2018-2019 Undergraduate Bulletin

This bulletin is current as of June 2018. The State University of New York College at Geneseo reserves the right to make changes in policies, requirements, and regulations as conditions change and such revisions are necessary subsequent to the bulletin's publication.

All students are expected to have knowledge of the information contained in this publication and others, including the Student Handbook and the academic advisement materials explaining individual programs.

This bulletin describes all current undergraduate programs of the College. For graduate program information, see the most recent Guide to Graduate Studies. This is the official undergraduate bulletin of record.

Accreditation

The College is accredited by the Commission on Higher Education of the Middle States Association of Colleges and Schools. Our academic programs have been approved and registered by the New York State Education Department. Other accreditations or certifications include those from the American Chemical Society, the Association to Advance Collegiate Schools of Business, and the National Council for Accreditation of Teacher Education.

This edition of the Undergraduate Bulletin covers undergraduate programs for the 2018-19 academic year. Information in it is accurate as of June 2018. To maintain the integrity of the SUNY Geneseo Undergraduate Bulletin, links to program updates will be documented separately, between catalog publications. SUNY Geneseo reserves the right to make changes in policy and regulations, and its faculty reserves the right to change course content, course availability, and program requirements, as circumstances dictate. The final authority on such matters is the Provost & Vice President for Academic Affairs, whose designee shall serve as resource person should questions arise about changes. The Assistant Provost for Curriculum and Assessment, the Provost's designee, is located on the second floor of Erwin Hall, 585-245-5531.

Geneseo's Mission/Values

- Geneseo Values
- Geneseo 2021: Seeing Beyond the Horizon

Dedicated to learning, SUNY Geneseo is a residential public liberal arts college with selected professional and graduate programs. We combine a rigorous curriculum, transformational learning experiences, and a rich co-curricular life to create a dynamic and inclusive scholarly environment. The entire College community works together to advance knowledge and inspire students to be socially responsible and globally aware citizens who are prepared for an enriched life and success in the world.

Geneseo Values

The Geneseo campus community is guided by our beliefs in and commitments to the following values:

- Learning: embracing high expectations for intellectual inquiry, scholarly achievement, and personal growth;
- Creativity: affirming a spirit of innovation that inspires intellectual curiosity and problem solving;
- Inclusivity: fostering a diverse campus community marked by mutual respect for the unique talents and contributions of each individual;
- Civic responsibility: promoting ethical local and global citizenship; and
- Sustainability -- advancing just principles of ecological, social, and economic stewardship.

Geneseo 2021: Seeing Beyond the Horizon

The time has come for Geneseo to reaffirm its claim as a wellspring of liberal education of the highest quality, and to be known for its world-class faculty, academically focused students who bring an array of talents to the campus, stunning physical setting, outstanding curricular and co-curricular programs, highly competitive and routinely successful intercollegiate teams, and a strong brand. By doing so, we face the future with confidence, secure in the knowledge that the Geneseo we love will endure, and the innovations we mindfully create will advance the College to new heights.

Focus Area 1: Learning

- Objective 1: Pursue curricular innovation.
- Objective 2: Improve support to faculty and staff to explore innovative approaches teaching, learning, and research.
- Objective 3: Build a more effective and integrated learning and information infrastructure.
- Objective 4: Strengthen faculty oversight/governance of curriculum.

Focus Area 2: Access and Success

- Objective 1: Increase recruitment of qualified applicants that represent a diverse student population..
- Objective 2: Increase the yield of qualified applicants that represent a diverse population.
- Objective 3: Pursue innovative and proactive retention & student success strategies.
- Objective 4: Provide a welcoming and inclusive environment.

Focus Area 3: Advancing the Public Good

- Objective 1: Strengthen our engagement with local and regional communities including alumni.
- Objective 2: Enhance our capacity as a public cultural resource.
- Objective 3: Connect scholarly resources of the College to appropriate projects in the surrounding community and other partner communities.

Focus Area 4: Resilience and Sustainability

- Objective 1: Enhance the profile and public awareness of the institution through media and communication tools.
- Objective 2: Enhance and promote sustainable practices in all divisions and programs.
- Objective 3: Maintain and redesign facilities, as possible, to create effective learning environments.
- Objective 4: Develop blended and diversified funding strategies.

Geneseo's Statement on Diversity and Community

Geneseo holds among its core values the ideals of community and diversity. Our community is defined as a group of faculty, students and staff who live and work together at Geneseo because they share common goals that are based on the ideals of higher education rooted in the liberal arts.

Although they share common goals, the members of the Geneseo community also differ in many ways. Diversity at Geneseo is defined in part as differences in individuals that are manifested in their race, ethnicity, national origin, language heritage, world-view, religion, gender, sexual orientation, class, physical ability, learning style, geographic background, mental health, age, and relationship status.

Geneseo recognizes that the individuals who make up our community bring to it unique perspectives and knowledge that contribute to its richness and vibrancy. Because Geneseo also holds educational excellence among its core values, it recognizes that its progress as a community toward such excellence is predicated on its ability to embrace both the diversity of its members and the vigorous exchange of their ideas.

Geneseo calls all members of our community to share responsibility for the ongoing work of continually recreating a sense of inclusion, belonging, and empowerment, so that together we will achieve our individual and collective aims, and experience the intellectual liberation that is at the heart of the educational enterprise.

Approved by the College Senate October 10, 2003.

Sustainability Statement

SUNY Geneseo calls upon all members of our community to embrace sustainability as a core value, including a commitment to its constitutive principles of ecological, social, and economic justice. We recognize the critical role of higher education in creating a sustainable society. Through teaching, research, service, and institutional conduct we strive to nurture the values, skills and knowledge necessary to sustain and enhance human and non-human life on the planet.

The college understands that sustainability is a process of building support for societal and intergenerational equity and a shared sense of responsibility for the ethical stewardship of our social and natural environment. We endorse the broad

scientific consensus that human demands on the planet threaten the ecological, social and economic resources upon which our global society depends.

As a public liberal arts college, we seek solutions to these increasingly complex, interdisciplinary problems that are consistent with our shared values and ideals. Recognizing that the promotion of sustainability is central to the mission of the college, SUNY Geneseo calls upon its faculty, students and staff to foster a culture of sustainable and responsible citizenship on campus. By minimizing the environmental impact of our institutional operations and integrating the principles of sustainability throughout our academic disciplines and co-curricular life we can begin to realize a more profound and enduring form of prosperity for current and future generations.

SUNY Geneseo @ A Glance

Historical Background

SUNY Geneseo, one of thirteen university colleges within the State University of New York system, was established by an act of the New York State Legislature in 1867 as the Geneseo Normal and Training School and opened September 13, 1871. Curricular offerings included elementary English, advanced English, and classical studies.

In the early 1900s, the curriculum was reorganized to require two years of professional study, and admission was restricted to high school graduates. In 1922, the programs were extended to three years, and in 1938, to four years. In 1942, the College was granted authority to confer baccalaureate degrees in all its curricula. Basic teacher training programs were expanded to include preparations for teacher-librarians, teachers of children with special needs, and speech pathologists. Teacher education continues to be a strong component of the College's programs.

Geneseo became an original campus of the new State University of New York system at SUNY's inception in 1948. During the next three decades the College developed strong liberal arts and sciences programs and added several professional curricula to its offerings. The first master's degrees were awarded in 1951. In 1962, the teachers colleges of the State University became Colleges of Arts and Sciences. Geneseo's four-year degree programs in arts and sciences were implemented in 1964. Since then, the School of Business was established and majors have been added in such areas as biochemistry, and international relations. The College now offers more than 50 degree programs in a wide variety of disciplines. Cooperative programs have been developed in several fields with other institutions, including 3-2 engineering, 3-4 dental, and 3-2 and 4-1 MBA programs. The College's commitment to providing a broad-based liberal arts education was confirmed in 1980 with the establishment of a required core curriculum in natural sciences and mathematics, social sciences, humanities, and fine arts. Further revision in 1999 added critical writing, a quantitative requirement and foreign language. The College continues to improve and upgrade its curriculum through regular review and assessment. The strength of the liberal arts program was recognized in 2003 with approval for the installation of a Phi Beta Kappa chapter on campus. The chapter inducted its first class in Spring, 2004.

Since 1994, SUNY Geneseo has been a member of The Council of Public Liberal Arts Colleges (COPLAC), an alliance of high quality, public liberal arts institutions. Founded in 1987, COPLAC serves to promote excellent undergraduate education in the liberal arts tradition; the development of effective teaching and learning communities; and the expansion of access to public undergraduate liberal arts education of the highest caliber. COPLAC's membership currently consists of twenty-five public liberal arts colleges and universities who are committed to providing and advocating for the superlative, life-enhancing undergraduate education normally associated with small independent colleges. COPLAC also provides leadership in defining and modeling "best practice" in undergraduate education and promoting the qualities cultivated by outstanding student-centered liberal arts colleges.

The State University of New York at Geneseo has evolved dramatically over its 150 year history into a highly selective public liberal arts college, which is nationally recognized for the quality of education it offers.

Locale

Geneseo is located in the heart of the Genesee Valley, noted for its scenic beauty. Rich in Native American history and legend, and the former site of many Native American villages, the Genesee Valley was the western limit of the territory of the Senecas.

Geneseo is an ideal college town, with long-established traditions of friendship and culture. Both the village - one of 24 communities nationwide to be recognized as a National Historic Landmark - and the campus's ivy-covered brick buildings reflect a traditional college atmosphere.

The College is readily accessible. Rochester, which is 30 miles to the north, is served by Amtrak and several airlines. Bus service connects Geneseo with Rochester and with many towns and cities in surrounding counties. LATS (Livingston Area Transportation Service) provides regular daily shuttle service around College and to local commercial areas, as well as weekend service to Rochester designed for Geneseo students.

Geneseo's 220-acre campus is located just a few minutes off Interstate Route 390, which connects with the New York State Thruway (Exit 46) in Rochester. US Route 20A, and NYS Routes 63 and 39, all pass through the village of Geneseo near the campus.

Roemer Arboretum

The Roemer Arboretum was founded in 1990 through an endowed gift to the Geneseo Foundation by Spencer J. Roemer, College benefactor and former director of admissions. It consists of 20 acres, located on the south campus of the College, south of the residence hall and between Routes 20A/39 and Route 63. Visitors enter from Routes 20A/39 through the South Campus parking lot J.

Mr. Roemer expressed the wish that the area be used as a living outdoor classroom by College faculty and students to preserve and enhance the beauty of the Genesee Valley. The arboretum is open, free of charge, from dawn to dusk. Visitors are encouraged to walk along the paths, admire the beauty of the Genesee Valley, inspect the variety of trees and plants, relax and enjoy the view from the gazebo and benches. Future plans include additional plantings indigenous to the northeastern area of the United States.

Galleries

The Bertha V.B. Lederer Gallery in William A. Brodie Hall presents both contemporary and historic rotating exhibitions including works by local, regional and national artists. The Bridge Gallery, a unique space bridging two wings of Brodie Hall exhibits art work by Geneseo students and the Kinetic Gallery in the Robert W. MacVittie College Union exhibits work by students and local artists.

The Lockhart Gallery is in the McClellan House, an historic home at 26 Main Street built in 1825, and named to honor the late Robert and Jeanette McClellan and their family. The renovation of McClellan house, in 2001, was made possible through the collaborative efforts of the College and the Geneseo community. Campus Auxiliary Services are the current managers of McClellan House. More information on the galleries may be found at <http://geneseo.edu/galleries>

Buildings and Facilities

The Geneseo campus is characterized by its picturesque setting overlooking the meandering Genesee River and by its attractive buildings combining brick and limestone in collegiate Gothic and functional styles. State-of-the-art computer network connects all academic and administrative buildings, and residence halls. Wireless network is available in all academic buildings and surrounding outdoor areas.

James B. Welles Hall, which houses several academic departments and college classrooms was originally a "demonstration school" and, later, the elementary school for the Geneseo Central School District. Lockers and some fixtures remain as charming reminders of that history.

Bertha P. Fraser Hall connects Wads Aud., South Hall and Sturges Hall and houses faculty offices and classrooms. Austin W. Erwin Hall is one of four buildings fronting the College Green on the upper quadrangle. The new Integrated Science Center also fronts the College Green and was opened Fall, 2006. This 176,000-square-foot building is designed for interdisciplinary collaboration and to support Geneseo's strong undergraduate research program. The departmental

offices for Biology, Chemistry, Geology and Physics are housed in the Integrated Science Center as well as cutting-edge facilities and equipment for science education, research, and connections with community biotechnical and chemical analysis companies. Connected to the Integrated Science Center is Newton Hall, containing classrooms.

Guy A. Bailey Hall honors a nationally known biologist who served as chair of the sciences at Geneseo. Bailey Hall now houses the departments of Anthropology, Geography, Psychology and Sociology.

The William J. and John M. Milne Library, just off the College Green and overlooking the valley, is widely recognized for its innovative use of space and service orientation to students and faculty. In addition to traditional stacks, reference desk, and an award-winning interlibrary loan department, it includes space for group work, high tech classrooms, computing facilities, the Teaching and Learning Center, the ESOL (English for Speakers of Other Languages) Center, the Center for Academic Excellence, and Books & Bytes Café.

William A. Brodie Hall, designed by distinguished architect and former apprentice to Frank Lloyd Wright, Edgar Tafel, houses three departments of fine and performing arts, and includes the Austin and Sinclair theaters, music rooms, dance studios, and the Lederer and Bridge art galleries.

South Hall, which opened in 1995, houses the Schools of Business and Education, and the department of Mathematics, as well as the College's main computing facilities (including a two-level general access computer laboratory). The three-story structure contains state-of-the-art teaching facilities, including specialized classrooms developed to meet the programmatic needs of the four academic departments.

Doty Hall, which served as Geneseo High School (1932-1974) and then housed the Office for People with Developmental Disabilities (OPWDD), was fully renovated and re-opened in 2013. OPWDD continues to occupy the ground level and several College offices occupy the top floors, including the President's Office, and the vice presidents for Enrollment Management, Student & Campus Life, Administration & Finance, and College Advancement. The Admissions office, the Center for Inquiry, Discovery and Development and the Office for National Fellowships and Scholarships are also in Doty, as well as an acoustically-exceptional recital hall that hosts dozens of concerts throughout the year.

Residence halls are grouped into the South Village, the Central Village, and the North Village to encourage a sense of community and interconnections among residents. The South Village consists of Nassau, Niagara, Onondaga, Suffolk, and Wayne halls, along with Red Jacket Dining Hall. Many of these halls are corridor-style, popular with first-year students. Saratoga Terrace, townhouse style campus housing for two hundred upper-level students, links the South Village with central campus. The complex includes a Commons building with laundry facilities and group meeting space. The Central Village is comprised of Jones, Livingston, Monroe, and Steuben halls and is close to Mary Jemison Dining Hall. Monroe hall's 2013 renovation is certified to gold LEED standards and it boasts geo-thermal heating and rain-water harvesting. The North Village, where Letchworth Dining Hall reopened in Fall 2014, includes Allegany, Erie, Genesee, Ontario, Putnam, Seneca, and Wyoming halls. The suite-style halls in the North Village provide flexible group-living spaces, popular with upper-level students. Putnam Hall, connecting Allegany and Wyoming halls, won a regional award for excellence of design when it opened in Fall 2004. Seneca hall, new in 2009, is an architectural complement to Putnam; this 84-bed residence connects Genesee and Ontario halls.

Residence halls provide service and reception areas as well as student lounges and study spaces. Each room has one cable TV connection in addition to two hard-wired internet ports and wireless internet access. Student rooms do not include private phones, but shared telephones are provided in each hallway. Every residence hall room is equipped with fire sprinklers and smoke alarms. Carbon Monoxide (CO) detectors are installed in bedrooms and common spaces on any level in residence halls where there is gas-fired equipment. Every residence hall building includes laundry facilities and kitchenettes. All residence hall exterior doors are locked 24 hours a day with a card-access security system; residential students enter their halls with their Geneseo ID cards.

The campus meal plan offers many dining options. Centrally located Mary Jemison Dining Hall is a state-of-the-art dining food court offering a wide variety of choices. In addition, the Red Jacket and Letchworth dining halls offer all-you-can-eat value meals seven days a week for lunch and dinner. Other options include a ChowHound food truck, Southside Café and Uncle Vito's Pizza Delivery. The MacVittie College Union features a Starbucks Cafe and a Fusion

Market, which blends Mediterranean and Southeast Asian cuisine, as well as fresh fruits and vegetables. Milne Library hosts Books & Bytes cafe. The student meal plan may also be used at the Big Tree Inn, a landmark fine dining establishment and inn located on Main Street in the village of Geneseo.

Student Health and Counseling Services are located in the Lauderdale Health Center. This building houses medical equipment and supplies necessary for the health and counseling needs of students and is staffed by full-time College medical personnel.

The Carl L. Schrader Health and Physical Education Building is one of the facilities designed to provide for the health, physical education, and recreational needs of the College community. This building has a gymnasium, racquetball courts, dance studio, individual exercise areas, and other facilities for instructional and extracurricular programs. It also houses the offices of University Police and Facilities Planning.

The Myrtle Merritt Athletic Center is connected to Schrader Building, and contains Kuhl Gymnasium, Wilson Ice Arena, a swimming and diving pool, a complete fitness center with workout equipment, a wrestling room, four squash courts, and coaches' offices.

College Stadium is a 2,000-seat, fully-lighted facility with two synthetic turf fields that accommodate soccer, field hockey, men's lacrosse and women's lacrosse, as well as intramural and casual recreation. Amenities include individual work rooms, four team rooms, a full athletic training facility, as well as two press boxes and a full-service concession area.

A large proportion of the campus adjacent to the health and physical education complex has been developed, according to a comprehensive plan, as an outdoor athletic and recreational area. Raschi Field for softball, and space for archery, golf, lacrosse, soccer, field hockey, and tennis are located in this area. Moench Field serves the needs of the track and field programs.

The Robert W. MacVittie College Union is the hub of recreational and cultural student activities on the campus. It includes: student organization and staff offices; lounges, meeting rooms, recreation, study areas; Starbucks and Fusion Market; campus bookstore; ballroom; student art gallery; computer and project area with photocopiers; the campus mail facility; ATM machine, the Geneseo Federal Credit Union; MOSAIC (Multicultural Organization Space for Activities, Inclusion, and Collaboration); GOLD leadership center. Student organization mailboxes, package claim, and meeting room key sign-outs are provided. The Ticket Office sells tickets for all performing arts events on campus. Further information is available at <http://union.geneseo.edu>.

Academic Programs

Explanation of Listings

The department (or content) designation which precedes each course is abbreviated to four letters. The same method of course identification is used in other college publications (e.g., class schedules), reports, and forms (e.g., grade reports, class lists). Figures after the description of each course signify (1) the credits which are earned by successful completion of the course, (2) the number of 50-minute-equivalent lecture style class periods per week (i.e., lecture, discussion, and recitation), and (3) the number of 50-minute-equivalent non-lecture style class periods per week (e.g., activity, laboratory, and studio). Thus, the entry 3(2-2) indicates that (1) the course carries three credits, (2) 100 minutes per week occur in lecture style, and (3) 100 minutes per week are spent in non-lecture style class periods. Unless indicated otherwise following the descriptions, courses are normally offered every semester. The College, however, reserves the right to make changes if circumstances require.

Prerequisites

Many courses carry prerequisites, which are published in course descriptions of the Undergraduate Bulletin for 100-, 200-, 300-, and 400-level courses and the Graduate Guide for 500- and 600-level courses. (Prerequisites for experimental courses are published in KnightWeb) The term “co-requisite” means that students must be enrolled concurrently in both courses so designated. Students are responsible for knowing and fulfilling all prerequisites prior to registration. A student who enrolls in a course without completing all prerequisites or receiving permission from the instructor to waive prerequisites may be subject to removal from the course

Experimental Courses

Experimental courses, so designated because they are innovative or unique in content, method of presentation, or staffing, may be offered at the College during any instructional period (i.e., fall and spring semesters, intersession, summer sessions) on departmental and interdisciplinary bases. If offered within a single department, as defined by content and instructional staff, these courses carry the regular departmental designation (e.g., ANTH for Anthropology, MATH for Mathematics, PLSC for Political Science). If interdepartmental or interdisciplinary in nature, because of content or instructional staff, the courses carry an INTD designation. Regardless of level, all such courses are assigned a temporary course number (i.e., -88); they do not appear in the course listings in this bulletin. However, they are listed in the online Course Schedule in KnightWeb. Experimental courses are proposed by departments and approved for first offering by the Assistant Provost for Curriculum and Assessment. Departments may offer experimental courses only once without Senate approval. Students may not be able to repeat courses that are offered on a one-time basis.

Slot Courses

Slot courses are those sufficiently general in nature that they may encompass a variety of specific topics. They are easily identified by the format of the titles; after the general title, which is followed by a colon, the subtitle is printed (e.g., ENGL 203 Reader & Text: subtitle).

Directed Study Courses

In order to allow the pursuit of special interests or specialized areas in which the College does not offer regular courses, policy provides an opportunity for students to arrange independent or individualized instruction with faculty who share their interests. Instruction offered under such an arrangement is called a directed study course and is at the discretion of the instructor.

Directed Study courses meet according to schedules agreed upon mutually by instructors and students. Students complete work independently under the guidance and supervision of members of the faculty. In directed study courses, students engage in academic pursuits such as conducting research and reporting results, investigating problems and presenting conclusions, reading intensively in a discipline, and/or studying advanced subject matter relating to a selected subject, special topic, or specific area. Opportunities for directed study are available in most of the content areas and departments listed on the following pages at the discretion of individual instructors. The online Directed Study submission form should include the subject matter of the course, the work required of the student, and the system for evaluation of the student's work. The levels (i.e., introductory, intermediate, and advanced) at which such study can be undertaken vary, but the numbers of such courses usually end in "99." The permanent records of students who enroll in these courses are noted with "DS," followed by a brief, specific title.

Bachelor of Arts

American Studies, B.A.

American Studies is an interdisciplinary program offering a wide range of courses that develop the analytical, research, and communication skills necessary for success in a variety of fields. The major integrates materials, themes, and approaches from diverse areas of study including history, literature, political science, sociology, communication, film and media, gender and sexuality, African American studies, and Native American studies. The program allows students to explore transnational, cross-cultural, and comparative perspectives of the United States. A degree in American Studies can help prepare students for career paths in academia, social activism, non-profit work, media, law, government, museum management, librarianship, and teaching. The program provides a broad grounding in the study of the United States while also allowing students the flexibility to pursue their own intellectual interests and goals.

Cultural Intersections (3 Credits)

One course exploring cultural intersections in America; that is, a course focusing on marginalized peoples and/or critical approaches to difference, including class, ethnicity, gender, race, religion, sexual orientation, and/or ability. (from list of approved courses)

American Cultures (3 Credits)

One course examining American cultures from a transnational, cross-border, comparative approach. (from a list of approved courses)

Elective hours (18 Credits)

Elective hours in courses emphasizing American Studies selected under advisement (e.g., in American Studies**, anthropology, art history, communication, economics, geography, history, literature, music, philosophy, political science, sociology, and theatre arts). At least 6 hours must be at the 300 level. (from a list of approved courses)

Guidelines for course selection:

1. Students may take AMST 201: (subtitle) for credit toward the major twice, as long as the subtitle is different in each case.
2. Electives must be selected from at least three different departments.
3. Majors must earn a minimum of 15 credit hours in courses at the 300-level or higher.
4. A maximum of 9 credits may be taken at the 100-level of the 40 credits required for the major.

Writing Requirement

American Studies, English, and History courses all require significant amounts of writing. The interdisciplinary American Studies major provides students with an intensive and cumulative writing experience by requiring a minimum of 5 courses in these three subject areas and 5 courses at the 300 level or higher. Writing courses will be selected under advisement; qualified students will be allowed to research and write about topics of their choice in directed studies over one or two semesters (see bulletin listings for AMST 393, AMST 396, AMST 399).

Minimum Competence Requirement:

A grade of C- or better is required in all courses submitted in fulfillment of the 40-hour requirement for the American Studies major.

Courses that fulfill AMST cultural intersections requirement:

American Studies

- AMST 201 - U/Topics in American Studies: (subtitle) **Credit(s): 3**
- AMST 262 - S/American Indian Law & Public Policy **Credit(s): 3** (cross-listed as HIST 262)

Anthropology

- ANTH 209 - M/Ethnography of the Iroquois **Credit(s): 3**

HEGIS Code: 2202.00

Bachelor of Arts

Anthropology, B.A.

Total credits required to complete major: 36

Basic Requirements (15 Credits)

- ANTH 100 - S/M/Introduction to Cultural Anthropology **Credit(s): 3 ***
- ANTH 105 - S/Introduction to Physical Anthropology **Credit(s): 3**
- ANTH 316 - Human Ecology **Credit(s): 3**

Choose one courses from:

- ANTH 110 - Introduction to Archaeology **Credit(s): 3**
- ANTH 120 - S/Language and Culture **Credit(s): 3**

Choose one courses from:

- ANTH 208 - M/Classics of Ethnography **Credit(s): 3**
- ANTH 229 - S/M/Ethnography and Film **Credit(s): 3**

Exploratory Learning: (15 Credits)

In consultation with your advisor, choose any combination of five electives at the 200-level or above, at least three of which must be at or above 300-level. Any ANTH course, 200-level or above, including ANTH 299, may be used to fulfill this requirement, but only if it has not been used to fulfill a different requirement for the major. No double counting allowed.

Transformational Learning: (3 Credits)

Choose one of these options:

- ANTH 305 - Field Methods and Techniques in Linguistics **Credit(s): 3**

- ANTH 317 - Human Osteology **Credit(s): 3**
- ANTH 320 - Archaeological Field School **Credit(s): 3**
- ANTH 323 - Primate Field School **Credit(s): 3**
- ANTH 325 - International Fieldwork:(region) **Credit(s): 1-6**
- ANTH 382 - Ethnographic Field Methods **Credit(s): 3**
- ANTH 383 - Archaeological Method and Theory **Credit(s): 3**
- ANTH 395 - Internship in Anthropology **Credit(s): 3-15 as arranged ****
- ANTH 399 - Directed Study and Research **Credit(s): 1-3 ****
- ANTH 493 - Honors Research/Writing **Credit(s): 3** (Please note that this is a two semester - 6 credit sequence, as approved by the department, which fulfills the transformational learning requirement and one exploratory learning elective if taken for both semesters.)
- ANTH 499 **Credit(s): 3 ****

Seminar in Critical Thinking:

Choose one of these options:

- ANTH 410 - Classical Theory in Anthropology **Credit(s): 3**
- ANTH 421 - Contemporary Theory in Anthropology **Credit(s): 3**

Footnotes

*Students may petition the department to substitute ANTH 101 for ANTH 100, but only if ANTH 101 is taken before or in the semester the student declares an Anthropology major.

** A maximum of 6 credits allowed for the major from: ANTH 299, ANTH 395, ANTH 399, or 499

*A grade of C- or better is required for Anthropology courses used in fulfillment of the major.

Department Writing Requirement

Most students will meet the department writing requirement by successfully passing ANTH 316. Should the instructor in ANTH 316 judge that the student's writing skills are not acceptable, even though the student may be passing the course, she, he, or they will be required to enroll in and successfully complete a course that emphasizes writing skills. (It could be a regularly scheduled course or a directed study course.) Students are encouraged to complete or attempt to complete the writing requirement by the end of their Junior year.

- ARTH 378 - Museum Studies **Credit(s): 3**
- ARTH 384 - Baroque Art in Italy, Spain, France, and The Netherlands **Credit(s): 3**
- ARTH 399 - Directed Study **Credit(s): 1-3**

Optional - Honors Thesis:

Year-long project in consultation with an Advisor for 3 credits of ARTH 399 and 3 credits of ARTH 393. No more than 3 credits of ARTH 399 may be used towards the major requirements.

Departmental Notes:

Students who plan to go to graduate school in Art History are advised to take courses that develop writing and research skills, and to acquire German, French and area of specialization languages (e.g. Spanish, Italian, Latin, Asian languages, etc.) Study abroad is highly recommended for Art History majors. Students with an interest in Arts Management (Galleries, Arts Administration, Museology) are advised to add a Business Minor. Students with an interest in Conservation and Restoration are advised to take Chemistry I and II.

Minimum Competence Requirement

A grade of C- or better is required for all Art History and cognate area courses used to fulfill major requirements.

Department Writing Requirement

The department writing requirement is fulfilled through the successful completion of ARTH 387, which requires a 20-25 page research paper.

Concentration in Art History

A liberal arts concentration in Art History, available to majors in Early Childhood and Childhood, Childhood and Childhood with Special Education.

Biochemistry

Kevin Militello, Coordinator
(Integrated Science Center 357)
biochem.geneseo.edu

HEGIS Code: 0414.00

The interdepartmental degree in Biochemistry stresses basic science and analytical skills. Extensive laboratory experience is acquired making use of the modern instrumentation in both the Biology and Chemistry departments. Graduates of this program are well prepared for employment in the fields of Biochemistry, Biotechnology, Cell Biology, and Molecular Biology. The program also provides excellent preparation for the pursuit of advanced academic or professional degrees.

Biology and Biochemistry Proficiency: Students must have a C+ or better average in their first two REQUIRED Biology lecture courses at SUNY Geneseo to remain as Biology or Biochemistry majors. For most this is Biol 117 and Biol 119 but for those accepting AP credits or transfer students it could be other combinations.

Not available to students majoring in Neuroscience.

Minimum Competence Requirement

Students must attain a grade of C- or better in all required Chemistry and Biology courses before those courses can be used as prerequisites for another course:

Department Writing Requirement

The biochemistry writing requirement will be met by successful completion (grade of C or better) in the Senior Biochemistry Seminar of which an integral part is the successful writing of a formal biochemistry review paper of 8-12 pages. The paper is retained by the department in which the student is advised.

- Elective **Credit(s): 3**
- Elective **Credit(s): 1-7**

Total Credit Hours: 120

The biochemistry major can lead to a variety of professional and vocational pursuits, and career goals should be considered when selecting electives. Students should discuss choices with their advisors, who can suggest electives for a variety of options. A few examples follow.

Bioorganic Chemistry

- CHEM 315 - Bioorganic Chemistry **Credit(s): 3**
- CHEM 318 - Advanced Organic Chemistry **Credit(s): 3**

Bioinorganic Chemistry

- CHEM 330 - Inorganic Chemistry I **Credit(s): 3**

- CHEM 331 - Laboratory Techniques in Inorganic Chemistry **Credit(s): 2**
- CHEM 334 - Bioinorganic Chemistry **Credit(s): 3**
- CHEM 338 - Inorganic Chemistry II **Credit(s): 3**

Cell and Molecular Biology

- BIOL 223 - Genetics Laboratory **Credit(s): 1**
- BIOL 301 - Laboratory in Cell Biology **Credit(s): 1**
- BIOL 330 - Immunology **Credit(s): 4**
- BIOL 354 - Developmental Biology **Credit(s): 4**
- CHEM 322 - Physical Chemistry II **Credit(s): 3**

Environmental Biochemistry

- BIOL 203 - Principles of Ecology **Credit(s): 3**
- BIOL 230 - Principles of Microbiology **Credit(s): 4**
- CHEM 322 - Physical Chemistry II **Credit(s): 3**

Neurobiology

HEGIS Code: 0401.00 (Biology, B.A.), 0401.01 (Biology, Adolescence Education: Biology & General Science, B.A.), 0401.00 (Biology, B.S.)

Biology Proficiency: Students must have a C+ or better average in their first two REQUIRED Biology lecture courses at SUNY Geneseo to remain as Biology or Biochemistry majors. For most this is Biol 117 and Biol 119 but for those accepting AP credits or transfer students it could be other combinations.

BIOL 105/BIOL 106 may be used as a 'prep' course-students who earn a grade of B or higher in BIOL 105/BIOL 106 may go on to BIOL 119 in the spring but are required to take BIOL 117 the following fall. and to become biology majors must have a 2.3 average for BIOL 117 & BIOL 119.

Students may not double major in both Biology and Neuroscience.

Bachelor of Arts

Biology, B.A.

The Bachelor of Arts Degree in Biology is recommended for students preparing for secondary certification, dual majors, physician assistant or nursing programs or those planning to pursue graduate work outside of life sciences (e.g., law, M.B.A., psychology, public policy, or some areas of environmental studies). Graduates from our Bachelor of Arts program also pursue professional degrees in medicine, dentistry or optometry.

Total credits required to complete major: 64-65

Basic Requirements (33 Credits)

- BIOL 116 - N/General Biology Laboratory **Credit(s): 2**
- BIOL 117 - General Biology: Cells, Genetics, Evolution **Credit(s): 3**

- BIOL 216 - Biology Second Year Laboratory **Credit(s): 1**
- BIOL 223 - Genetics Laboratory **Credit(s): 1**

Electives in Biology at the 200-level or above including the following:

1. At least two additional Biology laboratory courses at the 200-level or above, including one at the 300-level.
2. At least four credits of electives in Biology at the 300 level or above. (This will include the 300-level laboratory credit.)
3. A maximum of four credits from the following: BIOL 297, BIOL 299, BIOL 395, BIOL 396, BIOL 397, BIOL 398, BIOL 399.

Minimum Competence Requirement

To graduate with a biology major, students must attain a grade of C- or better in all required biology courses, excluding electives. A grade of C- must be achieved in any course before it can be used as a prerequisite for another course. A student may only repeat a required biology course or related requirement once for major credit *and the course must be taken at the next offering of the class*. If a student does not earn at least a "C-" on the second taking of the class, she, he, or they will not be able to complete the major.

Department Writing Requirement

Students must demonstrate writing skills to the satisfaction of the Biology department. These skills will be evaluated in laboratory reports and in written assignments in 200- and 300-level biology courses.

Program notes: CHEM 119 and BIOL 116 are both 2-credit labs; generally students take one in the fall and one in the spring, in either order. Students typically take their mathematics courses in their freshman year, but this is not required. Several biology electives have BIOL 300 as a prerequisite, and BIOL 300 has BIOL 222 as a prerequisite. Consequently, putting off either of these courses beyond the above recommendations is not a good idea. Several 200-level biology laboratory courses are available to sophomores; taking a lab in the second year is recommended but not

required. An alternative accelerated chemistry lecture sequence (CHEM 203, CHEM 204, CHEM 223, CHEM 224) completes general and organic chemistry in 3 semesters (CHEM 204 and CHEM 223 are each half-semester courses) and might be appropriate for students with strong chemistry backgrounds.

Electives in Biology: Sixteen credits must include (1) BIOL 204 or BIOL 216, or BIOL 223 (2) at least one biology laboratory course at the 300 level (3) one additional biology laboratory course at the 200 level or above and (4) at least four hours of biology at the 300 level or above.

Note: Where no prerequisites apply, some variation in the order or semester in which courses are taken is possible. Students should consult their academic advisors for additional information.

Specialization Areas

Pre-Professional

Requirements for various biologically related professional programs (e.g. medical, veterinary, dental, optometry, etc.) vary. Students are urged to familiarize themselves with the specific requirements of the schools of their choice.

Students planning to apply to professional schools need not major in biology or the sciences. Minimal requirements of most professional schools include one year of biology, one year each of general chemistry and organic chemistry, one year of general physics, and two courses in English.

Students planning to attend veterinary school should complete BIOL 116, BIOL 117, BIOL 119, BIOL 230, BIOL 222 (BIOL 223 is optional); general chemistry, organic chemistry, and biochemistry; 6 credits in English and speech (English composition is required). Courses in nutrition and statistics are recommended. BIOL 242, BIOL 300, and BIOL 354 are also desirable.

Articulation Agreement

Early Assurance Program with SUNY-Buffalo, School of Dental Medicine

SUNY-Geneseo and the SUNY-Buffalo, School of Dental Medicine offer a cooperative program to qualified students designed to assure an undergraduate student acceptance into dental school at the end of two years of study. This allows the student to complete a four year undergraduate curriculum without further concern about admission to a D.D.S. program. While there is no major course of study required, the applicant must have completed most of the required pre-dental courses for admission to the SUNY at Buffalo, School of Dental Medicine and must demonstrate both maturity and a high level of motivation for a career in dentistry. You are invited to contact Kim Harvey at SUNY-Geneseo, (harvey@geneseo.edu) or the Office of Student Admissions at SUNY-Buffalo, School of Dental Medicine at (716) 828-2836 for more details.

Plant Sciences

Students interested in concentrating in the plant sciences should select courses from the following: BIOL 215, BIOL 311, BIOL 361, and BIOL 380. Opportunities exist for independent study (BIOL 399) and research using the greenhouse, herbarium, and other departmental facilities.

Ecology

Students interested in the field of environmental science or ecology should pursue a BS degree and select courses from the following: BIOL 204, BIOL 305, BIOL 306, BIOL 311, BIOL 338, BIOL 340, BIOL 376. We also recommend students take a course in statistics, such as BIOL 250, MATH 262 or PSYC 250. Students also should consider independent research with faculty using laboratory resources including the greenhouse, animal care facility, and field sites such as Conesus Lake, the Roemer Arboretum, or our 400-acre Research Reserve.

3/3 Program in Physical Therapy with SUNY Upstate Medical University

SUNY-Geneseo and SUNY-Upstate Medical University offer a cooperative program to qualified students where they can receive a B.A. in Biology and a Doctor of Physical Therapy in six years. Upon completion of three years of study at Geneseo and the first year at Upstate, SUNY-Geneseo students will be awarded a Bachelor's degree from Geneseo. Upon successful completion of three years at Upstate in the entry level DPT program, students will be awarded a DPT degree from SUNY-Upstate. Qualified high school seniors must apply for admission to the program by applying and being accepted by both SUNY-Upstate and SUNY-Geneseo during their senior year of high school. You are invited to contact Kim Harvey at SUNY-Geneseo harvey@geneseo.edu or the Admissions Office at SUNY-Upstate Medical University (315) 464-4570 for further information.

3/4 Program with New York Institute of Technology College of Osteopathic Medicine

SUNY-Geneseo and New York Institute of Technology College of Osteopathic Medicine (NYIT-COM) offer an affiliation program to qualified students where they can receive a B.S. in Biology and a Doctor of Osteopathic Medicine degree in seven years instead of the usual eight. The student attends SUNY at Geneseo for 3 years and then attends the professional program at NYIT-COM. After the first year at NYIT-COM, the student receives her, his, or their baccalaureate degree in biology from SUNY-Geneseo. The D.O. degree is awarded after completing the four years at NYIT-COM. You are invited to contact Kim Harvey at (harvey@geneseo.edu) or the Director of Admissions at NYIT-COM at (516) 686-3747.

3/4 Program with SUNY-Optometry

SUNY-Geneseo and SUNY College of Optometry offer an affiliation program to qualified students where they can receive a B.S. in Biology and a Doctor of Optometry degree in seven years instead of the usual eight. The student attends SUNY at Geneseo for 3 years and then attends the professional program at SUNY College of Optometry. After the first year at SUNY College of Optometry, the student receives her, his, or their baccalaureate degree in biology from SUNY-Geneseo. The O.D. degree is awarded after completing the four years at SUNY College of Optometry. You are invited to contact Kim Harvey at SUNY-Geneseo at (harvey@geneseo.edu) or the Office of Student Affairs at SUNY College of Optometry at (212) 780-5100 or (800) 291-3937 for more details.

3/4 Program with SUNY-Buffalo, School of Dental Medicine

SUNY-Geneseo and the SUNY-Buffalo, School of Dental Medicine offer an affiliation program to qualified students where they can receive a B.S. in Biology and a Doctor of Dental Science degree in seven years instead of the usual eight. The student attends SUNY-Geneseo for 3 years and then attends the professional program at SUNY-Buffalo, School of Dental Medicine. After the first year at SUNY-Buffalo, School of Dental Medicine, the student receives her,

his, or their baccalaureate degree in biology from SUNY-Geneseo. The D.D.S. degree is awarded after completing the four years at SUNY-Buffalo, School of Dental Medicine. You are invited to contact Kim Harvey at SUNY-Geneseo at (harvey@geneseo.edu) or the Office of Student Admissions at SUNY Buffalo School of Dental Medicine at (716) 828-2836 for more details.

Bachelor of Arts - Adolescence Education

Biology, Adolescence Education: Biology & General Science, B.A.

Students who intend to become secondary school biology teachers qualify for New York State initial certification by completing the requirements of the Bachelor of Arts degree and the requisite courses in education (see School of Education program description). Certification in adolescence education is not available with the Bachelor of Science in Biology.

Bachelor of Science

Biology, B.S.

The Bachelor of Science program emphasizes mathematics and science courses that prepare students for careers in biological research, laboratory work or master's and doctoral programs in the biological sciences. It can lead to careers in organismal biology like botany or zoology, environmental management, health care, technical writing and pharmaceutical sales. Graduates from our Bachelor of Science program also pursue professional degrees in medicine, dentistry or pharmacy

Total credits required to complete major: 71-72

Basic Requirements (36 Credits)

Minimum Competence Requirement

To graduate with a biology major, students must attain a grade of C- or better in all required biology courses, excluding electives. A grade of C- must be achieved in any course before it can be used as a prerequisite for another course. A student may only repeat a required biology course or related requirement once for major credit *and the course must be taken at the next offering of the class*. If the student does not earn at least a C- on the second taking of the class, she, he, or they will not be able to complete the major.

Department Writing Requirement

Students must demonstrate writing skills to the satisfaction of the Biology department. These skills will be evaluated in Laboratory reports and in written assignments in 200- and 300-level biology courses.

Total Credit Hours: 120

Program notes: CHEM 119 and BIOL 116 are both 2-credit labs; generally students take one in the fall and one in the spring, in either order. Students typically take their mathematics courses in their freshman year, but this is not required. Several biology electives have BIOL 300 as a prerequisite, and BIOL 300 has BIOL 222 as a prerequisite. Consequently, putting off either of these courses beyond the above recommendations is not a good idea. Several 200-level biology laboratory courses are available to sophomores; taking a lab in the second year is recommended but not required. An alternative accelerated chemistry lecture sequence (CHEM 203, CHEM 204, CHEM 223, CHEM 224) completes general and organic chemistry in 3 semesters (204 and 223 are each half-semester courses) and might be appropriate for students with strong chemistry backgrounds.

Electives in Biology: Nineteen credits must include (1) BIOL 204, BIOL 216 or BIOL 223 (2) at least one biology laboratory course at the 300 level (3) two additional biology laboratory courses at the 200 level or above and (4) at least twelve hours of biology at the 300 level or above.

Note: Where no prerequisites apply, some variation in the order or semester in which courses are taken is possible. Students should consult their academic advisors for additional information.

Minor

Biology Minor

20 credits in Biology which must include (1) BIOL 116, BIOL 117, BIOL 119 and (2) BIOL 203 (Ecology); (3) BIOL 271 (Heredity) or BIOL 222 (Genetics); and (4) a minimum of 6 credits of Biology electives, excluding BIOL 281, BIOL 297, 299, BIOL 395, BIOL 397, BIOL 398, and BIOL 399. Biochemistry courses (with an approved waiver) or BIOL 210 (Nutrition) may be included for credit toward this minor

Department Writing Requirement

Students in Biophysics will satisfy the writing requirement of either the department of Biology or Physics. The determination will be made by the program director and/or advisor upon review of the student's course selection. Students must consult with their advisors to ensure that they meet the College's writing requirement.

Black Studies

Cathy Adams and Maria Lima, Coordinators

geneseo.edu/~abs/

Faculty: Interdepartmental Committee representing various departments.

HEGIS Code: 2211.00

Bachelor of Arts

Black Studies, B.A.

This interdisciplinary major requires 39 credits with at least two classes each from departments of History and English; at least one class from the department of Anthropology; at least one class with an additional prefix (other than ENGL, HIST or ANTH); at least three classes at the 300 or 400-level; and a six-credit (two semester) directed study capstone. We strongly encourage students to participate in a Black Studies related internship or study abroad program. See also the listing for an Africana Studies minor.

Courses should be chosen in consultation with a Black Studies program advisor from the following list. (Under advisement, new and one time courses may also be considered for Black Studies credit.)

A. Courses whose primary focus is consistent with Black Studies:

- ANTH 216 - S/M/Race, Racism and the Black Experience in the Americas **Credit(s): 3**
- ENGL 318 - Black British Literature and Culture **Credit(s): 4**
- ENGL 337 - African-American Literature **Credit(s): 4**
- HIST 163 - S/U/African American History to 1877 **Credit(s): 3**
- HIST 164 - S/U/African American History from 1877 **Credit(s): 3**
- HIST 266 - S/U/Civil Rights Movement in America **Credit(s): 3**
- HIST 263 - S/U/Civil War and Reconstruction: The United States 1848-1877 **Credit(s): 3**
- HIST 412 - African-Americans in the Age of Jim Crow **Credit(s): 3**
- PLSC 224 - Government and Politics in Africa **Credit(s): 3**
- SOCL 201 - Black Women in American Society **Credit(s): 3**

B. Slot courses that are sometimes offered with a topic consistent with Black Studies:

(These must be chosen under advisement.)

- AMST 201 - U/Topics in American Studies: (subtitle) **Credit(s): 3**
- ENGL 203 - Reader and Text: (subtitle) **Credit(s): 4**
- ENGL 342 - World Literature **Credit(s): 4**
- ENGL 360 - M/Post-Colonial Literature: (subtitle) **Credit(s): 4**
- ENGL 424 - The Novel: (subtitle) **Credit(s): 4**
- ENGL 443 - Gender, Sexuality, and Literature: (subtitle) **Credit(s): 4**
- ENGL 458 - Major Authors: (subtitle) **Credit(s): 4**
- HIST 203 - Biography: (subtitle) **Credit(s): 3**
- HIST 301 - Interpretations in History: (subtitle) **Credit(s): 4**
- HIST 302 - Research in History: (subtitle) **Credit(s): 4**
- HIST 491 - Senior Seminar: (subtitle) **Credit(s): 3**
- MUSC 100 - F/Understanding Music: (subtitle) **Credit(s): 3**
- SOCL 381 - Selected Topics: (subtitle) **Credit(s): 3**

Recommended:

Intermediate-level proficiency in a language (other than English) spoken widely in Africa.

Total Credit Hours: 120

Note: There is considerable flexibility in both the order and specific courses. This sample program has been chosen to provide a possible sequence that emphasizes general education classes that are particularly relevant to Black Studies and quickly introduces students to Black Studies classes in a variety of departments.

Note: Where no prerequisites apply, some variation in the order or semester in which courses are taken is possible. Students should consult their academic advisors for additional information.

School of Business

Mary Ellen Zuckerman, Dean

(South Hall 113)

business.geneseo.edu

HEGIS Code: 0502.00 (Accounting, B.S.), 2204.00 (Economics, B.A.), 0506.00 (Business Administration, B.S.)

Entrance Procedures

In order to major in Accounting, Business Administration, or Economics, students must apply for and be admitted to the School of Business. The application process normally occurs during the sophomore year. Prior to being admitted to the School of Business, students are in pre-major status. As pre-majors, students are allowed to take 100-level and 200-level courses offered by the Business School; in order to take 300-level or 400-level business, accounting, finance, marketing or economics classes, however, a student must be admitted to the School as a major.

Students admitted into the School of Business may not double-major within the school.

Students who are admitted to the Accounting or Business Administration majors may not change their major to Economics without meeting the admission criteria for the Economics major. Similarly, students who are admitted to the Economics major may not change their major to Accounting or Business Administration without meeting the admission criteria for either of those majors.

For the Accounting or Business Administration majors, a pre-major may apply for admission into the School of Business by submitting an application on or before October 1 or March 1 when the following conditions are met:

1. The completion of at least 36 credits of coursework with a cumulative GPA of 2.50 or higher.
2. The completion of the following eight courses with a GPA of 2.85 or higher:
 1. Calculus (MATH 213 or MATH 221, 4 credits)
 2. Introductory Microeconomics (ECON 110, 3 credit)
 3. Introduction to Financial Accounting (ACCT 102, 3 credits)
 4. Business and Economics Statistics (ECON 205, 3 credits)*
 5. Introduction to Managerial Accounting (ACCT 103, 3 credits)
 6. Introduction to Macroeconomics (ECON 112, 3 credits)
 7. Information Technology for Business (MGMT 250, 3 credits)
 8. Business Law (MGMT 263, 3 credits)
3. The completion of all freshman and sophomore Professional Development required events.**

*Students who have received credit for BIOL 250, GEOG 278, MATH 242, MATH 262, PLSC 251, PSYC 250, or SOCL 211 may use this course to fulfill the statistics requirement. Students may also use MATH 341 or MATH 361 to fulfill this requirement.

If a course is taken at Geneseo, the grade earned at Geneseo will be used to calculate the GPA for admission to the major.

For the Economics major, a pre-major may apply for admission into the School of Business by submitting an application on or before October 1 or March 1 when the following conditions are met:

1. The completion of at least 36 credits of coursework with a cumulative GPA of 2.50 or higher.
2. The completion of for the following 16 credits of coursework with a GPA of 2.85 or higher.
 1. Calculus (MATH 213 or MATH 221, 4 credits)
 2. Business and Economics Statistics (ECON 205, 3 credits)*
 3. Introductory Microeconomics (ECON 110, 3 credits)
 4. Introductory Macroeconomics (ECON 112, 3 credits)
 5. Intermediate Microeconomics (ECON 210, 3 credits)or
Intermediate Macroeconomics (ECON 212, 3 credits)
3. The completion of all freshman and sophomore Professional Development required events.**

*Students who have received credit for BIOL 250, GEOG 278, MATH 242, MATH 262, PLSC 251, PSYC 250, or SOCL 211 may use this course to fulfill the statistics requirement. Students may use MATH 341 or MATH 361 to fulfill this requirement.

**If transferring 60 or more credits the student will have their junior and senior years to complete the freshman and sophomore Professional Development required events.

If a course is taken at Geneseo, the grade earned at Geneseo will be used to calculate the GPA for admission to the major.

Transfer Students

Students who have transferred into Geneseo must apply for and be accepted into the School of Business to pursue a major in Accounting, Business Administration or Economics. The criteria for admission to the School of Business are the same for all students; however, there are some variations in process which depend on a student's situation when entering Geneseo. For admission decisions in the School of Business, grades earned in the lower-division required courses at other institutions will be used to calculate the GPA as long as the course was approved for transfer into Geneseo. If a course is taken at Geneseo, the grade earned at Geneseo will be used to calculate the GPA for admission to the major.

For Business Administration and Accounting:

1. A student who transfers to Geneseo with fewer than 60 credits will be in pre-major status and must meet the same admission criteria as described above under Entrance Procedures (that is, complete eight (8) lower-division required courses with a 2.85 GPA or higher in those courses as well as a 2.50 overall GPA at Geneseo).
2. A student who transfers into Geneseo with 60 or more credits may be admitted as a Business Administration or Accounting major, providing the student has completed all eight (8) lower-division required courses with a 2.85 GPA or higher in those courses and has a 2.50 overall GPA.
3. A student who transfers into Geneseo with 60 or more credits but who has not completed all of the required lower-division courses may be admitted as a Business Administration or Accounting major for the first semester. In order to continue in the major after the first semester, the student must complete all of the outstanding required lower-division courses noted above under Entrance Procedures, and earn a 2.85 GPA in the eight (8) courses as well as a 2.50 overall GPA at Geneseo. If the student does not satisfy the admission criteria of a 2.85 GPA in the lower-division required courses and a 2.50 overall GPA at Geneseo after the first semester, the student will not be permitted to continue as a Business Administration or Accounting major.

For Economics:

1. A student who transfers to Geneseo with fewer than 60 credits will be in pre-major status and must meet the same admission criteria as described above under Entrance Procedures (that is, complete five (5) lower-division required courses with a 2.85 GPA or higher in those courses as well as a 2.50 overall GPA at Geneseo).
2. A student who transfers into Geneseo with 60 or more credits may be admitted as an Economics major, providing the student has completed all five of the (5) lower-division required courses with a 2.85 GPA or higher in those courses and has a 2.50 overall GPA.
3. A student who transfers into Geneseo with 60 or more credits but who has not completed all of the required lower-division courses may be admitted as an Economics major for the first semester. In order to continue in the major after the first semester, the student must complete all of the outstanding requirements noted above under Entrance Procedures, and earn a 2.85 GPA in the five of the (5) courses as well as a 2.50 overall GPA at Geneseo. If the student does not satisfy the admission criteria of a 2.85 GPA in the lower-division required courses and a 2.50 overall GPA at Geneseo after the first semester, the student will not be permitted to continue as an Economics major.

Minimum Competence Requirement

A minimum grade of C- is required in ALL courses submitted in fulfillment of any School of Business program, including minors and required related courses (such as MATH 213 or MATH 221; PHIL 237; and INTD 205). Courses with D grades must be repeated and cannot be used to meet prerequisite requirements.

Professional Development Requirement:

Students are required to participate in and complete the School of Business Professional Development Program. Events will be selected from a variety of professional and/or career development activities, which will be categorized by class level and sanctioned by the School of Business. School of Business students should consult the department for details on fulfilling this graduation requirement.

Department Writing Requirement

The writing requirement for Business Administration and Accounting majors is fulfilled by completion of MGMT 300 and MKTG 331. The writing requirement for Economics majors is fulfilled by the completion of two of the 300- or

400-level ECON electives (ECON 395, 396, and ECON 399 not included). For further information, please contact your advisor or the Dean of the School of Business.

Taking Courses Away from Geneseo

Students who wish to take courses at another institution or abroad should be aware of the various policies below.

- A minimum of 50% of all required and elective ACCT, ECON, MGMT, MKTG, and FNCE courses for the Accounting, Economics, or Business Administration majors must be taken at Geneseo. There are no exceptions to this policy
- The School of Business accepts no courses for transfer at the 300-level or 400-level without prior approval. Students are required to submit a syllabus along with the appropriate form to the School of Business before enrolling in courses at other institutions. All study abroad forms must be approved prior to departure.

Preparation for the Master of Business Administration Degree (4 + 1 Program)

School of Business majors completing a prescribed program at Geneseo and achieving a sufficient score on the GMAT examination are able to complete the M.B.A. program at SUNY Binghamton, Rochester Institute of Technology, Clarkson University, Alfred University or Union College in one additional year of study, following a four-year degree at Geneseo. Details relating to this program may be obtained from the School of Business, Dr. Avan Jassawalla, South Hall 116B, SUNY Geneseo, 1 College Circle, Geneseo, New York 14454.

Secondary School Preparation

It is suggested that students proposing to major in chemistry have the following high school preparation: one year of chemistry (preferably with laboratory work), one year of physics, and 3 1/2 years of mathematics (including elementary algebra, plane geometry, intermediate algebra, and trigonometry).

Department Writing Requirement

Students meet the department writing requirement by passing Chemistry 352, Chemistry Senior Seminar.

Minimum Competency Requirement

A grade of C- must be achieved in any required chemistry course before it can be used as a prerequisite for another course. Students who fail a course or fail to obtain the minimum grade in a pre-requisite course will be permitted to repeat the course once. D grades in courses that are not used as prerequisites require waiver approval from the department.

Students may petition the department to see if a waiver can be signed for other courses to count. Students with grades less than C+ will be unlikely to have the waiver signed.

Bachelor of Arts

Chemistry, B.A.

The Bachelor of Arts in Chemistry is recommended for students pursuing adolescence teaching certification or for students who do not intend to pursue graduate work in chemistry.

Total credits required to complete major: 52-58

Requirements (39-42 Credit Hours)

- CHEM 203 - N/Principles of Chemistry I **Credit(s): 4** (CHEM 116, CHEM 118 accepted with B average plus C average in MATH 221 & MATH 222).
- CHEM 204 - Principles of Chemistry II **Credit(s): 2** (CHEM 116, CHEM 118 accepted with B average plus C average in MATH 221 & MATH 222).

*Students meet the Physical Chemistry requirement by taking either CHEM 320 and CHEM 322 (Physical Chemistry I and II) or CHEM 324 (Principles of Physical Chemistry). An additional 3 credit 300-level chemistry course must be taken if the CHEM 320/CHEM 322 option is used. Two additional 3 credit 300-level chemistry courses must be taken if the CHEM 324 option is used. Two 300-level chemistry laboratory courses are required. One of these laboratories must be either CHEM 313 or CHEM 331. The second laboratory course must be either CHEM 342 or CHEM 361.

**Students working toward Adolescence Certification in Chemistry and General Science may substitute INTD 300 Topics in Secondary Education: Science for CHEM 351.

Note: Where no prerequisites apply, some variation in the order or semester in which courses are taken is possible. Students should consult their academic advisors for additional information.

Chemistry, Chemical Engineering Five-Year [3-2], B.A.

This program, described in the advising guide at the end of this section, allows students to earn either a Bachelor of Arts or a Bachelor of Science degree (in chemistry) from Geneseo and a Bachelor of Science in Chemical Engineering degree from the State University of New York at Buffalo, Clarkson College, or Columbia University.

Students who select the B.S. degree in Chemistry with A.C.S. Certification, usually take CHEM 331 although this requirement may be waived if an appropriate course is taken at engineering school.

Note: Where no prerequisites apply, some variation in the order or semester in which courses are taken is possible. Students should consult their advisors for additional information.

Bachelor of Arts - Adolescence Education

Chemistry, Adolescence Education: Chemistry and General Science, B.A.

Students seeking Initial Certification in Adolescence Education must complete the requirements for a BA in addition to the requirements set forth in the School of Education program description. Those students may use INTD 300 in place of CHEM 351. Certification in adolescence education is not available with the Bachelor of Science in Chemistry

or
- CHEM 330 - Inorganic Chemistry I **Credit(s): 3**
or
- CHEM 340 - Modern Analytical Chemistry **Credit(s): 3**

Footnotes

(If the CHEM 320, CHEM 322 physical chemistry option is selected, no further electives are required. If CHEM 324 is taken, 3 hours of electives are required.)

A grade of C- must be achieved in any required chemistry course before it can be used as a prerequisite for another course.

The Academic Program in Communication

The Bachelor of Arts degree in Communication requires a minimum of 36 credits of coursework, completed in one of three academic tracks of study. All students at SUNY Geneseo who enroll in the program complete a common 12 credit hour sequence of required courses in public address, interpersonal communication, mass communication, and a required course specific to the track. Students also formally select one of three tracks of study in Personal and Professional Communication, Journalism and Media, or Intercultural and Critical Studies. Grounded in the humanistic

tradition and in contemporary social science, the three tracks of study combine skills development with advanced coursework applying theory to communication contexts impacted by culture and technology.

Total credits required to complete major: 36

Basic Requirements (9 Credit Hours)

- COMN 102 - Principles of Public Speaking **Credit(s): 3**
- COMN 103 - S/Introduction to Interpersonal Communication **Credit(s): 3**

Elective Courses (9 Credit Hours)

- Three additional COMN courses at the 200 level or above must be selected in consultation with your advisor

Department Notes

- Students must achieve minimum competency of C- in COMN 102, COMN 103, COMN 107, COMN 160, COMN 248, ANTH 120.
 - Students may not enroll in any subsequent courses having any minimum competence requirements as prerequisites unless the minimum grade of C- has been earned in the prerequisites.
 - If a student does not earn at least a C- on the second taking of the class, she, he, or they will not be permitted to continue the major.
 - For important details, please see the Minimum Competence section of the Undergraduate Bulletin for further information regarding minimum competence and prerequisites for upper-level courses.

- With the exception of slot courses with different course subtitles, courses count only once for credit toward the major.
- A minimum of 12 credits (4 courses) must be at the 300-level. Courses may be chosen from track or elective categories.
- Students wishing to complete two tracks must choose a minimum of 9 credits of coursework (three courses) exclusive to the second track, and meet all requirements of the track. A maximum of two tracks of study may be pursued.
- Students must complete the departmental writing requirement by successfully completing designated writing assignments in COMN 103 and COMN 160.
- A minimum of 36 credits is required for the degree program and a maximum of 51 credits in Communication may be applied to the 120 credit hour requirement of the College.
- A maximum of 15 credits may be earned in COMN 395 and INTD 395.
- Up to a maximum of 3 credits of COMN 395 may be applied to the communication elective category and a maximum of 15 credits of COMN 395 may be applied to the 120 credit hour requirement of the College.

Department Writing Requirement

The following writing requirement applies to COMN 103 and COMN 160. All communication majors must complete the departmental writing requirement by successfully completing with at least a C- the designated writing assignments identified in course syllabi. Those students who do not earn at least a C- must revise and resubmit the work until the minimal requirement is achieved. The grade for a revised paper will not replace the original paper's grade when determining the final grade for the class. Failure to meet the C- minimum on all the designated writing assignments will result in an incomplete for the course grade. Upon completing the necessary work, the grade will be changed to the appropriate grade for the work done by the student. All rules and deadlines regarding incomplete grades are in effect during this time.

Career Opportunities

Graduates in communication often attend excellent graduate programs or pursue careers in the media and corporate settings. Graduates can be found as sales representatives, in the legal profession, as television newsmen, in management settings, on the radio, practicing public relations, conducting market research, or in academics. Ethical and skillful communication is important to success in all organizational settings; hence, communication graduates find diverse opportunities available to them after graduation.

Communication, Journalism and Media Track, B.A.

The Academic Program in Communication

The Bachelor of Arts degree in Communication requires a minimum of 36 credits of coursework, completed in one of three academic tracks of study. All students at SUNY Geneseo who enroll in the program complete a common 12 credit hour sequence of required courses in public address, interpersonal communication, mass communication, and a required course specific to the track. Students also formally select one of three tracks of study in Personal and Professional Communication, Journalism and Media, or Intercultural and Critical Studies. Grounded in the humanistic tradition and in contemporary social science, the three tracks of study combine skills development with advanced coursework applying theory to communication contexts impacted by culture and technology.

Minor

Communication Minor

The Communication minor is open to any student in the College who has a cumulative GPA of at least 2.70.

This minor is intended for students who desire to supplement their current major with an emphasis on one of the ways communication influences our daily lives. The minor requires a small set of core courses that introduce two dominant areas of academic study: interpersonal and mass communication. After this, students can choose four other courses to emphasize the development of skills integral to the profession they plan to pursue.

A minimum of 18 credits will be required, distributed among two categories below. At least 6 hours of coursework must be at the 300-level.

Total Required Hours: 18 Credits

Basic Requirements (6 Credit Hours)

- COMN 103 - S/Introduction to Interpersonal Communication **Credit(s): 3**
- COMN 160 - S/Introduction to Mass Communication **Credit(s): 3**

Electives (12 Credit Hours)

Four courses from anywhere in the department must be completed. Of these four courses, two (6 credits) must be completed at the 300-level.

Edgar Fellows Program

Minor

Edgar Fellows Program

The Edgar Fellows (EF) Program is designed to enhance the education of a special group of curious, able and motivated students who have a broad range of interests. Application to the program is by invitation from the Edgar Fellows Advisory Committee only.

Students in the EF Program take courses selected from a set of specially designed EF Seminars that cover a wide range of topics, from art to science and more. These classes are small and emphasize discussion and participation. The program culminates with a six credit Capstone Experience, usually undertaken during the senior year.

Edgar Fellows must maintain an overall cumulative grade point average (gpa) of at least 3.40. Each semester, Edgar Fellows students must complete at least 12 credits and earn a gpa no lower than 3.00. Additionally, students must complete HONR 202 in their first year in the program and take at least one EF course in each subsequent year, until the course requirements are completed. (With prior notification, exceptions are made for Study Abroad or similar circumstances.)

Incoming first-year students accepted into the Edgar Fellows program will take HONR 101 and four additional courses; HONR 101 will count as the equivalent of INTD 105.

The Geneseo Edgar Fellows Program foster habits of critical thought and expression, skills equally necessary to success in career, in private life, and in the public life of a citizen.

Requirements: 19-22 Credits

Incoming first year students will take:

- HONR 101 - The Nature of Inquiry **Credit(s): 3**

All Edgar Fellows will take:

- HONR 202 - Honors Seminar in Critical Reading: (subtitle) **Credit(s): 3**

In their last year in the program, students will take:

- HONR 393 - The Capstone Experience **Credit(s): 3 to 6** depending on the extent of the project.
- HONR 394 - Capstone Seminar **Credit(s): 1**

Additionally, all students will take three of the following seminars*

- HONR 203 - S/Honors Seminar in the Social Sciences: (subtitle) **Credit(s): 3**
- HONR 204 - F/Honors Seminar in the Fine Arts: (subtitle) **Credit(s): 3**
- HONR 205 - Honors Seminar in the Sciences: (subtitle) **Credit(s): 3**
- HONR 206 - Honors Seminar: (subtitle) **Credit(s): 3**
- HONR 207 - Honors Seminar in Diversity, Pluralism, Difference: (subtitle) **Credit(s): 3**

Footnotes

*Seminars may be repeated once under different subtitles with permission of the program director.

Students are encouraged to take:

- HONR 211 - Independent Honors Service Project **Credit(s): 1 to 3** depending on the extent of the project.
- HONR 230 - Preparing a Scholarly Profile **Credit(s): 1**

Ella Cline Shear School of Education

Anjoo Sikka, Dean

education.geneseo.edu

HEGIS Code: 0802.00

The Ella Cline Shear School of Education is committed to the preparation of outstanding teachers through the combination of a rigorous liberal arts foundation, a content-area specialty, and a series of courses on research-based pedagogical theory and practice. Geneseo works through a network of partnership schools to ensure that students have many opportunities to observe and work within P-12 programs as they develop as teachers. The program fosters appreciation and understanding of diversity and works with students in developing technological competence.

The School of Education offers certification programs in Early Childhood and Childhood Education (Birth-Grade 6), Childhood with Special Education (Grades 1-6), and Adolescence Education (Grades 7-12). Students in the elementary-level programs can major in Education with a concentration in an approved liberal arts discipline or they may choose to do a double major in Education and a liberal arts discipline. Students planning to double major should consult with their advisor to be sure that the second major is approved to replace the concentration. Students seeking certification in Adolescence Education will major in a liberal arts discipline and earn an accompanying certification.

All programs in the School of Education lead to New York State certification. SUNY Geneseo is accredited by the National Council for the Accreditation of Teacher Education (NCATE), and all programs and degree options will be held accountable to national standards. Undergraduate programs are reviewed each semester to check compliance with state certification and national accreditation requirements, and teacher candidates are evaluated at regular intervals in their programs to ensure that they are meeting the academic, clinical and dispositional standards outlined in the School's Conceptual Framework. Candidates should meet regularly with faculty advisors and attend all advisement sessions in order to keep track of developments in the certification process.

Admission to School of Education degree programs

All undergraduate programs require the submission of an application form and meeting several academic standards to qualify for admission. We recommend that students admitted to Geneseo as freshmen apply for admission into the School of Education during their first semester at Geneseo. Students who add/change to education certification after starting at SUNY Geneseo should apply for admission to the School of Education during the same semester they change their major. Transfer students should apply for admission into the School of Education at the same time they apply to the college. Admission criteria are:

1. High School GPA of 3.0 OR HS rank in top 30% for students admitted as freshmen.
2. College GPA of 3.0 for all students admitted after their freshman year
3. ACT or SAT scores
4. Admissions Essay

Applicants (all classifications) who do not satisfy the GPA requirements or Freshmen who do not rank in the top 30% of their HS class may apply for a waiver.

For information/application contact the School of Education (245-5560) or go to the School's webpage (www.geneseo.edu/education/admissions).

The first step, before applying to the School of Education, is declaring certification. Students sometimes have declared certification when applying to Geneseo or during orientation. To check to see if certification has been declared:

- Log in to KnightWeb.

- Click **Student Menu: Student Records: Student Information:** Select current term Scroll Down to **Curriculum Information: Current Program.** Under **Program** and **Major** categories the major should include the word Childhood or something that indicates Adolescence Education, for example: English, Adol Educ: English
- If under **Program** and **Major**, Childhood or Adolescence Education is not listed, please go to the School of Education Office (South 200) where someone will assist in completion of the change of major form to declare certification.
- After certification has been declared, students must apply and be admitted to the School of Education.

General requirements for all degree programs leading to teacher certification:

1. Foreign Language Competency

All certification programs require the foreign language requirement completion of college-level work in a foreign language through the first intermediate (201) level with minimum grade of C- or better requirement. For certification candidates, American Sign Language through the 201 level can be used to fulfill this requirement.

2. Minimum Competence Requirement

Teacher candidates must satisfy the 2.75 cumulative grade point average requirement to continue in a certification program. In addition, a grade of C- or better is required for each of the following courses in education certification:

Early Childhood and Childhood: INTD 203; EDUC 326, EDUC 354; CURR 213, CURR 313, CURR 316, and CURR 317; ECED 351, ECED 352, ECED 353, ECED 355; FORL 101/102/201 (for FORL requirement), MATH 140/MATH 141, PSYC 215; and SPED 224.

Students in blocks I-VI must submit key assignments for their education classes through TaskStream. Successful completion of the key assignment (target or acceptable rating in TaskStream) is a requirement for successful completion of each education class. Please refer to course syllabi for specific directions for the key assignment and submission deadline.

New York State Requirements for certification

Students applying for certification after Feb. 2004 must have a cumulative college grade point average of at least 2.5. (Note that Geneseo requires a GPA of at least 2.75 to be eligible for block progression and student teaching). Some school districts require a 3.00 GPA for student teaching placement and most masters programs in NY have this as an admission requirement.

Identification of Child Abuse and Maltreatment

Candidates who apply for certification on or after January 1, 1991 are required to complete a minimum of two contact hours of course work or training in the identification and reporting of child abuse and maltreatment. This requirement can be met by satisfactory completion of the workshop within H&PE 350 or by completing a state-approved training workshop. Current information is available through the New York State Department of Education.

Dignity for All Students Act

Effective December 31, 2013, all applicants for Certification are required to complete six clock hours of coursework or training in accordance with Article 2 Sections 10-18 of the Education Law. This training is available only from a provider approved by the New York State Education Department. This requirement can be met by satisfactory completion of the workshop within H&PE 350 or by completing a state-approved training workshop. Current information is available through the New York State Department of Education.

School Violence Intervention and Prevention

Candidates who apply for certification on or after February 2, 2001 are required to complete a minimum of two contact hours of course work or training in the warning signs related to violence and policies related to safe climates, and effective classroom management. Current information is available at: <http://www.highered.nysed.gov/tcert/certificate/save.htm> This requirement can be met by satisfactory completion of the workshop within H&PE 350 or by completing a state-approved training workshop. Current information is available through the New York State Department of Education.

Fingerprinting and Criminal Background

All candidates for initial certification and all new school employees must be cleared through FBI fingerprinting and criminal background check. The costs for the fingerprinting and the background check are incurred by the candidate. Current forms and regulations are available at: <http://www.highered.nysed.gov/tcert/ospra/index.html>. All students are urged to complete this requirement prior to student teaching.

New York State Certification Examinations (NYSTCE)

Effective May 1, 2014 candidates for initial certification must achieve qualifying scores in the New York State Certification Examination Program: Educating All Students Test (EAS), all required Content Speciality Tests for certification program, and the Education Teacher Performance Assessment (edTPA). The edTPA is completed during the student teaching semester.

Information on dates and test sites is available at www.nystce.nesinc.com and through the Career Development Office in Erwin Hall 116. For professional certification, NY State requires completion of a Master's degree and three years of employment as a teacher.

Candidates seeking Childhood Certification (Childhood with Special Education and Early Childhood with Childhood Education majors) must successfully complete all three parts of each required Content Specialty Test - Multisubjects. A Pearson testing center is available on campus in Erwin Hall. To take certification tests on campus select SUNY Geneseo as the testing location when registering for the certification tests at www.nystce.nesinc.com.

(Current forms and regulations are also available at: <http://www.highered.nysed.gov/tcert/certificate/>)

Student Teaching

Each program of the School of Education requires a one-semester student teaching experience. It is the student's responsibility to become familiar with all requirements for the particular program. Information regarding program requirements can be obtained from this bulletin, the offices of the School of Education, and faculty advisors.

Students should file an application to student teach in the semester that is one year prior to the semester in which they plan to student teach. This must be done through the Office of Field Experiences. Usually, a representative of the Office of Field Experiences will hold meetings to explain the application process. Students are responsible for attending one of the Student Teaching orientation meetings. Applications for student teaching should be submitted the previous February for Spring placements and in the previous October for Fall semester placements.

The Office of Field Experiences initiates all contacts and makes all arrangements for placements. Student placements are based upon state requirements and availability of sites. Placements are made only in regional schools with which we have established working relationships or in one of the College's satellite programs.

The policy of the College emphasizes that the student teaching experience takes precedence over all other activities during the student teaching semester. Additional academic or other work during the internship is not permitted except with the written permission of the Director of Field Experiences. Students wishing to participate in varsity athletics during student teaching must file the appropriate form with the Office of Field Experiences.

Students are required to enroll in student teaching internship courses offered by the College (i.e., EDUC 332, EDUC 340 or EDUC 350; ECED 331, ECED 333; SPED 391) which are appropriate to their objectives. They must complete such course(s) under the supervision of a member of the College faculty in collaboration with teaching and administrative staff members of area schools.

Before being admitted to a student teaching placement, each student must have:

1. A minimum cumulative grade point average of 2.75 in all course work undertaken, including a 2.75 in the major and area of concentration.
2. A minimum grade point average of 2.0 in the semester prior to student teaching.
3. Achieved minimum competence (grade of C- or better) in the required courses for the given major (see Minimum Competency listing at the beginning of the School of Education section of this Bulletin).
4. No grade of E in any required course.
5. Completed all appropriate prerequisites in professional courses in education. No incomplete grades are allowed in any areas.
6. Demonstrated readiness for the internship experience by successful performance in closely related activities, areas, and courses as determined by faculty.
7. Either A or B:
 1. Early Childhood and Childhood, Childhood, and Childhood/Special Education majors must have senior standing.
 2. Adolescence Education majors must have senior standing and must have completed two-thirds of the requirements of the academic area in which they are majoring with a minimum grade point average of 2.75.

In addition to these requirements, students are advised to have completed the following:

1. Early Childhood and Childhood, Childhood, Childhood with Special Education majors - twenty-one credits in their concentration, MATH 140 and MATH 141, PSYC 215, H&PE 350, and the foreign language requirement.
2. Adolescence Education majors and those seeking a double major in a Liberal Arts or Science major and Early Childhood and Childhood or Childhood Education - two-thirds of the requirements of the academic area with a minimum GPA of 2.75, PSYC 216, H&PE 350, and the foreign language requirement.

Students planning to enroll in student teaching are advised that they must either find housing in the area of their assignment or provide transportation to the site. The Office of Field Experiences cannot make transportation arrangements, nor can transportation needs be a factor in making placements. Moreover, the College assumes no responsibility for transportation or expenses incurred during transportation to the site.

Bachelor of Arts

Comparative Literature, B.A.

The flexibility to combine courses from several national literatures and to study literature along with other disciplines is the hallmark of the Comparative Literature major.

Students may also count courses which read literature in translation; however, a minimum of eight credits must come from upper-level (300 or 400 level) literature courses in a language other than English.

Total credits required to complete major: 38-46

Basic Requirements (8 Credit Hours)

- CMLT 200 - Reading Transnationally: (subtitle) **Credit(s): 4**
- CMLT 499 - Directed Study **Credit(s): 1-4 (Credits: 4)**

Other requirements by category (18-22 Credit Hours)

One course with an emphasis on genre from (3-4 Credit Hours)

- ENGL 385 - Contemporary Drama **Credit(s): 4**

Electives (12-16 Credit Hours)

- Four additional courses (ENGL, Languages and Literatures, and fields of interdisciplinary relevance to the student's interest, chosen in consultation with the program coordinator)

Minimum Competence Requirement

A grade of C- or better is required in all courses submitted in fulfillment of the Comparative Literature major.

Department Writing Requirement

All courses in Comparative Literature emphasize the skills of effective writing. In addition, successful completion of a Senior Thesis satisfies the Department Writing Requirement.

Bachelor of Arts - Adolescence Education

English, Adolescence Education: English, B.A.

Requirements of the Bachelor of Arts degree and the Teacher Education program must be completed for the New York State initial certification. Students are urged to study a foreign language through the intermediate collegiate level (course 202 at the College) and to take ENGL 361.

Minimum Competence Requirement

A grade of C- or better is required for each of the following courses: GSCI 160, GSCI 161, GSCI 170, GSCI 210, GSCI 220, GSCI 315/GSCI 320, GSCI 391 and GSCI 392; CHEM 116 or CHEM 203, CHEM 119, CHEM 118 or CHEM 204, CHEM 211 or CHEM 223, CHEM 216, CHEM 213 or CHEM 224, CHEM 340 and CHEM 320 or CHEM 324.

Department Writing Requirement

A portfolio of student writing will be established which will contain papers and other written assignments from courses in the Geological Sciences. Prior to the student's final semester, the faculty within the department of Geological Sciences will review the portfolio. If the faculty agrees that the majority of written work is satisfactory, the student will have successfully completed the writing requirement. Should review of the papers indicate that the student's writing skills are not acceptable, the student will be required to enroll in a course that emphasizes writing skills (this could be an elective course or a directed study).

***A maximum of 3 credits of GEOG 386 may be applied to the Advanced Geography Elective requirement.

Minimum Competence Requirement

A grade of C- or better is required for all geography courses used in fulfillment of the major.

Department Writing Requirement

The department's writing requirement is incorporated into Senior Seminar courses, required of all Geography Major seniors (chosen from GEOG 431 , GEOG 474 or GEOG 487). Majors must meet the writing requirement criteria in order to pass the course, so completion of a Senior Seminar course fulfills the Department Writing Requirement.

Study Abroad

The Department offers a semester long study abroad program in The Netherlands. The program, offered at the University of Groningen, is open to junior and senior geography majors. Students receive 12-15 credits. Instruction is in English. Other study abroad opportunities are available. For additional information contact the Geography Department.

Minor

Geography Minor

Basic Requirements (19-20 Credit Hours)

Students will be required to take: GEOG 102 - S/Human Geography; GEOG 111 - Physical Geography/ GEOG 112 - N/Physical Geography Laboratory; and GEOG 291 - Cartography OR GEOG 286 - Introduction to Geographic Information Systems.

Of the remaining 9 credits required in Geography, two courses or 6 credits must be at the 300- or 400- level.

A maximum of three credits of GEOG 395, GEOG 397, or GEOG 399 may be applied to the minor.

Footnotes

*Three credits of GSCI 393 or GSCI 399 can substitute for one 300-level elective class. Adolescence Certification majors can substitute GSCI 200 for a 300-level elective.

**Students seeking Certification in Adolescence Education (7-12): Earth Science and General Education may satisfy this requirement with approved classes in meteorology and astronomy

Minimum Competence Requirement

A grade of C- or better is required for each of the following courses: GSCI 160, GSCI 161, GSCI 170, GSCI 210, GSCI 220, GSCI 331, GSCI 341, GSCI 351, GSCI 361, and GSCI 391.

Department Writing Requirement

A portfolio of student term papers will be established. It will contain papers submitted as partial fulfillment of requirements in the following courses: GSCI 220, GSCI 341, GSCI 351, GSCI 361 (required courses) or GSCI 310, GSCI 332, GSCI 335, GSCI 343, GSCI 345, GSCI 347 (electives). Prior to the student's final semester, the Department will, as a group, review at least three papers in the portfolio. If the faculty agree the work is satisfactory, the student will have successfully completed the writing requirement. Should review of the papers indicate that the student's writing skills are not acceptable, she, he, or they will be required to enroll in a course that emphasizes writing skills. [It could be a regularly scheduled course or a directed study course.]

For further information, please contact your advisor or the Department Chair.

The primary objective of this interdisciplinary program is to prepare students for both immediate careers and graduate-level study in geophysics. The program differs from the Bachelor of Arts degree programs in Geological Sciences and Physics since it provides the background in both mathematics and physics that is required for solution of problems in the field of solid earth geophysics.

(Every semester the department offers multiple sections of 200- and 400-level courses in U.S., European, and LACAANA topics)

Footnotes

*Students who enroll in the Departmental Honors program will complete 41 credits in history.

Minimum Competence Requirement

A grade of C- or better is required for all courses taken for the major.

Department Writing Requirement

The entire History curriculum emphasizes a variety of writing skills and forms. To demonstrate writing proficiency, all history majors will complete a "capstone writing assignment" in the Senior Seminar-HIST 491, Honors Thesis-HIST 493, or the Senior Essay-HIST 496. The student will produce a finished written work of substantial length which reflects the application of diverse writing skills (including planning, pre-writing, revision, etc.). Students must maintain

and, if requested, submit all notes, outlines, drafts, etc., with the final paper. Students must demonstrate writing competence in order to pass the capstone writing assignment.

Humanities

Heidi Savage, Coordinator
(Welles 105B)

The Humanities curriculum is designed to be the center of the College's General Education program and of liberal education in this College. The two courses which make up the Humanities requirement approach the subject of moral and political values using the methods of the three Humanities disciplines: literature, history, and philosophy. The goal of these courses is to acquaint our students with the major Western value systems by examining the basic readings from philosophical and literary points of view, and in a historical context. Although the courses are taught primarily by faculty of the Humanities Academic Area, other faculty members teach in this interdisciplinary program as their schedules permit.

Minor

International Relations Minor

The International Relations Minor provides the interested student the opportunity to gain a substantive and analytical background in foreign affairs. The program affords the student the opportunity to study the significant domestic and international factors affecting relations among countries with particular emphasis on the political and economic dimensions of these relations and their implications for American policy in the world. The program provides both the fundamental background in international relations and the chance for students to specialize in an area. Opportunities for participation in Model United Nations, study abroad, and Washington internships in the area of international relations may be available to qualified students.

Successful completion of the program prepares students for career possibilities in the Federal foreign affairs and defense community, international business, or related areas. The program would also prepare students for graduate study in international relations, business, or area studies.

The program offers an interdepartmental selection of courses from Political Science, School of Business, Anthropology, Communication, Geography, History, Psychology, and Sociology. The student is required to complete 24 credits: 12 credits of basic required courses and 12 elective credits selected by the student from among the International Relations thematic cluster tracks listed above.

Total Required Credits: 24 Credit Hours

Basic Requirements (12 Credit Hours)

- PLSC 120 - S/Comparative Politics **Credit(s): 3**
- PLSC 140 - S/International Politics **Credit(s): 3**

Electives (12 Credit Hours)

Four courses chosen from any one International Relations Track*

Footnotes

* No more than two courses from any academic department; at least two at the 300-level and no more than one at 100-level.

Related Requirements (0-12 Credit Hours)

Students completing the minor will be required to demonstrate competence through the intermediate level or its equivalent.

The foreign language requirement may be satisfied by one of the following:

1. satisfactory completion of course work through the 202 or 203-level
2. satisfactory score on the Foreign Language Placement Test.
3. a score of 4 or 5 on the Advanced Placement ETS Examination

Footnotes

Political Science majors must choose their electives outside Political Science; Economics and Management majors must choose two of their electives outside the School of Business.

Footnotes

NOTES: A minimum of 33 credits of foreign language at the 300 and/or 400-level is required for the major. A minimum of 15 credits (including 301 and 302) must be taken at Geneseo.

Recommended:

Study of a Second language and/or Study Abroad

Minimum Competence Requirement

A grade of C- or better is required for each of the following courses: all 300 and 400-level courses in fulfillment of the 30-hour requirement for the major.

Department Writing Requirement

During their Junior year, students will write a 500- to 600-word essay in the target language under examination conditions. Students will have 2 hours to write on a topic provided at the time of the examination. Students may use bilingual dictionaries and/or dictionaries of the target language. Written proficiency must be at or above the Advanced Low Level of Proficiency as described in the Proficiency Guidelines of the American Council on the Teaching of Foreign Languages. To take the exam, students must contact the Department's secretary at (585)245-5247. NOTE: the exam can only be attempted once per semester. For further information, please contact your advisor or visit the Department's website.

Bachelor of Arts - Adolescence Education

French, Adolescence Education: French, B.A.

Requirements of the Bachelor of Arts degree, the Workshop course includes FREN 320, and specified professional preparation courses must be completed for New York State initial certification (see School of Education program description). All student teachers are required to take the Oral Proficiency Interview (OPI) and pass at the Advanced Low or above level of the American Council on the Teaching of Foreign Languages (ACTFL) in order to be eligible to

student teach. Those students who are planning on student teaching in Fall are encouraged to take the OPI at the end of their first semester junior year, so students who do not score Advanced Low will be able to develop a plan of remediation and have another opportunity before student teaching to take the OPI and achieve the required level. To schedule either of these exams, please read the instructions on the Department's website or contact the department secretary.

Department Notes

In general, French and Spanish language courses 101, 102, 201, and 202 are offered every semester. Chinese, German, Italian, Japanese and Latin (from 101 to 201) are generally offered on a 3- or 4- semester rotation (Note: Italian is currently on hiatus due to staffing issues). Arabic and Russian (from 101 to 202) are offered on a 3- or 4- semester rotation.

All incoming freshmen wishing to enroll in 301 must have earned a score of 4 or 5 on the Advanced Placement Educational Testing Service Examination or have placed at the 300 level on the departmental Foreign Language Placement Examination.

Placement Exam

The Department's Placement Examination is offered in Chinese, French, German, Italian, Japanese, Latin, Russian and Spanish. A placement exam may demonstrate a student's competency in a foreign language in order to partially or fully meet SUNY Geneseo's General Education Requirement, which is the equivalent of three college-level courses in a single language (proficiency up to and including the 201 level). A student may take this exam only once in any one language. Online placement examinations take about 30 minutes to complete, are available in French, German, Russian and Spanish, and are offered during Summer Orientation. To take the exam, students must contact the department's secretary at (585)-245-5247. Please visit the Department's website for a schedule of dates and times. All students should take the exam before registering in classes.

Prerequisite Guidelines

Generally, no student with previous study in a language will be allowed to enroll in the 101 course for that language. Failure to enroll in the proper course could result in loss of earned credits. Students are encouraged to take the Placement Examination in the Department to determine their proper placement.

Internships

Consult the section on internships in this bulletin for additional information.

Study Abroad Programs

SUNY Geneseo has summer semester and year-long programs in French at the Université de Paris-Sorbonne, France, Université Paul-Valéry, Montpellier, France, and in Dakar, Senegal (summer only); semester and year-long study abroad programs in Spanish are available at the Universidad de Cádiz, Spain and Universidad Nacional de Cordoba, Argentina; summer, semester and year-long programs in Spanish at the Universidad Nacional in Heredia, Costa Rica, and at Academia Latinoamericana in Cuzco, Peru and Quito, Ecuador; and a Master's of Spanish Adolescence Education degree that incorporates two semesters of study at Universidad Nacional de Cordoba, Argentina. For more information on these and other study abroad programs, contact the Office of Study Abroad Programs or the Department chair.

Minor

French Minor

A minimum of 18-21 FREN credits, including FREN 202, FREN 301, FREN 302, and 12 credits at the 300 and/or 400 level. A grade of C- or better is required for all courses in fulfillment of the requirements for the minor.

German Minor

A minimum of 18-21 GERM credits, including GERM 202, GERM 301, GERM 302, and 12 credits at the 300-level. A grade of C- or better is required for all courses in fulfillment of the requirements for the minor.

Spanish Minor

A minimum of SPAN 18-21 credits, including SPAN 202, SPAN 301, SPAN 302, and 12 credits at the 300- and/or 400-level. A grade of C- or better is required for all courses in fulfillment of the requirements for the minor.

Mathematics

HEGIS Code: 1701.00 (Mathematics, B.A.), 1701.00 (Mathematics, B.S.), 1703.00 (Applied Mathematics, B.S.), 1701.01 (Mathematics, Adolescence Education: Mathematics, B.A.)

The mathematics department offers four degrees: a Bachelor of Arts, a Bachelor of Arts in Adolescence Education, a Bachelor of Science and a Bachelor of Science in Applied Mathematics.

First Year Students

During the first semester at the College, incoming first year mathematics majors are advised to register in MATH 101.

Minimum Competence Requirement

A grade of C- or better is required for ALL courses submitted in fulfillment of the major in Mathematics. Students may not enroll in any course having prerequisites unless the minimum grade of C- has been earned in the prerequisites or unless special permission has been granted in writing by the course instructor. Prerequisite courses may not be taken after successful completion of any subsequent course.

Department Writing Requirement

MATH 239 and MATH 324 are two required courses in which mathematical writing is emphasized and taught. Writing opportunities (homework, quizzes, exams) will be graded for clear, precise exposition as well as for

mathematical content. The department's writing requirement is satisfied by successfully completing both of these courses.

Bachelor of Arts

Mathematics, B.A.

Total Credits Required for Major: 39-42

Basic Requirements

A. (24 Credit Hours)

Each of the following seven courses:

- MATH 221 - R/Calculus I **Credit(s): 4**
- MATH 222 - Calculus II **Credit(s): 4**
- MATH 223 - Calculus III **Credit(s): 4**
- MATH 230 - Programming and Mathematical Problem Solving **Credit(s): 3**
- MATH 233 - Linear Algebra I **Credit(s): 3**
- MATH 239 - Introduction to Mathematical Proof **Credit(s): 3**
- MATH 324 - Real Analysis I **Credit(s): 3**

B. (9 Credit Hours)

Three courses from the following:

- MATH 326 - Differential Equations **Credit(s): 3**
- MATH 330 - Abstract Algebra **Credit(s): 3**
- MATH 333 - Linear Algebra II **Credit(s): 3**
- MATH 345 - Numerical Analysis I **Credit(s): 3**

- MATH 341 - Probability and Applied Statistics **Credit(s): 3**
or
- MATH 360 - Probability **Credit(s): 3**

- MATH 371 - Introduction to Complex Analysis **Credit(s): 3**

Footnotes

Students seeking Adolescence Certification must take MATH 330, MATH 335, and (MATH 341 or MATH 361) to satisfy the category B requirement. Note: MATH 361 requires MATH 360 as a prerequisite.

C. (0-3 Credit Hours)

All students majoring in mathematics will take either MATH 348 - Oral Presentation and Research Seminar or INTD 302 - Methods and Materials in Secondary Education: (subtitle).

This requirement may be waived if a student has:

1. Made an oral presentation on a mathematical topic that has been assessed with the mathematics department rubric and found satisfactory;
And
2. Produced a researched paper that has been assessed with the mathematics department rubric and found satisfactory;
And
3. Evaluated a public mathematical talk using the mathematics department rubric. Forms and permission for such a waiver are available from the mathematics department chair.

D. Elective Requirements: (6 Credit Hours)

Two additional 3 credit courses at the 300-level. Students seeking Adolescence Certification must take MATH 390 as one of these two elective courses.

*Notes: Majors are required to take MATH 324 and five 300-level mathematics electives, including three courses from MATH 326, MATH 330, MATH 333, MATH 345, (MATH 341 or MATH 360), MATH 371.

**Mathematics majors seeking adolescence certification may take INTD 302 (Math Option) in place of MATH 348. All mathematics majors should consult with their advisor or the Mathematics Department Chair for other options.

Extensive changes in this sample program would be required of students in the Childhood and Adolescence Mathematics Education Certification programs.

Note: Where no prerequisites apply, some variation in the order or semester in which courses are taken is possible. Students should consult their academic advisors for additional information.

Bachelor of Arts - Adolescence Education

Mathematics, Adolescence Education: Mathematics, B.A.

Requirements are the same as for the B.A. degree except that MATH 330, MATH 335, and either MATH 341 or MATH 361 are required to fulfill requirement B. In addition, students must take MATH 390 as one of their 300-level electives. Students must also complete the certification requirements set forth in the School of Education program description. See *education.geneseo.edu* for more information.

Minimum Competence Requirement

Department Writing Requirement

MATH 239 and MATH 324 are two required courses in which mathematical writing is emphasized and taught. Writing opportunities (homework, quizzes, exams) will be graded for clear, precise exposition as well as for mathematical content. The department's writing requirement is satisfied by successfully completing both of these courses.

Bachelor of Science

Mathematics, B.S.

Total Credits Required for Major: 52

Basic Requirements (28 Credit Hours)

- MATH 221 - R/Calculus I **Credit(s): 4**
- MATH 222 - Calculus II **Credit(s): 4**
- MATH 223 - Calculus III **Credit(s): 4**
- MATH 230 - Programming and Mathematical Problem Solving **Credit(s): 3**
- MATH 233 - Linear Algebra I **Credit(s): 3**
- MATH 239 - Introduction to Mathematical Proof **Credit(s): 3**
- MATH 324 - Real Analysis I **Credit(s): 3**
- MATH 330 - Abstract Algebra **Credit(s): 3**
- MATH 348 - Oral Presentation and Research Seminar **Credit(s): 1**

Additional Requirements (18 Credit Hours)

Six courses from the 300 level mathematics course offerings, chosen in consultation with the faculty advisor so that three of the following options are completed.*

1. Foundations

Two of:

- MATH 301 - Mathematical Logic **Credit(s): 3**
- MATH 302 - Set Theory **Credit(s): 3**
- MATH 338 - Topology **Credit(s): 3**

2. Algebra

Two of:

- MATH 319 - Theory of Numbers **Credit(s): 3**
- MATH 333 - Linear Algebra II **Credit(s): 3**
- MATH 381 - Topics in Algebra: (subtitle) **Credit(s): 3**

3. Analysis

- MATH 325 - Real Analysis II **Credit(s): 3**

One of:

- MATH 350 - Vector Analysis **Credit(s): 3**
- MATH 371 - Introduction to Complex Analysis **Credit(s): 3**

4. Research

A combined 6 credits taken from any combination of MATH 393 (may be repeated), MATH 398 (may be repeated), any chair-approved research course offering(s), at most one additional course from options 1-3.

Footnotes

*A course within the additional requirements may be replaced by a chairapproved offering of MATH 380 with the appropriate content.

Elective Requirements (6 Credit Hours)

- Two additional 3 credit mathematics courses at the 300-level

Music

Gerard Floriano, Chair
(Brodie Hall 101A)

HEGIS Code: 1005.00 (Music, HTCC Option, B.A.), 1005.00 (Music, Performance Option, B.A.), 1004.00 (Musical Theatre, B.A.)

The BA in Music offers students the opportunity to study music performance, history, theory, criticism, ethnomusicology, composition, and conducting. Students declaring a major in music must select one of two options: Music Performance or Musicology/HTCC (History, Theory, Criticism and Composition (HTCC) or. All majors must complete a series of basic requirements as well as additional requirements based on their chosen option.

An audition is required for admission to degree programs in Music and Musical Theatre, and the minor in Piano Pedagogy

- MUSC 365 - Conducting I **Credit(s): 3**
- MUSC 366 - Conducting II **Credit(s): 3**
- MUSC 456 - Composition for the Music Major **Credit(s): 2**

Additional Requirements

Elective Requirement: In addition to the courses above, the following may also fulfill the elective requirement

- A maximum of 3 credits of MUSC 160 or MUSC 165 Performance Organization;
- A maximum of 3 credits of MUSC 240 or MUSC 340 Piano or Applied Study;
- One, 3-credit course in a humanities or social science discipline outside of music at the 300-level or higher with an emphasis on theory, subject to department approval.

Juries and Recital Requirement

- Jury examination each semester in the Music Performance Option;
- Performance in a Friday afternoon recital each semester in the Music Performance Option or in some other public, faculty-sponsored event approved by the principal instructor;
- Solo performance of approximately one-half hour in a shared Junior Recital.

Minimum Competency Requirement

A grade of C- or better is required for all major requirements, including all required coursework and electives. For the Music Performance Option, a grade of C- or better is required for all major requirements, including all general and performance option coursework; all performance organization requirements; all juries and the junior recital.

Department Writing Requirement

Each of the following courses includes a writing assignment in formal prose of about ten pages in length, following one of three approaches - analytical, historical, or a combination of these: MUSC 311, MUSC 315, MUSC 331, MUSC 333, MUSC 334, MUSC 335, MUSC 336, MUSC 337, MUSC 338, and MUSC 339. The organization of each paper should be clear, the writing appropriately literary, and grammatically and syntactically correct. The ideas should present a logical argument, as suggested by an earlier outline. The paper should be typed and doubled-spaced, with page numbers and one-inch margins. All sources consulted should be cited in a consistent manner in footnotes and a complete bibliography, following the standard format described in *The Chicago Manual of Style* or *Kate Turabian's Manual for Writers*. It is the music historian's responsibility to oversee the implementation of the writing requirement and to enforce a fair and equal standard for all papers submitted.

Students who plan to attend graduate school are strongly advised to complete two years of foreign language study

Music, Performance Option, B.A.

An audition is required for admission to the Music Performance Option (see details below).

Audition Requirements: The BA in Music with the Option in Music Performance is intended for students who wish to pursue instrumental or vocal performance studies within the context of a liberal arts degree. Students may major in Piano, Voice, Flute, Oboe, Clarinet, Saxophone, Bassoon, Trumpet, Horn, Trombone, Euphonium, Tuba, Violin, Viola, Cello, Double bass, or Percussion. Entrance to the Music Performance Option is by audition as follows:

Performance Option-Voice: three contrasting, memorized art songs, including one in a foreign language, that demonstrate classical singing technique at NYSSMA Level VI; applicants also may be requested to sight read; résumé. (Geneseo will provide an accompanist.)

Performance Option-Piano: three contrasting, memorized selections from different time periods, equivalent in difficulty to NYSSMA Level V or VI or Federation Level Very Difficult I; applicants also may be requested to play scales and arpeggios, and sight read; résumé.

Performance Option-Brass, Strings, or Winds: three contrasting selections equivalent in difficulty to NYSSMA Level VI; applicants also may be requested to play scales and arpeggios, and sight read; résumé.

Performance Option-Percussion: three selections equivalent in difficulty to NYSSMA Level VI, one on snare, one on timpani, one on a melodic instrument; applicants also may be requested to tune timpani, play scales and arpeggios on a melodic instrument, and sight read; résumé.

Additional Requirements

Ensemble Participation Requirement: Participation in the following specified performance organizations each semester in the Music Performance Option (NOTE: a maximum of eight credits may be applied to the degree)

- Music Performance Option-Piano: a MUSC 160 or MUSC 165 organization, or an equivalent activity approved by the Piano Coordinator and participation in weekly Piano Seminar;
- Music Performance Option-Voice: a MUSC 160 organization (placement by audition and participation in weekly Voice Seminar);
- Music Performance Option-Woodwind, Brass, or Percussion: MUSC 165 Chamber Symphony, Wind Ensemble, or Jazz Ensemble (placement by audition) and participation in weekly Instrumental Seminar;
- Music Performance Option-String: MUSC 165 Symphony Orchestra and participation in weekly Instrumental Seminar. maximum of eight credits may be applied to the degree.

Juries and Recital Requirement

- Jury examination each semester in the Music Performance Option;
- Performance in a Friday afternoon recital each semester in the Music Performance Option or in some other public, faculty-sponsored event approved by the principal instructor;
- Solo performance of approximately one-half hour in a shared Junior Recital.

Minimum Competency Requirement

A grade of C- or better is required for all major requirements, including all required coursework and electives. For the Music Performance Option, a grade of C- or better is required for all major requirements, including all general and performance option coursework; all performance organization requirements; all juries and the junior recital.

Department Writing Requirement

Each of the following courses includes a writing assignment in formal prose of about ten pages in length, following one of three approaches - analytical, historical, or a combination of these: MUSC 311, MUSC 315, MUSC 331, MUSC 333, MUSC 334, MUSC 335, MUSC 336, MUSC 337, MUSC 338, and MUSC 339. The organization of each paper should be clear, the writing appropriately literary, and grammatically and syntactically correct. The ideas should present a logical argument, as suggested by an earlier outline. The paper should be typed and doubled-spaced, with page numbers and one-inch margins. All sources consulted should be cited in a consistent manner in footnotes and a complete bibliography, following the standard format described in The Chicago Manual of Style or Kate Turabian's Manual for Writers. It is the music historian's responsibility to oversee the implementation of the writing requirement and to enforce a fair and equal standard for all papers submitted.

Students who plan to attend graduate school are strongly advised to complete two years of foreign language study

* Prospective majors are strongly encouraged to take MUSC 139 and MUSC 140 in their first year of study and in conjunction with MUSC 189 and MUSC 190.

*MUSC 250-MUSC 255 have prerequisite requirements of proficiency at the level of two semesters of the corresponding MUSC 150-MUSC 155 course.

Where no prerequisites apply, some variation in the order or semester in which courses are taken is possible. Students should consult their academic advisors for additional information

Musical Theatre, B.A.

An audition is required for admission to the interdisciplinary Major in Musical Theatre.

Applicants will audition in the three performance areas of voice, dance, and acting. Musical theatre applicants will also complete music theory and sight-singing placement exams.

Voice: Students must prepare three 32-bar musical theatre songs that demonstrate their ability to sing in tune with good vocal quality and musical intelligence. The songs should be memorized and one should be written before 1965. One of the songs should be a ballad. If a student has significant classical training, an art song or aria may be substituted as one of the three prepared songs. Please bring your sheet music, in the correct key, in a hard-back, three-ring binder (for easiest page-turning.) A pianist will be provided.

Acting: Student must prepare two contrasting monologues, traditionally a comedic and a dramatic monologue. Each piece should be less than one-and-a-half minutes long and memorized. Select audition monologues that contain characters within five years of your current age. There is no period requirement.

Dance: Students will participate in a warm-up, a short technique class, and learn a brief dance combination from a musical. There will be time to change into dance attire. Students should dress in appropriately fitted dance or athletic clothes.

An interview follows the audition. Musical theatre students must submit a resume that includes personal goals as a theatre artist, relevant theatre experience, special skills and hobbies, and other performance or athletic experience. Your resume will be collected on the date you are scheduled to audition.

Neuroscience

Terry Bazzett, Coordinator
(Bailey Hall 145)

HEGIS Code: 0425.00 (Neuroscience, B.S.)

Faculty of the departments of Biology, Chemistry and Psychology.

Admission to the Neuroscience Major

Admission Procedure

Students may not enter the college as declared Neuroscience majors. To be admitted into the Neuroscience program, students must first:

- Complete a minimum of two full-time academic semesters at the college and earn a minimum of 24 credit hours in course work at Geneseo.
 - Complete a minimum of 8 credits required for the Neuroscience major in course work at Geneseo.
 - Earn a 2.85 cumulative GPA or higher.
 - Submit by, June 1, an Application Form available in Bailey 145, indicating their desire to major in Neuroscience.
- Students may apply for admission to the Neuroscience program when they meet the above criteria, and will be notified of their acceptance by the director of the Neuroscience program by June 30th.

Acceptance will be based primarily on consideration of GPA, relevance of coursework completed, and input from members of the Neuroscience faculty.

Incoming freshmen interested in being admitted to the Neuroscience program are strongly encouraged to take the appropriate introductory courses during their first two semesters.

Transfer Student Policy

Transfer students may apply to the Neuroscience program if they have successfully completed, at the time of application, a minimum of 30 credit hours at another institution with a minimum GPA of 3.0.

Transfer students who have successfully completed fewer than 30 credit hours at another institution, with a minimum GPA of 3.0, may apply for admission to the Neuroscience program upon completion of at least 15 credit hours at Geneseo. A minimum cumulative GPA at Geneseo of 2.85 is required.

Change of Major Policy

Students accepted into the Neuroscience program must complete and submit a Change/Declaration of Major form. The completed form and the student's advisement folder should be submitted to the director of the Neuroscience program in Bailey 145. Change of major requests are not processed during the pre-registration and drop/add periods.

Bachelor of Science

Neuroscience, B.S.

The Neuroscience Program is an interdisciplinary program designed to prepare students for graduate study, medical school, and careers focused on Neuroscience research. This program emphasizes basic research methods and the practical application of those methods to the process of scientific discovery.

Cannot be used as a second major with Biology, Chemistry, Biochemistry, Biophysics, or Psychology.

Bachelor of Arts

Philosophy, B.A.

David Levy, Chair (Welles Hall 107B) - philosophy.geneseo.edu

Total Credits in Major Required for Degree: 30

Basic Requirements (30 Credit Hours)

- PHIL 111 - R/Introduction to Logic **Credit(s): 3**
- PHIL 205 - Ancient Philosophy **Credit(s): 3**
- PHIL 207 - Modern Philosophy **Credit(s): 3**
- PHIL 330 - Ethical Theory **Credit(s): 3**
- PHIL 340 - Theory of Knowledge **Credit(s): 3**
- PHIL 355 - Metaphysics **Credit(s): 3**

- PHIL 397 - Seminar: Major Problems **Credit(s): 3**
- or
- PHIL 398 - Seminar: Major Philosophers **Credit(s): 3**

- Electives in Philosophy **Credit(s): 9**

Footnotes

Only one 100-level elective will count toward the major. PHIL 393 and PHIL 399 require department approval for use in the major.

Note: Majors seriously considering graduate school in Philosophy are strongly advised to take one or more of PHIL 209, PHIL 317, PHIL 375.

Minimum Competence Requirement

A grade of C- or better is required for each of the following courses:

- PHIL 111 - R/Introduction to Logic **Credit(s): 3**
- PHIL 205 - Ancient Philosophy **Credit(s): 3**
- PHIL 207 - Modern Philosophy **Credit(s): 3**
- PHIL 330 - Ethical Theory **Credit(s): 3**
- PHIL 340 - Theory of Knowledge **Credit(s): 3**

- PHIL 355 - Metaphysics **Credit(s): 3**
- and
- PHIL 397 - Seminar: Major Problems **Credit(s): 3**
- or
- PHIL 398 - Seminar: Major Philosophers **Credit(s): 3**

Department Writing Requirement

The last paper written by each major in PHIL 205, PHIL 207, PHIL 330, PHIL 340 and PHIL 355 will be dated, copied, and placed in the student's file before the paper is graded. Two faculty will review the files of graduating students to determine a) whether the student's writing improved, and b) action that should be taken in case additional work is needed.

Double Major

Students have found that by electing philosophy as a second major they can develop skills that will be invaluable throughout their careers. They learn to think, read, and write clearly, coherently, and critically. They learn to analyze and evaluate arguments. They learn the art of questioning, that is, how to inquire. Finally, they practice stepping out of a given framework when viewing a problem. Many seemingly unsolvable problems are unsolvable only because the solver is uncritically committed to certain assumptions.

- or
- PHYS 372 - Undergraduate Research **Credit(s): 2**
- or
- EDUC 350 - Student Teaching - High School Education **Credit(s): 6** Students seeking Adolescence Education may substitute 2 credits of student teaching for this requirement

300-level PHYS electives including at least one of the following (12 Credit Hours)

- PHYS 311 - Classical Mechanics **Credit(s): 3**
- PHYS 344 - Statistical Thermodynamics **Credit(s): 3**
- PHYS 335 - Intermediate Electricity and Magnetism I **Credit(s): 3**

Footnotes

Note: BA students may not receive degree credit for both PHYS 313 and PHYS 332.

Note: Directed Studies cannot count towards the elective credits in physics.

Note: Physics/Math double majors should take MATH 230 instead of INTD 121.

Footnotes

Because there is flexibility within the basic Bachelor of Arts degree requirements some options available are

- Interdisciplinary study (e.g., biophysics and geophysics);
- Preparation for graduate study in physics and engineering;
- Qualification for commercial and/or industrial employment (e.g., for positions in physics research laboratories and as technical sales and/or service representatives).

Minimum Competence Requirement

A grade of C- or better is required for each of the following courses: PHYS 123/PHYS 124, PHYS 125/PHYS 126, PHYS 223, PHYS 362; MATH 221, MATH 222, MATH 223.

Department Writing Requirement

The Department requires writing in lab classes throughout the program building up to PHYS 362: Intermediate Laboratory. Intermediate Laboratory require full reports that are evaluated with attention to style and technique as well as content. Students submit rewrites as necessary. A portfolio of reports from this course is maintained for each student. The writing requirement is satisfied by successful completion of PHYS 362.

Footnotes

Students must complete the College General Education requirements.

Note: The Natural Science general education requirement is satisfied by the program requirement.

Students completing this five-year program receive the Bachelor of Arts degree (in physics) from Geneseo and the Bachelor of Science in Engineering degree from an engineering school. Please contact Dr. Ed Pogożelski for a list of engineering schools with which SUNY Geneseo has a 3/2 articulation agreement. Those pursuing this program must satisfy Geneseo's requirements for four-year programs. Appropriate courses completed at the other institutions can be used to fulfill some of these requirements. Students must complete 90 credits at Geneseo before transferring to the engineering school.

Bachelor of Arts - Adolescence Education

Physics, Adolescence Education: Physics and General Science, B.A.

Students whose objective is to become secondary school physics teachers qualify for New York State initial certification by completing the Bachelor of Arts degree program in the department and the courses required in the Teacher Education program (see School of Education program description). Certification in adolescence education is not available with the Bachelor of Science in Applied Physics.

A minor in chemistry, biology, geology, mathematics, or an internship (upon a recommendation of the department) during the summer and fall semester following the third year

Minimum Competence Requirement

A grade of C- or better is required for each of the following courses: PHYS 123/PHYS 124, PHYS 125/PHYS 126, PHYS 223, PHYS 362; MATH 221, MATH 222, MATH 223.

Department Writing Requirement

The Department requires writing in lab classes throughout the program building up to PHYS 362: Intermediate Laboratory. Intermediate Laboratory require full reports that are evaluated with attention to style and technique as well as content. Students submit rewrites as necessary. A portfolio of reports from this course is maintained for each student. The writing requirement is satisfied by successful completion of PHYS 362.

- Elective **Credit(s): 3**
- Elective **Credit(s): 3**
- Elective **Credit(s): 4**

Total Credit Hours: 120

NOTE:

(1) Lab Science I and II must be taken in the same discipline.

*Honors in Physics. Senior majors having completed PHYS 372 may be invited by the department to take PHYS 393: Honors in Physics. (These students are exempt from the PHYS 341 requirement.) Students completing PHYS 393 satisfactorily will graduate with Honors in physics.

Note: Where no prerequisites apply, some variation in the order or semester in which courses are taken is possible. Students should consult their academic advisors for additional information.

Minor

Physics Minor

(Not available to Biophysics and Geophysics majors.) 20 credits in physics which must include PHYS 123/PHYS 124, PHYS 125/PHYS 126, PHYS 223, PHYS 224, PHYS 226, PHYS 228, and one additional 300-level course (cannot be research credits). Students should note the MATH co-requisite and prerequisite courses for the PHYS requirement.

- and
- BIOL 119 - General Biology: Diversity, Physiology, Ecology **Credit(s): 3**

- Any 100-level SOCL course **Credit(s): 3**

Footnotes

A minimum of 21 credits in Psychology courses must be completed at Geneseo.

*Students must demonstrate proficiency in Basic Requirements before taking most 300- and 400-level classes in Psychology (as noted in course descriptions).

**A student who has received credit (and a grade of at least C-) for BIOL 250, ECON 205, GEOG 278, MATH 242, MATH 262, PLSC 251, or SOCL 211 may use this course in place of PSYC 250 to fulfill the statistics requirement for the major. The student must then complete an additional psychology elective in order to reach the 45 psychology credits required for the major.

***Three 300-level PSYC courses (excluding PSYC 391, PSYC 395, PSYC 396, PSYC 397) must be completed with at least a C- before taking PSYC 452

****The related requirement in Biology is a pre- or co-requisite for Biopsychology. The related requirements in Biology and Sociology can be used to satisfy the College general education requirement in natural sciences (N/) and social sciences (S/). Pre-medical students are advised to take BIOL 117, BIOL 119, BIOL 116, AND SOCL 100. NOTE: BIOL 100 and BIOL 105/BIOL 106 do not fill the Biology related requirement

Minimum Competence Requirement

ALL PSYCHOLOGY COURSES COUNTED FOR THE PSYCHOLOGY MAJOR REQUIREMENTS MUST RECEIVE A GRADE OF C- or better. Psychology majors must achieve a C average (2.0) across the courses counted for the major requirements.

Proficiency in Basic Requirements: Students must complete all Basic Requirements (PSYC 100, PSYC 250, PSYC 251, PSYC 225, and PSYC 233) with a minimum grade of C- in each class, and a GPA of C (2.0) across these five courses prior to taking most 300- or 400-level PSYC classes (as noted in course descriptions). Students should consult the department webpage for details about how to demonstrate the minimum competence requirements. Students with AP or transfer credits for any Basic Requirements must consult with the department about their eligibility for upper-level classes. If a D or E is earned in any Psychology course, majors may repeat each course one time to achieve the required minimum grade. Students may not go on to upper-division Psychology courses until a C- or better is earned in all prerequisites for that course. (See "Repeated Courses: D and E Grade Policy" in this bulletin.)

Department Writing Requirement

All majors must successfully complete PSYC 452 with a grade of C- or higher. One prerequisite of this course is PSYC 251 (Introduction to Behavioral Research Methods), which introduces students to writing research reports in psychology. PSYC 452 (Advanced Research in Psychology: subtitle) extends the training students receive in PSYC 251 by having them apply what they have learned to the task of producing written reports of laboratory research. PSYC 452 is a writing-intensive course.

NOTE:

- PSYC 250 satisfies the college requirement for Numeric/Symbolic Reasoning.
- Note that: (a) PSYC 100 is a prerequisite for all other Psychology courses; (b) Proficiency in Basic Requirements is the prerequisite for most 300-level Psychology courses; (c) All prerequisites must be completed with a minimum C- grade before taking 200-, or 300-, or 400-level Psychology courses..
- The College requires a 1.67 grade point average in the related requirements for all majors as well as a 2.00 grade point average across the courses counted toward the major requirements..
- Students must complete PSYC 452 at Geneseo. The prerequisites for PSYC 452 include proficiency in Basic Requirements and three 300-level PSYC courses. These 300-level courses should be courses with specific academic content. Experiential courses (PSYC 391, PSYC 395, PSYC 396, PSYC 397) do not count as prerequisites. All prerequisites must be completed with a minimum grade of C - before taking PSYC 452.
- Only one course can be transferred to meet Content Area requirements.
- No more than 3 credits from PSYC 294, PSYC 299, PSYC 391, PSYC 395, PSYC 396, PSYC 397, or 399 may be used to satisfy elective requirements of the major.
- A maximum of 51 credits in psychology may be included within the 120 credits required for the degree. At least 69 credits must be completed outside of the Psychology department.
- Any student who renders psychological services or implies to the public that they, she, or he is licensed to practice as a psychologist is acting in contravention of the laws of the State of New York Education Law, Article 153, Sections 7601-7614.
- Majors who contemplate graduate study in psychology are encouraged to develop proficiency in computer use and/or a foreign language, and to take courses in biology.

Minor

Psychology Minor

Effective Fall 2018, admission of new students to the Psychology minor is being temporarily suspended. Students who entered Geneseo before Fall 2018 may apply as long as they meet the following criteria:

A minimum of 9 credits counted toward the minor must be completed at Geneseo.

Basic Requirements (21 Credit Hours)

- PSYC 100 - Introductory Psychology **Credit(s): 3**
- PSYC 250 - R/Introduction to Behavioral Statistics **Credit(s): 3 ***
- PSYC 251 - Introduction to Behavioral Research Methods **Credit(s): 3**
- Electives in Psychology (At least 3 credits at the 300-level) **Credit(s): 3**

Footnotes

*A student who has received credit (and a grade of at least C-) for BIOL 250, ECON 205, GEOG 278, MATH 242, MATH 262, PLSC 251, or SOCL 211 may use this course in place of PSYC 250 to fulfill the statistics requirement for the minor. The student must then complete an additional psychology elective in order to reach the 21 credits required for the minor.

Sociology

Kurt Cylke, Chair
(Bailey 206A)

- SOCL 378 - Senior Seminar: Study Abroad **Credit(s): 3**
- SOCL 379 - Senior Seminar: Senior Thesis **Credit(s): 3**

Electives in sociology (18 Credit Hours)

Six electives in Sociology must be chosen. At least 6 credits must be at the 300-level. Students are encouraged to take classes across a broad range of topics in consultation with their advisors.

Footnotes

*Students who have taken BIOL 250, ECON 205, GEOG 278, MATH 242, MATH 262, PLSC 251 or PSYC 250 will have fulfilled the SOCL 211 requirement but must take an additional 3 credit SOCL course to satisfy the 18 credits of SOCL courses needed for the Basic Requirements category.

Minimum Competence Requirement

Sociology majors are required to earn a minimum of a C- in each of the following courses -SOCL 100, SOCL 211, SOCL 212, SOCL 265, SOCL 365, and the course used to fulfill the senior seminar requirement (SOCL 376, SOCL 377, SOCL 378, or SOCL 379). If a C- is not earned in these classes (100, 211, 212, 265, 365, and senior seminar), students may **ONLY** repeat a class once to achieve the required minimum grade.

Department Writing Requirement

All majors shall successfully complete the existing program requirements. Program requirements involve extensive writing in at least 83 percent of the course offerings. To complete program requirements, students are required to write a variety of papers and essays. Students successfully completing two 300-level electives (with a minimum grade of C-) shall have completed the department

NOTE:

- For students who have received credit for a statistics course in another department, the Department Chair will waive this portion of the Major/Minor under the condition students will be responsible for adding another Sociology elective at or above the 200-level to complete the required elective credits for the Major/Minor. (Credit will not be granted for more than one 200-level statistic course.)
- No more than 3 of the 18 total elective credits may be earned through Internships and Directed Study. Internships may not be counted toward the required six credits of 300-level electives.
- No more than 6 credits at the 100-level may be applied to the major writing requirement.

Minimum Competence Requirement

A grade of C- or better is required for each of the following courses: all required courses, whether basic, elective, or focus.

Department Writing Requirement

All theatre majors write in all theatre courses, but the style and content of the writing varies widely based upon the course topic. Examples include journals, concept statements, dramatic fiction, production analyses, character analyses, and traditional research papers, such as one might find in any other course in the humanities. In the required theatre history sequence of four courses (THEA 202, THEA 203, THEA 204, THEA 305), students write traditional research papers combining theatrical history with the study of dramatic literature and criticism. In the process, students learn to

read primary and secondary sources closely, to conduct academic research, and to write essays with a well-argued thesis and properly documented sources.

Women's and Gender Studies

Melanie Blood, Coordinator
(Welles 217B)

geneseo.edu/wgst

HEGIS Code: 4903.00

The Women's and Gender Studies major at SUNY Geneseo is a multi-disciplinary and interdisciplinary program designed to be flexible to accommodate multiple focuses. It includes feminist analyses of the construction and enforcement of gender differences and gender inequalities in various contexts, with an emphasis on the intersection of gender with race, class, sexuality, and nationality in the lives of women. Students are encouraged to apply what they learn in Women's and Gender Studies classrooms to other areas of their lives. All students take a core set of Women's and Gender Studies courses plus at least one course in five content areas in which the study of women and gender provide significant insights, using feminist methodologies and pedagogy. Additionally, each student completes a three course sequence in one of the clusters and completes a capstone experience designed to apply concepts from the Women's Studies Program toward their future career goals.

Note: Where no prerequisites apply, some variation in the order or semester in which courses are taken is possible. Students should consult their academic advisors for additional information.

Minor

Women's and Gender Studies Minor

The Women's and Gender Studies minor at SUNY Geneseo focuses on women and gender using multi-disciplinary and interdisciplinary approaches. It includes feminist analyses of the construction and enforcement of gender differences and gender inequalities in various contexts, with an emphasis on the intersection of gender with race, class, sexuality, and nationality in the lives of women. Students are encouraged to apply what they learn in Women's and Gender Studies classrooms to other areas of their lives. All students take a core program of Women's and Gender Studies courses plus elective courses offered by other departments that study women and gender issues, using feminist methodologies and pedagogy. Additionally, each student completes a capstone experience designed to apply concepts from the Women's and Gender Studies Advisory Committee is willing to work closely with students to design feasible, individualized study, especially when students' study abroad or other academic requirements make it impossible for them to take one of these courses.

- No more than one at the 100-level.

Athletics and Recreation

Michael Mooney, Director
(Merritt Athletic Center 213)
geneseoknights.com

The Department of Intercollegiate Athletics and Recreation offers courses designed to address both individual interest and career aspirations of our students. The courses are grouped into specific categories based on the nature of the activity. Each course in the category has similar attributes necessary for success and enjoyment. The intent is to encourage students to find meaningful activities that will lead to life-long leisure pursuits.

The 100-level courses are introductory in nature and require no previous experience in the activity. The 200-level courses are advanced activity courses that require a general knowledge about the sport and a degree of proficiency in executing the skill required in the activity. The 300-level courses are theory courses that lead to Red Cross certification in first aid or the coaching requirements for the public schools in New York State.

All 100- and 200-level activity courses are graded on a Satisfactory-Unsatisfactory scale. A grade of "S" is equal to a "C-" or better on the college letter grading policy. Following is a list of courses offered by the Intercollegiate Athletics and Recreation Department. A course outline for each course is available in the department office.

Requirements for Coaching in the Public Schools of New York State

The New York State Education Department has approved the college's offering, per Section 135.4 of the "Regulations of the Commissioner of Education," a program of courses in coaching for teachers who do not have New York State certification in physical education. The program for which the college has received approval consists of a minimum of the following 9 credits:

1. H&PE 352 - Responding to Emergencies	2 credits
---	-----------

2. H&PE 353 - Care and Prevention of Athletic Injuries (Prerequisite: H&PE 352)	3 credits
3. H&PE 354 - Philosophy and Principles of Athletics in Education (Prerequisite: H&PE 352)	3 credits
4. H&PE 355 - Coaching: (subtitle) (Prerequisite: H&PE 352)	1 credits

In addition to the above, the State Education Department requires that all persons applying for certificates must complete a workshop on the identification and reporting of suspected child abuse or maltreatment. It is the student's responsibility to make arrangements for and to complete this workshop, and to submit to the college documentation indicating completion of the workshop.

Graduate credit for the coaching certification may be approved by the Dean of the Curriculum and Academic Services.

Upon satisfactory completion of the above sequence of courses and the workshop required by the state, the college will issue a Certificate of Achievement. In order to receive the Certificate, the applicant should present name, G00#, and permanent address to the Director of Intercollegiate Athletics and Recreation. Upon verification that the applicant received a grade of "C" or better in each of the courses, a certificate will be forwarded to the individual.

Intramurals and Recreation

The purpose of the intramural and recreation program is to provide opportunities for participation in a wide variety of sports activities consistent with the goals to educate the whole person.

A variety of team and individual sports are offered in league and tournament play. The Intramural and Recreation Office also assists groups in planning special events and off campus outings.

Participation is open to all faculty, staff, and full-time students. In addition to the regularly scheduled intramural programs, the athletic and recreation facilities are available evenings and weekends, making it possible for students and faculty to engage in a wide variety of recreational activities. It is hoped that through involvement in the intramural and recreation programs students will develop regular patterns of physical activity, maintain good physical health, enhance their mental health, and learn skills that will be utilized throughout their lives.

Persons other than students, faculty and staff must pay for the use of athletic facilities with the exception of the workout center. For further information concerning the user fee policy, contact the Intramural and Recreation Office.

Intercollegiate Athletic Program

The Intercollegiate Athletic Program provides an opportunity for full-time students to compete in a wide variety of varsity sports. The following sports are available for men: basketball, cross country, hockey, lacrosse, soccer, swimming, indoor track, and outdoor track. The sports available for women include basketball, cross country, equestrian, field hockey, lacrosse, soccer, softball, swimming, indoor track, outdoor track, tennis and volleyball. All student athletes should enroll in the college's insurance program or provide the Director of Intercollegiate Athletics with evidence of personal health and accident insurance coverage. The college holds membership in the following associations:

National
College Sports Information Directores Association]

National Collegiate Athletic Association, Division III
United States Intercollegiate Lacrosse Association
National Athletic Trainers Association
National Intramural - Recreation Sports Association

Statewide

State University of New York Athletic Conference

Interdisciplinary Minors

An academic minor is a structured sequence of courses totaling a minimum of 18 credits. A departmental minor may require a maximum of 24 credits; an interdisciplinary minor carries a maximum of 29 credits. A student must complete all courses required for the minor with a grade point average of at least 2.00, although a higher standard will apply when it is specifically stated in the requirements of a minor. Unless otherwise noted, each department or program that offers a major may offer one minor.

To declare a minor, a student must complete a form available in the Office of the Dean of Academic Planning and Advising Erwin 106, and obtain approval from the department chair (for a departmental minor) or from the coordinator (for an interdisciplinary minor). Completion of up to two academic minors is noted on a student's transcript, provided that all other requirements for a baccalaureate degree have been successfully completed.

Minor

Asian Studies Minor

Randy Barbara Kaplan, Coordinator (Brodie Hall 173D)

With a broad definition of Asia extending from the Pacific Rim to the Arabian Sea, this minor gives students an opportunity to study Asia as an integral part of human civilization. By including a broad range of disciplines (anthropology, art history, business, geography, history, Arabic, Chinese, Japanese, Asian American literature and film, performing arts, philosophy, political science, and sociology), this minor is especially designed to serve students who are interested in learning about the diversity of Asian cultures, religions, languages, and socio-political contexts, and how they coexist and intermingle - both within Asia and between Asia and the West. As the world has become increasingly interdependent and multicultural, this minor trains students to meet the challenges they are going to face as qualified and humane citizens of the twenty-first century.

Total Required Credits: 21

Basic Requirements:

Completion of 21 credits from the courses listed below. Courses must be chosen in such a way that the following requirements are met:

- Four courses must be above the 100-level.
- Three Asian language courses (through the 201 level) can be counted toward meeting the requirement.
- The courses chosen should be from at least 3 different departments. Advisement will be required for all students pursuing the program.

Central and Eastern European Studies Minor

Cynthia Klima, Coordinator (Welles Hall 206C)

The Central and Eastern European Studies Minor is designed for students who desire an interdisciplinary study of the countries whose impact on world politics is ever-evolving. Newly-independent states of the former Warsaw Pact, the former Yugoslavia as well as Germany and Austria are included in this realm of study. As interest grows in these regions to establish economic and educational entities, knowledge of languages, cultures, politics and history becomes more crucial. These are markets whose economic and political climate remains precarious as the face of Europe changes. This minor will prepare students for issues that will continue to develop and have an impact not only on the United States, but also on the entire world.

Total Credits Required: 21 Credits

Basic Requirements (15 Credit Hours)

Cognitive Science Minor

Jason Ozubko, Coordinator (Bailey Hall 133)

Cognitive Science is a rapidly growing interdisciplinary field aimed at developing an understanding of the human mind. The minor in Cognitive Science is designed to provide students with a foundation of knowledge from disciplines primarily involved with investigating the nature of mental activity. The minor is excellent preparation for students planning to attend graduate school in Artificial Intelligence, Cognitive Psychology, Computer Science, Linguistics, or Philosophy. The minor can also be used to prepare for advanced training or a career in Human Factors.

Total Credits Required: 24-25 Credits

III. Electives (9 Credit Hours)

In addition to three courses in the area of concentration, students must complete one course from each of the other three concentration tracks in this minor.

Footnotes

Each course may apply only once to the minor.

At least 9 credits must be unique to the minor.

Students must take courses from at least three different prefixes, including at least two different prefixes within their chosen Concentration.

Students must apply a minimum of two 300-level courses, and may apply maximum two 100-level courses, toward the minor.

Environmental Studies Minor

David L. Agesen, Coordinator (Bailey Hall 233)

The Environmental Studies minor is truly interdisciplinary, with courses from twelve different departments in addition to those courses that have ENVR prefixes. Students are provided with an opportunity to approach environmental issues from a holistic or integrative perspective, and are required to take courses from the social sciences and humanities, as well as from the natural sciences. Qualified students may have opportunities to engage in supervised research related to environmental processes and problems, and they may also conduct an internship with an environmental organization. Students are required to complete eight courses (25-28 credit hours) in at least four different disciplines.

Film Studies Minor

Jun Okada, Coordinator (Welles Hall 224C)

The Film Studies minor provides students with substantial interdisciplinary study of the history, aesthetics, and cultures of film. Students will acquire a critical vocabulary for analyzing the art of film and a technical vocabulary for discussing the craft of filmmaking. They will also learn about the history and development of film's many genres and movements. Courses are mostly designated under English or Film Studies, but may be taken with appropriate subtitles from other departments. The interdisciplinary approach brings diverse perspectives to the analysis of film and its role in our culture. Although the film studies minor is intended only to support a chosen major field of study, students may elect to explore possible graduate study in film studies or careers in filmmaking and its related fields.

Total Credits Required: 20 Credits

Basic Requirements (4 Credits)

Explorations of various aspects in film from specific figures such as directors to themes such as cinema history, specific genres, and cross-cultural diversity.

- FMST 100 - F/Introduction to Film Studies **Credit(s): 4**

- FMST 369 - Connections in Film: (subtitle) **Credit(s): 4**
- FMST 409 - Film Theory and Criticism **Credit(s): 4**
- FMST 459 - Film Authors: (subtitle) **Credit(s): 4**
- FMST 499 - Directed Study **Credit(s): 1-3**
- BLST Elective **Credit(s): 4** (with appropriate subtitle)
- ENGL 329 - American Visions: (subtitle) **Credit(s): 4**
With appropriate subtitle such as "The Film Hero"
- ENGL 360 - M/Post-Colonial Literature: (subtitle) **Credit(s): 4**
With appropriate subtitle such as "Hong Kong Action Film"

Human Development Minor

Karen Mooney, Coordinator (Bailey 135)

The purpose of this minor is to provide a better understanding of human development for students interested in occupations providing services for children and adults. To this end, courses have been included to facilitate understanding of the psychological, social, and biological contexts of development. Although the focus is on normative development, courses also deal with individual variations in development and with abnormal development.

- Electives must be taken from at least two different departments.
- At least twelve credits of coursework must be unique to this minor, not overlapping with a major or another minor.

Footnotes

Some of the courses listed above are not offered every semester. When planning coursework, Human Development minors should consult the departments offering the courses for information on course rotations.

Latin American Studies Minor

Rose McEwen, Coordinator (Welles Hall 212B)

The Latin American Studies minor offers students the opportunity to acquire a broad, interdisciplinary understanding of a vast, diverse, fascinating, and crucially important region. In an increasingly interdependent world, it is clear that an understanding of the unique historical, economic, social, political, and cultural dynamics of Latin America, as well as insight into the region's particularly complex relationship to the United States, would enhance the academic preparation of students planning careers in social studies and foreign language education, international development, international business, public service, etc. An understanding of the region's traditions, contributions, and problems would also serve those seeking a comparative basis for analyzing their own society and who wish to comprehend better the aspirations and dynamics of societies other than their own.

Museum Studies Minor

Lynette Bosch, Coordinator (Brodie Hall 230)

The new Museum Studies Minor has been formed in response to student demand for a Museum Studies program.

Museums today are rapidly changing into independent business units that employ a range of professionals who come into museums from the worlds of business, design, insurance, computer, communications, law, education, community activities, administrative, budget management, fundraising, marketing, advertising, communication and food services and event planning. Museums come from a range of disciplines, such as art, anthropology, history, geography, science, theatre, music and politics, all areas that are represented in Geneseo's curriculum. For students interested in pursuing a career in the multi-faceted world of museums, it is necessary that they understand what a museum is and does so that they can see how their own area of professional interest fits within the business structure of museums. Hence, this Minor was developed to assist all students interested in moving into this area for future careers.

Native American Studies Minor

Caroline Woidat - English Department (Welles Hall 228A)

The minor in Native American Studies will provide Geneseo students with a means for studying some of the pressing public policy issues affecting New York as a state with a sizable Native American population. New York is at the heart of some of the most critical debates in Native America: taxation of reservation land by state and local entities, gambling and its consequences, land rights and remedies, and, in general, the practice of Native American tribal sovereignty. The minor allows students to approach these issues from an interdisciplinary approach, examining them within the larger frameworks of American history, literature, and anthropological studies.

Total Credits Required: 18 Credits

Sociomedical Sciences Minor

Melanie Medeiros, Coordinator (Bailey 106)

The Sociomedical Sciences minor offers students the opportunity to acquire interdisciplinary knowledge on topics and issues related to health, disease, illness and medicine, as well as analytical and practical skills that will benefit them in post-graduate education and careers in medicine, public health and other health services. Sociomedical Sciences focus on the social determinants of disease and health and examine the correlation between trends in health and its social causes, including social inequality and structural inequity.

Students must also complete a supervised Sociomedical Sciences capstone experience (research project or internship) with a member of the minor coordinating committee for 3 credits. Students must meet with a member of the minor committee to have their course selections approved. Prior to their meeting, students should submit the Sociomedical Sciences Minor program form, describing (a) their interest in the minor and how it applies to their studies and possible career, (b) the particular courses they want to take to fulfill the minor, and (c) how the particular courses selected allows them to shape the minor to meet their interests and needs.

Anthropology

ANTH 100 - S/M/Introduction to Cultural Anthropology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Social Sciences, Other World Civilizations

This course has two broad aims. One is to introduce students to the field of cultural anthropology by paying close attention to what anthropologists do and how they do it. The other is to explore some of the ways in which people organize their lives and construct systems of meaning -- from kin relations and gender roles to economic systems and marriage patterns, religion and healing. In the process, we will be challenged to think about the value of cultural diversity in an increasingly interconnected world and to see ourselves from others' point of view.

Offered: Every semester

ANTH 101 - S/M/Exploration of Human Diversity

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Social Sciences, Other World Civilizations

This course will introduce basic concepts and methods of anthropology. The four subdisciplines of anthropology will contribute to an understanding of humans as biological and cultural beings. The focus of the course is to examine the diversity of human cultures, with a primary focus on the non-Western world.

Offered: Every semester

ANTH 105 - S/Introduction to Physical Anthropology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Social Sciences

An introduction to physical/biological anthropology, i.e. the study of humans as biological organisms. The course explores relevant theories, methodologies, and contemporary issues within this sub discipline of anthropology, via lectures, lab work, and workshops. Topics to be covered are human genetics, evolution, variation, growth and development, and behavioral ecology, as well as primate evolution and behavior.

Offered: Every fall

ANTH 110 - Introduction to Archaeology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An examination of how archaeologists generate and interpret knowledge about the human past based on data recovered from the archaeological record. Topics include exploring the fundamental methods and theories of archaeology including the role of science in understanding the past, the formation of the archaeological record, the measurement of archaeological variability in time, space, and form, the reconstruction of past social organization, and the understanding of prehistoric ideology.

Offered: Every spring

ANTH 120 - S/Language and Culture

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Social Sciences

An introduction to language as a part of culture and culture as a part of language. Topics include language and humanity, lexicon and cultural values, language acquisition and socialization, language and thought, and language as a means of communication and social discourse. Attention is called to the empirical and theoretical inspirations of language study for the study of culture and cross-cultural analysis.

Offered: Every fall

ANTH 201 - Human Evolution

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An in-depth examination of human evolution using a multidimensional approach. Students will gain an understanding of the phylogenetic history of the hominids through lecture, lab work using our extensive fossil cast collection, and presentations/discussions. Topics that will be covered fall into the general categories of: (1) the fossil evidence, (2) environmental pressures driving the various stages of hominid evolution, (3) biological and behavioral adaptations, and (4) hominid culture.

Prerequisite(s): ANTH 105

Offered: Spring, odd years

ANTH 202 - M/Nutrition, Disease, and Health

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Other World Civilizations

Using Critical Social Theory and a biocultural perspective, this course explores the interplay between concepts of nutrition, health, illness and disease and the cultural contexts in which they are rooted. It addresses several issues, such as: explanatory models for the causes and treatments associated with illness and disease; the relationship between nutrition, growth and development and health; effects of globalization and environment on disease and health; and the way social inequalities, religious beliefs, and political-economic contexts influence disease prevalence and access to health care services.

Offered: Every fall and summer (online)

ANTH 207 - S/M/Ancient Civilizations of North America

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Social Sciences, Other World Civilizations

This course will examine the rich diversity of ancient Pre- Columbian North American cultures, religions, political organizations, and social structures and the variety of regional North American responses to post-Pleistocene environmental change. Possible topics: include human migrations into the New World, Pre-Columbian cultures of the Arctic, sub-Arctic, Eastern Woodlands, Great Plains, Southwest, Great Basin-Plateau, and Pacific coast regions, hunter-gatherer lifestyles, the origin and expansion of food-producing economies, and the rise and fall of complex societies.

ANTH 216 - S/M/Race, Racism and the Black Experience in the Americas

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Social Sciences, Other World Civilizations

This course examines race, racism and the black experience in the Americas from an anthropological perspective. Comparing and contrasting the lived experiences of contemporary members of the African diaspora, it will examine issues such as: the scientific and social construction of race; racism and social and health inequality; whiteness and privilege; and blackness as an individual and social identity; and the intersection of race, gender, and class. The course also examines the relationship between identity and the production of cultural products such as music, dance, and religion across the Americas. Lastly, the course explores social justice movements and acts of resistance against discrimination and pervasive inequality. Readings, films, written assignments, and discussions, will underscore how the politics of race and ethnicity as well as the discourse on culture and identity shape and influence social relations and individual experiences. throughout the Americas.

Offered: Summer

ANTH 220 - Linguistic Analysis

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course focuses on the structural analysis of language, with special emphasis on the techniques of descriptive linguistics, transformational grammar, and historical linguistics. Major topics include phonetics, phonology, morphology, syntax, semantics, and pragmatics. Skills are trained in sound transcription, phonemics, morphemics, and syntactic derivation for cross-linguistic comparison.

Prerequisite(s): ANTH 120 or permission of instructor.

Offered: Every spring

ANTH 226 - M/Ethnography of Latin America and the Caribbean

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Other World Civilizations

This course takes an anthropological approach to the study of Latin America and the Caribbean, with a focus on Latin Americans of African descent. It briefly explores the people and culture of the region pre-contact with Europeans, and examines conquest and colonialism, and slavery, before taking an in-depth ethnographic approach to study contemporary regional themes and issues, such as: race, racism and identity, gender, ethnicity, multiculturalism, indigenous social movements, human rights, globalization, tourism, urbanization, religion, health and coping with illness, popular culture, and food.

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Social Sciences, Other World Civilizations

This course is designed to explore ethnography and with a focus on the use of photography, film and video in the representation of individuals and groups. Students will be exposed to the history of ethnographic film and its current relationship to documentary and fiction film. What are the strengths and weakness of visual representations in anthropology compared to written representations? Students will be required to engage in data collection, analysis and interpretation in the production of a short ethnographic film and an accompanying website.

Prerequisite(s): ANTH 100 or ANTH 101.

Offered: Every fall

ANTH 231 - S/Sociolinguistics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Social Sciences

This course examines the intimate relationship between language and society. It will study micro-sociolinguistics, i.e., the way conversation correlates with social variables (class, gender, ethnicity, and education). The course will also focus on macro-sociolinguistics, i.e., linguistic engineering and language attitudes. Contemporary issues such as

bilingualism, biculturalism, ethnic linguistic conflicts, and educational policies will be explored.

Prerequisite(s): ANTH 120 or permission of the instructor.

Offered: Fall, even years

ANTH 233 - Primates

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An in-depth examination of primates with a special emphasis on behavior. Students will learn about the non-human primates of the world through lectures, assigned readings, films, and independent projects. Topics to be covered are primate evolution, taxonomy, ecology, behavior, social organization/group life, cognition, and research.

Offered: Every spring

ANTH 235 - S/M/Ancient Civilizations of Mesoamerica and the Andes

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Social Sciences, Other World Civilizations

A study of precolumbian societies in Middle America and South America. Focus is on the evolution of early hunting and gathering peoples through state organization. Major transformations in cultural evolution are treated (the domestication process, urbanization and the rise of the state). Alternative cultural and social systems are explored through analysis and interpretation of archaeological data.

Offered: Every fall

ANTH 238 - Ethnomedicine in Latin America and the Caribbean

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course takes an anthropological approach to the study of "folk" and "traditional" health beliefs and practices in Latin America and the Caribbean. The course is divided as follows: (1) history, theories, and methods of ecological anthropology and human behavioral ecology; (2) human biocultural adaptations to the various global biomes via lectures, films, ethnographies, and discussion; (3) the adaptive significance of human behavior from a cross-species perspective, via assigned readings and discussion; (4) student presentations based upon individual research focused on relevant/related topics in human ecology; and (5) intertwined throughout is consideration of the sustainability of our past, present, and future activities.

Prerequisite(s): ANTH 105 or ENVR 124.

Offered: Every fall

ANTH 317 - Human Osteology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An in-depth introduction to the human skeleton via lecture, lab work using our extensive skeletal collection, and individual research. Topics to be explored are (1) anatomy, growth and development, biomechanics, pathologies, and aging and sexing of the human skeleton and (2) forensic theories and methodologies.

Prerequisite(s): ANTH 105 or BIOL 103 or BIOL 116.

Offered: Every spring

ANTH 318 - Gender and Sexuality in Latin America

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An anthropological overview of gender and sexuality in Latin America from prehistory to the current day. Readings and student projects will change yearly to address topics including pre-contact concepts of gender and sexuality,

changes in ideas and practices with European contact, and contemporary ethnographic studies of gender and sexuality in the region.

Prerequisite(s): ANTH 100 or ANTH 101.

Offered: Fall, even years

ANTH 320 - Archaeological Field School

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introduction to basic field methods in archaeology. The course is primarily designed for anthropology students and/or those students interested in pursuing archaeological fieldwork as either a career or life experience. It emphasizes hands-on learning, and teaches basic excavation and surveying techniques, stratigraphic analysis, record keeping, data processing, horizontal and vertical mapping techniques, local and regional culture history, and implementation of excavation research designs. Field sites are typically off campus and may require students to camp. There is a program fee to cover transportation, housing, and equipment.

Prerequisite(s): ANTH 110 or permission of instructor.

Offered: Summers on a rotating basis

ANTH 323 - Primate Field School

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Standard methods of primatological research applied in the field, including research design and data collection. Data collection may be conducted at various research sites. Topics to be considered primarily fall into the categories of primate behavior and ecology.

Prerequisite(s): ANTH 233 and permission of instructor.

Offered: During intersession as scheduled by Study Abroad Office

ANTH 325 - International Fieldwork:(region)

2018-2019 Catalog Year

Credit(s): 1-6

Lecture: 1

Non-Lecture: 6

Standard methods of research will be applied in the field, including research design and data collection. Data collection may be conducted at various research sites. Topics in the course will be specific to region and targeted sub discipline in anthropology.

Prerequisite(s): Permission of the instructor.

Offered: Intersession

ANTH 328 - Language Acquisition

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A survey of the major concerns and theories of applied linguistics. Emphasis is on various analyses of first and second language acquisition in general and the communicative and functional approaches in particular. Major topics include the developmental stages of language acquisition, the differences between first and second language acquisition, language universals and core grammar, interlanguage, and culture learning in the second language classroom, etc.

Prerequisite(s): ANTH 120 or permission of instructor.

Offered: Fall, odd years

ANTH 334 - Social Anthropology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The contributions of Social Anthropology are examined in detail, from intellectual foundations to culmination in the late twentieth century. The unique ethnographic contributions of Social Anthropology receive special emphasis as does its role in the development of modern anthropology.

General Education Area(s): The Arts

This course is an introduction to the history of the figure through lectures of selected artists spanning the Renaissance to contemporary artists with a basic introduction to studio techniques in basic figure drawing.

ARTH 125 - F/History of Watercolor

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

General Education Area(s): The Arts

An introduction to the history of watercolor through lectures from primitive man to the 19th century and a basic introduction to studio techniques of painting in transparent and opaque watercolor. The first half of the course will contain art history lectures and the other half will be a hands - on art studio experience.

ARTH 160 - African American Art History Survey

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will present the contributions of African American artists from 1850 through to early 21st century. The work of these artists will be contextualized by connecting each artist and movement in its historical period. The course content includes discussions of the social and political issues of the day including American imperialism, fairs and world expositions, the Works Progress Administration, Harlem Renaissance, the Civil Rights Movement and more. Connecting art, artists and their histories expands and enhances our understanding of history in art.

ARTH 171 - F/History of Western Art: Prehistoric through Gothic

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): The Arts

A survey of the history of architecture, painting and sculpture within the Western tradition from the prehistoric through the gothic periods and an introduction to the process of art historical analysis.

ARTH 172 - F/History of Western Art: Renaissance through Rococo

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): The Arts

A survey of the history of architecture, painting and sculpture within the Western tradition from the Renaissance through the Rococo Period and an introduction to the process of art historical analysis.

ARTH 173 - F/History of Western Art: Neoclassicism to Contemporary

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): The Arts

A survey of the history of architecture, painting, and sculpture within the Western tradition from the later eighteenth century to the present and an introduction to the process of art historical analysis.

ARTH 174 - F/Visual Culture Today

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): The Arts

Visual Culture studies the construction of the visual in art, media, technology and everyday life. Students learn the tools of visual analysis; investigate how visual depictions such as YouTube and advertising structures convey ideologies; and study the institutional, economic, political and social and market factors in the making of contemporary visual culture.

ARTH 200 - Art and Religion in the West: Classical, Jewish, Christian, Muslim, Asatru (400-1100)

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course is intended to be an introduction to the development of art within a religious context. The material covered will trace religious thought from the Greco-Roman-world to the end of the Romanesque stage of art in Western Europe. The course will cover, Greece (Archaic to Hellenistic), Rome (through the Roman conquest of Jerusalem), the emergence of Christianity and its conflicts with Rome, the development of the Byzantine world, the development of Islam and the conflicts, the increase of migrations from Scandinavia and the Germanic areas, Celtic culture and the history of the Crusades.

ARTH 203 - F/Renaissance Europe: Rebirth of Classical Culture

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): The Arts

This course surveys Western European art in Italy, Spain, France, Germany and the Netherlands from the beginning of the Renaissance at the papal Court in Avignon to its fruition in Fifteenth Century Florentine humanism. Connections between art and the changing role of the family, the development of nation-states, the increased importance and power of women in society and the new educational curriculum will be explored.

ARTH 205 - Museum Studies: Art and Global Politics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course studies the lives of works of art in times of war as they are traded, lost, destroyed, altered and given new significance. Global, political events that have affected the works of art in Greece, Africa, China, India, the Middle East, and Western Europe are included for study in the course.

ARTH 213 - F/High Renaissance and Mannerism In Europe (1480-1600)

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): The Arts

A survey of the age of the High Renaissance of Leonardo, Michelangelo, Raphael, Titian, Giorgione and Durer, which gave way to the Mannerism of Pontormo, Bronzino, Rosso, el Greco and the School of Fontainebleau. Emphasis will be placed on artistic issues concerning technique, style, artistic originality and invention, theory and the role of the artist in society.

ARTH 250 - F/Contemporary Art and Globalization

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): The Arts

Spanning most of the twentieth century and the early part of the twenty first we will examine cultural and transcultural exchanges that played pivotal role in formation of modern and contemporary art. We will use various methodologies including post-colonial and feminist to understand how the mechanism of power and colonialism had influenced production and consumption of art. We will concentrate on the most recent processes brought to the forefront by globalization such as international Biennale especially those taking place in Asia, proliferation of the contemporary art museums, and influence of globalization on the art market.

ARTH 278 - F/19th Century European Art from the French Revolution to the Post Impressionists

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): The Arts

A study of how artists responded to social, cultural, and religious upheavals that led to the industrial revolution and the development of the modern city. Movements include: neo-classicism, romanticism, realism, impressionism and post-impressionism, with special attention to the rise of new media like photography, new techniques like painting outdoors directly from nature, and the increasing presence of women artists.

ARTH 280 - F/History of Art in the United States

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): The Arts

A historical survey of the art and architecture of the United States from the Colonial period to the present.

ARTH 281 - F/M/Pre-Columbian and Latin American Art

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): The Arts, Other World Civilizations

This course covers the art of Latin American from the Nineteenth to the Twenty-First Century and Latino Art in the United States. Course discussion will focus on social issues of politics, religion, gender, ethnicity, race and issues of connected to the creation of artistic centers in the Americas.

Prerequisite(s): ARTH 172 or ARTH 173

Offered: Not on a regular basis

ARTH 287 - F/Avant-Garde Modernism (1900-1950)

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): The Arts

The study of artistic responses to modernism's utopian visions and the devastation of two world wars. Major art movements include: Primitivism, Expressionism, Fauvism, Cubism, Dada, Surrealism, the Bauhaus and Abstract Expressionism; artists include: Matisse, Picasso, Duchamp, Dali, Magritte, Kandinsky, Mondrian, and Pollock.

ARTH 300 - Major Artists and Issues: (subtitle)

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will study an artist or artists or major issues in the history of art. Typical offerings are Michelangelo, Picasso and Matisse, Impressionism and Post-Impressionism, and Women and Art.

Prerequisite(s): One 100- or 200-level art history course or permission of the instructor.

ARTH 302 - Latin American Art From Late Colonial to Contemporary

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course covers selected special topics in the art of Latin America from the Nineteenth to the Twenty-First Century

and Latino Art in the United States. Course discussion will focus on social issues of politics, religion, gender, ethnicity, race and issues of connected to the creation of artistic centers in the Americas.

Prerequisite(s): ARTH 282

Offered: Not on a regular basis

ARTH 310 - Women Gender and Art

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will look at gender as a process of creation of images and image making in the history of western art from antiquity to the present, emphasizing modern and contemporary art. The course will examine the works and lives of artists from a gender and/or transgender perspective and the social conditions that have affected the definition and manifestation of gender and its role in creativity and in the careers of individual artists. In addition, the course will explore the challenges that the gender issues have posed to subject matter and content for works of western art. In so doing, the methodologies of art history will be employed.

Prerequisite(s): ARTH 171 or ARTH 172 or ARTH 173

Offered: Not on a regular basis

ARTH 378 - Museum Studies

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course is intended to acquaint students with museum practices and theory, approaches to scholarly research, business and curatorial practices, connected professional organizations and national and international issues faced by museums. Aspects of display design, museum education, transport of work, as well as study of different types of museums is included in the course content.

Prerequisite(s): ARTH 171 and ARTH 172

Offered: Every other year

ARTH 384 - Baroque Art in Italy, Spain, France, and The Netherlands

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A seminar on the art of the Protestant Reformation and the Catholic Counter-Reformation. The Baroque was an era of artistic diversity and religious change that ushered in the Modern Era. Here, Baroque art will be explored within the societal and religious controversies that gave it aesthetic and ideological purpose.

Prerequisite(s): One 100- or 200-level art history course or permission of instructor.

ARTH 387 - Research Methods in Art History

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A study of the history of art history as a discipline and an analysis of diverse art, historical methodologies and theories. Intensive reading and writing, with stress on research skills, writing techniques, oral presentations and class discussion. Graduate school and career options will be explored.

Prerequisite(s): Non art history majors/minors or museum studies minors with significant art history background must receive permission from the instructor.

Restricted to: Art history majors, art history minors, museum studies minors

ARTH 393 - Honors Thesis

2018-2019 Catalog Year

Credit(s): 3

Lecture: 0

Non-Lecture: 6

This is a year-long independent study project, of which Part I is a Directed Study (ARTH 399), with ARTH 393 being Part II towards completion of the Senior Thesis. This yearlong project is optional and is reserved for advanced students and is not necessary for the fulfillment of the requirements of the Major.

Offered: By individual arrangement

ARTH 399 - Directed Study

2018-2019 Catalog Year

Credit(s): 1-3

An opportunity for motivated students to conduct independent research in an area of interest while working with a faculty member on an individual basis.

Prerequisite(s): Enrollment by advisement and by written permission of instructor and department chairperson.

Offered: By individual arrangement

Astronomy

ASTR 100 - Introductory Astronomy

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A summary of modern astronomy: the solar system, stars, galaxies, and the structure of the observable universe. Counts for Natural Science general education credit only if ASTR 101 is taken concurrently.

Corequisite(s): ASTR 101.

ASTR 101 - N/Introductory Astronomy Laboratory

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 2

General Education Area(s): Natural Sciences

An introductory laboratory experience to help students understand astronomy. Activities include taking data, statistical analysis, and comparison with theoretical models. Laboratories will include material from observations of planets, the sun, stars, and galaxies.

Corequisite(s): ASTR 100.

ASTR 105 - The Solar System

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course is an introduction to the solar system. Topics studied will include the motions of the night sky, the historical and scientific underpinnings of the Copernican revolution, and a look at our modern understanding of the bodies that make up our solar system, including planets, dwarf planets, moons, asteroids, comets. The course will also explore how and what we know about planetary bodies orbiting other stars.

Corequisite(s): ASTR 106 or permission of instructor.

Offered: Every fall

ASTR 106 - N/The Solar System Laboratory

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 2

General Education Area(s): Natural Sciences

A laboratory experience to complement the material covered in ASTR 105. Lab activities will include analyzing and interpreting data on Kepler's Laws, optics, and planetary systems.

Corequisite(s): ASTR 105 or ASTR 100.

Offered: Every fall

ASTR 110 - Stars and Galaxies

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introduction to our modern understanding of the universe. Topics studied will include the interaction between light and matter, the formation, structure and evolution of stars, and galaxy kinematics and morphology. The course will also explore our understanding of the universe as a whole, from its origin to present structure, to possible fates.

Corequisite(s): ASTR 111 or permission of instructor.

Offered: Every spring

ASTR 111 - N/Stars and Galaxies Laboratory

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 2

General Education Area(s): Natural Sciences

A laboratory experience to complement the material covered in ASTR 110. Labs activities will include spectroscopy, Kepler's Laws, and analyzing and interpreting data on stars, galaxies, and the universe.

Corequisite(s): ASTR 110 or ASTR 100.

Offered: Every spring

Biochemistry

BCHM 393 - Honors Research

2018-2019 Catalog Year

Credit(s): 4

Lecture: 0

Non-Lecture: 12

Individual research at the molecular level on a topic of biochemical interest with a member of the Biology or Chemistry Department. A thesis that includes a statement of the research goals, pertinent background information, experimental procedures, analysis of data, and a discussion of the results is submitted at the completion of the project. After the thesis is accepted, the student gives an oral presentation in the department in which the research was done.

Prerequisite(s): 2 credits of BIOL 399 or CHEM 399, or equivalent research experience.

Enrollment is by invitation of the Biochemistry Coordinating Committee. The student must have completed the biochemistry program through BIOL 300 and CHEM 302 with a GPA of 3.30, and have an overall GPA of 3.25

Offered: By individual arrangement

Biology

BIOL 103 - Human Biology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Designed for non-majors. Principles of basic human functions are discussed and applied to prepare the student for making broad-based value judgments. Practical questions of modern life are treated scientifically from a biological viewpoint. Counts for general education only if BIOL 104 is taken concurrently.

Offered: Every spring

BIOL 104 - N/Human Biology Laboratory

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 2

General Education Area(s): Natural Sciences

Laboratory studies in human biology. Experiments are directed toward understanding sensory, voluntary, and involuntary functions.

Prerequisite(s)/Corequisite(s): BIOL 103 or permission of instructor.

Offered: Every spring

BIOL 105 - N/Contemporary Biology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Natural Sciences

Biology applied directly to contemporary personal, social, and environmental problems; the biological problems evolving from technology; and current suggestions offered by leading biologists on solving these problems. To receive credit for the Natural Science Core, students must also take the laboratory BIOL 106.

Corequisite(s): BIOL 106.

Offered: Every fall

BIOL 106 - N/Contemporary Biology Laboratory

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 2

General Education Area(s): Natural Sciences

Laboratory studies in Contemporary Biology. Experiments are directed toward understanding current issues in biology such as those concerned with genetics, development and neurobiology. Emphasis is on the practical use of the methods of science.

Corequisite(s): BIOL 105 or permission of instructor.

Offered: Every fall

BIOL 116 - N/General Biology Laboratory

2018-2019 Catalog Year

Credit(s): 2

Lecture: 0

Non-Lecture: 4

General Education Area(s): Natural Sciences

An introductory experience which develops laboratory and analytical skills in the biological sciences.

Prerequisite(s)/Corequisite(s): BIOL 117 or BIOL 119.

Offered: Every fall and spring

BIOL 117 - General Biology: Cells, Genetics, Evolution

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introductory course in the biological sciences covering cells, information coding and transfer, evolution, and diversity of unicellular organisms. This course will emphasize examples from both the plant and animal kingdoms using an integrated approach. Counts for general education only when taken with BIOL 116. Intended for science majors and other well-prepared students.

Prerequisite(s): High School biology and chemistry.

Offered: Every fall

BIOL 119 - General Biology: Diversity, Physiology, Ecology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introductory course in the biological sciences covering animal diversity, animal biology, plant biology, and ecology. Counts for general education only when taken with BIOL 116.

Prerequisite(s): BIOL 117.

Offered: Every spring

BIOL 128 - Freshman Experience in Biology

2018-2019 Catalog Year

Credit(s): 1

Lecture: 1

Non-Lecture: 0

This course is intended for students considering a major in Biology or Biochemistry. It is meant to engage students in their academic program and the college. The goals of the course are to give students a sense of community, provide help with study skills and introduce students to resources available at the college. This course is designed for freshmen. Other students may be able to enroll if space permits.

Offered: Not on a regular basis

Graded: S/U

BIOL 203 - Principles of Ecology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A study of the interrelationship of organisms and their environment. Emphasis is placed upon levels of ecological organization.

Prerequisite(s): BIOL 117 and BIOL 119.

Offered: Every fall and spring

BIOL 204 - Ecology Laboratory

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 3

Selected laboratory research projects in levels of ecological organization from organisms to populations, communities, and ecosystems.

Prerequisite(s)/Corequisite(s): BIOL 203

Offered: Every fall and spring

BIOL 210 - Nutrition

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The biology and chemistry of nutrients are discussed with special emphasis on their role in human physiology. Normal nutrition throughout the life cycle, nutrition in sports, weight management, and diseases resulting from improper nutrition are also considered. **May not be used toward the major.**

Prerequisite(s): One 100-level course in Biology

Offered: Every fall

BIOL 215 - Plant Diversity

2018-2019 Catalog Year

Credit(s): 4

Lecture: 3

Non-Lecture: 3

This course covers bacteria, algae, fungi, and both vascular and non-vascular plants. The structure, function, ecology and economic importance of these groups will be introduced both in lecture and in lab.

Prerequisite(s): BIOL 117 and BIOL 119 .

Offered: Every fall

BIOL 216 - Biology Second Year Laboratory

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 3

This course is designed for second year Biology and Biochemistry majors. It will include modules centered around Ecology, Genetics and Cell biology. Students will be introduced to select experimental techniques and experimental design that reflect contemporary practices in each of these areas. The course will count as a 200 level lab for the Biology BS and BA and as an elective for the Biochemistry BS degree.

Prerequisite(s): BIOL 117 and BIOL 119.

Offered: Every fall and spring

BIOL 220 - Research Techniques in Biology:(subtitle)

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 3

A sophomore laboratory designed for students who want to explore the process of science in the research setting. Groups of students will have a chance to carry out experiments in biology that are aimed at exploring a specific problem at the forefront of knowledge. The subspecialty of this offering is (subtitle).

Prerequisite(s): Biology or Biochemistry Majors with Sophomore status; May be taken only once for credit.

Offered: Not on a regular basis

BIOL 222 - Genetics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An in-depth treatment of heredity, the gene, and the function of genetic material at the individual and population levels.

Prerequisite(s): BIOL 117 and BIOL 119 and MATH 112 or MATH 221., CHEM 211 or CHEM 223.

Offered: Fall and spring

BIOL 223 - Genetics Laboratory

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 3

Selected experiments which demonstrate principles of genetics.

Prerequisite(s)/Corequisite(s): BIOL 222.

Offered: Fall and spring

BIOL 230 - Principles of Microbiology

2018-2019 Catalog Year

Credit(s): 4

Lecture: 3

Non-Lecture: 3

The structure, cultivation, physiology, ecology, and importance of microorganisms (including bacteria, yeasts, molds, and viruses) are studied. Medical aspects include immunology, serology, disease, and sanitation. Laboratory activity complements lecture material.

Prerequisite(s): BIOL 222 and (CHEM 211 or CHEM 223), and permission of the instructor.

Offered: Fall and spring

BIOL 235 - M/Disease and the Developing World

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Other World Civilizations

An examination of the biology of disease in developing countries in Africa, Asia, Latin America and the Caribbean. This course will explore the biology of infectious diseases and their influences on history and culture of these regions as well as the social and economic impact of disease for contemporary societies. Topics addressed will also include prospects for change through current scientific research on treatment and control.

Prerequisite(s): BIOL 117 and BIOL 119.

Offered: Every spring

BIOL 241 - Biology of Invertebrates

2018-2019 Catalog Year

Credit(s): 4

Lecture: 3

Non-Lecture: 3

A survey of structure, classification, ecology, evolution, and physiology of the major groups of invertebrate animals. (Field trips are sometimes scheduled outside the regular class period.)

Prerequisite(s): Proficiency in Basic Requirements and BIOL 117 and BIOL 119.

Offered: Every spring

BIOL 242 - Biology of Vertebrates

2018-2019 Catalog Year

Credit(s): 4

Lecture: 3

Non-Lecture: 3

A survey of the classification, structure, physiology, behavior, and ecology of the classes of vertebrates is presented through lectures and laboratory exercises.

Prerequisite(s): Proficiency in Basic Requirements and BIOL 117 and BIOL 119.

Offered: Every fall

BIOL 250 - R/Biological Data Analysis

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Mathematics

Quantitative analysis in the biological sciences involves understanding the scientific method, experimental design, sampling theory, graphs, and data analysis and interpretation. Students will develop and test hypotheses using statistics and graphing techniques in computer-based laboratory exercises. This course may count as a Biology elective (but it does not count toward the laboratory course requirements) OR serve as the computer science/statistics related requirement. (Students may not receive credit for more than one 200-level statistics course, including credit for more than one of the following courses: BIOL 250, ECON 205, GEOG 278, MATH 242, MATH 262, PLSC 251, PSYC 250, and SOCL 211.)

Prerequisite(s): Proficiency in Basic Requirements and BIOL 116

Offered: Every fall and spring

Restricted to: Majors

BIOL 265 - Anatomy and Physiology I

2018-2019 Catalog Year

Credit(s): 4

Lecture: 3

Non-Lecture: 3

This course is the first of a two-course sequence that examines the structure and function of the human body. The first semester studies the skeletal, muscular, and nervous systems. This course contains a lecture and a required laboratory, which will feature dissections as well as physiological experiments. This course may not be taken after BIOL 364 - Animal Physiology unless permission is first obtained from the Biology Chair prior to registration for this A&P course. Students may receive Biology elective credit for this course or BIOL 364, but not both.

Prerequisite(s): Demonstration of minimum competence (C- or better) in BIOL 117 ,BIOL 119

Offered: Every fall

BIOL 266 - Anatomy and Physiology II

2018-2019 Catalog Year

Credit(s): 4

Lecture: 3

Non-Lecture: 3

This course is the second of a two-course sequence that examines the structure and function of the human body. Through lectures and laboratories students will study the organ systems including cardiovascular, respiratory, gastrointestinal, and urogenital systems. This course contains a lecture and a required laboratory, which will feature dissections as well as physiological experiments. This course may not be taken after BIOL 364 - Animal Physiology unless permission is first obtained from the Biology Chair prior to registration for this A&P course. Students may receive Biology elective credit for this course or BIOL 364, but not both.

Prerequisite(s): BIOL 265

Offered: Every spring

BIOL 271 - Heredity

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

For the non-major or Biology minor who is interested in the genetics of humans and the impact of genetics on human life. Topics such as human genetic disorders, social genetics, race and speciation, mutations, and agricultural genetics are discussed throughout the course. **May not be used toward the major.**

Prerequisite(s): One 100-level course in Biology.

Offered: Every fall and spring

BIOL 281 - Introduction to Research

2018-2019 Catalog Year

Credit(s): 1

Lecture: 1

Non-Lecture: 0

Students will meet once a week to discuss the process of biological research. Seminar presentations by local faculty and visiting scientists will expose students to the variety of research currently being conducted at Geneseo and elsewhere. Students will explore their own research ideas to develop a project proposal that could potentially be carried out at Geneseo. Class activities will emphasize the intellectual skills and process required to develop such a project. Intended for sophomores and juniors in the Biology and Biochemistry majors. **NOTE: This course may not be used for Biology elective credit.**

Prerequisite(s): Proficiency in Basic Requirements and BIOL 203 or BIOL 222.

Offered: Not on a regular basis

Restricted to: Majors

Graded: S/U

BIOL 297 - Lab Assistant for Introductory Biology Courses

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 3

Students will assist undergraduate laboratory and faculty supervisors in lab sections of first year biology. BIOL 297 students will take part in weekly class activities that emphasize preparation for lab and discussion of topical instructional strategies. **Note: This course may not be used for Biology elective credit.**

Prerequisite(s): Permission of instructor.

Offered: Fall and spring

BIOL 300 - Cell Biology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introduction to molecular and structural organization of the eukaryotic cell. Topics include: the plasma membrane, internal membranes, synthesis of proteins, membrane bound organelles, photosynthesis and respiration, the cytoskeleton and motility, cell growth and division, hormones and receptors, and nerve cells and electrical properties of membranes.

Prerequisite(s): Proficiency in Basic Requirements and BIOL 222 and (CHEM 211 or CHEM 223).

Offered: Fall and spring

Restricted to: Majors

BIOL 301 - Laboratory in Cell Biology

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 3

Selected experiments in cell biology that illustrate some of the basic principles, techniques and experimental models in current use.

Prerequisite(s): Proficiency in Basic Requirements and BIOL 300

Offered: Every fall

Restricted to: Majors

BIOL 304 - Biotechnology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will provide students with the basic knowledge of biotechnology and its application and significant benefits to humanity. The topics include recombinant DNA technology and genomics, microbial, plant and animal biotechnologies, DNA fingerprinting and forensic analysis, bioremediation, medical biotechnology, and biotechnology

regulations and ethics. **Students may receive Biology credit for this course or BIOL 322 but not both.**

Prerequisite(s): Proficiency in Basic Requirements and BIOL 222

Offered: Not on a regular basis

Restricted to: Majors

BIOL 305 - Biological Conservation

2018-2019 Catalog Year

Credit(s): 4

Lecture: 4

Non-Lecture: 0

Focuses on understanding the evolution, distribution and threats to biodiversity. Emphasis is placed on understanding the important aspects of genetics and population biology that impact the management and protection of species and populations of conservation concern. The course will also examine the theory and practice of reserve design and other conservation measures used in a variety of situations worldwide. Students will participate in an applied conservation community-based inquiry project at an off-campus (DEC, NY State Parks or other) site. Students will participate in collection of field data, analysis and report preparation. **This course does not count as an elective Biology laboratory.**

Prerequisite(s): BIOL 203.

Offered: Every fall

BIOL 306 - Evolutionary Biology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An examination of the patterns and processes of evolution from the perspective of several subdisciplines within biology.

Prerequisite(s): Proficiency in Basic Requirements and BIOL 203 and BIOL 222.

Offered: Every fall

BIOL 311 - Taxonomy of Vascular Plants

2018-2019 Catalog Year

Credit(s): 4

Lecture: 2

Non-Lecture: 4

A lecture and field course treating the nature, methodologies, and problems of plant taxonomy. Aspects of nomenclature, classification, and floristics are treated. Representative families of vascular plants are studied with particular reference to the local flora. (At least two field trips are required outside of class hours.)

Prerequisite(s): Proficiency in Basic Requirements and BIOL 222

Offered: Not on a regular basis

BIOL 312 - Aquatic Community Ecology

2018-2019 Catalog Year

Credit(s): 4

Lecture: 3

Non-Lecture: 3

An introduction to the organization and dynamics of the biological communities that dominate freshwater and marine habitats, emphasizing key ecological processes common to all aquatic habitats. Environmental threats to the integrity of aquatic communities and issues related to conservation will serve as a focus for readings and class discussions. The laboratory will emphasize field surveys and practical techniques, both analytical and quantitative. Participation on a field trip to a marine station is required.

Prerequisite(s): Proficiency in Basic Requirements and BIOL 203 and (BIOL 204 or BIOL 216 or BIOL 223)

Offered: Fall, even years

BIOL 314 - Biodiversity: (subtitle)

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 3

This is an intensive, field-based course that looks at a specific region, its biological diversity and the physical and biotic factors that are significant in controlling this diversity. A variety of organisms will be considered with most attention given to organisms that are most readily observed (common plants, vertebrates and insects). Students will learn about specific organisms and understand how their structure, physiology and behavior influence their distribution and thereby the diversity of a region. The course will take advantage of the unique features of a particular region to consider the processes and the physical and biological attributes that contribute to the biodiversity of a region. May be taken once for major credit.

Prerequisite(s): Proficiency in Basic Requirements and BIOL 203, BIOL 222, or permission of the instructor.

Offered: Summer or winter/spring break

BIOL 315 - Sustainability Science

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Sustainability science is a problem-driven field that focuses on both the protection of the environment and the maintenance and enhancement of life for current and future human generations. This course will explore some of the major scientific issues behind our understanding of sustainability by focusing on major themes of biodiversity, water, global change, energy and resources, food and agriculture, waste and human health. We will examine data from current research to understand the scientific basis of these problems, and to assess potential solutions. Particular attention will be given to issues in New York and in the United States through lectures, case studies and projects.

Prerequisite(s): BIOL 203 or (ENVR 124 and (GEOG 111/GEOG 112 OR GSCI 140/GSCI 141)).

Offered: Every spring

BIOL 316 - Comparative Sustainability

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 3

This course will allow students to come face-to-face with the particular biodiversity, water, energy, food, and health issues of a non-North American, non-industrialized country, and compare them to similar issues in the U.S. The hybrid, online, study abroad course provides the opportunity to understand sustainability issues in the U.S. and study background material about Nicaragua's environmental sustainability situation for a week before departure. Two weeks in Nicaragua will provide immersion in the issues particular to that place, followed by a wrap-up week of online classes, discussions, and reports. This offers our students unique perspective from which they can deeply examine global sustainability issues.

Prerequisite(s): BIOL 119 or ENVR 124

Offered: Summer

BIOL 322 - Molecular Biology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An advanced course dealing with genetic and regulatory mechanisms at the cell and molecular level. **Students may receive Biology credit for this course or BIOL 304, but not both.**

Prerequisite(s): Proficiency in Basic Requirements and BIOL 300 and (CHEM 300 or CHEM 302 or BIOL 335).

Offered: Every fall

Restricted to: Majors

BIOL 327 - Molecular Ecology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course explores how molecular methods are used to address research questions in ecology. The techniques for generating molecular marker data as well as the properties and applications of different types of molecular data will be examined. Topics will include phylogeography, population genetics, conservation genetics, behavioral ecology, adaptation, ecological genetics, speciation, hybridization, and microbial ecology.

Prerequisite(s): Proficiency in Basic Requirements and BIOL 203 and BIOL 222.

Offered: Every spring

Restricted to: Majors

BIOL 330 - Immunology

2018-2019 Catalog Year

Credit(s): 4

Lecture: 3

Non-Lecture: 3

Theory and application of the principles of immunology. Analysis by immune reactions and the use of systems in assessment of biologic function are included, with attention to the specialized procedures of fluorescent antibodies and radioimmunoassay.

Prerequisite(s): Proficiency in Basic Requirements and BIOL 300 and (BIOL 204 or BIOL 216 or BIOL 223 or BIOL 301 or CHEM 301).

Offered: Every fall

Restricted to: Majors

BIOL 334 - Biology of Cancer

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course looks at the molecular origins of cancer with emphasis on understanding oncogenes and tumor suppressor genes and their role in signal transduction and the cell cycle. The course will examine the discovery of viral oncogenes, cellular oncogenes and tumor suppressor genes and relate them to current therapeutic approaches. The course will also cover topics in cancer prevention and treatment and look at some of the most common tumor types.

Prerequisite(s): Proficiency in Basic Requirements and BIOL 300.

Offered: Every spring

Restricted to: Majors

BIOL 335 - Foundations of Biochemistry

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will introduce the principles of biochemistry to students who have a strong interest in biology. The course is a one semester survey of the chemistry of living organisms that will focus on metabolic regulation and pathway integration. It will also incorporate elements of molecular evolution as it relates to protein structure/function.

Prerequisite(s): Proficiency in Basic Requirements and BIOL 300.

Offered: Every fall

Restricted to: Majors

BIOL 338 - Animal Behavior

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An integration of ethological and comparative psychological aspects of the evolution and development of behavior in animals. Special emphasis on such topics as biological rhythms, communication, spacing, reproduction, sensory systems, learning, and social structure. **(Not available for credit to students who have credit for PSYC 338)**

Prerequisite(s): Proficiency in Basic Requirements and BIOL 203 and BIOL 222.

Offered: Every fall

BIOL 339 - Animal Behavior Laboratory

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 3

Studies of the behavior and behavior patterns of animals under both controlled laboratory and natural field conditions. Emphasis is placed on observational and quantitative approaches.

Prerequisite(s): Proficiency in Basic Requirements and BIOL 338 and (BIOL 204 or BIOL 216 or BIOL 223).

Offered: Every fall

BIOL 340 - Modeling Biological Systems

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

Computer and mathematical models are increasingly important tools used to understand complex biological systems. Under the guidance of biology and mathematics professors, students will work both individually and in groups to develop, analyze and present models of various biological systems ranging from disease models and diffusion processes to ecosystem dynamics. The course involves two hours of lectures and two hour computer-based laboratory.

This course does not count as a Biology elective laboratory.

Prerequisite(s): Proficiency in Basic Requirements and MATH 222 and (BIOL 203 or BIOL 222 or MATH 223)

Offered: Every spring

Crosslisted with: MATH 340.

BIOL 342 - Parasitology

2018-2019 Catalog Year

Credit(s): 4

Lecture: 3

Non-Lecture: 3

Examines parasites and parasitism, emphasizing the influence of parasites on the ecology and evolution of free-living species, and the role of parasites in global public health.

Prerequisite(s): Proficiency in Basic Requirements and BIOL 300.

Offered: Every spring

BIOL 344 - Biology and Global Health

2018-2019 Catalog Year

Credit(s): 4

Lecture: 3

Non-Lecture: 3

A consideration of current biological issues in the field of Global Health. This course will address biological factors that affect morbidity and mortality in low- and lower middle-income countries. Topics will include issues in environmental health in developing countries, including water quality, sanitation, air quality and food safety. The course will also examine the effects of large-scale ecological change on human health, including urbanization, deforestation and climate change.

Prerequisite(s): BIOL 117 and BIOL 119.

Offered: Summer

BIOL 345 - Biology of Insects

2018-2019 Catalog Year

Credit(s): 4

Lecture: 3

Non-Lecture: 3

A beginning and basic course dealing with the classification, morphology, physiology, exology, behavior and economic importance of insects.

Prerequisite(s): Proficiency in Basic Requirements and one of the following courses: BIOL 203, BIOL 215, BIOL 230, BIOL 241, or BIOL 242.

Offered: Every fall

Restricted to: Majors

BIOL 354 - Developmental Biology

2018-2019 Catalog Year

Credit(s): 4

Lecture: 3

Non-Lecture: 3

An introduction to the principles and concepts of metabolism, growth, morphogenesis and differentiation in developing systems. In the laboratory students will make observations of, and perform experiments on, a variety of developing systems, both plant and animal, demonstrating a number of fundamental events of development.

Prerequisite(s): Proficiency in Basic Requirements and BIOL 300 and (BIOL 204 or BIOL 216 or BIOL 223 or BIOL 301 or CHEM 301).

Offered: Every spring

Restricted to: Majors

BIOL 361 - Plant Physiology

2018-2019 Catalog Year

Credit(s): 4

Lecture: 3

Non-Lecture: 3

Lectures and laboratories are concerned with the physical and chemical and cellular processes underlying plant function. Topics to be considered include water absorption and transport, photosynthesis, carbohydrate chemistry, secondary chemistry, mineral assimilation, growth, and control of development.

Prerequisite(s): Proficiency in Basic Requirements and BIOL 300. and (BIOL 204 or BIOL 216 or BIOL 223 or BIOL 301 or CHEM 301).

Offered: Every spring

Restricted to: Majors

BIOL 363 - Dinosaurs with Research

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Dinosaurs are a major component of the diverse Mesozoic faunas and floras. This course provides an introduction to the principles, processes, techniques, interpretations, and research in the study of Mesozoic life and geology. Upon completion, students will be able to describe, classify, and interpret dinosaur and other fossil remains, as well as have an understanding of significant changes in earth history. A research project and paper, as well as a required eight day field trip, will result in the observation and description of dinosaur fossils and track ways in museums and the field.

Prerequisite(s): Two 100-level classes in Biology and/or Geology, as well as permission of the instructor(s).

Offered: Spring, odd years

Crosslisted with: GSCI 363

BIOL 364 - Animal Physiology

2018-2019 Catalog Year

Credit(s): 4

Lecture: 3

Non-Lecture: 3

Lectures and laboratories are concerned with the mechanisms by which animals function. The prevailing theme is the biology of the whole animal. Regulative and integrative mechanisms in animal organ systems are examined. **Students may receive Biology elective credit for this course or BIOL 264 but not both.**

Prerequisite(s): Proficiency in Basic Requirements and BIOL 300 and (BIOL 204 or BIOL 216 or BIOL 223).

Offered: Every spring

Restricted to: Majors

BIOL 375 - Cellular Neurobiology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will provide an introduction to the cellular & molecular biology of neurons. Students will learn how the intrinsic properties of neurons, together with synaptic transmission, lead to the formation of functional neural circuits for sensation, central integration, and patterned motor output.

Prerequisite(s): Proficiency in Basic Requirements and BIOL 300.

Offered: Every fall

BIOL 376 - Environmental Management

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Environmental management is approached as an extension of basic ecology. The framework of study is the operation of the ecosystem and the mechanisms of its regulation of energy and material flows. Agricultural, industrial, and social activities are examined for their qualitative and quantitative effect, and the legal and educational means of controlling these effects will be examined. Particular attention will be given to critical study of land and water management practices in New York.

Prerequisite(s): Proficiency in Basic Requirements and BIOL 203.

Offered: Not on a regular basis

BIOL 378 - Microscope Techniques

2018-2019 Catalog Year

Credit(s): 1

Lecture: 1

Non-Lecture: 0

A lecture-demonstration course concerned with a discussion of the principles of light and electron microscopy, the instrumentation available, and the principles involved in preparation of material for microscopy.

Prerequisite(s): Proficiency in Basic Requirements and BIOL 203 or BIOL 222.

Offered: Every fall

Restricted to: Majors

BIOL 380 - Biology Seminar

2018-2019 Catalog Year

Credit(s): 1

Lecture: 1

Non-Lecture: 0

A discussion course dealing with a selected area of Biology and based on current literature.

Prerequisite(s): Proficiency in Basic Requirements and BIOL 203 and BIOL 300.

Offered: Not on a regular basis

Restricted to: Majors

Repeatable: May be repeated for up to two hours credit toward the major.

BIOL 383 - Graduate School and Work Seminar

2018-2019 Catalog Year

Credit(s): 1

Lecture: 1

Non-Lecture: 0

The purpose of this seminar is to help seniors through the process of applying to graduate school, and/or determining options for work- ing in biology after graduation. Applications for most graduate programs are due in January or February. By the end of this course, each student should have selected several programs to apply to, contacted the

programs and potential advisors, have some understanding of financing for graduate school, and have the majority of their application completed. For students not planning to apply to graduate school, parallel assignments will prepare them to apply for a position as a lab or field technician or research fellow. **NOTE: This course may not be used for Biology elective credit.**

Prerequisite(s): Junior standing in Biology.

Offered: Every fall

Graded: S/U

BIOL 385 - Senior Seminar in Biochemistry

2018-2019 Catalog Year

Credit(s): 1

Lecture: 1

Non-Lecture: 0

Discussion of current literature, recent advances, perspectives, or selected topics in Biochemistry. Subjects may differ each semester.

Prerequisite(s): Proficiency in Basic Requirements and CHEM 302 and CHEM 304.

Offered: Every spring

Restricted to: Majors

BIOL 390 - Molecular Techniques

2018-2019 Catalog Year

Credit(s): 2

Lecture: 1

Non-Lecture: 3

An introduction to basic techniques commonly used in biotechnology. Laboratory exercises include DNA, RNA, and protein manipulations, web-based sequence analysis, and the use of associated apparatus. Lectures cover background information of the techniques and their applications.

Prerequisite(s): Proficiency in Basic Requirements and BIOL 300 and one of the following: (BIOL 216, BIOL 223, BIOL 230, BIOL 301, CHEM 301, BIOL 330).

Offered: Every Spring

Restricted to: Majors

BIOL 391 - Electron Microscopy

2018-2019 Catalog Year

Credit(s): 2

Lecture: 0

Non-Lecture: 6

A project-based course designed to help students acquire the skills required in electron microscopy. Students will learn to prepare biological samples for transmission and scanning electron microscopy, to operate the electron microscopes and ancillary equipment, and to select, process and interpret images.

Prerequisite(s): Proficiency in Basic Requirements and BIOL 378.

Offered: Every spring

Restricted to: Majors

BIOL 392 - Genome Analysis

2018-2019 Catalog Year

Credit(s): 2

Lecture: 1

Non-Lecture: 3

The course examines and utilizes modern experimental strategies to study DNA, RNA, and protein. Special emphasis is placed on bioinformatics resources for cellular molecules and strategies for their simultaneous analysis. Lectures will be supported by the analysis of primary literature, computational laboratory experiments. Topics covered will be discussed with respect to modern questions in genomics, molecular genetics, and biochemistry.

Prerequisite(s): Proficiency in Basic Requirements and BIOL 300 and (BIOL 204 or BIOL 216 or BIOL 223 or BIOL 301 or CHEM 301).

Offered: Every spring

Restricted to: Majors

BIOL 393 - Honors Thesis

2018-2019 Catalog Year

Credit(s): 3

Lecture: 0

Non-Lecture: 6

Two semesters of research and writing within the department for the preparation of an undergraduate thesis and presentation at the Undergraduate Research Symposium. The thesis will include research goals, background, experimental procedures, data analysis and discussion. Credit for HONR 393 requires a grade of A. **BIOL 393 may not be applied to the thirty-six credits required for the Biology major.**

Prerequisite(s): By individual arrangement.

Offered: Fall and spring

BIOL 394 - Neurobiology Techniques

2018-2019 Catalog Year

Credit(s): 2

Lecture: 1

Non-Lecture: 3

An introduction to the methods and experimental strategies used to explore the structure and function of the nervous system. Students will become familiar with physiological methods such as extracellular and intracellular recording of neural activity, and the use of computers for data acquisition and analysis. Students will learn anatomical methods for identification of neuronal projections, staining to reveal neuronal form, and immunocytochemistry to identify neurotransmitters, receptors, and other molecular structures.

Prerequisite(s): BIOL 300 and (BIOL 204 or BIOL 216 or BIOL 223).

Offered: Every fall

BIOL 395 - Internship in Biology

2018-2019 Catalog Year

A maximum of four credits from BIOL 299, BIOL 395, and BIOL 399 may be applied toward the major in Biology.

Offered: By individual arrangement

BIOL 396 - Advanced Research In Biology

2018-2019 Catalog Year

Credit(s): 1-2

Advanced field or laboratory research in Biology. This course is for students who wish to continue with a research project in the biological sciences after having have demonstrated interest and expertise in the project for at least two semesters of for-credit research on any biological topic. This course satisfies one of the laboratory requirements for the Biology B.S. and B.A. degrees.

Prerequisite(s): Two semesters BIOL 299 or BIOL 399 involving field or laboratory research and permission of instructor.

Offered: Every semester by individual arrangement

BIOL 397 - Lab Instructor for Introductory Biology Courses

2018-2019 Catalog Year

Credit(s): 1

Lecture: 1

Non-Lecture: 0

Students who serve as laboratory instructors will have a weekly class meeting that emphasizes preparation for the lab and topical instructional strategies. They will also teach one lab section, grade student assignments and hold office hours. **A maximum of 4 credit hours from BIOL 297, BIOL 299, BIOL 381, BIOL 382, BIOL 395, BIOL 397, BIOL 398 and BIOL 399 can be applied towards the major in Biology.**

Prerequisite(s): Permission of instructor.

Offered: Fall and spring

BIOL 398 - Biology Lab Pedagogy

2018-2019 Catalog Year

Credit(s): 1

Lecture: 1

Non-Lecture: 0

This seminar course provides students a framework for preparing to teach first year biology labs. Discussion and class activities will model appropriate instructional techniques and help students develop reflective practice. Students may take this course twice for credit. **A maximum of 4 credit hours from BIOL 297, BIOL 299, BIOL 381, BIOL 382, BIOL 395, BIOL 399, BIOL 397 and BIOL 398 can be applied towards the major in Biology.**

Corequisite(s): BIOL 397 and permission of instructor.

BIOL 399 - Directed Study

2018-2019 Catalog Year

Credit(s): 1-4

Students work individually on a research problem in biology under the supervision of a faculty member. A maximum of 4 credits from BIOL 299, BIOL 395 and BIOL 399 may be applied toward the major in Biology.

Prerequisite(s): Junior standing, permission of instructor and approval of departmental chair.

Offered: By individual arrangement

Biophysics

BIPH 375 - Biophysics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A study of the application of the fundamentals of physics to the problems of the biological sciences. Emphasis is placed upon representative topics demonstrating the analytical methods and the theory of those methods used in biophysics. Students will be expected to read and discuss current literature. Examples of topics include biophysical modeling, organ systems, and electromagnetic interactions.

Prerequisite(s): BIOL 203 or BIOL 222, PHYS 223, MATH 222; or permission of instructor.

Offered: Every fall, even years

Black Studies

BLKS 200 - Introduction to Black Studies

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will serve as an introduction to the broad field of Africana/Black studies. Inherently interdisciplinary, Africana/ Black Studies draws on the fields of history and literature, arts and material culture, as well as political science, geography, and sociology. Black Studies emerged out of the Civil Rights and Black Power movements of the 1960s and offers an important and compelling angle for analyzing American history and culture. In fact, Black Studies takes on directly the interconnected nature of slavery and freedom in United States history and their enduring legacies. This class will introduce students to key themes and issues in Black Studies, as well as a range of disciplinary approaches to their study. Among these are the relationships between African Americans and Africa and the Diaspora.

Offered: At least once in four semesters

BLKS 220 - Black Lives Matter: (subtitle)

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This is a course that engages with the ideas and issues at the heart of the contemporary Black Lives Matter Movement. Inspired by and engaged with the justice movement emerging and growing in response to the devastating numbers of (unpunished) murders of Black Americans, this course will use a variety of academic tools and perspectives to explore the historic and contemporary manifestations of white supremacy and the struggle to dismantle it. The Black Lives Matter Movement offers an inherent challenge to the widespread belief that the United States has achieved a post-racial society. Among other things, this course will provide a framework for examining the legacies of slavery and Jim Crow in our society as well as the political and cultural tactics Black Americans have used to insist on their humanity and civil rights. This topic lends itself to multiple disciplinary perspectives and faculty in a variety of departments will teach it with different emphases.

Offered: At least once in four semesters

Repeatable: May be taken twice under different subtitles.

Chemistry

CHEM 100 - Chemistry First Year Experience

2018-2019 Catalog Year

Credit(s): 1

Lecture: 1

Non-Lecture: 0

This course serves as an introduction to the chemistry and biochemistry programs at Geneseo and is intended for those considering a chemistry or biochemistry major. Topics include career opportunities, the literature of the chemist and biochemist, research opportunities, software used in the chemistry curriculum, and strategies for success.

Offered: Not on a regular basis

CHEM 104 - Chemistry and Society

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A terminal one-semester course designed to acquaint non-science students with how chemistry and science affect their lives. Chemical principles are applied to problems of current interest, such as energy and pollution. Methods which chemists and other scientists use in their attempts to solve such problems are illustrated. **Not available to science majors.**

Corequisite(s): CHEM 105.

Offered: Not on a regular basis

CHEM 105 - N/Chemistry and Society Laboratory

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 2

General Education Area(s): Natural Sciences

A terminal one-semester laboratory designed to acquaint non-science students with how chemistry and science affect their lives. Experiments are applied to problems of current interest, such as acid rain. Methods which chemists and other scientists use in their attempts to solve such problems are introduced. **Not available for credit to science majors.**

Corequisite(s): CHEM 104

Offered: Not on a regular basis

CHEM 116 - Chemistry I

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introduction to some of the fundamental principles of chemistry. Topics include introduction to chemistry, stoichiometric principles, atomic structure and nature of the periodic table, chemical bonding, reactions in solutions, solution stoichiometry, thermochemistry, and trends in the physical and chemical properties of elements and their compounds. (Primarily designed for science majors and potential science majors.) CHEM 119 must accompany this course for natural science general education credit.

Offered: Every fall

CHEM 118 - Chemistry II

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A continuation of CHEM 116. Topics to be covered include thermodynamics and reaction spontaneity, chemical kinetics, chemical equilibrium, properties of acids and bases, aqueous solution equilibria, electrochemistry, molecular structure and bonding theories, transition metals and their coordination compounds, and chemical properties of selected elements.

Prerequisite(s): CHEM 116.

Corequisite(s): CHEM 119.

Offered: Every spring

CHEM 119 - N/Introductory Chemistry Lab

2018-2019 Catalog Year

Credit(s): 2

Lecture: 0

Non-Lecture: 4

General Education Area(s): Natural Sciences

An introduction to the experimental techniques and methodology used to explore matter and chemical reactivity. Experiments include the synthesis and characterization of a compound, identification of unknown substances, an exploration of the gas laws, volumetric and gravimetric analysis, structure and bonding, and acid/base chemistry.

Prerequisite(s)/Corequisite(s): CHEM 116 or CHEM 203.

Offered: Every fall and spring

CHEM 203 - N/Principles of Chemistry I

2018-2019 Catalog Year

Credit(s): 4

Lecture: 4

Non-Lecture: 0

General Education Area(s): Natural Sciences

An introduction to some of the fundamental principles of chemistry, including stoichiometry, atomic structure and bonding, periodicity, classification of reactions, thermochemistry, gases, intermolecular forces and changes of state, solutions, and kinetics. Designed for well-prepared science majors.

Prerequisite(s): Successful completion of the NYS regents or similar course.

Offered: Every fall

CHEM 204 - Principles of Chemistry II

2018-2019 Catalog Year

Credit(s): 2

Lecture: 2

Non-Lecture: 0

A continuation of CHEM 203, Principles of Chemistry I. Topics to be covered include chemical equilibrium, properties of acids and bases, solution equilibria, free energy and thermodynamics, electrochemistry, transition metals and their coordination compounds, and chemical properties of selected elements.

Prerequisite(s): CHEM 203.

Corequisite(s): CHEM 119.

Offered: First half semester, every spring

CHEM 209 - Intermediate Chemistry Laboratory

2018-2019 Catalog Year

Credit(s): 2

Lecture: 0

Non-Lecture: 4

This course serves as a bridge to advanced chemistry laboratory courses at Geneseo. Students will learn how to perform quantitative measurements and techniques for the synthesis and characterization of compounds. Safety in the laboratory environment and experimental design are emphasized.

Prerequisite(s): CHEM 119.

Offered: Every spring

CHEM 211 - Organic Chemistry I

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introduction to modern organic chemistry using a functional group approach. Topics include structure/reactivity relationships, reaction mechanisms, stereochemistry, and spectroscopy.

Prerequisite(s): CHEM 118 or CHEM 204, CHEM 119.

Offered: Every fall

CHEM 213 - Organic Chemistry II

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Continuation of CHEM 211 with emphasis on the biochemically important alcohol, amine, carbonyl and aromatic functional groups. Structure elucidation by spectroscopic methods is also explored.

Prerequisite(s): CHEM 211.

Offered: Every spring

CHEM 216 - Organic Chemistry Laboratory

2018-2019 Catalog Year

Credit(s): 2

Lecture: 0

Non-Lecture: 4

Laboratory practices in representative organic preparations and procedures.

Prerequisite(s)/Corequisite(s): CHEM 211 or CHEM 223.

Offered: Every fall and spring

CHEM 223 - Principles of Organic Chemistry I

2018-2019 Catalog Year

Credit(s): 2

Lecture: 2

Non-Lecture: 0

An introduction to modern organic chemistry using a functional group approach. Topics to be covered include structure/reactivity relationship, reaction mechanisms, stereochemistry and spectroscopy.

Prerequisite(s): CHEM 204.

Prerequisite(s)/Corequisite(s): CHEM 119.

Offered: Spring, second half semester

CHEM 224 - Principles of Organic Chemistry II

2018-2019 Catalog Year

Credit(s): 4

Lecture: 4

Non-Lecture: 0

Continuation of CHEM 223 with emphasis on the biochemically important alcohol, amine, carbonyl and aromatic functional groups. Structure elucidation by spectroscopic methods is also explored.

Prerequisite(s): CHEM 223.

Offered: Every fall

CHEM 300 - Principles of Biochemistry

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A one-semester survey of the chemistry of living organisms. Topics studied include enzymes and enzyme kinetics, proteins, nucleic acids and protein synthesis, oxidative phosphorylation, photosynthesis, metabolism of carbohydrates, lipids, and nitrogen-containing compounds. **Students may not receive credit for more than one of the following courses: CHEM 300, CHEM 302, and BIOL 335.**

Prerequisite(s): CHEM 213 or CHEM 224 and CHEM 216

Offered: Not on a regular basis

CHEM 301 - Biochemistry Laboratory

2018-2019 Catalog Year

Credit(s): 2

Lecture: 0

Non-Lecture: 4

Students will be introduced to a selection of standard biochemical procedures such as DNA and protein purification, chromatographic separation, gel electrophoresis, dialysis, enzyme assay, and DNA analysis techniques.

Prerequisite(s): CHEM 213 or CHEM 224 and CHEM 216.

Corequisite(s): CHEM 300 or CHEM 302.

Offered: Every semester

CHEM 302 - Biochemistry I

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Introduction to the chemistry of living organisms. Structure-to-function relationships of proteins, nucleic acids, carbohydrates, and lipids are explored, with an emphasis on molecular interactions. Other topics include enzyme kinetics, catalytic mechanism, and modes of regulation, as well as, application of protein function such as oxygen transport, muscle contraction, the immune response, membrane transport, and biological signaling. **Students may not receive credit for more than one of the following courses: CHEM 300, CHEM 302, and BIOL 335. Preference for enrollment given to Biochemistry and Chemistry majors.**

Prerequisite(s): CHEM 213 or CHEM 224

Offered: Every fall

CHEM 304 - Biochemistry II

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Continuation of the chemistry of living organisms. The chemistry of nucleic acids is explored in depth and these principles are applied to understanding the tools that biochemists use in the laboratory. Regulation of genes and the molecular interactions of protein-DNA complexes are also investigated. The last part of the course focuses on the chemistry of metabolism and biosynthesis, along with the mechanisms of regulation of these processes.

Prerequisite(s): CHEM 302.

Offered: Every spring

CHEM 313 - Laboratory Techniques in Organic Chemistry I

2018-2019 Catalog Year

Credit(s): 2

Lecture: 0

Non-Lecture: 4

A laboratory course devoted to the synthesis, separation, and identification of organic compounds, utilizing modern instrumental methods.

Prerequisite(s): (CHEM 213 or CHEM 224) and CHEM 216 and CHEM 209.

Offered: Every spring

CHEM 315 - Bioorganic Chemistry

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will survey several main classes of natural products (secondary metabolites), their biosynthesis, typical structures, biological properties, and structural elucidation. Special attention will be paid to mechanistic aspects of biosynthesis. The social and historical uses of natural products will also be considered.

Prerequisite(s): 1 year of organic chemistry and 1 semester of biochemistry.

Offered: Not on a regular basis

CHEM 318 - Advanced Organic Chemistry

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Organic synthesis: Introduction to retrosynthetic analysis including a detailed study of methods of introducing stereo control. Mechanistic organic chemistry: conformational analysis, transition state theory, kinetics and reaction mechanism, computer modeling, and other topics of contemporary interest.

Prerequisite(s): CHEM 213 or CHEM 224.

Corequisite(s): CHEM 324 or CHEM 320 or permission of the instructor.

Offered: Not on a regular basis

CHEM 320 - Physical Chemistry I

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introduction to the principles of chemical thermodynamics and the application of these principles to ideal and non-ideal chemical systems. Topics include the properties of gases and gas mixtures, thermochemistry, the laws of thermodynamics, entropy and free energy functions, chemical and phase equilibria, properties of solutions of nonelectrolytes and electrolytes, and electrochemistry. Computer software and/or programming will be used in this course.

Prerequisite(s): (CHEM 213 or CHEM 224) MATH 222 and (PHYS 125 or PHYS 115) and (PHYS 126 or PHYS 116) or permission of the instructor.

Offered: Every fall

CHEM 322 - Physical Chemistry II

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A continuation of CHEM 320. Covers two areas of modern physical chemistry: quantum chemistry and chemical kinetics. Topics in quantum chemistry include waves and particles, postulates of quantum mechanics, Schrodinger equation, applications with exact solutions, approximation methods, atomic structure, molecular structure, and spectroscopy. Topics in chemical kinetics include empirical laws, reaction mechanisms, and reaction rate theories.

Prerequisite(s): CHEM 320.

Offered: Every spring

CHEM 324 - Principles of Physical Chemistry

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introduction to physical chemistry. Topics include the gas laws, the laws of thermodynamics, chemical and physical equilibria, properties of solutions, electrolytes, electrochemical cells, chemical kinetics, enzyme kinetics, and transport processes introductory quantum mechanics, spectroscopy, scattering, and statistical thermodynamics.

Prerequisite(s): (CHEM 213 or CHEM 223), CHEM 216, PHYS 125, PHYS 116 and (MATH 222 or MATH 228).

Offered: Every spring

CHEM 329 - Topics in Physical Chemistry

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An in depth study of one or more selected topics in advanced physical chemistry with emphasis on modern concepts and recent developments. Topics for this course could include chemical thermodynamics, statistical thermodynamics, physical chemistry of solutions, atomic spectroscopy and structure, molecular spectroscopy and structure, chemical applications of group theory, quantum chemistry, kinetic molecular theory, chemical kinetics, advanced instrumental techniques. This course may be repeated for credit whenever new topics are offered.

Prerequisite(s): CHEM 322 and/or permission of the instructor.

Offered: Not on a regular basis

Repeatable: May be repeated for credit whenever new topics are offered

CHEM 330 - Inorganic Chemistry I

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introduction to modern inorganic chemistry. Topics include current models used to describe periodicity, bonding, and structure, acid-base chemistry, coordination chemistry, inorganic reaction mechanisms, and an introduction to organometallic chemistry.

Prerequisite(s)/Corequisite(s): CHEM 322 or CHEM 324 or permission of instructor.

Offered: Every spring

CHEM 331 - Laboratory Techniques in Inorganic Chemistry

2018-2019 Catalog Year

Credit(s): 2

Lecture: 0

Non-Lecture: 4

This course serves to familiarize students with modern synthetic and instrumental techniques used in the preparation, characterization, and study of inorganic compounds.

Prerequisite(s)/Corequisite(s): CHEM 330.

Offered: Every spring

CHEM 334 - Bioinorganic Chemistry

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course examines the chemistry of inorganic elements in biological systems. Topics include the role of metals in proteins and enzymes, the use of metals in drug catalytic sites or as probes for biomolecular study, metals in migration and direction sensing, minerals in nutrition and toxicity, and the biochemical effects of radioactive elements.

Prerequisite(s): CHEM 300 or CHEM 302 or BIOL 300.

Offered: Not on a regular basis

CHEM 338 - Inorganic Chemistry II

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Areas of current interest in the field of inorganic chemistry are explored. Topics covered include an introduction to chemical applications of group theory, organometallic compounds and catalysis, metal-metal bonding, clusters, inorganic photochemistry, and bioinorganic chemistry.

Prerequisite(s): CHEM 330 and CHEM 322 or CHEM 324.

Offered: Not on a regular basis

CHEM 340 - Modern Analytical Chemistry

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A course to familiarize students with the theory of analytical chemistry. Particular emphasis is given to the use of instrumental methods for quantitative analysis. Topics include calibration methods, error analysis, electroanalytical chemistry, optical and mass spectroscopy, and separation methods.

Prerequisite(s): CHEM 213 or CHEM 224 and CHEM 216.

Offered: Every semester

CHEM 341 - Modern Analytical Methods

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A lecture course intended to acquaint the student with the theoretical and applied aspects of modern methods of instrumental analysis, and separation.

Prerequisite(s): CHEM 213 or CHEM 224, CHEM 216, and CHEM 322 or CHEM 324 or permission of the instructor.

Offered: Not on a regular basis

CHEM 342 - Modern Analytical Chemistry Laboratory

2018-2019 Catalog Year

Credit(s): 2

Lecture: 0

Non-Lecture: 4

A course to familiarize students with the practice of modern analytical chemistry. Particular emphasis is given to experiments using instrumental methods for quantitative analysis. Experiments will include calibration methods, error analysis, and applications of electroanalytical chemistry, optical and mass spectroscopy, and separation methods.

Prerequisite(s): CHEM 209

Corequisite(s): CHEM 340.

Offered: Every fall

CHEM 351 - Current Topics in Chemistry

2018-2019 Catalog Year

Credit(s): 1

Lecture: 1

Non-Lecture: 0

Participants prepare for and attend seminars presented by visiting speakers. Short written and oral reports on topics related to the speaker's area of expertise will be developed from the current literature. Methods for chemistry information retrieval and effective reading of the chemical literature will be covered. Students will receive information about career choices in the field.

Prerequisite(s): Senior status in Chemistry.

Offered: Every fall

CHEM 352 - Chemistry Senior Seminar

2018-2019 Catalog Year

Credit(s): 1

Lecture: 1

Non-Lecture: 0

A seminar course designed to give students advanced scientific writing experience while preparing and formally presenting a scientific paper and demonstrating basic chemical knowledge.

Prerequisite(s): CHEM 351 or INTD 300.

Offered: Every spring

Restricted to: Chemistry majors.

CHEM 361 - Modern Physical Chemistry Laboratory

2018-2019 Catalog Year

Credit(s): 2

Lecture: 0

Non-Lecture: 4

An introduction to, and application of a variety of physico-, electro- and spectro-chemical techniques currently used for the determination of physical and molecular properties and for chemical analysis. Use of modern instrumentation, including computerized data analysis, will be stressed.

Prerequisite(s): CHEM 209

Prerequisite(s)/Corequisite(s): CHEM 322 or CHEM 324 or permission of instructor.

Offered: Every spring

CHEM 385 - Biochemistry Seminar

2018-2019 Catalog Year

Credit(s): 1

Lecture: 1

Non-Lecture: 0

A seminar focusing on a topic or related group of topics in biochemistry. Papers from current literature will be discussed. Participants will explore the research literature and report their findings to the seminar group in the form of a paper and oral report.

Prerequisite(s): CHEM 302 and CHEM 304 or permission of instructor.

Offered: Every fall

CHEM 393 - Honors Research

2018-2019 Catalog Year

Credit(s): 4

Lecture: 1

Non-Lecture: 9

Research with a member of the Chemistry Department. A thesis that includes a statement of the research goals, pertinent background information, experimental procedures, analysis of data, and a discussion of the results is submitted at the completion of the project. After the thesis is accepted, the student gives an oral presentation.

Enrollment is by invitation of the Department. Students registered for CHEM 393 are not required to register for CHEM 352.

Prerequisite(s): CHEM 322 **Student must have completed a minimum of 22 hours in chemistry with a GPA of 3.30 and an overall GPA of 3.00.**

Offered: By individual arrangement

CHEM 399 - Directed Study

2018-2019 Catalog Year

Credit(s): 1-3

Prerequisite(s): permission of department chair.

Offered: By individual arrangement

Communication

COMN 102 - Principles of Public Speaking

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Basic public speaking is the focus of the course. Emphasis is placed on researching topics, organizing speeches, using appropriate language, effective delivery, and critical listening. Instructors analyze student speeches.

COMN 103 - S/Introduction to Interpersonal Communication

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Social Sciences

This course is designed to provide students with basic knowledge about communication theory and practice. It creates an awareness of the role communication plays in our interpersonal relationships. Students will be introduced to basic models, definitions, and approaches to interpersonal communication. Some areas presented include perception, self-concept, self-disclosure, conflict, verbal and nonverbal communication, and ways for improving communication competence.

COMN 107 - Foundations of Media Writing

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course presents the basics of writing for news and public relations which may be delivered by print, radio, television, internet or other electronic media. This is the foundation and prerequisite for other Communication courses which requires students to design, develop and produce messages for print and electronic delivery.

COMN 160 - S/Introduction to Mass Communication

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Social Sciences

This course is designed to survey mass communication in both historical and contemporary contexts. Students are introduced to the broad function of mass media, as well as the specific function of each medium. The roles of technology and the impact of mass communication on society and individuals are also explored.

COMN 200 - Theory and Practice of Public Relations

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course is designed to introduce the student to the principles of public relations. It includes analyses of methods of

building good will and obtaining publicity, and processes of influencing public opinion. Communications media are studied as utilized in contemporary public relations programs.

Offered: Every year

COMN 201 - Coping with Speech Anxiety

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The course provides students with a perspective on a widespread problem in our society -- communication apprehension. Course content focuses on the diagnosis of the level and type of communication apprehension, and the examination of major effects of chronic reticence. As students prepare oral presentations for a variety of communication contexts, methods and skills training, including systematic desensitization and cognitive restructuring, will be individualized to assist them in overcoming their speech anxiety.

Prerequisite(s): Permission of instructor.

Offered: Not on a regular basis

COMN 203 - Professional Public Speaking

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Building on the theories and principles introduced in COMN 102, this intermediate course facilitates the continued development of oral communication competency. Course content underscores an audience-centered approach to public address. Topics include organizing speeches for specialized and professional contexts of public address, voice and diction, the proper use of technology to support presentations, critical listening, and understanding/ managing communication apprehension. Assignments are tailored to meet the career needs of individual students.

Prerequisite(s): COMN 102.

Offered: Every other year

COMN 207 - Writing for Business and the Professions

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course focuses on traditional and contemporary methods of written business communication. There is practical application of strategies for composing, organizing, and editing content for targeted audiences. Approaches may include collaborative and web-based writing. **Students who are required to take INTD 205 may not take this course.**

Offered: Not on a regular basis

COMN 211 - Discussion and Group Dynamics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course provides students with theoretical knowledge of small group interaction and decision-making and the opportunity to practice skills that can be applied in small group situations. Group activities and projects promote experimental learning in topic areas such as leadership, cohesion, commitment, deviance, conformity, decision-making, and task functions. Critical evaluation of group processes occurs throughout the semester.

Offered: Every year

COMN 212 - Theory and Practice of Argument

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Analysis of forms of reasoning, use of evidence, and style and development of argument, with an emphasis on the relationship between the argument field (law, business, science, politics, etc.) and the different standards for reasoning and evidence. Students will analyze actual arguments and will construct their own arguments.

Offered: Fall, odd years

COMN 213 - Persuasion and Social Influence

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course focuses on a variety of theories and applications of persuasive communication. Persuasion is treated as communication which affects how people think, feel, and act toward some group, object, or idea. Students examine both social scientific and humanistic theories of persuasion, and apply these theories in written and oral assignments.

Offered: Spring, odd years

COMN 215 - American Public Address

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The course is designed to introduce students to selected speeches and speakers of significance in United States history. Students will analyze speeches from different historical eras, focusing on the manner in which ideas are made manifest through language, and the impact that such speeches have had and continue to have on life in the United States.

Offered: Every third semester

COMN 248 - Perspectives on Organizational Communication

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This is a survey course of theoretical approaches to communication behavior in organizations. The basic foundations of organizational communication theory, methods, and practices are introduced and related to organizational life. The course addresses the problems and paradoxes of organizational communication and the changing features of organizational life. Case studies will highlight practical applications of the theories to organizational experiences.

Offered: Every year

COMN 251 - Mass Media and Society

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course assesses the evolving and dynamic relationship between mass media and society. Particular attention is paid to how mass mediated messages can define social and cultural realities and the interplay of social influences on these messages. By applying theoretical concepts, students critically examine how mass media function in various contexts, from local communities, national industries and politics, to global systems. Current and past research perspectives are discussed and analyzed.

Prerequisite(s): COMN 160.

Offered: Every fall

COMN 253 - Media Advertising.

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A course examining traditional and contemporary principles, practices, and techniques applied to the design and dissemination of advocacy messages. Covers strategies, tactics, media planning, processes, message construction and best professional practices in today's environment of integrated marketing communications.

Prerequisite(s): COMN 107.

Offered: Every year

COMN 266 - Radio Production

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A study, through practical application, of the devices and techniques employed in modern radio. Students use the facilities of campus radio station WGSU-FM.

Offered: Every fall

COMN 267 - Television Production

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

A study, through practical application, designed to introduce students to the technical and aesthetic elements involved in the production of multi-camera live studio television and single-camera television field production.

Offered: Every fall

COMN 275 - News and Specialized Writing: (subtitle)

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course focuses on improving basic reporting and writing skills, crafting indepth news reports, and exposing students to other types of journalistic writing.

Prerequisite(s): COMN 107.

Offered: Not on a regular basis

Repeatable: May be taken more than one time under different subtitles.

COMN 277 - Online Journalism

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Delivering news and other information through online media uses a powerful communication tool. This course focuses on interactive cyber journalism and how it complements the traditional media. Student journalists will use new media to communicate in quick, interactive, informative and informal settings while continuing to uphold journalistic standards.

Prerequisite(s): COMN 107.

Offered: Every third semester

COMN 280 - Electronic Media Practicum

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 3

A laboratory experience in one of the following areas of electronic media: 1) radio production, 2) television production,

3) radio news, 4) television news, 5) radio management, 6) television management, and 7) radio performance. May be taken six times, not to exceed one credit hour per semester. A maximum of two credits is allowed in a single area.

Prerequisite(s): Permission of instructor.

Offered: Every year

Graded: S/U

COMN 317 - Intercultural Communication

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The purpose of the course is to provide the student with the theoretical and practical tools necessary to understand and attribute meaning to communicative behaviors during the process of intercultural communication. Discussions will focus on how culture influences the communication process and how cultural variations play a role in the process of communication.

Prerequisite(s): COMN 103.

Offered: Every other year

COMN 341 - Public Relations Case Problems

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Analysis and composition of case studies based upon typical public relations problems in industry, labor, education, government, social welfare, and trade associations. Specific consideration will be given to the planning and preparation of communication materials for various media and application of public relations techniques.

Prerequisite(s): COMN 200 or permission of instructor.

Offered: Every spring

COMN 345 - Theories of Interpersonal Communication

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course explores theories that attempt to explain person to person interactions. Individual and dyadic variables affecting the development, maintenance, and dissolution of different types of relationships will be addressed. Topic areas, such as attributions, social exchange and equity, attraction, intimacy/ affiliation and power/dominance, will be discussed in terms of current research findings.

Prerequisite(s): COMN 103 or permission of instructor.

Offered: Every fall

COMN 346 - Conflict, Negotiation, and Mediation

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course focuses on the nature of conflict in a variety of relational contexts. A combination of theory and application assists students in mastering skills of dispute resolution, and management of conflict. Special emphasis is placed on analyzing and understanding conflict in our lives. Case studies and simulations facilitate the learning of strategies and tactics used in the processes of bargaining, negotiation and mediation.

Prerequisite(s): Junior or senior standing or permission of instructor.

Offered: Every year

COMN 349 - Advanced Issues in Personal and Professional Communication: (subtitle)

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course focuses on a topic or related group of topics relevant to personal and professional communication. Personal and professional communication research will be applied and discussed. The course integrates both theories and practical applications.

Prerequisite(s): Completion of all Required Courses in the Personal and Professional Communication track (i.e., COMN 102, COMN 103, COMN 160, COMN 248) or permission of the instructor.

Offered: Every year

Repeatable: May be taken twice for credit but only under different subtitles.

COMN 353 - Advertising as Social Communication

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An investigation of contemporary advertising as a form of global mass persuasion. The course examines what advertising is as a communication form, its impact on society, how it is shaped and regulated by the social context in which it occurs, and conceptual guidelines for its evaluation. Since the course assumes a critical approach, the interrelationship of advertising with social norms, constraints, and values is examined.

Prerequisite(s): COMN 102, COMN 103, and COMN 160, or permission of instructor.

Offered: Every other year

COMN 354 - Advanced Issues in Mediated Communication: (subtitle)

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course focuses on a topic or related group of topics relevant to mediated communication. Research in the area of mediated communication will be applied and discussed. The course may integrate both theories and practical applications.

Prerequisite(s): COMN 102, COMN 103, COMN 107, and COMN 160.

Offered: At least once a year

Repeatable: May be taken twice for credit but only under different subtitles.

COMN 356 - Advanced Issues in Critical Studies: (subtitle)

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course focuses on a topic or related group of topics relevant to critical studies. Research in the area of critical studies will be applied and discussed. The course may integrate both theories and practical applications.

Prerequisite(s): COMN 102, COMN 103, and COMN 160.

Offered: At least once a year

Repeatable: May be taken twice for credit but only under different subtitles.

COMN 362 - International Mass Communication

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course explores the role of mass communication in an increasingly interdependent, globalized world. Through selected case studies, national systems of mass media found in various parts of the world are compared and analyzed. Issues that transcend geo-political boundaries are also examined. These include globalization of media industry and cultural products, inequality in the flow of information, media influences on identity formation across different cultures, and media portrayals of war and peace.

Prerequisite(s): COMN 160.

Offered: Every year

COMN 363 - Advanced Television Production.

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

An in-depth study of the production process for video in broadcast and non-broadcast applications. The course explores the implementation of advanced studio and field production technology and techniques in the creation of educational, corporate, and broadcast television and video through practical application.

Prerequisite(s): COMN 267.

Offered: Once every two years

COMN 366 - Mass Media Management

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An examination of the organizational, operational, and legal responsibilities involved in the management of electronic and print-based mass media. The interaction of format with programming, promotions, and distribution in market positioning is given special attention.

Prerequisite(s): COMN 160.

Offered: Once every two years

COMN 367 - Television News

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An in-depth examination of television news reporting techniques. Students cover events and issues either on campus or in the surrounding community and create television news packages. Legal issues such as libel, slander, and shield laws are also examined as they relate to television news reportage.

Prerequisite(s): COMN 107 and COMN 267.

Offered: Once every two years

COMN 368 - Research in Media and Cultural Studies

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course explores and applies selected textual, qualitative and critical perspectives in media studies, as well as an overview of major trends and developments in contemporary research in this area. Research methods in media and cultural studies are emphasized.

Prerequisite(s): Junior or senior standing, COMN 103 and COMN 160, and a minimum 3.00 average in the major or permission of instructor.

Offered: Every other year

COMN 379 - Communication: Integrated Applications

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course provides students the chance to make a clear connection between the communication concepts they have learned in their classes and their future personal and professional life. In doing so, students will look back to review and

discuss key concepts, look inward to see how these concepts impact their own lives and look forward to make explicit connections to their anticipated future. Concurrently, students will engage in a self-reflective process in preparation for a professional career. Students will exhibit this reflective experience primarily through the development of a final professional portfolio. Other communication and life skills will be discussed and refined during the course of the semester.

ECON 205 - Business and Economic Statistics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A survey of the basic statistical tools used in management decision-making and data analysis. Major topics include data organization and presentation, a review of probability concepts, sampling and sampling distributions, statistical estimation and hypothesis testing, and correlation and regression analysis. The course also emphasizes applications of statistical techniques, the use of computerized statistical packages and ethical issues in statistical analysis. **(Students may not receive credit for more than one 200-level statistics course, including credit for more than one of the following courses: ECON 205, GEOG 278, MATH 242, MATH 262, PLSC 251, PSYC 250, and SOCL 211.)**

ECON 210 - Intermediate Microeconomic Theory

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A study of the theories of price and production in markets for goods and factors under various market structures. Emphasis is given to indifference analysis and to strategic models of oligopoly and monopolistic competition.

Prerequisite(s): ECON 110 and (MATH 213 or MATH 221)

ECON 212 - Intermediate Macroeconomic Theory

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A study of the theories of social accounting; aggregate, simple, and general income and price level determination; and

economic growth. Emphasis is given to techniques of national income and wealth accounting, consumption, and investment functions. Neo-Classical and Neo-Keynesian equilibrium models, the theory of employment, and aggregate growth models are also considered.

Prerequisite(s): ECON 112 and (MATH 213 or MATH 221)

ECON 293 - Honors Seminar in Economics I

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

This is the first in a two course sequence leading to graduation with Honors in Economics. Topics will vary based on the interests of the student and the approval of the instructor. This course focuses on research methods and the development of an appropriate research question. The student will prepare a high quality literature review covering recent developments on the selected topic. The literature review will be the foundation for independent original research on the selected topic. Additionally students will begin collecting the data necessary to undertake an original research project.

Prerequisite(s): (ECON 210 or ECON 212), ECON 307, a 3.30 GPA in economics courses and a cumulative GPA of 3.30 overall. Permission of supervising instructor is required.

Offered: Every fall

ECON 302 - Behavioral Economics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course describes how the use of evidence from psychology and experimentation can improve the predictive power of standard economic theories. Standard economic theories represent human beings in ways that are often different from how they really behave. Evidence suggests that human behavior diverges often from standard notions of economic rationality in predictable ways. Predictions about individual behavior are more accurate and the policies of governments are more effective when this evidence is effectively used.

Prerequisite(s): ECON 210

Offered: Every spring

Restricted to: Restricted to School of Business majors (No pre-majors).

ECON 305 - Quantitative Methods

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course covers the quantitative analysis tools associated with professional practice in business. This course draws on the fundamental probability and statistics learned in ECON 205. Topics include the use of regression analysis, development of forecasting models, and the use of linear programming. The course concludes with a final research project requiring the application of quantitative methods to real-world data.

Prerequisite(s): ECON 205 and junior status.

Crosslisted with: MGMT 305.

Restricted to: School of Business majors

ECON 307 - Econometrics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A study of the application of econometrics to economic analysis. Emphasis is given to inference and estimation in the linear regression model and to the problems of heteroskedasticity and autocorrelation.

Prerequisite(s): ECON 305, (ECON 210 or ECON 212), and junior standing.

Offered: Every spring

Restricted to: School of Business majors. Others may seek permission from the School of Business.

ECON 310 - History of Economic Analysis

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A study of the evolution of economic analysis from ancient to modern times. Emphasis is given to methods of economic theorizing and interactions of changing social conditions, problems, and theories.

Prerequisite(s): ECON 210, ECON 212, and junior standing.

Offered: Not on a regular basis

Restricted to: School of Business majors. Others may seek permission from the School of Business.

ECON 322 - Managerial Economics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An integrated study of the principles of economic and management science theory. Emphasis is given to behavioral variables in decision-making, market structure, pricing under non-competitive conditions, and forecasting.

Prerequisite(s): ECON 210, ECON 205, and junior standing.

Offered: Not on a regular basis

Restricted to: School of Business majors. Others may seek permission from the School of Business.

ECON 325 - Money and Financial Intermediation

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A study of monetary theory and the processes of financial intermediation. Emphasis is given to the theory of money, interest rates, types of financial intermediaries, central banking, and public control of financial intermediation and markets.

Prerequisite(s): ECON 212 or FNCE 311 and junior standing.

Offered: Every year

Crosslisted with: FNCE 325.

Restricted to: School of Business majors. Others may seek permission from the School of Business.

ECON 330 - Public Finance

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A study of public revenue and expenditures at the local, state, and federal government levels. Emphasis is given to principles of taxation, tax systems, budgeting theory and procedure, intergovernmental fiscal relations, and debt management.

Prerequisite(s): ECON 210 and junior standing.

Offered: Every other year

Restricted to: School of Business majors. Others may seek permission from the School of Business.

ECON 340 - Environmental Economics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A study of economic theory and public policies as applied to environmental problems. Emphasis is given to the role of market failure in explaining the existence of pollution, to alternative strategies for pollution control and environmental management, and to problems associated with growth.

Prerequisite(s): ECON 110 and junior standing.

Offered: Every other year

Restricted to: School of Business majors. Others may seek permission from the School of Business.

ECON 345 - Economics of Sports

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course applies the principles of microeconomics and statistics to the industries of professional and amateur sports. The topics include league structure, team decision-making, labor-relations, incentive structures, and stadium financing and the role of public policy. The course is designed to illuminate economic principles foremost, using sports as a convenient vehicle to represent these ideas.

Prerequisite(s): ECON 205, ECON 210, and junior standing.

Offered: Every year

Restricted to: School of Business majors. Others may seek permission from the School of Business.

ECON 346 - Health Economics

2018-2019 Catalog Year

In this course we will use methods from microeconomics to investigate how different aspects of the health care system function and to assess the implications for different policies designed to improve that functioning. We will examine the special features of medical care as a commodity, the demand for medical care services, the economic explanations for the behavior of medical care providers (physicians and drug companies), and the functioning of insurance market. We will also be examining the role of and economic justification for government involvement in medical care. Topics to be studied will include: health care market structures; determinants of the demand for and supply of health care; the interrelationships between insurance, supply, demand, and technological innovation; proposed health policy reforms in insurance markets, and international comparisons of health care systems and outcomes. We will use the tools we have learned to review and analyze Obamacare and various other proposals for health care reform.

Prerequisite(s): ECON 210.

Offered: Every spring

Restricted to: School of Business majors

ECON 350 - Law and Economics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The purpose of this course is to introduce to students the analysis of law from the perspective of economics. Based on the economic concepts and principles of scarcity, choice, preferences, and incentives, this course uses the microeconomic tools such as cost-and-benefit analysis, and supply-and-demand models to explain legal and political rules, firms and contracts, government organizations, and other institutions. Topics in this course include economic analysis of property law, contract law, tort liability, criminal law, and antitrust law.

Prerequisite(s): ECON 210 and junior standing.

Offered: Not on a regular basis

Restricted to: School of Business majors. Others may seek permission from the School of Business.

ECON 355 - Economic Development and Growth

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A study of the existing disparities between developed and less developed countries, problems faced by less developed countries, historical and modern theories regarding economic development, and an introduction to growth theory.

Prerequisite(s): ECON 212 and junior standing.

Offered: Every other year

Restricted to: School of Business majors. Others may seek permission from the School of Business.

ECON 364 - International Trade and Economic Policy

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Education

AMSL 101 - American Sign Language I

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This is the first in a sequence of courses designed to develop knowledge and skills needed to communicate in American Sign Language. It is intended for students with little or no previous experience with the language. Students are introduced to basic ASL sign vocabulary, fingerspelling, and basic sentence constructions using ASL grammatical principles and non-manual markers, with an emphasis on developing expressive skills and comprehension at the novice level. In addition, students are introduced to aspects of American Deaf Culture and history. Contemporary issues involving the Deaf Community are explored using culture-based readings.

Offered: Every semester

AMSL 102 - American Sign Language II

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course builds upon the knowledge base and continues the development of receptive and expressive sign communication skills acquired in AMSL 101. Along with growth in ASL vocabulary, fingerspelling, and increasingly complex sentence construction incorporating ASL grammatical principles and non-manual markers, conversational fluency is further developed through dialogue and participatory activities. Students continue to learn about the Deaf Community and its culture, including Deaf art and Deaf literature.

Prerequisite(s): AMSL 101.

Offered: Every semester

AMSL 201 - American Sign Language III

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This is an intermediate course in American Sign Language that draws upon and expands on knowledge and use of grammar, syntax, spatial referencing, classifiers, nonmanual markers, and sign vocabulary acquired in AMSL 102. Sentence constructions are reviewed with an emphasis on further development of communicative proficiency in ASL beyond the basic level. Fluency and accuracy of ASL and fingerspelling continue to be developed in conversation, as well as the use of lexicalized signs, ASL slang, and idioms. Contemporary issues and cultural attitudes governing interactions with members of the Deaf community continue to be explored.

Prerequisite(s): AMSL 102

Offered: Not on a regular basis

CURR 213 - Reading and Writing Processes

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course presents the history of reading and writing instruction, different interpretations of literacy, and the psychology and linguistics of reading and writing processes. Various theories and aspects of language acquisition are explored and related to different literacy methodologies. The student gains practical experience using different literacy approaches and methods in the classroom. The mature reading and writing process is explored with an emphasis on the strategies individuals use when they read and write. Includes field trip component.

Prerequisite(s): SPED 224.

CURR 313 - Classroom Reading and Literature Programs

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course is designed to provide students with a knowledge of various approaches, methods, and procedures for use in intermediate (grades 4-6) and middle school reading programs; to provide practical experience using various literacy engagements; and to describe modifications of literacy instruction to teach children with disabilities. Includes field trip component.

Prerequisite(s): CURR 213 and CURR 316.

CURR 316 - Teaching Science and Mathematics to Children

2018-2019 Catalog Year

Credit(s): 4

Lecture: 4

Non-Lecture: 0

This course covers contemporary teaching/ learning strategies for mathematics and science instruction in early

childhood and elementary classrooms. Instructional techniques integrate hands-on learning, manipulatives, the student's environment, functional uses of mathematics and science, and assessment strategies appropriate for all students. The focus will be on the nature of children's science and mathematics learning, the teacher as a facilitator of meaningful learning, and New York State and National Learning Standards for science, mathematics, and technology. Constructivism, the idea that individuals must build knowledge from their own experience and thought, provides an underpinning for insights into the nature of children's learning in the life and physical sciences and in mathematics. Includes field trip component.

Prerequisite(s): SPED 224 and MATH 140.

Prerequisite(s)/Corequisite(s): MATH 141.

CURR 317 - Social Studies and Curriculum Integration

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

This course is designed to familiarize the student with current practices in the teaching of elementary school social studies. Emphasis will be given to the development of higher level teaching skills, particularly process-oriented models of instruction. Students will be introduced to the curriculum development process and will be expected to develop an integrative unit of instruction using a variety of resources. A practicum experience in an elementary school is required.

Prerequisite(s): CURR 213, CURR 316 for Childhood Education or Childhood Education with Special Education; ECED 353 and ECED 355 for Early Childhood Education.

CURR 320 - The Arts and Career Education in the Community

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course develops the knowledge, understanding, and skills necessary for preservice teachers to investigate, analyze, and implement community-responsive approaches to arts and career education. The focus is on the materials and resources available for children's participation in the arts in various roles and for development of career awareness. Special attention is given to community resources, modifications and adaptations for students with disabilities, and integration of the arts and career education across the school curriculum.

Prerequisite(s): CURR 213 and CURR 316.

ECED 331 - Student Teaching - Primary

2018-2019 Catalog Year

Credit(s): 7.5

Lecture: 7.5

Non-Lecture: 0

Full-time student teaching at the primary level (grades 1-2 for Early Childhood Education) in an affiliated school. Student teaching is designed to provide the student with the opportunity to develop and refine skills and understandings of the teaching-learning process with primary-level children. A member of the college faculty, working cooperatively with the teaching and administrative staff of the school, assists, observes, supervises, and evaluates each student.

Students become involved in periodic seminars focusing upon pedagogical content and methodology, assessment of student learning, parent communication, development of a professional portfolio, and topics related to broad concerns of professionals in education. (To repeat this course requires the permission of, and fulfilling conditions set by, the Director of Student Teaching.)

Prerequisite(s): CURR 317, ECED 353, and EDUC 354; minimum GPA of 2.75.

Offered: Every year

Prerequisite(s): CURR 317, ECED 353, and EDUC 354; minimum GPA of 2.75.

Offered: Every year

ECED 351 - The Teaching of Young Children

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

This course reviews children's development (from the prenatal period to age 5) in the context of family, culture, and education, and focuses on applying this knowledge to teaching young children. Emphasis is on using knowledge of all developmental areas to observe over time a child in an early education setting. This information will be analyzed and interpreted in terms of developmental processes, the teacher's role and interaction strategies, and provision of developmentally appropriate learning experiences. Also explored will be past personal experiences with young children, the nature of teaching young children, and related career options involving young children. A case study of a young child is required.

Prerequisite(s)/Corequisite(s): INTD 203 and PSYC 215 or permission of instructor.

Offered: At least once a year

ECED 352 - Introduction to Early Childhood Education

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course presents an introduction to current issues and trends in the education and development of young children, such as accessibility and quality of child care, infant/toddler programs, television viewing, bilingual education, and violence in children's lives. Students also become acquainted with various advocacy strategies, program options and child care policies. As a broader context for this introduction, the history of early education is examined and community involvement is encouraged. A field study of an early childhood program is required.

Prerequisite(s): SPED 224 and ECED 351 or permission of instructor.

Offered: At least once a year

ECED 353 - Curriculum Development for Young Children

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

This course is designed to further students' understanding of the organization and management of functional learning environments for young children and the use of curriculum development principles and strategies to design developmentally appropriate and educationally sound learning experiences for young children. To develop these understandings, the course stimulates reflection and inquiry about the teacher's role in young children's learning and in curriculum development. Students will develop implementation strategies in a structured practicum in an early childhood setting.

Prerequisite(s): ECED 351.

Offered: At least once a year

ECED 355 - Diversity and Inclusion in EC Classrooms (B-Gr. 3)

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The focus of this course is on understanding young students with disabilities and the effect of the disability on growth, development, and the teaching/learning process. Emphasis will be placed on selecting/modifying appropriate teaching strategies that are congruent with the young child's development and cultural environment for use in the preschool or early primary grades. Children with various types of disabilities or special needs will be examined including those who are gifted and talented, those with limited English proficiency, and those who are socioeconomically disadvantaged. Attention will be given to State Education Department regulations, various service delivery models, assistive technology and work with parents, administrators, and ancillary personnel.

Prerequisite(s): CURR 213, CURR 316, and ECED 352.

Offered: At least once a year

EDUC 102 - Welcome to the Education Major

2018-2019 Catalog Year

Credit(s): 1

Lecture: 1

Non-Lecture: 0

This is an elective introductory course for entering education majors. Related topics will be explored through

discussion, workshops, and presentations and may include topics such as navigating online portfolios, using TERC library resources, exploring implications of copyright laws, and using content standards in the elementary classroom.

Graded: S/U

EDUC 204 - Dimensions of Teaching

2018-2019 Catalog Year

Credit(s): 4

Lecture: 3

Non-Lecture: 2

This course introduces students to instructional and classroom management practices in the contexts of changing perspectives and environments of education for grades 7-12. The underlying assumption is that inquiry into the dimensions of classroom experience from a variety of perspectives will enable students to make informed choices in structuring and implementing lessons that are consistent with NYS Learning Standards and take into account the commonalities and differences among adolescent learners. Field visits will involve systematic analysis of and reflection on effective practice.

Prerequisite(s): INTD 203 and EDUC 215.

Corequisite(s): SPED 205.

Offered: Every fall

EDUC 215 - Foundations of Literacy in the Secondary School

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The course will provide a focused study on the principles and methods of using literacy (reading, writing, listening, and speaking) to improve learning and provide differentiated instruction for all learners. Methodology will be based on adolescent (grades 7-12) curriculum and will provide extensive opportunity for students to apply their learning to teaching in their specific disciplines.

EDUC 303 - Field Experience: (Adolescence Education)

2018-2019 Catalog Year

Credit(s): 3

Lecture: 1

Non-Lecture: 4

Students in this course will meet with supervisors in a seminar setting and will spend two weeks in pre-student teaching observation of classroom teachers.

Prerequisite(s): (1) Senior standing; (2) INTD 301 or INTD 302; (3) Completion of prior field experiences required for EDUC 204, 2.5 college-wide GPA; 2.75 GPA, Secondary Education Program (INTD 203, EDUC 204, SPED 205, EDUC 215, INTD 301, INTD 302).

EDUC 305 - Philosophy of Education

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will familiarize students with past and present theories and issues in the philosophy of education. Students will consider why humans educate themselves and their children; what they think constitutes reality; what knowledge is worth having and how humans beings acquire it; what constitutes the good life and how human beings organize society to promote it; and how education can encourage people to reflect on what it means to live ethically. The course will allow philosophy students to apply their knowledge of the discipline to an important realm of practical problems and provide education students an opportunity to think both critically and creatively about educational practice.

Prerequisite(s): PHIL 100 or INTD 203 or permission of instructor.

Offered: Not on a regular basis

Crosslisted with: PHIL 305.

EDUC 326 - Classroom Management in the Elementary School

2018-2019 Catalog Year

Credit(s): 2

Lecture: 2

Non-Lecture: 0

This course provides knowledge of different approaches to establishing and maintaining well-managed classrooms as well as understanding of the core values underlying different approaches. Through case analysis, role playing, cooperative learning, use of technology, and simulated practice, students will learn how to apply principles of classroom management to actual teaching situations. Students also will learn how to organize a learning environment that minimizes management problems, how to avoid or overcome communication roadblocks, and how to respond to persistent, difficult behaviors.

Prerequisite(s): CURR 313 and CURR 317.

Offered: When demand is sufficient

ENGL 493 - Advanced Project

2018-2019 Catalog Year

Credit(s): 2-6

Two semesters of directed study leading to the production of a scholarly or creative work with an eye toward (but not requiring) eventual publication or other public dissemination of the work. To be eligible to enroll in the first semester of study, a student must submit a proposal to a faculty member describing the intended project and the student's qualification to undertake it. In the first semester (2 credits), the student will develop a prospectus for the project, an annotated bibliography, and a plan for how the finished work will reach a wider audience. In the second semester (4 credits), the student will complete the project. Projects may be undertaken in a variety of media. Students are encouraged (but not required) to share completed born-digital scholarly projects under a Creative Commons license, and required to deposit a copy of the project, whether born-digital or intended for print, in an open-access institutional repository. Only the four credits earned in the second semester may be applied toward the degree requirements in English.

Prerequisite(s): 20 credits towards the requirements of the BA in English.

Offered: By individual arrangement

ENGL 494 - Senior Seminar: (subtitle)

Environmental Studies

ENVR 124 - S/Environmental Issues

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Social Sciences

This introductory course is an interdisciplinary examination of historical and contemporary environmental problems. It examines the impact of human activity on the environment and the complex interrelationships between people and the natural world. It also explores the socioeconomic and political dimensions behind environmental change, and evaluates solutions to environmental dilemmas such as deforestation, soil erosion, air and water pollution, and biodiversity loss.

ENVR 250 - Urban Environmental Issues in Latin America

2018-2019 Catalog Year

Credit(s): 3

Lecture: 0

Non-Lecture: 6

This course provides an introduction to environmental issues in Latin America by outlining the historical, political and socioeconomic forces that have driven environmental change in the region. This will serve as context for a first-hand examination of urban environmental issues in Buenos Aires, the capital of Argentina. Students will travel to Buenos Aires for two weeks during the January intersession to complete a two-credit field experience. Through on-site analysis of issues related to air and water quality, housing, nutrition, public health, municipal waste disposal, and the preservation of open space, students will develop an appreciation and understanding of the environmental problems and challenges facing large Latin American urban areas. Before students are allowed to register, they must consult with the instructor and file an application with the Office of International Programs in Erwin 106. Enrollment is limited and early registration is advised. Interested students should contact the instructor, the Office of International Programs or visit studyabroad.geneseo.edu for more information about the course, including costs and dates.

Prerequisite(s): Permission of instructor.

ENVR 268 - Landscapes and Livelihoods in Central Appalachia

2018-2019 Catalog Year

Credit(s): 3

Lecture: 0

Non-Lecture: 6

This course involves a two week field trip through Central Appalachia, including parts of West Virginia, Virginia, North Carolina, Tennessee, and Kentucky. This region has a rich history enmeshed in early colonization, the pre-industrial economy, slavery, the Civil War, the coal industry and early labor movements. It has been subjected to stereotypes and natural resource exploitation for centuries and students will learn about the environment, landscape and culture of Central Appalachia through active observation, maintaining a daily journal, presenting an original research topic in the field, and submitting a written report after the field component is completed.

Prerequisite(s): Permission of instructor.

ENVR 316 - Comparative Sustainability

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 3

This course will allow students to come face-to-face with the particular biodiversity, water, energy, food, and health issues of a non-North American, non-industrialized country, and compare them to similar issues in the U.S. The hybrid, online, study abroad course provides the opportunity to understand sustainability issues in the U.S. and study background material about Nicaragua's environmental sustainability situation for a week before departure. Two weeks in Nicaragua will provide immersion in the issues particular to that place, followed by a wrap-up week of online classes, discussions, and reports. This offers our students a unique perspective from which they can deeply examine global sustainability issues.

Prerequisite(s): BIOL 119 or ENVR 124

Offered: Summer session

ENVR 395 - Environmental Internship

2018-2019 Catalog Year

Credit(s): 1-15

A one-semester internship with an environmental organization, for example, the New York State Department of Environmental Conservation (DEC) or the Genesee Valley Land Conservancy. Students will perform work relevant to some aspect of environmental studies. Internship arrangements must be approved by a faculty supervisor, a field supervisor, and the coordinator of the Environmental Studies minor. **(Note: No more than 15 internship credits may be applied toward the baccalaureate degree.)**

Prerequisite(s): ENVR 124 or equivalent and 75 credits at the undergraduate level.

Offered: By individual arrangement

ESOL

WRTG 101 - English Language and Culture I

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Designed for the non-native speaker of Standard English, this course examines basic phonology and syntax in both theory and practice. These features are complemented by studies of semantics and pragmatics which offer insight into the cultural implications of language. Contrasts among various languages will further develop students' knowledge and application of the fundamental properties of English.

Prerequisite(s): Permission of the instructor.

Repeatable: May be repeated once for credit.

WRTG 201 - English Language and Culture II

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course is designed as the second level of studying English academic writing for nonnative speakers of the English language. The main goal is to help students advance reading and writing skills, broaden knowledge of vocabulary and grammar, and to hone business and research papers writing skills. While major grammar trouble spots are reviewed in Writing 101, students will have an additional opportunity to practice newly acquired writing skills in this course.

Prerequisite(s): WRTG 101 and permission of the instructor.

Repeatable: May be repeated once for credit.

Film Studies

FMST 100 - F/Introduction to Film Studies

2018-2019 Catalog Year

Credit(s): 4

Lecture: 3

Non-Lecture: 2

A course considering the work of one to three film directors through a close examination of their films, and explores "authorship" as a concept with a constantly evolving and historically contingent definition. In doing so, we will consider whether, when, and how a director and/or her, his or their biographical history is considered a substantial influence on a film's meaning. Crucially, we will consider these films in relation to their historical moments and audiences.

Prerequisite(s): FMST 100 or permission of the instructor.

Offered: At least once a year

Repeatable: May be taken twice for credit under different subtitles

FMST 499 - Directed Study

2018-2019 Catalog Year

Credit(s): 1-3

Intended for film studies minors. Students will design a capstone project (a research paper, short film, internship, or full length screenplay) and complete it according to a plan agreed upon with a faculty member. Basic requirements of the film minor must be completed before enrolling in this course.

Offered: By individual arrangement

Finance

FNCE 112 - Personal Finance

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will provide an overview of key money management concepts, the financial marketplace, and financial decision-making tools. It will investigate how technological developments, new financial products and services, and the changing economy and tax laws influence personal financial decisions. A major theme of the course will be personal financial planning for varied life situations.

Offered: When demand is sufficient

Restricted to: School of Business majors. Others may seek permission from the School of Business.

FNCE 250 - Introduction to Investment Research

2018-2019 Catalog Year

Credit(s): 1

Lecture: 1

Non-Lecture: 0

This course provides an introduction to research and valuation methods for publicly traded equity securities. Participation in Geneseo's Student Managed Investment Fund (SMIF) as a junior sector analyst and active participation in the SMIF's regular meetings are required component of the course. Students enhance their familiarity with multiple sources of corporate information, including SEC filings, sell-side research, trade press and other material utilized by professional analysts.

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A summary course in Physical Geography: the principles of geographic location, weather, climate, land forms, natural hazards, soils, and biota are presented in the context of an integrated Earth systems framework, addressing relationships to human populations. **Counts for Natural Science general education credit only if GEOG 112 is taken concurrently.**

Corequisite(s): GEOG 112 or permission of instructors.

Offered: Every semester

GEOG 112 - N/Physical Geography Laboratory

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 2

General Education Area(s): Natural Sciences

An introductory laboratory in physical geography. Activities involve data collection, organization and analysis, map analysis, and inquiry into Earth-Sun relations, weather and climate, landforms, natural hazards, soils and biota.

Corequisite(s): GEOG 111 or permission of instructor.

Offered: Every semester

GEOG 123 - S/M/The Developing World

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Social Sciences, Other World Civilizations

An examination of the cultures, countries, and regions of Latin America, Africa, the Middle East, South and East Asia. Attention is focused on problems such as growing poverty and resource exhaustion, and population problems. Prospects for change are examined under different types of development strategies.

Offered: Every semester

GEOG 161 - Geography of North America

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course provides systematic and regional approaches to the cultural, historical, and physical geography of the United States and Canada. Topics examined include urban development, rural differentiation, historical diffusion, and the effects of the physical environment on human actions. **Intended for non-Geography majors, students completing GEOG 161 may not enroll in GEOG 259 or GEOG 261.**

Offered: Not on a regular basis

GEOG 201 - Introduction to Urban and Regional Planning

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introduction to the concepts, objectives, and institutions of planning. Emphasis is placed on planning at the local level of government. Includes examination of such issues as land use controls, transportation, housing, recreation, environmental management, and the regional coordination of planning activities.

Prerequisite(s): GEOG 102 or ENVR 124.

Offered: Every fall

GEOG 220 - Weather and Climate

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course is an overview of the atmospheric sciences of meteorology and climatology in a geographical context. In an effort to understand global atmospheric processes, the course examines fundamental physical processes and disturbances in the atmosphere from both short-term (meteorology) and long-term (climatology) perspectives.

Prerequisite(s): GEOG 111 and GEOG 112 or permission of instructor.

Offered: Every year

GEOG 230 - Biogeography

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Biogeography is the study of the distribution of plants and animals in space and through time. Students will investigate biogeographic concepts, theory and methods through lecture, reading and hands-on exercises. The course will address the origins of the biogeographic subdiscipline, fundamental biogeographic principles, critical research over the past few decades, and current environmental topics.

Prerequisite(s): GEOG 111 and GEOG 112, or permission of instructor.

Offered: Every year

GEOG 250 - U/American Landscapes

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): American History

An appreciation of the American cultural landscape between its pivotal transition from regional folk norms to the chronologies of national popular culture in the nineteenth century and thence to the varied landscape impacts of the automobile in twentieth century American society. While the course emphasizes material-cultural features, the built landscape, it also explores landscape as a theme in literature, the visual arts, and advertising. When you have completed this course, you will be able to read and interpret the roadside landscape systematically and will be familiar with the wide range of field, archival, secondary, and Web resources that help to explain our visible and relatively recent built past.

Prerequisite(s): GEOG 102 or GEOG 123.

Offered: Not on a regular basis

GEOG 259 - Geography of Canada

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The physical, cultural, and historical geographies of Canada are examined. Students are exposed to topical and regional approaches to the study of Canadian geography. Topics covered include treatment of Canadian climate and biogeography; natural resources; settlement history; political and economic arrangements; and patterns of society and culture. Throughout the course, emphasis is placed on the relationship of Canadians to their physical environment. Canada's place in the global community and examination of United States/Canada relations are also stressed. **Students who have completed GEOG 161 may not enroll in GEOG 259.**

Offered: Not on a regular basis

GEOG 261 - Geography of the United States

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course exposes the students to both the systematic and regional approaches to the study of the United States. Topics to be covered include the relationship of humans to their physical environment; foundations of human activity; the differences between the various regions of the United States and their impact on each other and the region as a whole. Lectures and discussions will depend on descriptive and analytical examinations of these topics. **Students who have completed GEOG 161 may not enroll in GEOG 261.**

Offered: Not on a regular basis

GEOG 262 - M/Geography of Latin America

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Other World Civilizations

This course provides an introductory understanding of the peoples, places, and environments in Latin America. While aiming to capture the essence of unity and similarity in Latin America, the course also draws attention to diversity in the region. The course is divided into three components. The first will focus on the region's physical geography, indigenous settlement, and European occupation and colonization. The second component is a survey of regions within Latin America. The third part of the course focuses on selected topics in Latin American geography including race and ethnicity, cultural stereotypes, religion, demographic issues, urbanization, agriculture, tourism, health, and environmental change and conservation.

Offered: Not on a regular basis

GEOG 263 - M/Geography of Sub-Saharan Africa

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Other World Civilizations

This course provides a systematic analysis of Sub-Saharan Africa's changing landscape, including the study of culture, social well-being, population, urbanization, environment, politics, and economics. The course will also focus on post-colonial development issues associated with globalization and regional integration, with special attention to issues of equality and culture change. Current events will be placed into a locational context in an attempt to understand the interrelationships among people, cultures, economies, and the environment within Africa, and between Africa and the rest of the world.

Prerequisite(s): GEOG 102 or GEOG 111 and GEOG 112 or GEOG 123 or permission of instructor.

Offered: Not on a regular basis

GEOG 265 - M/The Geography of Islam

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Other World Civilizations

The historical-geographical spread of Islam is examined, and the varied circumstances of Muslims are assessed in a regional and thematic framework. Prospects of socioeconomic development are assessed in contexts of religious fundamentalism, geopolitical instability, and limited resources.

Offered: Not on a regular basis

GEOG 266 - M/Geography of the Western Pacific Rim

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Other World Civilizations

This course examines the regional and cultural geography of the countries of the western Pacific Rim from the Korean peninsula and Japan to Australia and New Zealand. The course considers the varied pace and direction of Asia-Pacific economic development in the context of factors such as cultural background, settlement history, comparative economic advantage, demographic transition, and a wide range of environmental settings from sub-Arctic to Equatorial ecosystems. The growing integration and global importance of the region and its gateway cities are given special attention.

Offered: Not on a regular basis

GEOG 269 - Geographic Field Studies in Western Canada

2018-2019 Catalog Year

Credit(s): 3

Lecture: 0

Non-Lecture: 6

An intensive field course involving two-weeks of travel through Alberta and British Columbia, Canada. Roaming through mountain, foothill, and prairie environments, the course examines both the human and physical landscape and focuses on human-environment interactions and adaptations in Western Canada. Designed to introduce students to geographical field observation, participants consider the indigenous population and their relationship to the environment and natural resource base. Spatial patterns of historical settlement, land use, wild land preservation, industry, economic development, and tourism will also be explored. Offered as a study abroad course.

Prerequisite(s): Permission of instructor.

Offered: Every other summer

Restricted to: Restricted to Geography majors.

GEOG 274 - Conservation and Resource Management

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course traces the evolution of American environmentalism. The goal is to understand the various philosophies, scientific positions, and methods by which Americans have attempted to deal with a range of environment and natural resource issues. Central focus is given to the concepts and practices of conservation, preservation, and natural resource management. Where these environmental perspectives have come from, where they are going and how they apply to contemporary environmental problems are questions explored in this course.

Prerequisite(s): (GEOG 111 and GEOG 112) or ENVR 124.

Offered: Every year

GEOG 275 - Field Experience

2018-2019 Catalog Year

Credit(s): 1

Lecture: 1

Non-Lecture: 0

An intensive, three to four day field course in which students experience geographic phenomena firsthand while cultivating skills in geographic observation. Pre-trip meetings are required and students are asked to conduct, and present in the field, advanced research. Emphasis is placed on reading and interpreting the physical and human landscape in varied regional settings. May be repeated for credit with permission of instructor only. Students must be in Good Academic Standing with no prior or current disciplinary record. **Course is available for non-Geography majors by permission of instructor only.**

Prerequisite(s): GEOG 102 or (GEOG 111 and GEOG 112)

Offered: Not on a regular basis

Restricted to: Geography majors.

GEOG 278 - R/Statistics in Geography

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Mathematics

An introduction to statistical research methods in geography. This course covers classical and spatial statistics as applied to research in physical and human geography. Topics covered include description, inference, significance, and prediction based on samples drawn from geographic data. . (Students may not receive credit for more than one 200-level statistics course, including credit for more than one of the following courses: BIOL 250, ECON 205, GEOG 278, MATH 242, MATH 262, PLSC 251, PSYC 250, and SOCL 211.)

Prerequisite(s): (GEOG 102 or GEOG 111) and (GEOG 112 or GEOG 123) or permission of instructor.

Offered: Every fall

GEOG 281 - Geography of Food

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course introduces students to geographic patterns and issues related to food. Topics include the origin and diffusion of food crops and food products, food distribution and consumption, the environmental impacts and sociopolitical dimensions of food production, food security and food deserts, and historical as well as contemporary cultural interpretations of food. These topics are examined at different spatial scales - local, regional, national and global.

Prerequisite(s): GEOG 102, GEOG 111, GEOG 112, and GEOG 123.

Offered: Not on a regular basis

GEOG 286 - Introduction to Geographic Information Systems

2018-2019 Catalog Year

Credit(s): 4

Lecture: 3

Non-Lecture: 2

This course provides an introduction to the theory and application of Geographic Information Systems (GIS) for mapping and basic spatial analysis. It examines fundamental concepts of spatial relationships, spatial data representation, geographic data models, spatial data acquisition, spatial analysis, and map design. Laboratory exercises emphasize hands-on applications on a variety of topics that require students to perform common GIS tasks and design and produce professional quality maps.

Prerequisite(s): Course is available for non-Geography majors by permission of instructor.

Offered: Every fall

Restricted to: Geography Majors

GEOG 291 - Cartography

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

This course introduces the theory and practice of mapmaking, including hands-on experience in the creation of thematic maps. Topics include collection and manipulation of geographic data, cartographic generalization, map projections, and the principles and elements of design used to produce effective maps.

Prerequisite(s): One introductory course in geography or permission of instructor.

Offered: Every year

GEOG 331 - Field Biogeography Senior Seminar

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

This senior seminar course provides advanced topical, theoretical and methodological coverage of Biogeography. Concepts such as biodiversity, disturbance, succession, conservation and land management, and relevant policy will be studied through active inquiry and seminar discussions, exposing students to the nature and breadth of this subdiscipline of Geography.

Prerequisite(s): GEOG 230 or permission of instructor.

Offered: Every fall

Restricted to: Restricted to Geography majors with Senior Standing.

GEOG 348 - Sports Geography

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course examines amateur and professional sports from a geographic perspective. It surveys the ways in which historical, cultural, political, economic, demographic and environmental factors have contributed to the origin and diffusion of sports. Analysis will be conducted at different spatial scales; local, regional, national and international. Topics include locational strategies and migration patterns of sports clubs and franchises, spatial analysis of sports arenas and stadiums, economic and environmental impacts of sports, and factors influencing the transition of folk games to modern competitive sports.

Prerequisite(s): GEOG 102, GEOG 111, GEOG 112, and GEOG 123 or permission of the instructor.

Offered: Not on a regular basis

GEOG 350 - Urban Historical Geography

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An international survey of past urban environments, their cultural, socio-economic, and technological context, and evolution. Geographical approaches to Latin American, Canadian, European, and Asian cities provide a framework for assessing the particular experience of American urban development between the colonial period and the twentieth century. Emphasis is placed on urban research techniques and topics appropriate to locally accessible archival evidence.

Prerequisite(s): GEOG 102 or GEOG 123, or permission of instructor.

Offered: Not on a regular basis

GEOG 355 - Experimental Cartography

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will focus on the collection and manipulation of data used in Geography. Students will collect data, then apply both statistical and cartographic tools to make sense of the data. Data collection will embrace different types of geography, both physical and human. For example, students might collect soils or climate data, then manipulate them to make a map of the phenomenon; or students might manipulate census data to make statistical statements about a variable and then make maps of it.

Prerequisite(s): GEOG 291.

Offered: Not on a regular basis

Restricted to: Geography majors

GEOG 374 - Geographic Thought Senior Seminar

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A senior seminar course surveying the history of geographic thought and exploring present debates and trends in the geography discipline. Students will gain an understanding of the nature and breadth of the geography discipline and

will investigate opportunities for future study and/or professional careers.

Offered: Every fall

Restricted to: Geography majors and minors with Senior Standing.

GEOG 376 - Political Geography

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Global issues and problems are studied within the context of a world systems approach to political geography. Historic and modern processes associated with imperialism, territory, the state, nations, and international organizations are examined.

Prerequisite(s): GEOG 102 or GEOG 123, or permission of instructor.

Offered: Fall, even years

GEOG 377 - Urban Geography

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A study of the spatial distribution and spatial structure of urban places. A survey of the history of urbanization, examining the world distribution of cities from pre-history to the present. The role and structure of a city in modern industrial society. A survey of urban problems, and research and planning approaches to these problems.

Prerequisite(s): GEOG 102 or (GEOG 111 and GEOG 112) or GEOG 123 or GEOG 201 or permission of instructor.

Offered: Every spring

GEOG 382 - Climate Change and Variability

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course surveys topics regarding climate change and climate variability. The course surveys methods of paleoclimate reconstruction, climate history of the most recent 1000 years, climate change theories, methods of observational climate analysis, and climate modeling. Special attention is given to the response of Earth's natural systems (atmosphere, hydrosphere, lithosphere, and biosphere) to past, present, or projected changes in climate. Reviews current topics in climate change and the channels through which climate change research is done.

Prerequisite(s): GEOG 220 or permission of instructor.

Offered: Not on a regular basis

GEOG 383 - Research Experience in Human Geography

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course develops students' abilities to design and implement original research, and conduct fieldwork, in human geography. Through development of independent research projects, students will: learn the fundamentals of research design; become familiar with sources of data used in human geography; gain expertise in the application of key human geography research methods; and, learn to deliver research results through oral, graphic and written communication. The course also has a field experience component that may require an overnight weekend stay. Linked to advanced independent research, the field experience cultivates student skills in field exploration, observation, and presentation.

Students must be in Good Academic Standing with no prior or current disciplinary record. Course is available for non-Geography majors and minors by permission of instructor.

Prerequisite(s): GEOG 102 or GEOG 123, GEOG 286.

Offered: Not on a regular basis

Restricted to: Geography majors and minors

GEOG 385 - Advanced Geographic Information Systems: GIS

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course provides a detailed examination of conceptual issues presented in the introductory GIS class. It also involves additional material on data acquisition, data structures, spatial data standards and error analysis, spatial analysis operations, the effects of geographical information science on society, and GIS applications.

Prerequisite(s): GEOG 286 or permission of instructor.

Offered: Every spring

Restricted to: Geography Majors

GEOG 386 - Applications in Geographic Information Science (GIScience): (subtitle)

2018-2019 Catalog Year

Credit(s): 1-3

This course provides the opportunity for in-depth applications of Geographic Information Science, including Geographic Information Systems (GIS), spatial analysis, remote sensing, and cartography, to selected research problems and data sets. This course will introduce students to both conceptual and practical aspects of developing GIScience applications.

Prerequisite(s): GEOG 286.

Offered: Not on a regular basis

Repeatable: May be taken for credit twice under different subtitles.

GEOG 387 - Urban Issues Senior Seminar

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This senior seminar course is designed to provide the opportunity for in-depth analysis of selected urban issues. Each seminar will focus on one aspect of the city (e.g. gentrification/renewal of the central city, suburbanization, sustainability). Students will also gain an understanding of the nature and breadth of this Geography subdiscipline and will investigate opportunities for future study and/or professional careers.

Prerequisite(s): GEOG 201 or GEOG 377 or SOCL 217.

Offered: Every fall

Restricted to: Geography majors with Senior Standing.

GEOG 395 - Geography/Planning Internship

2018-2019 Catalog Year

Credit(s): 3

Lecture: 0

Non-Lecture: 9

A one-semester work/study experience with an appropriate off-campus agency, firm, or group. A departmental faculty advisor, a representative of the organization selected, and the student mutually determine beneficial work experience(s) and/or research projects.

Prerequisite(s): permission of department.

Offered: By individual arrangement

GEOG 397 - Teaching Practicum in Geography

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course offers practical teaching experience in undergraduate Geography, as practicum students work closely with a supervising professor for a specified course in Geography. Responsibilities may include assisting in preparation and presentation of lectures and labs, holding office hours and review sessions with students, helping to prepare exams and assignments, and providing evaluative feedback to students.

Prerequisite(s): Junior or senior standing, or permission of instructor.

Offered: By individual arrangement

Restricted to: Geography majors

GEOG 399 - Directed Study:

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

With faculty approval, an upper-level academic project may be arranged. Students work individually under the supervision of a faculty member on a research-oriented project.

Offered: By individual arrangement

GEOG 431 - Field Biogeography Senior Seminar

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

This senior seminar course provides advanced topical, theoretical and methodological coverage of Biogeography. Concepts such as biodiversity, disturbance, succession, conservation and land management, and relevant policy will be studied through active inquiry and seminar discussions, exposing students to the nature and breadth of this sub-discipline of Geography.

Prerequisite(s): GEOG 230 or permission of instructor.

Offered: Every fall

Restricted to: Geography majors with Senior Standing.

GEOG 474 - Geographic Thought Senior Seminar

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A senior seminar course surveying the history of geographic thought and exploring present debates and trends in the geography discipline. Students will gain an understanding of the nature and breadth of the geography discipline and will investigate opportunities for future study and/or professional careers.

Offered: Every fall

Restricted to: Geography majors and minors with Senior Standing.

GEOG 487 - Urban Issues Senior Seminar

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This senior seminar course is designed to provide the opportunity for in-depth analysis of selected urban issues. Each seminar will focus on one aspect of the city (e.g. gentrification/renewal of the central city, suburbanization, sustainability). Students will explore the nature and breadth of this Geography sub-discipline and will investigate opportunities for future study and/or professional careers.

Prerequisite(s): GEOG 201 or GEOG 377 or SOCL 217 .

Offered: Every fall

Restricted to: Geography majors and minors with Senior Standing.

GEOG 499 - Directed Study

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

With faculty approval, an advanced academic project may be arranged. Students work individually under the supervision of a faculty member on a research-oriented project.

Offered: By individual arrangement

Geological Sciences

GSCI 120 - N/Our Geological Environment

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Natural Sciences

This course is intended for non-science majors who have an interest in their physical environment. The course is designed to develop an understanding of the interaction of Earth processes, the environment, and the human population. Topics include Earth materials, natural resources, geologic hazards, environmental change, and global environmental issues.

Corequisite(s): GSCI 121.

GSCI 121 - N/Our Geological Environment Laboratory

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 2

General Education Area(s): Natural Sciences

An introduction to description and interpretation of rocks, geologic, and topographic maps. Students will learn identification techniques, data collection, and systematic analysis of data sets to better understand earth processes.

Corequisite(s): GSCI 120.

GSCI 130 - N/Geological History of Life

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Natural Sciences

An introduction to the development and history of life on Earth. Stress will be placed on understanding the environments of the changing earth, evolutionary processes, the fossil record, and procedures used in scientific analysis.

Corequisite(s): GSCI 131.

Offered: Every spring

GSCI 131 - N/Geological History of Life Laboratory

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 2

General Education Area(s): Natural Sciences

An introduction to the preservation, description, and interpretation of rocks and fossils. Students will learn descriptive techniques, data collection, and systematic analysis of data sets in order to better understand the history of life on earth.

Corequisite(s): GSCI 130.

Offered: Every spring

GSCI 140 - Environmental Science

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introduction to the interaction of humans and the natural world, with focus on global environments, resources, population dynamics, energy, geology, and human impacts.

Corequisite(s): GSCI 141.

Offered: Every fall

GSCI 141 - N/Environmental Science Laboratory

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 2

General Education Area(s): Natural Sciences

An introduction to laboratory principles and techniques in the environmental sciences for the critical analysis of scientific methods through data collection, data analysis, and interpretation.

Corequisite(s): GSCI 140.

Offered: Every fall

GSCI 150 - N/The Geology of Climate Change and Energy

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Natural Sciences

This course is intended for non-science majors who have an interest in understanding the relationship between energy usage in the industrial era and climate change. Understanding and adapting to global-scale climate change is one of the most important issues facing scientists and world leaders in the 21st century. The interrelationship of past climate changes and energy consumption from fossil fuels is clear, and understanding the response of the Earth system to rising greenhouse gas concentrations in the atmosphere is of critical interest as the human population approaches maximum sustainable levels. This course explores the fundamental geologic records of global climate change, Earth-system processes in the context of climate change and the global carbon cycle, critical improvements to the scientific understanding of natural versus human-induced climate change, and the recent and future impact of global-scale energy use on the Earth system.

Corequisite(s): GSCI 151.

Offered: Not on a regular basis

GSCI 151 - N/The Geology of Climate Change and Energy Laboratory

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 2

General Education Area(s): Natural Sciences

This laboratory course is designed for nonscience majors. Weekly exercises explore the global carbon cycle, Earth-system processes, geologic records of climate change, national and global-scale consumption of hydrocarbon fuels, and the potential for renewable energy resources in western New York.

Corequisite(s): GSCI 150.

Offered: Not on a regular basis

GSCI 160 - N/Physical Geology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Natural Sciences

An introduction to the study of the Earth. Emphasis is placed on examination of the materials, surface features, structures and internal characteristics of the Earth, and on the geological processes that caused them.

Corequisite(s): GSCI 161.

Offered: Every fall

GSCI 161 - N/Physical Geology Laboratory

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 3

General Education Area(s): Natural Sciences

An introduction to the study of the Earth. Interpretation of topographic maps, and specimens is stressed in the laboratory.

Corequisite(s): GSCI 160.

Offered: Every fall

GSCI 170 - Historical Geology

2018-2019 Catalog Year

Credit(s): 4

Lecture: 3

Non-Lecture: 3

An introduction to the origin and evolution of the Earth and all of its divisions--atmosphere, hydrosphere, biosphere, and the divisions of the solid earth. Attention is given to the many approaches used to determine the history of the Earth through study of its materials, surface features, and structures as well as through modern studies that utilize geochemistry, geophysics, and planetary astronomy. (Field trips are sometimes conducted outside class hours.)

Prerequisite(s): GSCI 160 and GSCI 161.

Offered: Every spring

GSCI 191 - Introduction to Geology at Geneseo

2018-2019 Catalog Year

Credit(s): 1

Lecture: 1

Non-Lecture: 0

An introductory course for first year students who are considering a career in the Geological Sciences. Weekly meetings will focus on career opportunities, pertinent academic information, campus and department resources, and study skills and time utilization. This course also intends to promote a close working relationship between students and faculty. Cannot be counted toward the Geological Sciences major.

Graded: S/U

GSCI 200 - Environmental Geology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A survey of important geologic concepts relevant to current environmental issues. Emphasis is placed on geologic principles underlying problems related to water resources, pollution, natural hazards, waste disposal, energy and mineral resources, and on the scientific bases for current strategies proposed to limit adverse consequences of our

impact on environmental systems. The geologic information bases available from governmental agencies are used to characterize and demonstrate practical problems for classroom exercises. Although not required, a general survey course in geology, physical geography, or high school earth science would provide an appropriate background. **Not to be taken as a normal elective for the Geological Sciences major except by special permission.**

Offered: At least once a year

Restricted to: Non-GSCI Majors

GSCI 201 - Geology of Alien Worlds

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Comparative geology of the terrestrial planets and major moons as currently revealed and documented by recent and ongoing NASA missions. Comparison of planetary objects less evolved than the Earth provides the means to understand the evolution of the Earth from a lifeless, cratered object to its present dynamic state. Studies of other solar system bodies with different evolutionary histories emphasize the unique position of Earth in our solar system. Coverage will include data from the Apollo missions to the present with an emphasis on solid planetary bodies.

Prerequisite(s): 100-level lab science or earth science.

GSCI 210 - Mineralogy

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

A systematic study of the important minerals with emphasis on their crystallography, descriptive mineralogy, crystal chemistry, phase relationships and associations. Lectures emphasize theoretical aspects of mineral studies, while the laboratory portion is devoted to the descriptive and practical.

Prerequisite(s): GSCI 160 & GSCI 161 or permission of instructor.

Offered: Every fall

GSCI 220 - Petrology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

The study of the natural history of igneous, sedimentary, and metamorphic rocks, including their mineralogy, fabric, alteration and origin. Lectures emphasize theoretical aspects such as processes that affect the development of rocks and theories as to their origin. Laboratories emphasize the classification and identification of rocks in both hand sample and thin section.

Prerequisite(s): A C- or higher in GSCI 210.

Offered: Every spring

GSCI 263 - Dinosaurs

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Dinosaurs are a major component of the diverse Mesozoic faunas and floras. This course provides an introduction to the principles, processes, techniques, and interpretations in the study of Mesozoic life and geology. Upon completion, students will be able to describe, classify, and interpret dinosaur and other fossil remains, as well as have an understanding of significant changes in earth history. A required eight day field trip will result in the observation and description of dinosaur fossils and track ways in museums and the field.

Prerequisite(s): Two 100-level classes in Biology and/or Geology, as well as permission of the instructor(s).

Offered: Spring, odd years

GSCI 281 - Writing and Knowing the Land Abroad in: [subtitle]

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This Study Abroad course explores how the geology of the landscape can be described and interpreted through field-based experiences and reading/writing. The students will develop a research proposal on site that relates to topics of interest and/or data gathered in the field and will work alongside creative writers to help them integrate principles of the geological sciences into their creative writing. This course focuses on topics including geomorphology, petrology, volcanology, tectonics, sedimentology/stratigraphy, glacial geology, and comparative planetary geology.

Prerequisite(s): GSCI 220

Offered: Not on a regular basis

GSCI 310 - Scientific and Technical Writing in the Geosciences

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

An overview of current conventions and practices used in scientific and technical writing in the geosciences. The focus of the course will be on reading, writing, and critiquing various forms of scientific and technical writing for the purpose of assisting students in preparation for professional papers. In addition to appropriate aspects of language use and style, principles of preparing figures and tables will be discussed. The course is designed to help students develop the knowledge and skills to: 1) write in an accurate, precise, clear, concise, and effective style appropriate for their intended audience; and 2) recognize and rectify writing problems in their own work and in that of others.

Prerequisite(s): GSCI 220.

GSCI 315 - Principles of Geochemistry

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The application of the basic principles of chemistry to the study of geologic processes. Topics include the origin and distribution of the chemical elements, the fundamentals of crystal chemistry, the important chemical reactions occurring in low-temperature aqueous solutions, and the construction and interpretation of mineral-stability diagrams.

Prerequisite(s): GSCI 220, CHEM 119, and (CHEM 118 or CHEM 204) or permission of instructor.

Offered: When demand is sufficient

GSCI 320 - Isotope Geology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The study of the variations in the abundances of naturally occurring isotopes and their applications to problems in the geological sciences. Both stable and unstable isotopes are considered.

Prerequisite(s): GSCI 220, CHEM 119, and (CHEM 118 or CHEM 204) or permission of instructor.

Offered: When demand is sufficient

GSCI 331 - Geomorphology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

The description and interpretation of land forms. Consideration is given to the effects of rock structure, natural processes, and temporal changes in the evolution of the surface features of the Earth. (Field trips are sometimes conducted outside class hours.)

Prerequisite(s): GSCI 170.

Corequisite(s): GSCI 220.

Offered: Every spring

GSCI 332 - Glacial Geology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

The origin, characteristics, processes and geologic effects of glaciers are considered. Worldwide evidence for glaciation from the geology of the continents and the ocean basins is examined with emphasis on the Pleistocene Epoch of North America. Aerial photographs and topographic maps, geologic maps and GIS software are used extensively in laboratory exercises. Field trips to glacial terrains in western New York are sometimes conducted during and outside of class hours.

Prerequisite(s): GSCI 170.

Corequisite(s): GSCI 220.

GSCI 333 - Geologic Applications of Remote Sensing Imagery

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

Photogrammetric and digital analysis of aerial and satellite imagery as applied to the solution of geologic problems. Emphasis is on interpretation of the geomorphology and geologic structure of the Earth's surface from film and digital images incorporating GIS (geographic information system) software such as ArcView 8 and GPS (geographic positioning system) instrumentation. The creation of GIS-based geologic maps by combining field data and georegistered imagery on standard base maps is included.

Prerequisite(s): GSCI 331 or permission of instructor.

Offered: Fall, odd years

GSCI 334 - Planetary Geology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

An analysis of the geological characteristics of the planets in our solar system, including asteroids, dwarf planets, and outer satellites. This course combines the fundamentals of our understanding of planetary formation, planetary evolution, and modern surface processes with technical training in the use of planetary datasets and industry software. Comparisons to terrestrial geology will be emphasized throughout, leaning on fundamental processes that are consistent across all planetary bodies (e.g. impact cratering and volcanism) as well as those processes that are truly unique to these alien worlds.

Prerequisite(s): GSCI 220.

Offered: Fall, even years

GSCI 335 - Paleoclimatology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

The study of fundamental concepts of global-scale environmental and climatic changes in the context of Earth-surface processes and Earth history. The course focuses on physical, chemical and biological signatures of past environments preserved in the geologic record; causes and effects of major climate-changes over various timescales in Earth history; and geologic responses to Pleistocene, Holocene and historical climate change. Laboratory exercises involve characterizing surface processes, data-rich studies of climate-change records and discussions of climate science literature.

Prerequisite(s): GSCI 170.

Offered: Spring, odd years

GSCI 341 - Principles of Structural Geology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

The study of rock deformations, including the description, classification, and origin of structures such as folds, faults, joints, and cleavage. Attention is given to the influence of rock structures on economic problems and on geomorphic features. Aspects of geotectonics are considered. (Field trips are sometimes conducted outside class hours.)

Prerequisite(s): GSCI 170.

Offered: Every fall

GSCI 343 - Applied Geophysics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 3

The study of geophysical techniques widely used in the Earth Sciences. Emphasis is placed on analytical methods of interpretation and the theory on which such methods are based.

Prerequisite(s): GSCI 220 and GSCI 341; MATH 222; (PHYS 113/PHYS 114) or (PHYS 123/PHYS 114)

Offered: Spring, even years

GSCI 345 - Tectonics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The study of the evolution of the crust and upper mantle of the Earth, and the largescale deformational features and patterns of motion which occur there. The relationships between internal earth processes and energy sources, and the evolution of the crust and upper mantle, are emphasized.

Prerequisite(s): GSCI 220 and GSCI 341.

Offered: Spring, odd years

GSCI 347 - Groundwater Hydrology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The study of the origin and occurrence of groundwater and of those principles of fluid flow in porous media which govern the flow of groundwater. The hydraulic properties of groundwater systems and water wells, the relationships between groundwater and other geological processes, the development of groundwater resources, water quality, recharge of groundwater, and solute transport are emphasized.

Prerequisite(s): 15 credits of Geological Sciences and MATH 221.

Offered: Every fall

GSCI 351 - Stratigraphy

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

Description of sedimentary rocks, introduction to stratigraphic concepts, and interpretation of sedimentary facies and sequence relationships. Topics include the use of facies analysis, lithostratigraphy, biostratigraphy, and chronostratigraphy in the interpretation of sedimentary basin history. (Required field trips conducted outside of class hours.)

Prerequisite(s): GSCI 170 or permission of instructor.

Offered: Every spring

GSCI 352 - Sedimentation

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 3

The analysis and characterization of clastic sediments with application to the origin, evolution, and properties of sedimentary rocks. Standard analytical techniques will be learned from laboratory experiments. The theory and results relating to the experimental measurements and observations will be outlined and discussed during one-hour weekly meetings. (Some lengthy experiments may require measurements to be recorded at intervals spanning several days.)

Prerequisite(s): GSCI 170 and GSCI 220.

Offered: Not on a regular basis

GSCI 353 - Sedimentary Petrology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

The study of the deposition, lithification, and diagenesis of sedimentary rocks, including their origin, mineralogy, fabric, and alteration. Lectures emphasize theoretical aspects such as depositional settings, descriptive and analytical techniques, as well as economic aspects. Laboratories emphasize preparation, methodology of the classification, identification, and analysis of sediments and sedimentary rocks in both hand sample, thin section, and instrumentation.

Prerequisite(s): GSCI 220.

GSCI 361 - Invertebrate Paleontology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

Taxonomy and morphology of major groups of invertebrate fossils. Topics include fossil invertebrate classification, evolution, taphonomy, biostratigraphy, paleoecology, and paleobiogeography. (Required field trips conducted outside of class hours.)

Prerequisite(s): A C- or higher in GSCI 170 or permission of instructor.

Offered: Every spring

GSCI 363 - Dinosaurs with Research

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Dinosaurs are a major component of the diverse Mesozoic faunas and floras. This course provides an introduction to the principles, processes, techniques, interpretations, and research in the study of Mesozoic life and geology. Upon completion, students will be able to describe, classify, and interpret dinosaur and other fossil remains, as well as have an understanding of significant changes in earth history. A research project and paper, as well as a required eight day field trip will result in the observation and description of dinosaur fossils and track ways in museums and the field.

Prerequisite(s): Two 100-level classes in Biology and/or Geology, as well as permission of the instructor(s).

Offered: Spring, odd years

Crosslisted with: BIOL 363

GSCI 370 - Advanced Mineralogy and Petrology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 3

The theory and use of the petrographic microscope and analytical data as applied to the study of mineralogy and petrology. The behavior of polarized light through minerals in thin sections is emphasized in order to understand techniques commonly used in geologic research. When integrated together, microscopy and data present a more holistic approach to mineralogical and petrologic studies.

Prerequisite(s): GSCI 220.

Offered: Not on a regular basis

GSCI 380 - Undergraduate Research

2018-2019 Catalog Year

Credit(s): 3

Lecture: 1

Non-Lecture: 6

Under the supervision of a faculty member in Geological Sciences, students will undertake a research project in some area of Geological Sciences. The topic and methodology will be established by mutual consent of the student and faculty member and presented in a research proposal. Students will meet together with the involved faculty once a

week to discuss the background, methods, and results of their projects. Students will be required to complete a formal research paper describing the nature of the project undertaken, problems encountered, methodology employed, and conclusions from the project. **A maximum of 3 credits may be applied toward the major in Geological Sciences.**

Prerequisite(s): GSCI 220 and permission of instructor.

Repeatable: May be repeated

GSCI 391 - Geological Sciences Capstone Seminar I

HIST 214 - British Isles: Four Nations in Contact and Conflict

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This will be a three week course taught in the British Isles. Historically, the term "British Isles" - a term which suggests both unity and harmony - is problematic. Although England, Ireland, Wales and Scotland have been at various times politically tied to one another, their relations have often been fraught with tension and conflict. Ireland's contentious relationship to England is, of course, well-known. Less obvious, but no less significant, are the tensions that exist amongst the Welsh, the Scots, the Cornish, and subjects from around Britain's former world empire, over what it means to be British. This course seeks to provide students with an understanding of the complexities inherent in the relationships between the nations and peoples that inhabit the British Isles.

Offered: Not on a regular basis

HIST 220 - Interpretations in History: (subtitle)

This is one of two required skills-based seminars in the History major and is focused on critical reading and analysis. This class introduces students to the concept of historiography, which includes the critical assessment of the methods and sources that historians use in fashioning an argument, the contexts that inform historians' approaches to understanding the past, and comparisons of different historians' conclusions about similar topics. All sections will focus on a specific set of historical issues and/or events chosen by the instructor and class content emphasizes critical reflection on the variety of historical interpretations that are possible within a given topic. The class is reading and writing intensive. Majors may take HIST 301 and HIST 302 in any sequence, and should plan to complete both HIST 301 and HIST 302 during the sophomore or junior year.

Prerequisite(s): Sophomore standing or higher.

Offered: Every fall and spring semester

HIST 302 - Research in History: (subtitle)

2018-2019 Catalog Year

Credit(s): 4

Lecture: 4

Non-Lecture: 0

This is one of two required skills-based seminars in the History major that form prerequisites for upper level classes. This course is focused on critical analysis of historical evidence and instruction in historical research methods and writing. Students read, evaluate, and critique a range of different types of primary source evidence, practice locating and retrieving reliable primary and secondary sources, and use these skills to support the crafting of historical arguments in both short papers and longer research projects. All sections will focus on a specific set of historical issues and/or events chosen by the instructor and class content emphasizes work with primary sources specific to the seminar topic. The class is reading and writing intensive. Majors may take HIST 301 and 302 in any sequence, and should plan to complete both HIST 301 and 302 during the sophomore or junior year.

Prerequisite(s): Sophomore standing or higher.

Offered: Every fall and spring semester

HIST 405 - The English Atlantic World to 1763

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course is a history of the settlement, expansion, and development of the American Colonies, from the time of the first English settlements to the eve of the American Revolution in the middle of the eighteenth century. The central theme of the course is the expansion of English society across the Atlantic. We will examine the interaction of Englishmen and women with their environment, with native peoples, and with a variety of groups that were imported or that freely migrated into the colonies. We will examine the relations between these peoples, and through their conflicts, their cooperation, and their incomplete assimilation into an Anglo-American colonial society, arrive at a fuller understanding of American colonial development. Events in the American colonies, furthermore, will be viewed in their transatlantic, imperial context. As such, we will focus on developments on both sides of the Atlantic Ocean, and on both sides of the "frontier."

Prerequisite(s): HIST 302 (HIST 301 also recommended).

Offered: Not on a regular basis

HIST 406 - The Age of the American Revolution

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course explores the structures of American society in the second half of the eighteenth century, British colonial policies and American opposition to those policies, the growth of revolutionary movements, and the cultural, political, military, and ideological contexts of the period. The course will also examine the impact of the war on African Americans, Native Americans, women, and ordinary citizens. Students will engage with the social consequences of the Revolution, post-war economics, post-war politics, post-war society, and the arguments for and against the establishment of a strong central government culminating in the Philadelphia Convention and the ratification of the Constitution of 1787.

Prerequisite(s): HIST 302 (HIST 301 also recommended).

Offered: Not on a regular basis

HIST 407 - Slave Rebellions and Resistance in the Atlantic World

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course examines slave rebellions and resistance in the eighteenth and nineteenth centuries in a wide variety of locales, including the United States, the Caribbean, and South America. Our goals will be to examine what constitutes a slave rebellion how resistance differed from rebellion, how revolts were organized, how they impacted local communities as well as nationstates, and how various forms of resistance altered slaveholder power. This course will give you a sense of what slavery was like in the New World, and how historical events, such as the French and Haitian revolutions, altered slave regimes, and how slave rebels shaped the abolitionist movement. In addition, we will explore how historians have interpreted the fragmentary evidence on revolts and conspiracies.

Prerequisite(s): HIST 302 (HIST 301 also recommended).

Offered: Not on a regular basis

HIST 410 - Making of Industrial America, 1877-1918

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will examine the emergence of American industrialism, the consolidation of a strong national state, the development of an expansionist foreign policy, and the ways in which the processes of immigration, urbanization, and is proletarianization laid the foundations for modern America in the period between Reconstruction and the First World War.

Prerequisite(s): HIST 302 (HIST 301 also recommended).

Lecture: 3

Non-Lecture: 0

This course will examine the ways modern American politics, economy, and culture were shaped by the period bounded by the two World Wars and marked by the Great Depression and the efforts of the Hoover and Roosevelt administrations to resolve it. Emphasis is on the domestic, social, political, and economic history of the period.

Prerequisite(s): HIST 302 (HIST 301 also recommended).

Offered: Not on a regular basis

HIST 412 - African-Americans in the Age of Jim Crow

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will explore African-American history from the period following Reconstruction (when racially-based segregation became both the law and practice throughout the United States) until 1954 (when the Brown decision ended the legal and Constitutional basis for racial segregation). The course will examine work, culture, gender, class, activism, and leadership as African Americans struggled against the strictures of Jim Crow. The course will also examine major events and movements, including the Great Migration, the Great Depression, Garveyism, the Harlem Renaissance, and World War II.

Prerequisite(s): HIST 302 (HIST 301 also recommended).

Offered: Not on a regular basis

HIST 413 - Black Power and Structural Inequality in Post-1945

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will focus on the post-World War II African-American experience, with particular attention to relevant national, state, and local policies and to northern and western urban centers. We will examine the basis for structural inequality, along with Black activism and alternative visions for Black communities and the country. Traditional narratives of the post-World War II era have focused on the southern Civil Rights Movement through the middle sixties, before moving North with a narrative that shifts to Black Power, white backlash, and urban de-industrialization and decline. In the past decade, historians have collectively challenged that framework and emphasis, illustrating, for example, that governmental policies which privileged whites and reinforced segregation pre-dated the southern movement and did not simply emerge in response to the angry and violent rhetoric of Black Power. Moreover, through northern-based local studies, historians have effectively illustrated that the dichotomies of South versus North and Civil Rights versus Black Power are far too simplistic, obscuring both long-term Black activism outside the South and the common roots and bases for Civil Rights and Black Power. We will explore these and other issues related to the post-World War II Black Freedom Struggle in the North and West and the interrelated themes of structural inequality and white privilege through our reading.

Prerequisite(s): HIST 302 (HIST 301 also recommended).

Offered: Not on a regular basis

HIST 415 - Environmental Thought & Politics in Modern America

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course traces the historical development of American environmental thought and politics from the late 19th century to the present. It will be particularly concerned with the clash between two distinct forms of environmental thought and action: one promoting the sustainable use of the natural environment and the other opposing human intervention into wilderness areas. The course will also explore the ways in which gender, race, class, religion, and globalization have intersected with environmental thought and politics.

Prerequisite(s): HIST 302 (HIST 301 also recommended).

HIST 445 - The British Isles, 1485-1689

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The reigns of the Tudor and Stuart monarchs saw sustained and deep-reaching changes in the four nations of the British Isles (England, Scotland, Ireland, and Wales). Over just two centuries, this region witnessed divisive processes of religious transformation associated with the Protestant Reformation; the emergence of a centralized and bureaucratized nation state based in London; two separate political revolutions and a series of bitterly fought rebellions in Scotland and Ireland; the transformation of the British Isles from a weak collection of kingdoms on the margins of Europe into a global economic and military power; and the creation of significant contributions to literature, the arts, philosophy, and the sciences. Using primary and secondary source readings, this course will explore these transformations and will assess the impact of these changes in regional and global contexts.

Prerequisite(s): HIST 302 (HIST 301 also recommended).

HIST 465 - M/History of the Iroquois: From Pre-Contact to Present

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Other World Civilizations

This course covers the history of the native peoples who formed the Iroquois League and Confederacy, from the time of their first contact with Europeans through the present day controversies that seem to appear in newspapers nearly every day. We will look at the formation of the League, the emergence of the Confederacy, the consequences of Iroquois involvement in the European Wars of Empire, and then the rapid dispossession of the Iroquois in the decades that followed the American Revolution. We will look at the application of various government policies in the United States and Canada to the Iroquois, and how the Iroquois have reacted to and adapted to these changes. Throughout, we will keep in mind the different histories of the constituent Iroquois communities that occupy present-day New York.

Prerequisite(s): HIST 302 (HIST 301 also recommended).

INTD 207 - Interdisciplinary Disability Studies

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Humanities-based disability studies course explores disability in contexts that cut across the arts, social sciences, history, education, literature, business, philosophy sociology, social policy and law. As an introduction to the scholarly field of disability studies it draws across disciplinary boundaries and is not limited to one field of study alone, but is hybrid in its overview. Disability is not taken up as deficit or defect in the body/mind of an individual, but rather as a negotiation of power/privilege where difference serves as a field of 'political struggle'. Informed by critical theory, dis/ability is understood as a discursive construction - a fictional "other" to the fictional "norm" - embedded in society. Dis/ability from this perspective offers a way to think about bodies rather than as something that is wrong with bodies.

INTD 208 - Yoga, Mind, and Consciousness

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

This course will investigate the Yoga system of philosophy, which also forms the core of Buddhist thought. Yoga attempts to understand mind and human consciousness as aspects of a larger, universal consciousness. The approach of yoga is both empirical and subjective, in contrast to the objective, analytical approach of most Western philosophy. Our course will explore these ideas, along with the yogic system of ethical precepts and the practice of meditation that is intended to expand ordinary consciousness toward direct apprehension of higher consciousness. Another aspect of the course is to explore the relationship between meditation and neuroscience. Scientists in the field of cognitive neuroscience have recently taken active interest in the effects of meditation on brain activity, mood, and cognition. Our readings and discussion will examine these relationships.

INTD 210 - Topics in Film: (subtitle)

Credit(s): 4

Lecture: 3

Non-Lecture: 2

This four-week summer course takes place in the port city of Dakar in Senegal, one of the more successful postcolonial democratic transitions in Africa. The course is intended to enhance students' understanding of history, ideas, and critical issues pertaining to modern west African societies in general, and to Senegal in particular as is expressed through multiple languages, literature, politics, customs, and religion. These components are fundamental in getting to know and appreciate contemporary west African cultures from the inside. The main aspects of past and modern lives (institutions, society, way of life) of Senegal in particular, and of other West African nations, will be studied through lectures in class, notes from field visits, literary texts, excursions, interview discussions, intensive use in class of authentic documents (local newspaper articles and magazines) and homestay experience.

Prerequisite(s): FREN 202 or permission of instructor.

Offered: Summer, as part of the Senegal program

MKTG 338 - Internet Marketing

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The Internet has become a key technology for the practice of marketing. To thrive in this new digital age, marketers must rethink their strategies for the 4Ps and adapt them to today's new environment. This course is designed to help marketing students learn the art of managing a virtual market place and develop product, pricing, placement and promotion strategies relevant to this new model of business. Paraphrasing Philip Kotler's definition of marketing, Internet Marketing is the process of building and maintaining customer relationships through on-line activities to facilitate the exchange of product and services that satisfy the goals of both customers and sellers. Although the use of digital technology is the key to Internet marketing, this course is not designed to create experts in web page programming languages.

Prerequisite(s): MKTG 331 and junior or senior status.

Offered: Every fall

Restricted to: School of Business majors

MKTG 339 - International Marketing

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Globalization is the single most significant development in marketing in this century. The reality of a global market and global competition is pervasive. In this course, students will examine and discuss the issues associated with developing, organizing and managing marketing strategies across multiple foreign nations. The challenges faced by the organizations in managing across multiple markets simultaneously are far greater than operating at a "national market expansion" level. A countertrend is also emerging, that is, global trade is becoming increasingly regionalized. This course will provide the students with a set of tools for working in international environment and assist in developing business and marketing strategies for multiple foreign markets.

Prerequisite(s): MKTG 331 and junior or senior status

Offered: Not on a regular basis

Restricted to: School of Business majors. Others may seek permission from the School of Business.

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course provides an in-depth study of consumer buying behavior from a marketing perspective. Consumer behavior is the study of individuals, groups or organizations and the processes they use to select, secure, use and dispose of products, services, experiences, or ideas to satisfy needs and the impacts that these processes have on the consumer and society. All marketing decisions and applications are based on assumptions about buyer behavior. This course will provide the student with buyer behavior concepts and theories and provide opportunities to apply the learnings to marketing strategy development and business problem resolution.

Prerequisite(s): MKTG 331

Offered: Every spring

Restricted to: School of Business majors. Others may seek permission from the School of Business.

MKTG 342 - Sales Management

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The objective of this course is to introduce students to the Strategic Selling Model, a fact-based solution selling process developed by CDI Education (Determine, Dialogue, Develop and Deliver) that will provide them with the basic fundamentals of effective salesmanship through a combination of class lectures/discussions, situational role playing and guest lectures. Recent research has revealed important changes in how sales professionals must perform in order to be successful in this rapidly changing business environment. This change focuses on knowing the customer's business, communicating with the customer about short- and long-term needs, and together developing solutions to meet those needs.

Prerequisite(s): MKTG 331

Offered: Every spring

Restricted to: School of Business majors. Others may seek permission from the School of Business.

MKTG 395 - Internship/Seminar

2018-2019 Catalog Year

Non-Lecture: 0

General Education Area(s): Mathematics

This course will help students learn how to think about statistics and probability, how to identify the tools needed to study a particular problem and how to read and critically evaluate quantitative information presented in the media. The course format involves extensive reading and discussion of newspaper and journal articles, computer activities, writing assignments, and student projects. (Those who have completed MATH 242 or MATH 341 or MATH 361, may not enroll in this class for credit. Those majoring in mathematics may only receive free elective credit for the course.)

Prerequisite(s): Three years of high school mathematics including intermediate algebra.

Offered: Every fall

MATH 213 - R/Applied Calculus

2018-2019 Catalog Year

Credit(s): 4

Lecture: 4

Non-Lecture: 0

General Education Area(s): Mathematics

The student will be introduced to the mathematics of linear systems and to the concepts, methods and applications of calculus. Mathematical questions arising in business and the life and social sciences will be modeled and solved using these tools. Topics to be covered include linear systems of equations, matrix techniques, functions, limits, continuity, differentiation and integration. The approach will be graphical, numerical and analytic.

Prerequisite(s): Precalculus or the equivalent. Not available to students with credit for MATH 221.

Offered: Every semester

MATH 221 - R/Calculus I

2018-2019 Catalog Year

Credit(s): 4

Lecture: 4

Non-Lecture: 0

General Education Area(s): Mathematics

Topics studied are limits and continuity; derivatives and antiderivatives of the algebraic and trigonometric functions; the definite integral; and the fundamental theorem of the calculus.

Prerequisite(s): Precalculus with trigonometry or the equivalent.

Offered: Every semester

MATH 222 - Calculus II

2018-2019 Catalog Year

Credit(s): 4

Lecture: 4

Non-Lecture: 0

Derivatives and antiderivatives of the transcendental functions, methods of integration, applications of definite integrals, sequences, improper integrals, and series.

Prerequisite(s): MATH 221.

Offered: Every semester

MATH 223 - Calculus III

2018-2019 Catalog Year

Credit(s): 4

Lecture: 4

Non-Lecture: 0

Vector calculus, functions of several variables, partial derivatives, multiple integrals, space analytic geometry, and line integrals.

Prerequisite(s): MATH 222.

Offered: Every semester

MATH 228 - Calculus II for Biologists

2018-2019 Catalog Year

Credit(s): 4

Lecture: 4

Non-Lecture: 0

A continuation of first semester calculus, with an emphasis on modeling and applications of mathematics and statistics to the biological sciences. Topics to be covered include exponential and logarithmic functions, differential equations, matrices, systems of differential equations, and an introduction to probability and statistics.

Prerequisite(s): MATH 221.

Offered: Every spring

MATH 230 - Programming and Mathematical Problem Solving

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course serves as an introductory programming course for mathematics majors. Basic programming techniques for solving problems typically encountered by mathematicians will be developed. The course covers basic procedural techniques such as algorithms, variables, input/output, data types, selection, iteration, functions and graphing. Good programming and commenting practices will be emphasized. The programming language for the course will be a mathematical programming language such as Matlab.

Prerequisite(s)/Corequisite(s): MATH 222

Offered: Every semester

Restricted to: Math majors

MATH 233 - Linear Algebra I

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Study of matrices, matrix operations, and systems of linear equations, with an introduction to vector spaces and linear transformations. Elementary applications of linear algebra are included.

Prerequisite(s): MATH 222 or MATH 228 or permission of instructor.

Offered: Every semester

MATH 237 - R/Introduction to Discrete Mathematics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Mathematics

This course covers the basic tools of mathematics and computer science - logic, proof techniques, set theory, functions, inductive processes, counting techniques - with applications to such areas as formal languages, circuit theory and graph theory. NOTE: This course is not available for credit to students with credit for MATH 239.

Prerequisite(s): Four years of high school mathematics.

Offered: Every fall

MATH 239 - Introduction to Mathematical Proof

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The course will provide an introduction to the language of advanced mathematics and to mathematical proof. It will emphasize rigorous argument and the practice of proof in various mathematical contexts. Topics will include logic, set theory, cardinality, methods of proof, and induction. Other mathematical topics chosen at the discretion of the instructor will be included as material through which proving skills will be honed.

Prerequisite(s): MATH 222 or by permission of the department.

Offered: Every semester

MATH 240 - Object Oriented Programming and Mathematical Structures

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course is a continuation of the study of computer programming for mathematics begun in MATH 230, in particular focusing on the computer representation and manipulation of mathematical structures. Examples include matrices, graphs, trees, etc. The main programming techniques include object oriented programming and recursion.

Prerequisite(s): MATH 230, MATH 233, and MATH 239.

Offered: Not on a regular basis

MATH 242 - R/Elements of Probability and Statistics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Mathematics

Basic concepts of probability theory and statistical inference. A knowledge of calculus is not required. (Those who have completed MATH 341 or 361 may not enroll in this course for credit, and no student may receive credit for more than one 200-level statistics course, including credit for more than one of the following courses: BIOL 250, ECON 205, GEOG 278, MATH 242, MATH 262, PLSC 251, PSYC 250, SOCL 211.)

Prerequisite(s): Three years of high school mathematics including intermediate algebra.

Offered: Not on a regular basis

MATH 262 - R/Applied Statistics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Mathematics

An introduction to statistics with emphasis on applications. Topics include the description of data with numerical summaries and graphs, the production of data through sampling and experimental design, techniques of making inferences from data such as confidence intervals and hypothesis tests for both categorical and quantitative data. The course includes an introduction to computer analysis of data with a statistical computing package. (Those who have completed MATH 341 or 361 may not enroll in this course for credit, and no student may receive credit for more than one 200-level statistics course, including credit for more than one of the following courses: BIOL 250, ECON 205, GEOG 278, MATH 242, MATH 262, PLSC 251, PSYC 250, SOCL 211.)

Offered: Every semester

MATH 301 - Mathematical Logic

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The goal of the course will be to present the important concepts and theorems of mathematical logic and to explain their significance to mathematics. Specific results will include compactness, completeness and incompleteness theorems, with applications including switching circuits and nonstandard analysis.

Prerequisite(s): MATH 239.

Offered: Fall, odd years

MATH 302 - Set Theory

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will examine the Zermelo- Fraenkel axiom for set theory and discuss the relationship between set theory and classical mathematics. Other topics will be chosen from the following: ordinal and cardinal numbers, the Axiom of

Choice, the consistency and independence of the continuum hypothesis, and large cardinals.

Prerequisite(s): MATH 239.

Offered: Fall, even years

MATH 303 - Theory of Computational Complexity

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A survey of the mathematical analysis of the time and space resources required to execute algorithms. Starting with the asymptotic analysis of resource needs of specific algorithms, the course builds to a study of lower bounds associated with problems, and culminates in an in-depth study of abstract resource-complexity classes such as P, NP, and PSPACE.

Prerequisite(s): MATH 239.

Offered: Not on a regular basis

MATH 304 - Theory of Computability

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course covers the theoretical limits on what algorithms can and cannot compute. Topics include finite automata, regular languages, push-down automata, context-free languages, Turing machines, decidability, the structure of the classes of computable and uncomputable problems, and the relationships between computability and the logical limits of mathematics.

Prerequisite(s): MATH 239.

Offered: Not on a regular basis

MATH 315 - Combinatorics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

As calculus seeks to develop proficiency in analysis problem solving, the aim of this course is to develop proficiency in basic combinatorial problem solving and reasoning. Topics include: Enumeration, generating functions, sieve formulas, recurrence relations, graph theory, network analysis, trees, search theory, and block designs.

Prerequisite(s): MATH 222, MATH 233 and (MATH 237 or MATH 239)

Offered: Fall, even years

MATH 319 - Theory of Numbers

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introduction to classical number theory dealing with such topics as divisibility, prime and composite numbers, Diophantine equations, the congruence notation and its applications, quadratic residues.

Prerequisite(s): MATH 222 and MATH 239.

Offered: Spring, odd years

MATH 324 - Real Analysis I

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A study of the underlying theory of elementary calculus. Topics include the structure and properties of the real numbers, sequences, functions, limits, continuity, the derivative, the Riemann integral, and Taylor's theorems.

Prerequisite(s): MATH 223 and MATH 239.

Offered: Every semester

MATH 325 - Real Analysis II

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A continuation of MATH 324 covering Riemann- Stieltjes integration, sequences and series of functions, special functions, and functions of several variables.

Prerequisite(s): MATH 324.

Offered: Every spring

MATH 326 - Differential Equations

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A study of the methods of solving ordinary differential equations, and some of the applications of these equations in the physical sciences and geometry.

Prerequisite(s): MATH 223.

Corequisite(s): MATH 233 or PHYS 228.

Offered: Every semester

MATH 328 - Theory of Ordinary Differential Equations

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A continuation of MATH 326 covering the existence theory of systems of ordinary differential equations, phase plane analysis, stability theory, and boundary value problems. An introduction to chaos theory, Lyapunov's Theorem, and Green's functions may be included if time permits.

Prerequisite(s): MATH 233 and MATH 326.

Offered: Fall, odd years

MATH 330 - Abstract Algebra

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A study of the basic properties of groups, rings, and integral domains, including the fundamental theorem of group homomorphisms. The concepts basic to the development of algebraic systems are studied initially.

Prerequisite(s): MATH 222, MATH 233, and MATH 239.

Offered: Every semester

MATH 332 - Linear Programming and Operations Research

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The course introduces the student to the techniques for the formulation and solution of linear programming problems and their corresponding dual problems. It is intended to be a broad overview of deterministic linear programming and operations research. Topics to be covered include the Simplex Method, the Dual Simplex Method, Sensitivity Analysis, Network Optimization Methods, (Deterministic) Dynamic Programming, Game Theory and Branch and Bound Methods for Integer Programming. Additional Topics may be selected from the Cutting Plane Methods for Integer Programming, the Transportation Problem, the Assignment Problem, Graphs and Networks, the Network Simplex Method, the Ellipsoid Algorithm and the Critical Path Method when time permits.

Prerequisite(s): MATH 222, MATH 233, one of MATH 237 or MATH 239, and MATH 230 or permission of instructor.

Offered: Spring, even years

MATH 333 - Linear Algebra II

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An advanced look at vector spaces and linear transformations, with emphasis on the analysis of the eigenvalues of a

linear transformation and on the concept of orthogonality. Applications, such as the solutions of linear systems of ordinary differential equations, are included.

Prerequisite(s): MATH 222, MATH 233, and MATH 239.

Offered: Every fall

MATH 335 - Foundations of Geometry

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course presents an investigation of the axiomatic foundations for several approaches to the study of modern geometry. Euclidean geometry, geometric transformations, and non-Euclidean geometries will be discussed.

Prerequisite(s): MATH 222 and MATH 239.

Offered: Every spring

MATH 338 - Topology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A detailed examination of topological spaces and mappings. The properties of compactness, connectedness, and separation are studied. Further topics from general, geometric, or algebraic topology will also be discussed.

Prerequisite(s): MATH 223 and MATH 239.

Offered: Fall, even years

MATH 340 - Modeling Biological Systems

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

Computer and mathematical models are increasingly important tools used to understand complex biological systems. Under the guidance of biology and mathematics professors, students will work both individually and in groups to develop, analyze and present models of various biological systems ranging from disease models and diffusion processes to ecosystem dynamics. The course involves two hours of lectures and a two hour computer-based laboratory.

Prerequisite(s): MATH 222 and at least one of the following: BIOL 203, BIOL 222, MATH 223.

Offered: Spring, even years and when demand is sufficient

Crosslisted with: BIOL 340.

MATH 341 - Probability and Applied Statistics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Topics include probability definitions and theorems; discrete and continuous random variables including the binomial, geometric, Poisson, and normal random variables; and the applications of statistical topics such as sampling distributions, estimation, confidence intervals, and tests of hypothesis. Both the theory and applications of probability will be included with applications of statistics. A student may not receive major credit for both MATH 341 and MATH 360. MATH 341 does NOT serve as a prerequisite for MATH 361.

Prerequisite(s): MATH 223 or permission of instructor.

Offered: Every spring

MATH 345 - Numerical Analysis I

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course provides an introduction to numerical methods and the analysis of these methods. Topics include floating point arithmetic, error analysis, solution of non-linear equations, interpolation and approximation, numerical differentiation and integration, and the solution of linear systems.

Prerequisite(s): MATH 222, MATH 233, MATH 239 or permission of the instructor, and MATH 230.

Offered: Every fall

MATH 346 - Numerical Analysis II

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course provides an investigation of advanced topics in numerical analysis. Topics include the numerical solution of ordinary differential equations, boundary value problems, curve fitting, and eigenvalue analysis.

Prerequisite(s): MATH 345.

Offered: Spring, even years

MATH 348 - Oral Presentation and Research Seminar

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 2

In this course, the student will research a mathematical topic and prepare for an oral presentation based on that research. The student will learn about research resources such as journals and electronic databases. Students will learn mathematical writing conventions and presentation techniques. Students will prepare a talk to be presented in a public forum.

Prerequisite(s): MATH 239 and permission of the instructor.

Corequisite(s): Student must be a mathematics major who is simultaneously enrolled in a 300 level mathematics course.

Offered: Every spring or more often if demand is sufficient

MATH 350 - Vector Analysis

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The course develops and expands upon certain topics in multivariate calculus. This includes the algebra and geometry of vectors, real and vector functions of one and several variables, curves, scalar and vector fields, vector differential and integral calculus, applications to geometry.

Prerequisite(s): MATH 223.

Offered: Spring, odd years

MATH 360 - Probability

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Topics include probability definitions and theorems; discrete and continuous random variables including the binomial, hypergeometric, Poisson and normal random variables. Both the theory and applications of probability will be included. A student may not receive credit for both MATH 341 and MATH 360.

Prerequisite(s): MATH 223 or permission of the instructor.

Offered: Every semester

MATH 361 - Statistics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Sampling distributions, point and interval estimation, and tests of hypothesis. Topics also include: regression and correlation, the analysis of variance, and nonparametric statistics.

Prerequisite(s): MATH 360 or permission of the instructor.

Offered: Every spring

MATH 363 - Regression and Time Series

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This advanced course in statistics focuses on two topics crucial to the study of actuarial science. Topics in Regression include simple and multiple regression (including testing, estimation, and confidence procedures), modeling, variable screening, residual analysis, and special topics in regression modeling. Topics in Time Series include linear time series models, autoregressive, moving average and ARIMA models, estimation, data analysis and forecasting with time series models, forecast errors, and confidence intervals. Case studies and analysis of real data will be included.

Prerequisite(s): MATH 361 or ECON 307, or permission of the instructor.

Offered: Not on a regular basis

MATH 366 - Mathematical Foundations of Actuarial Science

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

The purpose of this course is to develop knowledge of the fundamental tools of probability that are useful for quantitatively assessing risk. The application of these tools to problems encountered in actuarial science is emphasized. A thorough command of the supporting calculus is assumed. Additionally, a very basic knowledge of insurance and risk management is assumed.

Prerequisite(s): MATH 360 and permission of the instructor.

Offered: Every semester

MATH 371 - Introduction to Complex Analysis

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A study of complex numbers, complex differentiation and integration, mappings, power series, residues, and harmonic functions, with particular emphasis on those topics which are useful in applied mathematics. Optional topics: conformal mappings and analytic continuation.

Prerequisite(s): MATH 223 and MATH 239 or permission of instructor.

Offered: Every fall

MATH 372 - Partial Differential Equations

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introduction to those equations which play a central role in many problems in applied math and in physical and engineering sciences. Topics include first-order equations, the most useful second-order equations (e.g. the Laplace, wave and diffusion equations), and some methods for solving such equations, including numerical techniques. Modeling for the motion of a vibrating string and conduction of heat in a solid body are emphasized.

Prerequisite(s): MATH 326.

Offered: Spring, even years

MATH 376 - Financial Mathematics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

The goal of this course is to provide the student interested in Actuarial Science, an understanding of the fundamental concepts of financial mathematics, and how those concepts are applied in calculating present and accumulated values for various streams of cash flows as a basis for future use in: reserving, valuation, pricing, asset/ liability management, investment income, capital budgeting, and valuing contingent cash flows. The students will also be given an introduction to financial instruments, including derivatives, and the concept of no-arbitrage as it relates to financial mathematics.

Prerequisite(s): MATH 223, MATH 360, and permission of instructor.

Offered: Not on a regular basis

MATH 380 - Topics in Mathematics: (subtitle)

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An exploration of an advanced topic that extends the breadth and/or depth of the undergraduate mathematical experience.

Prerequisite(s): Completion of five courses toward the major in Mathematics and permission of instructor.

Offered: Not on a regular basis

Repeatable: May be taken twice under different subtitles

MATH 381 - Topics in Algebra: (subtitle)

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An exploration of an advanced algebraic topic that extends the breadth and/or depth of the undergraduate mathematical experience.

Prerequisite(s): MATH 330 or permission of instructor.

Offered: Not on a regular basis

Repeatable: May be taken twice under different subtitles

MATH 382 - Introduction to Wavelets and Their Applications

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course is an introduction to the basics of digital images, Fourier analysis, wavelets, and computing in an applications first approach. Digitized photographs (or sound files) are stored as very large matrices and manipulated initially using basic linear algebra. Basic programming in Matlab, Maple, or Mathematica will be introduced as a means of performing the manipulations and as a discovery tool. Wavelet transforms are used to aid in compressing or enhancing digital photographs, de-noising sound files, and compression using the JPEG2000 standard. Each student in the course will work on a final project that will involve coding, writing up the results in a paper, and presenting the results at the end of the semester.

Prerequisite(s): MATH 222, MATH 233, MATH 239, and MATH 230, or permission of instructor.

Offered: Spring, odd years

MATH 383 - Biomathematics Seminar

2018-2019 Catalog Year

Credit(s): 1

Lecture: 1

Non-Lecture: 0

A discussion course dealing with selected areas of biomathematics based on current literature and/or guest speakers.

Prerequisite(s): Permission of the instructor.

Offered: Spring, even years

Repeatable: May be taken multiple times for credit with the permission of the instructor.

MATH 384 - Computational Graphics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introduction to the mathematical and computational modeling of the visible world. Topics include vector representations of three-dimensional geometry; parametric and implicit forms of lines and surfaces; affine transformations; projections from three dimensions to two; rendering equations that model reflection, transmission, and absorption of light. Realistic models of real or imagined scenes will be created using these techniques, and drawn using a computer programming language.

Prerequisite(s): MATH 223, MATH 230, and MATH 233.

Offered: Not on a regular basis

MATH 390 - History of Mathematics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The history of mathematics is traced from antiquity to the achievements of twentieth century mathematicians. Applications to secondary and elementary school teaching are included.

Prerequisite(s): MATH 222.

Offered: Every spring

MATH 393 - Honors Thesis in Mathematics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 0

Non-Lecture: 6

Independent research, directed by a member of the Department of Mathematics. Results of the research are to be reported in (1) a written thesis and (2) an oral presentation in a Mathematics Department Colloquium or other approved forum. To be eligible a student must have a 3.70 cumulative grade point average in the major and a 3.00 overall. The Department can make special exceptions.

Prerequisite(s): Enrollment is by invitation of the Department.

Offered: By individual arrangement

MATH 398 - Directed Research: (subtitle)

2018-2019 Catalog Year

Credit(s): 1-3

A course of study in which a student works individually on a project under the supervision of a faculty member. A MATH 398 project will emphasize research on a topic that is outside the purview of the curriculum as contained in regular course offerings. Additionally, students must go beyond the textbook, to engage in reading, inquiry and discovery that reflects creative mathematical research. All such projects must be approved by the chair as suitable for MATH 398.

Prerequisite(s): permission of instructor.

Offered: By individual arrangement

MATH 399 - Directed Study.

2018-2019 Catalog Year

Credit(s): 1-3

A course of study in which students work individually under the supervision of a faculty member.

Prerequisite(s): Permission of instructor.

Offered: By individual arrangement

Music

MUSC 100 - F/Understanding Music: (subtitle)

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): The Arts

The general subtitles offered under the heading "Understanding Music" will share a common aim of developing perceptive listening and basic analytical skills through exposure to a specific body of music literature, delineated either by style (e.g., jazz or rock) or topic (e.g., The Romantic Spirit, Film Music or a survey of Musical Styles). Each course will begin with an introduction to the musical elements, branching out to consider how these elements function with the specific musical repertory. It will be equally important to consider the role the music, in turn, plays within the ideological, cultural, and political contexts of its time. Attendance at musical performances will be required.

MUSC 105 - F/Popular Music in America

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): The Arts

An examination of the significant trends and the major figures of American popular music from the eighteenth century to the present. The course will cover vocal and instrumental traditions from the British legacy of the eighteenth century, through the home, stage, and ballroom music of the nineteenth century, to the rise of Tin Pan Alley and Rock and Roll in the twentieth century. Emphasis will be placed not only on the composers, performers, and the music itself, but also on the social and cultural forces as they have related to America's popular traditions.

Offered: Every spring

MUSC 110 - F/Basic Musicianship

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): The Arts

An introduction to reading and writing musical notation, identifying elementary musical patterns by ear, and performing basic rhythms, melodies and chords through singing and piano playing. This course is not available to students who previously have received credit for MUSC 210.

MUSC 120 - F/Introduction to Music History

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): The Arts

An introduction to the history of music from its beginnings in Western culture to the present. Designed for the non-music major with little musical background, the course provides an overview of major composers, trends, and types of music in relationship to the political, economic, and cultural conditions of various historical periods. This course is not

available to students who previously have received credit for MUSC 226 and/or MUSC 227. (Attendance at musical performances will be required.)

Offered: Every fall

MUSC 123 - F/M/Music of the World's Peoples

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): The Arts, Other World Civilizations

An introduction to the great diversity of music throughout the world. The course will examine the historical backgrounds, social functions, and general technical characteristics of music and musical instruments in Africa, native America, Asia, and Europe. Class members will have opportunities to participate actively in musical traditions being studied. (Attendance at representative musical performances will be required.)

MUSC 139 - Piano A

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 2

A beginning course in class piano aimed at building a strong foundation of keyboard skills for the purposes of melody harmonization, improvisation, transposition, and sightreading. This course will also reinforce music theoretical concepts presented in Music A, as well as address standard keyboard repertoire and technical exercises that are appropriate for each student's level of study.

Prerequisite(s): Fluency in reading notes in at least one clef and standard music rhythms, and Permission of Instructor.

MUSC 140 - Piano B

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 2

A continuation of MUSC 139, instruction in piano designed for students in their second semester of study.

Prerequisite(s): MUSC 139 and permission of the instructor.

MUSC 141 - Voice for the General Student

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 3

Instruction in voice designed for students who have had little or no previous voice training.

Prerequisite(s): permission of the instructor.

Repeatable: May be repeated once for credit

MUSC 142 - Woodwinds for the General Student

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 3

Instruction in flute, clarinet, saxophone, oboe, or bassoon intended for the student with a level of technical competence sufficient for admission to a MUSC 165 - Instrumental Organizations.

Prerequisite(s): Permission of instructor.

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A non-technical, introductory-level course which explores basic moral issues in the related fields of medicine and psychology. Issues to be discussed include (1) Should we have socialized medicine? (2) Do we have an unlimited right to reproduce? (3) Should we engage in genetic control? (4) Is abortion moral? (5) Is euthanasia moral? (6) Should we experiment on human beings? (7) Is the notion of mental illness a myth? (8) Can behavior control be justified? (9) Are we free or determined? These questions are approached from various moral perspectives (e.g., egoism, relativism, utilitarianism, existentialism, intuitionism, and Kantianism).

Offered: Not on a regular basis

PHIL 201 - Environmental Ethics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An inquiry concerning which entities, if any, have rights, whether non-human entities can have rights, and how one could justify claims about non-human rights. The outcome of the inquiry depends on an adequate account of good-in-itself. The course includes a survey of the environmental problems facing this planet.

Offered: Not on a regular basis

PHIL 202 - M/World Religions & Contemporary Issues

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The insights and teachings of major living religions will be analyzed by a study of their basic texts and teachers: Buddhism, Hinduism, Confucianism, Taoism, Judaism, Christianity, and Islam. Comparison of how their teachings apply to such contemporary issues as war and peace, the environment, gender, race, sexual orientation, and economic justice.

Offered: Not on a regular basis
Crosslisted with: PLSC 202.

PHIL 203 - Computer Ethics

2018-2019 Catalog Year

Credit(s): 3
Lecture: 3
Non-Lecture: 0

Computers have done more to change the world we live in than any other single development in recent times. These changes have created new moral issues which we must face. By looking both at considered ethical foundations of the past and the new challenges of the present and the future, this course attempts to provide a critical basis for meeting these new issues, which include invasion of privacy, computer crime, professional ethics and responsibility, ownership and stealing of computer technology, the political implications of computer power, and the impact of the use and misuse of computer technology.

Offered: Not on a regular basis

PHIL 204 - Philosophy of Woman

2018-2019 Catalog Year

Credit(s): 3
Lecture: 3
Non-Lecture: 0

An examination of the classical Western philosophical views on woman, and the contemporary feminist response. Different theoretical frameworks for feminism are examined: liberal, Marxist, radical, psychoanalytic, socialist, existentialist, postmodern, multicultural and global. Traditional philosophical areas that are addressed in this examination are ethics, politics, epistemology, metaphysics, philosophy of science, law, language, and philosophy of religion. PHIL 214 - M/Chinese Philosophy

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Other World Civilizations

This course will provide a chronological survey of Chinese philosophy. Chinese philosophy has often been characterized as 'humanism.' But this humanism has its cosmological roots. This course will begin with the basic cosmological view of the ancient Chinese, and then investigate how different humanistic approaches under the same cosmological view could emerge. Three main schools of thought to be covered are: Confucianism, Taoism and Chinese Buddhism. The course will conclude with some contemporary articles on Chinese philosophy, and investigate how Chinese philosophy can develop from this stage on. This course has no prerequisites and assumes no background in philosophy or in Chinese language and culture.

Offered: Not on a regular basis

PHIL 215 - M/Eastern Philosophy

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Other World Civilizations

An introduction to some of the central texts and viewpoints of the Eastern philosophical tradition. The views explored will be Hindu, Buddhist, Taoist, and Confucian. The approach will be primarily philosophical, not historical. The goal will be to understand and critically evaluate the main metaphysical, epistemological, and ethical ideas lying at the center of each tradition. The issues explored will include the status and nature of the self, the possibility of some ultimate undefinable immanent reality, the metaphysical status of space-time-matter-causality, the relation between opposites such as good and evil, and the nature of the good life.

Offered: Every other year

PHIL 216 - Reasoning and the Law

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introduction to critical reasoning skills that is narrowly focused on the specific needs of undergraduate prelaw students, and an analysis of original material in the legal field. Topics covered include basics of recognizing arguments, informal methods and techniques for evaluating arguments, techniques for writing argumentatively, the nature of the law and fundamentals of the legal context, the distinction between descriptive and normative legal reasoning, how lawyers reason, how judges reason, and detailed analysis of several important cases.

Offered: Every fall

PHIL 217 - Problems in the Philosophy of Law

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A systematic exploration of the foundations of law. Major topics include the nature of law and the criteria for a legal system, competing legal theories, the relation between legality and morality, competing theories concerning criminal justice and the justification of punishment.

Offered: Once a year

PHIL 218 - Philosophy of Religion

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An examination of selected problems in the philosophy of religion. Topics include classical and contemporary arguments for and against the existence of God, existentialist approaches to religion, science and religion, the meaningfulness of theological language, miracles, freedom, death, and immortality.

Prerequisite(s): one course in philosophy.
Offered: Not on a regular basis

PHIL 219 - Social and Political Philosophy

2018-2019 Catalog Year

Credit(s): 3
Lecture: 3
Non-Lecture: 0

This course will consider some of the foundational issues we face in our search for the best group-living arrangements. Such issues will include, but not be limited to, the conflict between individual liberty and social equality, the criteria for just distribution of wealth, and the proper role and form of government. We will consider how questions about these issues have been addressed historically by philosophers since Plato and Aristotle. We will also explore how contemporary political works by Rawls, Nozick, and others might help us understand and try to solve our own political and social problems.

Offered: Every year

PHIL 222 - Philosophy and Religion in Ancient Mediterranean

2018-2019 Catalog Year

Credit(s): 2
Lecture: 2
Non-Lecture: 0

A survey of the religious culture and the philosophical tradition of the ancient Mediterranean. The course is intended to be part of the summer Mediterranean Roots Program in Greece and Italy and is to be given together with the Humanities I course. It could be given during a regular semester also, if demand is sufficient.

PHIL 225 - Philosophy of the Arts

2018-2019 Catalog Year

Credit(s): 3
Lecture: 3
Non-Lecture: 0

An inquiry into the concepts of art and good art. Could soundless "music," "Don Giovanni," "Brillo Boxes," the Sistine ceiling, Rambo III, and Macbeth possibly fall under one concept? Who is to say that the Beatles are better than Bach, or that Warhol is worse than Watteau .. or have we asked the wrong question?

Offered: Not on a regular basis

PHIL 226 - Philosophy and Literature

2018-2019 Catalog Year

Credit(s): 3
Lecture: 3
Non-Lecture: 0

This course will begin by looking at Plato's reasons for finding an "ancient quarrel between philosophy and poetry" and

Aristotle's response. This will lead to a discussion of what is, or should be, the effect of imaginative literature. More specifically-and this will be the course's central focus-we will consider whether literature can make a contribution to our ethical knowledge in a way that philosophy does not. Inevitably this will bring up questions about the cognitive and evaluative nature of emotion. We will look, too, at two plays by Sartre to see what, if anything, they add to his purely philosophical writings. Finally, we will consider briefly whether it is possible for a work of literature to be aesthetically excellent yet morally suspect.

Offered: Not on a regular basis

PHIL 235 - Philosophy of Biology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will examine philosophical problems raised by evolutionary theory, genetics and taxonomy. Questions to be addressed include: (a) Is biological theory reducible to chemistry and physics? (b) What is a species? Is there a single, correct way to classify organisms? (c) At what level does selection operate: individual organisms, groups, or "selfish genes"? (d) Does altruism exist in nature? (e) Can the evolutionary model usefully be applied outside of biology? In particular, is sociobiology a promising field of research, or merely an excuse for injustice? (f) Can there be such a thing as "scientific creationism"?

Prerequisite(s): One course in biology or in philosophy.

Offered: Not on a regular basis

PHIL 237 - Ethical Issues in Business

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will introduce students to the central role of ethics in the conduct of business organizations and the people who administer them. Students will learn to identify ethical issues in business and to analyze them from the perspective of several philosophical moral traditions. We will consider ethical issues concerning both the overall economic system and the specific business areas of management, accounting, finance, and marketing. Students will be required to perform analyses of both philosophical readings and recent case-studies from the business world.

Offered: Every semester

PHIL 240 - Philosophy of Science

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will examine the nature of science. What makes the difference between scientific theories and nonscientific ones? Is there a special kind of reasoning for science, or just a special subject matter? Does science have a greater claim to knowledge? What are the limits of science? Can religion and morality be turned into sciences, or is there a fundamental gap of some sort between these different realms? We will consider these questions both naively and in

terms of a set of philosophical theories of science that have been developed over the past century. We will also examine a variety of long-standing conceptual problems in particular sciences, including mathematics. Finally, we will look at the important consequences of science in today's society, in particular the pressing issue of "junk science."

Offered: Not on a regular basis

PHIL 305 - Philosophy of Education

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will familiarize students with past and present theories and issues in the philosophy of education. Students will consider why humans educate themselves and their children; what they think constitutes reality; what knowledge is worth having and how humans beings acquire it; what constitutes the good life and how human beings organize society to promote it; and how education can encourage people to reflect on what it means to live ethically. The course will allow philosophy students to apply their knowledge of the discipline to an important realm of practical problems and provide education students an opportunity to think both critically and creatively about educational practice.

Prerequisite(s): PHIL 100 or INTD 203.

Offered: Not on a regular basis

Crosslisted with: EDUC 305.

PHIL 311 - Philosophical Logic

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Philosophical logic is the effort to represent aspects of valid reasoning with formal systems that can be applied to a variety of questions in philosophy. A comprehensive logic would account for all forms of rational inference in a single, manageable package, but instead, we have a variety of partial and competing systems aimed at various specific topics, including necessity and possibility, vagueness, degree, comparison, time, value, and knowledge, as well as non-standard alternatives to the classical logic of subjects and predicates. In this course, we will discuss the project of philosophical logic, survey (to varying depths) a broad range of theories in the field with applications, and look for general conclusions.

Prerequisite(s): PHIL 111

Offered: Every other year

PHIL 317 - Philosophy of Mind

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An examination of schema for viewing human nature. Topics include the mind-body controversy, minds as machines, behaviorism, materialist explanations of mind, personal identity, perception, dreaming, and the problem of choice.

Prerequisite(s): One philosophy course.

Offered: Every three semesters

PHIL 330 - Ethical Theory

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An examination of classical and contemporary philosophical works addressed to the problems of intrinsic value, right conduct, good character, free will and responsibility, and moral knowledge.

Prerequisite(s): One philosophy course.

Offered: Every spring

PHIL 340 - Theory of Knowledge

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An examination of fundamental epistemological concepts, including those of knowledge, necessary truth, universals, rational belief, and perception.

Prerequisite(s): Two courses in philosophy.

Offered: Every spring

PHIL 355 - Metaphysics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An analysis of major metaphysical concepts, including those of infinite extent, continuity and infinite divisibility, space, time, substance, property, relation, universals, identity and individuation, change, necessity, and independence.

Prerequisite(s): PHIL 111 and one other course in philosophy.

Offered: Every fall

PHIL 375 - Philosophy of Language

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An examination of contemporary and recent views concerning the nature of language and the ways in which language is conceived as bearing on philosophical problems. Topics covered include theories of reference and meaning, truth, analyticity, opacity, proper names, definite descriptions, demonstratives, the possibility of translation, semantic

representation, the nature of propositions.

Prerequisite(s): PHIL 111 and one other course in philosophy.

Offered: Every three semesters

PHIL 393 - Honors Thesis

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Students with a serious interest in pursuing philosophy are advised to write a thesis: a lengthy, original essay on a special philosophical issue. To receive Philosophy Honors recognition at graduation, the student must complete the thesis with a grade of at least A-.

Prerequisite(s): 18 credits of philosophy with 3.50 gpa in philosophy courses.

Offered: By individual arrangement

PHIL 397 - Seminar: Major Problems

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

For advanced students. Focuses on a single philosophical problem, or a pair of problems (e.g., infinity, freedom and determinism, analyticity, induction). Topic varies from term to term, and student presentations comprise a significant portion of the course.

Prerequisite(s): Permission of instructor.

Offered: Offered alternately with PHIL 398; one seminar will be offered each semester

Repeatable: Students can repeat multiple times.

PHIL 398 - Seminar: Major Philosophers

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

For advanced students. Focuses on a single philosopher, or a pair of philosophers (e.g., Plato, Aristotle, Spinoza, Locke and Leibniz, Hume, Wittgenstein). Philosopher studied varies from term to term, and student presentations comprise a significant part of the course.

Prerequisite(s): Permission of instructor.

Offered: Offered alternately with PHIL 397; one seminar will be offered each semester

Repeatable: Students can repeat multiple times.

PHIL 399 - Directed Study

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Intensive reading in a philosopher or philosophical problem, under the supervision of a member of the staff. (Available at all levels.)

Offered: By individual arrangement

Physics

PHYS 102 - N/Science of Sound

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Natural Sciences

The production, transmission, recording, and sensation of sound are presented in a lecture-demonstration format. Examples of mechanical vibrations, mechanisms of hearing and speech, perception of loudness, high-fidelity sound systems, musical instruments, and wave form analysis are included. The mathematics used is limited to elementary algebra. Cannot be counted towards the physics major. Not open to students with prior credit for physics courses numbered PHYS 113 or higher without department approval.

Corequisite(s): PHYS 103.

Offered: Every fall

PHYS 103 - N/Science of Sound Laboratory

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 2

General Education Area(s): Natural Sciences

A laboratory course to complement Science of Sound. Experiments studying vibration, sound analysis, and standing waves will use devices such as tone generators, oscilloscopes, sound level meters, and audio equipment. Cannot be counted towards the physics major. Not open to students with prior credit for physics courses numbered PHYS 113 or higher without department approval.

Corequisite(s): PHYS 102.

Offered: Every fall

PHYS 106 - N/The Nature of Light and Color

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Natural Sciences

The evolution of our understanding of the nature of light will be presented, from Newton's corpuscles to Maxwell's electromagnetic waves to the modern view of wave-particle duality. Along the way, many optical phenomena will be investigated in lecture demonstrations and in the laboratory, including lenses, prisms, rainbows, photography, interference, diffraction, the photoelectric effect, and atomic spectra. Simple algebra, trigonometry and geometry will be employed. Cannot be counted toward the physics major. (Not open to students with prior credit for physics courses numbered PHYS 113 or higher without department approval.)

Corequisite(s): PHYS 107.

Offered: Every spring

PHYS 107 - N/The Nature of Light and Color Laboratory

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 2

General Education Area(s): Natural Sciences

An introductory laboratory experience to help students understand light and color. Many optical phenomena will be investigated in laboratory activities including lenses, vision and perception, interference, diffraction, the photoelectric effect, and atomic spectra. Cannot be counted toward the physics major. (Not open to students with prior credit for physics courses numbered PHYS 113 or higher without department approval.)

Corequisite(s): PHYS 106.

Offered: Every spring

PHYS 108 - The Way Things Work

2018-2019 Catalog Year

Credit(s): 1

Lecture: 1/2

Non-Lecture: 1

A look at what is going on inside some of the tools and toys of modern life. The principles involved in a variety of things will be explored in discussion/hands-on sessions. Intended for non-science majors who are curious about how their world operates. The underlying science will be discussed in non-mathematical, lay language. Cannot be counted toward the physics major.

Offered: Not on a regular basis

PHYS 113 - General Physics I

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introduction to the concepts and laws of physics with applications to biological systems; course includes mechanics, thermodynamics, wave properties, and sound.

Prerequisite(s)/Corequisite(s): PHYS 114.

Offered: Every fall

PHYS 114 - N/Physics I Lab

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 2

General Education Area(s): Natural Sciences

A lab course to complement General Physics I and Analytical Physics I lectures. Experiments in kinematics, projectile motion, Newton's laws, momentum, and energy conservation will be performed.

Prerequisite(s)/Corequisite(s): PHYS 113 or PHYS 123.

Offered: Every fall

PHYS 115 - General Physics II

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Continuation of General Physics I: Electricity, magnetism, light, and atomic and nuclear phenomena.

Prerequisite(s): PHYS 113/PHYS 114.

Corequisite(s): PHYS 116.

Offered: Every spring

PHYS 116 - Physics II Lab

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 2

A lab course to complement General Physics II and Analytical Physics II lectures. Experiments in waves, electricity and magnetism, circuits, and optics will be performed.

Prerequisite(s): PHYS 113/PHYS 114.

Corequisite(s): PHYS 115 or PHYS 125.

Offered: Every spring

PHYS 120 - Physics First Year Experience

2018-2019 Catalog Year

Credit(s): 1

Lecture: 1

Non-Lecture: 0

An introductory course for entering students considering a career in physics or engineering. Through presentations, discussions and investigations the question "What is Physics?" will be examined. Study methods and time utilization for success in physics will also be addressed. Cannot be counted toward the physics major.

Prerequisite(s): No prerequisite.

Offered: Not on a regular basis

Graded: Graded on S/U basis.

PHYS 123 - Analytical Physics I

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An analytical, calculus-based treatment of kinematics, Newton's laws, kinetic and potential energy, friction, linear momentum, angular momentum, rotational dynamics, gravitational physics, and simple harmonic motion. Notes: Both PHYS 123 and either PHYS 114 or PHYS 124 must be passed to receive core credit. A student may not receive credit for both PHYS 113 and PHYS 123.

Corequisite(s): PHYS 114 or PHYS 124.

Prerequisite(s)/Corequisite(s): MATH 221.

Offered: Every fall

PHYS 124 - N/Analytical Physics I Laboratory

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 3

General Education Area(s): Natural Sciences

An experimental course developing laboratory and analytical skills in physics. Includes experiments in kinematics, Newton's laws, uncertainty analysis, momentum and energy conservation, and projectile motion. Note that this course is required for the physics major.

Prerequisite(s)/Corequisite(s): PHYS 123.

Offered: Every fall

PHYS 125 - Analytical Physics II

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An analytical, calculus-based treatment of charge, electrostatic and magnetostatic fields, simple applications of Maxwell's equations, Lenz's law, basic electrical circuits, mechanical and electromagnetic waves, and geometric optics.

Prerequisite(s): PHYS 123.

Corequisite(s): PHYS 126 or PHYS 116.

Prerequisite(s)/Corequisite(s): MATH 222 or MATH 228.

Offered: Every spring

PHYS 126 - Analytical Physics II Laboratory

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 3

An experimental course developing laboratory and analytical skills in physics. Includes experiments in electric fields, Ohm's law, use of the oscilloscope, and electric circuits. Note that this course is required for the physics major.

Prerequisite(s): PHYS 124.

Corequisite(s): PHYS 125.

Offered: Every spring

PHYS 206 - Scientific Graphics

2018-2019 Catalog Year

Credit(s): 1

Lecture: 1

Non-Lecture: 0

An introduction to producing graphics for use in scientific presentations and for image analysis. Topics may include freehand sketching, isometric drawings and other projections, 3-view machinist's drawings, dimensioning and tolerancing, threads, vector graphics and layering in Office, color models, creating raster images (photographs), editing raster images using GIMP, analysis of raster images with ImageJ, animations in PowerPoint, animations and plotting in Mathematica, using "design mode" in Excel, and fundamentals of CAD.

Prerequisite(s): PHYS 126

Offered: Not on a regular basis

PHYS 223 - Analytical Physics III

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will include classical physics and some modern physics topics. The analysis of phenomena such as electromagnetic waves, their interference and diffraction, electromagnetic radiation, blackbody radiation, and interactions of photons with matter, special relativity and gravity will be highlighted. Other topics covered in this course may include geometric optics, thermodynamics, and fluids.

Prerequisite(s): PHYS 125.

Offered: Every fall

PHYS 224 - Analytical Physics IV

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will include elementary quantum theory, Schrodinger's equation, wave properties of matter, Heisenberg's uncertainty principle, atomic structure and the Bohr atom. Special topics may include a survey of material from different subfields of physics such as cosmology, solid state physics, nuclear physics, etc.

Prerequisite(s): PHYS 223, MATH 223.

Corequisite(s): PHYS 228.

Offered: Every spring

PHYS 226 - Optics and Modern Physics Laboratory

2018-2019 Catalog Year

Credit(s): 1

Lecture: 0

Non-Lecture: 3

Devoted to the understanding of experiments in Optics, Atomic Physics, and Nuclear Physics. Typical experiments would cover composite lens systems, interference effects, e/m , emission spectra, and radioactive decay.

Prerequisite(s): PHYS 126.

Corequisite(s): PHYS 223 or permission of instructor.

Offered: Every fall

PHYS 228 - Mathematical Methods in Physics

2018-2019 Catalog Year

Credit(s): 2

Lecture: 2

Non-Lecture: 0

This course is an introduction to the application of various mathematical tools to specific problems in physics. Methods will include complex numbers, coordinate transformations, vector calculus, matrices, Fourier transforms, series solutions, and probability. This course will also include numerical methods using software including spreadsheets and symbolic mathematical manipulators.

Prerequisite(s)/Corequisite(s): PHYS 224.

Offered: Every spring

PHYS 230 - Digital Electronics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 2

An introduction to digital electronics. The concepts studied are different number systems (e.g. binary and hexadecimal), Boolean algebra, complex logic decisions using simple logic statements, minimizing complex logic systems, logic gates, combinational networks, flip-flops, counters, and registers.

Offered: Every spring

PHYS 311 - Classical Mechanics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The dynamics of a particle subject to various types of forces: forced and damped harmonic oscillations; conservative forces; vector algebra; kinematics in more than one dimension; multiple-particle systems.

Prerequisite(s): PHYS 224, PHYS 228 and MATH 326.

Offered: Every fall

PHYS 313 - Applied Mechanics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course begins with analysis of static rigid bodies in equilibrium, centroids, distributed forces, internal forces, and structures. Subsequent topics include stress and strain, torsion, bending, shear, combined and eccentric loading, failure criteria, and 3D stress tensors. **Note: B.A. students may not receive degree credit for both PHYS 313 and PHYS 332.**

Prerequisite(s): PHYS 228 or permission of department. Note: B.A. students may not receive degree credit for both PHYS 313 and PHYS 332.

Offered: Every fall

PHYS 314 - Fluid Mechanics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course is an introduction to the topic, and includes an examination of the relevant properties of fluids (density, viscosity, pressure, velocity), common analysis techniques (control systems, control volumes, stream functions, dimensional analysis, non-dimensional parameterization), mathematical modeling (integral and differential forms of mass conservation, momentum conservation, and energy conservation; Bernoulli's equation), and applications.

Prerequisite(s): PHYS 311.

Offered: Spring, odd years

PHYS 321 - Atomic and Nuclear Physics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Elementary aspects of quantum physics; application of relativity and quantum physics to the interaction of photons and electrons, to atomic structure, and to nuclear structure and nuclear interactions.

Prerequisite(s): PHYS 352, MATH 326.

Offered: Spring, even years

PHYS 332 - Electric Circuit Analysis

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introduction to the analysis and modeling of electric circuits. Includes the study of DC and AC circuit components, network theorems, phasor diagrams, frequency response and resonance, linear and non-linear systems, and electrical instrumentation. **Note: B.A. students cannot receive credit for both PHYS 313 and PHYS 332.**

Prerequisite(s): PHYS 224, PHYS 228, MATH 326.

Offered: Spring, even years

PHYS 335 - Intermediate Electricity and Magnetism I

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Electrostatic fields in vacuum and in matter; magnetic fields of steady currents; induced electric fields; magnetic materials; Maxwell's equations; electromagnetic field of a moving charge.

Prerequisite(s): PHYS 224, PHYS 228, MATH 326.

Offered: Every fall

PHYS 336 - Intermediate Electricity and Magnetism II

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course constitutes a continuation of PHYS 335 - Intermediate Electricity and Magnetism I. Material to be covered will include solutions of Maxwell's equations; investigation of electric and magnetic fields in domains not treated in the previous course, such as the propagation of electromagnetic waves in conducting and non-conducting media; electromagnetic radiation; wave guides; special theory of relativity and relativistic electrodynamics.

Prerequisite(s): PHYS 335.

Offered: Spring, even years

PHYS 341 - Seminar in Physics

2018-2019 Catalog Year

Credit(s): 1

Lecture: 1

Non-Lecture: 0

Scientific presentations are made by students enrolled and invited guests. Each student is expected to attend each scheduled meeting and to make at least one oral presentation on a topic approved by the instructor. Students must also write critiques of presentations.

Prerequisite(s): PHYS 362

PHYS 342 - Advanced Physics Problem Solving

2018-2019 Catalog Year

Credit(s): 1

Lecture: 1

Non-Lecture: 0

This course is designed to help senior physics majors synthesize the fundamental concepts learned in the various facets of physics program. An emphasis is placed on applying a variety of problem solving techniques to examples drawn from across the physics disciplines. This course should help students prepare for physics graduate school admissions exams as well as for the first year of graduate coursework. Cannot be counted towards Physics major. (Half semester course.)

Prerequisite(s): PHYS 311 or PHYS 335 or PHYS 352.

Offered: Every fall

PHYS 344 - Statistical Thermodynamics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introduction, covering the connection between the physics of single particles and the bulk behavior of materials; the quantitative study of entropy, heat, temperature, the Carnot cycle, free energy, thermodynamic potential, phase equilibria, and the laws of thermodynamics. Thermodynamic systems, such as ideal gases and free electrons in metals, are considered.

Prerequisite(s): PHYS 224, PHYS 228 and MATH 326.

Offered: Every spring

PHYS 352 - Quantum Mechanics I

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introductory course in the theory of non-relativistic quantum mechanics in its currently accepted form. Experiments resulting in the mathematical formulation of quantum theory are discussed. Hilbert space vectors, operator algebra, and the postulates of quantum mechanics lead to proofs of the compatibility theorem and the uncertainty principle. The

states of a particle, as determined by Schroedinger's Equation, are studied in several situations.

Prerequisite(s): PHYS 224, PHYS 228, MATH 326.

Offered: Every fall

PHYS 353 - Quantum Mechanics II

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will cover advanced topics in Quantum Mechanics as well as applications and approximations to real physical problems. The Dirac description of quantum mechanics will be used extensively in this course as well as the functional forms described by Schroedinger. One, two and three dimensional bound state problems will be studied in addition to scattering theory. Approximation methods, such as time dependent perturbation theory, Hartree-Fock method, variational method and the Born approximation, will be used to solve physical problems to first and second order. Systems of more than one particle will be briefly studied.

Prerequisite(s): PHYS 352.

Offered: Spring, odd years

PHYS 362 - Intermediate Laboratory

2018-2019 Catalog Year

Credit(s): 2

Lecture: 0

Non-Lecture: 6

Devoted to the understanding of some of the classic experiments in physics. Experiments are from all fields of physics, but particular attention is given to experiments which complement courses being taken concurrently.

Prerequisite(s): PHYS 226.

PHYS 363 - Instrumentation and Interfacing

2018-2019 Catalog Year

Credit(s): 2

Lecture: 0

Non-Lecture: 6

An introduction to electronic interfacing of equipment in the modern laboratory, with an emphasis on computer control of instrumentation. Includes hands-on experience with several standard interfacing protocols. Following an introduction to standard interface software, students will design and construct experimental projects that demonstrate computer control of measurement, analysis, decision making, and control.

Prerequisite(s): PHYS 362 and (INTD 121 or MATH 230).

PHYS 372 - Undergraduate Research

2018-2019 Catalog Year

Credit(s): 2

Lecture: 0

Non-Lecture: 6

Designed to introduce the student to research techniques in physics, astronomy, or engineering. With faculty supervision, each student will complete a significant project which requires originality and broadens knowledge.

Prerequisite(s): PHYS 362 and prior approval of department.

PHYS 381 - Introduction to Astrophysics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introduction to the field of astrophysics. Particular emphasis will be placed on the structure and evolution of stars and on the origin and expansion of the universe.

Prerequisite(s): PHYS 224, PHYS 228, MATH 326.

Offered: Spring, odd years

PHYS 382 - Stellar Astrophysics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introduction to astrophysical concepts relevant to objects within the Milky Way Galaxy. Particular emphasis will be placed on the observational and theoretical underpinnings of stellar structure and evolution. Other topics may include stellar remnants, the interstellar medium, star clusters and associations, peculiar stars, dark matter, and Milky Way dynamics.

Prerequisite(s): PHYS 228.

Offered: Spring, odd years

PHYS 383 - Extragalactic Astrophysics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course is an exploration of the physical concepts and processes occurring outside our own Galaxy. Topics studied include a detailed description of the physical characteristics of various types of galaxies, groups, and galaxy clusters, their evolution since the Big Bang, and an overview of the current cosmological theories and observations. Particular attention will be paid to various techniques currently used to study extragalactic objects and phenomena.

Prerequisite(s): PHYS 228.

Offered: Spring, even years

PHYS 384 - Astrophysical Techniques

2018-2019 Catalog Year

Credit(s): 2

Lecture: 0

Non-Lecture: 9

This laboratory-style class will be an introduction to techniques used to gather and process astronomical data. Students will learn how to plan and carry out observing runs, possibly using the campus observatory. Students will learn to reduce and analyze photometric and spectroscopic data using software packages such as IRAF, and IDL. Data mining techniques, used to access the vast array of publicly available astronomical images will also be covered. The course will culminate with a final project, where students will write a proposal, gather raw astronomical data, and see the analysis through to its completion. Final presentations will be made on the results of this project

Prerequisite(s): (ASTR 100 or ASTR 105 or ASTR 110), PHYS 224 , PHYS 362 , and (INTD 121 or MATH 230)

Offered: Every fall

PHYS 385 - Optics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will explore multiple descriptions of light leading to an exploration of modern applications of optics. Models of light explored will include physical optics geometric optics and Gaussian beam optics. Some of the applications discussed will include imaging, fiber optics, lasers and non-linear optics.

Prerequisite(s): PHYS 223 and PHYS 228 or permission of the instructor.

Offered: Spring, even years

PHYS 386 - Solid State Physics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Basic physical processes which occur in solids, especially semi-conductors and metals, are studied. Applications of quantum mechanics and statistics to the thermal and electrical properties of various types of solids are made.

Prerequisite(s): PHYS 224, PHYS 228 and MATH 326 or permission of the department.

Offered: Spring, odd years

PHYS 387 - Gravity

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will cover Newtonian gravity, special and general relativity, and cosmology. Some of the topics include Newton's law of gravitation, Keplerian orbits, special relativity with spacetime diagrams and metrics, generalization to accelerated frames, the Equivalence Principle, curvature of spacetime, classical tests of GR, stationary and spinning

black holes, large scale structure of the universe, big bang theory, and the cosmological model.

Prerequisite(s): PHYS 311 or permission of the department.

Offered: Not on a regular basis

PHYS 389 - Honors Research

2018-2019 Catalog Year

Credit(s): 3

Lecture: 0

Non-Lecture: 9

Individual research, directed by a member of the Department of Physics and Astronomy. Results of the research will be reported in a thesis, published paper, or off-campus presentation. Enrollment by invitation of the Department. Students will normally have completed 90 credits with a cumulative grade point average of 3.00 and have completed at least 22 credits in physics (including PHYS 372) with a grade point average of 3.30.

Offered: By individual arrangement

PHYS 394 - Independent Research

2018-2019 Catalog Year

Credit(s): 2

Lecture: 0

Non-Lecture: 6

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will consider some of the foundational issues we face in our search for the best group-living arrangements. Such issues will include, but not be limited to, the conflict between individual liberty and social equality, the criteria for just distribution of wealth, and the proper role and form of government. We will consider how questions about these issues have been addressed historically by philosophers since Plato and Aristotle. We will also explore how contemporary political works by Rawls, Nozick, and others might help us understand and try to solve our own political and social problems.

Offered: Every year

Crosslisted with: PHIL 219.

PLSC 221 - Democratization

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Democracy as both a political ideal and institutionalized system is relatively new in historical terms: the eighteenth century counted only three such polities (The US, the French Republic, and the Swiss Cantons). This number has increased steadily over time, even leading some to predict a trend toward near-total democratization globally. In what is termed the third wave of democratization, over 80 countries around the world have moved from authoritarian to democratic systems, albeit sometimes slowly and in partial measure, just since the mid- 1970s. However, there is no single clear path toward democratization, and the methods for - or even possibility of - assisting countries toward democratic goals remains a topic of acute political controversy.

Offered: Every year

PLSC 222 - Politics of East Asia

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course examines the domestic and international politics of East Asia. How have historical and political factors shaped such varied polities, including a communist country contending with massive socioeconomic and political change and a constitutional monarchy with a parliamentary system? How successful have the countries of the region

been in addressing the political and socioeconomic aspirations of their populations? Which countries have emerged as regional or global powers, and with what effect on the international system? Two major Asian powers, China and Japan, are studied in detail, and the considerable diversity of the region is explored through additional country studies. In addition, each student has the opportunity to pursue study of a pertinent topic of special interest throughout the individual project requirement. The course does not presuppose prior knowledge of East Asian history and politics.

Offered: Every year

PLSC 223 - Politics of South Asia

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course explores the major political and socioeconomic forces shaping contemporary South Asia. We begin with an overview of South Asia (India, Pakistan, Bangladesh, Sri Lanka, the Maldives, Nepal, and Afghanistan), emphasizing subcontinental factors such as the impact of colonization and anticolonial freedom struggles; international relations; and regional conflicts such as Kashmir and the nuclearization of the Indo- Pakistani relationship. We then turn to the ways in which newly independent states have contended with challenges of governance, national unity, and socioeconomic development, through case studies of the states of the region. The major focus of the course is the evolution and nature of democratic and authoritarian regimes in the region.

Offered: When demand is sufficient

PLSC 224 - Government and Politics in Africa

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Offered: When demand is sufficient

PLSC 227 - Civil War and Conflict Resolution

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course examines the phenomenon of civil war using a range of philosophical and theoretical approaches, as well as an abundance of empirical data about the incidence, characteristics, causes, duration, and cessation of civil war. We will focus our analysis on a few key questions: What are the major causes of civil war today? What comparative approaches best help us explain the prevalence of civil war? What special obstacles do civil wars present for conflict resolution? What means exist for countries caught in civil war to reach acceptable resolutions, re-assert the rule of law and accountability, and allow their societies to overcome divisions and reconcile?

Offered: Every year

PLSC 228 - S/M/Developing World Politics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

General Education Area(s): Social Sciences, Other World Civilizations

A survey of conditions and politics in areas of the world generally referred to as "developing." Why is political instability so common? How does chronic poverty affect politics in the developing world? What are the prospects for change? A variety of historical models, theoretical approaches to political development, and contemporary cases will be used to examine these and similar questions.

Offered: Once a year

PLSC 321 - State and Society in the Nonwestern World

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course examines state-society relations in comparative politics, focusing on the interplay among ideologies, institutions, interests, and identities in the nonwestern world. Readings include both theoretical works exploring these concepts and critical case studies. We begin with exploration of the adoption and adaptation of various political ideologies, sometimes arising from Western traditions and interactions with Western powers, that resulted in extremely varied political institutions throughout the nonwestern world. For example, parliamentary democracies have emerged in countries with remarkably different histories, including formerly fascist Japan and a number of former colonies. And yet other newly independent countries facing similar initial conditions adopted political systems as dissimilar as communism, democracy, and military authoritarianism.

Prerequisite(s): PLSC 120.

Offered: When demand is sufficient

PLSC 322 - Germany from the Nazis to the Present

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will explore the origins, history, and legacy of Nazi Germany, the development of domestic and foreign policies of the two Germanies during the Cold War, and the causes and process of the East German revolution in 1989. Based on this background, the course will address and analyze various policy problems--political, social, economic, and foreign-facing contemporary Germany. Major debates about Germany, such as the reasons for the Nazi seizure of power, responsibility for the Holocaust, themes of continuity and change, coming to terms with the past, and comparisons and relations with the U.S. will highlight the course.

PLSC 341 - Democracy and International Relations

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

What is the connection between democracy and international politics? Would a more democratic world be a more peaceful world? Are democracies inherently more peaceful than nondemocracies? This course examines the concept of the democratic peace, beginning with Kant's notion of the democratic pacific union. We then examine major contemporary works on democratic peace theory, arguments modifying our understanding of the democratic peace, and important critiques of this concept.

Prerequisite(s): PLSC 140.

Offered: Every year

PLSC 342 - Human Rights in a Global Perspective

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A study of the philosophical, cultural and theoretical bases of human rights institutions, practices, problems, and problems at the international and domestic levels with special focus on the Third World. The course will define and analyze the causes of human rights violations in Africa, Asia, and Latin America and assess the efficacy of such international and regional organizations as the United Nations, the Organization of American States, and the Organization of African Unity in protecting and promoting these rights.

Prerequisite(s): PLSC 140 or permission of the instructor.

Offered: When demand is sufficient

PLSC 345 - Theories of International Relations

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An exploration of the theoretical approaches to understanding international relations and to explaining outcomes in international relations. The course addresses the dimensions and requirements of good theory. Theoretical approaches employed include realism, interdependence and integration, national values and domestic structure, bureaucratic politics and transnational relations, dependency and Marxist approaches, and psychological approaches. These theoretical approaches address historical and contemporary cases.

Prerequisite(s): PLSC 120, PLSC 140, PLSC 246, senior standing, and permission of instructor.

Offered: Every year

PLSC 346 - Global Issues

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The course will focus on selected problems which face the global community such as AIDS, terrorism, and land mines. Students will analyze the background of these problems and debate options for dealing with them.

Prerequisite(s): PLSC 120, PLSC 140, PLSC 246, senior standing, and permission of instructor.

Offered: Every other semester, not on a regular basis

PLSC 347 - Terrorism and National Security

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course is designed to introduce students to the study of terrorism's past, present, and future. Students will explore numerous features of the subject including, but not limited to: definitional dilemmas; the origins and evolution of terrorism; tactical and targeting innovation; the psychology and characteristics of terrorist actors, including women; case studies; and counter-terrorism strategies.

Prerequisite(s): PLSC 140.

Offered: Once every two to three semesters, based upon demand

PLSC 348 - Politics of International Economic Relations

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A survey of the international economy, exploring particularly the interrelationship with politics. The course introduces major theoretical perspectives in international political economy; discusses the historical development of the modern international economy; and examines the functioning of the trade, monetary, and investment systems in the post-World War II period. Challenges to the liberal international order from competition among Western economic powers, the developing world, the process of marketization in centrally-planned economies, and technological change are addressed, as well as scenarios for the future.

Prerequisite(s): PLSC 140 or permission of the instructor.

Offered: When demand is sufficient

PLSC 351 - Failed States

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

State failure presents serious problems for the international community. Failed states generate destabilizing refugee flows, contribute to regional instability, damage prospects for economic development, and can become harbors for terrorists and other international criminal organizations. This course surveys the literature on state formation and collapse, with particular emphasis on causes and consequences, detailed examinations of individual cases, and the international community's response. A case study approach will be employed, focusing on four states (possibilities include Rwanda, Somalia, Congo, Afghanistan, Yugoslavia, Sri Lanka, Colombia, and other states should events warrant). By examining the various processes at work in failed states, the international response, and the tools for reconstruction, we will draw conclusions regarding the potential for early warning systems and appropriate policy remedies.

Prerequisite(s): PLSC 140 or permission of instructor.

Offered: Once every four semesters

PLSC 353 - Religion, Church and State in Contemporary Europe

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

The course will investigate the role of religion and churches in contemporary Europe, East and West, focusing on the different models of church-state relations - separation, establishment and pluralism - and the churches as political actors. The role of Catholic, Protestant and Orthodox churches in the context of communism, democratization and Europeanization since 1991 will be analyzed. Historical, transnational, sociological and attitudinal/behavioral aspects of religion will be addressed, including the challenge of integrating Islam into contemporary Europe.

Prerequisite(s): PLSC 120 or PLSC 140
Offered: Every other year

PLSC 354 - Government and Politics of Latin America

2018-2019 Catalog Year

Credit(s): 3
Lecture: 3
Non-Lecture: 0

This course focuses on the functioning of democratic politics in Latin America. Its main objectives are to consider: first, how government institutions interact with a variety of historic and contemporary political actors across the region; and second, how this interaction affects issue such as representation, political stability, and economic development. As such, we will investigate the role that the military, the Catholic Church, social movements, and political parties play in promoting political interests throughout Latin America, while also examining how institutional arrangements such as the presidency, legislatures, and electoral systems affect the representation of those interests. Students will have the opportunity to conduct an indepth investigation of the politics of a single Latin American country in a final research paper.

Prerequisite(s): PLSC 120, or approval of course instructor.
Offered: Once every year

PLSC 357 - Gender and Law

2018-2019 Catalog Year

Credit(s): 3
Lecture: 3
Non-Lecture: 0

This course will explore American, foreign, and international gender law, introducing students to feminist legal theories and methods, as well as an array of substantive issues relevant to gender studies. Through discussion of case, statutory, constitutional, and treaty law, students will develop skills in analysis and argumentation, along with an understanding of social justice, equality issues, and principles of non-discrimination.

Prerequisite(s): PLSC 110 or PLSC 120 or PLSC 140 or permission of the instructor.
Offered: Every year
Crosslisted with: SOCL 317

PLSC 390 - Senior Seminar

2018-2019 Catalog Year

Credit(s): 3
Lecture: 3
Non-Lecture: 0

This course will focus on a special topic within the discipline of Political Science of the instructor's choosing. Students will produce a research paper, and participate in weekly discussions on readings assigned by the instructor. Limited to 20 students.

Prerequisite(s): PLSC 110, PLSC 120, PLSC 140, PLSC 230, PLSC 251, and senior standing.
Offered: Every semester

PLSC 393 - Honors Thesis

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A major structured research project in Political Science that will cap a student's experience in the major. Students will work with an individual faculty member and complete a major research paper of 30-40 typed pages (on average). An oral report of the paper will be presented in a public form that is approved by the thesis advisor. Enrollment by invitation of the Department.

Offered: By individual arrangement

PLSC 395 - Political Affairs or Legal Affairs Internship

2018-2019 Catalog Year

Credit(s): 3-6

The Political Affairs Internship and Legal Affairs Internship are designed to provide students at the College an opportunity to broaden their educational background in a wide range of public agency or legal-related work situations. Such experiences as working in Rochester City and Livingston and Monroe County government, the District Attorney's Office, and regional and local state legislators' offices have been examples of student placements for this internship. The intern will spend an appropriate amount of time with the agency, participate in a seminar, and submit a major paper related to the experience. (Note: Students may present no more than 15 internship credits toward the baccalaureate degree.)

Offered: By individual arrangement

PLSC 399 - Directed Study

2018-2019 Catalog Year

Credit(s): May be taken for 1, 2, or 3 credits.

Intensive reading and/or research on a political subject mutually agreed upon by the student and a faculty member.

Prerequisite(s): Any 100-level Political Science course and permission of the instructor.

Offered: By individual arrangement

Psychology

PSYC 294 - Peer Advocacy

2018-2019 Catalog Year

Credit(s): 3

Lecture: 2

Non-Lecture: 3

This seminar course offers students intensive training in and practical experiences with basic helping skills. Peer advocates staff a student-to-student helpline under the close supervision of the supervising instructor, a licensed mental health professional. Peer advocates also help to train and evaluate volunteer trainees (who do not receive credit) by demonstrating skills and providing trainees with practice opportunities and feedback in weekly small group sessions. Trainee performance is evaluated via oral, written, and practical exams; those who demonstrate skill mastery are eligible to enroll as peer advocates the following semester. Peer advocates and trainees participate in a mandatory weekly seminar to discuss ethical, organizational, and practical issues and for ongoing training and supervision. Sophomore, junior or senior standing; two semesters of full-time study completed at Geneseo; overall GPA of 3.00. Students may enroll in the peer advocacy seminar only following successful completion of formal training the semester prior to enrollment.

Prerequisite(s): Permission of instructor.

Offered: By individual arrangement

Repeatable: May be taken twice for credit

PSYC 299 - Directed Study

2018-2019 Catalog Year

Credit(s): 1-3

Individual work, supervised by a faculty member, on a problem in psychology. May be taken more than once with the same subtitle. (No course described in the undergraduate bulletin may be taken under this course number.)

Prerequisite(s): PSYC 100 and permission of instructor.

Offered: By individual arrangement

PSYC 305 - Applied Research Methods: (subtitle)

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A selected-topic course focused on applied data management and analysis. Students will learn to apply qualitative and/or quantitative data collection, management and/or analysis skills.

Prerequisite(s): Proficiency in Basic Requirements. Some topics may require additional prerequisites which will be published in Knightweb.

Offered: Every year

Repeatable: May be taken more than once with different subtitles

PSYC 307 - Sensation and Perception

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An examination of the sensory and perceptual systems which enable us to see, hear, touch, taste, and smell. Drawing on both physiological and behavioral data, this course explores how physical energy is encoded by our sensory systems, and how this sensory information, in conjunction with cognitive processes, leads to our perceptual experience of the world.

Prerequisite(s): Proficiency in Basic Requirements.

Offered: Every semester

PSYC 308 - Psychology of Women

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Human language is examined from the perspective of experimental psychology. Topics covered include the following: speech perception and production, understanding sentences and discourse, content and organization of the mental dictionary, language acquisition, language and the brain, and language and thought.

Prerequisite(s): Proficiency in Basic Requirements.

Offered: Every two years

PSYC 321 - Developmental Psychology: (subtitle)

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An advanced course examining particular developmental domains or issues, with an emphasis on evaluation of contemporary research. Typical offerings include topics in cognitive development, social development, and applied

developmental psychology.

Prerequisite(s): PSYC 215, PSYC 216, or PSYC 217, depending on subtitle.

Offered: Every semester

Repeatable: May be taken for credit twice under different subtitles.

PSYC 331 - The Neural and Chemical Basis of Behavior: (subtitle)

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An advanced course examining aspects of neural function and neurochemical influences on human and animal behavior, with an emphasis on evaluation of contemporary research. Typical offerings include topics on hormones, drugs of addiction, psychoactive drug treatments, and neurotoxicology.

Prerequisite(s): Proficiency in Basic Requirements.

Offered: Most semesters

Repeatable: May be taken for credit twice under different subtitles.

PSYC 332 - Human Neuropsychology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course provides an introduction to the theory, methods, and practical applications of human neuropsychology. Topics will include fundamentals of brain-behavior relationships, functional neuroanatomy, human cortical organization, neuroimaging, neuropsychological assessment, and complex functions. Emphases are on normal functions of the central nervous system, but abnormal functions are considered as well.

Prerequisite(s): Proficiency in Basic Requirements.

Offered: Most semesters

PSYC 335 - Behavioral Pharmacology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Behavioral pharmacology is the study of the effects of drugs on behavior. An introductory survey of the theories, methods, findings, and principles of the field is presented.

Prerequisite(s): Proficiency in Basic Requirements.

Offered: Every year

PSYC 338 - Animal Behavior

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An integration of ethological and comparative psychological aspects of the evolution and development of behavior in animals. Special emphasis on such topics as biological rhythms, communication, spacing, reproduction, sensory systems, learning, and social structure. **(Not available for credit for students who have credit for BIOL 338.)**

Prerequisite(s): Proficiency in Basic Requirements.

Offered: Every semester

PSYC 340 - Psychology of Learning

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introduction to the principles of learning and behavior modification, with special emphasis upon laboratory findings. Evaluation of contemporary theories of learning in terms of experimental results.

Prerequisite(s): Proficiency in Basic Requirements.

Offered: Not on a regular basis

PSYC 350 - Social Psychology

2018-2019 Catalog Year

Credit(s): 3

Prerequisite(s): Proficiency in Basic Requirements.

Offered: Every semester

PSYC 357 - Behavior Genetics

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

Behavior genetics is the application of genetic research strategies to the study of behavior. Methods and theories are presented along with findings in specific domains of behavior, such as the genetics of mental illness, the genetics of behavioral responses to drugs, and the genetics of specific cognitive abilities and disabilities. Issues of genetic counseling are also addressed.

Prerequisite(s): Proficiency in Basic Requirements.

Offered: Every year

PSYC 365 - Clinical Psychology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

A general introduction to the field. Examines clinical assessment procedures, psychotherapeutic interventions, and salient issues in clinical research.

Prerequisite(s): Proficiency in Basic Requirements.

Offered: Every year

PSYC 366 - Developmental Psychopathology

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An advanced course that provides an overview and critical analysis of the theories and research contributing to a developmental perspective on behavioral, psychological and emotional disorders in childhood and adolescence. Course content charts the origins, developmental pathways and symptom expression of psychopathology in childhood and adolescence with special attention to the person- and environmentally-based factors that increase or buffer the risk for psychopathology. Implications of a developmental model for prevention, assessment and treatment of disorder are considered.

Prerequisite(s): Any two courses from among PSYC 215, PSYC 216, or PSYC 260 or permission of the instructor.

Offered: Every year

PSYC 370 - Introduction to Psychological Testing

2018-2019 Catalog Year

Women's and Gender Studies

WGST 100 - Introduction to Women's and Gender Studies

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

An introduction to historical and contemporary feminist issues and to problems of special importance to Women's and Gender Studies, which students may go on to pursue in further depth. Examples include the nature of gender in the US and cross-culturally; how gender functions within a system of privilege and oppression; how gender intersects with other forms of oppression such as race, class, and LGBTQ status; and feminist activism across the three feminist "waves." In the course of examining these topics, students will be introduced to a wide array of feminist theoretical frameworks, Liberal Feminism, Radical Feminism, Black Feminism, and Postmodern Feminism. Students will then explore applications of these theories to various topics of historical and contemporary interest to women, such as pornography, sexuality, violence, and sexual assault, among other topics.

Offered: Every semester

WGST 201 - Historical and Political Topics: (subtitle)

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This is a slot course that focuses on an historical and/or political aspect of Women's and Gender Studies. Each section will incorporate recent feminist scholarship, methodologies, concepts, and analyses. In addition, each section will utilize feminist pedagogy to foster a climate of mutual inquiry and exchange of ideas between faculty and students.

Offered: Not on a regular basis

Repeatable: This course may be taken for credit multiple times with different subtitles.

It also emphasizes: developing an effective public speaking style; learning how to facilitate discussions; developing activities that require active learning; critically evaluating and revising Safe Zone program curriculum; and marketing and outreach to the campus community. Students who demonstrate mastery of skills in this course will be eligible to become Safe Zone Trainers the following semester; in addition, they also have the option to apply to the Safe Zone Leadership Program in subsequent semesters for which they can earn internship credit. Enrollment in the course is selective: students must complete an application to the course during the spring semester preceding the semester they wish to enroll.

Prerequisite(s): Sophomore standing or higher; completion of two full-time semesters at Geneseo; permission of instructor. Enrollment in the course is selective: students must complete an application to the course during the spring semester preceding the semester they wish to enroll

Offered: Every fall

WGST 240 - Arab Women, Islam, and Feminism

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course is a critical feminist approach to understanding interpretations and effects of both Islam and secularism in the Arab world. Islamic Sharia constructs the private and public lives of Muslim women based on the Qu'ran. Secularism constructs Arab civil society based on international human rights and gender equality. Within and across these approaches, Arabs confront each other from conflicting readings of Islam, secularism, and feminism. This course examines the social and political consequences for girls and women resulting from these different visions for Arab society. Women's rights are in tension with traditional cultural customs, rising extremist religious movements, and regional poverty. Students will examine the complex nature of Arab women being caught within local and global forces as they struggle to construct an identity of their own and a feminism of their own.

Offered: Fall, even years

WGST 310 - Race, Class, and Gender

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course uses multiple disciplines to explore how identity categories of gender, race, and class intersect. Students will explore and critique relations of power in families, societies, and cultures. In class discussion and in writing,

students will reflect on their own ideas and thought processes, and they will engage respectfully with differing ideas.

Offered: Every fall

WGST 320 - Gender and Sexualities

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will involve a multi-disciplinary, feminist exploration of the intersections of gender, culture, and sexuality. The experiences of historically devalued groups, including girls and women, sexual minorities, and people of color will be emphasized. Students will investigate the limitations of binary classification systems as pertaining to gender roles, gendered behavior, sexual behaviors, and sexual orientation. Topics to be covered may include, but are not limited to, sexuality as depicted in Western media, variations in biological sex, gender identity, sexual orientation, socialization and sexual and reproductive freedoms.

Offered: Every spring

WGST 330 - Feminist Theories

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This interdisciplinary course will familiarize students with diverse theories of feminism through close reading of classic and contemporary texts. Theoretical approaches covered might include: liberal, radical, cultural, socialist, womanist/multiracial, standpoint, lesbian, queer, poststructural, and postcolonial feminism. Particular emphasis will be placed on debates over gender as a category of analysis, sameness/difference, essentialism, deconstruction, epistemology, and intersectionality.

Prerequisite(s): WGST 201 or WGST 202 or WGST 203 or WGST 204 or WGST 205 or WGST 230 or WGST 240

Offered: Every fall

WGST 340 - Gender and Global Education

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course examines the state of girls and women's education in the context of contemporary globalization and development. The course is a feminist analysis of global education that uses gender equity as the measure of progress. It will introduce students to global and local forces impacting gender and schooling, and the struggles for girls' education. Formal education is a major social/cultural institution that produces knowledge and skills needed for participation in all spheres of society. Education is an internationally recognized right for all, and one that is foundational for gender equity. The level of girls and women's access to education enables or denies them participation in civic and economic life. The course is an analysis of how current processes of globalization are transforming education across the world, and how girls and women fit into the changing picture.

Offered: Fall, odd years

WGST 490 - Senior Capstone Seminar

2018-2019 Catalog Year

Credit(s): 3

Lecture: 3

Non-Lecture: 0

This course will have two parts. The first is a seminar in which students read advanced academic articles on a subject chosen by the instructor and write a short article of their own engaging with other scholars' ideas. Students will also engage in their own capstone research project, producing an annotated bibliography, a public presentation, and a final written presentation.

Offered: Every spring

Restricted to: Senior status and Women's and Gender Studies majors, minors and concentrators

WGST 493 - Honors Research

2018-2019 Catalog Year

Credit(s): 3

Lecture: 0

Non-Lecture: 6

Two semesters of individual research or creative work and writing, of an undergraduate thesis, directed by a faculty member affiliated with Women's and Gender Studies. Available for majors with a 3.0 cumulative grade point average and who have taken at least 24 credits of toward the major with at least a 3.5 average in the major. Students may present a proposal with or without a faculty mentor; invitation to participate will be by the Women's and Gender Studies Program. Successful completion of three credits of WGST 493, including a public presentation, can count for the Women's and Gender Studies capstone requirement; successful completion of 6 credits with a grade of A- or A is required for graduation honors in the major.

Offered: By individual arrangement

WGST 495 - Internship

2018-2019 Catalog Year

Internship experiences related to the Women's and Gender Studies major can be arranged. Interns are required to fulfill a set of objectives related to their major, mutually agreed upon by the student, the faculty supervisor, and the participating agency. Notes: See also Internship section of this bulletin.

Offered: By individual arrangement

WGST 499 - Directed Study

2018-2019 Catalog Year

Credit(s): 1-6

Individual study and research under the supervision of a faculty member. Successful completion of three credits of WGST 499, including a public presentation, can count for the Women's and Gender Studies capstone requirement.

Offered: By individual arrangement

Requirements for Baccalaureate Degree Programs

Students must meet the following requirements to earn a baccalaureate degree from the College at Geneseo.

1. Earn a minimum of 120 credits. A maximum of 60 credits can be transferred from two-year institutions, and a maximum of 90 credits are transferable from a four-year institution. In addition, a maximum of 10 credits in health and physical education courses (with no more than four credits in activity courses), a maximum of 8 combined credits in MUSC 160, MUSC 165, MUSC 271, DANC 265 and THEA 260, a maximum of 8 credits in ROTC, and a maximum of 15 credits in internships can be included within the 120 credits required for the degree. (Please also see section titled Credit Restrictions)
2. Attain at least a 2.00 cumulative grade point average at Geneseo.
3. Achieve at least a 2.00 cumulative average in all courses in their major department applied toward completion of the major, and a 1.67 average or better in required related courses (i.e., any courses required by the major department which are outside its own academic discipline). (In addition, students seeking recommendation from the College for New York State initial certification must achieve a cumulative grade point average of at least 2.5.) *Note that some majors require a cumulative average higher than a 2.0 to continue in their programs (see **School of Business and School of Education**).*
4. Complete satisfactorily all courses required for the major (as specified by the descriptions of majors, minors, and courses in "Academic Programs").
5. Complete successfully the department writing requirement in the major (or first major, for students with multiple majors). Consult individual department offices for details.
6. Complete satisfactorily the requirements of the General Education Curriculum. Approved courses in each of the General Education areas are described on the following website: gened.geneseo.edu
7. Complete satisfactorily at least 45 credits toward graduation in courses at or above the 200-level.
8. Offer toward graduation a minimum number of credits outside the major department or outside professional preparation areas, as indicated below:

The College Curriculum

Principles and Goals of a Geneseo Undergraduate Education

The Principles and Goals of a Geneseo Undergraduate Education sets forth the College Community's vision for the best education Geneseo can provide. The document reflects goals and precepts embraced in the current curriculum as well as those to which the College aspires.

Geneseo students should develop enduring habits of intellectual inquiry. They should experience the joys of discovery for its own sake and the self-development that comes from continuing intellectual curiosity.

They should develop a sense of intellectual complexity that reflects the complexity of the world. In order to flourish in such a world, students must master theories, methodologies and content in various disciplines and demonstrate the ability to apply this knowledge in both disciplinary and interdisciplinary contexts.

As part of their discovery, they should acquire an understanding of the diversity and commonality of human cultures, both others and their own, along with knowledge of how these cultures developed. They should also acquire an understanding of the complexity and unity of the natural world.

They should recognize and appreciate the aesthetic dimension of the world, especially the arts, and understand how it enriches their lives.

Recognizing the responsibilities that knowledge entails, they should be prepared to participate ethically and intelligently as informed citizens of the communities in which they live and work.

General Education Curriculum

A liberal arts education requires a thoughtful combination of General Education courses, a major, and electives. These should be chosen to complement each other meaningfully.

All students must complete the General Education Curriculum. The curriculum consists of nine areas: Mathematics, Basic Communication, Natural Sciences, Social Sciences, American History, Western Civilization, Other World Civilizations, Humanities, The Arts, and Foreign Language.

1. Mathematics (R/)

One three-credit or four-credit course designed to increase the student's understanding of complex mathematical and logical reasoning. Courses that fulfill this requirement have the designation R/ in their titles.

General Education courses in Mathematics emphasize logical reasoning conducted in a numeric or other symbolic language. Such courses will foster the student's ability to reason analytically, solve problems, apply theoretical concepts, and construct sound arguments; they may, in addition, enhance the student's ability to collect, analyze, interpret, and reason from quantitative data. Courses approved for the requirement emphasize the connection between methods of problem-solving (numerical, formulaic, algorithmic) and the logical and mathematical foundations that justify them.

2. Basic Communication

One three-credit course emphasizing skill in analyzing texts, evaluating rational arguments, and writing well.

Basic Communication (INTD 105) emphasizes analytical writing and textual analysis. The skills involved in close reading require sensitivity to the subtleties of carefully constructed prose and the ability to recognize, construct, and assess arguments in written form. This requirement emphasizes both form and content in the written work; ideas should be expressed clearly, coherently, and grammatically, and reflect thinking that is critical and constructive. The focus of the course will be on significant complex works that come from a variety of disciplines. The course will be offered by members of different areas of the academic curriculum. This requirement must be met in the first year. (Students transferring to Geneseo from another college or university may petition the Dean of the Academic Planning and Advising for approval of equivalent or comparable coursework to meet this requirement.)

3. Natural Sciences (N/)

Two laboratory courses in the natural sciences which emphasize the scientific procedures employed in the development of the theoretical structure of science. See restrictions described below. Courses that fulfill this requirement have the designation N/ in their titles. The General Education courses in Natural Sciences allow students to study factual information and the theoretical structure of the natural sciences and also engage them in the scientific process through which discoveries are made. Lectures emphasize fundamental concepts in the natural sciences while laboratory assignments address the techniques used to collect, analyze and interpret data. Given the powerful and constantly growing impact of science upon current society, these courses serve the important purpose of allowing all students to have a basic intellectual understanding of natural science and the scientific process.

4. Social Sciences (S/)

Two three-credit courses in the social sciences designed to increase the student's understanding of the human condition and of human institutions. Courses that fulfill this requirement have the designation S/ in their titles. See restrictions described below.

The General Education courses in Social Sciences are designed to deepen students' understanding and awareness of important aspects of human behavior and social organization, to increase students' understanding of the human condition and human institutions, and to introduce them to the different approaches and methods used by the various social science disciplines. These goals are pursued through theoretically and empirically based course work.

5. American History (U/)

One three-credit course examining the distinct, overlapping, and shared histories of individuals and groups in the United States, with attention to the way identities and experiences relate to categories such as race, ethnicity, gender, class, sexual orientation, religion, and disability. Courses that fulfill this requirement have the designation U/ in their

titles. General education courses in American History place the varied experiences of individuals and groups-including the experience of inequality-within the context of a common narrative that encompasses not only social, political, economic, and legal structures at home but also the changing relationship between America and the rest of the world.

6. Other World Civilizations (M/)

One three-credit course examining non-western ideas and traditions. Courses that fulfill this requirement have the designation M/ in their titles.

General Education courses in Other World Civilizations focus the student's attention on ideas, experiences and concepts existing outside the Western world. The wide variety of applicable courses from across the academic departments offers students numerous perspectives from which to investigate non-Western cultures and ideas. These areas include, but are not limited to, culture, music, history, philosophy, religion, social structures and politics. This requirement encourages in students the development of a well-rounded understanding of the various ideas, experiences and concepts in the world in which they exist and interact.

7. The Arts (F/)

Two three-credit courses in the arts designed to heighten aesthetic awareness. At least one course must approach the arts from a historical or theoretical perspective. (That is, both may not be studio or performance courses.) For one of the three-credit courses, students may substitute sustained participation (three semesters, totaling three credits) in one of the following performance courses: MUSC 160, MUSC 165, MUSC 271, DANC 265, THEA 260. See restrictions described below. Courses that fulfill this requirement have the designation F/ in their titles.

The General Education courses in The Arts are designed to enhance the capacity of students to respond sensitively, imaginatively, and intelligently to aesthetic events and art objects. This enhancement of aesthetic sensibility is accomplished through the study of theoretical and/or practical dimensions of the arts. Theoretical exploration seeks to develop students' skills in the perception, analysis, interpretation, and evaluation of existing artwork as produced by performing, visual, or cinematic artists. Practical exploration seeks to develop skills in the creation of new, or the performance of existing, artwork. Both avenues of study serve to develop an understanding of, and facility with, the specialized language and knowledge base of the arts as well as to guide students to an understanding of the arts and aesthetic response within an historical or theoretical framework.

8. Foreign Language (L/)

College-level coursework or approved normed test that demonstrates student proficiency through the first intermediate level of a foreign language. Courses offered at Geneseo that fulfill this requirement have the designation L/ in their titles.

General Education courses in Foreign Language help students achieve proficiency in listening, reading, speaking, and writing as well as familiarity with other cultures. Not all students will require the same number of courses to achieve proficiency. The various options for demonstrating proficiency are:

1. Successful completion of four complete years of high school level foreign language
2. A score of 4 or 5 on the Advanced Placement Examination in a foreign language
3. Placement beyond the first intermediate level on Geneseo's language placement examination. This exam is offered at orientation, at designated times during the semester (see the department's web site for dates), or online (this option may require a preapproved proctor and a fee may be assessed by the testing agency). The placement exam is mandatory for any student who wishes to enroll in courses offered by the Department of Languages and Literatures.
4. Completion of college-level work in a foreign language (at Geneseo or another institution) through the first intermediate level. For students seeking certification in education, the language requirement may be met by three semesters of American Sign Language.

9. & 10. Humanities (H/) and Western Civilization (W/):

For students with Catalog Year 2014-15 or later:

All students must complete one of two four-credit courses, which emphasize the search for moral, social, and political alternatives and meaning as embodied in the institutions, culture, and literature of Western civilization.

The Western Humanities sequence focuses on the major moral and political questions that have been raised in the Western tradition, and serves as a defining component of the College's liberal Arts program. More specifically, students explore the humanistic tradition with an emphasis on the search for moral, social, and political alternatives and meaning as embodied in the institutions, culture, and literature of Western civilization. In addition to building students' factual and theoretical knowledge base of Western civilization through the use of reading taken primarily from the "great books" tradition, the Humanities courses are designed to extend student abilities in the areas of critical analysis and research skills. This requirement must be met by the time students complete 75 Earned Credits. Restrictions in Fine Arts, Social Sciences, and Natural Sciences

The following restrictions apply only to the Fine Arts, Social Science, and Natural Science areas of the General Education curriculum:

1. In each of these areas, students must apply two courses with different departmental prefixes. (For example: SOCL and ANTH for Social Science.) Transfer students who, upon original matriculation at the College, have completed an associate's degree or have 53 or more credits accepted as transfer credit are exempt from this limitation if they have previously completed successfully two core-eligible courses with the same departmental prefix. In addition, students who apply three semesters of ensemble or practicum toward the Fine Arts requirement may complete the requirement using a theory or history course with the same departmental prefix. (For example: MUSC 123 and three semesters of MUSC 165.)
2. Students may not apply a particular course to more than one of these areas.
3. Students may not apply more than two courses with the same departmental prefix toward the three areas collectively.

GLOBE: Baccalaureate Learning Outcomes

Geneseo Learning Outcomes for Baccalaureate Education

GLOBE is a framework for building and assessing a holistic student experience at Geneseo.

The SUNY Geneseo College Senate adopted the following resolution at its meeting of 1 March 2016: "The Geneseo College Senate supports the Geneseo Learning Outcomes for Baccalaureate Education, as printed in College Senate Bulletin v60 n6, as a framework for the redesign of the student experience at Geneseo, encompassing general education, academic majors, development of skills, and integrative and applied learning." (Bulletin 60.12, p. 166.)

Geneseo Mission Statement

SUNY Geneseo, nationally recognized as a center of excellence in undergraduate education, is a public liberal arts college with selected professional and master's level programs. It combines a rigorous curriculum, transformational learning experiences, and a rich co-curricular life to create a learning-centered environment. The entire college community works together to develop socially responsible citizens with skills and values important to the pursuit of an enriched life and success in the world.

Learning Outcomes

The Geneseo learning outcomes for baccalaureate education described below are designed to guide the entire Geneseo education. Inspired by the AAC&U's statement on Liberal Education and America's Promise, this document provides the curricular and co-curricular foundation for students to achieve an integrative education that supports the College's mission.

Broad and Specialized Knowledge

The Geneseo curriculum introduces a broad range of methodologies, concepts, and problems through a rigorous general education program and fosters the pursuit of deep and complex understanding through engagement with academic majors and minors. The college mission to promote "pursuit of an enriched life" and "success in the world" requires that students acquire, use, and communicate knowledge; practice intellectual flexibility; and investigate domains beyond their professional interests.

Learning Outcomes:

Students will demonstrate:

Broad Knowledge: To develop broad knowledge of Physical and Life Sciences; Behavioral and Social Sciences; Arts, Languages, and Humanities.

Specialized Knowledge: To develop deep understanding of a body of specialized knowledge.

Intellectual and Practical Skills

In support of Geneseo's institutional mission as "a center of excellence in undergraduate education," college values stress "high standards for intellectual inquiry and scholarly achievement." Geneseo prepares students for twenty-first century challenges through the development of intellectual and practical skills that transcend disciplinary boundaries and are applicable throughout their lives.

Learning Outcomes:

Students will demonstrate:

- 1. Critical Thinking:** To formulate questions or frame issues in ways that permit examination or investigation; to explicate and evaluate the assumptions underlying the claims of self and others; to establish and pursue systematic and valid methods for collecting and evaluating relevant evidence; to draw soundly reasoned and appropriately limited conclusions on the basis of evidence; to relate conclusions to a larger body of knowledge.
- 2. Communication:** To demonstrate proficiency in English and skill in another spoken language; to compose written texts that effectively inform or persuade, following Standard English conventions and practices of academic disciplines; to engage in discussion, debate, and public speaking in a manner suitable to the listener(s) and the discourse; to be mindful of the interplay between rhetorical style and purpose.
- 3. Quantitative, Computational, and Symbolic Reasoning:** To construct and interpret mathematical, computational, or symbolic depictions of information (e.g., equations, algorithms, graphs, diagrams); to generate accurate calculations or plausible estimates; to draw valid conclusions from quantitative evidence or computational or symbolic results; to clearly communicate the conclusions drawn from quantitative, computational, or symbolic analysis.
- 4. Informational and Digital Literacy:** To work in information-rich and digital environments; to identify when information and data are needed to support claims; to search effectively and efficiently for relevant information, evidence, and data; to evaluate the credibility of information obtained; to share and cite information and ideas that inspire or support one's own work responsibly and ethically, respecting privacy and intellectual property rights; to use digital tools to create, communicate, and collect information for the benefit of others.
- 5. Creativity and Creative Thinking:** To produce scholarly or artistic work, independently or collaboratively, that makes inventive connections among existing forms and ideas; to engage divergent or contradictory perspectives; to transform existing ideas or solutions into new forms; to understand and articulate the relationship between individual creative work and wider contexts; to practice techniques for presenting and performing creative work.
- 6. Leadership and Collaboration:** To engage others in developing collaborative solutions; to experiment, take risks, and learn from mistakes; to enable, encourage, and recognize contributions to collaborative efforts by all group members; to manage and share work fairly and respectfully; to envision, promote, consider, and respond to diverse viewpoints.
- 7. Diversity and Pluralism:** To work effectively in a pluralistic society, recognizing and respecting diverse identities, beliefs, backgrounds, and life choices; to practice effective communication and collaboration across diverse communities and organizations; to critically reflect on the reasoning and impact of one's personal beliefs and actions.
- 8. Global Awareness and Engagement:** To situate individual and community experiences in multiple historical contexts, global systems, and power relations; to assess interconnections among local and global systems; to apply global perspectives in addressing challenges and solving problems.

Integrative and Applied Learning

Geneseo's mission underscores an institutional commitment to "transformational learning experiences" and "a rich co-curricular life." Integrative learning fosters the ability to connect and combine knowledge and skills acquired through the curriculum and the co-curriculum to new complex situations within and beyond the college and to foster reflection on the ways that such knowledge is utilized. Such learning develops through such high-impact practices as international experiences, service and community-based learning, intensive research activities, internships, advocacy, learning communities, and capstone courses and projects.

Learning Outcomes:

Students will demonstrate:

- 1. Integrative Inquiry:** To ask meaningful questions connecting personal experiences to academic study and co-curricular life; to synthesize multiple bodies of knowledge to address real-world problems and issues.
- 2. Application and Transfer:** To adapt and apply skills, theories, and methods gained in one or more domains to new situations.
- 3. Reflection:** To reflect upon changes in learning and outlook over time; to make personal, professional, and civic plans based on that self-reflection.

Baccalaureate Degree Programs

Students matriculated at Geneseo who satisfy all graduation requirements and requirements of their academic majors are eligible for a Bachelor of Arts degree, Bachelor of Science degree, or Bachelor of Science in Education degree. Each degree program has a HEGIS code which indicates how the program is listed on the Inventory of Registered Degree and Certificate Programs maintained by the New York State Education Department. All major programs at Geneseo are registered; thus, students may pursue any Geneseo major without jeopardizing eligibility for student aid awards.

The following inventory lists the College's academic majors, majors for which teaching and/or other certification is available, other program titles, degrees awarded, and the corresponding HEGIS code.

Pre-Professional Advisory Programs

Several pre-professional advisory programs are available for students who intend to pursue careers in various professions, including business administration, engineering, optometry, dental science, law, medicine, and theological studies. Interested students should consult with the coordinators of these specific programs early in their college careers. For students interested in advisement pertaining to other professional areas, students may inquire at the Office of the Dean of Academic Planning and Advising.

Preparation for Engineering

(Five-Year 3-2 Programs)

To meet the needs of students whose goal is to combine a liberal arts and science education with one in engineering, the College has negotiated cooperative arrangements with several institutions.

Qualified students may pursue a program of study during which the first three years are spent at the College and the last two years are at one of the cooperating institutions. At Geneseo, these students major in chemistry, or physics. After successfully completing the total five-year program, they are awarded a Bachelor of Arts from SUNY Geneseo and a Bachelor of Science in Engineering from one of the cooperating institutions. Application for admission to an engineering department at one of the cooperating institutions should be made toward the beginning of the junior year. Students' admission to one of the institutions depends on their grade point averages, recommendations by the faculty, and formal acceptance by one of the cooperating institutions. Available majors at the cooperating institutions include, for example, aerospace, ceramic, chemical, civil, electrical, industrial, mechanical, or nuclear engineering and engineering science. Further information relating to this 3-2 program may be found in this bulletin in the program descriptions for Chemistry, and Physics or can be obtained by contacting Dr. Ed Pogożelski (pogo@geneseo.edu) for a list of engineering schools with which SUNY Geneseo has a 3-2 articulation agreements.

Preparation for the Doctor of Optometry Degree

(Seven-Year 3-4 Program)

To meet the needs of students whose goal is to combine a liberal arts and science education with a degree in Optometry, the College has negotiated a cooperative arrangement with SUNY College of Optometry. Qualified students attend Geneseo for three years and then attend the professional program at SUNY Optometry for four years. At Geneseo, the students major in biology B.S. program. For further information refer to the Biology department program description in this bulletin.

Preparation for the Doctor of Dental Science Degree

(Seven-Year 3-4 Program and Early Assurance Program)

SUNY at Geneseo and SUNY at Buffalo, have negotiated two programs with the School of Dental Medicine. The 3/4 program option offers to qualified students the opportunity to receive a B.S. in biology from Geneseo and a Doctor of Dental Science degree from SUNY at Buffalo in seven years instead of the usual eight. The early assurance program offers to qualified sophomores acceptance into dental school at the end of their undergraduate career. For further information refer to the Biology department program description in this bulletin.

Pre-Law Advisory Program

Students who intend to pursue a career in law should develop basic skills and insights fundamental to the attainment of legal competence. The pre-law program should include content in reading comprehension and effective expression in words; critical understanding of the social, political, and economic institutions and values with which the law deals; and experience in critical and logical analysis. The development of these capacities is not the monopoly of any one discipline or department. A broad background in humanities, social sciences, and communication studies will help students develop the abilities to think for themselves and to express thoughts with lucidity, economy, and direction. (Several minors are available that complement a pre-law curriculum.)

The pre-law advisory program provides guidance on the law school application process and appropriate law school selection. Resources on law schools and the LSAT are available for student use. Programs feature speakers from law schools and the legal profession. For further information about the pre-law advisory program, students should contact the college Pre-Law Advisors, Graham Drake (drake@geneseo.edu), English Department, Welles 217A; or Anne Eisenberg (eisenber@geneseo.edu), Sociology Department, Bailey 238; or Joanna Kirk (kirk@geneseo.edu), Political Science Department, Wadsworth 13C or James Quinn, (quinn@geneseo.edu), School of Business, South 312. More information is available at www.geneseo.edu/prelaw

Pre-Medical Advisory Program

There is no required major for students who intend to pursue a medical degree after completing the baccalaureate program; students are advised to select a major in the area in which they have the greatest interest. To apply to most medical schools students need to take basic courses in Biology, Chemistry, Physics, Mathematics, Psychology and English. The Premedical Advisory Committee, which includes faculty members representing the social sciences and the natural sciences, advises pre-medical students throughout their four years of study and suggests appropriate course sequences and timing. The Committee also suggests and encourages a variety of academic and non-academic activities that will enhance applications to medical schools, keeps students aware of test dates and application requirements, sponsors seminars related to medical studies, and fosters interaction among students in all phases of the pre-med process. For further information or to seek advisement, students should consult with the program coordinator.

Cooperative Agreement with SUNY Upstate Medical University

Geneseo has established an agreement with Upstate Medical University for their Physical Therapy program.

- 3+3 program leading to a Doctorate in Physical Therapy.

Requirements and additional information are available through Dr. Kim Harvey in the Department of Admissions at Geneseo at 585-245-5571.

Pre-Theological Studies

Students who intend to pursue post-baccalaureate theological studies are advised to obtain a broad undergraduate background, with special emphasis on the humanities and social sciences. The following courses are suggested as potentially beneficial for the pre-theological student:

ANTH 260	M/Myths and Folktales of American Indians
ANTH 301	Religion, Culture, and Society
HIST 108	The Bible
HIST 209	Christian Thought
HIST 291	M/The Islamic Middle East: 600-1800
HIST 292	The Modern Middle East: 1800 to the Present
PHIL 202	World Religions and Contemporary Issues
PHIL 218	Philosophy of Religion
SOCL 240	S/Religion in American Society

The preceding list is only suggestive. Because the curricular offerings of the College undergo continual revision, some of these courses may no longer be offered in the future and new courses may be approved.

Students interested in the religious studies minor should refer to the Academic Minors section of this Bulletin. Additional information on pre-theological studies may be obtained from Dr. Carlo Filice (filice@geneseo.edu), Professor of Philosophy, Welles Hall 102D.

Academic Policies, Standards, and Information

Academic Advisors

Academic advisors are faculty or staff members who assist students in planning their academic programs. Students who have declared majors are assigned advisors in their major departments. Students who have not yet declared majors are assigned faculty advisors by the Office of the Dean of Curriculum and Academic Services. Students should contact their academic advisors when planning their programs for the following semester. Advisors are available either during posted office hours or by appointment. *Although the advisor's role in offering assistance is very important, the ultimate responsibility for devising suitable schedules, fulfilling degree requirements, meeting college deadlines, and adhering to College policies rests with the student.* Thus, before they meet with their faculty advisors, students should become familiar with the College's requirements, their department's requirements, and their own academic transcripts.

Mandatory Advisement

Students who meet any of the following criteria are required to consult with their academic advisors and secure approval for course selections before they are allowed to register for courses:

1. First-year students (students within the first 24 credits at Geneseo),
2. First-semester transfer students
3. Students listed as Pre-Accounting, Pre-Business Administration, and Pre-Economics majors,
4. Students on probation, and students whose grade point averages fall below 2.30. Other students have the option of self-advising, but the College *strongly recommends* that all students meet with their academic advisors each semester. Students who self-advise assume full responsibility for their schedule of classes and progress toward completion of degree requirements.

Registration

Students register for courses online through KnightWeb at times specified by the College. These times include summer orientation (for registering new students), advance registration (for continuing students), and final registration (for students who did not register during advance registration sessions). To be officially registered for courses, students must clear any outstanding financial obligations to the College. Registration information is provided through KnightWeb for each semester and special session.

Prerequisites

Some courses have prerequisites, major restrictions, or other conditions that may determine a student's eligibility to enroll. Prerequisites and conditions, where applicable, appear at the end of a course description in this Undergraduate Bulletin and in KnightWeb. Students are responsible for noting such prerequisites and conditions and may be blocked from registering for, or may be deregistered from, courses for which they lack prerequisites.

Attendance at the Beginning of the Semester

All students are expected to attend each meeting in the course in which they are registered from the first scheduled class meeting; the only exceptions to the foregoing are students who add the course later in the Drop/Add period or who have made prior arrangements with the instructor.

Students who know in advance that they will be out of class during the first two days of class should, as a first step, notify the Office of the Dean of Students (College Union 354, 245-5706) who will notify the faculty. With the exception of religious observances, the instructor determines whether an absence is excusable. Therefore, students should make every effort to communicate directly and promptly with their respective instructors if they are absent.

Cross-Registration with Rochester Area Colleges

Full-time students at the College (i.e., those registered for at least 12 credits at Geneseo) may cross-register for additional course work at several colleges and universities in the Rochester area without paying additional tuition. Permission for cross-registration will be granted only when the requested course is never offered at Geneseo and is applicable to the student's degree program. The number of participating institutions varies from year to year but includes both public and private schools. Registration forms for cross-registration are available in Erwin 102. More information on cross-registration is available from the Office of the Dean of Curriculum and Academic Services, Erwin 106.

Reserve Officers' Training Corps (ROTC)

The opportunity to enroll or participate in the Army and Air Force ROTC programs is available to all full-time students from all degree fields through cross-registration at Rochester Institute of Technology (RIT); the program includes classroom instruction and leadership training, physical training, and tactical training.

Additional information is available on activities, scholarships, financial benefits, and graduate school opportunities. To learn more about Army ROTC, call the RIT Department of Military Science at 475-5547 or email: armyrotc@rit.edu.

Enrolling in Graduate Courses

An advanced undergraduate student in the School of Education may apply to take up to six hours of 500-level graduate coursework related to the student's degree program. Application should be made to the Dean of the School of Education. A decision will be made based on (1) the student's academic progress, grade-point average, and rationale for enrolling in graduate courses, and (2) the availability of space in the course.

If the student is within 12 credits of graduation when enrolling in graduate courses, and if the student graduates within one calendar year of completing the courses, the graduate coursework will appear on a graduate transcript; otherwise, it will appear on the student's undergraduate transcript.

Auditing Courses

Auditing is the process of attending a class without enrolling or receiving credit. Persons wishing to audit courses must receive permission from the instructor of the course and the chair of the department in which the course is offered. The College provides no formal recognition or proof of attendance to auditors.

Dropping and Adding Courses

Once students are enrolled in courses, they may need to change their schedules. A "drop/add" period is provided before and during the first week of each academic term, when courses may be added to or dropped from the student's schedule. Specific dates and procedures for each drop/add period can be found on the Academic Calendar website at www.geneseo.edu/registrar/AcademicCalendar. Students drop and add classes through KnightWeb during designated drop/add periods. An Add or Drop that is accepted with special approval after the published Drop/Add deadline will be assessed a \$20 late Drop/Add fee per course.

Withdrawing from Courses

Students may withdraw from courses after the end of the drop-add period but before the withdrawal dates published each semester on the Academic Calendar website at www.geneseo.edu/registrar/AcademicCalendar. In courses from which they have withdrawn, students receive the grade of "W," which does not affect the grade point average; however, students who stop attending without withdrawing receive grades of "E." Although withdrawals do not affect students' grade point averages, they can affect hours completed for satisfactory progress requirements and are recorded on students' transcripts. See "Academic Standards" below for the minimum hours needed to maintain satisfactory progress.

Declaring Majors and Minors

Successful completion of a major program is a graduation requirement. Students must declare a major by the beginning of the junior year (i.e., by the time they complete 60 credits). Students who have not declared a major by that time are considered to be not making progress toward a degree and are not eligible for financial aid. In addition, the College reserves the right to prohibit the registration of any student who has not formally declared a major by the time she, he, or they achieve junior status. The major is declared by completing and returning the appropriate form, which is available from the Office of the Dean of Academic Planning & Advising, Erwin 106.

Additionally, students who wish to major in programs offered by the School of Business and by the School of Education must apply for admission into those programs. Information about admissions standards can be found on the department websites and in the academic program sections of this Bulletin. Candidates for teaching certification should also complete the form to identify their certification programs and concentrations.

Students may choose to complete up to two minors, which are declared by completing and returning the appropriate form to the Office of the Dean of Academic Planning & Advising. At least 9 credits of a minor must be distinct (i.e., not overlap with Major Requirements or overlap with the requirements of another Minor or Concentrations.)

Students may choose to complete a second major. At least 24 credits of a second must be distinct (i.e., not overlap with Major Requirements of the first major). Permission is required from a department or school offering two or more majors in order for a student to have a second major within the same department or school. Students completing two majors must satisfy the writing requirement of their first major.

Students may use required related courses outside of their major department to satisfy the requirements of a second major. Students may use courses in second major and minors to satisfy the general education requirements. A student's declared curriculum, including major(s), minor(s), and concentration(s), is indicated on the official transcript.

Changing Majors and Programs

Students may change their major if they are maintaining at least a 2.0 cumulative grade point average and a 2.00 average in coursework in the discipline they wish to enter. If these conditions are not met, students seeking to change

their program should consult with the Dean of Academic Planning & Advising. *Special application procedures must be followed by students who wish to enter majors in the School of Business (e.g., Accounting, Economics, and Business Administration) and in the School of Education.* Forms for requesting changes of major or program may be obtained from the Office of the Dean of Academic Planning & Advising, Erwin 106.

Internships

The internship program provides selected students with vocational experiences designed to complement their academic studies and introduces them to professional activities related to their baccalaureate degree programs.

Several departments offer internship experiences related to their majors. The internships take place in field settings within participating firms or agencies and are supervised by faculty from the sponsoring academic departments. Interns are required to fulfill a set of objectives related to their majors, mutually agreed upon by the student, the faculty director, and the agency. The length of the internship experience and the credit assigned to it vary. Arrangements for internships are made by the student in cooperation with the student's department chair, or a faculty member designated by the department, and with the Coordinator of the College Internship Program, Erwin 116. Students enrolled in internships must provide their own transportation.

Enrollment in internships is generally limited to those students who have earned at least a 2.75 cumulative grade point average and a 3.00 in prerequisite courses. An exemption from this requirement may be granted if the department chair and/or internship coordinator approve. Students may apply no more than 15 credits of internship credit toward the baccalaureate degree. The application of credit in internships toward the requirements for the major is governed by the departments, except that no department may accept more than six internship credits to be included in the credits required in the major.

Political and Legal Affairs Internships

Geneseo participates in several internship programs that encourage students in all majors to work with agencies related to local, state, or federal government. These internships provide a broad background for further academic training or for public service employment. Placement through the State Legislative, Washington Semester, or Washington Center programs are made following a local application process, grade evaluation, interview, and contract procedure according to College guidelines. Further information about the nature and requirements of these programs is available from the chair of the Political Science Department, or from the College Internship Coordinator in Erwin 166.

Student Teaching Internships

Each professional program that requires a period of student teaching has certain course prerequisites that must be met prior to this experience. Students should become familiar with the requirements and meet them in the proper sequence. Students who are in certification programs in the School of Education should see the section on "Student Teaching" in the School of Education section of this Bulletin.

Studying at Other Colleges

Geneseo students who take courses at other colleges or universities and expect to transfer those credits to Geneseo must request approval for the courses by completing a course approval form prior to taking the courses. (The form may be obtained from the Office of the Dean of Academic Planning & Advising, Erwin 106 or on-line at dean.geneseo.edu) Courses must be credit-bearing and must be reported to the Geneseo Office of the Registrar on an official transcript from an accredited college. Grades and quality points earned elsewhere do not transfer.

Students who plan to leave Geneseo temporarily on special programs which involve fees, registration, and credit at Geneseo (e.g., study abroad under State University of New York sponsorship) do not withdraw or take a formal leave of absence. These students should consult with staff in the Study Abroad Office, Erwin 217, to assure proper academic planning, classification, and credit.

All students who plan to attend another college or university as visiting students, or who plan to study abroad under sponsorship of institutions other than the State University, or who plan to enroll in a program cooperatively sponsored by the College and another institution (e.g., the 3-2 engineering program) should consult with staff in the Office of the Dean of Academic Planning & Advising. These students must obtain, complete, and return the form for requesting a leave of absence and the form for approval of courses taken at other institutions.

Study Abroad

Research shows that the positive relationship between international knowledge and immersion in a foreign culture has important implications for higher education and that study abroad experiences help to produce better informed citizens. SUNY Geneseo currently administers programs in 37 countries. Geneseo students may also study overseas through any SUNY institution. SUNY students can participate in a variety of programs based in over 65 countries in every continent of the world. The Study Abroad Office in Erwin 217 assists students who are interested in short-term, semester or year-long study abroad programs. In addition, interested students are encouraged to consult with their academic advisors and with the Office of Financial Aid. (For further information see studyabroad.geneseo.edu.)

Students must be in Good Academic Standing in the semester prior to the study abroad. Credits earned while on study abroad will be treated as transfer credits and will not be included in the Geneseo GPA. A grade of C- or above must have been earned for each course accepted for transfer credit. Geneseo will not accept transfer credit for courses graded on a Pass/Fail or Satisfactory/Unsatisfactory basis. Students are not eligible to register for Directed Study credits at Geneseo while on study abroad. SUNY regulations recommend one credit to be awarded per week of study abroad. Students intending to use specific courses taken abroad to fulfill Geneseo requirements must consult and receive prior approval for the courses from their major department and the Office of the Dean of Curriculum and Academic Services. Up to three credits per semester of courses which do not align significantly in substance and level with the course that comprise the formal curriculum at Geneseo may be transferred with prior approval. The deadline for Prue-approval of courses is May 1 for Fall study abroad and December 1 for Spring study abroad.

Academic Standards, Dismissal, and Probation

Academic Standards

All students are expected to maintain satisfactory levels of academic achievement (at least a 2.00 cumulative grade point average and appropriate levels of credits completed satisfactorily in each semester) throughout their tenure at Geneseo and to make satisfactory progress toward their degrees. Note that some departments and programs require higher grade point averages for admission to, and/or progress in, the major. The Office of the Dean of Academic Planning & Advising monitors students' progress at the end of each fall and spring semester.

The College recognizes that some students will need assistance in making the adjustment to the demands of college work. The College's academic standards regulations provide short-term, provisional requirements that are intended to help these students make satisfactory progress toward their degree.

Changes or revisions in Academic Standards are approved by the College Senate and distributed by the Office of the Academic Planning & Advising. Academic Standards and other academic policies for students in the Access Opportunity Program are available from the Director of AOP.

Good Standing

Good standing status for a semester is defined as: (1) the successful completion of a minimum of 11 credits of course work (8 credits for students in their first semester at Geneseo), and (2) a minimum cumulative grade point average of 2.00.

Academic Probation

Full time students are reviewed for academic probation at the end of each fall and spring semester. Students will be placed on probation if they fail to complete the minimum number of credits required for good standing in two successive semesters or if their cumulative GPA falls below 2.00. These students will receive probation letters from the Dean of Academic Planning & Advising. The letter will also recommend that the student take such actions as seeking academic advisement or counseling and reviewing work schedules. Students placed on academic probation will be required to receive academic advisement before registration. Students on probation must meet the criteria for good standing in their next semester or they will be dismissed. Unless otherwise stipulated by the Dean of Academic Planning & Advising, students on probation are not precluded from participation in college-sponsored co-curricular activities.

Academic Dismissal

Students are reviewed for academic dismissal at the end of each fall and spring semester. Students on probation will be dismissed if they fail to meet the criteria for good standing. Dismissed students are no longer eligible to continue at the College and will be denied further registration. Notification of dismissal is sent by mail and email to the student's address on record with the College, at the end of the semester in question. Each student is responsible for informing the College through the Office of Records and Scheduling of updates and changes to his/her address.

Notes:

- Students placed on probation may be restricted from selected academic opportunities requiring a cumulative GPA above 2.00, such as Internships, Overseas Study, and honors opportunities. Please consult the Office of the Dean of Academic Planning & Advising.
- The College defines a "full-time" load as twelve credits registered and paid for. The minimum number of credits required to meet the good standing status is not the same as a "full-time" load.
- Students receiving financial aid should consult the Financial Aid Office, Erwin 104, concerning eligibility to receive or retain financial aid.

Academic Resignation

Students who are subject to academic dismissal and are so notified by the Office of the Academic Planning & Advising may elect to resign from the College in advance of an appeal. Students choosing this option will waive their right to appeal their academic standing and/or any course grade not already under appeal by the end of the semester in which they become subject to academic dismissal. Upon resignation, the College will remove all indication of academic dismissal or academic dismissal pending from its transcript records. Any resigned student who later seeks readmission to Geneseo will be subject to all regulations applied to dismissed students who seek readmission (see "Readmission after Dismissal or Resignation" below). Complete information on the process for dismissal, appeal, and resignation is available from the Office of the Dean of Academic Planning & Advising, Erwin 106.

Students who choose neither to resign nor appeal their dismissals, students whose appeals are denied, and students who fail to meet specified conditions for reinstatement following appeals that are granted are formally dismissed from the College. Such students should meet with staff in the Office of the Dean of Academic Planning & Advising and must complete a specified exit procedure; failure to do so could result in their being refused readmission and denied copies of transcripts. All questions concerning exit procedures may be addressed to the Student and Campus Life Office, Erwin 221.

Appeals of Dismissals

Students wishing to appeal their dismissal at the end of the academic semester must submit a written statement to the Dean of Academic Planning & Advising. The letter should detail the specific reasons and/or circumstances that warrant the appeal. The appeal letter must be postmarked no later than 10 calendar days after the date on the dismissal letter. The Academic Standards Committee reviews the written appeal and the entire record of the student. The Academic Standards Committee has the authority to uphold the dismissal, repeal the dismissal with conditions, or repeal the dismissal. Conditions of reinstatement set by an Academic Standards Committee may limit the number of appeals, set target grade point averages, or place other conditions on a student that otherwise supersede general guidelines for academic standards.

Degree Time Limitation

Students enrolled in a baccalaureate program at the College who fail to maintain continuous enrollment in at least one course each semester are administratively withdrawn from the College unless they have been granted a Leave of Absence in advance. Such students must be readmitted to the college before they will be permitted to resume their studies.

If the standards of admission in effect at the time of application for readmission are met, a student may be admitted to a degree program current at the time of readmission. The Dean of Academic Planning & Advising, in consultation with appropriate department chairs, will determine which courses completed prior to withdrawal will be applied to degree programs elected following readmission.

Readmission after Dismissal or Resignation

Students who have been academically dismissed or who resign may not apply for readmission until at least two criteria have been met. First, at least one year must have elapsed since the time of academic dismissal. Second, students are expected to complete successfully a minimum of one full-time semester at another accredited college, or a comparable experience (as determined by the Dean of Academic Planning & Advising). Students are required to submit an application for readmission, transcripts from any colleges attended, and, in addition, should provide a brief written statement detailing the reasons for returning to Geneseo. Readmission to the College *does not* automatically readmit students to majors or programs which have separate admission standards (the School of Business, the School of Education).

Using the procedures described above, an Academic Standards Committee reviews the records of dismissed students and those who resigned in previous semesters and wish to be readmitted to the College. The Committee has the authority to recommend or deny readmission and to specify conditions for readmitted students.

Readmitted students should be aware that their previous Geneseo academic record remains as a part of their Geneseo cumulative average and is considered in academic reviews conducted in subsequent semesters. They should also be aware that the Geneseo cumulative average is not altered by grades earned at other institutions. Readmitted students return under the catalog of the year of their readmission. For further information, see the section on "Readmission."

Semester Honors

Dean's List

Students will be named to the Dean's List for a fall or spring semester if they meet all of the following criteria during the given semester:

- they have carried 12 or more credits in courses earning quality points;
- they have received no final grades of D, E, U, or F;
- they have no Incomplete grades in any course; and
- they have attained a semester's grade point average of 3.50 or above.

Dean's Lists are not calculated for Intersession or Summer Sessions. Students who receive this scholastic honor are notified by letter by the Dean of Academic Planning & Advising.

President's List

Students who meet all of the qualifications for Dean's List but whose semester grade point average is 4.00 will be named to the President's List as well as the Dean's List. These students will be commended in a letter from the President of the College.

Degree Honors

Criteria for degree honors (*summa cum laude*, *magna cum laude*, and *cum laude*) are discussed under the "Graduation" section of this Bulletin.

Credit Toward a Degree

Unit of Credit

Course credit is the unit of contact hour of instruction.. One credit hour requires 50 minutes of class work and two hours of outside preparation, or the equivalent in independent study, each week during a semester. The distribution of that time between class activities (such as lecture, recitation, laboratory, field trip) and outside preparation varies from course to course. Generally, a three-credit course requires 150 minutes of classroom activity and six hours of out-of-class preparation per week. Thus, a normal 15-credit load requires approximately 45 hours per week of the typical student's time.

Classification of Students

Students are classified as follows:

First Years	Fewer than 30 cumulative credits
Sophomore	At least 30 but fewer than 60 cumulative credits
Junior	At least 60 but fewer than 90 cumulative credits
Senior	90 or more cumulative credits

Academic Load

The recommended academic load for students in their first semester is a maximum of four courses, not including labs, studio and other 1- and 2- credit courses. Students will be allowed to register for a maximum of 17 credits before the first day of classes of the semester. This limit is raised to 19 credits during the first week of classes (or the Drop/Add period). Students with overall GPA of 3.00 or higher and a record of prior semesters with at least 15 earned credits may request special permission from the Dean of Academic Planning & Advising to enroll in more than 19 credits for the semester.

Full-Time Load

A full-time load is defined as a minimum of 12 credits for which the student has registered and paid-in-full.

Credit Restrictions

Of the 120 total credits required to graduate, students may apply no more than 20 credits combined from Directed Studies, undergraduate teaching assistantships, EMT/EMS training, ROTC, and H&PE. The limits for each individual program are: Directed Studies 12 credits, teaching assistantships 6 credits, EMT/EMS 6 credits, ROTC 8 credits, and H&PE 10 credits of which no more than 4 credits can be from 100-level activity courses. Teaching assistantships, H&PE activity courses, and some internships and EMT/EMS courses have the S/U grading option only and, therefore, will not be counted toward students' cumulative GPA.

Grades

Final grades are recorded as A, A- (excellent); B+, B, B- (very good); C+, C (satisfactory); C- (minimal competence); D (marginal); E (failure); F (failure in courses elected under the pass-fail option which are not completed successfully); P (pass in courses elected under the pass-fail option which are completed successfully; P is equivalent to a grade of C- or higher); S (satisfactory is equivalent to a grade of C- or higher); U (unsatisfactory); and W (withdrawn).

Students receive W grades in the following situations: disciplinary action resulting in dismissal, involuntary withdrawal, administrative release, and voluntary withdrawal prior to the published deadline. Voluntary withdrawals (e.g., a cessation of attendance and coursework) after the published deadline result in E grades, unless a request for special consideration is approved by the Dean of Students and the Dean of Academic Planning & Advising.

Grade Point Average

The grade point average defines the level of scholarship achieved by a student. It is used in determining scholastic standing and in establishing eligibility for honors.

The average is computed by dividing the "quality points" earned by "credits carried." "Carried credits" include all those for courses in which grades of A, A-, B+, B, B-, C+, C, C-, D, or E are received. Quality points are awarded as follows for each of these assigned final grades:

Final Grade Quality Points per Credit

A	4.0
A-	3.7
B+	3.3
B	3.0
B-	2.7
C+	2.3
C	2.0
C-	1.7
D	1.0
E	0.0

No other grades received at the College (e.g., P or S) earn quality points. Grades in courses taken at other schools and accepted in transfer do not earn quality points at Geneseo.

At the end of each semester two grade point averages are computed: one for the "Current Semester" (which reflects the results only of courses carried in the semester just completed) and the other for the "Cumulative Record" (which reflects the results of all courses carried to date at the College). Grade point averages calculated for students with "Incomplete" designations on their records are not official; the official computation is done when final grades have replaced any "I" and have been recorded.

Determination of a *sample* grade point average for a semester follows:

Dept. and No.	Course	Credits	Grade	Quality Points
COMN 102	Princ. of Public Speaking	3	A-	11.10
HUMN 220	Western Humanities I	4	B+	13.20
GSCI 160	N/Physical Geology	3	C+	6.90
GSCI 161	N/Physical Geology Lab	1	A	4.00
PSYC 100	Introductory Psychology	3	D	3.00
Total		14		38.20
				GPA = 2.72

The grade point average in the example above equals 38.20 (quality points) divided by 14 (credits carried) = 2.72, which indicates a level of scholarship above a C (2.00) for the semester. (*Note: Grade point averages are truncated to two decimal places, with no rounding up from a third decimal place.*)

All students are expected to maintain cumulative grade point averages of 2.00 (C) or better. These averages are determined by dividing total quality points earned by total graded credits carried to date. *Note that individual majors/programs may require higher than a 2.00 for admission to, or continuance in, the major.*

Pass-Fail Option

During the course of their undergraduate programs, students may elect a pass-fail option for no more than a total of four courses, with a maximum of one course of five or fewer credits per semester. Only sophomores, juniors, and seniors with cumulative grade point averages of 2.00 or better qualify for this option.

Courses taken Pass/Fail cannot be used to meet major, minor, concentration, or General Education requirements.

Students may choose the pass-fail option from the first day of the semester until the posted deadline listed on the Academic Calendar (approximately three weeks into the semester). Students must complete and submit the appropriate form to the Dean of Academic Planning & Advising Erwin 106. Students who elect the pass-fail option must do all of the regular work of the course.

To receive a grade of P, a minimum grade of C- must be earned in the course. D and E grades are translated as F's. The final grades of P (pass) and F (fail) do not earn quality points, and thus are not computed in determining grade point averages. Students should note that they must carry 12 or more credits in courses earning quality points in order to be eligible for semester honors.

Repeat Course Policy

General Policies

Although there are restrictions on repeating certain courses, generally, students may choose to repeat courses in which they have earned grades of D, E, F, U, or W. Courses in which students earned grades of P, S, C- or higher, may not be repeated. The repeat course option is subject to course availability. Credits for a repeated D course will be counted only once toward graduation. Students who wish to repeat a course assume responsibility for knowing what, if any, repeat restrictions apply to any particular course. Restrictions are noted in individual course descriptions in the Undergraduate Bulletin. Invalid or improper enrollments may result in loss of registration, grades, and/or credits.

If a student violates the Repeat Course Policies by enrolling in a course that they, he or she is ineligible to repeat, the student may be administratively withdrawn from the course. Students may not use the Pass/Fail option for repeating courses in which grades of D or E were earned.

Financial Aid Notice: Students receiving aid should consult the Financial Aid Office before repeating a course. Repeated courses may have an impact upon financial aid eligibility.

Minimum Competence

Students must repeat courses in their majors in which they received a grade of D or E if those courses are designated as "minimum competence requirements" by the major department. Minimum competence in those courses is demonstrated by earning at least a C- grade. Students may not enroll in any subsequent courses having any minimum competence

requirements as prerequisites unless the minimum grade of C- has been earned in the prerequisites or unless special permission is granted by the chair of the department.

Students who receive special permission to take a subsequent course and who earn a final grade of C or better in that course will not be required to repeat the minimum competence prerequisite course(s) in which a grade of D was earned. Consult the individual department program descriptions in the Undergraduate Bulletin for the list of courses identified as requiring "minimum competence" in each major.

Note: that a C- grade may not be sufficient to meet the College standards of 2.0, or the higher grade point averages required by the School of Business and the School of Education.

Grade Calculations in Repeated Courses

Repeated courses will be reported as follows: a) the original and the repeat grade(s) appear on the transcript; b) only the higher (or highest) grade is included in the calculation of the cumulative grade point average. When a student earns the same grade in a repeated course a) the grade is calculated once in the cumulative grade point average and b) the credits and quality points are applied to the most recent term or semester in which the grade was earned.

SP Grades

SP (Satisfactory Progress) is used to report the status of students enrolled in some "Directed Study" projects and research courses whose work extends beyond one semester. When the work is completed, the SP is converted to the regular final grade assigned by the instructor. Credits for such courses are not computed in determining cumulative grade point averages until the final letter grade has been recorded.

Incompletes

A temporary grade of "I" (incomplete) may be awarded when a student has been unable to complete a course due to circumstances beyond his, her, or their control. Instructors determine whether an "I" grade is appropriate and work out a plan for completion of required work with the student. A grade of "I" must be converted to a letter grade within six weeks of the start of the semester following the semester in which the "I" was awarded. If the "I" is not converted to a letter grade within six weeks of the following semester, it will be converted to an "E." An extension of the six-week period is permissible, if the supervising faculty member agrees. The faculty member must contact the Registrar's Office to request the extension and indicate the new deadline for completion.

Students with "I" grades are not eligible for the Dean's List during the semester in which the "I" was awarded. Students with financial aid awards should contact the Financial Aid Office prior to requesting any extension of the "I" grade.

Grade Appeal

The College recognizes that it is the instructor's prerogative to determine a grade. Responsibility for resolving grading disputes is shared among the instructor, the student, the department chair and the Dean of Academic Planning & Advising.

If a student believes that they, she, or he has been graded unfairly, the first step is to schedule a meeting with the instructor to discuss concerns. If, after talking with the instructor, the student continues to believe they, she, or he has been graded unfairly, the student may file a written appeal with the department or program chair. The appeal must be lodged no later than four weeks into the semester following that in which the disputed grade was earned. The only

grounds for appealing an instructor's grade is a student's belief that a grade has been assigned on a capricious or arbitrary basis. That means:

- The assignment of a grade to a particular student on some basis other than her/his performance in the course;
- The assignment of a grade based on more exacting or demanding standards than were applied to other students in the course;
- The assignment of a grade by a substantial departure from the instructor's previously announced standards (for example, using criteria not specified in the syllabus).

After reading the written appeal, the department or program chair will consult with both the instructor and the student in reaching a recommendation on the appeal.

If the student is not satisfied with the departmental recommendation, she, he, or they may submit a written appeal to the Dean of Academic Planning & Advising. The Dean may convene a committee of faculty to review the case and make a recommendation to the Dean.

Recommendations of a department chairperson, the Dean of Academic Planning & Advising and faculty committees are advisory only and are not binding on the instructor.

Grade Change

All changes of grades must be made within twelve weeks of the start of the semester following the semester in which the original grade was awarded. Changes are limited to error or miscalculation; all other changes must follow the grade appeal process and be initiated by the student prior to the end of the fourth week of the semester following the term in which the grade was received.

Grade Reports

Students are encouraged to consult their instructors for information about their academic progress. At the midpoint of the fall and spring semesters, instructors report the academic achievement of first year students and first-semester transfers to the Registrar's Office. These students receive a "Mid-Semester Grade Report" (on the web) and are advised to review their status with their academic advisors. This grade information is also distributed to advisors. The Dean of Academic Planning & Advising sends a warning letter, expressing concern and offering suggestions, to any first year student or first-semester transfer student earning a grade of less than "C" in any course.

Final grade reports are available on Knight Web to students who do not have financial obligation to the College approximately one week after the fall, spring, intersession, or summer session.

Use of Credit Toward Multiple Degrees

Concurrent Degree Policy

Academic credit earned at the College, or at any other institution of higher education, in a program that has resulted in the awarding of a baccalaureate or advanced degree is not counted toward the awarding of another degree at Geneseo. (This regulation does not apply to any 3-2 or other cooperative programs agreed upon by Geneseo and cooperating institutions.)

Subsequent Degree Policy

When a student concurrently meets the requirements of more than one option or major within a single broad field of study, a single degree should be awarded rather than two separate degrees. (This does not preclude transfer arrangements under which coursework is completed at another institution toward a professional degree and transferred back for completion of a degree at the initial campus.) Programs which lead to two different academic objectives may result in the awarding of two degrees, provided the requirements of each program have been met; and at least 30 credits of coursework beyond the single degree requirement has been completed. No more than 12 credits can be allowed to overlap between the two programs. At the graduate level, at least 30 credits of additional study must be undertaken for the attainment of two degrees at the same level. Application for the second degree is through the readmission process (described in the section titled - Readmission in the Bulletin). Readmission to pursue a second degree is not guaranteed. Applications will be reviewed by the Dean of Academic Planning & Advising in consultation with the relevant academic departments or programs.

Transfer Credit

Transfer candidates are encouraged to meet with an admissions advisor to discuss the applicability of their transfer credits to the specific degree programs in which they plan to enroll. An unofficial transfer evaluation, including a list of equivalent courses at Geneseo for which credit has been granted, is provided upon request. Course credits transfer to Geneseo, although grades and quality points earned elsewhere do not transfer. To receive appropriate credit, an applicant must ensure that official transcripts from all previous institutions are on file in the Admissions Office. Final authority on transfer credit acceptance lies with the Office of Academic Planning and Advising.

Courses completed at regionally accredited institutions of higher education which align significantly in substance and level with the courses that comprise the formal curriculum at Geneseo, and which are recorded on official transcripts are awarded credit under the following conditions:

1. Students may transfer a maximum of 45 credits completed while concurrently enrolled in high school. Of these, a maximum of 30 credits may be AP, IB, and CLEP credits. Credit will not be awarded for courses that overlap with AP, IB and CLEP credits (see section entitled, "Credit for Advanced Placement, International Baccalaureate, Proficiency Examinations").
2. Students may transfer a maximum of 60 credits from a two-year, degree-granting institution. (including no more than a total of 30 AP, IB, and CLEP credits).
3. Students may transfer a maximum of 90 credits from a four-year, degree-granting institution (including no more than a total of 30 AP, IB, and CLEP credits and no more than 60 credits from two-year institutions).
4. Students may not repeat courses that they have successfully completed at another degree-granting institution.
5. Graduates of community colleges who earn A.A. or A.S. degrees in the liberal arts may expect full credit, up to a maximum of 60 credits, upon enrolling at Geneseo.
6. Coursework from proprietary institutions will be reviewed on a course-by-course basis.
7. A grade of C- or above must have been earned for each course accepted for transfer credit. Geneseo will not accept transfer credit for courses graded on a Pass/Fail or Satisfactory/ Unsatisfactory basis. For information on transferring credit for single courses taken during summer or intersession see the section on "Studying at Other Colleges" in this bulletin.
8. For students transferring credits from another SUNY campus:
 - Local general education requirements beyond the SUNY-GER shall not require a transfer student to exceed the number of credits to graduation required of native students in the same program.
 - A passing grade counts as successful completion for the SUNY-GER area at any campus. A SUNY-GER course completed at another SUNY campus with a D grade will be indicated with a "TD" grade on the Geneseo transcript; while the student will not receive credits for the course, it will be used toward fulfillment of the general education category

Credit for Advanced Placement, International Baccalaureate, Proficiency Examinations

A maximum of 30 credits may be awarded for achievement on college-level examinations such as the Advanced Placement Examination (AP) and the International Baccalaureate (IB). To receive credit for AP or IB, students must have official reports forwarded to the Admissions Office; for AP examinations, students must earn a score of at least 3 and for IB, a score of at least 4. Individual departments determine course equivalents for that credit. (For further information on AP and IB credit, see geneseo.edu/dean_office/transfer_college_credit. Students are eligible for credit for the CLEP and other subject examinations if examinations are taken before matriculation at Geneseo. Credit is awarded based on achievement of specified minimum scores and according to established department evaluation. Geneseo does not accept transfer credit for internal placement examinations given at other institutions. (The MLA exam is administered by the Languages and Literatures Department and is an exception to this rule. For further information see the section on "Placement in Foreign Languages Study" or consult the Foreign Language Department.)

Non-Matriculated Status

Undergraduate non-matriculated status permits students who are not pursuing a degree program to register for a limited number of credit hours (not more than a total of 15 credits). To maintain satisfactory academic standing in the College, non-matriculated students must earn at least a 2.00 grade point average in every semester in which they are enrolled and complete 50% or more of the credits for which they are registered. Applications for non-matriculated status are available from the Office of the Registrar or visit geneseo.edu/Registrar. Non-matriculated students may take no more than two courses per semester.

Readmission

Candidates who previously enrolled at the College as matriculated students and who wish to resume their studies must submit an application for readmission to the Director of Admissions stating the term for which they wish to be readmitted, the circumstances that caused their separation, and information concerning any college courses completed in the interim, and the degree program they plan to pursue. General Education and degree requirements are effective from the catalog of your readmission date. Applications for Readmission are available from the Office of the Dean or visit dean.geneseo.edu

Term Application Due

Fall June 1

Spring December 1

Former students who wish to resume their studies in restricted programs such as those offered by the School of Business or the School of Education should consult with the Dean of Academic Planning and Advising to determine eligibility for matriculation. Normally, students who have been separated from the College for academic or social reasons will not be considered for readmission until one full year has elapsed. Additionally, those who have been separated for academic reasons must successfully complete a minimum of one full-time semester at another accredited college before requesting readmission to Geneseo. No applicant is guaranteed readmission.

A College Academic Standards Committee reviews the records of all applicants for readmission who have been separated from the College for academic reasons. For further information, see the section on "Readmission after Dismissal or Resignation."

Classroom Policies

Attendance

Students are expected to attend all classes. Furthermore, the College recognizes that students hold primary and ultimate responsibility for their academic performance and accomplishment. Students are expected to recognize the importance of regular class attendance and to complete satisfactorily all requirements of all courses in which they are registered.

Student attendance in classes on religious holidays is governed by New York State Education Law, and students who do not attend classes on certain days because of religious beliefs should refer to the policy on page 44 of this bulletin.

Syllabus

During the first week of each semester members of the teaching faculty are required to prepare for each course an outline or syllabus as either a paper copy or an electronic version. Students who request a paper copy of the syllabus will be provided with one by the instructor. The following information, subject to reasonable changes as circumstances require, must be provided in the syllabus:

1. an outline of the sequence of the course and the topics to be covered in the course;
2. a reading list, texts, and/or materials required;
3. grading procedures;
4. the intended learning outcomes of the course;
5. test dates including date and time of the final examination;
6. schedules for assignments, experiments, and projects;
7. descriptions and due dates of papers the student will write for the course.

Absence from Class Due to Illness or Emergency

Students should notify the Dean of Students Office as soon as possible (College Union, 245-5706) if, by virtue of illness or personal emergency:

- they will be delayed from returning to school at the start of a semester;
- they will be absent from class for an extended period of time during a semester;
- they will be unable to take final exams and/or otherwise prevented from completing the semester.

The Dean of Students attempts to facilitate communication between students and their faculty when students must be absent from classes for extended periods. Notices sent to faculty provide reasons for absences given by the students, parents, or perhaps a friend. The Dean does not routinely verify the information provided in these notices, and faculty may require later documentation of the medical problem, emergency, or unusual situation which prevented the student's attendance.

In notifying faculty of student absences, the Dean employs the following procedures:

1. The Dean of Students after being informed of the problem will send notice of absence to instructors when a student has been absent for at least one week and has not been able to contact faculty due to reasons beyond the student's control.
2. The Dean of Students will notify faculty of emergencies (usually medical) which prevent a student from attending classes at the beginning of a semester or participating in final examinations at the end of a semester. Students in the latter situation may receive Incomplete grades at the discretion of the instructor.

3. Faculty should state their positions on student absences from class in the course outlines provided to students at the beginning of each semester. As noted above, faculty may wish to receive verification from the student of the reasons for a student's absence. The faculty member is responsible for deciding what absences are legitimate.
4. For all illness or emergencies, whether for brief or extended periods of time, students should contact faculty directly, particularly if they will be likely to miss exams or major assignments. At their discretion faculty may request documentation of excuses for missing assignments and may use the documentation (or lack thereof) in determining whether to make accommodations on students' behalf. Such documentation may consist of a statement from a doctor or other health care professional, a report from the College's Health and Counseling Center, an obituary notice, etc.

Policies Governing Student Attendance in Classes on Religious Holidays

New York State Education Law Section 224-a reads as follows:

Students unable because of religious beliefs to attend classes on certain days.

1. No person shall be expelled from, or be refused admission as a student to, an institution of higher education for the reason that he or she is unable, because of his or her religious belief, to attend classes or to participate in any examination, study, or work requirements on a particular day or days.
2. Any student in an institution of higher education who is unable, because of his or her religious beliefs, to attend classes on a particular day or days shall, because of such absence on the particular day or days, be excused from any examination or any study or work requirements.
3. It shall be the responsibility of the faculty and of the administrative officials of each institution of higher education to make available to each student who is absent from school, because of his or her religious beliefs, an equivalent opportunity to make up any examination, study or work requirements which he or she may have missed because of such absence on any particular day or days. No fees of any kind shall be charged by the institution for making available to the said student such equivalent opportunity.
4. If classes, examinations, study or work requirements are held on Friday after four o'clock post meridian or on Saturday, similar or makeup classes, examinations, study, or work requirements shall be made available on other days, where it is possible and practicable to do so. No special fees shall be charged to the student for these classes, examinations, study, or work requirements held on other days.
5. In effectuating the provisions of this section, it shall be the duty of the faculty and of the administrative officials of each institution of higher education to exercise the fullest measure of good faith. No adverse or prejudicial effects shall result to any student because of his or her availing himself or herself of the provisions of this section.
6. Any student, who is aggrieved by the alleged failure of any faculty or administrative officials to comply in good faith with the provisions of this section, shall be entitled to maintain an action or proceeding in the supreme court of the county in which such institution of higher education is located for the enforcement of his or her rights under this section.
7. A copy of this section shall be published by each institution of higher education in the catalog of such institution containing the listing of available courses.
8. As used in this section, the term "institution of higher education" shall mean schools under the control of the board of trustees of the State University of New York or of the board of higher education of the city of New York or any community college.

Cancellation of Classes for Extraordinary Weather Conditions

It is College policy to continue as much as possible normal hours of operation and maintain a regular work and class schedule for faculty, staff members and students during periods of severe weather. The following media sources are official notification sources during severe weather conditions:

1. **Radio Stations:** (Avon) WYSL, 1040 AM; (Buffalo) WGR, 97FM; WEDG, 103.3 FM; WHTT, 104FM; (Dansville) WDNV, 1400 AM; (Geneseo Campus) WGSU, 89.3 FM; (Rochester) WHAM, 1180 AM; WPXY 97.9 FM; WVOR 100.5 FM; (Warsaw) WCJW 1140 AM
2. **Television Station:** Rochester: WHAM, Channel 13
3. The College has also established a hotline that will provide a recorded message of class cancellations and essential services staffing at 245-6666.
4. Messages regarding class cancellations will also be placed on the all-staff and all-student listserv e-mail accounts.

It is understood that all College faculty, staff and students will be afforded the opportunity to make their own decisions about reporting to work or classes with due consideration for travel safety.

Graduation

Pre-Graduation Check

Students are required to complete Graduation checks in their junior and senior years. The purpose of these audits is to ensure that students understand precisely what they must do to fulfill all remaining graduation requirements. Each student is required to meet with his or her advisor to review online degree audits through Degree Works.

Application for Graduation

Geneseo holds one commencement ceremony in May for undergraduates who complete their degrees in the fall, spring, intersession, or summer term.

Candidates for degrees must apply for graduation by completing the online Graduation Application form by deadlines posted on the Academic Calendar. Students qualify for participation in May commencement if they have completed all their degree requirements (with the exception of student teaching) in December of the previous calendar year, or will complete them in May or August of the current calendar year. Failure to complete a Graduation Application form by posted deadlines may delay their graduation.

Candidates for teaching certification must complete the NYSED online application and submit that application information, along with a \$10.00 processing fee, to the Office of the Dean of Academic Planning and Advising, Erwin 106. It is recommended that this be completed by the middle of candidates' last semester. Information and instructions should be accessed from the "Advisement" link at dean.geneseo.edu

Diplomas are mailed approximately 90 days after completion of requirements.

Conferral of Degree

Upon the recommendation of the faculty of the College, the Board of Trustees of the State University confers baccalaureate degrees upon students who have fulfilled all graduation requirements. In addition, in order to be eligible for degree conferral, students must have satisfied all financial obligations to the College.

Degree Honors

Graduating students earn degree honor designations by meeting the following criteria:

1. Completion at the College of a minimum of 45 credits in courses in which quality points are earned;
2. Attainment of cumulative grade point averages as indicated below:

Degree Honor Designation	Grade Point Average Range
Summa Cum Laude	3.80-4.00
Magna Cum Laude	3.65-3.79
Cum Laude	3.50-3.64

Degree honor designations will appear on students' transcripts and diplomas.

Transcripts

A transcript reflects the results of all courses in which the student was registered at the College, notes transfer courses for which credit has been granted, and indicates, if applicable, the date of graduation and the degree conferred or the date of withdrawal, resignation, or dismissal.

Students may authorize the Office of the Registrar to send official transcripts of their permanent records to persons and organizations they designate. All such requests must be in writing and must be signed. Requests may be made in person, mailed or faxed (585) 245-5530 to the Office of the Registrar, Erwin 102, or be made on-line through KnightWeb (see Office of the Registrar link at go.geneseo.edu/registrar).

Transcript request require payment in advance of \$7.50 per official transcript sent off campus or presented to students. If the request is faxed, payment must be made through one of the following credit cards: Visa, Master Card, or Discover. Please include the account number and expiration date with the request. Requests for transcripts are honored only for students who have no outstanding financial obligations to the College and who are not delinquent in repayment of student loans.

Unofficial transcripts are issued to the student in person at the Office of the Registrar with a fee of \$3.00 per transcript. Students may also print unofficial transcripts from KnightWeb. (Fees stated are subject to change; please consult the Office of the Registrar, Erwin 102 [(585)245-5566] or go.geneseo.edu/registrar for current information).

Commencement

The commencement ceremony for degree candidates is held in May. The convocation activities include announcement of the conferral of degrees and presentation of various College awards. Students qualify for participation in May commencement if they have completed all their degree requirements (with the exception of student teaching) in December of the previous calendar year, or will complete them in May or August of the current calendar year. (see commencement.geneseo.edu for current information).

Summer Sessions

Summer sessions offer both undergraduate and graduate level courses across sessions of three to six weeks each. Detailed information about courses and summer session dates can be found on the following website: summer.geneseo.edu.

Undergraduate students who attend the College during the regular academic year need only to complete the registration procedure during the fall. Those who are enrolled at another institution of higher education may apply to attend summer sessions as non-matriculated. These students should secure permission from their home institutions to transfer credit. Non-matriculated students must submit a completed application for Non-Matriculated Status form with their registration; necessary forms are included in the Summer Sessions web site (summer.geneseo.edu).

Summer Session tuition and fees are not covered by regular fall and spring semester tuition and fee payments. Students enrolled in these sessions pay additional per-credit tuition and fees for their courses. Students on financial aid for fall and spring semesters should consult the Financial Aid Office regarding applicability of financial aid awards to Summer Sessions.

Students desiring either degree or non-degree graduate status must be admitted prior to registration for courses during summer sessions. Students desiring non-matriculated graduate status may be admitted up to and including the last day to register for a session as outlined in the Summer Sessions website. A non-matriculated student is limited to an overall maximum of six graduate credits. To register with non-matriculated status, graduate students must submit a completed Graduate Application for Non-Matriculated Status online form with their registration.

Course Numbering System

The following classifications are used in reference to courses:

Number Type

100-199 Introductory Undergraduate

200-299 Intermediate Undergraduate

300-499 Advanced Undergraduate

500-699 Graduate

(Note: Descriptions of graduate level courses are available online.)

The following is from the SUNY policy on program requirements (SUNY Provost Office, 9/16/1976):

Minimum Credit Requirement for Undergraduate Degree Programs

The minimum credit requirements apply to existing and proposed undergraduate degree programs offered by the State University of New York or under its academic supervision. The requirements are consistent with State Education Department requirements and regulations. The minimum total requirement for a bachelor's degree is 120 credits or the equivalent. Major exceptions, such as those for Time-Variable degrees, must be submitted for review to the Provost of the University. No baccalaureate degree program should require more than 126 credits without strong educational justification.

Programs leading to the Bachelor of Arts degree should require no more than 36 credits of specialization in a single discipline.

Programs leading to the Bachelor of Science and the Bachelor of Science in Education degree should require no more than 44 credits of specialization in a single discipline. To be awarded a baccalaureate degree, a student must successfully complete at least 45 credits in upper division courses. At least 24 credits of the courses taken within the student's major field should be at the upper division level.

Effective Fall 2018-2019 Catalog Year:

The above SUNY policy as applied to the Geneseo undergraduate curriculum:

- Upper division courses at Geneseo are numbered 200-499.
- The Bachelor of Arts degree should require no more than 36 credits in a single prefix.
- The Bachelor of Science degree should require no more than 44 credits in a single prefix.
- Students must complete at least 45 credits in upper division courses, with at least 24 at the 300-499 level.
- At least 24 of the credits of the courses taken to fulfill the Major and Related Requirement combined should be at the upper division level, with at least 18 credits at the 300-499 level.

Catalog Year

A student's catalog year is determined by the academic year of matriculation at Geneseo; the student is subject to all graduation requirements, including general education, and programmatic requirements found in the Undergraduate Bulletin for that catalog year. When there is a substantial change in the requirements for a major, minor, or concentration, a student may petition to change the catalog year for only that major, minor, or concentration.

Changes to catalog year for major, minor, or concentration require approval from the academic department and the Assistant Provost for Curriculum and Assessment.

Milne Library

Milne Library is named to honor William J. Milne, first principal (1871-1889), and John M. Milne, second principal (1889-1903), of the Geneseo Normal and Training School.

Milne Library is home to the award-winning IDS Project: an innovative model of library cooperation for effective resource sharing, promoting community engagement, staff development, best practices, and research & development.

Library Quick Facts:

- Milne's collection includes over 400,000 books, bound periodicals, musical scores, DVDs and other media, digital media equipment, and other information resources.
- Milne's extensive catalogs, databases, and online journals provide access to millions of books and articles held by Milne and other libraries around the world.
- Milne's special collections include the College Archives, the Genesee Valley Historical Collection, the Wadsworth Family Papers (1790-1950), and the Carl F. Schmidt Collection in Historical Architecture. Smaller compilations include the Martha Blow Wadsworth Photography Collection, the Walter Harding Collection, and an extensive collection of works by and about Aldous Huxley.
- Teacher Education Resource Center (TERC) has over 10,000 instructional materials; YA/JUV fiction and nonfiction books, curriculum guides, teaching handbooks, manipulatives, and textbooks to support the College's elementary, secondary, and special education programs.
- Information Delivery Services (IDS) provides access to books, articles and more from library collections across the state and throughout the world.
- Ten librarians and a full-time technology instructor partner with teaching faculty from all departments to teach information and digital literacy skills and provide consultation services to students and faculty.
- Milne is home to the Teaching and Learning Center, a resource for Geneseo faculty that focuses on supporting and promoting excellence in teaching.
- The Center for Academic Excellence (CAE) in Milne Library provides a central location for multiple student support services including writing assistance through the Writing Learning Center, tutoring services from Access Opportunity Programs, speech buddy services via the English for Speakers of Other Languages office, and research help through Milne's reference librarians.
- The building is handicap accessible and has an adaptive technology workstation on the main floor.
- Milne offers four fully equipped classrooms supporting over thirty courses per semester within the library.
- Milne has an extensive gallery and multiple display areas, and works closely with students and faculty to showcase art, research projects, and special collections.
- Milne provides support for a growing number of digital publishing projects including open textbooks, local history, and creative works by alumni, faculty, and staff.

English for Speakers of Other Languages (ESOL)

The English for Speakers of Other Languages (ESOL) Program at SUNY Geneseo is designed to assist international and domestic students, faculty and staff whose first language is not English. The program assists students in building on their language skills to fully succeed in their academic programs. Detailed information can be found at esol.geneseo.edu.

Teaching and Learning Center

Geneseo's Teaching and Learning Center located in Milne Library, is designed to reinforce the importance of teaching excellence as a fundamental responsibility of a public university. Through collaboration with faculty and administration, the Center supports a learning culture that values and rewards teaching, facilitates reflective dialogue about teaching and learning, encourages the development of teaching as a practice and a scholarly activity, invites innovation in curricular development, and encourages the creation of diverse learning environments in which all students can learn and excel. Information about programs can be found at tlc.geneseo.edu.

Computing & Information Technology

cit.geneseo.edu
twitter: @CITGeneseo
facebook: CIT@Geneseo

Computing & Information Technology supports student learning and development by providing technology infrastructure, facilities, services, and support.

The CIT HelpDesk, located in Milne Library, offers carry-in computer support for Geneseo students, faculty, and staff. Services offered at the HelpDesk include: network setup (including WiFi and VPN), adding printers, academic software installation, Geneseo account assistance (setup, passwords, quota), and general computer questions. Off-campus businesses are available in the Geneseo community that can provide hardware repair, OS installation, data recovery, virus removal and other computer repair services not provided by CIT.

Software.geneseo.edu provides free download to MS Office 365 (Word, Excel, Power Point, Access, and Publisher) and other applications the College has licensed for student use. Collaborative software tools such as Confluence and G Suite are also provided. All buildings, including residence halls, are wireless. Most Geneseo students report owning a wireless mobile device. The Geneseo Mobile app provides access to resources like class schedules, registration, billing, meal plan balancers, notifications, online directory, events, news, campus map, other Geneseo apps and more. Search for "Geneseo Mobile" on your device's app store. A virtual computing lab provides students access to Geneseo licensed software from their own computers from anywhere at anytime.

my.geneseo.edu is a personal, customizable, web-based information gateway to SUNY Geneseo resources such as email, student balances, KnightWeb, campus news and events and more with a single sign on. KnightWeb is a web interface to college administrative data such as students register for courses, make payments, review/accept financial aid, view grades, and more.

Presentation technologies are available in all Geneseo learning spaces. Faculty can use an online learning management system, Canvas, to post a course syllabus, documents, administer surveys, quizzes and tests, create discussion forums, wikis and blogs, receive and grade assignment, post grades and more. Canvas is used to supplement a traditional classroom course with online content or to deliver courses totally online. Canvas can be accessed from mobile devices with the free Canvas app.

Access Opportunity Programs (AOP)

Geneseo's Access Opportunity Programs (AOP) serve as one of the College's means for expanding its student body to include the rich ethnic, racial, age, economic and cultural diversity of our society. The programs extend higher education opportunities primarily to NY state residents who are under-represented in higher education.

The AOP department consists of the State's Educational Opportunity Program (EOP) and the locally-sponsored Transitional Opportunity Program (TOP). EOP is a statewide, special admissions program, that provides academic, financial, and tutorial assistance to students whose academic achievement may have been influenced by income factors. TOP is a college sponsored program designed to address Geneseo's interest in achieving a diverse campus community. The College seeks to enroll students from racial, ethnic, cultural, economic, and geographical backgrounds, as well as age groups that are traditionally under-represented in the college community. While the programs serve different groups of students, they are similar in that they both provide educational access and academic support services to participants. The Access Opportunity Program is proud to have a Geneseo chapter of Chi Alpha Epsilon, a national honor society that recognizes the academic achievement of students in opportunity programs. (For further information, see geneseo.edu/aop)

The AOP Application Process

1. All AOP applicants must complete the SUNY application or the common application in order to become a candidate for admission. In order to apply for admission through EOP, the applicant must indicate interest by answering yes to the EOP Question when completing the application. Applicants interested in TOP should contact the Office of Admission or the AOP Department.
2. Although AOP applicants may not satisfy all of the academic standards required for general admission, their potential for success at Geneseo will be established through an in-depth examination of their academic history. Supporting and/or verifying documentation will include: a counselor or teacher recommendation; standardized test scores (SAT, ACT, TOFEL and GED); a high school transcript. For, EOP, applicants must submit the SUNY EOPIF and proof of income.

Office of Disability Services

The Office of Disability Services is dedicated to providing advocacy, accommodations, and support services to students with disabilities who present current and proper documentation of disability to the office. Whether their disabilities are temporary or permanent, it is the mission of the office to provide these students equal and comprehensive access to college-wide programs, services, and campus facilities by offering academic support, advisement, and removal of architectural and attitudinal barriers.

The Office of Disability Services will proactively provide, at no cost to the student, reasonable accommodations designed to ensure that no qualified student with a disability is denied equal access to, participation in, or benefit of the programs and activities of SUNY Geneseo.

The Office of Disability Services encourages mainstream participation of students with disabilities alongside fellow students in academic, cultural, and recreational activities. It is the responsibility of individual students to choose whether to take advantage of any Disability Services offerings. Students anticipating use of support services must, by law, self-identify as such, and therefore should contact the Director of Disability Services as soon as possible to discuss accommodations; planning ahead will facilitate obtaining services in a timely manner. For further information see website at disability.geneseo.edu

Scheduling, Events and Conference Services

College facilities are available to faculty, staff, and registered student organizations for the sponsorship of various educational and social programs. All programs will be conducted under College guidelines and supervision and they may be open to the public.

The top two goals of Scheduling and Events are to 1) Use campus resources wisely and 2) Provide planning support and information for events on campus. To accomplish these goals effectively, all requests for space must be approved through the Scheduling, Events and Conference Services.

Scheduling and Events administers and enforces the Facility Use Policy. Scheduling and Events provides scheduling, physical arrangements, event planning, and coordinating facility use with all relevant College support departments including Campus Auxiliary Services, CIT, Facilities Services, University Police, Student Life and Intercollegiate Athletics and Recreation.

For more information on the Scheduling, Events and Conference Services, please visit our webpage at geneseo.edu/events_office, call 585/245-5500 or visit us in Erwin Hall, room 23.

Academic Organizations

Academic Honor Societies

Phi Beta Kappa

The Phi Beta Kappa Society installed a chapter at Geneseo in 2004. Phi Beta Kappa is the oldest and most prestigious honor society in the liberal arts, dating back to 1776. Geneseo's membership places it among a select group of 270 of the finest colleges and universities in the nation as guarantors of quality in the liberal arts. Membership is offered to outstanding seniors and a small number of exceptional juniors.

Policy of Nondiscrimination

Compliance with Federal and State Laws and Regulations

In the operation of its programs and activities, the recruitment and employment of faculty and staff members, and in the recruitment, admissions, retention, and treatment of students, the State University of New York College of Arts and Science at Geneseo does not discriminate on the basis of age, race, sex, color, religion, disability, national origin, gender expression, gender identity, sexual orientation, veteran or military service member status, marital status, domestic violence victim status, genetic predisposition or carrier status, or arrest and/or criminal conviction record unless based upon a bona fide occupational qualification or other exception.

The College's policy is in accordance with federal and state laws and regulations prohibiting discrimination and harassment. These laws include the Americans with Disabilities Act (ADA), Section 504 of the Rehabilitation Act of 1973, Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964 as Amended by the Equal Employment Opportunity Act of 1972, and the New York State Human Rights Law. These laws prohibit discrimination and harassment, including sexual harassment and sexual violence.

Inquiries regarding the application of Title IX and other laws, regulations and policies prohibiting discrimination may be directed to Nichole Siwicki, Assistant Director, Office of Diversity & Equity, 302 B Doty Hall, SUNY Geneseo, 1 College Circle, Room 302B, Geneseo, NY 14454; Tel. (585) 245-6492 or siwicki@geneseo.edu; Inquiries may also be directed to the United States Department of Education's Office for Civil Rights, 32 Old Slip 26th Floor, New York, NY 10005-2500; Tel. (646)428-3800; Email OCR.NewYork@ed.gov.

If you need assistance or require an accommodation, contact the Office of Diversity & Equity at (585) 245-6492 or siwicki@geneseo.edu

In the administration of services to students, no distinctions on illegally discriminatory bases are permitted with respect to the provision of financial assistance, counseling and tutoring programs, career development and placement services, and support for student organizations, programs, and activities that are sponsored by the College. On-campus housing is assigned on a non-discriminatory basis. Placement services, off-campus housing, and institutional facilities are made available only to persons, agencies, organizations, and firms which comply with existing equal opportunity laws, and the College so informs all clients, potential employers, lessors and sellers and recipients of significant assistance. Non-exempt agencies or organizations that do not agree to abide by the nondiscriminatory policies of the College, or that are found to have illegally discriminated, are denied College recognition, sponsorship, and use of College facilities and general or specific support.

Additionally, the College does not condone or tolerate sexual or racial harassment or harassment based on a legally protected class in employment or in its academic setting. Geneseo actively supports equal opportunity for all persons, and takes affirmative action to see that both the total student and employee populations at the College enjoy access to all programs and equal opportunities in all activities.

Affirmative Action

The College has developed and published, and periodically updates, an Affirmative Action Plan which specifies the procedures to be followed in implementing its stated policy of providing equal opportunity for all persons, and which sets hiring goals and timetables, where appropriate, to the objectives of affirmative action. Copies of the Plan are available for public review in the Affirmative Action Office.

In the administration of its affirmative action program, the College complies with following laws and implementing regulations adopted thereunder:

- Titles VI and VII of the Civil Rights Act of 1964, as amended;
- Title IX of the Education Amendments of 1972, as amended;
- Sections 503 and 504 of the Rehabilitation Act of 1973, as amended;
- Section 402 of the Vietnam Era Veterans Readjustment Assistance Act of 1974, as amended;
- Governor's Executive Order No. 28;
- NY Executive Law §290 et al.
- Age Discrimination - Executive Order No. 96
- Equal Opportunity - Executive Order No. 6
- Sexual Harassment - Executive Order No. 19
- Gender Identity - Executive Order No. 33

and any and all other federal and state laws and orders as are applicable. The internal discrimination complaint procedure is available in the Affirmative Action Office at Geneseo. You can also view the SUNY Discrimination Complaint Procedure at http://www.suny.edu/sunypp/documents.cfm?doc_id=451.

The Director of Affirmative Action is the designated coordinator for Geneseo's continuing compliance with relevant federal and state laws and regulations with respect to nondiscrimination. The Director of Affirmative Action may be consulted during regular business hours in Room 302B, Doty Hall, or by calling (585) 245-5020.

Disclaimer

Actions and/or events which are unpredictable and over which the College has no control may result in changes to information printed in this bulletin. Examples of such events include, but are not necessarily limited to, the following: (1) budget reductions and/or changed priorities mandated by State University of New York administrative officers and/or by officials of other State agencies, departments, or divisions; (2) the hiring of new faculty members with qualifications and competencies different from those possessed by any other members of the faculty; (3) the receipt of fellowships, research grants, or sabbatical leaves by faculty members uniquely qualified to teach certain courses; and (4) the revision of instructional programs and/or curricular offerings.

The most recent information can be obtained from the Office of the Dean of Academic Planning and Advising located in Erwin Administration Building, or by calling (585) 245-5541.

Additional information concerning graduate academic programs and curricular offerings of the College is provided in the Guide to Graduate Studies.

Payment Policies - SUNY Geneseo Bills Electronically

College bills are emailed to the student's Geneseo email address and are due approximately three weeks prior to the beginning of a semester. Failure to make appropriate payment may result in the cancellation of advance course registrations. The next opportunity to register with appropriate payment would be at the onset of open registration. Subsequent bills are issued throughout the semester as needed. These bills are payable on or before the due date printed on the bill. Failure to meet the payment deadline will result in a late fee of up to \$50.00. Grades, transcripts, and future registrations will be withheld until full payment is received. Accounts that remain outstanding will be referred to a third party collector where additional collection costs and interest will be assessed.

Refund Policies

Tuition Refund for Reduction of Course Load

If a student follows proper course withdrawal procedures within the first four weeks of a fall or spring semester, an adjustment of tuition and fees can be made, provided that enrollment status is changed from full-time; or having already been part-time, course load is reduced still further.

Adjustments will be calculated as follows:

Reduction of Course Load	Refund Tuition Charge	
During first week of semester	100%	None
During second week of semester	70%	30%
During third week of semester	50%	50%
During fourth week of semester	30%	70%
After fourth week of semester	None	100%

Room Charges Refund

Students who vacate their room prior to the 50% point of the semester are eligible for a refund of one half their room charges. After the 50% point of the semester, room charges are non-refundable.

Food Service Refund

Students who separate from the college are eligible for a refund of the unused portion of their meal plan if separation occurs prior to the 50% point of the semester. After the 50% point of the semester food service is non-refundable.

Special Refunds and Fee Waivers

In general, the Dean of Students is responsible for administration of extraordinary refund and fee waiver procedures involving all students, part-time or full-time. When students leave the College for reasons absolutely beyond their control, refunds stipulated in the SUNY Geneseo Refund Policy may be increased if the departure occurs before the middle of the semester. Under similar circumstances, refunds for room and board may be approved if the departure occurs at any time during the semester. Applications for exceptional withdrawal refunds are initiated with the Dean of Students, who may authorize refunds for extraordinary circumstances. Students must submit a letter to the Dean explaining the extraordinary circumstances causing the student withdrawal from school. Additional documentation may be required.

Other Waivers

Late registration fee waiver due to delay beyond a student's control: requests are made to the Dean of Curriculum and Academic Services, who has sole authority to authorize the Student Accounts Office to waive the fee.

Late payment fee waiver due to delay beyond a student's control: written requests are made to the Director of Student Accounts.

Meal plan considerations for medical reasons or extreme hardship: requests are made via the Meal Plan Modification Application available from the Director of Dining Services.

Return of Federal Financial Aid Policy

Federal law mandates how a school must compute the amount of federal financial aid that a student earns if he/she withdraws (officially or unofficially), takes a leave of absence, drops out of school, or is dismissed prior to completing 60% of the semester. Specifically, the amount of federal financial aid that the student earns is based on the percentage of the semester completed. All unearned federal financial aid must be returned. Careful consideration should be given to the financial ramifications of separating from the college prior to completing 60% of the semester. Additional information regarding this policy is available from the Office of Student Accounts.

Deposits

Tuition Deposit

All students who accept admission to the College must send an advance tuition deposit of \$150.00. Deposits may be paid on line through KnightWeb or mailed to:

**Office of Admissions
Doty Building
SUNY Geneseo
1 College Circle
Geneseo, NY 14454-1471**

This amount is applied against the semester charge for tuition and fees.

Deadlines

Students who are entering in September, if notified of their admission:

1. by April 1, must submit the deposit by May 1; or
2. after April 1, must deposit within 30 days after receipt of such notification, but before classes begin.

Students who are entering in January, if notified of their admission:

1. by October 1, must submit the deposit by November 1; or
2. after October 1, must deposit within 30 days after receipt of such notification, but before classes begin.

Room Deposit

Students who intend to reside in College housing facilities must submit to the Office of Admissions an advance deposit of \$150.00 (in addition to the \$150.00 deposit for tuition and fees already described).

Deposit Refunds

Tuition Deposit Refund

The advance tuition deposit for new students (\$150.00) is refunded routinely:

1. for the fall term when a written request is received by May 1 or 30 days after admission, whichever is later, but before registration; and
2. for the spring term, when a written request is received by November 1 or 30 days after admission, whichever is later, but before registration.

In special cases, when a written request is received by the Director of Admissions after the deadline, a refund may be granted if:

1. in the opinion of the Vice President for Enrollment Management, upon receiving the Director's recommendation, the circumstances involved are beyond the student's control and warrant such action; or
2. the student forwarded the deposit based upon a conditional acceptance that was subsequently rescinded.

Requests for the return of tuition deposits must be received in the Office of Admissions by the dates indicated above.

Room Deposit Refund

The \$150.00 room deposit is applied against room rent for the first semester. It is refunded, if:

1. a written request is received before May 1 or 30 days after admission (for students entering in September) or before November 15 (for those entering in January); or
2. when received later, it is approved by the Vice President for Student and Campus Life only because of circumstances entirely beyond the student's control.

All room deposit refund requests should be sent to:

Division of Student and Campus Life

The Student and Campus Life staff is responsible for the implementation of programs, policies, and services designed to create and sustain the optimal environment for student learning and achievement. Working collaboratively with the students and faculty, we aim to empower students to take responsibility for their education and to forge a sense of community on campus.

The Vice President for Student and Campus Life is the senior student affairs officer of the College. Organizationally, Student and Campus Life is made up of eight departments: Career Development, the Center for Community, Student Life, Student Health and Counseling, Intercollegiate Athletics and Recreation, Residence Life, Student Care Services/Title IX and the University Police Department. (For further information, see stulife.geneseo.edu)

Career Development

The Department of Career Development assists students in all aspects of their career planning. Students can make advisement appointments to get help choosing a major or career, securing internships and professional employment (resume and cover letter critiques and interview preparation), and selecting and applying to graduate school.

For students who need assistance selecting a major or career, a great first step is completing FOCUS 2, an online career and planning tool that can help students identify possible majors at Geneseo. Upon completing FOCUS 2, students can make an appointment to meet with a career advisor.

The Department of Career Development also assists students interested in securing experiential education opportunities, whether in the form of an internship, part-time employment, or shadowing experience. Our associate director for internship opportunities will assist students in identifying and securing an internship that fits their needs. Students are encouraged to address career concerns early in their academic experience at the College.

All students have a Handshake account to search for internships, professional positions, and employers, which is maintained by the Department of Career Development. All students are encouraged to login and activate their profile in Handshake.

The Department of Career Development is located in Erwin 116. Our office is open Monday - Friday, 8:00 am - 5:00 pm. For a comprehensive list of services and resources visit: https://www.geneseo.edu/career_development

Center for Community

The Center for Community staff, led by the Dean of Students, is responsible for the following aspects of student life at Geneseo: Fraternal Life and Off-Campus Services, Student Conduct and Community Standards, Leadership Development, Multicultural Programs and Services, Student Volunteerism and Service, and Student Employment Services.

The *Center for Community* works directly with students to assist them in adjusting to college life and to resolve problems and conflicts that may arise during their undergraduate careers. In addition, the Dean's staff works with students to interpret College policies and decisions, mediate conflicts, investigate complaints, and assure full access to all opportunities offered by the College. (See c4c.geneseo.edu)

The Assistant Dean of Students for Fraternal Life Services is responsible for promoting and supporting an educationally purposeful Greek life program consistent with the mission and goals of the College. The Assistant Dean serves as advisor to the Inter-Greek Council and Multicultural Greek Community and as a liaison between the College and all College recognized Greek organizations. The Assistant Dean also sponsors services and programs designed for Geneseo students who live off-campus. In this capacity, the Assistant Dean helps to further advance and support relations between the College and the Geneseo community; integrate on- and off-campus student living; serve as a College liaison with community groups, service groups, landlords, retailers and local business groups, and College neighbors; and develop educational programs and resources for students considering moving off campus. (See greeks.geneseo.edu and offcampus.geneseo.edu)

Geneseo is a residential college and living on campus is considered to be a significant component of the Geneseo educational experience. The College does not recommend or inspect off-campus housing facilities. All students, regardless of residence, are required to notify the Office of the Registrar of their current local address.

The Coordinator of Student Conduct and Community Standards works with the Dean of Students to coordinate the College's conduct system. Membership in the Geneseo community is predicated on each student's agreement to abide by standards of conduct promulgated by the College. The College's conduct process provides an educational framework for addressing individual student and group conduct that may be found to be inconsistent with community standards. (See conduct.geneseo.edu)

The Associate Dean of Leadership and Service provides students with opportunities for community engagement, and to acquire and enhance their leadership skills through developing an understanding of self, others, and community. GOLD (Geneseo Opportunities for Leadership Development) programs include a Leadership Certificate Program offering approximately 200 leadership workshops each semester, a Leadership Center staffed by volunteer leader mentors, an extensive leadership resource library, leadership conferences, peer-to-peer student leader training, newsletters and the co-curricular transcript. (See gold.geneseo.edu)

The Assistant Dean of Students for Multicultural Programs and Services is charged with the overall coordination of programs and efforts designed to support and continuously improve the College's ability to sustain an inclusive, mutually respectful campus community. The Assistant Dean provides leadership and guidance to the campus community on matters related to diversity and community, and specifically focuses on the needs of traditionally underrepresented student groups at Geneseo. The Assistant Dean also supervises the coordinator of LBGTQ services and the program coordinator for Hillel. (See multicultural.geneseo.edu)

The Coordinator of Student Leadership, Volunteerism, and Service seeks out, develops and maintains volunteer opportunities that offer Geneseo students meaningful experiences that develop character, and augment academic growth through experiential learning. Some of the most popular volunteer opportunities include tutoring and youth mentoring. The Coordinator hosts a Volunteer Fair at the start of each semester to introduce students to the available volunteer opportunities and to assist various community organizations with securing needed volunteers. (See volunteer.geneseo.edu)

The Student Employment Service (SES) assists students seeking part-time and summer jobs and paid internship opportunities. (See ses.geneseo.edu).

Department of Student Life

Geneseo achieves its educational mission by combining a rigorous curriculum with a rich co-curricular life. The student life experience at Geneseo is intentionally educational, and fosters widespread, substantive student engagement in carefully designed, developmentally based programs and services. It is the intention of the Department of Student Life to provide and to identify opportunities for students that result in increased learning, greater self-awareness and a clearer sense of purpose. As a department in the Division of Student and Campus Life, Student Life administers the campus living program, the MacVittie College Union, and selected co-curricular educational and assessment initiatives. Opportunities for student engagement and learning within the department include the all-college hour speaker series, Geneseo Late Knight, living learning communities, student organizations, Upstate Escapes, the Victor E. Knight mascot program, and Weeks of Welcome, as well as a number of student leadership and applied learning opportunities. We pursue ways to collaborate with Geneseo students, faculty and staff to support our students as they pursue their individual educational goals by challenging students to better themselves, demonstrating an ethic of individual care, and building a strong, vibrant campus community. (See www.geneseo.edu/student_life)

Campus Living

Campus Living operates 16 residence halls and 44 townhouses. Each hall accommodates an average of 200 students. All undergraduates are assured of the opportunity to live on campus, and all students who begin their college studies at Geneseo are required to live on campus for two years. Commuting students and transfer students who have completed a full year of full-time study at another college are exempt from this requirement. Each residence is supervised by a Student Life staff member and a staff of undergraduate Resident Assistants. These staff members guide students through their lives at Geneseo, provide information on and maintain College policies and procedures, and promote involvement in residence hall and campus governance. Students who reside in campus residence halls, excluding townhouse residents, are required to purchase a College meal plan. Students who wish to reside in a campus residence are required to reapply each year and pay a deposit to secure a room at the announced time(s) during the year. While room charges are assessed by the semester, the term of occupancy and financial obligation to the College is for an

entire academic year. Obligations may be cancelled for specific reasons such as graduation, withdrawal, and dismissal. All requests for cancellation of the obligation require the approval of the Director of Student Life.

Residence Hall Policies

Residence Hall Policies: All policies and procedures for resident students have been established based on the College's expectations for high academic achievement and the common good. All resident students must abide by Geneseo's residential license. The license serves as the official housing agreement between the student and the College. All Geneseo students, whether residents or commuters, are expected to comply with residence hall standards and the Student Code of Conduct, including the policies related to visitation, guests, and alcohol. (See www.geneseo.edu/campus_living)

Robert W. MacVittie College Union

The **Robert W. MacVittie College Union** serves as the campus center of social, cultural, recreational, and student governance programs. As the "College gathering place," it provides a place to study, relax, or visit with friends with plenty of lounges, meeting rooms, and an outdoor plaza. Services include Starbucks, the Corner Pocket game room, the campus mailroom, the College Union concierge desk, the Geneseo Federal Credit Union, computer project area, study room, the Student Association Ticket Office, A TM services, Kinetic art gallery, Geneseo bookstore, Fusion Market, Student Association and organizational offices, Student Life, and the Center for Community. The "MOSAIC" (Multicultural Organization Space for Activities, Inclusion, and Collaboration) is a space that provides multicultural student organizations with dedicated meeting space for their weekly meetings, organization office space, and a place for students to gather and spend their free time. The lobby is a popular place for student organizations to "table" and advertise upcoming entertainment or offer promotional items or services.

Student Organizations

A college registered **Student Organization** at SUNY Geneseo is any student-driven group whose primary membership and entire leadership consists of students currently enrolled at SUNY Geneseo and who are paying the mandatory student activity fee; is formed in order to contribute to the students' personal development and the advancement of the College Mission; non-credit bearing; and is officially registered with the Department of Student Life. Registration does not imply college endorsement of the positions and views of any organization. Rather, it implies that the institution accepts the organization's mission as educationally valid and that the organization has complied with institutional registration and continuing registration procedures. Student groups that are formed and sponsored by academic and administrative departments, in the pursuit of research, administrative activities and academic endeavors, are not considered college registered student organization. Rather, it implies that the institution accepts the organization's mission as educationally valid and that the organization has complied with institutional registration and continuing registration procedures. Student groups that are formed and sponsored by academic and administrative departments in the pursuit of research, administrative activities and academic endeavors, are not considered College registered student organization. Policies and Procedures for Student Organizations have been established as helpful guidelines and to acknowledge the integral role these groups play in the broader learning community. The department maintains the Student Organization handbook. More information is available elsewhere in this Bulletin under sections entitled "The Student Code of Conduct" and "Conduct Procedures for Recognized Student Groups" titled sections. (See www.geneseo.edu/student_life/student-organization-directory)

Intercollegiate Athletics and Recreation

The Intercollegiate Athletics and Recreation staff coordinates all intercollegiate athletic programs, intramural sports, College-sponsored recreational activities and the College Workout Center.

Intercollegiate Athletics

Geneseo sponsors 20 intercollegiate sports, 8 for men and 12 for women. These sports are men's and women's soccer, cross-country, basketball, swimming and diving, indoor and outdoor track and field, and lacrosse; women's field hockey, volleyball, softball, tennis, equestrian, and, men's ice hockey. Geneseo is a member of and competes in the National Collegiate Athletic Association (NCAA) Division III, State University of New York Athletic Conference (SUNYAC).

Intramural Sports

More than 40 different activities are offered each year in men's, women's and co-ed competition, enabling students to choose the activities and levels of competition they desire. Teams, some of which represent residence halls and Greek organizations, compete in such sports as flag football, soccer, softball, volleyball, basketball, and broomball. Dodgeball and racquetball are also popular intramural activities. Off-campus outings for downhill skiing, white water rafting, and trips to a Buffalo Bills football game, Rochester Americans hockey game and Syracuse basketball are all popular activities. Nearly 80% of Geneseo's students participate in at least one intramural activity before graduating.

Club Sports

The Student Association sponsors a number of club sports teams under the auspices of the Club Sports Association (CSA). Teams include men's and women's crew, men's volleyball, ultimate frisbee, cheerleading and men's tennis, badminton, men's and women's rugby, men's baseball, and ski team.

Intercollegiate Athletics and Recreation Facilities

The facilities in the Schrader Building and Merritt Athletic Center are available to students for formal and informal athletic and recreational pursuits. These facilities offer two gymnasiums, a swimming pool, racquetball and squash courts, an ice arena with an indoor jogging area and a state-of-the-art workout center. Outdoor facilities include eight tennis courts an all-weather, eight lane 400-meter track, and playing fields for soccer, lacrosse, softball, and other individual and group sports.

Workout Center

The College's Workout Center provides students with state-of-the-art fitness equipment including two complete Nautilus Circuits, over 30 cardio machines, and extensive free weights. Cardio machines include: Lifefitness Crosstrainers, recreational treadmills, Stairmasters, electronic bikes, Concept II rowers. The Center offers students access to equipment, advice on fitness and nutrition programs, aerobic dance classes, yoga, kickboxing and a great opportunity for promoting a healthy lifestyle. The Workout Center is located in the lower level of the Merritt Athletic Center. (See knights.geneseo.edu)

Lauderdale Center for Student Health and Counseling

The Lauderdale Center for Student Health and Counseling provides non-emergency outpatient medical and psychological care to all currently enrolled Geneseo students. Geneseo students can visit student Health and Counseling for a variety of health-related issues, including physical, emotional, and sexual health concerns, and to learn about ways to maintain a healthy lifestyle. These services are delivered by licensed health care professionals who are dedicated to meeting the specific needs of college students. Student Health and Counseling follows ethical and practice guidelines mandated by New York State, the Accreditation Association for Ambulatory Health Care, Inc., the American College Health Association and the American Psychological Association. (See health.geneseo.edu)

Health Services

Health Services offers routine primary care services such as physical exams, diagnosis and treatment of non-emergency health problems common to college students, management of chronic conditions and consultation on health issues. Health Services dispenses prescription medications and has over-the-counter medications available in the Self Care Center. Health Services staff may refer students off-campus for more specialized diagnostic services (including x-ray) or treatment. Health Services does not take the place of a hospital or emergency room in the case of a potentially life-threatening condition. Since there is more to maintaining a healthy campus than just taking care of ill students, wellness programs and health consumer education are offered by our providers and through the Office of Health Promotion. Located in Lauderdale Health Center, Health Services is open Monday, Wednesday, Thursday and Friday 8:00 am - 5:00 pm and Tuesday from 8:00 am - 7:00 pm. Telephone consultation with a registered nurse is available any time Health Services is closed by calling the Nurse Advice Line at 245-5736. To schedule appointments, students can call 245-5736 or schedule online at myhealth.geneseo.edu.

Counseling Services

Counseling Services provides short term counseling to Geneseo students who are experiencing a range of challenges in their lives. In addition to individual therapy, other services include consultation, crisis intervention, and referrals. Counseling also offers outreach programs, including the Healthy Bodies, Healthier Minds series through GOLD. Counseling Services is open Monday, Wednesday, Thursday and Friday 8:00 am - 5:00 pm and Tuesday from 8:00 am - 7:00 pm. To schedule an appointment, students should call 245-5716.

Medical History and Immunization Requirements

All students are required to complete their Medical History along with several other brief forms at the health portal myhealth.geneseo.edu prior to beginning classes. The physical examination and immunization are to be completed by the student's health provider and uploaded to their health portal. *The pre-enrollment physical cannot be completed at Health Services.* New York State law mandates that all students show proof of immunizations against measles, mumps, and rubella in order to be registered. State law also requires that students either receive the vaccination against bacterial meningitis, *within the last 5 years*, or sign a statement indicating that they have declined the vaccination. In keeping with recommendations of the New York State Department of Health and American College Health Association, we strongly encourage students to receive immunization against bacterial meningitis. *Students who do not present proof of required immunizations within 30 days of matriculation risk being dis-enrolled from the College.* Exemptions for medical and religious reasons are allowed (under specific circumstances) under the law. Students seeking additional information on exemptions should contact our EMR Technical Specialist at immunization@geneseo.edu or 585-245-6453.

Health and Counseling Records

All Student Health and Counseling records are confidential and maintained with the strictest care to ensure students' right to privacy, and are not part of students' academic records. Information from students' health and counseling records is not shared with anyone outside the department without their express permission, except in cases of imminent danger or as mandated by law.

Health Insurance

Because Student Health and Counseling sometimes refers students off-campus for services, we strongly encourage students to have adequate health insurance. Be sure to check to see if you are covered by your family's plan and if out-of-area services are covered: Full-time students up to age 26 may be covered by a parent's or family member's private health insurance policy- be sure to check whether coverage extends to the Geneseo and Rochester areas.

PLEASE NOTE: Most services within Student Health and Counseling are covered by the Student Health Fee, which is mandated as part of each student's tuition and completely different from private health insurance coverage.

If you do not currently have private health insurance coverage, you can contact New York State of Health for more information about family or individual health insurance. <https://nystateofhealth.ny.gov/>

If you have other insurance specific questions or need assistance with the process, please call our local contact: Cindy Wagner, navigator for Coordinated Care Services, Inc. Appointment line (585) 613-7662 press 3 for the Aged, Blind and Disabled Program - cwagner@ccsi.org.

University Police Department

The University Police Department at SUNY Geneseo seeks to develop and maintain a positive relationship with all members of our community and to effectively serve and support community oriented approach to law enforcement. The department is committed to the prevention of crime and the protection of life and property, the preservation of peace, order and safety while enforcing the law and ordinances and safeguarding constitutional guarantees. The objective of the community policing based philosophy is to sustain a safe and secure campus environment which works in support of the overall educational mission of the institution. This is done through establishing annual goals that are designed to enhance quality of life for all members of the community. In an effort to cultivate positive police community relations we seek to establish close working relationships with the faculty, staff and students to obtain their input with regard to their concerns for safety, security and educational community outreach programs. The University Police Department at SUNY Geneseo remains committed to the College, the Division of Student and Campus Life and the overall mission of the institution.

As sworn officers, University Police are responsible for the safety and security of students, faculty, staff, and visitors of the campus. Services provided by the Department include; but are not limited to, overall campus patrol, responding to calls for service, maintenance of public order, emergency first-aid, criminal investigation, community services, crime prevention, and parking and transportation services. The University Police Department works closely with student volunteers who serve the community as emergency medical responders.

Student Code of Conduct

Refer to handbook.geneseo.edu for new and updated information. Click on Student Code of Conduct on left side of the page.

Student Records

Students at Geneseo have the right to expect that information accumulated for the purpose of facilitating their education will not be used for any other purpose without their consent.

The College records policy, revised for detailed conformity with the Family Educational Rights and Privacy Act of 1974, permits current or former students to inspect college educational records pertaining to them as individuals, and except as defined below, to obtain copies for a fee. Students are also accorded the right to question the content of a record and to receive a formal hearing if dissatisfied with responses to such questions.

Written consent from a student is required before personally identifiable information can be released from the individual educational record in all cases except those specifically exempted by law.

There is certain directory information which the College may release without the student's permission: the student's name, local address, electronic mail (e-mail) address, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, photographs, and the most recent previous educational agency or institution attended by the student. However, a student may prevent the release of such information by writing to the Dean of Students before the first Friday of each semester.

The full College policy and procedure for exercising student rights under this law are available from the Dean of Students, or on-line. Inquiries or complaints may be filed with the Family Educational Rights and Privacy Act Office, Department of Health and Human Services, 350 Independence Avenue, S. W., Washington, DC 20201.

Advancement

SUNY Geneseo Alumni Association

The SUNY Geneseo Alumni Association or SGAA is the alumni association of the College and supports the College in its purpose, organization and structure. The SGAA will increase alumni participation and involvement by inspiring alumni to advance the mission of the College and expand the Geneseo network. The SGAA is comprised of an Executive Committee and committees on Young Alumni and Students, Recognition, Innovation, Annual Fund, Regional Chapters and Affinity Chapters.

The Geneseo Foundation

The Geneseo Foundation accepts private gifts from alumni, parents, friends, foundations and corporations to benefit students, faculty and programs at Geneseo. The Foundation provides scholarships, undergraduate research grants and assistantships for students; research and professional travel grants, and enrichment funds for academic departments and athletics. The Foundation Board of Directors is responsible for overseeing the Foundation's operations, establishing gift policies, managing its endowment and stewarding donations to the College. The board's 31 members are comprised of individuals committed to strengthening the College through private support. The Vice President for College Advancement serves as the Foundation's Executive Director.

Scholarships and Awards

Please visit the Scholarship page on the Geneseo Foundation web site go.geneseo.edu/scholarships for detailed information about the scholarships and awards listed in this section.

Campus Auxiliary Services (CAS)

Campus Auxiliary Services, Inc. is a not-for-profit educational corporation operating a variety of campus services for the Geneseo College community. A Board of Directors comprised of students, faculty, and administrators determines the budget and policies of the Corporation within the guidelines established by SUNY Systems Administration.

These services include on-campus restaurants and cafes, Impressions catering, vending, residential laundry services, cable television, campus ID card, refuse and recycling, ATM banking services and accounting services to approved campus organizations. CAS also subcontracts Geneseo's official textbook store, the Geneseo University Bookstore.

Geneseo University Bookstore

The Geneseo University Bookstore is located in the MacVittie College Union and is the official source for all campus academic textbooks. The bookstore also sells Geneseo imprinted clothing and souvenirs, class rings, academic attire, and academic supplies.

CAS Restaurants & Cafes

CAS provides all foodservice to the college campus at eight on-campus restaurants and cafes. Red Jacket and Food Studio North are located amongst the residence halls and offer pay one price meals seven days a week. Other locations across the campus include Mary Jemison, Books & Bytes in Milne Library and Starbucks and Fusion Market in the College Union. The student meal plan can also be used at the Big Tree Inn, a landmark dining establishment located on Main Street in the village of Geneseo, at Geneseo sports concessions, at the Chowhound, a food truck that travels across campus, and at Uncle Vito's, a pizza delivery service that delivers on-campus.

Meal Plan

All campus resident students are required by College policy to purchase one of several meal plans. An encoded ID card is used to deduct the value of the food selected from an individual's meal plan account balance. Information regarding meal plans is available from the CAS restaurants and cafes and online at geneseo.edu/cas. Students with special dietary needs should consult with the Nutrition & Wellness Coordinator.

Geneseo ID Card

CAS produces the official College identification card for all students, faculty and staff. This is required for campus identification purposes. It is used for meal and vending purchases. Other uses of the ID Card are for the library, access to residence halls and restricted academic areas.

Enrollment Management/Admissions

admissions.geneseo.edu

Enrollment

The planned enrollment for the next two academic years is approximately 5700 full-time undergraduate students. An estimated 100 part-time students are also expected to enroll.

Student Retention

The College monitors student retention rates for each entering class using a six-year cohort survival technique. The latest figures show that nearly 78% of the freshman class complete baccalaureate degrees on time. Specific details on retention rates are available from the Office of Institutional Research, 221 Erwin Hall, or online at www.geneseo.edu/ir/fact_book

Admissions

Admission to the College is based upon the academic and personal qualifications of applicants and is granted without regard to age, color, disability, marital status, national origin, sex, sexual orientation, religion, race, or status as a disabled or Vietnam-era veteran. The candidate selection process is highly competitive; the College attempts to identify those individuals who will most benefit from the curricular and co-curricular programs offered.

Application Procedures

Applications for admission to the College may be accessed online at either commonapp.org or suny.edu/applysuny. Electronic applications are preferred. Applications should be completed by January 1 for fall semesters and November 1 for spring semesters. Candidates are encouraged to apply early to assure full consideration.

Interviews

Personal interviews are not required for admission but are encouraged. However, for prospective students and their families who have questions and would like to speak to an admissions counselor, the Office of Admissions schedules appointments between 8:30 a.m. and 3:30 p.m., Monday through Friday. Campus tours and information sessions are conducted daily and on most Saturdays during the year. Prospective applicants are encouraged to make appointments for interviews and tours at least two days in advance of their visit to campus. Appointments may be scheduled by calling the Admissions Office at (585) 245-5571 or (866) 245-5211. Visitors may also schedule themselves for a tour on the Tour and Events Calendar on the Admissions website at geneseo.edu/admissions.

First Year Admission

Applicants for admission to the first year class must present official copies of their high school transcripts showing all courses completed and grades earned. High school graduation or completion of a high school equivalency diploma is a minimum requirement for admission consideration.

Candidates must also present the results of either the Scholastic Aptitude Test (SAT I) of the College Entrance Examination Board or the Assessment of the American College Testing Program (ACT). The Committee on Admissions will give preference to the strongest performance when multiple test scores are submitted.

The Committee on Admissions considers a number of factors when selecting students for the first year class, including the rigor of each candidate's academic program, performance on examinations, improvement in performance, rank in class, unweighted grade point average, a written essay, letters of recommendation, extracurricular accomplishments, and scores from one of the national college testing programs described above. Candidates for admission to fall semesters are notified of admissions decisions on March 1. Decisions for spring semesters are released after November 1.

Early Decision Program

Geneseo participates in a first-choice, early decision plan. The purpose of this program is to secure positions in the first year class for superior candidates who have decided upon Geneseo as their first-choice college and who have academic credentials that would place them in the most preferred category. Candidates may apply to only one college through early decision, but may apply to more than one college through regular decision. However, if admitted under the early decision program, students agree to attend Geneseo and to withdraw all other applications. To apply for early decision at Geneseo, candidates must have the following information on file in the Admissions Office no later than November 15:

1. An application. (The College accepts either the common application or the SUNY application);
2. An official high school transcript and results of either the Scholastic Aptitude Test (SAT I) or American College Test (ACT);
3. All required supplemental information;
4. A letter of recommendation from a teacher;
5. A signed early-decision contract with a handwritten Statement of Commitment. The contract must be signed by the student and the parent or guardian.

Early decision candidates are advised of the Admissions Committee's decision by mid-December.

Special Talent Admission

Special consideration may be given to candidates who present evidence of a talent or proficiency in athletics, music, theatre, or another area that would enable them to make a special contribution to enriching the life of the campus. The Committee on Admissions will consider an individual's special talent in conjunction with standard selection criteria. Additional information may be obtained from the Director of Admissions.

International Student Admissions

The College invites applications from students from other countries. Because the College offers limited instruction in English as a foreign language, candidates must demonstrate competence in both written and spoken English. In most cases, candidates must submit the scores from the TOEFL or the IELTS examination along with a complete record of their secondary school and college studies. International students must submit a completed application with all required supporting documents by June 1 for the Fall term and November 1 for Spring .

Transfer Admission

Candidates who will have completed a minimum of 12 semester credit hours (or the equivalent) from another accredited institution of higher education after high school graduation by the time of their initial enrollment at Geneseo are considered transfer applicants. Admission of transfer applicants is based on the academic rigor and appropriateness of content of previous college studies, as well as on the student's level of success in that work.

All transfer applicants must provide copies of their high school transcripts and all college transcripts; the Committee on Admissions will consider all records when selecting candidates.

Transfer candidates are considered for admission on a rolling basis, and may therefore apply at any time. To avoid potential space issues, it is recommended that transfer students apply for the fall semester by March 1st; or the Spring semester by November 1st.

International Student and Scholar Services Office

The International Student and Scholar Services Office, located in Erwin 218, is responsible for the recruitment, credential evaluation and admission of students from other countries. Prospective students considering undergraduate admission who are not U.S. citizens or immigrants should contact the Director of International Student and Scholar Services for appropriate application materials.

In addition to its admissions responsibilities, the International Student and Scholar Services Office issues the federal documents required for prospective students to obtain student visas for entry to the United States and enrollment at the university. The office acts as the liaison for the university between students on F-1 and J-1 visas and the U.S. Government. In that capacity, the office also assists international and exchange students whenever they need information on securing visas, renewing passports, on-campus employment authorization procedures, applying for off-campus employment, traveling outside the United States and other legal matters pertaining to their particular legal status in the U.S.

Specialized programs, such as the International Student Orientation, are provided to assist international students with their adjustment to study in the U.S.A. and life in the United States and at Geneseo. Specialized English language courses are offered for non-native speakers every academic term. For more information, visit the office's website at: geneseo.edu/international.

Leaves of Absence

Students who have an overall grade point average of at least 2.00 and who have no outstanding obligations to the College are eligible to take a Leave of Absence from their studies for up to two semesters and retain the right to enroll at the College at the end of the Leave preserving their original catalog year and without applying for readmission.

If a student wishes to take a Leave during a semester in progress, an application must be filed before the published course withdrawal deadline to receive grades of "W"; if a student applies for a Leave after this deadline, grades of "E" will be recorded in all courses.

Application forms for Leave are available on-line at geneseo.edu/enrollment-management for download. Completed application forms should be submitted in the Office of the Vice President for Enrollment Management, Doty 312.

Students who leave campus to study abroad or at another college may have to take a Leave of Absence, depending on the type of program in which they enroll. (See "Studying at Other Colleges.")

Students on Leave of Absence who fail to return or to fulfill their obligations to the College will have their status changed from Leave of Absence to Administrative Withdrawal. (See below.) If they are readmitted to the college after being placed on Administrative Withdrawal, they return under the catalog of the year of their readmission.

Withdrawing from the College

Students who wish to leave the College permanently must formally withdraw. Students who are not eligible for a Leave of Absence or who wish to be absent for longer than two semesters must withdraw from the College and apply for subsequent readmission. To withdraw, students file an application in the Office of the Vice President for Enrollment Management, Doty 312, and demonstrate that all financial and other obligations to the College have been cleared.

Students who wish to withdraw from the College at the end of a semester must file the appropriate form prior to leaving campus. The deadline for withdrawal from the College during a semester in progress is the published deadline for course withdrawals to receive course grades of "W"; students in academic difficulty who process withdrawal requests after the deadline can still be academically dismissed; a dismissal takes precedence over a withdrawal.

Financial Aid

The Office of Financial Aid administers primary state and federal financial aid programs for college students, including grants, loans, and work aid. To be considered for financial aid, students must file the Free Application for Federal Student Aid (FAFSA). Go to www.fafsa.ed.gov to complete the Free Application for Federal Student Aid (FAFSA) and list Geneseo's federal school code - 002845. Students that are NY State residents should also complete a NYS Tuition Assistance Program (TAP) application at www.tapweb.org. Prospective early decision applicants should apply by November 15 and will receive financial aid notices beginning in mid-December; regular decision candidates should apply by February 1 and be notified in March. Continuing students should apply by February 15 and be notified in mid-March.

Federal Financial Aid Programs

Federal Pell Grant

Pell is an entitlement program for undergraduates matriculated in a degree program. Awards are based on need and may be used for college-related expense. For 2017-2018 the maximum award is \$5,920. The minimum Pell grant award is \$606. Students are limited to 12 semesters of Federal Pell Grant eligibility during their lifetime or may be awarded up to the first bachelor's degree, whichever comes first.

Federal Supplemental Educational Opportunity Grant (FSEOG)

This program provides additional grant assistance to the highest need Pell Grant recipients. Preference is given to early FAFSA filers. Funds are limited.

Federal Work-Study Program (FWS)

This work program for students demonstrating significant financial need primarily includes positions on campus. Whenever possible, placements are made in accord with students' educational/vocational goals. Students typically can earn about \$750 per semester. Preference is given to early FAFSA filers.

Federal Perkins Loan

Eligible undergraduate students may borrow a low interest loan for expenses related to the completion of the bachelor's degree. Limited funds are available; preference is given to full-time students. Students are permitted up to a ten-year repayment period. The repayment schedule depends upon the total borrowed; the minimum payment is \$40 per month, which includes 5% interest on the unpaid balance. The loan is fully deferred while maintaining at least half-time enrollment. Perkins Loans may be canceled for those employed full-time in law-enforcement, or as teachers in schools designated by the Department of Education as serving low-income families, or in a Federal Head-Start Program. The Federal Perkins Loan program is set to expire after the 2017-2018 academic year.

Federal Direct Subsidized Stafford Loan

This federal, need-based subsidized loan is available to undergraduate students only. Loan eligibility is determined by the college, based on costs and the results of the FAFSA. This low interest loan (fixed rate at 4.45% for 2017-18) becomes payable once the student graduates, withdraws, or drops below 6 credit hours.

Federal Direct Unsubsidized Stafford Loan

This loan is available to all eligible undergraduate and graduate students, regardless of income and expected family contribution. The unsubsidized loan's terms and conditions are the same as the subsidized loan, with the exception 1) interest accrues on this loan while the student is enrolled and 2) the interest rate for graduate students is 4.45% for 2017-18. Please refer to the Office of Financial Aid website for more information.

Federal Direct Parent Loan for Undergraduate Students (PLUS)

This loan will allow parents of dependent students to borrow up to the cost of education minus other financial aid. The interest rate for 2017-18 is 6.0% and parents may borrow each year that a dependent student is in college. The interest and principle payments for the loan begin after the funds are disbursed. Parents may request a forbearance to avoid making payment while the student is enrolled. Complete details are available from www.studentloans.gov.

Veterans' Administration

Eligible veterans and children or spouses of eligible deceased or service-connected, disabled veterans may be eligible for aid for approved post-secondary study. Information and application forms are available at all Veterans' Administration Offices.

Bureau of Indian Education

The U. S. Bureau of Indian Education's Higher Education Grant offers "supplemental financial assistance to eligible American Indian and Alaska Native scholars..." Awards vary based upon need and availability of funds. More information is available through students' tribal leaders and at www.bie.edu.

New York State Financial Aid Programs

Tuition Assistance Program (TAP)

TAP is a grant program for New York State residents attending approved colleges in the State. Students must apply annually for this grant using the Free Application for Federal Student Aid (FAFSA). TAP award amounts are based on New York State net taxable income and the number of family members attending college full time. Awards range from \$500 to \$5165 for up to eight semesters of full-time study. TAP recipients also receive a SUNY Tuition Credit from Geneseo, an additional grant based on the TAP award amount, intended to assist students in covering tuition increases. In addition to TAP, the State of New York offers 15 other scholarships and awards. Information is available at www.hesc.com.

Excelsior Scholarship

NY State residents that meet the income and academic criteria of the Excelsior Scholarship may qualify for free tuition. For more information on Excelsior or to apply go to www.hesc.ny.gov.

Educational Opportunity Program (EOP)

EOP admits undergraduate students who are academically and economically disadvantaged as defined by program guidelines. EOP awards annual grants to students in the program. EOP is available only to New York State residents. The FAFSA form is used to determine financial eligibility. Contact SUNY Geneseo's Access Opportunity Program Office at (585)245-5725 with specific questions.

Scholarships

All students accepted for freshmen and transfer admission are automatically considered for scholarships by the Admissions Office. Continuing students can apply for scholarships during the fall semester. Contributions made through The Geneseo Foundation provide both endowed and non-endowed scholarships for qualifying Geneseo students.

Satisfactory Academic Progress (SAP) (for Financial Aid)

Students must meet prescribed standards of academic progress in order to continue to receive Federal and State financial assistance in subsequent semesters. Compliance with State standards is reviewed each semester; Federal standards are reviewed every May.

Below are the criteria used to assess state academic progress.

State Standards of Academic Progress 2011 and Beyond

End of Semester	1	2	3	4	5	6	7	8	9
Required Sem. Hrs.of Graded (non-W's) credit	6	6	9	9	12	12	12	12	12
Required Minimum Cumulative Hrs. Earned	6	15	27	39	51	66	81	96	111
Minimum Cumulative Grade Point Average	1.50	1.80	1.80	2.00	2.00	2.00	2.00	2.00	2.00

Failure to Meet State Standards

A student that fails to meet the academic standards for NYS financial aid will be notified by mail. Notices will be sent upon completion of the term once grades are submitted and reviewed.

Reinstatement of State Eligibility

Students who lose their eligibility for New York State financial aid for failing to meet the standards listed above may apply to have their State financial aid eligibility reinstated. If approved, state aid will be reinstated. Such a waiver can be granted only one time in a student's undergraduate academic career. In order to apply for an appeal (see Appeal Process), the student must demonstrate that an unusual/extenuating circumstance existed while the student was enrolled at SUNY Geneseo and had affected his/her academic performance; that the circumstance is now resolved or no longer exists; and provide documentation of the circumstance.

Federal Financial Aid Standards of Academic Progress

Federal financial aid regulations assess progress on using three criteria - Pace, Grade Point Average (GPA), and Maximum Time-frame.

Pace of Progression

A student's pace is calculated by dividing the number of hours earned by the total number of hours attempted.

- A student must complete at least 67% (rounded up to the nearest credit) of all cumulative attempted credit hours to continue receiving federal student aid.

Grade Point Average

- To maintain eligibility for federal aid, a student must earn a minimum 2.0 Cumulative GPA.

Maximum Time frame

- Federal aid cannot be paid to a student who exceeds 150% of the published length of the degree program (typically 120 credits).

All credits attempted at SUNY Geneseo, even terms in which the student did not receive financial aid, are included in attempted credits including all W, I, E, F and U grades. Transfer credits accepted by SUNY Geneseo will be included as both credits attempted and credits completed. Transfer credits not accepted are not considered. Withdrawals are also included in the attempted credits calculation. Incompletes will not be included until a grade has been assigned. Repeat courses are counted once. Note: Students receiving financial aid should consult the Financial Aid Office before repeating a course; repeating courses may have an impact on financial aid eligibility.

Failure to Meet Federal Standards Financial Aid Suspension

If a student fails to maintain satisfactory academic progress for federal aid, the student will be placed on Financial Aid Suspension. Students on suspension are not eligible for federal financial aid. This includes grants, loans and work study.

Reinstatement of Federal Eligibility

The College may consider exceptional circumstances which would justify an appeal allowing the student to receive financial aid for the following semester. Students that wish to appeal should following the instructions under the Appeal Process below.

Appeals for federal aid will result in one of three decisions:

- Financial Aid Probation - A student whose appeal is granted will be put on Financial Aid Probation and will regain eligibility for federal aid. If after the next semester the student still does not meet the SAP standards, they will be ineligible for further aid until they do.
- Financial Aid Probation with an academic plan - A student whose appeal is accepted who will not be able to regain satisfactory academic standing in one semester will be placed on Financial Aid Probation with an academic plan. Plans will vary depending on academic record. Upon completion of a semester on an academic plan, a student must meet all terms of their individualized plan. If they do not, they will lose future eligibility for all federal aid.
- Loss of Eligibility - If an appeal is denied, the student will be ineligible for further aid until they meet the SAP standards.

Appeal Process

An appeal is the process by which a student who is not meeting SAP standards petitions the school for reconsideration of their eligibility for student aid. Appeals will be granted in accordance with the following policy:

An appeal for federal and/or state aid will be granted if situations beyond the student's control prevent the student from maintaining satisfactory academic progress. These situations must be documented by an unbiased third party or on- or off-campus agencies. The appeal will be granted only when there is reasonable expectation that the student will meet future academic requirements.

Reasons appeals may be granted include:

1. personal medical problems
2. family medical problems
3. severe personal problems
4. other extenuating circumstances beyond the control of the student

Third party documentation is required in all requests. Appeals will not be granted to students who reduce their course loads to avoid academic difficulty.

To apply for an appeal, submit a written request detailing the extenuating circumstances that interfered with your academic progress and how your circumstances have changed so that you may now meet the standards for academic progress. A statement simply requesting an appeal is insufficient. This statement must be accompanied by third party

documentation supporting the given reasons for failing to maintain academic progress. These materials must be postmarked by the date specified in the notification letter and should be sent to:

Director of Financial Aid
Financial Aid Appeal Committee
Erwin 104

The Financial Aid Appeal Committee will review the student's request and supportive documentation. The student will be notified in writing of the Committee's decision. The decision regarding the appeal is final.
