGL 201, ENGL 203; ENVR 124 - S/Environmental Issues; HIST 162, HIST 249, HIST 260, HIST 275; HUMN 222 (recommended courses include but are not limited to these)

- 4. PASC 341 - Capstone in Performance as Social Change **Credit(s): 4**

Science Communication Microcredential

This microcredential will allow students to connect science topics to communication skills and so prepare for professional opportunities including freelance writing, journalism, and graduate study.

Integrative Curricular Microcredential in Science Communication, 10-12 Credits

1. Select one course (that builds knowledge and skills in storytelling):
 - ENGL 102 - The Elements of Creative Writing: (subtitle) **Credit(s): 4**
 - ENGL 201 - Foundations of Creative Writing **Credit(s): 4**
 - ENGL 202 - Reading As a Writer: (subtitle) **Credit(s): 4**
 - ENGL 305 - Advanced Creative Nonfiction Workshop: (subtitle) **Credit(s): 4**
 - FMST 270 - Video Production **Credit(s): 4**
 - COMN 251 - Mass Media and Society **Credit(s): 3**
 - COMN 275 - News and Specialized Writing: (subtitle) **Credit(s): 4**
 - DANL 310 - Data Visualization and Presentation **Credit(s): 3**
2. Select one course (in a STEM discipline of interest to the student)
 - 3. BIOL 384 - Communicating Science **Credit(s): 3**
4. Following BIOL 384, students will develop and carry out an integrative, high-impact project in science communication via either an internship or a Directed Study; the high-impact project will involve disseminating science to a broader public, such as through a publication, presentation, podcast, etc. During the microcredential, students will engage in active reflection 3 on science communication through metacognitive activities including dialogue with others in the program.

Sociocultural Mediator in Spanish Microcredential

Spanish ICM encourages students to build bridges with the target population by being aware of and knowing how to navigate language barriers, cultures, and differences. This microcredential is intended to promote global awareness, cross-cultural communication and understanding, as well as leadership among students, teaching them how to work effectively in a pluralistic society. This microcredential provides students with a theoretical and practical background in Spanish to enable sociocultural mediation. Students will complete 12 credits composed of basic requirements (SPAN 301, SPAN 335, and one transformational integrative experience), one elective course (3-4 credits), and one culminating self-reflective experience (non-credit bearing).

Integrative Curricular Microcredential in Sociocultural Mediator in Spanish (12 Credits)

Basic Requirements: (9 Credits)

- SPAN 301 - Oral and Written Communication **Credit(s): 4**
 - SPAN 335 - Spanish for the Professions: (subtitle) **Credit(s): 4 ***
** Students who demonstrate language competence at the intermediate mid-level may start the program with SPAN 335. Proficiency will be determined via the placement exam / oral interview with a member of the Spanish faculty.*
- Integrative High Impact Transformational Experience:**
SPAN 395 - Internship **Credit(s): 1** or INTD 395 - Internship **Credit(s): 1**

Choose one elective course: (3-4 Credits)

- ANTH 120 - S/Language and Culture **Credit(s): 3**
- ANTH 238 - Ethnomedicine in Latin America and the Caribbean **Credit(s): 3**
- COMN 317 - Culture and Communication **Credit(s): 4**
- COMN 346 - Conflict and Relational Communication **Credit(s): 4**
- INTD 203 - U/Social Foundations of Education in the United States **Credit(s): 3** *this course is open only for Education students.
- PSYC 385 - M/Cross-Cultural Psychology **Credit(s): 3** * Please note the prerequisites.
- PSYC 350 - Social Psychology **Credit(s): 3**
- PLSC 372 - Community, State, and Regional Politics **Credit(s): 3**
- PLSC 412 - American Social Welfare Policy **Credit(s): 3**
- SOCL 210 - Sociology of Families **Credit(s): 3**
- SOCL 358 - Sociology of Emotions **Credit(s): 3**
- SOCL 102 - S/Introduction to Social Problems and Public Policy **Credit(s): 3**
- SPAN 401 - Advanced Oral and Written Communication **Credit(s): 4**
- WGST 310 - Race, Class, and Gender **Credit(s): 3**

Culminating Self-Reflective Experience (choose one).

1. Written self-reflective report
2. Oral or poster presentation at GREAT DAY

Undergraduate Research in Astronomy Microcredential

At least one high impact, applied learning, or integrative learning experience (curricular or co-curricular)

Equivalent of at least 4 weeks of fulltime undergraduate research experience working on an astronomy-related project. REU and other summer experiences are preferred. The project must be unique to this micro-credential.

A culminating experience with a self-reflective component (may overlap with the high impact etc. learning experience)

1. Written report in the style of a peer-reviewed article OR oral or poster presentation at a national meeting, local meeting, colloquium, etc. as approved by the coordinator
2. Written reflection submitted in response to two prompts. 300-600 word responses with draft and revision
 - Describe the ways that your project integrated skills and concepts you studied in your college courses. Provide specific examples and link to specific course numbers.

- Describe one challenge that you encountered while working on your project and how you responded to this challenge.

Integrative Curricular Microcredential in Undergraduate Research in Astronomy, 6-12 Credits

- 1. PHYS 124 - N/Analytical Physics I Laboratory **Credit(s): 1**
- 2. PHYS 126 - N/Analytical Physics II Laboratory **Credit(s): 1**
- 3. PHYS 226 - Optics and Modern Physics Laboratory **Credit(s): 1**
- 4. PHYS 362 - Intermediate Laboratory **Credit(s): 3**
- 5. Select one:
 - PHYS 382 - Stellar Astrophysics **Credit(s): 3**
 - PHYS 383 - Extragalactic Astrophysics **Credit(s): 3**

Undergraduate Research in Computational or Theoretical Physics Microcredential

At least one high impact, applied learning, or integrative learning experience (curricular or co-curricular)

Equivalent of at least 4 weeks of fulltime undergraduate research experience working on a computational or theoretical physics project. REU and other summer experiences are preferred. The project must be unique to this micro-credential.

A culminating experience with a self-reflective component (may overlap with the high impact etc. learning experience)

1. Written report in the style of a peer-reviewed article OR oral or poster presentation at a national meeting, local meeting, colloquium, etc. as approved by the coordinator
2. Written reflection submitted in response to two prompts. 300-600 word responses with draft and revision

Requirements for Baccalaureate Degree Programs

Introduction

A Geneseo education affords perspectives and skills to engage the complexities and possibilities of a globally connected world. Students encounter broad areas of knowledge, become specialists in a particular discipline, develop habits of critical inquiry and civic participation, reflect on their learning, and reach beyond themselves by exploring the diversity of human experiences, cultures, and viewpoints. In addition to meeting SUNY's General Education requirements, our program aligns with Geneseo's Learning Outcomes for Baccalaureate Education (GLOBE), our Mission, Vision and Values, our Community Commitment to Diversity, Equity, and Inclusion, and our commitment to being an antiracist college.

Specialized Knowledge: The Major

Major programs prepare students for life-long success by taking them deep into a discipline's domain of knowledge and methods; cultivating skills in Critical Thinking, Informational & Digital Literacy, and discipline-specific practices of Written and Oral Communication and Leadership & Collaboration; and, in many cases, putting knowledge into action by engaging with real-world issues via Integrative and Applied Learning experiences.

Broad Knowledge, Intellectual and Practical Skills

To participate in the social, political, and ethical dimensions of society, and to work toward a more just, equitable, and sustainable world, students need broad knowledge and a set of common skills.

Integrative and Applied Learning

Geneseo has an institutional commitment to both transformational learning experiences and a rich co-curricular life. Integrative learning fosters the ability to connect and combine knowledge and skills acquired through the curriculum and co-curriculum to new, complex situations within and beyond the college. This approach allows students to reflect on the ways that such knowledge is utilized and places them on a fast track for continuing success.

Program Outline

Requirements	Credits
General Education Curriculum	30-41
Liberal Arts and Sciences Major or Professional Program (In some majors, related requirements with different department prefixes may overlap with general education requirements; see details under departmental listings)	30 or more
Integrative and Applied Learning	0 or more

Electives: selected under advisement (may include minors, second majors, microcredentials, certification programs, and free electives)	
--	--

Total Degree Program: 120 (minimum)

Requirements for Baccalaureate Degree Program

Students must meet the following requirements to earn a baccalaureate degree from the College at Geneseo.

1. Earn a minimum of 120 credits. A maximum of 60 credits can be transferred from two-year institutions, and a maximum of 90 credits are transferable from a four-year institution. In addition, a maximum of 10 credits in health and physical education courses (with no more than four credits in activity courses), a maximum of 8 combined credits in MUSC 160, MUSC 165, MUSC 271, DANC 265, DANC 365, and THEA 260, a maximum of 8 credits in ROTC, and a maximum of 15 credits in internships can be included within the 120 credits required for the degree. (Please also see section titled Credit Restrictions)
2. Attain at least a 2.00 cumulative grade point average at Geneseo.
3. Achieve at least a 2.00 cumulative average in all courses in their major department applied toward completion of the major, and a 1.67 average or better in required related courses (i.e., any courses required by the major department which are outside its own academic discipline). (In addition, students seeking recommendation from the College for New York State initial certification must achieve a cumulative grade point average of at least 2.5.) Note that some majors require a cumulative average higher than a 2.0 to continue in their programs (see School of Business and School of Education).
4. Complete satisfactorily all courses required for the major (as specified by the descriptions of majors, minors, and courses in "Academic Programs").
5. Complete successfully the Critical Thinking, Informational & Digital Literacy, discipline-specific practices of Written and Oral Communication, and Leadership & Collaboration requirements in the major (or first major, for students with multiple majors). Consult individual department offices for details.
6. Complete satisfactorily the requirements of the General Education Curriculum: Broad Knowledge, Intellectual and Practical Skills. Approved courses in each of the areas are described on the following website: gened.geneseo.edu
7. Complete satisfactorily at least 45 credits -toward graduation in courses at or above the 200- level, with at least 24 at the 300-499 level.
8. Offer toward graduation a minimum number of credits outside the major department or outside professional preparation areas, as indicated below:

9. All students must document an integrative or applied learning experience (whether within the major or outside of it- even via the co-curriculum) that reflects the learning outcomes described in the corresponding section below.

10. Complete a minimum of 30 credits in residence at Geneseo. Credit earned in Geneseo intersession, summer sessions, or in on-campus evening courses counts as residence credit.

11. File a Graduation Application form with the Dean of Academic Planning and Advising, Erwin 106 no later than deadlines posted on the Academic Calendar.

General Education Curriculum: Broad Knowledge, Intellectual and Practical Skills

7-10 courses; 30-41 credits (NOTE: All students must earn a minimum of 30 credits to satisfy SUNY General Education requirements.) Students who complete the specific course requirements for Broad Knowledge and Intellectual and Practical Skills with fewer than 30 credits must take additional courses from any General Education area to reach 30 credits required to satisfy SUNY General Education.

Seamless Transfer is affirmed: Students transferring to Geneseo having completed an AA or AS within SUNY (or 60 credit hours and SUNY GER), thereby completing SUNY GER, will face no "local" General Education requirements.

To participate in the social, political, and ethical dimensions of society, and to work toward a more just, equitable, and sustainable world, students need broad knowledge and a set of common skills.

1. Communication

Recognizing the importance of written communication, and respectful and productive discussion for learning, inclusivity, and social change, all students complete:

- One course in Basic Communication (3-4 credits)
- Coursework in a single Language other than English through the second elementary level (0-8 credits)

2. Scientific Literacy

Recognizing the importance of being able to understand, evaluate, and replicate quantitative and symbolic forms of reasoning as the basis of scientific arguments built on empirical evidence, in order to work ethically with technology and contribute to a scientifically informed society, all students complete:

- One course in Quantitative, Computational, Symbolic Reasoning (3-4 credits)
- One course in Natural Science, to include a lab component (4-5 credits*)

* 3-5 credits for transfer students (i.e., students with "Transfer" admit type only)

3. Participation in a Global Society

Recognizing that we live in a world informed by diverse historical and contemporary systems of value, meaning, power, and privilege; that various disciplines offer their own insights into these systems and the issues that arise from them; and that ethical participation in a global society requires that we understand and engage with these systems and issues actively and responsibly, all students complete courses in the following five categories.

In selecting courses, students complete at least one course each in the Arts, Humanities, and Social Sciences. At least one course includes DEI (diversity, equity, and inclusion) and antiracist content.

- One course in Diversity, Pluralism, and Power: Students understand (i) the diversity of identities that characterizes the United States; (ii) the ways in which systems of power lead to different outcomes for members of diverse groups; (iii) the reasoning and impact of one's personal beliefs and actions; and (iv) how to participate effectively in pluralistic contexts (e.g., by communicating and collaborating across difference). (3-4 credits)
- One course in World Cultures and Values: Students (i) understand systems of value and meaning as embodied in one or more cultures from different regions of the world; and (ii) assess interconnections among/across local and global systems and cultures. Courses in this category engage extensively with the past and/or present in cultures outside Europe and the United States (though they may also engage with content from cultures located within those regions, e.g., Native/Indigenous cultures). (3-4 credits)
- One course in Contemporary Global Challenges: Students (i) understand local and global networks, systems, and interdependencies; and (ii) apply global perspectives in addressing challenges and solving problems. (3-4 credits)
- One course in Creativity and Innovation: Students understand and reflect on (i) creative expression, art, and invention as foundational to culture and inclusive societal betterment; and (ii) the relationship between individual creative work or innovation and wider contexts. (3-4 credits)
- One course in Sustainability: Students understand and reflect on (i) the environmental, economic, and/or social dimensions of sustainability and how they relate to each other; and (ii) how these three dimensions shape our changing planet. (3-4 credits)

Notes on Participation in a Global Society Section

- Coursework completed in other academic divisions of the College may be used to satisfy these areas.
- Double-dipping is permitted once in the five "Participation in a Global Society" areas; that is, one course may be taken to satisfy two of the "Participation in a Global Society" areas.
- No more than one course from a student's primary major may be used to satisfy "Participation in a Global Society" area requirements.

General Education and Seamless Transfer

SUNY Seamless Transfer is a SUNY-wide program intended to make transferring to Geneseo and other SUNY schools simple and efficient for SUNY students. SUNY's general education requirements span 10 areas.

The following areas will apply to students transferring into Geneseo through Summer 2023:

- Basic Communication *[required]*
- Mathematics *[required]*
- American History
- Other World Civilizations
- Foreign Language
- Social Sciences
- Humanities
- The Arts
- Natural Sciences
- Western Civilization

The following areas will apply to students transferring into Geneseo beginning in Fall 2023:

- Communication, Written and Oral *[required]*
- Diversity: Equity, Inclusion, and Social Justice *[required]*
- Mathematics (and Quantitative Reasoning) *[required]*
- Natural Sciences (and Scientific Reasoning) *[required]*
- Humanities
- Social Sciences
- The Arts
- US History and Civic Engagement
- World History and Global Awareness
- World Languages

There are two ways students transferring from other SUNY institutions to Geneseo can qualify for Seamless Transfer for their general education requirements:

- Awarded degree of Associate of Arts or Associate of Science from a SUNY college
- Completion of 30 hours of SUNY-approved general education courses, including 7 out of the 10 SUNY required knowledge and skills areas and required core competencies, from a SUNY two-year or four-year institution

All courses approved for other SUNY colleges to satisfy SUNY's general education categories will transfer to SUNY Geneseo if the student earns a grade of C- or better. Students receiving grades of D in general education courses at other SUNY colleges may not transfer in credit but will satisfy the relevant SUNY general education categories. Students who have not satisfied the requirements for Seamless Transfer must complete SUNY Geneseo general education requirements.

Integrative and Applied Learning

Geneseo has an institutional commitment to both transformational learning experiences and a rich co-curricular life. Integrative learning fosters the ability to connect and combine knowledge and skills acquired through the curriculum and co-curriculum to new complex situations within and beyond the college. This approach allows students to reflect on the ways that such knowledge is utilized and places them on a fast track for continuing success.

All students will document an integrative or applied learning experience (whether within the major or outside of it-even via the co-curriculum) that reflects the GLOBE learning outcomes in this area before graduation.

In line with best practices in integrative and applied learning, the criteria for the integrative or applied learning experience are:

- **Structured, Intentional, and Authentic Experiences:** Integrative and applied learning experiences should include a course syllabus or learning contract between parties and should have hands-on and/or real-world elements.
- **Preparation, Orientation, and Training:** Integrative and applied learning experiences should include sufficient background and foundational education and should include expectations that are expressed as learning outcomes that structure the experience and ongoing work.
- **Monitoring and Continuous Improvement:** Integrative and applied learning experiences should include in-experience mechanisms for feedback, course correction, quality monitoring, and evaluation of progress towards the state learning outcomes.
- **Structured Reflection:** Integrative and applied learning should include opportunities for students to self-assess, analyze, and examine their experience and to evaluate the outcomes. Reflection should demonstrate relevance and should form connections with previous experiences and/or future planning as well as a demonstration of one of Geneseo's core values: Civic Engagement, Sustainability, Inclusivity, Learning, or Creativity.
- **Evaluation:** Students must receive appropriate and timely feedback from the project organizer.

GLOBE: Baccalaureate Learning Outcomes

Geneseo Learning Outcomes for Baccalaureate Education

Learning Outcomes

The Geneseo learning outcomes for baccalaureate education described below are designed to guide the entire Geneseo education. Inspired by the AAC&U's statement on Liberal Education and America's Promise, this document provides the curricular and co-curricular foundation for students to achieve an integrative education that supports the College's mission.

Broad and Specialized Knowledge

The Geneseo curriculum introduces a broad range of methodologies, concepts, and problems through a rigorous general education program and fosters the pursuit of deep and complex understanding through engagement with academic majors and minors. The college mission to promote "pursuit of an enriched life" and "success in the world" requires that students acquire, use, and communicate knowledge; practice intellectual flexibility; and investigate domains beyond their professional interests.

Learning Outcomes:

Students will demonstrate:

Broad Knowledge: To develop broad knowledge of Physical and Life Sciences; Behavioral and Social Sciences; Arts, Languages, and Humanities.

Specialized Knowledge: To develop deep understanding of a body of specialized knowledge.

Intellectual and Practical Skills

In support of Geneseo's institutional mission as "a center of excellence in undergraduate education," college values stress "high standards for intellectual inquiry and scholarly achievement." Geneseo prepares students for twenty-first century challenges through the development of intellectual and practical skills that transcend disciplinary boundaries and are applicable throughout their lives.

Learning Outcomes:

Students will demonstrate:

- 1. Critical Thinking:** To formulate questions or frame issues in ways that permit examination or investigation; to explicate and evaluate the assumptions underlying the claims of self and others; to establish and pursue systematic and valid methods for collecting and evaluating relevant evidence; to draw soundly reasoned and appropriately limited conclusions on the basis of evidence; to relate conclusions to a larger body of knowledge.
- 2. Communication:** To demonstrate proficiency in English and skill in another spoken language; to compose written texts that effectively inform or persuade, following Standard English conventions and practices of academic disciplines; to engage in discussion, debate, and public speaking in a manner suitable to the listener(s) and the discourse; to be mindful of the interplay between rhetorical style and purpose.
- 3. Quantitative, Computational, and Symbolic Reasoning:** To construct and interpret mathematical, computational, or symbolic depictions of information (e.g., equations, algorithms, graphs, diagrams); to generate accurate calculations or plausible estimates; to draw valid conclusions from quantitative evidence or computational or symbolic results; to clearly communicate the conclusions drawn from quantitative, computational, or symbolic analysis.
- 4. Informational and Digital Literacy:** To work in information-rich and digital environments; to identify when information and data are needed to support claims; to search effectively and efficiently for relevant information, evidence, and data; to evaluate the credibility of information obtained; to share and cite information and ideas that inspire or support one's own work responsibly and ethically, respecting privacy and intellectual property rights; to use digital tools to create, communicate, and collect information for the benefit of others.
- 5. Creativity and Creative Thinking:** To produce scholarly or artistic work, independently or collaboratively, that makes inventive connections among existing forms and ideas; to engage divergent or contradictory perspectives; to transform existing ideas or solutions into new forms; to understand and articulate the relationship between individual creative work and wider contexts; to practice techniques for presenting and performing creative work.
- 6. Leadership and Collaboration:** To engage others in developing collaborative solutions; to experiment, take risks, and learn from mistakes; to enable, encourage, and recognize contributions to collaborative efforts by all group members; to manage and share work fairly and respectfully; to envision, promote, consider, and respond to diverse viewpoints.
- 7. Diversity and Pluralism:** To work effectively in a pluralistic society, recognizing and respecting diverse identities, beliefs, backgrounds, and life choices; to practice effective communication and collaboration across diverse communities and organizations; to critically reflect on the reasoning and impact of one's personal beliefs and actions.

8. Global Awareness and Engagement: To situate individual and community experiences in multiple historical contexts, global systems, and power relations; to assess interconnections among local and global systems; to apply global perspectives in addressing challenges and solving problems.

Integrative and Applied Learning

Geneseo's mission underscores an institutional commitment to "transformational learning experiences" and "a rich co-curricular life." Integrative learning fosters the ability to connect and combine knowledge and skills acquired through the curriculum and the co-curriculum to new complex situations within and beyond the college and to foster reflection on the ways that such knowledge is utilized. Such learning develops through such high-impact practices as international experiences, service and community-based learning, intensive research activities, internships, advocacy, learning communities, and capstone courses and projects.

Learning Outcomes:

Students will demonstrate:

- 1. Integrative Inquiry:** To ask meaningful questions connecting personal experiences to academic study and co-curricular life; to synthesize multiple bodies of knowledge to address real-world problems and issues.
- 2. Application and Transfer:** To adapt and apply skills, theories, and methods gained in one or more domains to new situations.
- 3. Reflection:** To reflect upon changes in learning and outlook over time; to make personal, professional, and civic plans based on that self-reflection.

Baccalaureate Degree Programs

Students matriculated at Geneseo who satisfy all graduation requirements and requirements of their academic majors are eligible for a Bachelor of Arts degree, Bachelor of Science degree, or Bachelor of Science in Education degree. Each degree program has a HEGIS code which indicates how the program is listed on the Inventory of Registered Degree and Certificate Programs maintained by the New York State Education Department. All major programs at Geneseo are registered; thus, students may pursue any Geneseo major without jeopardizing eligibility for student aid awards.

The following inventory lists the College's academic majors, majors for which teaching and/or other certification is available, other program titles, degrees awarded, and the corresponding HEGIS code.

Pre-Professional Advisory Programs

Several pre-professional advisory programs are available for students who intend to pursue careers in various professions, including business administration, engineering, optometry, dental science, law, medicine, and theological studies. Interested students should consult with the coordinators of these specific programs early in their college careers. For students interested in advisement pertaining to other professional areas, students may inquire at the Office of the Dean of Academic Planning and Advising.

Preparation for Engineering

(Five-Year 3-2 Programs)

To meet the needs of students whose goal is to combine a liberal arts and science education with one in engineering, the College has negotiated cooperative arrangements with several institutions.

Qualified students may pursue a program of study during which the first three years are spent at the College and the last two years are at one of the cooperating institutions. At Geneseo, these students major in chemistry, or physics. After successfully completing the total five-year program, they are awarded a Bachelor of Arts from SUNY Geneseo and a Bachelor of Science in Engineering from one of the cooperating institutions. Application for admission to an engineering department at one of the cooperating institutions should be made toward the beginning of the junior year. Students' admission to one of the institutions depends on their grade point averages, recommendations by the faculty, and formal acceptance by one of the cooperating institutions. Available majors at the cooperating institutions include, for example, aerospace, ceramic, chemical, civil, electrical, industrial, mechanical, or nuclear engineering and engineering science. Further information relating to this 3-2 program may be found in this bulletin in the program descriptions for Chemistry, and Physics or can be obtained by contacting Dr. Ed Pogozielski (pogo@geneseo.edu) for a list of engineering schools with which SUNY Geneseo has a 3-2 articulation agreements.

Preparation for the Doctor of Optometry Degree

(Seven-Year 3-4 Program)

To meet the needs of students whose goal is to combine a liberal arts and science education with a degree in Optometry, the College has negotiated a cooperative arrangement with SUNY College of Optometry. Qualified students attend Geneseo for three years and then attend the professional program at SUNY Optometry for four years. At Geneseo, the students major in biology B.S. program. For further information refer to the Biology department program description in this bulletin.

Pre-Law Advisory Program

Students who intend to pursue a career in law should develop basic skills and insights fundamental to the attainment of legal competence. The pre-law program should include content in reading comprehension and effective expression in words; critical understanding of the social, political, and economic institutions and values with which the law deals; and experience in critical and logical analysis. The development of these capacities is not the monopoly of any one discipline or department. A broad background in humanities, social sciences, and communication studies will help

students develop the abilities to think for themselves and to express thoughts with lucidity, economy, and direction. (Several minors are available that complement a pre-law curriculum.)

The pre-law advisory program provides guidance on the law school application process and appropriate law school selection. Resources on law schools and the LSAT are available for student use. Programs feature speakers from law schools and the legal profession. For further information about the pre-law advisory program, students should contact the college Pre-Law Advisors, Graham Drake (drake@geneseo.edu), English Department, Welles 217A; or James Quinn, (quinn@geneseo.edu), School of Business, South 312. More information is available at www.geneseo.edu/prelaw.

Pre-Medical Advisory Program

There is no required major for students who intend to pursue a medical degree after completing the baccalaureate program; students are advised to select a major in the area in which they have the greatest interest. To apply to most medical schools students need to take basic courses in Biology, Chemistry, Physics, Mathematics, Psychology and English. The Premedical Advisory Committee, which includes faculty members representing the social sciences and the natural sciences, advises pre-medical students throughout their four years of study and suggests appropriate course sequences and timing. The Committee also suggests and encourages a variety of academic and non-academic activities that will enhance applications to medical schools, keeps students aware of test dates and application requirements, sponsors seminars related to medical studies, and fosters interaction among students in all phases of the pre-med process. For further information or to seek advisement, students should consult with the program coordinator.

Cooperative Agreement with SUNY Upstate Medical University

Geneseo has established an agreement with Upstate Medical University for their Physical Therapy program.

- 3+3 program leading to a Doctorate in Physical Therapy.

Requirements and additional information are available through Christie Smith in the Department of Admissions at Geneseo at 585-245-5571.

Pre-Theological Studies

Students who intend to pursue post-baccalaureate theological studies are advised to obtain a broad undergraduate background, with special emphasis on the humanities and social sciences. The following courses are suggested as potentially beneficial for the pre-theological student:

ANTH 360 - Myths and Folktales of Native Americans
ANTH 301 - M/Religion, Society, and Culture
HIST 291 - M/The Islamic World: 600-1800
HIST 292 - M/The Modern Islamic World: 1800 to the Present

PHIL 202 - M/World Religions & Contemporary Issues
PHIL 218 - Philosophy of Religion
SOCL 240 - S/Sociology of Religion

The preceding list is only suggestive. Because the curricular offerings of the College undergo continual revision, some of these courses may no longer be offered in the future and new courses may be approved.

Students interested in the religious studies minor should refer to the Interdisciplinary Minors section of this Bulletin. Additional information on pre-theological studies may be obtained from Dr. Carlo Filice (filice@geneseo.edu), Professor of Philosophy, Welles Hall 102D.

Academic Policies, Standards, and Information

Academic Advisors

Academic advisors are faculty or staff members who assist students in planning their academic programs. Students who have declared majors are assigned advisors in their major departments. Students who have not yet declared majors are assigned faculty advisors by the Office of the Dean of Academic Planning and Advising. Students should contact their academic advisors when planning their programs for the following semester. Advisors are available either during posted office hours or by appointment. *Although the advisor's role in offering assistance is very important, the ultimate responsibility for devising suitable schedules, fulfilling degree requirements, meeting college deadlines, and adhering to College policies rests with the student.* Thus, before they meet with their faculty advisors, students should become familiar with the College's requirements, their department's requirements, and their own academic transcripts.

Mandatory Advisement

Students who meet any of the following criteria are required to consult with their academic advisors and secure approval for course selections before they are allowed to register for courses:

1. First-year students (students within the first 24 credits at Geneseo);
2. First-semester transfer students;
3. Students listed as Pre-Accounting, Pre-Business Administration, and Pre-Economics majors;
4. Students on probation, and students whose grade point averages fall below 2.30.

Other students have the option of self-advising, but the College *strongly recommends* that all students meet with their academic advisors each semester. Students who self-advise assume full responsibility for their schedule of classes and progress toward completion of degree requirements.

Registration

Students register for courses online through KnightWeb at times specified by the College. Registration windows are posted on the College's academic calendar and include summer orientation (for registering new students), advance registration (for continuing students), and open registration (for students who did not register during advance registration sessions). To be officially registered for courses, students must clear any outstanding financial obligations to the College. Registration information is provided through KnightWeb for each semester and special session.

Prerequisites

Some courses have prerequisites, major restrictions, or other conditions that may determine a student's eligibility to enroll. Prerequisites and conditions, where applicable, appear at the end of a course description in this Undergraduate Bulletin and in KnightWeb. Students are responsible for noting such prerequisites and conditions and may be blocked from registering for, or may be deregistered from, courses for which they lack prerequisites.

Attendance at the Beginning of the Semester

All students are expected to attend each meeting in the course in which they are registered, beginning with the first scheduled class meeting; the only exceptions to the foregoing are students who add the course later in the Drop/Add period or who have made prior arrangements with the instructor.

Students who know in advance that they will be out of class during the first two days of class should notify the Office of the Dean of Students and the instructor. With the exception of religious observances, the instructor determines whether an absence is excusable. Therefore, students should make every effort to communicate directly and promptly with their respective instructors if they are absent.

Cross-Registration with Rochester Area Colleges

Full-time students at the College (i.e., those registered for at least 12 credits at Geneseo) may cross-register for additional course work at several colleges and universities in the Rochester area (RAC) without paying additional tuition. Permission for cross-registration will be granted only when the requested course is never offered at Geneseo and is applicable to the student's degree program. The number of participating institutions varies from year to year but includes both public and private schools. More information on RAC cross-registration is available from the Office of the Dean of Academic Planning and Advising.

Reserve Officers' Training Corps (ROTC)

The opportunity to enroll or participate in the Army and Air Force ROTC programs is available to all full-time students from all degree fields through cross-registration at Rochester Institute of Technology (RIT); the program includes classroom instruction and leadership training, physical training, and tactical training.

Additional information is available on activities, scholarships, financial benefits, and graduate school opportunities. You can learn more about Army ROTC via the RIT Department of Military Science.

Enrolling in Graduate Courses

An advanced undergraduate student in the School of Education may apply to take up to six hours of 500-level graduate coursework related to the student's degree program. Application should be made to the Dean of the School of Education. A decision will be made based on (1) the student's academic progress, grade-point average, and rationale for enrolling in graduate courses; and (2) the availability of space in the course.

If the student is within 12 credits of graduation when enrolling in graduate courses, the student may elect to have the graduate coursework appear on a graduate transcript; otherwise, it will appear on the student's undergraduate transcript.

Auditing Courses

Auditing is the process of attending a class without enrolling or receiving credit. Persons wishing to audit courses must receive permission from the instructor of the course and the chair of the department in which the course is offered. The College provides no formal recognition or proof of attendance to auditors.

Dropping and Adding Courses

Once students are enrolled in courses, they may need to change their schedules. A "drop/add" period is provided before and during the first week of each academic term, when students may add or drop courses from their schedule through Knightweb. Specific dates and procedures for each drop/add period can be found on the College's academic calendar. An add or drop that is accepted with special approval after the published Drop/Add deadline will be assessed a \$20 late fee per course.

Withdrawing from Courses

Students may withdraw from courses after the end of the drop-add period but before the withdrawal dates published each semester on the College's academic calendar. In courses from which they have withdrawn, students receive the grade of "W," which does not affect the grade point average; however, students who stop attending without withdrawing formally will receive a failing "E" grade. Although withdrawals do not affect students' grade point averages, they can affect hours completed for satisfactory progress requirements and are recorded on students' transcripts. See "Academic Standards" below for the minimum hours needed to maintain satisfactory progress.

Declaring Majors and Minors

Successful completion of a major program is a graduation requirement. Students must declare a major by the beginning of the junior year (i.e., by the time they complete 60 credits). Students who have not declared a major by that time are considered not to be making progress toward a degree and are not eligible for financial aid. In addition, the College reserves the right to prohibit the registration of any student who has not formally declared a major by the time they achieve junior status. The major is declared by completing and returning the appropriate form, available online from the Office of the Dean of Academic Planning & Advising.

Additionally, students who wish to major in programs offered by the School of Education must apply for admission into those programs. Information about admissions standards can be found on the department websites and in the Academic Program section of this Bulletin. Candidates for teaching certification should also complete the form to identify their certification programs and concentrations.

Students may choose to complete up to two minors, which are declared by submitting the appropriate form, available online from the Office of the Dean of Academic Planning & Advising. At least 9 credits of a minor must be distinct (i.e., not overlapping with major requirements or with the requirements of another minor or concentration.)

Students may choose to complete a second major. At least 24 credits of a second major must be distinct (i.e., not overlap with major requirements of the first major). Permission is required from a department or school offering two or more majors in order for a student to have a second major within the same department or school. Students completing two majors must satisfy the writing requirement of their first major.

Students may use required related courses outside of their major department to satisfy the requirements of a second major. Students may use courses in second major and minors to satisfy the general education requirements. A student's declared curriculum, including major(s), minor(s), and concentration(s), is indicated on the official transcript.

Changing Majors and Programs

Students may change their major if they are maintaining at least a 2.00 cumulative grade point average and a 2.00 average in coursework in the discipline they wish to enter. If these conditions are not met, students seeking to change their program should consult with the Dean of Academic Planning & Advising. *Special application procedures must be followed by students who wish to enter majors in the School of Education.* Forms for requesting changes of major or program are available from the Office of the Dean of Academic Planning & Advising.

Internships

The internship program provides students with vocational experiences designed to complement their academic studies and introduces them to professional activities related to their baccalaureate degree programs.

Several departments offer internship experiences related to their majors; these are identified in the Bulletin with the department's prefix and the number X95. The internships take place in field settings within participating firms or agencies and are supervised by faculty from the sponsoring academic departments. Interns are required to fulfill a set of objectives related to their majors, mutually agreed upon by the student, the faculty director, and the agency. Internships vary in length and credit value. Arrangements for internships are made by the student in cooperation with the student's department chair, or a faculty member designated by the department, and the Career Design Center. Students enrolled in internships must provide their own transportation.

Internships may also be arranged as INTD X95 directly with Geneseo's Internship Coordinator and the field supervisor. INTD internships are graded S/U.

Enrollment in internships is generally limited to those students who have earned at least a 2.00 cumulative grade point average and a 2.50 in prerequisite courses. An exemption from this requirement may be granted if the department chair and/or internship coordinator approve. Students may apply no more than 15 credits of internship credit toward the baccalaureate degree. The application of credit in internships toward the requirements for the major is governed by the departments, except that no department may accept more than 6 internship credits to be included in the credits required in the major.

Political and Legal Affairs Internships

Geneseo participates in several internship programs that encourage students in all majors to work with agencies related to local, state, or federal government. Further information about the nature and requirements of these programs is available from the chair of the Political Science Department or from the Associate Director for Internship Opportunities in the Career Design Center.

Student Teaching Internships

Each professional program that requires a period of student teaching has certain course prerequisites that must be met prior to this experience. Students should become familiar with the requirements and meet them in the proper sequence. Students who are in certification programs in the School of Education should see the section on "Student Teaching" in the School of Education section of this Bulletin.

Studying at Other Colleges

Geneseo students who take courses at other colleges or universities and expect to transfer those credits to Geneseo must request approval for the courses by completing a course approval form prior to taking the courses. Courses must be credit-bearing and must be reported to the Geneseo Office of the Registrar on an official transcript from an accredited college. Grades and quality points earned elsewhere do not transfer.

Students who plan to leave Geneseo temporarily on special programs which involve fees, registration, and credit at Geneseo (e.g., study abroad under State University of New York sponsorship) do not withdraw or take a formal leave of absence. These students should consult with staff in the Study Abroad Office, to assure proper academic planning, classification, and credit.

All students who plan to attend another college or university as visiting students, or who plan to study abroad under sponsorship of institutions other than the State University, or who plan to enroll in a program cooperatively sponsored by the College and another institution (e.g., the 3-2 engineering program) should consult with staff in the Office of the Dean of Academic Planning & Advising. These students must obtain, complete, and return the form for requesting a leave of absence and the form for approval of courses taken at other institutions.

Study Abroad

Studying abroad is open to all students of all majors and all identities. No matter what barriers a student sees in front of them, financial, personal, or academic, students are encouraged to meet with the Study Abroad Office Staff to begin exploring ways to overcome those barriers.

SUNY Geneseo regularly administers 60 study abroad/study away programs spanning 35 countries and representing 6 continents. SUNY Geneseo students may also study abroad through other SUNY institutions. SUNY students can participate in a variety of programs based in over 65 countries in every continent of the world. The Study Abroad Office assists students who are interested in short-term, semester or year-long study abroad programs. In addition, interested students are encouraged to consult with their academic advisors and with the Office of Financial Aid. (For further information see studyabroad.geneseo.edu.)

Students intending to study abroad must be in good academic standing in the semester prior to their study abroad program. Credits earned while studying abroad at a partner institution are treated as transfer credits and will not be included in a student's cumulative SUNY Geneseo GPA, whereas credits earned while studying abroad on a SUNY Geneseo faculty-led study abroad program are included in a student's GPA. A grade of C- or above must be earned for a course to be accepted for transfer credit. SUNY Geneseo does not accept transfer credit for courses graded on a Pass/Fail or Satisfactory/Unsatisfactory basis. SUNY regulations recommend one credit to be awarded per week of study abroad. Students intending to use specific courses taken abroad to fulfill SUNY Geneseo requirements must consult and receive prior approval for the courses from their major department and/or the Dean of Academic Planning and Advisement. Up to three credits per semester of courses which do not align significantly in substance and level with the course that comprise the formal curriculum at Geneseo may be transferred with prior approval. The deadline for pre-approval of courses is May 1 for summer and fall study abroad programs and December 1 for intersession and spring study abroad programs.

Academic Standards, Dismissal, and Probation

Academic Standards

All students are expected to maintain satisfactory levels of academic achievement (at least a 2.00 cumulative grade point average and appropriate levels of credits completed satisfactorily in each semester) throughout their tenure at Geneseo and to make satisfactory progress toward their degrees. Note that some departments and programs require

higher grade point averages for admission to and/or progress in the major. The Office of the Dean of Academic Planning & Advising monitors students' progress at the end of each fall and spring semester.

The College recognizes that some students will need assistance in making the adjustment to the demands of college work. The College's academic standards regulations provide short-term, provisional requirements intended to help these students make satisfactory progress toward their degree.

Changes or revisions in Academic Standards are approved by the College Senate and distributed by the Office of the Academic Planning & Advising. Academic Standards and other academic policies for students in the Access Opportunity Program are available from the Director of AOP.

Good Standing

Good standing status for a semester is defined as: (1) the successful completion of a minimum of 11 credits of coursework (8 credits for students in their first semester at Geneseo), and (2) a minimum cumulative grade point average of 2.00.

Academic Probation

Full time students are reviewed for academic probation at the end of each fall and spring semester. First-semester students, whether first-year or transfer, are not subject to academic probation. First-semester students who complete fewer than 8 credits will be placed on credit warning; first-semester students who achieve a cumulative grade point average of 1.99 or lower will be placed on academic warning. Full time students who have completed at least two semesters at Geneseo will be placed on probation if they fail to complete the minimum number of credits required for good standing in two successive semesters or if their cumulative GPA falls below 2.00. Any student placed on credit warning, academic warning, or academic probation will receive a letter from the Dean of Academic Planning & Advising recommending that the student take such actions as seeking academic counseling and reviewing work schedules. Students placed on academic probation will be required to receive academic advisement before registration. Students on probation must meet the criteria for good standing in their next semester or they will be dismissed. Unless otherwise stipulated by the Dean of Academic Planning & Advising, students on probation are not precluded from participation in college-sponsored co-curricular activities.

Extended Time to Return to Good Standing

If a student placed on academic probation (AP) successfully completes EXPL 125 - Academic Bootcamp in the semester immediately following, but fails to meet the requirements for good standing (11 completed credits and cumulative GPA of 2.0 or higher), the College will defer "dismissal" for an additional semester. Enrollment in EXPL 125 is recommended for students who go on academic probation, but not required.

Academic Dismissal

Students are reviewed for academic dismissal at the end of each fall and spring semester. Students on probation will be dismissed if they fail to meet the criteria for good standing. Dismissed students are no longer eligible to continue at the College and will be denied further registration. Notification of dismissal is sent by mail and email to the student's address on record with the College, at the end of the semester in question. Each student is responsible for informing the College through the Office of Records and Scheduling of updates and changes to their address.

Notes:

- Students placed on probation may be restricted from selected academic opportunities requiring a cumulative GPA above 2.00, such as Internships, Overseas Study, and honors opportunities. Please consult the Office of the Dean of Academic Planning & Advising.
- The College defines a "full-time" load as twelve credits registered and paid for. The minimum number of credits required to meet the good standing status is not the same as a "full-time" load.
- Students receiving financial aid should consult the Financial Aid Office, Erwin 104, concerning eligibility to receive or retain financial aid.

Academic Resignation

Students who are subject to academic dismissal and are so notified by the Office of the Dean of Academic Planning & Advising may elect to resign from the College in advance of an appeal. Students choosing this option will waive their right to appeal their academic standing and/or any course grade not already under appeal by the end of the semester in which they become subject to academic dismissal. Upon resignation, the College will remove all indication of academic dismissal or academic dismissal pending from its transcript records. Any resigned student who later seeks readmission to Geneseo will be subject to all regulations applied to dismissed students who seek readmission (see "Readmission after Dismissal or Resignation" below). Complete information on the process for dismissal, appeal, and resignation is available from the Office of the Dean of Academic Planning & Advising.

Students who choose neither to resign nor appeal their dismissals, students whose appeals are denied, and students who fail to meet specified conditions for reinstatement following appeals that are granted are formally dismissed from the College. Such students should meet with staff in the Office of the Dean of Academic Planning & Advising and must complete a specified exit procedure; failure to do so could result in their being refused readmission and denied copies of transcripts. All questions concerning exit procedures may be addressed to the Division of Student and Campus Life.

Appeals of Dismissals

Students wishing to appeal their dismissal at the end of the academic semester must submit a written statement to the Dean of Academic Planning & Advising. The letter should detail the specific reasons and/or circumstances that warrant the appeal. The appeal letter must be postmarked no later than 10 calendar days after the date on the dismissal letter. The Academic Standards Committee reviews the written appeal and the entire record of the student. The Academic Standards Committee has the authority to uphold the dismissal, repeal the dismissal with conditions, or repeal the dismissal. Conditions of reinstatement set by an Academic Standards Committee may limit the number of appeals, set target grade point averages, or place other conditions on a student that otherwise supersede general guidelines for academic standards.

Degree Time Limitation

Students enrolled in a baccalaureate program at the College who fail to maintain continuous enrollment in at least one course each semester are administratively withdrawn from the College unless they have been granted a Leave of Absence in advance. Such students must be readmitted to the college before they will be permitted to resume their studies.

If the standards of admission in effect at the time of application for readmission are met, a student may be admitted to a degree program current at the time of readmission. The Dean of Academic Planning & Advising, in consultation with appropriate department chairs, will determine which courses completed prior to withdrawal will be applied to degree programs elected following readmission.

Readmission after Dismissal or Resignation

Students who have been academically dismissed or who resign may not apply for readmission until at least two criteria have been met. First, at least one year must have elapsed since the time of academic dismissal. Second, students are expected to complete successfully a minimum of one full-time semester at another accredited college, or a comparable experience (as determined by the Dean of Academic Planning & Advising). Students are required to submit an application for readmission, transcripts from any colleges attended, and, in addition, should provide a brief written statement detailing the reasons for returning to Geneseo. Readmission to the College *does not* automatically readmit students to majors or programs which have separate admission or proficiency standards (the School of Business or the School of Education).

Using the procedures described above, an Academic Standards Committee reviews the records of dismissed students and those who resigned in previous semesters and wish to be readmitted to the College. The Committee has the authority to recommend or deny readmission and to specify conditions for readmitted students.

Readmitted students should be aware that their previous Geneseo academic record remains as a part of their Geneseo cumulative average and is considered in academic reviews conducted in subsequent semesters. They should also be aware that the Geneseo cumulative average is not altered by grades earned at other institutions. Readmitted students return under the catalog of the year of their readmission. For further information, see the section on "Readmission."

Semester Honors

Dean's List

Students will be named to the Dean's List for a fall or spring semester if they meet all of the following criteria during the given semester:

- they have carried 12 or more credits in courses earning quality points;
- they have received no final grades of D, E, U, or F;
- they have no Incomplete grades in any course; and
- they have attained a semester's grade point average of 3.50 or above.

Dean's Lists are not calculated for Intersession or Summer Sessions. Students who receive this scholastic honor are notified by letter by the Dean of Academic Planning & Advising.

President's List

Students who meet all of the qualifications for Dean's List but whose semester grade point average is 4.00 will be named to the President's List as well as the Dean's List. These students will be commended in a letter from the President of the College.

Degree Honors

Criteria for degree honors (*summa cum laude*, *magna cum laude*, and *cum laude*) are discussed under the "Graduation" section of this Bulletin.

Credit Toward a Degree

Credit Contact Hour Policy

Face-to-Face Courses

Course credit is the unit of contact hours of instruction. One credit hour requires 50 minutes of class work and two hours of outside preparation, or the equivalent in independent study, each week during a semester. The distribution of that time between class activities (such as lecture, recitation, laboratory, field trip) and outside preparation varies from course to course. Generally, a three-credit course requires 150 minutes of classroom activity and six hours of out-of-class preparation per week. Thus, a normal 15-credit load requires approximately 42.5 hours per week of the typical student's time.

Online Courses

Online courses have the same learning outcomes as the corresponding face-to-face offerings. For courses offered online, students are expected to actively engage with the instructor and/or materials posted by the instructor for a duration of 50 minutes per credit, each week during a semester. Online class activities include, but are not limited to, interactive instruction, recorded lectures, discussion boards moderated by the instructor, and other virtual study arranged by the instructor. Additionally, each credit requires two hours of outside preparation, or the equivalent in independent study, each week during the semester.

Hybrid Courses

Courses with a blend of face-to-face and online classes must also meet the total amount of instructional and outside preparation time.

Study Abroad Courses

State University of New York regulations allow one credit to be awarded per week of Study Abroad.

Classification of Students

Students are classified as follows:

First Years	Fewer than 30 cumulative credits
Sophomore	At least 30 but fewer than 60 cumulative credits
Junior	At least 60 but fewer than 90 cumulative credits
Senior	90 or more cumulative credits

Academic Load

Students will be allowed to register for a maximum of 17 credits during Advance Registration. This limit is raised to 19 credits during the first week of classes (or the Drop/Add period). Students with an overall GPA of 3.00 or higher and a record of prior semesters with at least 15 earned credits may request special permission from the Dean of Academic Planning & Advising to enroll in more than 19 credits for the semester.

Full-Time Load

A full-time load is defined as a minimum of 12 credits for which the student has registered and paid in full.

Credit Restrictions

Of the 120 total credits required to graduate, students may apply no more than 20 credits combined from Directed Studies, undergraduate teaching assistantships, EMT/EMS training, ROTC, and H&PE courses. The limits for each individual program are as follows:

- Directed Studies: 12 credits
- Teaching assistantships: 6 credits
- EMT/EMS: 6 credits
- ROTC: 8 credits
- H&PE courses: 10 credits (of which no more than 4 credits can be from 100-level activity courses)

Teaching assistantships, H&PE activity courses, and some internships and EMT/EMS courses have the S/U grading option only and, therefore, will not be counted toward students' cumulative GPA.

Grades

Final grades are recorded as:

A, excellent
A-

B+, very
B, good
B-

C+, satisfactory
C

C- minimal competence

D marginal

E failure

F failure in courses elected under the pass-fail option which are not completed successfully

P pass in courses elected under the pass-fail option which are completed successfully, with work equivalent to a grade of C- or higher

S satisfactory is equivalent to a grade of C- or higher

U unsatisfactory

W withdrawn

Students receive W grades in cases of: disciplinary action resulting in dismissal, involuntary withdrawal, administrative release, and voluntary withdrawal prior to the published deadline. Voluntary withdrawals (i.e., a cessation of attendance and coursework) after the published deadline result in E grades, unless a request for special consideration is approved by the Dean of Students and the Dean of Academic Planning & Advising.

Grade Point Average

The grade point average defines the level of scholarship achieved by a student. It is used in determining scholastic standing and in establishing eligibility for honors.

The average is computed by dividing the "quality points" earned by "credits carried." "Carried credits" include all those for courses in which grades of A, A-, B+, B, B-, C+, C, C-, D, or E are received. Quality points are awarded as follows for each of these assigned final grades:

Final Grade Quality	Points per Credit
A	4.0
A-	3.7
B+	3.3
B	3.0
B-	2.7
C+	2.3
C	2.0
C-	1.7
D	1.0
E	0.0

No other grades received at the College (e.g., P or S) earn quality points. Grades in courses taken at other schools and accepted in transfer do not earn quality points at Geneseo.

At the end of each semester two grade point averages are computed: one for the "Current Semester" (which reflects the results only of courses carried in the semester just completed) and the other for the "Cumulative Record" (which reflects the results of all courses completed to date at the College). Grade point averages calculated for students with "Incomplete" designations on their records are not official; the official computation is done when final grades have replaced any "I" and have been recorded.

Determination of a *sample* grade point average for a semester follows:

Dept. and No.	Course	Credits	Grade	Quality Points
COMN 102	Princ. of Public Speaking	3	A-	11.10
HUMN 220	Western Humanities I	4	B+	13.20
GSCI 160	N/Physical Geology	3	C+	6.90
GSCI 161	N/Physical Geology Lab	1	A	4.00
PSYC 100	Introductory Psychology	3	D	3.00
Total		14		38.20
				GPA = 2.72

The grade point average in the example above equals 38.20 (quality points) divided by 14 (credits carried) = 2.72, which indicates a level of scholarship above a C (2.00) for the semester. (*Note: Grade point averages are truncated to two decimal places, with no rounding up from a third decimal place.*)

All students are expected to maintain cumulative grade point averages of 2.00 (C) or better. These averages are determined by dividing total quality points earned by total graded credits carried to date. *Note that individual majors/programs may require higher than a 2.00 for admission to, or continuance in, the major.*

Pass-Fail Option

During the course of their undergraduate programs, students may elect a pass-fail option for no more than a total of four courses.*

Courses taken Pass-Fail cannot be used to meet major, minor, or concentration requirements, including related requirements in the major.

Students may choose the pass-fail option from the first day of the fall or spring semester, intersession, or any summer term until the posted deadline listed on the Academic Calendar (customarily one week before the final exam period). Students elect the pass-fail grading mode (or revert to "normal" grading prior to the deadline) through the Knightweb registration system. Students who elect the pass-fail option must do all of the regular work of the course, following syllabus requirements and consulting with faculty to determine their standing in their course if they need access to assignment grades and other assessments. Grading mode may not be changed after the posted deadline.

To receive a grade of P, a minimum grade of C- must be earned in the course. D and E grades are translated as F's.

A grade of "F" means "no credit," but does not affect GPA. A grade of "P" indicates earned credit, but also has no effect on GPA. Final grades of P (pass) and F (no credit) do not earn quality points. Students should note that they must carry 12 or more credits in courses earning quality points in order to be eligible for semester honors. "F" grades may impact full-time status, including earning sufficient credits each semester to meet financial aid requirements and to remain in "good" academic standing.

Students are advised to consult with their academic advisor and/or the Office of the Dean for Academic Planning and Advising to understand the potential impact of Pass-Fail grading mode on future plans, including graduate and professional school applications.

* Undergraduate courses selected for Pass-Fail in Spring 2020 will be excluded from the maximum of four elections.

Exceptions to Pass-Fail Policy

1. Transfer students, from both domestic & international post-secondary schools, may apply credits earned under a pass-fail or satisfactory-unsatisfactory grading method at prior institutions, so long as that is the course's normal grading method. In this situation, the credits may apply toward a major, general education, and/or total credits, so long as the credits are earned prior to transferring to Geneseo.
2. Post-matriculation Geneseo students may use credits earned in pass-fail or satisfactory-unsatisfactory courses at international universities or in study abroad programs if the courses are only offered as pass-fail or satisfactory-unsatisfactory. In this situation, the credits may apply toward a major, general education, and/or total credits.
3. Post-matriculation Geneseo students may use credits earned as pass-fail or satisfactory-unsatisfactory in American post-secondary institutions if the course is only available with that grading mode and only towards elective or general education credits, not for a major, minor, concentration, or related requirements for the major. Credits earned in pass-fail or satisfactory-unsatisfactory courses are subject to normal limits on activity or internship credits.

Repeat Course Policy

General Policies

Although there are restrictions on repeating certain courses, generally, students may choose to repeat courses in which they have earned grades of D, E, F, U, or W. Courses in which students earned grades of P, S, C- or higher, may not be repeated. The repeat course option is subject to course availability. Credits for a repeated D course will be counted only once toward graduation. Students who wish to repeat a course assume responsibility for knowing what, if any, repeat restrictions apply to any particular course. Restrictions are noted in individual course descriptions in the Undergraduate Bulletin. Invalid or improper enrollments may result in loss of registration, grades, and/or credits.

If a student violates the Repeat Course Policies by enrolling in a course that they are ineligible to repeat, the student may be administratively withdrawn from the course. Students may not use the Pass/Fail option for repeating courses in which grades of D or E were earned.

Financial Aid Notice: Students receiving aid should consult the Financial Aid Office before repeating a course. Repeated courses may have an impact upon financial aid eligibility.

Minimum Competence

Students must repeat courses in their majors in which they received a grade of D or E if those courses are designated as "minimum competence requirements" by the major department. Minimum competence in those courses is demonstrated by earning at least a C- grade. Students may not enroll in any subsequent courses having any minimum competence requirements as prerequisites unless the minimum grade of C- has been earned in the prerequisites or unless special permission is granted by the chair of the department.

Students who receive special permission to take a subsequent course and who earn a final grade of C or better in that course will not be required to repeat the minimum competence prerequisite course(s) in which a grade of D was earned. Consult the individual department program descriptions in the Undergraduate Bulletin for the list of courses identified as requiring "minimum competence" in each major.

Note: that a C- grade may not be sufficient to meet the College standards of 2.0, or the higher grade point averages required by the School of Business and the School of Education.

Grade Calculations in Repeated Courses

Repeated courses will be reported as follows: a) the original and the repeat grade(s) appear on the transcript; b) only the higher (or highest) grade is included in the calculation of the cumulative grade point average. When a student earns the same grade in a repeated course a) the grade is calculated once in the cumulative grade point average and b) the credits and quality points are applied to the most recent term or semester in which the grade was earned.

SP Grades

SP (Satisfactory Progress) is used to report the status of students enrolled in some "Directed Study" projects and research courses whose work extends beyond one semester. When the work is completed, the SP is converted to the regular final grade assigned by the instructor. Credits for such courses are not computed in determining cumulative grade point averages until the final letter grade has been recorded.

Incompletes

A temporary grade of "I" (incomplete) may be awarded when a student has been unable to complete a course due to circumstances beyond his or her control. Instructors determine whether an "I" grade is appropriate and work out a plan for completion of required work with the student. A grade of "I" must be converted to a letter grade within six weeks of the start of the semester following the semester in which the "I" was awarded. If the "I" is not converted to a letter grade within six weeks of the following semester, it will be converted to an "E." An extension of the six-week period is permissible, if the supervising faculty member agrees. The faculty member must contact the Registrar's Office to request the extension and indicate the new deadline for completion.

Students with "I" grades are not eligible for the Dean's List during the semester in which the "I" was awarded. Students with financial aid awards should contact the Financial Aid Office prior to requesting any extension of the "I" grade.

Grade Appeal

The Dean for Academic Planning and Advising will assist students and faculty navigating grade appeals. The Associate Provost for Academic Success oversees the grade appeal process.

Instructors are responsible for assigning grades to student work. Responsibility for resolving grading disputes is shared among the instructor, the student, the department chair and the Provost's Office.

If a student believes that they have been graded unfairly, the first step is to schedule a meeting with the instructor to discuss concerns. If, after talking with the instructor, the student continues to believe they have been graded unfairly, the student may file a written appeal with the department or program chair. The appeal must be lodged no later than four weeks into the semester following that in which the disputed grade was earned. The only grounds for appealing an instructor's grade is a student's belief that a grade has been assigned on a capricious or arbitrary basis. That means:

- The assignment of a grade to a particular student on some basis other than their performance in the course;
- The assignment of a grade based on more exacting or demanding standards than were applied to other students in the course;
- The assignment of a grade by a substantial departure from the instructor's previously announced standards (for example, using criteria not specified in the syllabus or miscalculating the final grade).

After reading the written appeal, the department or program chair will consult with both the instructor and the student in reaching a recommendation on the appeal. The chair's recommendation should be made in writing and preserved for use if the student chooses to pursue a further appeal.

If the student is not satisfied with the departmental recommendation, they may submit a written appeal to the Associate Provost for Academic Success. The Associate Provost may convene a committee of faculty to review the case and make a recommendation to the Provost's Office.

In cases in which a student alleges bias, discrimination, or other serious misconduct, the department or program chair and/or Associate Provost should direct the student to the relevant office for further investigation (e.g., Title IX, the Office of Diversity and Equity, or the Provost's Office). If an investigation is conducted by another campus office, the grade appeal process is paused pending resolution. The Provost's Office may authorize a grade change in cases where an investigation by another office finds evidence that the student experienced discrimination, bias, harassment, or other capricious or arbitrary conduct.

The assignment of a "P" grade with waivers to count the course towards major and general education requirements may be an appropriate resolution to a successful grade appeal.

Grade Change

All changes of grades must be made within twelve weeks of the start of the semester following the semester in which the original grade was awarded. Changes are limited to error or miscalculation; all other changes must follow the grade appeal process and be initiated by the student prior to the end of the fourth week of the semester following the term in which the grade was received.

Grade Reports

Students are encouraged to consult their instructors for information about their academic progress. At the midpoint of the fall and spring semesters, instructors report the academic achievement of first year students and first-semester transfers to the Registrar's Office. These students receive a "Mid-Semester Grade Report" (on the web) and are advised to review their status with their academic advisors. This grade information is also distributed to advisors. The Dean of Academic Planning & Advising sends a warning letter, expressing concern and offering suggestions, to any first year student or first-semester transfer student earning a grade of less than "C" in any course.

Final grade reports are available on KnightWeb to students who do not have financial obligation to the College approximately one week after the fall, spring, intersession, or summer session.

Use of Credit Toward Multiple Degrees

Concurrent Degree Policy

Academic credit earned at the College, or at any other institution of higher education, in a program that has resulted in the awarding of a baccalaureate or advanced degree is not counted toward the awarding of another degree at Geneseo. (This regulation does not apply to any 3-2 or other cooperative programs agreed upon by Geneseo and cooperating institutions.)

Subsequent Degree Policy

When a student concurrently meets the requirements of more than one option or major within a single broad field of study, a single degree should be awarded rather than two separate degrees. (This does not preclude transfer arrangements under which coursework is completed at another institution toward a professional degree and transferred back for completion of a degree at the initial campus.) Programs which lead to two different academic objectives may result in the awarding of two degrees, provided the requirements of each program have been met; and at least 30 credits of coursework beyond the single degree requirement has been completed. No more than 12 credits can be allowed to overlap between the two programs. At the graduate level, at least 30 credits of additional study must be undertaken for the attainment of two degrees at the same level. Application for the second degree is through the readmission process (described in the section titled - Readmission in the Bulletin). Readmission to pursue a second degree is not guaranteed. Applications will be reviewed by the Dean of Academic Planning & Advising in consultation with the relevant academic departments or programs.

Transfer Credit

Transfer candidates are encouraged to meet with an admissions advisor to discuss the applicability of their transfer credits to the specific degree programs in which they plan to enroll. An unofficial transfer evaluation, including a list of equivalent courses at Geneseo for which credit has been granted, is provided upon request. Course credits transfer to Geneseo, although grades and quality points earned elsewhere do not transfer. To receive appropriate credit, an applicant must ensure that official transcripts from all previous institutions are on file in the Admissions Office. Final authority on transfer credit acceptance lies with the Office of Academic Planning and Advising.

Courses completed at regionally accredited institutions of higher education which align significantly in substance and level with the courses that comprise the formal curriculum at Geneseo, and which are recorded on official transcripts are awarded credit under the following conditions:

1. Students may transfer a maximum of 45 credits completed while concurrently enrolled in high school. Of these, a maximum of 30 credits may be AP, IB, and CLEP credits. Credit will not be awarded for courses that overlap with AP, IB and CLEP credits (see "Credit for Advanced Placement, International Baccalaureate, Proficiency Examinations").
2. Students may transfer a maximum of 60 credits from a two-year, degree-granting institution. (including no more than a total of 30 AP, IB, and CLEP credits).
3. Students may transfer a maximum of 90 credits from a four-year, degree-granting institution (including no more than a total of 30 AP, IB, and CLEP credits and no more than 60 credits from two-year institutions).
4. Students may not repeat courses that they have successfully completed at another degree-granting institution.
5. Graduates of community colleges who earn A.A. or A.S. degrees in the liberal arts may expect full credit, up to a maximum of 60 credits, upon enrolling at Geneseo.
6. Coursework from proprietary institutions will be reviewed on a course-by-course basis.
7. A grade of C- or above must have been earned for each course accepted for transfer credit. Geneseo will not accept transfer credit for courses graded on a Pass/Fail or Satisfactory/ Unsatisfactory basis. For information on transferring credit for single courses taken during summer or intersession see "Studying at Other Colleges."
8. For students transferring credits from another SUNY campus:
 - Local general education requirements beyond the SUNY-GER shall not require a transfer student to exceed the number of credits to graduation required of native students in the same program.
 - A passing grade counts as successful completion for the SUNY-GER area at any campus. A SUNY-GER course completed at another SUNY campus with a D grade will be indicated with a "TD" grade on the Geneseo transcript; while the student will not receive credits for the course, it will be used toward fulfillment of the general education category

Credit for Advanced Placement, International Baccalaureate, Proficiency Examinations

A maximum of 30 credits may be awarded for achievement on college-level examinations such as the Advanced Placement Examination (AP) and the International Baccalaureate (IB). To receive credit for AP or IB, students must have official reports forwarded to the Admissions Office; for AP examinations, students must earn a score of at least 3 and for IB, a score of at least 4. Individual departments determine course equivalents for that credit. Students are eligible for credit for the CLEP and other subject examinations if examinations are taken before matriculation at Geneseo. Credit is awarded based on achievement of specified minimum scores and according to established department evaluation. Geneseo does not accept transfer credit for internal placement examinations given at other institutions. (The MLA exam is administered by the Department of Global Languages and Cultures and is an exception to this rule. For further information see "Placement in Foreign Languages Study" or consult the Foreign Language Department.)

Non-Matriculated Status

Undergraduate non-matriculated status permits students who are not pursuing a degree program to register for a limited number of credit hours (not more than a total of 30 credits). To maintain satisfactory academic standing in the College, non-matriculated students must earn at least a 2.00 grade point average in every semester in which they are enrolled and complete 50% or more of the credits for which they are registered. Applications for non-matriculated status are available from the Office of the Registrar. Non-matriculated students may take no more than

15 credits per semester, or 5 credits in intersession. When a non-matriculated student reaches the 30-credit limit, they will need to meet with Enrollment Management.

Readmission

Candidates who previously enrolled at the College as matriculated students and who wish to resume their studies must submit an application for readmission to the Director of Admissions stating the term for which they wish to be readmitted, the circumstances that caused their separation, and information concerning any college courses completed in the interim, and the degree program they plan to pursue. General Education and degree requirements are effective from the catalog of your readmission date. Applications for Readmission are available from the Office of the Dean of Academic Planning and Advising.

Term	Application Due
Fall	June 1
Spring	December 1

Former students who wish to resume their studies in restricted programs such as those offered by the School of Business or the School of Education should consult with the Dean of Academic Planning and Advising to determine eligibility for matriculation. Normally, students who have been separated from the College for academic or social reasons will not be considered for readmission until one full year has elapsed. Additionally, those who have been separated for academic reasons must successfully complete a minimum of one full-time semester at another accredited college before requesting readmission to Geneseo. No applicant is guaranteed readmission.

A College Academic Standards Committee reviews the records of all applicants for readmission who have been separated from the College for academic reasons. For further information, see "Readmission after Dismissal or Resignation."

Classroom Policies

Attendance

Students are expected to attend all classes. Furthermore, the College recognizes that students hold primary and ultimate responsibility for their academic performance and accomplishment. Students are expected to recognize the importance of regular class attendance and to complete satisfactorily all requirements of all courses in which they are registered.

Student attendance in classes on religious holidays is governed by New York State Education Law, and students who do not attend classes on certain days because of religious beliefs should refer to the policy below.

Syllabus

During the first week of each semester members of the teaching faculty are required to prepare for each course an electronic version of the syllabus and publish the syllabus to the college's learning management system. Students who request a paper copy of the syllabus will be provided with one by the instructor. The following information, subject to reasonable changes as circumstances require, must be provided in the syllabus:

1. an outline of the sequence of the course and the topics to be covered in the course;
2. a reading list, texts, and/or materials required;

3. grading procedures;
4. the intended learning outcomes of the course;
5. test dates including date and time of the final examination;
6. schedules for assignments, experiments, and projects;
7. descriptions and due dates of papers the student will write for the course.
8. information on legally required accommodations for persons with disabilities, attendance in classes on religious holidays, and leaves of absence for service members on active military duty.

Statement of Student Accommodation

SUNY Geneseo is dedicated to providing an equitable and inclusive educational experience for all students. The Office of Accessibility will coordinate reasonable accommodations for persons with disabilities to ensure equal access to academic programs, activities, and services at Geneseo. Students with letters of accommodation should submit a letter to each faculty member and discuss their needs as soon as possible. Please contact the Office of Accessibility Services for questions related to access and the process for requesting academic accommodations:

Absence from Class Due to Illness or Emergency

Students should notify the Office of the Dean of Students as soon as possible if, by virtue of illness or personal emergency:

- they will be delayed from returning to school at the start of a semester;
- they will be absent from class for an extended period of time during a semester;
- they will be unable to take final exams and/or otherwise prevented from completing the semester.

The Dean of Students attempts to facilitate communication between students and their faculty when students must be absent from classes for extended periods. Notices sent to faculty provide reasons for absences given by the students, parents, or perhaps a friend. The Dean does not routinely verify the information provided in these notices, and faculty may require later documentation of the medical problem, emergency, or unusual situation which prevented the student's attendance.

In notifying faculty of student absences, the Dean employs the following procedures:

- A. The Dean of Students after being informed of the problem will send notice of absence to instructors when a student has been absent for at least one week and has not been able to contact faculty due to reasons beyond the student's control.
- B. The Dean of Students will notify faculty of emergencies (usually medical) which prevent a student from attending classes at the beginning of a semester or participating in final examinations at the end of a semester. Students in the latter situation may receive Incomplete grades at the discretion of the instructor.
- C. Faculty should state their positions on student absences from class in the course outlines provided to students at the beginning of each semester. As noted above, faculty may wish to receive verification from the student of the reasons for a student's absence. The faculty member is responsible for deciding what absences are legitimate.
- D. For all illness or emergencies, whether for brief or extended periods of time, students should contact faculty directly, particularly if they will be likely to miss exams or major assignments. At their discretion faculty may request documentation of excuses for missing assignments and may use the documentation (or lack thereof) in determining whether to make accommodations on students' behalf. Such documentation may

consist of a statement from a doctor or other health care professional, a verification of visit from the College's MyHealth portal, an obituary notice, etc.

Policies Governing Student Attendance in Classes on Religious Holidays

New York State Education Law Section 224-a reads as follows:

1. No person shall be expelled from, or be refused admission as a student to, an institution of higher education for the reason that he or she is unable, because of his or her religious belief, to attend classes or to participate in any examination, study, or work requirements on a particular day or days.
2. Any student in an institution of higher education who is unable, because of his or her religious beliefs, to attend classes on a particular day or days shall, because of such absence on the particular day or days, be excused from any examination or any study or work requirements.
3. It shall be the responsibility of the faculty and of the administrative officials of each institution of higher education to make available to each student who is absent from school, because of his or her religious beliefs, an equivalent opportunity to make up any examination, study or work requirements which he or she may have missed because of such absence on any particular day or days. No fees of any kind shall be charged by the institution for making available to the said student such equivalent opportunity.
4. If classes, examinations, study or work requirements are held on Friday after four o'clock post meridian or on Saturday, similar or makeup classes, examinations, study, or work requirements shall be made available on other days, where it is possible and practicable to do so. No special fees shall be charged to the student for these classes, examinations, study, or work requirements held on other days.
5. In effectuating the provisions of this section, it shall be the duty of the faculty and of the administrative officials of each institution of higher education to exercise the fullest measure of good faith. No adverse or prejudicial effects shall result to any student because of his or her availing himself or herself of the provisions of this section.
6. Any student, who is aggrieved by the alleged failure of any faculty or administrative officials to comply in good faith with the provisions of this section, shall be entitled to maintain an action or proceeding in the supreme court of the county in which such institution of higher education is located for the enforcement of his or her rights under this section.
7. A copy of this section shall be published by each institution of higher education in the catalog of such institution containing the listing of available courses.
8. As used in this section, the term "institution of higher education" shall mean schools under the control of the board of trustees of the State University of New York or of the board of higher education of the city of New York or any community college.

Active Military Service

The federal Higher Education Act of 1965 requires higher education institutions to provide leaves of absences and other certain benefits to those service members on active duty for thirty or more consecutive days, 20 U.S.C. § 1091c and 34 C.F.R. §668.18. In addition, NYS Education law requires institutions to provide leaves of absences to any student member of the National Guard or other reserve component of the armed forces who has been "called to or ordered to active duty," as defined in federal law, regardless of the time spent on active duty. NYS Education Law §6350.

The relevant provision in federal law defines active duty as "full-time duty in the active military service of the United States. Such term includes full-time training duty, annual training duty, and attendance, while in the active military service, at a school designated as a service school by law or by the Secretary of the military department concerned." 10 U.S.C. §101(d)(1).

Individuals on active duty are entitled to excused absences from classes during their period of service and should not be penalized in any way.

Cancellation of Classes for Extraordinary Weather Conditions

It is College policy to continue as much as possible normal hours of operation and maintain a regular work and class schedule for faculty, staff members and students during periods of severe weather.

If classes are to be cancelled, communication of the President's decision to the College Geneseo community will be through:

- Announcements via the "allstudents" list serve
- A "Weather Alert" button on the SUNY Geneseo home page linking to applicable information
- Posts made to Geneseo's official social media outlets
- If cancellation of classes has been declared prior to the beginning of the instructional day, announcement notifications will be sent to local and regional media outlets

A cancellation of classes applies to all instructional activities, regardless of modality. It is understood that all College faculty, staff and students will be afforded the opportunity to make their own decisions about reporting to work or classes with due consideration for travel safety. Students who decide to miss class due to weather events when classes are in session should notify their faculty members in a timely fashion and contact the Dean of Students if additional support is needed. When possible, students should clarify faculty expectations prior to the onset of a weather event.

Graduation

Pre-Graduation Check

Students are required to complete Graduation checks in their junior and senior years. The purpose of these audits is to ensure that students understand precisely what they must do to fulfill all remaining graduation requirements. Each student is required to meet with his or her advisor to review online degree audits through Degree Works.

Application for Graduation

Geneseo holds one commencement ceremony in May for undergraduates who complete their degrees in the fall, spring, intersession, or summer term.

Candidates for degrees must apply for graduation by completing the online Graduation Application form by deadlines posted on the Academic Calendar. Students qualify for participation in May commencement if they have completed all their degree requirements (with the exception of student teaching) in December of the previous calendar year, or will complete them in May or August of the current calendar year. Failure to complete a Graduation Application form by posted deadlines may delay certification of degree completion and may prevent participation in the May commencement ceremony.

School of Education students who will student teach in the fall semester may participate in the prior May commencement ceremony if they have completed/will complete all of their degree requirements of their declared curriculum (except student teaching) by August. Students should first fill out the online graduation application. Then, fall-semester student teachers may submit to the "Commencement Participation Exception" form signed by their advisor certifying that they will complete or have a concrete plan to complete all coursework before the fall semester.

No more than two courses (8 credit maximum) may be taken during the summer to complete these degree requirements.

Candidates for teaching certification (both undergraduate and graduate) must complete the NYSED online application and submit that application information, along with a \$10.00 processing fee, to the Academic Planning and Advising office. It is recommended that this be completed by the middle of candidates' last semester. Information and instructions may be accessed from the "Academic Advising" link ("Teacher Certification") at dean.geneseo.edu

Diplomas are mailed approximately 90 days after completion of requirements.

Conferral of Degree

Upon the recommendation of the faculty of the College, the Board of Trustees of the State University confers baccalaureate degrees upon students who have fulfilled all graduation requirements. In addition, in order to be eligible for degree conferral, students must have satisfied all financial obligations to the College.

Degree Honors

Graduating students earn degree honor designations by meeting the following criteria:

1. Completion at the College of a minimum of 45 credits in courses in which quality points are earned;
2. Attainment of cumulative grade point averages as indicated below:

Degree Honor Designation	Grade Point Average Range
Summa Cum Laude	3.80-4.00
Magna Cum Laude	3.65-3.79
Cum Laude	3.50-3.64

At Commencement, prior December and January graduates will be listed with Final Honors. All other eligible graduates will be listed with Tentative Honors, which **do not include spring semester coursework**.

Final Honor designations for all eligible students will appear on their degree-bearing transcripts and diplomas.

Transcripts

A transcript reflects the results of all courses in which the student was registered at the College; notes transfer courses for which credit has been granted; and indicates, if applicable, the date of graduation and the degree conferred, or the date of withdrawal, resignation, or dismissal.

Students may authorize the Office of the Registrar to send official transcripts of their permanent records to persons and organizations they designate. All requests may be made online via the Office of the Registrar.

Transcript requests require payment in advance of \$7.50 per official transcript sent off campus or presented to students. Students may also print unofficial transcripts from KnightWeb.

Commencement

The commencement ceremony for degree candidates is held in May. The convocation activities include announcement of the conferral of degrees, Degree Honors, and presentation of various College awards. Students qualify for participation in May commencement if they have completed all their degree requirements (with the exception of student teaching) in December of the previous calendar year, or will complete them in May or August of the current calendar year (see commencement.geneseo.edu for current information).

Special Sessions

The Summer sessions and winter Intersession offer both undergraduate and graduate level courses during academic sessions apart from the regular fall and spring semesters. The winter Intersession is a single three-week session, while the Summer Sessions vary from three to twelve weeks each for undergraduates and graduate students. Detailed information about courses and special session dates can be found on the web pages for Summer or Intersession.

Undergraduate students who attend the College during the regular academic year need only complete the registration procedure during the fall or spring semesters. Matriculated undergraduate Geneseo students may enroll for no more than five credit hours at the College over Intersession, and are limited to a total of eight credit hours over any single summer part of term at Geneseo, although they may enroll in successive sessions. Students requesting higher credit loads must receive special permission from the Office of the Dean of Academic Planning and Advising.

Students who are enrolled at another institution of higher education may apply to attend summer sessions as non-matriculated. These students should secure permission from their home institutions to transfer credit. Non-matriculated students must submit a completed Application for Undergraduate Non-Matriculated Status form with their registration request.

Special session tuition and fees are not covered by regular fall and spring semester tuition and fee payments. Students enrolled in these sessions pay additional per-credit tuition and fees for their courses. Students on financial aid for fall and spring semesters should consult the Office of Financial Aid regarding applicability of financial aid awards to any Special Sessions.

Students desiring either degree or non-degree graduate status must be admitted prior to registration for courses during any special sessions. Students desiring non-matriculated graduate status may be admitted up to and including the last day to register for a session as outlined by the Registrar's Office.

A non-matriculated student is limited to an overall maximum of fifteen undergraduate or graduate credits. To register with non-matriculated status, graduate students must submit a completed Graduate Application for Non-Matriculated Status online form with their registration.

Course Numbering System

The following classifications are used in reference to courses:

Number Type

100-199 Introductory Undergraduate

200-299 Intermediate Undergraduate

300-499 Advanced Undergraduate

500-699 Graduate

(Note: Descriptions of graduate level courses are available online.)

The following is from the SUNY policy on program requirements (SUNY Provost Office, 9/16/1976):

Minimum Credit Requirement for Undergraduate Degree Programs

The minimum credit requirements apply to existing and proposed undergraduate degree programs offered by the State University of New York or under its academic supervision. The requirements are consistent with State Education Department requirements and regulations. The minimum total requirement for a bachelor's degree is 120 credits or the equivalent. Major exceptions, such as those for Time-Variable degrees, must be submitted for review to the Provost of the University. No baccalaureate degree program should require more than 126 credits without strong educational justification.

Programs leading to the Bachelor of Arts degree should require no more than 36 credits of specialization in a single discipline.

Programs leading to the Bachelor of Science and the Bachelor of Science in Education degree should require no more than 44 credits of specialization in a single discipline. To be awarded a baccalaureate degree, a student must successfully complete at least 45 credits in upper division courses. At least 24 credits of the courses taken within the student's major field should be at the upper division level.

Effective Fall 2018-2019 Catalog Year:

The above SUNY policy as applied to the Geneseo undergraduate curriculum:

- Upper division courses at Geneseo are numbered 200-499.
- The Bachelor of Arts degree should require no more than 36 credits in a single prefix.
- The Bachelor of Science degree should require no more than 44 credits in a single prefix.
- Students must complete at least 45 credits in upper division courses, with at least 24 at the 300-499 level.
- At least 24 of the credits of the courses taken to fulfill the Major and Related Requirement combined should be at the upper division level, with at least 18 credits at the 300-499 level.

Catalog Year

A student's catalog year is determined by the academic year of matriculation at Geneseo; the student is subject to all graduation requirements, including general education, and programmatic requirements found in the Undergraduate Bulletin for that catalog year. When there is a substantial change in the requirements for a major, minor, or concentration, a student may petition to change the catalog year for only that major, minor, or concentration.

Changes to catalog year for major, minor, or concentration require approval from the academic department and the Associate Provost for Assessment and Curriculum.

Library Services

library.geneseo.edu

Milne Library is named to honor William J. Milne, first principal (1871-1889), and John M. Milne, second principal (1889-1903), of the Geneseo Normal and Training School.

The Milne Library renovation is underway as of the 2020-21 academic year and is anticipated to be completed by the 2024-25 academic year.

In the interim, Fraser Hall Library will be the facility used to support library services.

The building that is now Fraser Hall was originally named and dedicated in 1956 as the Milne Library Building, after the two brother principals, William J. Milne, first principal (1871-1889), and John M. Milne, second principal (1889-1903), of the Geneseo Normal and Training School. In addition to the library, the building housed the Library School, classrooms, lounges, a typing room, and more. When the new Milne Library was built ten years later, the old building was renamed for Bertha Paine Fraser, a former instructor and one of the first two women to serve on the school's Board of Visitors.

Milne Library staff received the 2018 Award for Excellence in Academic Libraries from the Association of College and Research Libraries for its innovative approaches to services. It is also home to the award-winning IDS Project: an innovative model of library cooperation for effective resource sharing, promoting community engagement, staff development, best practices, and research & development.

Library Quick Facts:

- The library collection includes hundreds of licensed databases, journals, ebooks and streaming films as well as tens of thousands of print books and musical scores.
- Additionally the library's Information Delivery Services (IDS) makes it possible to access millions of books and articles held by other libraries around the world.
- The College Archives and Special Collections include the Rare Book "X" Collection, Genesee Valley Historical Collection, Wadsworth Family Papers (1790-1950), and the Carl F. Schmidt Collection in Historical Architecture. Smaller compilations include the Martha Blow Wadsworth Photography Collection, the Walter Harding Collection, and an extensive collection of works by and about Aldous Huxley.
- The Teacher Education Resource Center (TERC) collection is home to curricular and instructional materials, thousands of juvenile and Young Adult fiction and nonfiction works, curriculum guides, teaching handbooks, manipulatives, and textbooks to support the School of Education's elementary, secondary, and special education programs.
- Six research instruction librarians and a technology instructor partner with teaching faculty from all departments to teach information and digital literacy skills and provide consultation services to students and faculty.
- The Library supports a growing number of digital publishing projects, which include openly available textbooks and works about local history, as well as scholarly and creative works that are authored by Geneseo students, faculty, staff, and alumni.

English for Speakers of Other Languages (ESOL)

The English for Speakers of Other Languages (ESOL) Program at SUNY Geneseo is designed to assist students whose primary language is not English. The program supports students to be successful in the academic programs while building their emerging and fluent English language skills. Detailed information can be found at esol.geneseo.edu.

Teaching and Learning Center

Geneseo's Teaching and Learning Center is designed to reinforce the importance of teaching excellence as a fundamental responsibility of a public university. Through collaboration with faculty and administration, the Center supports a learning culture that values and rewards teaching, facilitates reflective dialogue about teaching and learning, encourages the development of teaching as a practice and a scholarly activity, invites innovation in curricular development, and encourages the creation of diverse learning environments in which all students can learn and excel. Information about programs can be found at tlc.geneseo.edu.

Computing & Information Technology

cit.geneseo.edu
twitter: @CITGeneseo
facebook: CIT@Geneseo

Computing & Information Technology supports student learning and development by providing technology infrastructure, facilities, services, and support.

The CIT HelpDesk offers technical support for Geneseo students, faculty, and staff. Services offered at the HelpDesk include: WiFi and VPN network setup, adding printers, academic software installation, Geneseo account assistance, and general computer questions.

Software.geneseo.edu provides a free download of Microsoft Office 365 and other applications the College has licensed for student use. The Geneseo Mobile app provides access to Geneseo resources. Search for "Geneseo Mobile" on your device's app store. A virtual computing lab provides students access to Geneseo licensed software from their own computers from anywhere at any time.

My.geneseo.edu is a web-based information gateway to SUNY Geneseo resources such as email, student balances, KnightWeb, campus news and events, and more. KnightWeb is a web interface to register for courses, make payments, review/accept financial aid, view grades, and more.

Faculty use an online digital learning environment to post the course syllabus, administer quizzes and tests, create discussion forums, receive and grade assignments, post grades, and more.

Access Opportunity Programs (AOP)

Geneseo's Access Opportunity Programs (AOP) serve as one of the College's means for expanding its student body to include the rich ethnic, racial, age, economic and cultural diversity of our society. The programs extend higher education opportunities primarily to NY state residents who are under-represented in higher education.

The AOP department consists of the State's Educational Opportunity Program (EOP), the locally-sponsored Transitional Opportunity Program (TOP), and two federally funded TRiO programs; the McNair Scholars Program and the TRiO Student Support Services Program. EOP is a statewide, special admissions program, that provides academic, financial, and tutorial assistance to students whose academic achievement may have been influenced by income factors. TOP is a college sponsored program designed to address Geneseo's interest in achieving a diverse campus community. The McNair Scholars Program and the Student Support Services Program support current students through mentorship, intrusive academic counseling, and support for the pursuit of graduate and doctoral degree programs. The College seeks to enroll students from groups that are traditionally under-represented in the college community. While the programs

serve different groups of students, they are similar in that they all provide educational access and academic support services to participants. (For further information, see geneseo.edu/aop)

The AOP Application Process

1. All EOP applicants must complete the SUNY application or the common application in order to become a candidate for admission. In order to apply for admission through EOP, the applicant must indicate interest by answering yes to the EOP Question when completing the application.
2. Although EOP applicants may not satisfy all of the academic standards required for general admission, their potential for success at Geneseo will be established through an in-depth examination of their academic history. Supporting and/or verifying documentation will include: a counselor or teacher recommendation; standardized test scores in some cases (SAT, ACT, TOFEL and GED); a high school transcript. EOP, applicants must submit the SUNY EOPIF and proof of income.
3. Current students need to apply for the McNair and Student Support Services programs. Please visit geneseo.edu/aop for more information.
4. As of Fall 2021 no new students will be admitted to TOP.

Office of Accessibility Services

SUNY Geneseo is dedicated to providing students equal and comprehensive access to college-wide programs, services, and campus facilities. The Office of Accessibility Services (OAS) will coordinate reasonable accommodations and auxiliary aids and services designed to ensure full participation and equal access for students with disabilities. It is the goal of the Office of Accessibility Services to facilitate an accessible and inclusive campus environment.

Please refer to the Office of Accessibility Services website for more information on the steps for requesting reasonable accommodations, available services and supports, and other helpful resources. Questions? Contact the Office of Accessibility Services at access@geneseo.edu or call 585-245-5112.

Scheduling, Events and Conference Services

College facilities are available to faculty, staff, and registered student organizations for the sponsorship of various educational and social programs. All programs will be conducted under College guidelines and supervision and they may be open to the public.

The top two goals of Scheduling and Events are to 1) Use campus resources wisely and 2) Provide planning support and information for events on campus. To accomplish these goals effectively, all requests for space must be approved through the Scheduling, Events and Conference Services.

Scheduling and Events administers and enforces the Facility Use Policy. Scheduling and Events provides scheduling, physical arrangements, event planning, and coordinating facility use with all relevant College support departments including Campus Auxiliary Services, CIT, Facilities Services, University Police, Student Life and Intercollegiate Athletics and Recreation.

For more information on the Scheduling, Events and Conference Services, please visit our webpage at geneseo.edu/events_office, call 585/245-5500 or visit us in Erwin Hall, room 23.

Career Design Center

The Career Design Center assists students in all aspects of their career planning. Students can meet with a career coach to discuss choosing a major or career, securing internships and professional employment (resume and cover letter critiques and interview preparation), and selecting and applying to graduate school.

For students who need assistance selecting a major or career, a great first step is completing FOCUS 2, an online career and planning tool that can help students identify possible majors at Geneseo. Upon completing FOCUS 2, students can make an appointment to meet with a career coach.

The Career Design Center also assists students interested in securing experiential education opportunities, whether in the form of an internship, part-time employment, or shadowing experience. Our associate director for internship opportunities will assist students in identifying and securing an internship that fits their needs.

All students have a Handshake account to search for part-time jobs, on and off campus, internships, professional positions. Handshake is a great way to connect with employers. All employer recruitment events and Career Design Center sponsored events are posted in Handshake regularly. All students are encouraged to login and activate their profile in Handshake.

The Career Design Center is located in Erwin 116. Our office is open Monday - Friday, 8:00 am - 5:00 pm. For a comprehensive list of services and resources visit: <https://www.geneseo.edu/career-design>

Academic Organizations

Academic Honor Societies

Phi Beta Kappa

The Phi Beta Kappa Society installed a chapter at Geneseo in 2004. Phi Beta Kappa is the oldest and most prestigious honor society in the liberal arts, dating back to 1776. Geneseo's membership places it among a select group of 270 of the finest colleges and universities in the nation as guarantors of quality in the liberal arts. Membership is offered to outstanding seniors and a small number of exceptional juniors.

Undergraduate Comprehensive Fee

The Undergraduate Comprehensive Fee of \$903.50 is charged to and paid by all undergraduate students, including those taking in-person and/or remote courses, whether they live in Geneseo or elsewhere. The fee is prorated on a per credit hour basis for part-time students. Students facing extraordinary circumstances, may request a *full* refund by sending a written justification to the Dean of Students. Requests for refunds of the Alumni, Health, Performance and/or Activity fees, only, must be sent to the department as indicated below. Components of the Undergraduate Comprehensive Fee are as follows:

- Activity (\$107.00) - This fee funds approximately 54 student organizations and clubs as well as student activities, educational programs and Student Association services. The student activity was voted to be mandatory by the student body in 2021 and is voted on every two years. The Student Association budget is allocated by the student government annually. For additional details, contact the Student Association at (585)245-5878 or contact the Student Association Director of Programs, Personnel and Finance by the end of the first month of the semester to request a refund of this fee. The Fee Review Committee will review all requests for the fee to be refunded.
- Athletic (\$278.50) - Support of intercollegiate athletic sports programs.
- Alumni (\$17.50) - Student activities related to career networking, traditions, school spirit and class affinity, and, upon graduation, lifetime membership to the SUNY Geneseo Alumni Association (SGAA) which gives students and graduates access to the alumni network, events, programs, career advisor platform and publications. Complete the Alumni Fee Credit Request Form by the second Friday of the semester to request a refund.
- Health (\$213.00) - health care provided by physicians, nurse practitioners and registered nurses, health education, mental health consultation, basic medications (over-the-counter and prescription), dressings, select medical laboratory services (*\$50 of this fee covers extended services including prescription medications, lab testing, immunizations and may be refunded by contacting Lauderdale Center for Student Health and Counseling* by the second Friday of the semester
- Performance (\$5.00) - In person and online musical, theatrical, and dance performances. Contact the Provost's Office to request a refund of this fee by the second Friday of the semester
- Technology (\$235.00) - Technology infrastructure, internet, wired and wireless networks, HelpDesk student support (including remote), classroom technology, learning management system (Canvas), library resources (including books, journals, and databases), printing services, computer labs, KnightWeb, software licensing (including Microsoft Office, LinkedIn Learning, Zoom, and other software licensing), performance venue technology, and emergency communications.
- Transportation (47.50) - Supports the student transportation program - shuttle bus service throughout campus, Village of Geneseo, local shopping center, regional shopping malls and City of Rochester.

Payment Policies - SUNY Geneseo Bills Electronically

College bills are emailed to the student's Geneseo email address and are due approximately three weeks prior to the beginning of a semester. Failure to make appropriate payment may result in the cancellation of advance course registrations. The next opportunity to register with appropriate payment would be at the onset of open registration. Subsequent bills are issued throughout the semester as needed. These bills are payable on or before the due date printed on the bill. Failure to meet the payment deadline will result in a late fee of up to \$50.00. Grades, transcripts, and future registrations will be withheld until full payment is received. Accounts that remain outstanding will be referred to a third party collector where additional collection costs and interest will be assessed.

Financial Liability Policies

When a student registers at Geneseo, they assume responsibility for paying all tuition and fees associated with their enrollment. Adjustments to these charges may occur if class(es) are dropped, or a student takes a leave of absence or officially withdraws from the College within the published deadlines.

The date used to determine financial liability for individual courses will be the date the student dropped the course(s) in KnightWeb. For the fall & spring semesters, if a student drops a course but remains enrolled in 12 or more credits (full-time), there will be no adjustment to charges. If you encounter problems with KnightWeb, please contact the Registrar's Office.

The date used to determine financial liability for a Leave of Absence or Official Withdrawal will be the effective withdrawal date recorded by the Office of Enrollment Management.

Students will not incur any financial liability for courses dropped before the start of an academic term. The College Fee is nonrefundable beginning on the first day of classes for the term. Tuition and the Comprehensive Fee will be adjusted as outlined in the schedules below.

Tuition & Comprehensive Fee

Withdrawal by the end of:

- First week: 0% liability
- Second week: 30% liability
- Third week: 50% liability
- Fourth week: 70% liability
- Fifth week and after: 100% liability

These are in accordance with SUNY policy.

Room Fee and Meal Plan

Withdrawal Date:

- Within the first half of the semester: 50% liability of Room fees
- After the first half of the semester: 100% liability of Room fees
- In the case of a withdrawal, or in accordance with NYS policy, a partial refund of meal plan may be applicable. If applicable, a refund will include the remaining retail dollars balance and prorated unlimited dining plan less a \$100 service charge until the midpoint of the semester. There will be no refunds offered after the midpoint of the semester.

These are in accordance with Residence Life and Campus Auxiliary Services. Please contact their respective offices with any questions or concerns related to these policies.

Special Refunds and Fee Waivers

In general, the Dean of Students is responsible for administration of extraordinary refund and fee waiver procedures involving all students, part-time or full-time. When students leave the College for reasons absolutely beyond their control, refunds stipulated in the SUNY Geneseo Refund Policy may be increased if the departure occurs before the middle of the semester. Under similar circumstances, refunds for room and board may be approved if the departure occurs at any time during the semester. Applications for exceptional withdrawal refunds are initiated with the Dean of Students, who may authorize refunds for extraordinary circumstances. Students must submit a letter to the Dean explaining the extraordinary circumstances causing the student withdrawal from school. Additional documentation may be required.

Other Waivers

Late registration fee waiver due to delay beyond a student's control: requests are made to the Dean of Curriculum and Academic Services, who has sole authority to authorize the Student Accounts Office to waive the fee.

Late payment fee waiver due to delay beyond a student's control: written requests are made to the Director of Student Accounts.

Meal plan considerations for medical reasons or extreme hardship: requests are made via the Meal Plan Modification Application available from the Director of Dining Services.

Return of Federal Financial Aid Policy

Federal law mandates how a school must compute the amount of federal financial aid that a student earns if he/she withdraws (officially or unofficially), takes a leave of absence, drops out of school, or is dismissed prior to completing 60% of the semester. Specifically, the amount of federal financial aid that the student earns is based on the percentage of the semester completed. All unearned federal financial aid must be returned. Careful consideration should be given to the financial ramifications of separating from the college prior to completing 60% of the semester. Additional information regarding this policy is available from the Office of Student Accounts.

Deposits

Tuition Deposit

All students who accept admission to the College must send an advance tuition deposit of \$150.00. Deposits may be paid on line or mailed to:

Office of Admissions
Doty Building
SUNY Geneseo
1 College Circle
Geneseo, NY 14454-1471

This amount is applied against the semester charge for tuition and fees.

Deadlines

Students who are entering in September, if notified of their admission:

1. by April 1, must submit the deposit by May 1; or
2. after April 1, must deposit within 30 days after receipt of such notification, but before classes begin.

Students who are entering in January, if notified of their admission:

1. by October 1, must submit the deposit by November 1; or
2. after October 1, must deposit within 30 days after receipt of such notification, but before classes begin.

Room Deposit

Students who intend to reside in College housing facilities must submit to the Office of Admissions an advance deposit of \$150.00 (in addition to the \$150.00 deposit for tuition and fees already described).

Deposit Refunds

Tuition Deposit Refund

The advance tuition deposit for new students (\$150.00) is refunded routinely:

1. for the fall term when a written request is received by May 1 or 30 days after admission, whichever is later, but before registration; and
2. for the spring term, when a written request is received by November 1 or 30 days after admission, whichever is later, but before registration.

In special cases, when a written request is received by the Director of Admissions after the deadline, a refund may be granted if:

1. in the opinion of the Vice President for Enrollment Management, upon receiving the Director's recommendation, the circumstances involved are beyond the student's control and warrant such action; or
2. the student forwarded the deposit based upon a conditional acceptance that was subsequently rescinded.

Requests for the return of tuition deposits must be received in the Office of Admissions by the dates indicated above.

Room Deposit Refund

The \$150.00 room deposit is applied against room rent for the first semester. It is refunded, if:

1. a written request is received before May 1 or 30 days after admission (for students entering in September) or before November 15 (for those entering in January); or
2. when received later, it is approved by the Director of Residence Life only because of circumstances entirely beyond the student's control.

All room deposit refund requests should be sent to:

Residence Life
MacVittie College Union 319
SUNY Geneseo
1 College Circle
Geneseo, NY 14454

To view and print a copy of an estimated personalized cost of attendance you can visit the SUNY Net Price Cost Calculator and select "Geneseo" from the dropdown. Additional financial information can be found at the NCES College Navigator site.

The SUNY Financial Aid Plan (FAP) will provide a more in-depth analysis and accurate picture of student cost once the student has filed their FAFSA, completed a SUNY application, and has been accepted by a campus.

Division of Student and Campus Life

Division of Student and Campus Life

The Student and Campus Life staff is responsible for the implementation of programs, policies, and services designed to create and sustain the optimal environment for student learning and achievement. Working collaboratively with the students and faculty, we aim to empower students to take responsibility for their education and to forge a sense of community on campus.

The Vice President for Student and Campus Life is the senior student affairs officer of the College. Organizationally, Student and Campus Life is made up of six departments: the Center for Community, Student Health and Counseling, Student Life, Intercollegiate Athletics and Recreation, Residence Life, and the University Police Department. (For further information, see [student_and_campus_life](#))

Center for Community

The Center for Community staff, led by the Dean of Students, is responsible for the following aspects of student life at Geneseo: Fraternal Life and Off-Campus Services, Student Conduct and Community Standards, Leadership Development, Student Volunteerism and Service, and Community Outreach and Student Employment Services.

The Center for Community works directly with students to assist them in adjusting to college life and to resolve problems and conflicts that may arise during their undergraduate careers. In addition, the Dean's staff works with students to interpret College policies and decisions, mediate conflicts, investigate complaints, and assure full access to all opportunities offered by the College. (See c4c.geneseo.edu)

The Coordinator of Fraternal Life Services is responsible for promoting and supporting an educationally purposeful Greek life program consistent with the mission and goals of the College. The Coordinator serves as advisor to the Inter-Greek Council and Multicultural Greek Community and as a liaison between the College and all College recognized Greek organizations. The Assistant Dean also sponsors services and programs designed for Geneseo students who live off-campus. In this capacity, the Assistant Dean helps to further advance and support relations between the College and the Geneseo community; integrate on- and off-campus student living; serve as a College liaison with community groups, service groups, landlords, retailers and local business groups, and College neighbors; and develop educational programs and resources for students considering moving off campus. (See greeks.geneseo.edu and offcampus.geneseo.edu)

Geneseo is a residential college and living on campus is considered to be a significant component of the Geneseo educational experience. The College does not recommend or inspect off-campus housing facilities. All students, regardless of residence, are required to notify the Office of the Registrar of their current local address.

The Assistant Dean of Students for Student Conduct and Community Standards works with the Dean of Students to coordinate the College's conduct system. Membership in the Geneseo community is predicated on each student's agreement to abide by standards of conduct promulgated by the College. The College's conduct process provides an educational framework for addressing individual student and group conduct that may be found to be inconsistent with community standards. (See conduct.geneseo.edu)

The Assistant Dean for Leadership and Service provides students with opportunities for community engagement, and to acquire and enhance their leadership skills through developing an understanding of self, others, and community. GOLD (Geneseo Opportunities for Leadership Development) programs include a Leadership Certificate Program offering approximately 200 leadership workshops each semester, a Leadership Center staffed by volunteer leader mentors, an extensive leadership resource library, leadership conferences, peer-to-peer student leader training, and newsletters. (See gold.geneseo.edu)

The Director of Student Volunteerism and Community Engagement seeks out, develops and maintains volunteer opportunities that offer Geneseo students meaningful experiences that develop character, and augment academic growth through experiential learning. Some of the most popular volunteer opportunities include tutoring and youth mentoring. The Director hosts a Volunteer Fair at the start of each semester to introduce students to the available volunteer opportunities and to assist various community organizations with securing needed volunteers. (See volunteer.geneseo.edu)

The Community Outreach Assistant and Student Employment Service (SES) coordinator assists with civic engagement (including voter registration and the on-campus polling site, and assists students seeking part-time and summer jobs and paid internship opportunities. (See ses.geneseo.edu).

Department of Student Life

Geneseo achieves its educational mission by combining a rigorous curriculum with a rich co-curricular life. The student life experience at Geneseo is intentionally educational, and fosters widespread, substantive student engagement in carefully designed, developmentally based programs and services. It is the intention of the Department of Student Life to provide and to identify opportunities for students that result in increased learning, greater self-awareness and a clearer sense of purpose. As a department in the Division of Student and Campus Life, Student Life administers the

MacVittie College Union, and selected co-curricular educational and assessment initiatives. Opportunities for student engagement and learning within the department include the all-college hour speaker series, Geneseo Late Knight orientation, student organizations, Upstate Escapes, the Victor E. Knight mascot program, and Weeks of Welcome, as well as a number of student leadership and applied learning opportunities. We pursue ways to collaborate with Geneseo students, faculty and staff to support our students as they pursue their individual educational goals by challenging students to better themselves, demonstrating an ethic of individual care, and building a strong, vibrant campus community. (See www.geneseo.edu/student_life)

Robert W. MacVittie College Union

The Robert W. MacVittie College Union serves as the campus center of social, cultural, recreational, and student governance programs. As the "College gathering place," it provides a place to study, relax, or visit with friends with plenty of lounges, meeting rooms, and an outdoor plaza. Services include Starbucks, the Corner Pocket game room, the campus mailroom, the College Union concierge desk, the Geneseo Federal Credit Union, computer project area, study room, the Student Association Ticket Office, ATM services, Kinetic art gallery, Geneseo bookstore, Fusion Market, Student Association and organizational offices, Student Life, and the Center for Community. The "MOSAIC" (Multicultural Organization Space for Activities, Inclusion, and Collaboration) is a space that provides multicultural student organizations with dedicated meeting space for their weekly meetings, organization office space, and a place for students to gather and spend their free time. The lobby is a popular place for student organizations to "table" and advertise upcoming entertainment or offer promotional items or services.

Student Organizations

A college registered Student Organization at SUNY Geneseo is any student-driven group whose primary membership and entire leadership consists of students currently enrolled at SUNY Geneseo and who are paying the mandatory student activity fee; is formed in order to contribute to the students' personal development and the advancement of the College Mission; non-credit bearing; and is officially registered with the Department of Student Life. Registration does not imply College endorsement of the positions and views of any organization. Rather, it implies that the institution accepts the organization's mission as educationally valid and that the organization has complied with institutional registration and continuing registration procedures. Student groups that are formed and sponsored by academic and administrative departments, in the pursuit of research, administrative activities and academic endeavors, are not considered college registered student organizations. Policies and Procedures for Student Organizations have been established as helpful guidelines and to acknowledge the integral role these groups play in the broader learning community. The department maintains the Student Organization handbook. More information is available elsewhere in this Bulletin under sections entitled "The Student Code of Conduct" and "Conduct Procedures for Recognized Student Groups" titled sections. (See www.geneseo.edu/student_life/student-organization-directory)

Resident Life

The SUNY Geneseo Department of Residence Life, in partnership with our residents, promotes an inclusive living and learning environment that fosters well being and encourages engagement for all students who live on campus. Residence Life operates 16 residence halls and a townhouse community. Each hall accommodates an average of 200 students. All undergraduates are assured of the opportunity to live on campus, and all students who begin their college studies at Geneseo are required to live on campus for two years. Commuting students and transfer students who have completed a full year of full-time study at another college are exempt from this requirement. Each residence is

supervised by a Residence Life professional and a staff of undergraduate Resident Assistants. These staff members guide students through their lives at Geneseo, provide information on and maintain College policies and procedures, and promote involvement in residence hall governance. Residence Life administers selected co-curricular educational and assessment initiatives within the residential experience. Opportunities for student engagement and learning within the residence halls include the living-learning communities and residential college houses, as well as student leadership and applied learning opportunities. Our trained Residence Life team members pursue ways to collaborate with Geneseo faculty and staff to support our residents as they pursue their individual educational and personal goals. BY providing challenges to better themselves, demonstrating an ethic of individual care, and building a strong, vibrant campus community, we hope to make a long-lasting positive impact on the lives of our students. Students who reside in campus residence halls, excluding townhouse residents, are required to purchase a College meal plan. Students who wish to reside in a campus residence are required to reapply each year and pay a deposit to secure a room at the announced time(s) during the year. While room charges are assessed by the semester, the term of occupancy and financial obligation to the College is for an entire academic year. Obligations may be cancelled for specific reasons such as graduation, withdrawal, and dismissal. All requests for release from housing (obligation) require the approval of the Director of Student Life.

Residence Hall Policies

Residence Hall Policies: All policies and procedures for resident students have been established based on the College's expectations for high academic achievement and the common good. All resident students must abide by Geneseo's residential license. The license serves as the official housing agreement between the student and the College. All Geneseo students, whether residents or commuters, are expected to comply with residence hall standards and the Student Code of Conduct, including the policies related to visitation, guests, and alcohol. (See www.geneseo.edu/campus_living)

Intercollegiate Athletics and Recreation

The Intercollegiate Athletics and Recreation staff coordinates all intercollegiate athletic programs, intramural sports, College-sponsored recreational activities and the College Workout Center.

Intercollegiate Athletics

Geneseo sponsors 21 intercollegiate sports, 8 for men and 13 for women. These sports are men's and women's soccer, cross-country, basketball, swimming and diving, indoor and outdoor track and field, and lacrosse; women's field hockey, volleyball, softball, tennis, equestrian, women's golf and, men's ice hockey. Geneseo is a member of and competes in the National Collegiate Athletic Association (NCAA) Division III, State University of New York Athletic Conference (SUNYAC). (see geneseoknights.com)

Intramural Sports

More than 40 different activities are offered each year in men's, women's and co-ed competition, enabling students to choose the activities and levels of competition they desire. Teams, some of which represent residence halls and Greek organizations, compete in such sports as flag football, soccer, softball, volleyball, basketball, and broomball. Dodgeball and racquetball are also popular intramural activities. Off-campus outings for downhill skiing, white water rafting, and trips to a Buffalo Bills football game, Rochester Americans hockey game and Syracuse basketball are all popular activities. Nearly 80% of Geneseo's students participate in at least one intramural activity before graduating.

Club Sports

The Student Association sponsors a number of club sports teams under the auspices of the Club Sports Association (CSA). Teams include men's and women's crew, men's volleyball, ultimate frisbee, cheerleading and men's tennis, badminton, men's and women's rugby, men's baseball, and ski team.

Intercollegiate Athletics and Recreation Facilities

The facilities in the Schrader Building and Merritt Athletic Center are available to students for formal and informal athletic and recreational pursuits. These facilities offer two gymnasiums, a swimming pool, racquetball courts, an ice arena with an indoor jogging area and a state-of-the-art workout center. Outdoor facilities include eight tennis courts, an all-weather, eight lane 400-meter track, and playing fields for soccer, lacrosse, softball, and other individual and group sports.

Workout Center

The College's Workout Center provides students with state-of-the-art fitness equipment including two complete Nautilus Circuits, over 30 cardio machines, and extensive free weights. Cardio machines include: Lifefitness Crosstrainers, recreational treadmills, Stairmasters, electronic bikes, Concept II rowers. The Center offers students access to equipment, advice on fitness and nutrition programs, aerobic dance classes, yoga, kickboxing and a great opportunity for promoting a healthy lifestyle. The Workout Center is located in the lower level of the Merritt Athletic Center. (See knights.geneseo.edu)

Lauderdale Center for Student Health and Counseling

The Lauderdale Center for Student Health and Counseling provides non-emergency outpatient medical and psychological care to all currently enrolled Geneseo students. Geneseo students can visit student Health and Counseling for a variety of health-related issues, including physical, emotional, and sexual health concerns, and to learn about ways to maintain a healthy lifestyle. These services are delivered by licensed health care professionals who are dedicated to meeting the specific needs of college students. Student Health and Counseling follows ethical and practice guidelines mandated by New York State, the Accreditation Association for Ambulatory Health Care, Inc., the American College Health Association and the American Psychological Association. (See health.geneseo.edu)

Health Services

Health Services offers routine primary care services such as physical exams, diagnosis and treatment of non-emergency health problems common to college students, management of chronic conditions and consultation on health issues. Health Services dispenses prescription medications and has over-the-counter medications available in the Self Care Center. Health Services staff may refer students off-campus for more specialized diagnostic services (including x-ray) or treatment. Health Services does not take the place of a hospital or emergency room in the case of a potentially life-threatening condition. Since there is more to maintaining a healthy campus than just taking care of ill students, wellness programs and health consumer education are offered by our providers and through the Office of Health Promotion. Located in Lauderdale Health Center, Health Services is open. Located in Lauderdale Health Center the hours of operation for Health Services can be found on their website (See geneseo.edu/health) Telephone consultation with a registered nurse is available any time Health Services is closed by calling the Nurse Advice Line at 245-5736. To schedule appointments, students can call 245- 5736 or schedule online at myhealth.geneseo.edu.

Counseling Services

Counseling Services provides short term counseling to Geneseo students who are experiencing a range of challenges in their lives. In addition to individual therapy, other services include consultation, crisis intervention, and referrals. Counseling also offers outreach programs, including the Healthy Bodies, Healthier Minds series through GOLD as well as workshops and groups such as RIO (Recognition, Insight, and Opportunity), LOTUS (adult children impacted by parental substance use) SMART Recovery, Mindfulness-Based Relapse Prevention, and CALM, a mindfulness-based stress reduction series. Counseling Services is open (See geneseo.edu/health). To request an appointment (See myhealth.geneseo.edu), students should complete the online form through their health portal.

Medical History and Immunization Requirements

All students are required to complete their Medical History along with several other brief forms at the health portal myhealth.geneseo.edu prior to beginning classes. The physical examination and immunization are to be completed by the student's health provider and uploaded to their health portal. The pre-enrollment physical cannot be completed at Health Services. New York State law mandates that all students show proof of immunizations against measles, mumps, and rubella in order to be registered. State law also requires that students either receive the vaccination against bacterial meningitis, within the last 5 years, or sign a statement indicating that they have declined the vaccination. In keeping with recommendations of the New York State Department of Health and American College Health Association, we strongly encourage students to receive immunization against bacterial meningitis. Students who do not present proof of required immunizations within 30 days of matriculation risk being dis-enrolled from the College. Exemptions for medical and religious reasons are allowed (under specific circumstances) under the law. Students seeking additional information on exemptions should contact our EMR Technical Specialist at immunization@geneseo.edu or 585-245-6453.

Health and Counseling Records

All Student Health and Counseling records are confidential and maintained with the strictest care to ensure students' right to privacy, and are not part of students' academic records. Information from students' health and counseling records is not shared with anyone outside the department without their express permission, except in cases of imminent danger or as mandated by law.

Health Insurance

Because Student Health and Counseling sometimes refers students off-campus for services, we strongly encourage students to have adequate health insurance. Be sure to check to see if you are covered by your family's plan and if out-of-area services are covered: Full-time students up to age 26 may be covered by a parent's or family member's private health insurance policy- be sure to check whether coverage extends to the Geneseo and Rochester areas. If you have other insurance specific questions or need assistance with the process, please call our local contact: Cindy Wagner, navigator for Coordinated Care Services, Inc. Appointment line (585)-613-7662 or cwagner@ccsi.org. PLEASE NOTE: Most services within Student Health and Counseling are covered by the Student Health Fee, which is mandated as part of each student's tuition and completely different from private health insurance coverage. If you do not currently have private health insurance coverage, you can contact New York State of Health for more information about family or individual health insurance. <https://nystateofhealth.ny.gov/> If you have other insurance specific questions or need assistance with the process, please call our local contact: Cindy Wagner, navigator for Coordinated Care Services, Inc. University Police Department

The University Police Department at SUNY Geneseo seeks to develop and maintain a positive relationship with all members of our community and to effectively serve and support community oriented approach to law enforcement. The department is committed to the prevention of crime and the protection of life and property, the preservation of peace, order and safety while enforcing the law and ordinances and safeguarding constitutional guarantees. The objective of the community policing based philosophy is to sustain a safe and secure campus environment which works in support of the overall educational mission of the institution. This is done through establishing annual goals that are designed to enhance quality of life for all members of the community. In an effort to cultivate positive police community relations we seek to establish close working relationships with the faculty, staff and students to obtain their input with regard to their concerns for safety, security and educational community outreach programs. The University Police Department at SUNY Geneseo remains committed to the College, the Division of Student and Campus Life and the overall mission of the institution.

As sworn officers, University Police are responsible for the safety and security of students, faculty, staff, and visitors of the campus. Services provided by the Department include; but are not limited to, overall campus patrol, responding to calls for service, maintenance of public order, emergency first-aid, criminal investigation, community services, crime prevention, and parking and transportation services. The University Police Department works closely with student volunteers who serve the community as emergency medical responders.

Student Code of Conduct

Refer to handbook.geneseo.edu for new and updated information. Click on Student Code of Conduct on left side of the page.

Family Educational Rights and Privacy Act (FERPA)

Students at Geneseo have the right to expect that information accumulated for the purpose of facilitating their education will not be used for any other purpose without their consent.

The College records policy, revised for detailed conformity with the Family Educational Rights and Privacy Act of 1974, permits current or former students to inspect college educational records pertaining to them as individuals, and except as defined below, to obtain copies for a fee. Students are also accorded the right to question the content of a record and to receive a formal hearing if dissatisfied with responses to such questions.

Written consent from a student is required before personally identifiable information can be released from the individual educational record in all cases except those specifically exempted by law.

There is certain directory information which the College may release without the student's permission: the student's name, local address, electronic mail (e-mail) address, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, photographs, and the most recent previous educational agency or institution attended by the student. However, a student may prevent the release of such information by writing to the Dean of Students before the first Friday of each semester.

The full College policy and procedure for exercising student rights under this law are available from the Dean of Students, or on-line. Inquiries or complaints may be filed with the Family Educational Rights and Privacy Act Office, Department of Health and Human Services, 350 Independence Avenue, S. W., Washington, DC 20201.

Campus Auxiliary Services (CAS)

Campus Auxiliary Services (CAS)

Campus Auxiliary Services, simply known as CAS, is a not-for-profit educational corporation operating a variety of campus services for the Geneseo College community. A Board of Directors comprised of students, faculty, and administrators determines the budget and policies of the Corporation within the guidelines established by SUNY Systems Administration.

These services include on-campus restaurants and cafés, catering, vending, residential laundry services, campus ID cards, refuse and recycling, accounting services to approved campus organizations, and a host of other services. CAS also subcontracts Geneseo's official textbook store, the Geneseo University Bookstore.

Geneseo University Bookstore

The Geneseo University Bookstore is located in the MacVittie College Union and is the official source for all campus academic textbooks. The bookstore also sells Geneseo imprinted clothing and souvenirs, class rings, academic attire, and academic supplies.

CAS Restaurants & Cafes

CAS provides all food service to the college campus at eight on-campus restaurants and cafes. CAS offers three unlimited dining locations spread throughout campus, Red Jacket on the south side, Mary Jemison on central campus, and Letchworth on the north side of campus. Other retail locations where customers can find a quick bite or snack on the go throughout campus include 1871 Café, Jack's, Mary's, Starbucks, and Market North. CAS also offers Squire Express, an on-campus delivery service offering freshly made salads, flatbread sandwiches, and traditional pizza and calzones.

Meal Plan

All campus resident students are required by College policy to purchase one of several meal plans. The CAS culinary team creates options that are fresh, healthy, and local. At the same time, the Nutrition and Wellness Manager ensures plenty of options for customers with special diets and dietary restrictions. With the freedom the meal plans offer, students can dine at various restaurants and cafés from 7:30 a.m. until 11:00 p.m. CAS offers three on-campus unlimited dining meal plans and five meal plans for off-campus students. You can view all meal plan options at geneseo.edu/cas/meal-plans.

Geneseo ID Card

CAS produces the official College identification card for all students, faculty, and staff. This card acts as your meal card, residence hall access card, and library card, as well as general identification for building security, sporting, and entertainment event purchases and admittance, and more. Learn more about ID cards on the CAS website.

Advancement

Office of Advancement

SUNY Geneseo Alumni Association

The SUNY Geneseo Alumni Association (SGAA) connects more than 63,000 Geneseo alumni with the College through inclusive experiences, engagement opportunities, and communication. The SGAA is led by a Board of Directors that increases alumni participation and involvement by inspiring alumni to advance the mission of the College and expand the Geneseo network. The Board works in collaboration with Alumni Relations and key partners to support the mission, vision, and values of the College.

The Geneseo Foundation was created in 1971 to generate private support for SUNY Geneseo. The Geneseo Foundation is a private 501 (c) 3 tax exempt charitable organization that receives and stewards private gifts from alumni, parents, friends, foundations and corporations to benefit students, faculty and programs at Geneseo. The Foundation provides scholarships, undergraduate research grants and assistantships for students; research and travel grants, and enrichment funds for academic departments, athletics and campus programs. The Foundation receives oversight from a volunteer Board of Directors that is responsible for overseeing the Foundation's operations, establishing gift policies, managing its endowment and stewarding donations to the College. The board's 31 members are comprised of individuals committed to strengthening the College through private support. The Vice President for College Advancement serves as the Foundation's Executive Director.

Scholarships and Awards

Please visit the Scholarship page on the Geneseo Foundation web site go.geneseo.edu/scholarships for detailed information about the scholarships and awards listed in this section.

Enrollment Management & Admissions

geneseo.edu/admissions

Enrollment

The Enrollment Management Division includes the Office of Undergraduate Admissions, Graduate Admissions, and Financial Aid. The departments work in unison to support students throughout the admissions and enrollment process, from prospect through graduation. Our approach is collaborative, comprehensive, and most importantly, student-centered.

Admissions

Admission to the College is based upon the academic and personal qualifications of applicants and is granted without regard to age, color, disability, marital status, national origin, sex, sexual orientation, religion, race, or status as a disabled or Vietnam-era veteran.

Application Procedures

Applications for admission to the College may be accessed online.. Electronic applications are preferred. Applications should be completed by March 1 for fall semesters and November 1 for spring semesters.

Interviews

Personal interviews are not required for admission but are encouraged. However, for prospective students and their families who have questions and would like to speak to an admissions counselor, the Office of Admissions schedules appointments between 8:30 a.m. and 3:30 p.m., Monday through Friday. Admissions Counselors also offer virtual appointments. Campus tours and information sessions are conducted daily and on most Saturdays during the year. Prospective applicants are encouraged to make appointments for interviews and tours at least two days in advance of their visit to campus. Appointments may be scheduled by calling the Admissions Office at 585-245-5571 or 866-245-5211. Visitors may also schedule themselves for a tour on the Tour and Events Calendar on the Admissions website at geneseo.edu/admissions.

First Year Admission

Applicants for admission to the first year class must present official copies of their high school transcripts showing all courses completed and grades earned. High school graduation or completion of a high school equivalency diploma is a minimum requirement for admission consideration.

The admissions application review process emphasizes a holistic review that considers environmental factors. The committee considers a number of factors when selecting students for the first year class, including the strength and rigor of each candidate's academic program, performance on examinations, improvement in performance, rank in class, core GPA, unweighted grade point average, a written essay, letters of recommendation and extracurricular accomplishments.

Application Deadlines

- Early Action: November 15 for fall admission (N/A for spring)
- First-Year: Preferred March 1 for fall admission, Dec. 1 for spring
- Transfer: Rolling deadline for fall and spring admission

Application Decisions Rendered

- Early Action: December 15 for fall admission (N/A for spring)
- First-Year students: Early March for fall admission, and then rolling.
- Transfer: Rolling decisions for fall and spring admission

Special Talent Admission

Special consideration may be given to candidates who present evidence of a talent or proficiency in athletics, music, theatre, or another area that would enable them to make a special contribution to enriching the life of the campus. The Committee on Admissions will consider an individual's special talent in conjunction with standard selection criteria. Additional information may be obtained from the Director of Admissions.

International Student Admissions

The College invites applications from students from other countries. Because the College offers limited instruction in English as a foreign language, candidates must demonstrate competence in both written and spoken English. In most cases, candidates must submit equivalent examination proof of English Proficiency along with a complete record of their secondary school and any college coursework. International students must submit a completed application with all required supporting documents by the posted deadlines.

Transfer Admission

Candidates who have completed credit from another accredited institution of higher education after high school graduation by the time of their initial enrollment at Geneseo are considered transfer applicants. Admission of transfer applicants is based on the academic rigor, appropriateness of content of previous college studies, the student's level of success in that work and academic trends on a semester-by-semester basis.

All transfer applicants must provide copies of their high school transcripts and all college transcripts; the Committee on Admissions will consider all records when selecting candidates. Additional items that can be requested in the review process may include mid-semester grades, statement of activities, or an essay. Most successful transfer candidates will have a 2.5 grade point average (on a 4.0 scale) or higher.

Transfer candidates are considered for admission on a rolling basis, and many therefore apply at any time. Although we will accept and review applications at any time, it is recommended that transfer students apply for the fall semester by March 1; or the Spring semester by November 1.

International Student and Scholar Services Office

The International Student and Scholar Services Office, located in Doty 200, is responsible for the recruitment, credential evaluation and admission of students from other countries. Prospective students considering undergraduate admission who are not U.S. citizens or Permanent Residents should contact the Director of International Student and Scholar Services for appropriate application materials. Application information for international students is also available on the office's website: www.geneseo.edu/international.

In addition to the recruitment and admission of international students, the International Student and Scholar Services office acts as the primary liaison between the College and the U.S. Department of Homeland Security and U.S. Department of State. The International Student and Scholar Services Office issues the required documentation (I-20 and DS-2019) for students seeking F1 and J1 visas to study at SUNY Geneseo. The office is responsible for all visa-related advisement of international students and scholars including but not limited to visa applications, employment authorization, extension of study, reinstatement of status, change of status, etc. Additionally, the ISSS Office assists visiting professors and research scholars.

Furthermore, the ISSS Office offers programming such as the International Student Orientation, workshops, International Education Week, and more. For more information, visit the office's website at: geneseo.edu/international.

Leaves of Absence

General Leave of Absence

Students who have an overall grade point average of at least 2.00 and who have no outstanding obligations to the College are eligible to take a Leave of Absence from their studies for up to two semesters and retain the right to enroll at the College at the end of the Leave preserving their original catalog year and without applying for readmission.

If a student wishes to take a Leave during a semester in progress, an application must be filed before the published course withdrawal deadline to receive grades of "W"; if a student applies for a Leave after this deadline, grades of "E" will be recorded in all courses.

Application forms for Leave are available on-line at geneseo.edu/enrollment-management for download. Completed application forms should be submitted to Erwin 105.

Students who leave campus to study abroad or at another college may have to take a Leave of Absence, depending on the type of program in which they enroll. (See "Studying at Other Colleges.")

Students on Leave of Absence who fail to return or to fulfill their obligations to the College will have their status changed from Leave of Absence to Administrative Withdrawal. (See below.) If they are readmitted to the college after being placed on Administrative Withdrawal, they return under the catalog of the year of their readmission.

Medical Leave of Absence

Students who, for documented medical and psychological reasons, cannot complete a semester or need to take one or more full semesters' leave from the college, may apply for a medical leave of absence if their GPA is below the requirements of a general leave of absence or the withdrawal deadline has passed. A medical leave of absence allows students to return to Geneseo after time away without needing to apply for readmission, with approval by the Dean of Students.

Students who are granted medical leaves of absence during a semester will receive grades of "W" for all of their courses, even if the start of their leave is past the withdrawal deadline.

To apply for a medical leave of absence, students must submit documentation from a licensed health care provider, such as a physician, psychiatrist, psychologist, or licensed counselor. Health and Counseling staff will review all medical documentation and make a recommendation to the Dean of Students. Granting medical leaves of absence is the responsibility of the Dean of Students. Steps to complete an application for a medical leave can be found at: http://www.geneseo.edu/dean_students/steps-medical-leave-absence

Return from a medical leave of absence must be approved by the Dean of Students. Requests to return are due no later than the Friday of the first week in August or the Friday of the first week in January prior to the first day of classes in a new semester. Students may not register for classes until their return is approved. To return to campus, the student must comply with any recommendations given for treatment at the time of medical leave.

Students on a medical leave of absence may study at other colleges during their leave as non-matriculated students. Students are responsible for having courses they wish to transfer to Geneseo approved by the Dean of Academic Planning and Advising.

Forms to request medical leaves of absence, and extended directions for requesting such leaves, are available on the medical leave of absence policy page of the Geneseo website.

Leaves and Financial Aid

There may be financial implications of taking any leave of absence. Contact the Office of Student Accounts about the College's refund deadlines and schedules. Financial aid recipients should contact the Office of Financial Aid to discuss the impact on current and future aid eligibility.

Withdrawing from the College

Students who wish to leave the College permanently must formally withdraw. Students who are not eligible for a Leave of Absence or who wish to be absent for longer than two semesters must withdraw from the College and apply for subsequent readmission. To withdraw, students file an application to Erwin 105, and demonstrate that all financial and other obligations to the College have been cleared.

Students who wish to withdraw from the College at the end of a semester must file the appropriate form prior to leaving campus. The deadline for withdrawal from the College during a semester in progress is the published deadline for course withdrawals to receive course grades of "W"; students in academic difficulty who process withdrawal requests after the deadline can still be academically dismissed; a dismissal takes precedence over a withdrawal.

Financial Aid

The Office of Financial Aid administers state and federal financial aid programs, including grants, loans, and work study. To be considered for financial aid, students must file the Free Application for Federal Student Aid (FAFSA). Go to <https://studentaid.gov> to complete the Free Application for Federal Student Aid (FAFSA) and list Geneseo's federal school code - 002845. Students that are NY State residents should also complete a NYS Tuition Assistance Program (TAP) application at <https://www.tap.hesc.ny.gov/totw/>. Prospective early action applicants should apply by November 15 and will receive financial aid notices beginning in mid-December; regular decision candidates should apply by February 1 and be notified in March. Continuing students should apply by February 15 and be notified in late-April.

Federal Financial Aid Programs

Federal Pell Grant

Pell is an entitlement program for undergraduates matriculated in a degree program. Awards are based on need and may be used for college-related expense. For 2022-2023 the maximum award is \$6,895. The minimum Pell grant award is \$692. Students are limited to 12 semesters of Federal Pell Grant eligibility during their lifetime or may be awarded up to the first bachelor's degree, whichever comes first.

Federal Supplemental Educational Opportunity Grant

This program provides additional grant assistance to the highest need Pell Grant recipients. Preference is given to early FAFSA filers. Funds are limited.

Federal Work-Study Program (FWS)

This work program is for students demonstrating significant financial need and primarily includes positions on campus. Whenever possible, placements are made in accord with students' educational/vocational goals. Students typically can earn approximately \$1000 per semester. Preference is given to early FAFSA filers.

Federal Direct Subsidized Student Loan

This federal, need-based subsidized loan is available to undergraduate students only. Loan eligibility is determined by the college, based on costs and the results of the FAFSA. This low interest loan becomes payable once the student graduates, withdraws, or drops below 6 credit hours.

Federal Direct Unsubsidized Student Loan

This loan is available to all eligible undergraduate and graduate students, regardless of income and expected family contribution. The unsubsidized loan's terms and conditions are the same as the subsidized loan, except that interest accrues on this loan while the student is enrolled. Please refer to the Office of Financial Aid website for more information.

Federal Direct Parent Loan for Undergraduate Students (PLUS)

This loan will allow parents of dependent students to borrow up to the cost of education minus other financial aid. Parents may borrow each year that a dependent student is in college. The interest and principal payments for the loan begin after the funds are disbursed. Parents may request a forbearance to avoid making payment while the student is enrolled. Complete details are available from <https://studentaid.gov/>.

Veterans' Administration

Eligible veterans and children or spouses of eligible deceased or service-connected, disabled veterans may be eligible for aid for approved post-secondary study. Information and application forms are available at all Veterans' Administration Offices.

Bureau of Indian Education

The U. S. Bureau of Indian Education's Higher Education Grant offers "supplemental financial assistance to eligible American Indian and Alaska Native scholars..." Awards vary based upon need and availability of funds. More information is available through students' tribal leaders and at www.bie.edu.

New York State Financial Aid Programs

Tuition Assistance Program (TAP)

TAP is a grant program for New York State residents attending approved colleges in the State. Students must apply annually for this grant using the Free Application for Federal Student Aid (FAFSA) and the NYS Student Aid Payment Application (also known as the TAP application). TAP award amounts are based on New York State net taxable income and the number of family members attending college full time. Awards range from \$500 to \$5665 for up to eight semesters of full-time study. TAP recipients also receive a SUNY Tuition Credit, an additional grant based on the TAP award amount, intended to assist students in covering tuition increases. In addition to TAP, the State of New York offers 15 other scholarships and awards. Information is available at www.hesc.com.

Excelsior Scholarship

NY State residents who meet the income and academic criteria of the Excelsior Scholarship may qualify for a scholarship up to the cost of tuition. For more information on Excelsior or to apply go to www.hesc.ny.gov.

Educational Opportunity Program (EOP)

EOP admits undergraduate students who are academically and economically disadvantaged as defined by program guidelines. EOP awards annual grants to students in the program. EOP is available only to New York State residents. The FAFSA form is used to determine financial eligibility. Contact SUNY Geneseo's Access Opportunity Program Office at (585) 245-5725 with specific questions.

New York State DREAM Act

The **New York State Dream Act** gives undocumented students and students whose parents have recently moved out of New York State access to New York State-administered grants and scholarships (such as TAP and the Excelsior

Scholarship) that support their higher education costs. For more information or to apply, please go to www.hesc.ny.gov.

Geneseo Scholarships

All students accepted for freshmen and transfer admission are automatically considered for scholarships by the Office of Financial Aid. Continuing students must submit an online application to be considered for Geneseo Foundation Scholarships. The online application opens on or around February 1st for the next academic year. Continuing students looking for assistance for a study abroad program should contact the Study Abroad Office for scholarship opportunities.

Satisfactory Academic Progress (SAP) for Financial Aid

Students must meet prescribed standards of academic progress in order to continue to receive Federal and State financial assistance in subsequent semesters. Compliance with State standards is reviewed each *semester*; Federal standards are reviewed *annually* after the spring term.

Below are the criteria used to assess state academic progress.

This chart should be used for students who first received TAP in 2010-2011 or later.

End of Semester	1	2	3	4	5	6	7	8	9
Required Sem. Hrs.of Graded (non-W's) credit	6	6	9	9	12	12	12	12	12
Required Minimum Cumulative Hrs. Earned	6	15	27	39	51	66	81	96	111
Minimum Cumulative Grade Point Average	1.50	1.80	1.80	2.00	2.00	2.00	2.00	2.00	2.00

This chart should be used for students in the Educational Opportunity Program (EOP), and those who first received TAP prior to 2010-2011.

End of Semester	1	2	3	4	5	6	7	8	9*
Required Sem. Hrs.of Graded (non-W's) credit	6	6	9	9	12	12	12	12	12
Required Minimum Cumulative Hrs. Earned	3	9	21	33	45	60	75	90	105
Minimum Cumulative Grade Point Average	1.10	1.20	1.30	2.00	2.00	2.00	2.00	2.00	2.00

**Students may only receive 8 semesters of TAP. The only exception is students in the Education Opportunity Program (EOP) who may receive up to 10 semesters of state aid.*

Failure to Meet State Standards

A student who fails to meet the academic standards for NYS financial aid will be notified by mail. Notices will be sent upon completion of the term once grades are submitted and reviewed.

Reinstatement of State Eligibility

Students who lose their eligibility for New York State financial aid for failing to meet the standards listed above may apply to have their State financial aid eligibility reinstated. If approved, state aid will be reinstated. Such a waiver can be granted only one time in a student's undergraduate academic career. In order to apply for an appeal (see Appeal Process), the student must demonstrate that an unusual/extenuating circumstance existed while the student was enrolled at SUNY Geneseo and had affected his/her academic performance; that the circumstance is now resolved or no longer exists; and provide documentation of the circumstance.

Federal Financial Aid Standards of Academic Progress

Federal financial aid regulations assess progress on using three criteria - Pace, Grade Point Average (GPA), and Maximum Timeframe.

Pace of Progression

A student's pace is calculated by dividing the number of hours earned by the total number of hours attempted.

- A student must complete at least 67% of all cumulative attempted credit hours to continue receiving federal student aid.

Grade Point Average

- To maintain eligibility for federal aid, a student must earn a minimum 2.0 Cumulative GPA.

Maximum Timeframe

- Federal aid cannot be paid to a student who exceeds 150% of the published length of the degree program (120 credits).

All credits attempted at SUNY Geneseo, even terms in which the student did not receive financial aid, are included in attempted credits including all W, I, E, F and U grades. Transfer credits accepted by SUNY Geneseo will be included as both credits attempted and credits completed. Transfer credits not accepted are not considered. Withdrawals are also included in the attempted credits calculation. Repeat courses are counted once. Note: Students receiving financial aid should consult the Financial Aid Office before repeating a course; repeating courses may have an impact on financial aid eligibility.

Failure to Meet Federal Standards

Financial Aid Suspension

If a student fails to maintain satisfactory academic progress for federal aid, the student will be placed on Financial Aid Suspension. Students on suspension are not eligible for federal financial aid. This includes grants, loans and work study.

Reinstatement of Federal Eligibility

The College may consider exceptional circumstances which would justify an appeal allowing the student to receive financial aid for the following semester. Students who wish to appeal should follow the instructions under the Appeal Process below.

Appeals for federal aid will result in one of three decisions:

- **Financial Aid Probation** - A student whose appeal is granted will be put on Financial Aid Probation and will regain eligibility for federal aid. If after the next semester the student still does not meet the SAP standards, they will be ineligible for further aid until they do.
- **Financial Aid Probation with an academic plan** - A student whose appeal is accepted who will not be able to regain satisfactory academic standing in one semester will be placed on Financial Aid Probation with an

academic plan. Plans will vary depending on academic record. Upon completion of a semester on an academic plan, a student must meet all terms of their individualized plan. If they do not, they will be ineligible for further aid until they are meeting the academic standards for federal aid.

- **Appeal denied/Loss of Eligibility** - If an appeal is denied, the student will be ineligible for further aid until they meet the SAP standards.

Appeal Process

An appeal is the process by which a student who is not meeting SAP standards petitions the school for reconsideration of their eligibility for student aid. Appeals will be granted in accordance with the following policy:

An appeal for federal and/or state aid will be granted if situations beyond the student's control prevent the student from maintaining satisfactory academic progress. These situations must be documented by an unbiased third party or on- or off-campus agencies. The appeal will be granted only when there is reasonable expectation that the student will meet future academic requirements. Students who failed to meet academic standards and have since taken coursework that brings them into good academic standing may appeal to have their eligibility re-evaluated.

Reasons appeals may be granted include:

1. personal medical problems
2. family medical problems
3. severe personal problems
4. other extenuating circumstances beyond the control of the student.

Third party documentation is required in all requests. Appeals will not be granted to students who reduce their course loads to avoid academic difficulty. Special consideration will be given to students impacted by the pandemic.

To apply for an appeal, students must submit a Satisfactory Academic Appeal form and a **signed** letter by the deadline including:

1. Geneseo ID number
2. Expected graduation date
3. Details on the extenuating circumstances that interfered with the student's academic progress and supporting documentation
4. Details on how the circumstances have changed

This statement must be accompanied by third party documentation supporting the given reasons for failing to maintain academic progress. These materials must be postmarked by the date specified in the notification letter and should be sent to:

Financial Aid Appeal Committee
Office of Financial Aid
SUNY Geneseo
1 College Circle, Erwin 104
Geneseo, NY 14454

The Financial Aid Appeal Committee will review the student's request and supporting documentation. The student will be notified in writing of the committee's decision. The decision regarding the appeal is final.

Students on Track

Federal and New York State aid recipients need to stay *on track* with their coursework because they may only receive aid for courses that count toward their primary bachelor's degree program. A primary bachelor's degree program is defined as a student's first major, general education requirements, and elective requirements.

Students will be notified when course selections are not applicable to their degree. Courses that are not applicable to the student's degree (and therefore not eligible for federal and/or state aid) will be flagged, and students may either select a new course that is eligible or remain in the course and have aid recalculated.

For details on *Students on Track* and specific requirements, please go to the Office of Financial Aid website.
